Since the last revision of the Official Grain Standards of the United States for Grain Sorghum, effective July 1, 1935, there have been changes in the character of the grain sorghum crop due to the adoption of new varieties and the mechanization of the methods of harvesting the crop. The test weight per bushel of the varieties now grown is higher than that of the varieties grown 20 or 25 years ago. It has also been found that the varieties now grown are not true durra, milo, or kafir types but are crosses and therefore it is proposed that the subclasses associated with these types be eliminated. For the same reason it is proposed to eliminate the class Red grain sorghums. The change in methods of harvesting has to a large extent eliminated dockage in grain sorghum. It is therefore proposed that dockage as such be eliminated and that special limits for fine foreign material be included under the grading factor designated as foreign material. As an alternative to this proposal, dockage as applied at present is also proposed. In addition it is proposed to lower the moisture requirements in grades No. 1, No. 2, and No. 3, to provide for better keeping quality for the grain in these grades and an alternative proposal providing for a special grade "Tough" in lieu of specific moisture limits as numerical grading factors is also offered for consideration. It is further proposed that nongrain sorghum be eliminated as a grading factor since it is now seldom a grade determining factor. In addition, other minor changes are offered for consideration.

Accordingly, it is proposed that consideration be given to revising the Official Grain Standards of the United States for Grain Sorghum to read as follows:

§ 26.551 Terms defined.

For the purposes of the official grain standards of the United States for grain sorghum (Sorghum vulgare):

(a) *Grain sorghum.* Grain sorghum shall be any grain which consists of 50 percent or more of whole kernels of grain sorghum, which contains not more than 10.0 percent of other grains for which standards have been established under the United States Grain Standards Act, and which, after the removal of foreign material, contains not more than 10.0 percent of nongrain sorghum.

(b) *Classes.* Grain sorghum shall be divided into the following four classes: Yellow Grain Sorghum, White Grain Sorghum, Brown Grain Sorghum, and Mixed Grain Sorghum.

(1) *Yellow Grain Sorghum.* The class Yellow Grain Sorghum shall be grain sorghum with yellow, salmon-pink, or red seedcoats, which contains not more than 10.0 percent of grain sorghum of other colors.

(2) *White Grain Sorghum.* The class White Grain Sorghum shall be grain sorghum with white seed coats, which contains not more than 10.0 percent of grain sorghum of other colors. Colored spots upon kernels of grain sorghum otherwise white shall not affect their classification as White Grain Sorghum. Grain Sorghum with white seedcoats and brown subcoats shall not be classed as White Grain Sorghum.

(3) *Brown Grain Sorghum.* The class Brown Grain Sorghum shall be grain sorghum with brown seedcoats, which contains not more than 10.0 percent of grain sorghum of other colors. Grain sorghum with white seedcoats and brown subcoats shall be classed as Brown Grain Sorghum (see paragraph (b)(2) of this section).

(4) *Mixed Grain Sorghum.* The class Mixed Grain Sorghum shall be grain sorghum which does not meet the requirements for the class Yellow Grain Sorghum, White Grain Sorghum, or Brown Grain Sorghum.

(c) *Grades.* Grades shall be the numerical grades, Sample grade, and special grades provided for in section 26.553.

(d) *Foreign material (total).* Foreign material (total) shall be all matter including kernels and pieces of kernels of grain sorghum which will pass readily through a 5/64 triangular hole sieve and all matter other than grain sorghum which remains on the sieve after sieving.

(e) *Fine foreign material.* Fine foreign material shall be foreign material which will pass readily through a 2½/64 round hole sieve.

(f) *Other grains.* Other grains shall be barley, hull-less barley, corn, flaxseed, oats, rye, soybeans, wheat, cultivated buckwheat, einkorn, emmer, Polish wheat, popcorn, poulard wheat, rice, spelt, sweet corn, and wild oats.

(g) *Nongrain sorghum.* Nongrain sorghum shall be the seeds of sweet sorghum (sorgo), sorghum-sudan hybrids, sorgrass, broomcorn, Johnson grass, and Sudan grass.

(h) *Damaged kernels (total).* Damaged kernels (total) shall be kernels and pieces of kernels of grain sorghum, nongrain sorghum, and other grains which are heat damaged, sprouted, frosted, badly ground-damaged, badly weather-damaged, moldy, diseased, or otherwise materially damaged.

(i) *Heat-damaged kernels.* Heat-damaged kernels shall be kernels and pieces of kernels of grain sorghum, nongrain sorghum, and other grains which are materially discolored and damaged by heat.

(j) *Stones.* Stones shall be concreted earthy or mineral matter and other substances of similar hardness that do not disintegrate readily in water.

(k) *5/64 triangular hole sieve.* A 5/64 triangular hole sieve shall be an aluminum sieve 0.0319 inch thick with equilateral triangular perforations, the inscribed circles of which are 0.0781 (5/64) inch in diameter and which are ¼ inch from center to center. The perforations of each row shall be staggered in relation to the adjacent row.

(l) *2½/64 round hole sieve.* A 2½/64 round hole sieve shall be an aluminum sieve 0.0319 inch thick perforated with round holes 0.0391 (2½/64) inch in diameter which are 0.075 inch from center to center. The perforations of each row shall be staggered in relation to the adjacent row.

§ 26.552 Principles governing application of standards.

The following principles shall apply in the determination of the classes and grades of grain sorghum:

(a) *Basis of determination.* Each determination of class, damaged kernels, heat-damaged kernels, nongrain sorghum, and stones shall be on the basis of the grain when free from that part of the "foreign material" which can be removed readily by the use of a 5/64 triangular hole sieve. All other determinations shall be upon the basis of the grain as a whole.

(b) *Percentages.* Percentages shall be upon the basis of weight.

(c) *Moisture.* Moisture shall be ascertained by the air-oven method for grain sorghum prescribed by the United States Department of Agriculture as described in Service and Regulatory Announcements No. 147 (1959 revision), issued by the Agricultural Marketing Service, or ascertained by any method which gives equivalent results.

(d) *Test weight per bushel.* Test weight per bushel shall be the weight per Winchester bushel, as determined by the method prescribed by the United States Department of Agriculture as described in Circular 921, issued June 1953, or as determined by any method which gives equivalent results.

§ 26.553 Grades, grade requirements and grade designations.

The following grades, grade requirements, and grade designations are applicable under these standards:

(a) *Grades and grade requirements for the classes Yellow Grain Sorghum, White Grain Sorghum, Brown Grain*

Sorghum, and Mixed Grain Sorghum. (See also paragraph (c) of this section.)

Grade	Minimum test weight per bushel	Maximum limits of—				
		Moisture	Damaged kernels		Foreign material	
			Total	Heat-damaged kernels	Total	Fine foreign material
	Pounds	*Percent*	*Percent*	*Percent*	*Percent*	*Percent*
1	58	13.0	2.0	0.2	3.0	0.5
2	56	14.0	5.0	.5	6.0	1.0
3	54	15.0	10.0	1.0	9.0	1.5
4	51	18.0	15.0	3.0	12.0	2.0

Sample grade: Sample grade shall be grain sorghum which does not meet the requirements of any of the grades from No. 1 to No. 4, inclusive; or which contains stones; or which is musty, or sour, or heating; or which is badly weathered; or which has any commercially objectionable foreign odor except of smut; or which is otherwise of distinctly low quality.

[1] Grain sorghum which is distinctly discolored shall not be graded higher than No. 3.

(b) *Grade designation for all classes of grain sorghum.* The grade designation for grain sorghum shall include, in the order named, the number of the grade or the words "Sample grade," as the case may be; the name of the class; and the name of each applicable special grade. In the case of the class Mixed Grain Sorghum, the grade designation shall also include, following the name of the class, the approximate percentages of yellow grain sorghum, white grain sorghum, and brown grain sorghum, if any, in the mixture.

(c) *Special grades, special grade requirements, and special grade designations for grain sorghum*—(1) *Smutty grain sorghum*—(i) *Requirements.* Smutty grain sorghum shall be grain sorghum the kernels of which are covered with smut spores, or which contains 20 or more smut masses in 100 grams of grain sorghum.

(ii) *Grade designation.* Smutty grain sorghum shall be graded and designated according to the grade requirements of the standards applicable to such grain sorghum if it were not smutty, and there shall be added to and made a part of the grade designation the word "Smutty."

(2) *Weevily grain sorghum*—(i) *Requirements.* Weevily grain sorghum shall be grain sorghum which is infested with live weevils or other live insects injurious to stored grain.

(ii) *Grade designation.* Weevily grain sorghum shall be graded and designated according to the grade requirements of the standards applicable to such grain sorghum if it were not weevily, and there shall be added to and made a part of the grade designation the word "Weevily."

The following alternative proposals will be given consideration:

A. Eliminate fine foreign material as a grading factor and provide that all material which will pass readily through a 2½/64 round hole sieve shall be considered as dockage.

This proposal requires the following changes in the several sections of the original proposal.

1. Substitute the following paragraphs, respectively, for paragraphs (a), (d), and (e) in § 26.551, as set out above:

(a) *Grain sorghum.* Grain sorghum shall be any grain which, before the removal of dockage, consists of 50 percent or more of whole kernels of grain sorghum, which contains not more than 10.0 percent of other grains for which standards have been established under the United States Grain Standards Act, and which after the removal of the dockage and foreign material, contains not more than 10.0 percent of nongrain sorghum.

* * * * *

(d) *Dockage.* Dockage shall be sand, dirt, finely broken kernels of grain sorghum, weed seeds, and any other material which will pass readily through a 2½/64 round hole sieve (see also paragraph (b) of § 26.552 and paragraph (b) of § 26.553).

(e) *Foreign material.* Foreign material shall be all matter including kernels and pieces of kernels of grain sorghum, except dockage, which will pass readily through a 5/64 triangular hole sieve and all matter other than grain sorghum which remains on the sieve after sieving.

2. Substitute the following paragraph for paragraphs (a) and (b) in § 26.552, as set out above:

(a) *Basis of determinations.* Each determination of foreign material shall be on the basis of the grain when free from dockage. Each determination of class, damaged kernels, heat-damaged kernels, nongrain sorghum, and stones shall be made upon the basis of the grain when free from dockage and that part of the foreign material which can be removed readily by the use of a 5/64 triangular hole sieve. All other determinations shall be upon the basis of the grain as a whole.

(b) *Percentages.* Percentages shall be upon the basis of weight. The percentage of dockage when equal to 1 percent or more shall be stated in terms of whole percent and when less than 1 percent shall not be stated. A fraction of a percent shall be disregarded.

3. Substitute the following paragraph for paragraphs (a) and (b) in § 26.553:

(a) *Grades and grade requirements for the classes of Yellow Grain Sorghum, White Grain Sorghum, Brown Grain Sorghum, and Mixed Grain Sorghum* (see also paragraph (c) of this section).

Grade	Minimum test weight per bushel	Maximum limits of—			
		Moisture	Damaged kernels		Foreign material
			Total	Heat-damaged kernels	
	Pounds	*Percent*	*Percent*	*Percent*	*Percent*
1	58	13.0	2.0	0.2	3.0
2	56	14.0	5.0	.5	6.0
3	54	15.0	10.0	1.0	9.0
4	51	18.0	15.0	3.0	12.0

Sample grade: Sample grade shall be grain sorghum which does not meet the requirements of any of the grades from No. 1 to No. 4, inclusive; or which contains stones; or which is musty, or sour, or heating; or which is badly weathered; or which has any commercially objectionable foreign odor except of smut; or which is otherwise of distinctly low quality.

[1] Grain sorghum which is distinctly discolored shall not be graded higher than No. 3.

(b) *Grade designation for all classes of grain sorghum.* The grade designation for grain sorghum shall include, in the order named, the number of the grade or the words "Sample grade," as the case may be; the name of the class; the name of each applicable special grade, and when applicable the word "Dockage" together with the percentage thereof. In the case of the class Mixed Grain Sorghum the grade designation shall also include, following the name of the class, the approximate percentages of yellow grain sorghum, white grain sorghum, and brown grain sorghum, if any, in the mixture.

B. Eliminate moisture as a numerical grading factor in the table of grade requirements and substitute a special grade for tough grain sorghum.

This proposal would require the following changes in § 26.553 of the original proposal:

1. Substitute the following paragraph for paragraph (a) of § 26.553, as set out above:

(a) *Grades and grade requirements for the classes Yellow Grain Sorghum, White Grain Sorghum, Brown Grain Sorghum, and Mixed Grain Sorghum* (see also paragraph (c) of this section).

Grade	Minimum test weight per bushel	Maximum limits of—			
		Damaged kernels		Foreign material	
		Total	Heat-damaged kernels	Total	Fine foreign material
	Pounds	*Percent*	*Percent*	*Percent*	*Percent*
1	58	2.0	0.2	3.0	0.5
2	56	5.0	.5	6.0	1.0
3	54	10.0	1.0	9.0	1.5
4	51	15.0	3.0	12.0	2.0

Sample grade: Sample grade shall be grain sorghum which does not meet the requirements of any of the grades from No. 1 to No. 4, inclusive; or which contains more than 18.0 percent of moisture; or which is musty, or sour, or heating; or which is badly weathered; or which has any commercially objectionable foreign odor except of smut; or which is otherwise of distinctly low quality.

[1] Grain sorghum which is distinctly discolored shall not be graded higher than No. 3.

1. Add a new subparagraph (3) to paragraph (c) of § 26.553, as set out above, to read as follows:

(3) *Tough grain sorghum*—(i) *Requirements.* Tough grain sorghum shall be grain sorghum which contains more than 13.0 but not more than 18.0 percent of moisture.

(ii) *Grade designation.* Tough grain sorghum shall be graded and designated according to the grade requirements of the standards applicable to such grain sorghum if it were not tough, and there shall be added to and made a part of the grade designation, the word "Tough."

The United States Grain Standards Act requires that public notice be given of the revision of standards adopted under its provisions not less than 90 days in advance of the effective date of such revision. If revised standards for grain sorghum are promulgated, they should be made effective on or about June 15, 1962.

Pursuant to the provisions of section 4 of the Administrative Procedure Act (5 U.S.C. 1003), informal public hearings will be held as follows:

Lubbock, Texas, beginning at 1:30 p.m., on January 29, 1962, in the MacKenzie Terrace, 407 East Broadway.

Kansas City, Missouri, beginning at 9:30 a.m., on January 31, 1962, in the Georgian Room of the Continental Hotel.

Written data, views, or arguments may also be submitted to the Director, Grain Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D.C., to be received by him not later than February 15, 1962. Consideration will be given to all information obtained at the hearing, to written data, views, and arguments received by the Director not later than February 15, 1962, and to other information available in the United States Department of Agriculture before a decision is made as to what revisions, if any, shall be promulgated.

Lawrence Zeleny, Grain Division, Agricultural Marketing Service, is hereby designated to conduct the hearings. In case this designee is unable to conduct the hearings, any other officer of the Department designated by the Director, Grain Division, Agricultural Marketing Service, is hereby authorized to conduct such hearings.

Done at Washington, D.C., this 9th day of January 1962.

G. R. GRANGE,
Deputy Administrator,
Marketing Services.

ONIONS GROWN IN SOUTH TEXAS

Extension of Time for Filing Exceptions to Recommended Decision on Proposed Amendments to Marketing Agreement and Order

The time within which interested parties may file exceptions to the recommended decision (27 F.R. 108) of the Assistant Secretary, United States Department of Agriculture, with respect to the proposed amendments to the marketing agreement and order regulating the handling of onions grown in South Texas is hereby extended to not later than the close of business on January 19, 1962.

Dated: January 11, 1962.

JOHN P. DUNCAN, JR.,
Assistant Secretary.

[7 CFR Part 993]

HANDLING OF DRIED PRUNES PRODUCED IN CALIFORNIA

Amendment of the Administrative Rules and Regulations To Provide for Establishment of Independent Producer Districts; Notice of Proposed Rule Making

Notice is hereby given that there is under consideration an amendment of the Subpart—Administrative Rules and Regulations, operative pursuant to Marketing Agreement No. 110, as amended, and Order No. 93, as amended (7 CFR Part 993; 26 F.R. 475), regulating the handling of dried prunes produced in California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674).

The proposed amendment was recommended by the Prune Administrative Committee and would establish seven independent producer districts so that such districts would have, insofar as practicable, equal representation by numbers of independent producers and production of dried prunes by such producers, as required by § 993.28. The description of each of the seven districts would be included in paragraph (a) of § 993.128. This paragraph was reserved for such purpose by action of August 29, 1961 (26 F.R. 8277), promulgating the Administrative Rules and Regulations under the amended program.

Consideration will be given to any written data, views, or arguments pertaining to the proposals which are filed with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D.C., and received not later than the close of business on the tenth day after publication of this notice in the FEDERAL REGISTER.

The proposal is as follows:

§ 993.128 Nominations for membership.

(a) *Districts.* In accordance with the provisions of § 993.28, the districts referred to therein are described as follows:

District No. 1. The counties of Modoc, Lassen, Plumas, Sierra, Butte, Sutter, Yuba, Nevada, and Placer.

District No. 2. The counties of Marin, Napa, Lake, Mendocino, Humboldt, Del Norte, and that portion of Sonoma County south and east of a line described as follows: Beginning at the intersection of Bay Highway and Bodega Bay in Bodega Bay; thence easterly on Bay Highway to its junction with Bodega Highway in Bodega; thence easterly on Bodega Highway to its junction with Burbank Memorial Highway in Sebastopol; thence easterly on Burbank Memorial Highway to its junction with Sebastopol Avenue at Occidental Road; then east on Sebastopol Avenue to U.S. Highway 101 Freeway in Santa Rosa; thence north on U.S. Highway 101 Freeway to its junction with Redwood Highway North (U.S. Highway 101) at Mendocino Avenue; thence northwest on Redwood Highway North (U.S. Highway 101) to Pleasant Road near East Windsor; thence east on Pleasant Road to Chalk Hill Road; thence northerly on Chalk Hill Road to its junction with State Highway 128; thence easterly on State Highway 128 to the Napa County line.

District No. 3. All of that portion of Sonoma County not included in District No. 2.

District No. 4. The counties of Alameda, San Francisco, San Mateo, Santa Cruz, and all that portion of Santa Clara County north and west of a line described as follows: Beginning at the point where the eastern Santa Clara County line and the southern boundary of San Jose Township of said county meet; thence west on said township boundary to San Felipe Road No. 2; thence southerly on San Felipe Road No. 2 to San Felipe Road; thence westerly and northwesterly on San Felipe Road to White Road in Evergreen; thence northwest on White Road to Santa Clara Street in San Jose; thence west on Santa Clara Street to First Street in San Jose; thence south on First Street to San Carlos Street in San Jose; thence west on San Carlos Street to Meridian Road in San Jose; thence south on Meridian Road to Dry Creek Road; thence westerly on Dry Creek Road to the San Jose-Los Gatos Road; thence southwesterly on the San Jose-Los Gatos Road to Union Avenue; thence south on Union Avenue along a straight line continuing to the Santa Cruz County line.

District No. 5. That part of Santa Clara County east and south of District No. 4, extending in a southerly direction to a straight line extending from along the main portion of the Cochran Road, northeasterly to the Stanislaus County line and southwesterly to the Santa Cruz County line.

District No. 6. The counties of San Benito, Monterey, and San Luis Obispo, and all of that portion of Santa Clara County not included in Districts No. 4 and No. 5.

District No. 7. All of the counties in the State of California not included in Districts No. 1 to No. 6, inclusive.

Dated: January 10, 1962.

PAUL A. NICHOLSON,
Deputy Director,
Fruit and Vegetable Division.

[9 CFR Part 92]

IMPORTATION OF CERTAIN ANIMALS AND POULTRY AND CERTAIN ANIMAL AND POULTRY PRODUCTS

Miscellaneous Amendments

On December 28, 1961, there was published in the FEDERAL REGISTER (26 F.R. 12579) a notice of proposed amendments of Part 92, Code of Federal Regulations, governing the importation of certain animals and poultry and certain animal and poultry products. After further consideration of the matter it is now proposed that certain further changes be made in §§ 92.19, 92.27, and 92.31 as specified below:

1. Paragraph (a) of § 92.19 would be amended to read as follows:

(a) For ruminants, swine, horses, poultry, and animal semen intended for importation from Canada, the importer shall first apply for and obtain from the Division an import permit as provided in § 92.4: *Provided*, That an import permit is not required for horses or poultry offered for entry at a land border port designated in § 92.3(b) of this part; and *Provided further*, That an import permit is not required for a ruminant or swine offered for entry at a land border port designated in § 92.3(b) of this part if such animal: (1) Was born in Canada or the United States, and (2) has been in no country other than Canada or the United States, and (3) has not, during the preceding 60 days, been corralled, pastured, or held with, or bred by, or inseminated with semen from, any ruminants or swine for which a permit would be required under this part, and (4) is not pregnant as a result of having been bred by, or artificially inseminated with semen from, a ruminant or swine

for which a permit would be required under this part.

2. Paragraph (a) of § 92.27 would be amended by adding "horses," after the word "swine," in the first line thereof.

3. Paragraph (a) of § 92.31 would be amended to read as follows:

(a) For ruminants, swine, horses, poultry, and animal semen intended for importation from Mexico, the importer shall first apply for and obtain from the Division an import permit as provided in § 92.4: *Provided*, That an import permit is not required for horses offered for entry at a land border port designated in § 92.3(c) of this part; and *Provided further*, That an import permit is not required for a ruminant or swine offered for entry at a land border port designated in § 92.3(c) of this part if such animal: (1) Was born in the Mexican States of Tamaupilas, Nuevo Leon, Coahuila, Chihuahua, Sonora, Durango, and Baja California, or the United States, and (2) has been in no country other than the United States or Mexico, and in no Mexican State other than those specified above, and (3) has not, during the preceding 60 days, been corralled, pastured, or held with, or bred by, or inseminated with semen from, any ruminants or swine for which a permit would be required under this part, and (4) is not pregnant as a result of having been bred by, or artificially inseminated with semen from, a ruminant or swine for which a permit would be required under this part.

Any person who wishes to submit written data, views, or arguments concerning the foregoing proposed changes may do so by filing them with the Director, Animal Inspection and Quarantine Division, Agricultural Research Service, U.S. Department of Agriculture, Washington 25, D.C., within 15 days after publication hereof in the FEDERAL REGISTER.

Done at Washington, D.C., this 10th day of January 1962.

M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

[Docket Nos. AO 231-A15, AO 231-A18]

MILK IN NORTH TEXAS MARKETING AREA

Notice of Recommended Decision and Opportunity To File Written Exceptions on Proposed Amendments to Tentative Marketing Agreement and Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Assistant Secretary, United States Department of Agriculture, with respect to proposed amendments to the tentative marketing agreement, and order regulating the handling of milk in the North Texas marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D.C., not later than the close of business the 10th day after publication of this decision in the FEDERAL REGISTER. The exceptions should be filed in quadruplicate.

Preliminary statement. The hearings on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreement and to the order, were formulated, were conducted at Dallas, Texas, on April 24, 25, and 26, and August 29, 1961, pursuant to notices thereof which were issued March 28, 1961 (26 F.R. 2750), and August 18, 1961 (26 F.R. 7837).

The material issues on the record of the hearings relate to:

1. Classification and accounting for dietary products and other fortified fluid milk products.
2. Modification of the conditions for pooling plants also meeting the pooling requirements of another Federal order.
3. "Individual-handler" pooling in lieu of the present marketwide pooling.
4. Classification of fluid milk products disposed of for animal feed.
5. Application of handler location adjustments.

The notice of hearing contained a proposal (No. 6) relating to the establishment of more definite handler, hauler and cooperative responsibilities, under the order, for individual producer's weights and tests of milk. No testimony was offered either in support of or in opposition to Proposal No. 6, therefore, no further mention is made of this proposal.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence at the hearing and the record thereof:

1. *Classification and accounting for dietary products and other fortified fluid milk products.* Fortified fluid milk products should be classified as Class I only to the extent of the weight of an unmodified fluid milk product of the same nature and butterfat content, excluding the dry weight of nonmilk ingredients such as flavoring, sugar, etc. The skim milk equivalent of the nonfat milk solids not classified as Class I should be considered a Class II disposition.

The present order provisions provide for full skim milk equivalent accounting so that when nonfat milk solids in the form of nonfat dry milk or condensed skim milk are added to a fluid milk product to increase the nonfat milk solids content, the skim milk equivalent of the total nonfat milk solids in the product is classified as Class I. Producer milk is given priority of assignment in Class I and to the extent that producer receipts are available in the plant, producers receive credit for a Class I utilization on the full skim milk equivalent of other source nonfat milk solids received in concentrated form and used in fortification or reconstitution. When Class I utilization exceeds available producer receipts and "other source milk" is assigned to Class I a compensatory charge is applicable on such other source milk so assigned unless such milk has been classified and priced as Class I by another Federal order. Where nonmilk products such as sugar, flavoring, etc., are used in making any product, the weight of such additives is deducted before reconciliation of the pounds of skim and butterfat to be classified.

Proprietary handlers proposed that fluid milk dietary foods be classified as Class II in lieu of the present Class I classification and that the skim milk equivalent accounting for nonfat milk solids used in fortification be discontinued. It was their position that the product cost resulting from the present Class I classification of dietary fluid milk products placed them at a competitive disadvantage with similar products in dry form or in hermetically sealed containers made from non-Grade A milk and milk products and distributed through grocery stores, drug stores, food establishments and similar outlets. They suggested that a Class II classification and pricing would permit more competitive resale pricing and hence create a greater demand for their product. Their proposed changes, they suggested, would serve to facilitate the economic disposition of reserve supplies of milk of the market. They further contended that a Class I classification and pricing on the skim milk equivalent of nonfat milk solids used in the fortification of Class I products is unrealistic and unduly increases handlers' costs.

Producers, on the other hand, opposed any change in the present accounting procedure. It was their position that full skim milk equivalent accounting is essential to protect the integrity of the classification scheme under the order and that unless nonfat milk solids used in fortification are accounted for on a skim milk equivalent basis in Class I, handlers have opportunity to displace producer milk in Class I with lower priced other source milk.

A great deal of the testimony on the record was offered to substantiate that dietary milk products were, or were not, required to be made from locally approved milk under the various health ordinances in effect in the marketing area. Regardless of the intent of the ordinances it is apparent that the local health authorities are not interpreting them in a manner so as to require that such products be made from locally approved milk. However, this is of little consequence since handlers are not permitted to bring fluid non-Grade A milk or skim milk into their plants. Under any circumstances it is clear that, because of the perishability of the finished dietary product, handlers use only milk of the highest quality and hence they require and rely on their regular Grade A producers to furnish their full fluid milk requirements. Therefore, it is appropriate and necessary that the Class I classification be retained.

Fortification of fluid milk products customarily is accomplished by the addition of concentrated nonfat milk solids to fluid milk or skim milk to yield a finished product of higher nonfat milk solids content than that of an equivalent amount of whole (producer) milk. Reconstituted products, on the other hand, involve the process of "floating" concentrated milk solids in water to yield a weight of product approximately equal to the weight of milk from which the concentrated product was first made by the removal of water.

Nonfat dry milk and condensed skim milk are ordinarily derived from unpriced milk or milk which has been priced as surplus under a Federal order. These products are not necessarily processed from producer milk and may be made from ungraded milk. An economic incentive exists for handlers to substitute, where possible, reconstituted fluid milk products for fluid milk products processed from current receipts of producer milk. Since such substitution would displace an equivalent amount of producer milk in Class I, the application of skim milk equivalent accounting in this circumstance is economically sound and is necessary to maintain orderly marketing.

The same economic incentive does not exist, however, with respect to the use of nonfat dry milk or condensed skim milk to fortify a fluid milk product. If such solids are to be derived from producer milk, the skim milk must first be processed into usable form; i.e., nonfat dry milk or condensed skim milk. Such products processed from producer milk have no greater value for fortification purposes than similar products purchased on the open market. Concentrated products are used in fortification to increase the palatability of, and hence the salability of, the finished product. Fortification only slightly increases the volume of the product and under no circumstances can it be concluded that the added solids displace producer milk in Class I beyond the minor increase in volume which results.

When the skim milk equivalent provision is applied to fortified milk products, it inflates significantly the utilization and disposition of Class I milk. The inflation in the case of dietary food products results in a Class I classification of about two and one-half times the actual volume.

For reasons previously stated it is neither necessary nor appropriate that handlers continue to be required to account and pay for this inflated volume in Class I. Nevertheless, it is practical and administratively necessary to maintain full skim milk equivalent accounting. These conclusions can be reconciled by providing that fortified fluid milk products shall be classified as Class I only to the extent of the weight of an unmodified fluid milk product of the same nature and butterfat content, excluding the dry weight of any nonmilk additive such as flavoring, sugar, etc. The skim milk equivalent of the nonfat milk solids not classified in Class I should be considered as Class II disposition.

No change was proposed in the accounting procedure followed in cases where flavoring and other nonmilk additives are used in processing unfortified products. The dry weight of such additives should be deducted in determining the amount of skim milk and butterfat to be accounted for. This is generally consistent with the procedure now employed and the conclusions hereinbefore set forth relative to the accounting procedure to be employed for fortified products.

2. *Modification of the conditions for pooling plants also meeting the pooling requirements of another Federal order.* The pooling provisions of the order should be modified to permit a distribution plant meeting the requirements for full regulation under this order and another Federal order and with a greater proportion of its Class I disposition in the other market, but which was pooled under this order in the most recent month, to retain pooling status under this order until the third consecutive month in which a greater volume of Class I sales is made in such other marketing area. However, it must be recognized that the provisions of the other order may require such plant to be pooled under such other order. In such circumstances, the plant should be exempted from regulation under this order except for a requirement to file reports and permit verification. Provision should also be made to exempt a distributing plant doing a greater proportion of its total Class I business in this marketing area, but which, nevertheless, retains pooling status for the month under another order. Federal orders generally provide that a distributing plant meeting the pooling requirements for more than one order shall be regulated under that order covering the area in which the greater volume of Class I sales are made. Nevertheless, it should be recognized that other orders may contain similar provisions to those herein proposed to deter plants from changing back and forth between two orders on a month-to-month basis.

Under the present order provisions, any distributing plant which disposes of Class I milk in the marketing area is subject to full regulation under this order, unless, a greater volume of Class I disposition is made in another Federal order marketing area.

A handler operating pool distributing plants in both Dallas and Fort Worth and also distributing milk in the Central West Texas, Austin-Waco, and San Antonio Federal order markets, proposed that the order be amended to permit his plants to retain pooling status under this order unless Class I sales in another market exceeding Class I sales in this market over an extended period of time. He indicated that his sales in the Central West Texas market were of such nature that a small increase in sales in that market or decrease of sales in this market could result in regulation of the Fort Worth plant under the Central West Texas order. He foresaw the possibility that audit adjustments could result in removal of this plant from regulation under this order, in favor of the Central West Texas order, retroactively. It was this handler's position that a shift in regulation of either of his plants would tend to create disorder in the two markets because of the effect on the respective market blend prices and because of the different procedures prescribed under the two regulations for distributing returns to producers (North Texas has a base rating plan).

While it seems likely that proponent's initial proposal (an identical proposal was also made to amend each of the other Texas Federal orders) was made with the view that its adoption would permit him to bid in military and other government contracts in other Federal order markets without the possibility of losing pooling status under this order, it is apparent that the distribution from his plants is such that a relatively inconsequential change in the proportion of distribution as between the Central West Texas market and the North Texas market could result in regulation under the Central West Texas order. It is also possible that the plant might later shift back to North Texas on a similar basis.

A plant doing business in several Federal order markets generally should be regulated under that order under which it does the greatest proportion of its Class I business. This is the principle under which the existing provisions were effected and this record provides no basis for changing this conclusion. Nevertheless, it must be recognized that with recent technological changes in the processing and distribution fields, milk is moved great distances and distribution routes have been greatly extended. It is apparent that while proponent has greatly increased his Central West Texas sales in recent years he does not contemplate or intend that his plant should become subject to regulation under that order. Such a change would have greater adverse affects on producers than on handlers since class prices as between the two orders are aligned. Nevertheless, it is possible, due to a management error or errors on the part of a plant employee or a route salesman that an inadvertent sale might result in an unintended change in pooling. It is also possible, as proponent suggests, that a change in classification during audit might produce the same result.

The situation can be substantially alleviated by adoption of the changes herein recommended. Under this procedure a handler would have two months warning that his plant was changing from one regulation to another, thus providing a reasonable time to permit adjustment of his business in cases where such change was not contemplated. At the same time, this change retains the principle of regulating a plant under that order where the greatest proportion of its Class I business is done. Since government contracts normally are made for longer periods than two months there is no reason to expect that the changes recommended will have any significant effect on the length of time in which a plant is pooled in a particular order where the change in the proportion of business is the result of gaining or losing a government contract.

While the situation prompting the proposal existed only between the Central West Texas and North Texas mar-

kets, and involved only one plant, nevertheless, because of the location of the North Texas, market in relation to other Federal order markets, it is possible that a similar situation could develop with a plant now regulated under another order or with some other plant now regulated under this order. The treatment herein prescribed would be equally appropriate in such instances.

While there is no indication that the existing pooling requirements for supply plants have presented any particular problem it cannot be presumed that this will be true in the future. Under the existing order provisions a supply plant which during any month ships 50 percent of its Grade A milk receipts to a pool distributing plant and which is assigned to reserve supply credit is eligible for pooling during such month. Under prescribed circumstances the plant may be pooled on the basis of 15 percent shipments if average shipments in the most recent four or less months equal 50 percent of Grade A milk receipts. A plant which is pooled in each of the months of September through December is eligible for automatic pooling status during the January–July period (and also August if a 15 percent shipping requirement is met) on application by the operator to the market administrator prior to January 31. During the September–December period any plant also meeting the pooling requirements of another order and which otherwise would be pooled under another order is exempted from regulation under this order.

During the short production months when milk is most needed to meet the fluid milk requirements of a market, it is desirable that supply plants meeting the pooling requirements of more than one order be pooled on a month-to-month basis under that order under which the greater qualifying shipments are made. This also is an appropriate standard for pooling plants during the flush production months except in the situation where a plant retains automatic pooling status under this order by virtue of performance during the short production months. During the flush production months when milk of supply plants is least likely to be needed for fluid uses this order (as well as many other Federal orders) provides automatic pooling status for supply plants which have been closely associated with the market in the previous short production months by virtue of substantial and regular shipments to the market. Requiring a supply plant with automatic pooling status under this order to be regulated under another order on the basis of casual shipments during any flush production month would normally adversely affect returns to established producers in the market to which shipments were made. It would therefore be more appropriate to permit such a plant to retain pooling status during the flush production months in the North Texas market with which it has had an established association and automatic pooling status. Any plant which might be qualified for automatic pooling status during the flush production months in another Federal order market would be required to make substantial shipments to the North Texas market (normally 50 percent) to qualify for pooling under this order during such months. Shipments of this magnitude could not be considered as casual shipments and under the circumstances it is appropriate to require that a plant shipping 50 percent or more of its supply and having it assigned to reserve supply be pooled under the order.

The recommended order revisions hereinafter set forth will implement the foregoing conclusions and in conjunction with changes recently recommended in the language of other Texas Federal orders will facilitate the determination of where a plant meeting the pooling requirements of more than one order should be regulated.

As was pointed out by proponent one of the major problems, involved in the shifting of plants from one regulation to another, is the impact on producer returns where a base-excess plan is involved. Under the present order provisions, if a plant is removed from regulation under this order in favor of regulation under another order during any part of the base-forming period and subsequently again becomes regulated under this order during all or any part of the base-operating period, the returns to dairy farmers associated with such plant are adversely affected by the fact that such dairy farmers did not acquire a full base. Similarly, dairy farmers delivering to any plant acquiring pooling status for the first time during the base-operating period would be paid only the excess price during the base-operating period. This situation cannot be concluded to be equitable as among producers nor can it be concluded to be in the interest of orderly marketing. Dairy farmers delivering milk to a fully regulated plant should share in returns from the market's Class I sales on the same basis as other producers.

The sole purpose of a base-excess plan is to encourage more even production throughout the year. This purpose will be implemented by providing opportunity for the operator of a newly regulated plant to establish his seasonality of receipts and hence, bases for each of his producers. However, the operator of the plant must assume the responsibility of providing the market administrator the necessary records to verify his receipts from each producer during the base-forming months. The recommended amendment to the computation of bases hereinafter set forth is necessary to implement these conclusions.

3. *Provision for individual-handler pooling in lieu of marketwide pooling.* The present provisions providing for a marketwide pooling should not be changed. The order has provided for marketwide pooling since its inception. Under this arrangement all handlers are required to account to the pool for all of their milk receipts on a classified use basis at specified minimum class prices. Each month the total value of the pool is distributed among all producers on the basis of a blended or uniform price, except that during the months of March through June one blended price is applicable to deliveries of milk not in excess of each producer's established base and another blended price is applicable to deliveries in excess of established bases.

A handler who generally receives little or no milk from members of the major cooperative association, which represents approximately eighty-five percent of all producers on the market, proposed that individual-handler pooling be substituted for the present marketwide pooling. He contended that marketwide pooling has deterred handlers' efforts to maintain self-imposed quality controls and management of producer milk supplies in line with Class I fluid milk requirements. He also said that marketwide pooling has encouraged an oversupply of milk in the market and suggested that under individual-handler pooling distant producers would be encouraged to seek other outlets for their milk.

Another handler distributing a "breed" milk as well as regular Grade A milk supported the proposal for individual-handler pooling. He pointed out that he could not depend on the reserve market supply to supplement his requirements for "breed" milk and that he had no need for a proportionate share of the reserve supply in his regular Grade A operations. He agreed with proponent, that marketwide pooling has attracted an excessive market supply which is adversely affecting producer returns. This he suggested was not in the interest of orderly marketing.

The proposal for individual-handler pooling was further supported by a number of producer witnesses most of whom deliver their milk to proponent's plant. The principal cooperative association opposed the proposal.

The pooling standards as set forth under the order establish what milk shall be subject to regulation. The prices established by the order are those prices which are deemed necessary to maintain an adequate but not excessive supply of milk for the market. The Class I pricing formula includes a supply-demand adjustment mechanism which serves to lower the Class I price as supplies tend to become excessive and increases the price when supplies shorten. It is through this means that supply adjustments are intended under the Act to be accomplished and it is not intended that the market supply will be adjusted by means of the type of pooling procedure.

The milk priced under the Federal order is that milk which the appropriate health authority deems acceptable for disposition as Grade A milk in the marketing area and which is marketed in a way that meets prescribed performance requirements. While handlers may demand higher quality standards than those generally applicable in the market, it is not an appropriate function of the Federal order to re-enforce handlers' efforts in this respect.

When the order was promulgated the Acting Secretary in his decision of July 17, 1951, concluded as follows:

"The alternative to the marketwide pool is the individual-handler pool. Under this latter system producers delivering to each handler receive a uniform price based on each handler's utilization of milk. Because different handlers utilize different proportions of their milk as Class I and Class II, the uniform prices of individual handlers would vary one from the other. The order has been written to permit a cooperative association to become a handler when necessary to market the surplus milk of its members. Under these circumstances an individual-handler pool would result in an unequal sharing of the market among producers and would not be conducive to orderly marketing. It is concluded, therefore, that marketwide pools are necessary to distribute the returns from the sale of milk equally among producers and to create orderly marketing of producer milk."

It must be concluded that the marketwide pooling arrangement has tended to maintain equality among producers and to assure the orderly disposition of the market's reserve supply. Handlers in the market have very limited manufacturing facilities, other than for ice cream and cottage cheese. Except for proponent, they generally rely on the major cooperative association for balancing supplies and disposition of milk in excess of fluid requirements. The cooperative operates two manufacturing plants, one at Muenster and the other at Sulphur Springs, Texas. In 1960 these plants handled over 50 percent of the total Class II milk (239 million pounds) in the market. Under such circumstances, marketwide pooling is essential to assure that each producer will receive an equitable share of the proceeds from milk utilized in fluid form and that all producers share equally in the cost of handling the market's reserve supply. Clearly also, individual-handler pools would not result in the equitable sharing of the costs of handling market reserves and hence its adoption would engender disorderly marketing conditions in this market. Accordingly, the request for individual-handler pooling is denied.

4. *Classification of fluid milk products disposed of for animal feed.* The provisions specifying the conditions under which fluid milk products disposed of for animal feed may be classified as Class II should be modified.

Under the present order, skim milk and butterfat disposed of in the form of fluid milk products for use as animal feed may be classified as Class II milk up to one-half of one percent of the volume of skim milk and butterfat in fluid milk products disposed of in fluid form, provided certain conditions are met. A handler is required to keep detailed records of the amount and butterfat test of all products disposed of for animal feed, to notify the market administrator prior to such disposition so that he can physically verify disposition, and to furnish a receipt signed by the purchaser of such products setting forth the details of the transaction.

In September 1957, a provision which provided a Class II classification for milk disposed of for livestock feed was deleted from the order on the basis that normal shrinkage plus disposition for animal feed did not exceed the two percent shrinkage allowance in the order. Subsequently, in June 1959, the existing provisions were adopted because it was found that the two percent shrinkage allowance was inadequate to cover both normal loss incurred in plant operations and route returns of fluid milk products sold for livestock feed.

One handler proposed the elimination of the requirements for record keeping and prior notification when fluid milk products are disposed of for livestock feed. He claimed that these conditions were working a hardship on all handlers and on the members of the market administrator's staff. It was his position that it required virtually the full time of one of his employees to maintain the necessary records and meet other requirements necessary to permit a Class II classification for milk which he necessarily disposed of as livestock feed.

Another handler had no objection to the record keeping and reporting requirements, but proposed that the one-half of one percent maximum allowance in Class II for milk disposed of for livestock feed be deleted. He contended that disposition for livestock feed was costly at any price and handlers used this outlet only when there was no means of salvaging the milk for other uses. Hence, there was no need for limiting the volume which might be disposed of in this manner under a Class II classification.

The order does not set forth the specific records which must be kept or the form of reports which must be made to accommodate classification of milk disposed of for other than animal feed. It provides that the handler shall report to the market administrator in the detail and on forms prescribed by the market administrator. In the case of records the handler is required to maintain and make available to the market administrator—such accounts and records of his operations—as are necessary for the market administrator to verify or establish the correct data with respect to receipts and utilization, the weights and tests for butterfat, and other content of all milk and milk products handled. This authority is wholly adequate to permit the market administrator to prescribe the type of report and detail of information which he deems necessary to verify disposition for livestock feed and, accordingly, there is no need to set forth the detailed requirements now contained in the order. However, since the existing order provides that reports relative to receipts and utilization of milk shall be filed on or before the 7th day after the end of each month, it is desirable that the order be amended to provide for the filing of reports relating to disposition for animal feed in the manner and at such times as the market administrator may require. Elimination of the present specified requirements, from the order, will permit the market administrator flexibility to meet varied situations and may relieve handlers of some reporting or record keeping if all of the information now specifically required is not needed by the market administrator for satisfactory verification.

The record provides no basis for deletion of the present condition restricting classification of disposition for animal feed in Class II only up to one-half of one percent of Class I disposition.

Data contained in the market statistics placed in the record by the market administrator show that over the period since June 1959, at no time has the volume of fluid milk products disposed of for animal feed exceeded one-half of one percent of total Class I disposition of fluid milk products. The market average for the entire period since June 1959, approximates only three-tenths of one percent. While some quantities of animal feed disposition were classified as Class I in each month it cannot be determined on the record whether this was the result of inadequate records on the part of certain handlers or whether, in fact, that classified as Class I represented disposition of certain handlers in excess of the one-half of one percent allowed in Class II. Under normal circumstances the existing allowance would appear to be wholly adequate to cover disposition in animal feed of those route returns for which there is no other salvageable uses. Accordingly, the limitation should be retained.

5. *Modification of the procedure for computing handler location adjustment credits.* The procedure for computing location differential credits to handlers should be modified to the extent of providing that the computation shall be made on the basis of the volume of milk remaining after producer shrinkage (deducted in step (1) of the allocation provisions) has been added back (step (9)), less 5 percent of direct producer receipts at the plant.

Under the existing procedure location differential credits are computed on the basis of the volume of milk remaining after the assignment of opening inventories (step (8) in the allocation procedure), less 5 percent of direct producer receipts at the plant.

A proprietary handler who regularly obtains a substantial part of his milk supply from a Missouri plant submitted a proposal (included in the hearing notice) which, under certain circumstances would have substantially increased the volume of his Missouri supply which would be eligible for location differential credits. However, no testimony was offered in support of the proposal.

A witness for the North Texas Milk Producers Association proposed a modification of the proposal contained in the hearing notice. His proposal would decrease the amount of country plant milk receipts on which a location differential credit would be claimed. It was his position that the assignment of any direct receipts from producers to Class II as a step in computing the volume of receipts from country plants eligible for location differential credits was no longer appropriate. He suggested that the existing provision was placed in the order under conditions of short supply in recognition of the fact that additional country plant supplies were needed to assure handlers an adequate supply. Because the supply situation has substantially changed he contended the Missouri milk was no longer needed and local producers should not be called upon to subsidize the shipments of milk from distant sources.

Under the order a handler has freedom of choice as to his source of milk supply. However, if his direct producer receipts exceed 105 percent of the available Class

I utilization plus shrinkage on producer milk no location adjustment credits are allowed on receipts from supply plants. Milk in excess of the market's fluid requirements and which is received at country plants need not be transported to the city for Class II disposition. Accordingly, no location adjustment credits are applicable to Class II milk.

The allocation of 5 percent of direct producer receipts to Class II prior to the allocation of receipts from country plants is intended to permit a handler to recover transportation on that milk which is lost in shrinkage and on that milk which is packaged and distributed but is returned and necessarily used in other than Class I uses. This procedure is concluded to be appropriate and should be continued. However, the existing provision permits location differential credits on a greater volume of milk. Since allowable shrinkage on producer receipts is two percent, the existing procedure has the effect of assigning seven percent of direct producer receipts to Class II rather than five percent, as was intended. This deficiency may be corrected by providing that location differential credits shall be considered on the basis of the volume of milk available after step (9) in the allocation procedure, rather than after step (8).

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the records were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Recommended marketing agreement and order amending the order. The following order amending the order regulating the handling of milk in the North Texas marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be the same as those contained in the order, as hereby proposed to be amended:

§ 1126.32 [Amendment]

(1) Add a new paragraph (c) to § 1126.32 to read as follows:

(c) Each handler, with respect to fluid milk products disposed of for animal feed, shall report to the market administrator such information and at such time as the market administrator may prescribe.

§ 1126.41 [Amendment]

2. Delete paragraph (a) (1) of § 1126.41 and substitute therefor the following:

(a) Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat:

(1) Disposed of in the form of milk, skim milk, buttermilk, flavored milk drinks, cream (except cultured sour cream), and any mixture (except eggnog and bulk ice cream and frozen dairy product mixes) of cream and milk or skim milk: *Provided*, That when any fluid milk product is fortified with nonfat milk solids the amount of skim milk to be classified as Class I shall be only that amount equal to the weight of skim milk in an equal volume of an unfortified product of the same nature and butterfat content;

3. Delete subparagraph (4) of § 1126.41(b) and substitute therefor the following:

(4) Disposed of in the form of fluid milk products and used for livestock feed subject to inspection (at his discretion) by the market administrator and the volume of skim milk and butterfat classified as Class II pursuant to this subparagraph shall not exceed 0.5 percent of the volume of skim milk and butterfat in fluid milk products disposed of in fluid form;

4. Delete the period at the end of subparagraph (6) of § 1126.41(b) and insert a semicolon and add a new subparagraph (7) as follows:

(7) That portion of fortified products excluded from a Class I skim milk classification pursuant to paragraph (a) of this section.

§ 1126.53 [Amendment]

5. In the proviso of § 1126.53, delete the reference "§ 1126.46(a) (1) through (8)" and substitute therefor the reference "§ 1126.46(a) (1) through (9)".

6. Delete § 1126.61 and substitute therefor the following:

§ 1126.61 Plants subject to other Federal orders.

The provisions of this part shall not apply with respect to the operation of any plant specified in paragraph (a), (b) or (c) of this section except that the operator shall, with respect to total receipts of skim milk and butterfat at such plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(a) A plant meeting the requirements of § 1126.10(a) which also meets the pooling requirements of another Federal order and from which, the Secretary determines, a greater quantity of Class I milk is disposed of during the month on routes in such other Federal order marketing area than was disposed of on routes in this marketing area, except that if such plant was subject to all the provisions of this part in the immediately preceding month, it shall continue to be subject to all the provisions of this part until the third consecutive month in which a greater proportion of its Class I disposition is made in such other marketing area unless, notwithstanding the provisions of this paragraph, it is regulated under such other order.

(b) A plant meeting the requirements of § 1126.10(a) which also meets the pooling requirements of another Federal order on the basis of distribution in such other marketing area and from which, the Secretary determines, a greater quantity of Class I milk is disposed of during the month on routes in this marketing area than is so disposed of in such other marketing area but which plant is, nevertheless, fully regulated under such other Federal order.

(c) A plant meeting the requirements of § 1126.10(b) which also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made during the month to plants regulated under such other order than are made to plants regulated under this part, except during the months of January through August if such plant retains automatic pooling status under this part.

§ 1126.80 [Amendment]

7. Delete the period at the end of paragraph (a) of § 1126.80 and insert a semicolon and add a new paragraph (b) as follows:

(b) In the case of producers delivering milk to a plant which was not a pool plant during the entire base forming period, a daily average base for each such producer shall be calculated pursuant to paragraph (a) of this section on the basis of his deliveries of milk to such plant during August through January: *Provided*, That records of such deliveries to the plant are made available to the market administrator.

Signed at Washington, D.C., on January 9, 1962.

JAMES T. RALPH,
Assistant Secretary.

[F.R. Doc. 62-404; Filed, Jan. 12, 1962; 8:46 a.m.]

[7 CFR Parts 1127, 1129]

[Docket Nos. AO 256-A6, AO 232-A10]

MILK IN AUSTIN-WACO AND SAN ANTONIO, TEXAS MARKETING AREAS

Decision on Proposed Amendments to Tentative Marketing Agreements and Orders

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at San Antonio, Texas, on April 20, 1961, pursuant to notice thereof issued on March 28, 1961 (26 F.R. 2751).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Assistant Secretary, United States Department of Agriculture, on December 11, 1961 (26 F.R. 12037; F.R. Doc. 61-11908), filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto. No exceptions were filed to the recommended decision.

The material issues on the record of the hearing relate to:

1. Classification and accounting for dietary products and other fortified fluid milk products.

2. Modification of the conditions for pooling plants also meeting the pooling requirements of another Federal order.

3. Modification of the payment provisions of the San Antonio order.

4. Modification of the procedure for computing handler location adjustment credits under the San Antonio order.

5. The classification of skim milk and butterfat disposed of for animal feed under the San Antonio order.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence at the hearing and the record thereof:

1. *Classification and accounting for dietary products and other fortified fluid milk products.* Fortified fluid milk products, including dietary products, should be classified as Class I only to the extent of the weight of an unmodified fluid milk product of the same nature and butterfat content, excluding the dry weight of any nonmilk additives such as flavoring, etc. The skim milk equivalent of the nonfat milk solids not classified as Class I should be considered a Class II disposition.

Under the existing classification provisions of both the Austin-Waco and San Antonio orders the products included in Class I are those fluid milk products which are disposed of for fluid consumption and which are normally required to be made from locally approved milk supplies. Both orders presently provide for full skim milk equivalent accounting. When nonfat milk solids in the form of nonfat dry milk or condensed skim milk are added to a fluid milk product to increase the nonfat milk solids content of the finished product, the skim milk equivalent of the total nonfat milk solids in the product is classified as Class I.

The Austin-Waco order provides for individual-handler pooling and there is no provision for a compensatory payment on other source milk utilized in Class I. However, producer milk is given priority of assignment in Class I and hence, to the extent that skim milk in producer receipts is available, producer milk is credited as Class I utilization on the full skim milk equivalent of other source nonfat milk solids received in concentrated form and used in fortification or reconstitution. The San Antonio order provides for marketwide pooling and, similar to the Austin-Waco order, priority of assignment in Class I is given to producer milk. Where Class I utilization exceeds producer receipts, a compensatory charge is provided for other source milk assigned to Class I and not classified and priced as Class I in any Federal order market. Under both orders the weight of any nonmilk additives such as flavoring, etc., is deducted before reconciliation of the pounds of skim milk and butterfat to be classified.

Proprietary handlers proposed that fluid milk dietary products be classified as Class II in lieu of the present Class I classification and that skim milk equivalent accounting for nonfat milk solids used in fortification be discontinued. It was their position that the product cost resulting from the present Class I classification of dietary fluid milk products placed them at a competitive disadvantage with similar products in dry form or in hermetically sealed containers made from non-Grade A milk and milk products and distributed through grocery stores, drug stores, food establishments and similar outlets. They suggested that a lower classification and pricing would permit more competitive resale pricing and hence create a greater demand for their product. Their proposed changes, they suggested, would serve to facilitate the economic disposition of reserve supplies from these markets. They further contended that a Class I classification and pricing of the skim milk equivalent of nonfat milk solids used in the fortification of Class I products was unrealistic and resulted in an undue cost to handlers.

Producers, on the other hand, opposed any change in the present accounting procedure. It was their position that full skim milk equivalent accounting is essential to protect the integrity of the classification scheme under the Federal order and that unless nonfat milk solids used in fortification are accounted for on a skim milk equivalent basis in Class I, handlers have an opportunity to displace producer milk in Class I with lower priced other source milk.

A great deal of the testimony on the record was offered to substantiate that dietary milk products are, or are not, required to be made from locally approved milk supplies in effect in those marketing areas. Regardless of the intent of the ordinances it is apparent that the local health authorities are not interpreting them in a manner so as to require that such products be made from locally approved milk. However, this is of little consequence since handlers are not permitted to bring fluid non-Grade A milk or skim milk into their milk plants. Under any circumstances it is clear that, because of the perishability of the finished dietary product, handlers use only milk of the highest quality and hence they require and rely on local producers to furnish their full fluid milk requirements. Therefore, it is appropriate and necessary that the Class I classification be retained.

Fortified fluid milk products customarily result from the addition of concentrated nonfat milk solids to milk or skim milk in fluid form to yield a finished product of higher nonfat solids content than that of an equivalent amount of whole (producer) milk. Reconstituted products, on the other hand, involve the process of "floating" concentrated milk solids in water to yield a weight of product approximately equal to the weight of milk from which the concentrated product was first made by the removal of water.

Nonfat dry milk and condensed skim milk are ordinarily derived from unpriced milk or milk which has been priced as surplus under a Federal order. These products are not necessarily processed from producer milk and may be made from ungraded milk. An economic incentive exists for handlers to substitute, where possible, reconstituted fluid milk products for fluid milk products processed from current receipts of producer milk. Since such substitution would displace an equivalent amount of producer milk in Class I, the application of skim equivalent accounting in this circumstance is economically sound and is necessary to maintain orderly marketing.

The same economic incentive does not exist, however, with respect to the use of nonfat dry milk or condensed skim milk to fortify a fluid milk product. If such solids are to be derived from producer milk, the skim milk must first be processed into usable form; i.e., nonfat dry milk or condensed skim milk. Such products processed from producer milk have no greater value for fortification purposes than similar products purchased on the open market. Such products are used in fortification to increase the palatability of, and hence the salability of, the finished product. Fortification only slightly increases the volume of the product and under no circumstances can it be concluded that the added solids displace producer milk in Class I beyond the minor increase in volume which results.

When the skim milk equivalent provision is applied to fortified milk products, it inflates significantly the utilization and disposition of Class I milk. The inflation in the case of dietary food products results in a Class I classification of

about two and one-half times the actual volume.

For reasons previously stated it is neither necessary nor appropriate that handlers continue to be required to account for pay for this inflated volume in Class I. Nevertheless, it is practical and administratively necessary to maintain full skim milk equivalent accounting. These conclusions can be reconciled by providing that fortified fluid milk products shall be classified as Class I only to the extent of the weight of an unmodified fluid milk product of the same nature and butterfat content, excluding the dry weight of any nonmilk additive such as flavoring, sugar, etc. The skim milk equivalent of the nonfat milk solids not classified in Class I should be considered as Class II disposition.

No change was proposed in the accounting procedure when flavoring and other nonmilk additives are used for processing unfortified products. The dry weight of such additives should be deducted in determining the amount of skim milk and butterfat to be accounted for. This is generally consistent with the procedure now employed and the conclusions hereinbefore set forth relative to the accounting procedure to be employed for fortified products.

The amendatory language of the respective orders as hereinafter set forth will implement these conclusions.

2. *Modification of the conditions for pooling plants also meeting the pooling requirements of another order.* No change should be made in the basic qualifications for pooling plants under the Austin-Waco and San Antonio orders. However, the provisions prescribing treatment of plants meeting the pooling requirements of more than one order should be clarified and modified to the extent of exempting from regulation, except for reporting and verification any plant which retains pooling status under another Federal order.

Under the present Austin-Waco order a packaging and distributing plant is subject to full regulation if Class I milk in an average amount of 500 pounds per day or 5 percent of Grade A receipts, whichever is less, is disposed of during the month on routes in the marketing area, unless such plant has greater disposition in another Federal order marketing area and would be fully regulated under the other order. A supply plant is subject to full regulation during any month of February through July if shipments are made to a distributing plant on four or more days during the month or if daily average shipments are not less than 3,300 pounds. In any month of August through January shipments must be made on 10 or more days or average not less than 8,300 pounds per day unless the plant was a supply plant in any month of February through July. In this situation the shipping requirement is identical to that for the month of February through July.

Under the present San Antonio order a distributing plant is pooled in any month in which route distribution in the marketing area equals 15 percent or more of receipts from pool plants and approved dairy farmers unless such plant disposed of a greater portion of its milk as Class I milk in another Federal order market in the current month as well as the two preceding months and would be subject to full regulation under such other order. A supply plant is pooled in any month in which not less than 50 percent of its receipts from approved dairy farms is shipped to pool distributing plants, except that if this requirement is met in each of the months of July through February the plant has automatic pooling status for the months of March through June unless nonpool status is elected.

A regulated handler under the North Texas order, operating packaging plants in both Fort Worth and Dallas and distributing milk in a number of the Texas Federal order markets, proposed that the Austin-Waco and San Antonio orders be amended to preclude the pooling of either of his plants under these orders unless its Class I sales in either of these markets should exceed its Class I sales in the North Texas market over an extended period of time. A similar proposal was made to amend each of the other Texas Federal orders.

While the handler's principal problem involves his sales as between the North Texas and Central West Texas markets, nevertheless, it was his position that a similar situation could develop involving either or both of these orders. It was pointed out that, when a handler has approximately equal sales under each of two Federal orders, minor shifts in the volume of sales in one market as compared to the other market could result in a shift in the regulation of the plant from one order to the other. Such a shift in sales could be inadvertent or the result of audit adjustments, whereas a shift in regulation was neither contemplated nor intended by the handler. It was proponents' position that such a shift would not be in the interest of orderly marketing and might have substantial adverse effect on producers involved.

The proposal was opposed by both regulated handlers and by producers. They pointed out that there was no existing situation of the nature described by proponent. They further pointed out that regulation of a plant under the Austin-Waco order, with individual handler pooling, where such plant did more business in another Federal order market could, under certain circumstances, provide the plant a significant competitive advantage.

A plant doing business in several Federal order markets generally should be regulated under that order under which it does the greatest proportion of its business. This is the usual standard by which it is determined under which order a plant should be regulated. Nevertheless, a number of Federal orders, including the San Antonio order, contain a provision similar to that requested by proponent.

In recommending this provision the Assistant Secretary in his decision of November 16, 1960 (F.R. Doc. 60–10848), concluded as follows:

"Some handlers dispose of fluid milk products in the marketing areas of more than one Federal order. Such handlers are regulated under the order in the marketing area where they dispose of the greatest proportion of their milk. If a handler disposes of nearly equal amounts in two marketing areas, it is possible that the regulation of such handlers may periodically shift from one order to the other depending upon slight changes in Class I sales. These shifts in sales are sometimes not discovered until audits are made a month or two later. Periodic shifting of the pooling of such a handler's milk from one order to another tends to be disruptive to both orders. To forestall erratic month-to-month shifts from one order to another in the regulation of a handler, it is concluded that if a handler disposes of a greater portion of his milk as Class I milk in another Federal order marketing area for more than two consecutive months, and the handler would be subject to full regulation under such order if he were exempt from this order, such handler should not be regulated under this order after the second month, except to make reports as the market administrator may require and allow verification of such reports."

It is apparent that proponent was not aware of the present order provision since his proposal was essentially for such a provision. Notwithstanding, his supporting testimony was compatible with the above quoted conclusions of the Secretary and it is concluded that the intent of the existing provision should be retained. However, it is desirable that the provision be clarified and that it be recognized that similar provisions may be contained in other Federal orders. Accordingly, a plant should be exempted from regulation under the San Antonio order, even though it might distribute a greater proportion of its Class I milk in the local market, if it retains pooling status in another market.

Under this procedure a handler would have two months warning that his plant was changing from one regulation to another, thus, providing reasonable time to permit adjustment of his business in cases where such change was not contemplated or desired. At the same time the principle is retained of regulating a plant under that order where the greater proportion of its business is done. Since government contracts normally are made for longer periods than two months there is no reason to expect that this provision will have any significant effect on the length of time in which a plant is pooled in a particular market where the change in proportion of business is the result of gaining or losing a government contract.

Supply plants performing under more than one order are normally pooled during the month under that order under which greater qualifying shipments are made. Since supply plants under the San Antonio order must meet a 50 percent shipping requirement to be eligible to pool no special direction is necessary to determine where a supply plant performing under two orders should be pooled.

It must be recognized that under the individual handler pooling arrangement in effect in the Austin-Waco market a handler might seek regulation under that order primarily for the purpose of

a pricing advantage through the use of unpriced other source milk. It is possible, under certain circumstances that the inclusion of a provision, such as that herein recommended to be retained in the San Antonio order, whereby a plant most recently regulated under the Austin-Waco order but which subsequently disposed of a greater proportion of its milk in a marketwide pool market could profit by holding regulated status for several months under the individual handler pool. In any event there was no showing that such a provision would likely have any application in the market under existing circumstances and since its adoption was generally opposed by both regulated handlers and by producers it is concluded that the requested change should not be adopted on the basis of this record. Nevertheless, in view of the provision of the San Antonio order, as herein proposed to be amended, and the fact that a similar provision is under consideration in the North Texas and Central West Texas orders it is necessary to exempt from regulation under the Austin-Waco order any distributing plant meeting the requirements for full regulation, but which nevertheless, is fully regulated under another Federal order. Since Federal orders generally provide that distributing plants meeting the pooling requirements of more than one order shall be regulated under that order covering the marketing area in which the greater volume of Class I milk is disposed of, this modification could have significance only under circumstances in which a plant retained pooling status under another order for a temporary period under a provision intended to give the operator reasonable time to make sales adjustments as between markets and thus avoid a change from one regulation to another if such change was not contemplated or intended.

The present Austin-Waco order provides no clear direction as to where a supply plant performing under two orders should be regulated. This deficiency can be corrected by providing that any plant meeting the requirements for regulation under this order and another Federal order shall be regulated under this order unless greater qualifying shipments are made during the month to plants regulated under another order or the plant retains automatic pooling status under such other order by virtue of performance in a previous period. During the flush production months, when milk of supply plants is least likely to be needed for fluid uses, many Federal orders provide automatic pooling status for supply plants which have been closely associated with the market in previous short production months by virtue of substantial and regular shipments to the market. Requiring a supply plant with automatic pooling status under another order to be regulated under this order during the flush months, on the basis of casual shipments could have an adverse effect on returns to dairy farmers delivering to such plant since their normal market would likely be operated under a marketwide pooling arrangement and regulation under an individual-handler pool (as provided in this order) would deny them a share of the Class I sales in the marketwide pool which they normally serve. It is therefore more appropriate to permit such a plant to retain pooling status during the flush production months in the market with which it had an established association and automatic pooling status.

3. *Modification of the payment provisions of the San Antonio order.* The payment provisions of the San Antonio order should be amended to provide that a handler shall pay a cooperative association for milk received from such cooperative association in its capacity as a handler on a twice a month basis.

The order presently provides that producers shall be paid twice monthly. On or before the last day of each month an advance payment must be made for milk received during the first 15 days of the month at not less than the Class II price for the preceding month. Final payment is due on the 15th day of each month for the full value of milk received from producers during the preceding month less advance payments previously made. Upon request of a cooperative association authorized to collect payments otherwise due its individual members the payments must be made to such cooperative on the 26th and 13th day of the month, respectively. However, where milk is purchased from a cooperative association in its capacity as a handler only one payment date is provided. On or before the 13th day of each month full payment is required for milk received from the cooperative during the preceding month.

The payments to a cooperative association are required a few days in advance of payments to individual producers in order that the cooperative may pay its members at the same time at which nonmembers are paid. In order that a cooperative may have the necessary funds to make an advance payment to producers by the last day of the month it is necessary that it receive advance payment from handlers for the milk which it delivered in its capacity as a handler as well as for the milk delivered in the names of its individual members. The order should be amended to require such payments. Producers proposed that the language of the payment provisions be further modified to clarify that the required payments be in the hands of the cooperative by the date specified. They suggested that handlers do not uniformly meet the payment schedules and that this seriously impedes their office work.

The uniform price is announced by the market administrator on the twelfth day of the month. Therefore, it would be impractical to require that handlers make final settlement to the association prior to the thirteenth day of the month. Under usual circumstances payments are made by mail and would ordinarily be received by the cooperative on the thirteenth or the fourteenth depending on time of mailing. Since earlier payment would necessarily be impractical except in situations where the uniform price was announced earlier than the date specified (and this would not normally be possible) the cooperative must adjust its operations to this schedule. On the other hand, any handler not mailing or delivering payments on the specified date is violating the order. Hence, no change in the order is needed in this regard.

Handlers proposed that the order be amended to eliminate some of the detail they are required to report regarding individual producer deliveries in making payments to a cooperative association. They suggested that the information was unnecessary and was not used by the cooperative in computing payments to its individual members. The cooperative on the other hand pointed out that all of the information now required was necessary in order to compute individual member payments. Since this is the identical information which is required to be reported in making payments to individual nonmember producers and it is needed by the cooperative in computing payments to its members, the proposal is denied.

The payment provisions should be further revised to make clear that each handler whose obligation is computed pursuant to § 1127.70 is required to make payment to the producer-settlement fund by the 14th day of the month of any amount by which such obligation exceeds his required payment pursuant to § 1127.80. This is clearly the intent of the present provision and no substantive change is intended. However, producers pointed out that the language was somewhat ambiguous and requested redrafting of § 1127.84. Accordingly, the payments to the producer-settlement fund provisions has been revised.

4. *Modification of the procedure for computing handler location adjustment credits under the San Antonio order.* The handler location adjustment provision of the order should be modified to provide that for purposes of computing location adjustment credits direct receipts at a pool plant of milk from dairy farmers for which a cooperative association is the handler shall be considered as receipts from producers at such plant.

The order presently provides that location adjustment credits may be applicable to receipts from other plants only on that volume of milk representing the excess of Class I disposition over 95 percent of receipts from producers. Assignment of such Class I disposition to transferor plants is made in sequence beginning with plants having the lowest rate of adjustment credit. The order further provides that unless it elects otherwise a cooperative association shall be the responsible handler for bulk tank milk of its producers which is delivered directly from the farm to a pool plant in tank trucks owned and operated by or under control of the association. Such milk is deemed to have been received by the cooperative at a pool plant at the location of the pool plant to which it is delivered.

A proprietary handler receiving milk both from local producers and from a supply plant proposed the amendment herein recommended. He pointed out that the local cooperative was not presently acting as the responsible handler on bulk tank milk. Hence, if the cooperative were to become the handler on

that milk, the result would be a reduction in the volume of supply plant milk for which location adjustment credits could be claimed.

Under the order a handler has freedom of choice as to his source of milk supply. However, if direct receipts at his pool plant are sufficient to cover his Class I requirements no location adjustment credits are allowed on receipts from supply plants. Milk in excess of the market's fluid requirements and which is received at country plants need not be transported to the city for Class II disposition. Accordingly, no location adjustment credits are applicable to Class II milk. The order does recognize, however, that a handler must have some milk in excess of his actual bottling requirements in his plant because of shrinkage, route returns, etc. Accordingly, location adjustment credits are applicable on that volume of milk represented by the amount by which actual Class I disposition exceeds 95 percent of direct producer receipts. The fact that the local cooperative association might elect to become the handler for its member milk delivered in bulk tanks directly from the farms would in no way change the proprietary handler's milk requirements. Hence, it is appropriate, for purposes of computing location differential credits to consider such receipts as direct receipts from producers.

5. *Classification of skim milk and butterfat disposed of for animal feed.* Skim milk and butterfat disposed of for animal feed under the San Antonio order should continue to be classified as Class II.

Producers proposed that the classification provisions be amended to limit the volume of skim milk and butterfat which a handler might dispose of for animal feed under a Class II classification to one-half of one percent of fluid milk products disposition and only under conditions where detailed requirements for reports and records are met. Proponents contended that the order provides a two percent shrinkage allowance and this in conjunction with a one-half of one percent maximum Class II disposition as animal feed would adequately cover normal shrinkage and losses from spoilage, etc., for which there is no use other than animal feed. Handlers, on the other hand, opposed any change in the classification of animal feed. They contended that disposition as livestock feed was costly to handlers and that such disposition was made only under circumstances where the milk involved could not be salvaged for other uses.

While producers seem to feel that some handlers in the market may be using livestock disposition to cover excess shrinkage or possibly even actual disposition in Class I uses it is apparent that they have no grounds for such a position. The market administrator has the authority under the order to require the necessary reports and records to permit satisfactory verification of any alleged livestock feed disposition and clearly he is exercising this authority. Hence, there can be no foundation for producers' position.

There is little or no prospect that a handler could realize a return over the order Class II price for milk disposed of for livestock feed. No handler is engaged in the manufacture of milk products into livestock feed. The only disposition for livestock feed is fluid milk and milk products which could not economically be otherwise used or which have deteriorated beyond the point of salvage. Since the market administrator requires specified reports and records which permit verification of such disposition to his own satisfaction, it must be concluded that any such reported disposition which cannot be verified to his satisfaction would not be permitted a Class II classification. Accordingly, there is no reason for any change in the existing provisions and the proposal is denied.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid orders and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreements and the orders, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the respective marketing areas, and the minimum prices specified in the proposed marketing agreements and the orders, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreements and the orders, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, marketing agreements upon which hearings have been held.

Marketing agreements and orders. Annexed hereto and made a part hereof are four documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in the Austin-Waco Marketing Area", and "Order Amending the Order Regulating the Handling of Milk in the Austin-Waco Marketing Area", "Marketing Agreement Regulating the Handling of Milk in the San Antonio, Texas, Marketing Area", and "Order Amending the Order Regulating the Handling of Milk in the San Antonio, Texas, Marketing Area", which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That all of this decision, except the attached marketing agreements, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreements are identical with those contained in the orders as hereby proposed to be amended by the attached orders which will be published with this decision.

Determination of representative period. The month of November 1961 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the attached orders amending the orders regulating the handling of milk in the Austin-Waco and San Antonio, Texas, marketing areas, are approved or favored by producers, as defined under the terms of the orders as hereby proposed to be amended, and who, during such representative period, were engaged in the production of milk for sale within the aforesaid marketing areas.

Signed at Washington, D.C., on January 9, 1962.

JAMES T. RALPH,
Assistant Secretary.

Order[1] Amending the Order Regulating the Handling of Milk in the Austin-Waco Marketing Area

§ 1129.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Austin-Waco marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Austin-Waco marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended, and the aforesaid order is hereby amended as follows:

§ 1129.41 [Amendment]

1. Delete paragraph (a) of § 1129.41 and substitute therefor the following:

(a) *Class I milk.* Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat (1) disposed of in fluid form as milk, skim milk, buttermilk, flavored milk drinks, cream, cultured sour cream, any mixture of cream and milk or skim milk (other than frozen storage cream, aerated cream products, eggnog, ice cream mix or other frozen mixes, evaporated or condensed milk and any milk product contained in hermetically sealed containers): *Provided, however*, That when any such product is fortified with nonfat milk solids the amount of skim milk to be classified as Class I shall be only that amount equal to the weight of skim milk in an equal volume of unfortified product of the same nature and butterfat content, and (2) not accounted for as Class II milk.

2. Delete the word "and" at the end of subparagraph (3) of § 1129.41(b).

3. Replace the period at the end of subparagraph (4) of § 1129.41(b) with a semicolon, add the word "and" immediately thereafter and add a new subparagraph (5) to read as follows:

(5) Skim milk contained in any fortified product designed pursuant to paragraph (a)(1) of this section in excess of the pounds of skim milk in such product classified as Class I pursuant to such subparagraph.

4. Delete § 1129.61 and substitute therefor the following:

§ 1129.61 Plants subject to other Federal orders.

The provisions of this part shall not apply with respect to any plant specified in paragraph (a), (b), or (c) of this section except that the operator thereof shall, with respect to total receipts of skim milk and butterfat at such plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(a) An approved distributing plant which also meets the pooling requirements of another Federal order and from which, the Secretary determines, a greater quantity of Class I milk is disposed of during the month on routes in such other Federal order marketing area than is disposed of on routes (other than to a distributing plant(s)) in the Austin-Waco marketing area.

(b) An approved distributing plant which also meets the pooling requirements of another Federal order and from which, the Secretary determines, a greater quantity of Class I milk is disposed of during the month on routes (other than to a distributing plant(s)) in the Austin-Waco marketing area than is disposed of on routes in such other Federal order marketing area, but which plant is, nevertheless, fully regulated under such other Federal order.

(c) An approved supply plant which (1) meets the pooling requirements of another Federal order and from which greater qualifying shipments are made during the month to plants regulated under such other order than are made to plants regulated under this part, or (2) retains automatic pooling status under another Federal order.

Order[1] Amending the Order Regulating the Handling of Milk in the San Antonio, Texas, Marketing Area

§ 1127.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the San Antonio, Texas, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the San Antonio, Texas, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended, and the aforesaid order is hereby amended as follows:

§ 1127.41 [Amendment]

1. Substitute a colon in place of a semicolon at the end of subparagraph (1) of paragraph (a) of § 1127.41 and add the following: *"Provided, however*, That when any such product is fortified with nonfat milk solids the amount of skim milk to be classified as Class I shall be only that amount equal to the weight of skim milk in an equal volume of unfortified product of the same nature and butterfat content;"

2. Add a new subparagraph (4) immediately following subparagraph (3) in § 1127.41(b) to read as follows:

(4) Skim milk contained in any fortified product designated in subparagraph (a)(1) of this section in excess of the pounds of skim milk in such product classified as Class I pursuant to such subparagraph.

§ 1127.54 [Amendment]

2a. Delete the proviso in § 1127.54 and substitute therefor the following: *"Provided*, That in calculating such adjustments, transfers to a pool plant at which a location adjustment is not applicable or at which it is less than at the transferor plant may be assigned to Class I only to the extent that Class I disposition at the transferee plant exceeds 95 percent of the receipts from producers and a cooperative association(s) in its capacity as a handler pursuant to § 1127.10(d) at such plant. Such assignment to transferor plants shall be made first to plants at which no location adjustment credit is applicable and then in sequence to plants at which the lowest rate of such adjustment credit would apply."

3. Delete § 1127.60 and substitute therefor the following:

§ 1127.60 Handlers subject to other Federal orders.

The provisions of this part shall not apply with respect to the operation of any plant specified in paragraph (a) or (b) of this section except that the operator thereof shall, with respect to total receipts of skim milk and butterfat at such plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator, and, in the event he has disposed of on routes in the marketing area Class I milk which was neither classified nor priced under such other order or on which a compensatory payment was not made under any other order, shall pay to the market administrator on or before the 13th day of each month an amount computed by multiplying the total volume of such Class I milk disposed of on routes in the marketing area from such plant during the preceding month by the rate of compensatory payment computed pursuant to § 1127.65.

(a) A plant meeting the requirements for pooling pursuant to § 1127.8(a) which also meets the pooling requirements of another Federal order and from which, the Secretary determines, a greater quantity of Class I milk is disposed of during the month on routes in such other Federal order marketing area than was disposed of on routes in this marketing area, except that if such plant was subject to all of the provisions of this part in the immediately preceding month, it shall continue to be subject to all of the provisions of this part until the third consecutive month in which a greater proportion of its Class I route disposition is made in such other marketing area unless notwithstanding the provisions of this paragraph it is fully regulated under such other order.

(b) A plant meeting the requirements for pooling pursuant to § 1127.8(a) which also meets the pooling requirements of another Federal order on the basis of route distribution in such other marketing area and from which, the Secretary determines, a greater quantity of Class I milk is disposed of during the month on routes in this marketing area than is so disposed of in such other marketing area, but which plant is fully regulated under such other Federal order.

§ 1127.80 [Amendment]

4. Delete paragraph (a) of § 1127.80 and substitute therefor the following:

(a) Each handler shall pay to a cooperative association on or before the 13th day of the month, for milk received from it during the preceding month for which such association is a handler pursuant to § 1127.10(d), the value of such milk at not less than the applicable class prices: *Provided, however*, That for each hundredweight of milk so received during the first 15 days of any month, such handler shall, upon written request of the cooperative association make an advance payment to such association by the 26th day of the month at not less than the Class II price of the preceding month, in which case the obligation of the handler otherwise payable on or before the 13th day of the following month shall be reduced by the amount of such advance payment.

§ 1127.84 [Amendment]

5. Delete § 1127.84 and substitute therefor the following:

§ 1127.84 Payments to the producer-settlement fund.

On or before the 13th day after the end of each month each handler, including a cooperative association which is a handler, shall pay to the market administrator the amount by which the value of milk for such handler pursuant to § 1127.70, for such month exceeds the obligation pursuant to § 1127.80(b) of such handler to producers for milk received during the month.

[F.R. Doc. 62-402; Filed, Jan. 12, 1962; 8:46 a.m.]

[7 CFR Part 1128]

[Docket No. AO 238-A12]

MILK IN CENTRAL WEST TEXAS MARKETING AREA

Decision on Proposed Amendments to Tentative Marketing Agreement and Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Abilene, Texas, on April 17-18, 1961, pursuant to notice thereof issued on March 28, 1961 (26 F.R. 2755).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Assistant Secretary, United States Department of Agriculture, on November 29, 1961 (26 F.R. 11498; F.R. Doc. 61-11496), filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto

The material issues on the record of the hearing relate to:

1. Classification and accounting for dietary products and other fortified fluid milk products.
2. Classification of sour cream and related products.
3. The level of Class I price and the rate of location adjustments.
4. Revision of the pooling requirements for distributing plants.
5. Modification of the shrinkage provisions.
6. Modification of the conditions for pooling approved plants also meeting the pooling requirements of another Federal order.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Classification and accounting for dietary products and other fortified fluid milk products.* The order should be amended to provide for full skim milk equivalent accounting. Dietary products and other fortified fluid milk products should be classified as Class I only up to the weight of an equal volume of an unmodified product of the same nature and butterfat content. This skim milk equivalent of the added solids in excess of such weight should be classified as Class II.

Under the existing classification provisions the products to be classified as Class I are those fluid milk products which are disposed of for fluid consumption and which are normally required to be made from locally approved milk supplies. Unlike many Federal orders nonfat milk solids used to fortify Class I products or in the manufacture of Class II products are accounted for on a pound-for-pound basis, rather than on a milk equivalent basis. However, if producer milk is processed into Class II products in a pool plant and such products are later used in such plant in fortification, reclassification is on the basis of milk equivalent. Nonfat milk solids used to make reconstituted fluid milk products, also are accounted for on a milk equivalent basis. Where nonmilk products such as salt, sugar, flavoring, etc., are used in making any product, the weight of such additives is deducted from the finished product weight before reconciliation of the pounds of skim and butterfat to be classified.

Handlers proposed that fluid milk dietary foods be classified as Class II in lieu of the present Class I classification. It was their contention that the product cost resulting from the present Class I classification places them at a competitive disadvantage with similar products in dry form or in hermetically sealed containers made from non-Grade A milk and milk products distributed through grocery stores, drug stores, food establishments and similar outlets. They suggested that a lower classification and pricing would permit more competitive resale pricing and hence create a greater demand for such product. This they contended would serve to increase overall returns to producers because less milk would be disposed of necesarily in Class II-A (Cheddar cheese).

Producers opposed any change in the classification scheme, but proposed that the accounting procedure be amended to require full skim milk equivalent accounting for all nonfat milk solids used in fortification of any Class I product. They contended that full milk equivalent accounting is essential to protect the integrity of the classification scheme under the Federal order. It was their position that producers now are not returned the full use value of the skim milk and butterfat utilized in Class I products when fortification is involved and that handlers have opportunity to displace producer milk in Class I with lower priced other source milk.

A great deal of the testimony on the record was offered to substantiate that dietary milk products were, or were not, required to be made from locally approved milk under the various health ordinances in effect in the marketing area. Regardless of the intent of the

ordinances it is apparent that the local health authorities are not interpreting them in a manner so as to require that such products be made from locally approved milk. However, this is of little consequence since handlers are not permitted to bring fluid non-Grade A milk or skim milk into their fluid milk plants. Under any circumstances it is clear that, because of the perishability of the finished dietary product, handlers use only milk of the highest quality and hence they require and rely on local producers to furnish their requirements. Therefore, it is appropriate and necessary that the Class I classification be retained.

Notwithstanding producers' position, the existing accounting procedure has provided producers assurance that their milk will not be displaced in Class I by lower priced other source milk. Further, it must be concluded that producers have received the full use value for their milk. Nevertheless, the present accounting procedure in reality is neither product pound nor skim equivalent accounting. Because of the market's interrelationship with other regulated markets it is desirable that the accounting procedure be revised to conform with that employed under all of the other Texas Federal order markets, i.e., full skim milk equivalent accounting.

When nonfat milk solids are added to a fluid milk product for purposes of fortification such solids must be in the form of nonfat dry milk or condensed skim milk. If such solids are to be derived from producer milk, the skim milk must first be processed into usable form; i.e., nonfat dry milk or condensed skim milk. Such products processed from producer milk have no greater value for fortification purposes than similar products purchased on the open market. Such products are used in fortification to increase the palatability of, and hence the salability of, the finished product. Fortification only slightly increases the volume of the product and under no circumstance can it be concluded that the solids displace producer milk in Class I beyond the minor increase in volume which results. To the extent that fortification enhances the palatability of the finished product and hence its salability, it actually provides a greater outlet for producer milk in Class I. Hence, it would be inappropriate to increase handler's costs for fortified products.

It is concluded therefore that under the skim milk equivalent accounting procedure herein recommended fortified products should be classified as Class I only to the extent of the weight of an unmodified fluid milk product of the same nature and butterfat content, excluding the dry weight of any nonmilk additive such as flavoring, minerals, etc. The skim milk equivalent of the nonfat milk solids not classified as Class I should be considered a Class II disposition. This procedure will provide essentially the same product cost to handlers as now results from the present accounting and classification procedure. However, it provides a uniform basis of accounting for all nonfat milk solids, regardless of use and hence is more logical and should be a better understood procedure than that presently employed.

Where flavoring and other nonmilk additives are used in processing unfortified products, the dry weight of such additives should be deducted in determining the amount of skim milk and butterfat to be accounted for. This is generally consistent with the procedure now employed and the conclusions hereinbefore set forth relative to the accounting for fortified products.

Notwithstanding the conclusions hereinbefore set forth, it is essential where reconstitution, rather than fortification, is involved that the full skim milk equivalent of the nonfat milk solids used be classified in Class I. Unlike fortification, when nonfat milk solids are used in reconstituting any fluid milk product they displace in Class I use a volume of producer milk equal to the volume of the finished reconstituted product. Unless handlers are required to account for such solids on a skim milk equivalent basis in Class I there would be a substantial incentive for them to reconstitute wherever possible. This would tend to result in unequal costs as between handlers. Further, if the order permitted handlers to obtain unpriced milk for Class I uses whenever it was advantageous to do so while producer milk was utilized in Class II it would not be effective in carrying out the purpose of the Act and the market would be deprived of a dependable milk supply.

2. *Classification of sour cream and related products.* The classification provisions should be revised to provide in the case of sour cream, that only sour cream and those sour cream products which are distributed under a Grade A label shall be classified as Class I. Such products distributed without a Grade A label should be classified as Class II.

Handlers proposed revision of the classification provisions to provide a Class II classification for all sour cream and sour cream derivatives such as sour cream dressings, dips, toppings, etc. They pointed out that they compete for sales of such products with handlers from adjacent Federal order markets where such products are classified as Class II. They also compete with such products processed in plants in distant unregulated markets and sold through grocery and dairy stores within the marketing area.

Producers opposed any change from the present Class I classification, pointing out that the applicable health regulations in the local market require that sour cream carry a Grade A label and that while sour cream products are not required to be so labeled, nevertheless, regulated handlers use only Grade A milk in processing such products.

The products required to be made from locally approved milk supplies are classified as Class I. A Class I classification and pricing for such products is essential to assure sufficient returns to producers to encourage the maintenance of an adequate milk supply for the market. However, it is not necessary that sufficient producer milk be available to supply the market's requirements for sour cream products not required to be made from approved milk. Such requirements, under normal circumstances, can be supplied more economically through manufactured dairy products procured on the open market. Nevertheless, to the extent that the reserve supply of the local fluid market is available for disposition in such products its economic utilization should be encouraged.

Products derived from sour cream and originating in unregulated markets are now being distributed in the marketing area in direct competition with locally made products. In addition, regulated plants under other orders, where sour cream products are classified as Class II, are distributing such products in the local market. None of these products are marketed under a Grade A label, however.

It is likely that locally regulated handlers are operating at a competitive disadvantage in the distribution of sour cream products, by virtue of their higher product costs under a Class I classification. Under the circumstances, it is desirable that the classification of sour cream products not distributed under a Grade A label be changed to Class II. However, if handlers sell their locally made products as sour cream or under a Grade A label to comply with local health regulations the product should continue to be classified as Class I.

3. *The level of the Class I price and the rate of location adjustment.* The current level of the Class I price under the Central West Texas order should be continued and no change should be made in the structure of, or in the amount of the location differentials provided.

The Class I price applicable at plants in the Abilene area is currently set at a level of 25 cents over the North Texas Class I price and the price applicable at plants located within 70 miles of Midland, Texas, is 15 cents over the Abilene price. The price at plants located east of the 103d principal meridian, more than 180 miles from Midland and in excess of 70 miles but less than 105 miles from Abilene is 20 cents less than the Abilene price. The price at plants so located but in excess of 105 miles from Abilene is 25 cents less than the Abilene price.

Three handler proposals to revise the Class I pricing provisions were considered at the hearing. The intent of these proposals generally was to provide one level of Class I pricing throughout the market at a level identical to that under the North Texas order. Adoption of the proposals would result in a 25-cent lesser price at Abilene and 40-cent lesser price for plants within 70 miles of Midland.

Proponents contend that under the existing pricing provisions they are placed at a competitive disadvantage with North Texas handlers who have a lesser product cost and who, they suggest, have lower processing costs because of their larger plant volumes. North Texas handlers opposed any change in pricing provisions. They pointed out that historically they have had substantial distribution in the local market and that the existing pricing as between the two markets does not fully reflect transportation costs from their processing plants to the local market. Producers

also opposed any change in the pricing mechanism, contending that the market was in a comfortable but not an oversupplied situation and that the existing price level was necessary to maintain an adequate market supply.

The Class I price in the Central West Texas market must be set at a level sufficient to maintain an adequate milk supply to meet the fluid milk requirements of local handlers. However, too high a price in relation to prices in adjacent regulated markets likely would result in a displacement of sales of local handlers by sales of handlers from the adjacent markets.

While production over an extended period has increased at a more rapid rate than have Class I sales, nevertheless, during 1960, 83 percent of total producer receipts were utilized in Class I. Official notice is taken of the market administrator's releases of receipts and utilization and price announcements for the months of April through July 1961. While producer receipts, thus far in 1961, have continued to increase in relation to Class I sales, the supply-Class I sales relationship in the local market is a component of the supply-demand adjustment mechanism used in computing the North Texas Class I price on which the Central West Texas Class I price is based. Hence, the increased supply situation is effecting a downward adjustment in the Class I price level for the local market and it cannot be concluded on the basis of the record that a further price adjustment is necessary at this time.

When the order was placed in effect in 1952, local handlers had approximately 70 percent of the Class I sales in the marketing area. The remaining sales were made by handlers from other markets, primarily North Texas. During 1957 local regulated handlers made 75 percent of the market's Class I sales. However, this percent has declined steadily since that year with the result that during 1960 local handlers made only 70 percent of the market's Class I sales, the identical position which they held at the inception of the order.

From 1957 through 1960, sales of nonpool handlers within the market increased at a higher rate than did sales of pool handlers. Since March 1960, on a month-to-month basis such sales have generally declined in comparison to the same month of the preceding year. During 1961 sales of nonpool handlers have also decreased in relation to the same period one year earlier.

In comparing local Class I sales of outside handlers with those of local handlers it must be recognized that there has been a substantial reduction in the number of local handlers. North Texas handlers have purchased a number of small businesses in the Central West Texas market, closed the plants and are serving portions of the market from their North Texas pool plants. In some cases, the businesses purchased and their areas of distribution are closer to the North Texas plants than to the plants of existing Central West Texas handler. While the remaining local handlers contend that they have lost substantial sales to North Texas handlers it cannot be established whether, in fact, the decline in the proportion of the market's total Class I business done by local handlers reflects the volume of sales made by plants absorbed by North Texas handlers or an actual loss of business by the remaining plants.

The location differentials presently contained in the order were established to reflect costs of transporting bulk milk from outlying plants and the differences in costs of transporting milk from the normal supply area to the various plant locations. They were deemed necessary to assure the maintenance of an adequate milk supply for the market. They do not necessarily reflect the cost of moving packaged milk from adjacent markets. Since the bulk of the local milk supply continues to move directly from the farm to local processing plants rather than through supply plants it cannot be concluded that the location allowances are excessive.

The 15-cent higher price applicable at the plant in the Midland area was established to reflect the greater distance and higher transportation cost of moving milk from producers' farms to that plant. Much of the local milk supply for the three Central West Texas distributing plants located at Abilene and San Angelo originates in the area east of Abilene, particularly, the counties of Erath, Comanche, Eastland, Hamilton, Wise and Archer. While there has been a substantial shift in the source of supply of the local Midland plant from Comanche County to western Texas and eastern New Mexico, nevertheless, a significant part (about 16 percent in 1961 as compared to 44 percent in 1954) of this plant's supply still comes from Comanche County. Under the circumstances, it is not apparent, on the basis of this record, that this plant could maintain an adequate milk supply if the differential between Abilene and Midland were reduced or eliminated.

4. *Revision of the pooling requirements for distributing plants.* The allowable Class I route disposition in the marketing area within which a distributing plant, not under the routine inspection of the local health authorities, may maintain unregulated status should be reduced to less than 10 percent (presently 15 percent) of such plant's total Class I sales.

One handler proposed that the pooling provisions be revised to require full regulation of all plants with any Class I disposition in the marketing area. As an alternative, he proposed that a plant, not under the routine inspection of the local health authority, with 5 percent or more of its total Class I business in the marketing area be subject to full regulation. He contended that the present provisions have permitted a multiple plant competitor, with two plants regulated under the order, to build sales in the marketing area from an unregulated plant on the basis of milk purchased at a price approximating the order blend price. When in-area sales from such plant approached the 15 percent limitation, which would require full regulation of the plant, a portion of the sales so established were transferred to a regulated plant, thus providing further opportunity for the handler to build additional sales from the unregulated plant.

It is neither necessary, nor desirable, that a distributing plant with only a small proportion of its total Class I sales within the marketing area be subject to full regulation. Such plant would be more closely associated with another market where prices paid producers might be either higher or lower than those in the regulated market. If such handler were competing for producers in a market where returns exceeded those which this order would provide, requiring such handler to equalize through the marketwide pool might place him at a serious competitive disadvantage in maintaining a milk supply. On the other hand, if pay prices in his local market were lower than the prices provided by the order, requiring such handler to account for all of his milk at higher prices might place him at a serious competitive disadvantage with his primary competition. Nevertheless, it would be inappropriate to permit a handler a pricing advantage on milk disposed of in this market. The requirement that an unregulated handler pay into the pool, on each hundredweight of milk distributed in the regulated market, the difference between the order Class I price and the lowest prices paid to his producers on an equivalent volume of milk was concluded to be the appropriate means for assuring equal pricing to all handlers for Class I milk disposed of in the marketing area. No request or suggestions were made for changing this procedure.

While it cannot be concluded that the operation of the existing provisions have been inappropriate, it is apparent, in the incident complained of, that the regulated handler, who also operates an unregulated plant, has for some reason continued to increase his in-area sales from the unregulated plant. Whether this is the result of a normal increase in demand in the particular sales area served or, in fact, an increase in business at the expense of regulated handlers, resulting from some procurement cost advantage cannot be ascertained on the basis of this record. Nevertheless, a substantial portion of the unregulated plant's sales in the market have now been transferred to one of the handler's fully regulated plants with the result that such unregulated plant's in-area sales are now less than 10 percent of its total Class I business. It is apparent that the multiple plant handler has considerable flexibility in his choice of serving certain customers from either his regulated or his unregulated plants. Accordingly, a reduction in the percentage of sales permitted to maintain unregulated status will not result in any undue hardship to this handler. Since no other unregulated plant has as much as 10 percent of its total Class I business in the marketing area it is appropriate to reduce the existing 15 percent requirement to 10 percent.

Proponent further proposed that as as his pro rata share of the costs of administration of the order, any unregulated handler with distribution in the marketing area be required to pay the administrative assessment in the same manner and on the same volume of milk as fully regulated handlers rather than merely on the volume of his in-area Class I sales. He contended that the audit costs in connection with such a handler are substantially the same as for a fully regulated handler and accordingly, such handler should share proportionately in the cost of order administration.

Contrary to proponent's position, the audit of records of a handler with minor sales in the market normally is not as extensive or costly as that of fully regulated handlers. Under usual circumstances the audit procedure involves merely ascertainment of the volume of milk disposed of on routes in the marketing area and of the lowest prices paid to producers for an equivalent volume of milk. It is only under circumstances where the volume of milk so disposed of approximates the maximum allowable percentage that extensive audit is required. Hence, the assessment presently provided for such a handler is appropriate and no change should be made in this regard.

5. *Modification of the shrinkage provisions.* The classification provisions of the order should be amended to provide a maximum 2 percent shrinkage allowance on skim milk and butterfat, respectively, in producer milk in Class II during all months of the year. Provision also should be made for an appropriate division of the shrinkage allowance between handlers when interhandler transfers are involved.

The present order provisions provide that each handler's total shrinkage during the month shall be prorated between his receipts of producer milk and other source milk. Actual shrinkage of skim milk in producer receipts, not in excess of two percent during the months of July through March and five percent during the months of April through June is classified as Class II. Actual shrinkage on butterfat in producer receipts to be classified as Class II is limited to two percent in all months of the year. The total shrinkage in other source milk is classified as Class II. No provision is made for a division of the shrinkage as between handlers where interhandler transfers are involved. The shrinkage allowance on producer milk applies only to the receiving handler.

A handler buying all of his fluid milk requirements from a cooperative association proposed that the 2 percent shrinkage allowance be split to permit the cooperative up to one-half of one percent in Class II and the transferee handler the remaining one and one-half percent shrinkage. He contended that, while an overall shrinkage limitation of 2 percent is reasonable, the greater proportion of actual shrinkage occurs in processing milk through a plant rather than in receiving milk. Notwithstanding, because he buys his milk from the cooperative association all of his plant shrinkage is classified as Class I.

While all producers on the market now have farm bulk tanks and the hauling is controlled by coperatives, whose membership include virtually 100 percent of the producers, nevertheless, with one exception the proprietary handlers in the market are the responsible handlers in accounting to the pool for the milk picked up at the farm and delivered to their plants. They account for the milk of each of their producers on the basis of the farm bulk tank stick reading and the butterfat tests of samples drawn at the farm. That part of their total shrinkage experience (including shrinkage between the farm and the plant) allocated to producer receipts and not in excess of 2 percent is accounted for as Class II milk.

In only one instance does the cooperative act as the responsible handler on the bulk milk which it picks up at the farm and delivers to the plant of a proprietary handler. In this situation the cooperative, as the responsible handler, accounts for its actual shrinkage experience, not in excess of two percent as Class II and the proprietary handler has no Class II shrinkage allowance on the processing of this milk.

Producers opposed any change in the present provision pointing out that the proponent handler purchases milk on the basis of the volume measured through a flow meter in his receiving pipe line and at the butterfat tests determined from samples taken by an automatic in-line sampler at his plant, whereas the cooperative's obligation to the pool is based on the farm tank stick measurements and the butterfat tests of the farm drawn samples. They further pointed out that the difference between volume determined on the basis of farm tank stick readings and as recorded through the flow meter was generally less than one-half of one percent. However, discrepancies between the butterfat test of the milk as determined from farm drawn samples and from samples taken by the in-line sampler were substantial and the cooperative required the full 2 percent shrinkage allowance because of their excessive butterfat losses. Other handlers, they pointed out, were purchasing milk on the basis of farm stick readings and butterfat tests of samples drawn at the farm.

The Secretary concluded in his decision of September 30, 1952, that unaccounted for producer milk in excess of a reasonable allowance for plant loss should be Class I milk in order to assure full accounting by handlers for all of their receipts. He further concluded that two percent was a reasonable maximum allowance for this purpose. The record of this hearing provides no basis for any change in this conclusion. However, the market situation has changed significantly since the order was originally promulgated. Effective February 1, 1958, the order was amended to require a cooperative association to be the responsible handler in accounting for bulk milk picked up at the farm in trucks owned and operated by the cooperative and delivered to the approved plant of another handler for the account of the association.

The effect of this amendment, in conjunction with the application of the shrinkage provisions, is that the proponent handler has been required to account for as Class I all of his plant loss associated with milk purchased from the association. Since milk for his fluid operations is purchased exclusively from the cooperative he, in effect, has no shrinkage allowance in connection with his fluid milk operations whereas prior to February 1, 1958, he had a full 2 percent shrinkage allowance to cover losses on both his receiving and processing operations.

There is no question but that under normal circumstances losses connected with processing and packaging exceed those of the receiving operation. The existing provisions cannot be considered to assure equities as between handlers when, on the one hand, because the cooperative delivers milk to certain handlers in the names of its individual producer members such handlers have a full 2 percent shrinkage allowance and on the other hand, because the cooperative delivers milk for its own account to another handler such handler receives no shrinkage allowance. The problem therefore is one of determining an appropriate distribution of shrinkage between the receiving and transferee handler.

Experience in other Federal milk markets indicates a one-half of one percent shrinkage allowance for a receiving handler to be appropriate. Data presented on the record by the Central West Texas Producers Association further substantiates this allowance to be reasonable. Their figures show that the total shrinkage in milk volumes, as indicated by the difference between stick readings at the farm and flow meter readings in the receiving plant, is somewhat less than one-half of one percent. While losses in butterfat, as indicated by the differences in the tests of farm drawn samples and those drawn from the in-line sampler at the plant, averaged about 1.3 percent during the period June 1960 through March 1961, and exceeded 2.0 percent in four of these months it must be concluded that these butterfat losses are extreme and far in excess of normal expectation.

It seems likely that this situation is the result of inaccurate sampling and/or testing either at the farm or at the plant and the parties involved should take appropriate steps to correct the situation. In the interest of effective and equitable regulation, the shrinkage allowed a receiving handler should be limited to an amount not in excess of normal expectations. It is therefore concluded that such shrinkage allowance should be limited to one-half of one percent. The remaining one and one-half percentage shrinkage allowance should be assigned to the transferee handler to cover normal losses in processing and packaging operations.

While there is no indication on the record of any problems in connection with the shrinkage provision in cases of transfers of milk between proprietary handlers, nevertheless, the apportionment of shrinkage herein recommended is appropriate where such transfers occur. The allowance of one-half of 1 percent of shrinkage to the original receiving plant is concluded to be a reasonable allowance for receiving operations and gives assurance to the operator thereof that he will be able to account

for his actual shrinkage experience within this limit as Class II milk. It also assures the transferee handler of a reasonable share of the total allowable shrinkage. Notwithstanding, should the parties involved agree that a different proration would be more equitable between them, appropriate adjustments could be made in the price at which such milk is transferred. Where the transferor-handler is a cooperative association, however, any such adjustment is not permissible if it results in a price less than that provided by the order.

The above conclusions would decrease the shrinkage allowance on producer skim milk from 5 percent to 2 percent during the months of April, May and June. The 5 percent allowance during those months was adopted on the basis of the evidence in the original promulgation record and recognized that small handlers might find it necessary to dump limited small lots of skim milk during these months as the only economical outlet. There are now only four handlers operating plants under the order and the cooperative association supplies milk to such handlers on a day-to-day basis in accordance with their specific requirements. Hence, there is no reason for continuation of the higher shrinkage allowance for skim milk during these months.

Several exceptions were filed pointing out that the recommended order changes did not fully implement the intended application of the shrinkage provisions in the case of interhandler transfers. Exceptors requested that the allocation provisions be revised to implement the allocation of shrinkage as provided in the shrinkage provisions. The requested revision has been incorporated in the proposed order language as hereinafter set forth. In addition, certain changes have been made in the recommended language of the shrinkage provisions solely for the purpose of clarity.

6. *Modification of the conditions for pooling approved plants also meeting the pooling requirements of another Federal order.* The pooling provisions of the order should be modified to permit an approved distributing plant with a greater proportion of its Class I disposition in another marketing area, but which was pooled under this order in the most recent month, to retain pooling status under this order until the third consecutive month in which a greater volume of Class I sales is made in such other marketing area. However, it must be recognized that the provisions of the other order may require such plant to be pooled under such order. In such circumstances, the plant should be exempted from regulation under this order except for a requirement to file reports and permit verification. Provision also should be made to exempt a distributing plant doing a greater proportion of its total Class I business in this marketing area but which, nevertheless, retains pooling status for the month under another order. While Federal orders generally provide that a distributing plant meeting the pooling requirements of more than one order shall be regulated under that order covering the area in which the greater volume of Class I sales are made, nevertheless, it should be recognized that other orders may contain similar provisions to those herein proposed to deter plants from changing back and forth between two orders on a month-to-month basis.

The pooling provisions also should be modified to permit a supply plant to pool on the basis of qualifying shipments to any pool distributing plant(s). Further, a supply plant meeting the pooling requirements of both this order and another Federal order should be pooled under this order in any month in which greater qualifying shipments are made to this market than to such other market, unless such plant retains automatic status in such other market for the month on the basis of performance in previous months.

Under the existing order provisions, a distributing plant under the routine inspection of a local health authority is eligible to pool its milk in any month in which Class I milk is distributed on routes in the marketing area unless a greater volume of Class I disposition is made in another Federal order marketing area. A distributing plant under the routine inspection of other than a local health authority is eligible to pool in any month in which 15 percent or more of its total Class I disposition is made in the marketing area unless a greater volume of Class I disposition is made in another Federal order marketing area. A supply plant must make specified qualifying shipments to a pool distributing plant under the routine inspection of a local health authority to be eligible for pooling. The order provides no criteria for determination under which order a supply plant meeting the pooling requirements of both this order and another Federal order should be regulated.

A regulated handler under the North Texas order, operating packaging plants in both Fort Worth and Dallas and distributing milk in both the North Texas and Central West Texas markets, as well as in other Federal order markets, proposed that the order be amended to preclude the pooling of either of his plants under this order unless their Class I sales in this market should exceed Class I sales in the North Texas market over an extended period of time. He indicated that his sales in the two respective markets were of such nature that a small increase in sales in this market or decrease in the North Texas market could result in regulation of his Fort Worth plant under this order rather than the North Texas order. He further indicated that in order to minimize the possibility of such a change in regulation he had resorted to shifting Class I sales between his two plants. Nevertheless, he foresaw the possibility that audit adjustments could result in the removal of his plant from regulation under the North Texas order in favor of the Central West Texas order. It was this handler's position that such a shift in regulation would tend to create disorder in the two markets because of the effect on the respective market blend prices and because of the different procedures prescribed under the respective regulations for distributing returns to producers. (North Texas has a base-rating plan.)

While it is apparent from proponent's testimony that his initial proposal was made with the view that its adoption would permit him to bid in military and other government contracts in the Central West Texas market without the possibility of pooling under this order, nevertheless, it is apparent that the distribution from his plants is such that a relatively inconsequential change in the proportion of distribution as between the two markets could result in regulation under this order rather than the North Texas order. It is also possible that the plant might later shift back to North Texas on a similar basis.

A plant doing business in several Federal order markets generally should be regulated under that order under which it does the greatest proportion of its business. This is the principle under which the existing provisions were effected and this record provides no basis for changing this conclusion. Nevertheless, it must be recognized that with recent technological changes in the processing and distribution fields, milk is moved great distances and distribution routes have been greatly extended. It is apparent that while proponent has greatly increased his Central West Texas sales in recent years he does not contemplate or intend that his plant should become subject to regulation under that order. Such a change would have greater adverse affects on producers than on handlers since class prices as between the two orders are aligned. Nevertheless, it is possible, due to a management error or error on the part of a plant employee or a route salesman, that an inadvertant sale might result in an unintended change in pooling. It is also possible, as proponent suggests, that a change in classification during audit might produce the same result.

The situation can be substantially alleviated by adoption of the changes herein recommended. Under this procedure a handler would have two months warning that his plant was changing from one regulation to another, thus providing reasonable time to permit adjustment of his business in cases where such change was not contemplated or desired. At the same time this change retains the principle of regulating a plant under that order where the greater proportion of its business is done. Since government contracts normally are made for longer periods than two months there is no reason to expect that the changes recommended will have any significant effect in the length of time in which a plant is pooled in a particular market where the change in proportion of business is the result of gaining or losing a Government contract.

While the situation prompting the proposal existed only between the Central West Texas and North Texas markets, nevertheless, because of the location of the Central West Texas market in relation to other Federal order markets it is possible that a similar situation could develop with some plant now regulated under another order or with a plant now regulated under this order. The treatment herein prescribed would be equally appropriate in such instances.

While there is no indication that the existing pooling requirements for supply plants have presented any problem it cannot be presumed that this will be true in the future. It is apparent that the market structure has changed significantly since the present order provisions were effected. It can be readily foreseen that the North Texas plant previously referred to could become fully regulated under this order. While the record does not disclose the sources of such plant's supplies, nevertheless, since the plant is under the routine inspection of the Fort Worth health department it is apparent that any supply plant connected with it could not be pooled under this order. It would be inappropriate and inequitable to require a distributing plant to pool but preclude the pooling of its supply plant. For this reason it is desirable that the pooling requirements for supply plants be modified to recognize as qualifying shipments, movements of milk to any pool distributing plant. This will permit the pooling of any supply plant meeting the pooling requirements and which might be a regular source of supply for the Fort Worth plant or any other plant which might become subject to regulation under the order.

As previously indicated the present order provides no direction as to where a supply plant performing under two orders should be pooled. This deficiency can be corrected by providing that any plant meeting the pooling requirement of both this and another order shall be pooled under this order unless greater qualifying shipments are made during the month to plants regulated under another order or the plant retains automatic pooling status under such other order by virtue of performance in a previous period. During the flush production months when milk of supply plants is least likely to be needed for fluid uses this order (as well as many other Federal orders) provides automatic pooling status for supply plants which have been closely associated with the market in the previous short production months by virtue of substantial and regular shipments to the market. Requiring a supply plant with automatic pooling status under one order to be regulated under another order on the basis of casual shipments during any flush production month would normally have an adverse affect on returns to established producers in the market to which shipments were made. It would therefore be more appropriate to permit such plant to retain pooling status during the flush production months in the market with which it had an established association and automatic pooling status. The recommended order amendments hereinafter set forth implement these conclusions.

Recommended changes in the order language, other than the provisions hereinbefore specifically discussed, are clarifying and conforming changes necessary to implement the previous conclusions. These include redrafting of the producer milk and other source milk definitions as well as minor changes in the language, but not in the application of other parts of the order.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the request to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings on exceptions. In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the Central West Texas Marketing Area", and "Order Amending the Order Regulating the Handling of Milk in the Central West Texas Marketing Area", which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which will be published with this decision.

Determination of representative period. The month of November 1961 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the attached order amending the order regulating the handling of milk in the Central West Texas marketing area, is approved or favored by producers, as defined under the terms of the order as hereby proposed to be amended, and who, during such representative period, were engaged in the production of milk for sale within the aforesaid marketing area.

Signed at Washington, D.C., on January 9, 1962.

JAMES T. RALPH,
Assistant Secretary.

Order[1] Amending the Order Regulating The Handling of Milk in the Central West Texas Marketing Area

§ 1128.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) Findings upon the basis of the hearing record. Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Central West Texas marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area,

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreement and marketing orders have been met.

and the minimum prices specified in the order as hereby amended are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Central West Texas marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended, and the aforesaid order is hereby amended as follows:

§ 1128.7 [Amendment]

1. Delete paragraph (a)(2) of § 1128.7 and substitute therefor the following:

(2) At which milk is received from producers as defined in § 1128.10(a) and which serves as a receiving station at which producer milk is received, weighed and commingled and from which milk or skim milk (i) is moved during the month to an approved plant(s) specified in subparagraph (1) of this paragraph or paragraph (b), or (ii) was moved to any such plant(s) in an amount equal to 60 percent or more of the total receipts of producer milk during the months of October through January immediately preceding any month of April, May or June during which no milk was moved to such plant(s); or

2. Delete the number "15" as it appears in paragraph (b) of § 1128.7 and substitute therefor the number "10".

§ 1128.9 [Amendment]

3. Delete the proviso of § 1128.9(c) and substitute therefor the following: "*Provided*, That such milk shall be deemed to have been received by the cooperative association at an approved plant at the location of the plant to which it is delivered; or"

4. Delete § 1128.11 and substitute therefor the following:

§ 1128.11 Producer milk.

"Producer milk" means only that skim milk or butterfat contained in (a) milk received at an approved plant directly from producers, (b) milk of producers diverted from an approved plant to an unapproved plant in accordance with the conditions set forth in § 1128.10(c), or (c) milk received by a cooperative association in its capacity as a handler pursuant to § 1128.9(c).

5. Delete § 1128.12 and substitute therefor the following:

§ 1128.12 Other source milk.

"Other source milk" means all skim milk and butterfat contained in:

(a) Receipts during the month in the form of products designated as Class I milk pursuant to § 1128.41(a) except (1) such products received from other approved plants, including milk received from a cooperative association in its capacity as a handler pursuant to § 1128.9(c), or (2) producer milk; and

(b) Products designated as Class II milk pursuant to § 1128.41 (b)(1) or (c) from any source (including those produced in the plant), which are reprocessed or converted to another product during the month.

§ 1128.41 [Amendment]

6. Delete paragraphs (a) and (b) of § 1128.41 and substitute therefor the following:

(a) Class I milk shall be: (1) All skim milk (including reconstituted skim milk) and butterfat disposed of in the form of milk, skim milk, buttermilk, flavored milk drinks, cream, sour cream and sour cream products under a Grade A label, and any mixture (except eggnog, aerated cream products and mixes for ice cream or other frozen dairy products) of cream and milk or skim milk: *Provided*, However, that when any such product is fortified with nonfat milk solids the amount of skim milk to be classified as Class I shall be only that amount equal to the weight of skim milk in an equal volume of unfortified product of the same nature and butterfat content, and (2) all skim milk and butterfat not specifically accounted for as Class II or Class II-A;

(b) Class II milk shall be all skim milk and butterfat:

(1) Used to produce any product other than those specified in paragraph (a) or (c) of this section;

(2) Disposed of for livestock feed;

(3) In actual shrinkage of skim milk and butterfat, respectively, not to exceed the following;

(i) Two percent of receipts directly from producers (excluding milk diverted pursuant to § 1128.10(c); plus

(ii) 1.5 percent of bulk receipts of milk from other handlers except that where the handler is purchasing milk from a cooperative association in its capacity as a handler pursuant to § 1128.9 (c) and files with the market administrator, prior to the first day of the month, notice that he is purchasing such milk on the basis of the butterfat tests of farm drawn samples and weights determined at the farm, the applicable percentage on such milk shall be 2 percent, less

(iii) 1.5 percent of bulk transfers of milk from an approved plant to other milk plants (in the case of a cooperative association selling milk to a handler on the basis of farm weights and tests, as provided in subdivision (ii) of this subparagraph (3) the applicable percentage shall be 2.0), plus.

(iv) Shrinkage in other source milk determined pursuant to § 1128.42.

(4) In inventory of any products specified in subparagraph (a)(1) of this section on hand at the end of the month; and

(5) Skim milk contained in any fortified product designated in paragraph (a)(1) of this section in excess of the pounds of skim milk in such product classified as Class I pursuant to such subparagraph.

7. Delete § 1128.42 and substitute therefor the following:

§ 1128.42 Shrinkage on other source milk.

The market administrator shall determine the shrinkage in other source milk as follows:

(a) Compute the total shrinkage of skim milk and butterfat for each handler, and

(b) Assign a pro rata share of such shrinkage to other source milk on the basis of the percentage that such other source milk represents of total receipts at such plant to which shrinkage may be assigned to Class II pursuant to § 1128.41(b)(3).

§ 1128.43 [Amendment]

8. Delete paragraph (b) of § 1128.43.

§ 1128.45 [Amendment]

9. Add a proviso to § 1128.45 to read as follows: ": *Provided*, That if any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk disposed of in such product shall be considered to be an amount equivalent to the nonfat milk solids contained in such product, plus all of the water originally associated with such solids."

§ 1128.46 [Amendment]

10a. Delete the words "from producers" as they appear in the preamble of § 1128.46.

b. In § 1128.46(a)(1) change the reference "§ 1128.41(b)(3)" to read "§ 1128.41 (b)(3) (i) through (iii)".

c. In § 1128.46(a) renumber subparagraph (5) as (6) and subparagraph (6) as (5).

11. Delete § 1128.61 and substitute therefor the following:

§ 1128.61 Plants subject to other Federal orders.

The provisions of this part shall not apply with respect to the operation of any plant specified in paragraph (a), (b), or (c) of this section except that the operator thereof shall, with respect to total receipts of skim milk and butterfat at such plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(a) An approved plant pursuant to § 1128.7 (a)(1) or (b) which also meets the pooling requirements of another Federal order and from which, the Secretary determines, a greater quantity of Class I milk is disposed of during the month on routes in such other Federal order marketing area than was disposed of on routes in this marketing area, except that if such plant was subject to all the provisions of this part in the immediately preceding month, it shall continue to be subject to all the provisions of this part until the third consecutive month in which a greater proportion of its Class I route disposition is made in such other marketing area unless notwithstanding the provisions of this paragraph it is regulated under such other order.

(b) An approved plant pursuant to § 1128.7 (a)(1) or (b) which also meets the pooling requirements of another Federal order on the basis of route distribution in such other marketing area and from which, the Secretary determines, a greater quantity of Class I milk is disposed of during the month on routes in this marketing area than is so disposed of in such other marketing area but which plant is fully regulated under such other Federal order.

(c) An approved plant pursuant to § 1128.7(a) (2) which (1) meets the pooling requirements of another Federal order and from which greater qualifying shipments are made during the month to plants regulated under such other order than are made to plants regulated under this part or, (2) retains automatic pooling status for the month under another Federal order by virtue of its performance in previous months.

12. Delete that portion of § 1128.70 preceding paragraph (a) and substitute therefor the following:

§ 1128.70 Computation of each handler's pool obligation.

For each month, the market administrator shall compute the pool obligations of each handler as follows:

§ 1128.71 [Amendment]

13. Insert immediately following the word "payments" as it appears in paragraph (a) of § 1128.71, the word "due".

§ 1128.94 [Amendment]

14. Delete the words "value of the milk received by such handler from producers" as they appear in § 1128.94 and substitute therefor the words "pool obligation of such handler".

Notices

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

SOUTHERN UTE AND UTE MOUNTAIN LAND RECORDS

Transfer to Gallup Area Office

JANUARY 9, 1962.

In accordance with 25 CFR Part 120, notice is hereby given that all title source documents and land records pertaining to trust or restricted Indian-owned lands on the Southern Ute Indian Reservation in the State of Colorado and the Ute Mountain Indian Reservation in the States of Colorado and New Mexico, and including Allen Canyon allotments in the State of Utah, have been transferred from the City of Washington to the Gallup Area Office, Bureau of Indian Affairs, Gallup, New Mexico.

Effective January 1, 1962, the Gallup Area Office will be the office for the maintenance of records for all trust and restricted lands as described above.

JOHN O. CROW,
Deputy Commissioner.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social Security Administration

SIERRA LEONE

Foreign Social Insurance and Pension System

Section 202(t)(2) of the Social Security Act (42 U.S.C. 402(t)(2)) authorizes and requires the Secretary of Health, Education, and Welfare to find whether a foreign country has in effect a social insurance or pension system which is of general application in such country and under which periodic benefits, or the actuarial equivalent thereof, are paid on account of old age, retirement, or death; and whether individuals who are citizens of the United States but not citizens of such foreign country and who qualify for such benefits are permitted to receive such benefits or the actuarial equivalent thereof while outside such foreign country without regard to the duration of the absence.

Pursuant to authority duly vested in him by the Secretary of Health, Education, and Welfare, the Commissioner of Social Security has considered evidence submitted by Sierra Leone to the effect that Sierra Leone does not have a social insurance or pension system.

Accordingly, it is hereby determined and found that Sierra Leone does not have in effect a social insurance or pension system which meets the requirements of section 202(t)(2) of the Social Security Act (42 U.S.C. 402(t)(2)).

[SEAL] W. L. MITCHELL,
Commissioner of Social Security.

Approved: January 8, 1962.

ABRAHAM RIBICOFF,
Secretary of Health, Education, and Welfare.

ATOMIC ENERGY COMMISSION

[Docket No. 50-99]

BABCOCK & WILCOX CO.

Notice of Issuance of Utilization Facility License Amendment

Please take notice that the Atomic Energy Commission has issued Amendment No. 5, set forth below, to Facility License No. R-47, as amended. The license authorizes The Babcock & Wilcox Company to operate its Lynchburg Pool Reactor located near Lynchburg, Virginia. The amendment authorizes the licensee, as requested in its application for license amendment dated November 10, 1961, to use aluminum canned, graphite reflector elements in the reactor during the conduct of experiments which require that reflector elements be used to shape or thermalize the neutron flux. The Commission has found that the conduct of the proposed activities in accordance with License No. R-47, as amended, will not present undue hazard to the health and safety of the public and will not be inimical to the common defense and security.

The Commission has further found that prior public notice of proposed issuance of this amendment is not necessary in the public interest since the operation of the reactor in accordance with the terms of the license, as amended, does not present any substantial change in the hazards to the health and safety of the public from those previously considered and evaluated in connection with the previously approved operation of the reactor.

In accordance with § 2.102(a) of the Commission's rules of practice (10 CFR Part 2) the Commission will direct the holding of a formal hearing on the matter of issuance of the license amendment upon receipt of a request therefor from the licensee or a petition to intervene pursuant to § 2.705 of the rules of practice within 30 days after the issuance of license amendment. Petitions for leave to intervene and requests for a formal hearing shall be filed in accordance with the provisions of § 2.700 of the Commission's rules of practice (10 CFR Part 2).

For further details see (a) the application for license amendment submitted by The Babcock & Wilcox Company and (b) a related hazards analysis prepared by the Research & Power Reactor Safety Branch of the Division of Licensing and Regulation, both available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. A copy of item (b) above may be obtained at the Commission's Public Document Room, or upon request addressed to the Atomic Energy Commission, Washington 25, D.C., Attention: Director, Division of Licensing and Regulation.

Dated at Germantown, Md., this 8th day of January 1962.

For the Atomic Energy Commission.

ROBERT H. BRYAN,
Chief, Research and Power Reactor Safety Branch, Division of Licensing and Regulation.

[License No. R-47; Amdt. 5]

In addition to the activities previously authorized by the Commission in License No. R-47, as amended, The Babcock & Wilcox Company is authorized, as requested in its application for license amendment dated November 10, 1961, to use aluminum canned, graphite reflector elements in its Lynchburg Pool Reactor located near Lynchburg, Virginia, during the conduct of experiments which require that reflector elements be used to shape or thermalize the neutron flux. The reflector elements shall be used and the experiments conducted in accordance with the procedures and subject to the limitations in License No. R-47, as amended, and in The Babcock & Wilcox Company's application for license amendment dated November 10, 1961.

This amendent is effective as of the date of issuance.

Date of issuance: January 8, 1962.

For the Atomic Energy Commission.

ROBERT H. BRYAN,
Chief, Research and Power Reactor Safety Branch, Division of Licensing and Regulation.

FEDERAL AVIATION AGENCY

[Reg. Docket No. 861]

INVESTIGATION OF COMPLAINT REGARDING TURBOJET OPERATIONS AT MOISANT INTERNATIONAL AIRPORT, LOUISIANA

Notice of Public Hearing

By a petition dated August 14, 1961, Rosemary and Mrs. A. Angell and 37 other persons residing east of the east-west runway of the Moisant International Airport, Kenner, Louisiana, have petitioned the Administrator of the Federal Aviation Agency to conduct an investigation and hearing of their alleged complaints and, either discontinue turbojet operations at Moisant International Airport, or revise existing patterns of take-offs and landings.

Upon review of the petition, it has been concluded that the Agency should obtain further statements, views or comments, either oral or written, of interested persons in regard to the subject matter of the petition.

Accordingly, notice is hereby given that a public hearing will be held before a representative of the Administrator at 9:30 a.m., c.s.t., on February 15, 1962, at the Hilton Hotel, 901 Airline Highway (opposite Moisant International Airport), New Orleans, Louisiana, for the purpose of receiving such statements, views, or comments.

All parties who wish to present their statements, views or comments at the public hearing should send advance written notice as soon as possible of such intentions, in duplicate, to the Docket Section, Room C-226, 1711 New York Avenue NW., Washington 25, D.C. Such notice should include the name and number of persons expected to attend, the organization, if any, represented and an estimate of the time required for the presentation of views and comments.

All comments presented at the hearing will be considered before action is taken on the subject filed petition.

Issued in Washington, D.C., on January 10, 1962.

N. E. HALABY,
Administrator.

Martin, Fort Myers, Fla., Docket No. 14100, File No. BP-13997; for construction permits.

The Hearing Examiner having under consideration:

(a) The Commission's Memorandum Opinion and Order herein (FCC 61-1497), released December 27, 1961, wherein it was ordered that the issues in the proceeding should be enlarged by the inclusion of an issue relating to the efforts made by each of the respective remaining applicants "to determine the programming needs of the area he proposes to serve and the manner in which he proposes to meet such needs;"

(b) Volume 10 of the transcript of testimony in the proceeding wherein it was ordered at page 1036 that the record in the proceeding "is closed;" and

(c) An Order of the Acting Chief Hearing Examiner (FCC 61M-2009), released December 29, 1961, wherein the time for the filing of proposed findings of fact and conclusions of law and for

replies thereto, if any, was continued to dates to be specified hereinafter by the Hearing Examiner;

It appearing, that since the Commission has added a new issue herein and required that the remaining applicants should respond thereto at an evidentiary hearing, it is necessary to reopen the record;

It further appearing, that prompt and orderly disposition of such issue would be furthered by the holding of an additional prehearing conference in this matter;

It is ordered, This 9th day of January 1962, on the Hearing Examiner's own motion that the record herein is reopened; and

It is further ordered, On the Hearing Examiner's own motion, that the remaining parties hereto or their counsel are directed to appear at a prehearing conference at the Offices of the Commission in Washington, D.C., at 10:00 a.m., on January 12, 1962, to discuss the appropriate procedures for the prompt compliance with requirements of the aforementioned Memorandum Opinion and Order of the Commission herein released December 27, 1961.

Released: January 10, 1962.

FEDERAL POWER COMMISSION

[Docket No. E-7020]

PACIFIC POWER & LIGHT CO.

Notice of Application

JANUARY 8, 1962.

Take notice that on December 28, 1961, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, by Pacific Power & Light Company (Applicant) for authorization for the issuance of securities. Applicant is a corporation organized under the laws of the State of Maine and doing business as a foreign corporation in the States of Oregon, Wyoming, Washington, California, Montana, and Idaho. Applicant proposes to amend its Certificate of Organization and By-Laws so as to increase and change the common stock which it is authorized to issue from 8,212,679 shares of common stock of the par value of $6.50 per share to 16,425,358 shares of common stock of the par value of $3.25 per share, and to split and change the number of shares of its common stock of the par value of $6.50 per share which shall be outstanding immediately prior to the becoming effective of such amendments into twice such number of its proposed new $3.25 par value common stock. After the effective date of the proposed amendments (which will require the affirmative vote of Stockholders representing a majority of the voting power) outstanding certificates for shares of the present $6.50 par value common stock will be treated as evidencing, and will automatically represent, the same number of shares of the new $3.25 par value common stock. As promptly as possible after such effective date all holders of common stock of record at the close of business on such date will be sent certificates for the additional shares of $3.25 par value common stock to which they will become entitled as a result of the two-for-one split. Stockholders will then have, together with the certificates which they will retain, two shares of $3.25 par value common stock for each share of $6.50 par value common stock held before the split. Applicant states that the proposed split of its common stock, with the consequent lower market price per share, should result in a broadening of public interest in the stock, an increase in the number of stockholders and a greater availability of shares for purchase and sale, proving beneficial to both the Stockholders and Applicant. The capital and surplus accounts of the Applicant will not be affected by the proposed split of common stock.

Any person desiring to be heard or to make any protest with reference to said application should on or before the 29th day of January 1962, file with the Federal Power Commission, Washington 25, D.C., petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). The application is on file and available for public inspection.

JOSEPH H. GUTRIDE,
Secretary.

MOTOR CARRIER TRANSFER PROCEEDINGS

JANUARY 10, 1962.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 64149. By order of January 3, 1962, the Transfer Board approved the transfer to Edward Miller, Jr., doing business as Edward Miller & Son, Richmond Hill 18, N.Y., of Certificate No. MC 112744 issued March 26, 1952, in the name of Edward Miller, Sr., and Edward Miller, Jr., a partnership, doing business as Edward Miller & Son, Richmond Hill, N.Y., authorizing the transportation of household goods as defined by the Commission, over irregular routes, between New York, N.Y., and points in Nassau and Suffolk Counties, N.Y., on the one hand, and, on the other, points in New York, Connecticut, New Jersey, and those in that part of Pennsylvania on and east of U.S. Highway 15. Joseph S. Williams, Jr., Jamaica Chamber of Commerce Building, 89-31 161st Street, Jamaica 32, N.Y., attorney for applicants.

No. MC-FC 64643. By order of January 4, 1962, the Transfer Board approved the transfer to Ernest Labumbard, Gladstone, Mich., of Certificate in No. MC 115705, issued September 10, 1956, to Edward Wender, Iron Mountain, Mich., authorizing the transportation of: Fertilizer, from Madison, Wis., to points in the upper peninsula of Michigan, with no transportation for compensation on return except as otherwise authorized. Michael D. O'Hara, Spies Building, Menominee, Mich., attorney for applicants.

No. MC-FC 64649. By order of January 5, 1962, the Transfer Board approved the transfer to Vrabel Trucking Corp., Yonkers, N.Y., of Certificate in No. MC 34688, issued November 6, 1950, to Abe Seidman, Brooklyn, N.Y., authorizing the transportation of: General commodities, excluding household goods, commodities in bulk, and other specified commodities, from New York, N.Y., to points in New Jersey within 25 miles of New York, N.Y. Martin Werner, 2 West 45th Street, New York 36, N.Y., attorney for applicants.

No. MC-FC 64657. By order of January 4, 1962, the Transfer Board approved the transfer to Bruno & D'Elia, Inc., Hackensack, N.J., of Certificates Nos. MC 100031 Sub 1, MC 100031 Sub 2, and MC 100031 Sub 3, issued July 2, 1953, October 29, 1959, and August 22, 1960, respectively, to Seaboard Mill Supply, Inc., New York 5, N.Y., authorizing the transportation of cork and cork board, nails, lumber, asphaltic emulsion, in cans, paper, paper products, and printed matter, over irregular routes, between New York, N.Y., on the one hand, and, on the other, points in Essex and Union Counties, N.J., and those in that part of Bergen and Hudson Counties, N.J., not including the New York Commercial Zone as defined by the Commission; waste paper, from New York, N.Y., and points in Nassau County, N.Y., to points in Bergen, Essex, Hudson, Union, Passaic, Middlesex, Morris and Somerset Counties, N.J.; and from New York, N.Y., points in Nassau County, N.Y., and points in Bergen, Essex, Hudson, Union, Passaic, Middlesex, Morris, and Somerset Counties, N.J., to Versailles, Montville, and New Haven, Conn.; and skids, from points in Bergen, Essex, Hudson, Union, Passaic, Middlesex, Morris, and Somerset Counties, N.J., to New York, N.Y., and points in Nassau County, N.Y.; and empty skids, from Versailles, Montville, and New Haven, Conn., to points in Bergen, Essex, Hudson, Union, Passaic, Middlesex, Morris, and Somerset Counties, N.J. William D. Traub, 350 Fifth Avenue, New York 1, N.Y., representative for applicants.

No. MC-FC 64719. By order of January 3, 1962, the Transfer Board approved the transfer to G. Richard Arner, doing business as G. R. Arner, Tamaqua, Pa., of Certificate No. MC 52862 Sub 5, issued to Edward J. Boyle, doing business as E. J. Boyle, Tamaqua, Pa., authorizing the transportation of: Shale derived aggregate, in bulk, from Rahn Township, and points within five miles thereof, in Schuylkill County, Pa., to points in Delaware, Maryland, New Jersey (except those in Cumberland, Salem, Gloucester, Cape May, Atlantic, Camden, and Burlington Counties), New York, Virginia, West Virginia, and the District of Columbia. William J. Wilcox, 624 Commonwealth Building, Allentown, Pa., attorney for applicants.

No. MC-FC 64726. By order of January 3, 1962, the Transfer Board approved the transfer to Washington Moving & Storage Co., Inc., New York, N.Y., of Certificate No. MC 95642, issued July 23, 1959, to James J. Borda, doing business as Railway Crating & Packing Co., New York, N.Y., authorizing the transportation of: Household goods, between New York, N.Y., on the one hand, and, on the other, Bethlehem, and Philadelphia, Pa., and points in Connecticut, and New Jersey. Morris Honig, 150 Broadway, New York, N.Y., attorney for applicants.

[No. 33750]

FOURTH CLASS MAIL

Reformation of Rates and Other Conditions of Mailability

At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 9th day of January A.D. 1962.

It appearing, that on January 2, 1962, the Postmaster General submitted to the Commission for its consent, after investigation, specific proposals for reformations of rates and other conditions of mailability of fourth class mail, including revisions of the limits of size and weight of parcel post;

It further appearing, that the Commission's consent to the establishment of the reformations is requested pursuant to that part of the paragraph under the heading "General Provisions" under the appropriations for the Post Office Department contained in Chapter IV of the Supplemental Appropriations Act, 1951, approved September 27, 1950, 64 Stat. 1050, as amended by section 213 of the Postal Rate Increase Act, 1958, 72 Stat. 143 (31 U.S.C. 695); and section 207 of the Act of February 28, 1925, 43 Stat. 1067, as amended by section 7 of the Act of May 29, 1928, 45 Stat. 942 (39 U.S.C. 247, 1958 ed.);

And it further appearing, that the proposals for revision of the maximum limits of size and weight and for rate revisions are "interdependent and inseparable," and that the Commission's jurisdiction to consent to an increase in the maximum size and weight of parcels may have been abrogated by the provisions of Public Law 199 of the 82d Congress (65 Stat. 610):

It is ordered, That no investigation be instituted at this time.

It is further ordered, That within 15 days of the date of the service of this order, the Postmaster General shall file a brief, and serve copies thereof upon those parties who attended the public conference held at the Post Office Department on December 11-12, 1961, devoted solely to the jurisdiction of this Commission to consent to his proposals in the light of the purpose and provisions of Public Law 199.

It is further ordered, That any person interested may within 10 days after service of the aforesaid brief, file with

the Commission and serve upon the Postmaster General a brief limited to the same issue.

And it is further ordered, That notice of this order be given, (1) by depositing a copy in the office of the Secretary of the Commission for public inspection, (2) by filing a copy thereof with the Director, Office of the Federal Register, (3) by serving copies thereof on the Postmaster General and the Comptroller General of the United States, and (4) by serving copies thereof on all parties who attended the public conference held on December 11–12, 1961 at the Post Office Department.

By the Commission.

[SEAL] HAROLD D. MCCOY, *Secretary.*

SECURITIES AND EXCHANGE COMMISSION

[File No. 812-1472]

AMERICAN RESEARCH AND DEVELOPMENT CORP.

Notice of Filing of Application for an Order Exempting Proposed Transaction

JANUARY 8, 1962.

Notice is hereby given that American Research and Development Corporation ("Applicant"), The John Hancock Building, Boston 16, Mass., a Massachusetts corporation and registered closed-end, nondiversified management investment company, has filed an application under section 17(b) of the Investment Company Act of 1940 ("Act"), for an order of the Commission exempting from the provisions of section 17(a) of the Act the proposed extension of the maturity date of a promissory note in the principal amount of $50,000 issued to Applicant by Intercontinental Electronics Corporation ("Intercontinental"), an affiliated person of Applicant.

The application contains the following representations:

Intercontinental, a Delaware corporation, was organized in 1956, and is engaged in the business of the development and sale of various electronic, aircraft detection and navigation equipment. Applicant states that it owns approximately 17 percent of the outstanding voting securities of Intercontinental, and that it believes the proposed maturity date extension would be prohibited by section 17(a)(3) of the Act, unless exempted therefrom by an order of the Commission.

By an order dated December 19, 1960, the Commission exempted from the provisions of section 17(a)(3) of the Act a loan of $50,000 from the Applicant to Intercontinental evidenced by a promissory note dated December 2, 1960. The note provided for interest on the principal sum at the rate of six percent per annum, and matured December 2, 1961. Intercontinental, with the consent of Applicant, has withheld repayment of the loan pending disposition of this application, during which time Applicant does not intend to sue on the note. No other indebtedness of Intercontinental has been or will be accelerated by the note being overdue.

It is intended to extend the maturity date of the note to March 31, 1962. The extension of the maturity date of the note is proposed in order to allow the continued use of funds for working capital purposes by Intercontinental.

Applicant has determined that it would be in its best interests to divest itself of its securities investment in Intercontinental, and has made application to this Commission for an exemption of the proposed sale of its portfolio voting securities of Intercontinental to an affiliated person of Intercontinental. Pending disposition of that application, Applicant desires that Intercontinental be able to use the funds to promote the commercial development of its business enterprises.

Section 17(a)(3) of the Act, in relevant part, prohibits the borrowing of money from a registered investment company by an affiliated person thereof. Under section 17(b) of the Act, the Commission shall grant an exemption from the prohibitions of section 17(a) of the Act, if it finds that the terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned; and that the proposed transaction is consistent with the policy of the registered investment company concerned, and consistent with the general purposes of the Act.

Notice is further given that any interested person may, not later than January 30, 1962, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon applicant. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) should be filed contemporaneously with the request. At any time after said date, as provided by Rule O–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the showing contained in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-4006]

COLUMBIA GAS SYSTEM, INC. AND ATLANTIC SEABOARD CORP.

Notice of Filing Regarding Issue and Sale of $6,000,000 Face Amount of Unsecured Installment Note by Subsidiary Company to Registered Holding Company

JANUARY 8, 1962.

Notice is hereby given that The Columbia Gas System, Inc. ("Columbia"), 120 East 41st Street, New York 17, N.Y., a registered holding company, and its wholly owned nonutility subsidiary company Atlantic Seaboard Corporation ("Seaboard"), 1700 MacCorkle Avenue SE., Charleston, W. Va., have filed a joint application-declaration and an amendment thereto pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(b), 9, 10, and 12(f) of the Act and Rule 43 thereunder as applicable to the proposed transaction.

All interested persons are referred to the joint application-declaration on file in the office of the Commission for a statement of the proposed transaction which is summarized as follows:

Seaboard proposes to issue and sell to Columbia and Columbia proposes to acquire, an unsecured installment promissory note in the face amount of $6,000,000. The note is to be non-registered and dated when issued. The face amount thereof will be due in twenty-five equal annual installments on January 15, of each of the years 1963 to 1987, inclusive. Interest is to be paid semi-annually at the rate of 5.1 percent per annum, the cost of money to Columbia on its last sale of debentures.

The proceeds from the sale of the note will be used by Seaboard to repay to Columbia an emergency cash advance of $6,000,000 made by Columbia to Seaboard on June 27, 1961. Columbia advised the Commission, by letter dated June 29, 1961, that it had made the emergency loan pursuant to the provisions of Rule 45(b)(3) under the Act. Such advance was made as a non-interest-bearing short-term loan in the amount of $6,000,000 to assist Seaboard in making rate refunds to its customers in the amount of $8,653,700, pursuant to an Order of the Federal Power Commission issued April 21, 1961. A part of the revenues collected by Seaboard under the contested rate was used, in lieu of long-term debt financing, for plant improvements.

It is represented that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction. The fees and expenses to be incurred by Seaboard and Columbia are estimated at $100 for each company.

Notice is further given that any interested person may, not later than January 30, 1962, request this Commission in writing that a hearing be held in respect of such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. A copy of the request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon applicants-declarants, and proof of service (by affidavit, or in the case of an attorney-at-law, by certificate) filed or dispatched contemporaneously with the request. At any time after that date the joint application-declaration, as amended, may be granted and permitted to become effective as provided in Rule 23 of the rules and regulations promulgated under the Act; or the Commission may grant exemption from its rules as provided in Rules 20(a) and 100 thereof, or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-4006]

NEW ORLEANS PUBLIC SERVICE INC.

Notice of Proposed Transfer of a Portion of Earned Surplus to Capital Surplus

JANUARY 8, 1962.

Notice is hereby given that New Orleans Public Service Inc. ("New Orleans"), New Orleans 9, Louisiana, a public-utility subsidiary of Middle South Utilities, Inc., a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a)(2) and 7 of the Act as applicable to the proposed transaction.

All interested persons are referred to the declaration, on file at the office of the Commission, for a statement of the transaction therein proposed which is summarized as follows:

New Orleans proposes to transfer from its earned surplus account to its capital surplus account as of December 31, 1961, an aggregate of $710,264.89 which is equivalent to 50 cents per share on its outstanding no par value common stock. At October 31, 1961, its earned surplus amounted to $12,346,604, after giving effect to net income of $4,754,516 for the 12-month period ended as of that date, the payment of dividends to its preferred and common stockholders in the aggregate amount of $3,979,152, and the transfer from earned surplus to capital surplus of $355,132.

The declaration states that no State regulatory body or agency and no Federal commission or agency, other than this Commission, has jurisdiction over the proposed transaction. It is also stated that no fees or commissions are to be paid and no special and separable expenses are anticipated in connection with the proposed transaction.

Notice is further given that any interested person may, not later than January 30, 1962, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon declarant, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed contemporaneously with the request. At any time after said date, the declaration, as filed or as amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate.

By the Commission.

Price: $8.75

Published by Office of the Federal Register, National Archives and Records Service, General Services Administration

Order from Superintendent of Documents, Government Printing Office, Washington 25, D.C.

FEDERAL REGISTER

Telephone WOrth 2-3261

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Office of the Federal Register, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D.C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

Presidential Documents

Title 3—THE PRESIDENT

Executive Order 10985

AMENDMENT OF EXECUTIVE ORDER NO. 10501,[1] RELATING TO SAFEGUARDING OFFICIAL INFORMATION IN THE INTERESTS OF THE DEFENSE OF THE UNITED STATES

By virtue of the authority vested in me by the Constitution and statutes of the United States, and as President of the United States, and deeming such action necessary in the best interest of the national security, it is ordered that section 2 of Executive Order No. 10501 of November 5, 1953, as amended by Executive Order No. 10901 of January 9, 1961, be, and it is hereby, further amended as follows:

SECTION 1. Subsection (a) of section 2 is amended (1) by deleting from the list of departments and agencies thereunder the Operations Coordinating Board, the Office of Civil and Defense Mobilization, the International Cooperation Administration, the Council on Foreign Economic Policy, the Development Loan Fund, and the President's Board of Consultants on Foreign Intelligence Activities, and (2) by adding thereto the following-named agencies:

Agency for International Development
Office of Emergency Planning
Peace Corps
President's Foreign Intelligence Advisory Board
United States Arms Control and Disarmament Agency

SEC. 2. Subsection (b) of section 2 is amended by deleting from the list of departments and agencies thereunder the Government Patents Board, and by adding thereto the following-named agency:

Federal Maritime Commission

SEC. 3. The agencies which have been added by this order to the lists of departments and agencies under subsections (a) and (b) of section 2 of Executive Order No. 10501, as amended, shall be deemed to have had authority for classification of information or material from the respective dates on which such agencies were established.

JOHN F. KENNEDY

THE WHITE HOUSE,
January 12, 1962.

[F.R. Doc. 62-518; Filed, Jan. 15, 1962; 10:25 a.m.]

Executive Order 10986

AMENDMENT OF EXECUTIVE ORDER NO. 10898,[2] ESTABLISHING THE INTERDEPARTMENTAL HIGHWAY SAFETY BOARD

By virtue of the authority vested in me as President of the United States, it is hereby ordered that Executive Order No. 10898 of December 2, 1960, entitled "Establishing the Interdepartmental Highway Safety Board," be, and it is hereby, amended by substituting for subsection (b) of section 1 thereof the following:

[1] 18 F.R. 7049; 3 CFR, 1949–1953 Comp., p. 979.
[2] 25 F.R. 12429; 3 CFR, 1960 Supp., p. 90.

(b) The Board shall have as members the following:
(1) The Secretary of Commerce, who shall be the Chairman of the Board.
(2) The Secretary of Defense.
(3) The Postmaster General.
(4) The Secretary of Labor.
(5) The Secretary of Health, Education, and Welfare.
(6) The Chairman of the Interstate Commerce Commission.
(7) The Administrator of General Services.

JOHN F. KENNEDY

THE WHITE HOUSE,
January 12, 1962.

Rules and Regulations

Title 7—AGRICULTURE

Chapter VII—Agricultural Stabilization and Conservation Service (Agricultural Adjustment), Department of Agriculture

SUBCHAPTER D—SPECIAL PROGRAMS

[1962 Feed Grain Program, Supp. 1]

PART 775—FEED GRAINS

Subpart—1962 Feed Grain Program Regulations

Correction

In F.R. Doc. 61-12428 appearing at page 155 of the issue for Saturday, Jan. 6, 1962, the following corrections are made in the table of § 775.152:

1. For "Marion County, Iowa", the "1959-60 adjusted average yield" should read "31.2".

2. For "Juneau County, Wisconsin", the "50 percent payment rate per acre" should read "18.70".

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Lemon Reg. 1, Amdt. 1]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

Order, as amended. The provisions in paragraph (b)(1)(i) and (ii) of § 910.301 (Lemon Regulation 1, 27 F.R. 166) are hereby amended to read as follows:

(i) District 1: 23,250 cartons;
(ii) District 2: 176,700 cartons.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: January 11, 1962.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 62-453; Filed, Jan. 15, 1962; 8:46 a.m.]

PART 990—CENTRAL CALIFORNIA GRAPES FOR CRUSHING

Establishment of Handler Charges

Notice was published in the November 8, 1961, issue of the FEDERAL REGISTER (26 F.R. 10516), that there was under consideration a proposal to establish a schedule of charges which handlers may deduct from any monies owed by them to producers (or their successors in interest) as compensation for costs incurred by the handlers in connection with setaside under Marketing Agreement No. 133 and Order No. 990 (7 CFR Part 990; 26 F.R. 7797), hereinafter referred to collectively as the "order", regulating the handling of Central California grapes for crushing. This marketing order program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

Said notice afforded interested persons a 14-day period (which was to have expired December 1, 1961) to submit written data, views, or arguments pertaining to the proposal. The period prescribed in said notice for the receipt of such comments was extended on November 22, 1961 (26 F.R. 10933), to expire December 15, 1961, and further extended on December 14, 1961 (26 F.R. 11982), to expire January 4, 1962.

After consideration of all relevant matters presented, including the committee's recommendations, said handler charges are hereby established for the period August 26, 1961-June 30, 1962, as follows:

§ 990.401 Establishment of charges to compensate handlers for receiving, processing, storing and certain other costs relating to setaside of the 1961-62 crop year.

(a) *Costs.* Each handler who incurs a setaside obligation during the period beginning on August 26, 1961, and ending on June 30, 1962, and sets aside proof gallons of products, or the concentrate equivalent thereof, in accordance with volume regulation in effect under §§ 990.54 and 990.203, shall be compensated as provided in paragraph (b) of this section, for the cost items pertaining to such setaside that are set forth below.

(1) Costs of receiving, processing, and storing, and other costs including:
(i) Sugar testing,
(ii) Maintenance and care,
(iii) Insurance, computed on the product at the rate of $20.00 per ton for an equivalent quantity of fresh grapes at 21 degrees Balling, or the maximum value allowed by carriers for insurance purposes, whichever is less,
(iv) County taxes,
(v) Loading out for delivery to the Grape Crush Administrative Committee, or its designee, for ultimate disposition, and
(vi) The processing of dessert wine to a condition which is acceptable for interwinery sales.

(b) *Establishment of charges*—(1) *Grapes for crushing, other than raisin residual material.* Each handler may deduct from money owed any producer (or his successor in interest) the amount of $12.00 per ton for each ton of that quantity of grapes for crushing obtained by applying the surplus percentage for the crop year established by § 990.203, adjusted to any subsequent reduction of such percentage, to the total receipts of grapes for crushing from such person during the period beginning on August 26, 1961, and ending on June 30, 1962, at premises within the State of California controlled or operated by such handler. The sum of $12.00 shall include compensation for all cost items specified in paragraph (a) of this section. Of such amount, $8.50 per ton shall constitute the charge for costs incurred during the period August 26, 1961-June 30, 1962; and $3.50 per ton shall constitute the charge for the cost of storage and for such of the costs specified in paragraph (a)(2) of this section as may be applicable, incurred during the crop year beginning on July 1, 1962. For the purposes of this subparagraph only, "total receipts of grapes for crushing" shall not include (i) sweepings or other residual material from raisin processing, and (ii) those varieties of grapes for crushing exempted by § 990.202 from volume regulation for the said period.

(2) *Grapes for crushing—raisin residual material.* [Reserved]

It is hereby found and determined that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 1003(c)) in that: (1) The order became effective August 26, 1961, and beginning with that date handlers have been incurring setaside obligations on grapes for crushing, other than those exempted from volume regulation by § 990.202; (2) handlers have been incurring expenses of receiving, processing, storing and other costs of setaside in satisfaction of such obligations; (3) authorization contained herein for handlers to deduct said charges will auto-

matically apply from August 26, 1961, and (4) no advance preparation by handlers is required to comply with this subpart.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 11, 1962, to become effective upon publication in the FEDERAL REGISTER.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 62-464; Filed, Jan. 15, 1962; 8:47 a.m.]

Title 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 6—EXCEPTIONS FROM THE COMPETITIVE SERVICE

Department of Health, Education, and Welfare

Effective upon publication in the FEDERAL REGISTER, subparagraphs (7) and (8) are added to paragraph (a) of § 6.114 as set out below.

§ 6.114 Department of Health, Education, and Welfare.

(a) *St. Elizabeth's Hospital.* • • •

(7) Three Medical Officers (Internal Medicine Resident) for not to exceed three months' employment in the case of any one individual.

(8) One Medical Officer (Physical Medicine and Rehabilitation Resident) for not to exceed one year's employment in the case of any one individual.

(R.S. 1753, sec. 2, 22 Stat. 403, as amended; 5 U.S.C. 631, 633)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] MARY V. WENZEL,
Executive Assistant to the Commissioners.

[F.R. Doc. 62-462; Filed, Jan. 15, 1962; 8:47 a.m.]

Title 12—BANKS AND BANKING

Chapter V—Federal Home Loan Bank Board

SUBCHAPTER C—FEDERAL SAVINGS AND LOAN SYSTEM

[No. 15357]

PART 545—OPERATIONS

Fixing of Determination Date

JANUARY 11, 1962.

Resolved that the Federal Home Loan Bank Board, upon the basis of consideration by it of the advisability of amendment of § 545.1–1 of the rules and regulations for the Federal Savings and Loan System (12 CFR 545.1–1) as hereinafter set forth, and for the purpose of effecting said amendment, hereby amends said § 545.1–1 as follows, effective immediately:

Paragraph (d) of said section is hereby amended to read as follows:

(d) *Determination date.* For the purpose of computing earnings for distribution on savings accounts, the board of directors of a Federal association which has a charter in the form of Charter N or Charter K (rev.) may, after adoption of a resolution so providing and while such resolution remains in effect, fix a date, not later than the twentieth of the month, for determining the date of investment of payments on savings accounts or designated classes thereof: *Provided*, That, prior to June 30, 1963, no such Federal association may fix as such date a date later than the tenth of the month if it is a date which building and loan or savings and loan associations, homestead associations, cooperative banks, and mutual savings banks in the State, district, or territory (including Puerto Rico, Guam, and the Virgin Islands) in which the home office of such Federal association is located are prohibited by the laws of such State, district, or territory from fixing as such date, except that such a Federal association may fix as such date a date not later than the fifteenth of the month if its home office is located in a State, district, or territory the laws of which expressly provide that building and loan or savings and loan associations, homestead associations, cooperative banks, or mutual savings banks may fix as such date a date not later than the tenth business day of the month. Payments, affected by such determination date, received by the association on or before such determination date shall receive earnings as if invested on the first of such month; payments, affected by such determination date, received subsequent to such determination date shall receive earnings as if invested on the first of the next succeeding month.

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1947 Supp.)

Resolved further that, as the Board for good cause finds and determines that notice and public procedure herein are impracticable under the provisions of section 4(a) of the Administrative Procedure Act, because due and timely execution of its functions require the immediate amendment of paragraph (d) of said § 545.1–1 so as to give effect, for the present, to state laws in several states which prohibit determination dates as early as that provided for in the existing regulation, and for the same reason the Board finds and determines for good cause that deferment of the effective date of such amendment is impractical and that, under the circumstances, notice and public procedure under section 4(a) of said Act, and deferral of the effective date under section 4(c) of said Act, are not required.

By the Federal Home Loan Bank Board.

[SEAL] HARRY W. CAULSEN,
Secretary.

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER C—AIRCRAFT REGULATIONS

[Reg. Docket No. 1013; Amdt. 385]

PART 507—AIRWORTHINESS DIRECTIVES

Boeing 707/720 Series and Douglas DC–8 Series Aircraft

Pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), an airworthiness directive was adopted on December 22, 1961, and made effective immediately because of the safety emergency involved as to all known United States operators of Boeing 707, 720 Series and Douglas DC–8 Series aircraft equipped with Pratt and Whitney JT3D–3 turbofan engines. Due to recent failures of P/N 393504 fourth stage compressor rotor disc, the amendment required that the disc be inspected for cracks and if cracks were found, the engine was to be removed for disc replacement prior to further flight.

Since it was found that immediate corrective action was required in the interest of safety, notice and public procedure thereon were impracticable and contrary to the public interest and good cause existed for making the airworthiness directive effective immediately as to all known U.S. operators of Boeing 707/720 Series and Douglas DC–8 Series aircraft equipped with Pratt and Whitney JT3D–3 turbofan engines by individual telegrams dated December 22, 1961. Since these conditions still exist, the airworthiness directive is hereby published in the FEDERAL REGISTER as an amendment to § 507.10(a) of Part 507 (14 CFR Part 507), to make it effective as to all persons. The provision of paragraph B of the telegraphic directive has been revised in this amendment to clarify the compliance requirement for engines with less than 200 hours' time in service.

BOEING AND DOUGLAS. Applies to all 707/720 Series and DC–8 Series aircraft equipped with Pratt and Whitney JT3D–3 turbofan engines.

Compliance required as indicated.

(a) For engines previously inspected by the procedure described in paragraph (c), reinspect in accordance with paragraph (c) every 225 hours' time in service thereafter.

(b) For engines not previously inspected by the procedure described in paragraph (c) inspect in accordance with paragraph (c) as follows:

(1) Inspect engines with 200 or more hours' time in service within the next 25 hours' time in service and every 225 hours' time in service thereafter.

(2) Inspect engines with less than 200 hours' time in service by the time 225 hours' time in service have been accumulated and every 225 hours' time in service thereafter.

(c) Due to recent failures of P/N 393504 fourth stage compressor rotor disc, inspect the disc for cracks adjacent to the inside edge of the tie bolt circular rib in the disc web. Such cracks may progress along the inside of the rib and then toward the disc bore through the bore stiffening section.

To accomplish the inspection, remove the front accessory drive support assembly (N1 gearcase) and the front accessory drive main spur gear (N1 gearcase coupling). Using a strong light and borescope or similar optical device, visually inspect the fourth stage compressor rotor disc in the area noted above. If any cracking is found, the engine must be removed for disc replacement prior to further flight.

(Pratt and Whitney Aircraft telegraphic message of December 19, 1961, covers the same subject.)

This amendment shall become effective upon publication in the FEDERAL REGISTER for all persons except those to whom it was made effective immediately by telegram dated December 22, 1961.

(Sec. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on January 9, 1962.

G. S. MOORE,
Acting Director, Flight Standards Service.

[F.R. Doc. 62-434; Filed, Jan. 15, 1962; 8:45 a.m.]

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 8412 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

Acushnet Carpet Mills, Inc., et al.

Subpart—Advertising falsely or misleadingly: § 13.30 *Composition of goods:* § 13.30–75 *Textile Fiber Products Identification Act.* Subpart—Furnishing means and instrumentalities of misrepresentation or deception: § 13.1055 *Furnishing means and instrumentalities of misrepresentation or deception.* Subpart—Misbranding or mislabeling: § 13.1212 *Formal regulatory and statutory requirements:* § 13.1212–80 *Textile Fiber Products Identification Act;* § 13.1323 *Size or weight.* Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1845 *Composition:* § 13.1845–70 *Textile Fiber Products Identification Act;* § 13.1852 *Formal regulatory and statutory requirements:* § 13.1852–70 *Textile Fiber Products Identification Act.* Subpart—Using misleading name—Goods: § 13.2280 *Composition:* § 13.2280–70 *Textile Fiber Products Identification Act.**

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 72 Stat. 1717; 15 U.S.C. 45, 70) [Cease and desist order, Acushnet Carpet Mills, Inc. (New Bedford, Mass.), et al., Docket 8412, Sept. 29, 1961]

In the Matter of Acushnet Carpet Mills, Inc., a Corporation, and Martin Berdy and Morris Lefkowitz, Individually and as Officers of Said Corporation; Arcco Selling Agency, Inc., a Corporation, and Myron S. Rosenberg, I. Stanley Bailey and Milton L. Rosenberg, Individually and as Officers of Said Corporation

Consent order requiring manufacturers in New Bedford, Mass., to cease violating the Textile Fiber Products Identification Act by advertising on a price list as "Woolray Blend of wool, rayon, cotton, nylon", rugs the constituent fibers of which were not designated in the order of predominance as required, and in which the wool content—implied to be substantial by the term "Woolray"—was insignificant; by failing to label rugs with the true generic name of fibers in the order of their predominance by weight and the "other fibers" present in amounts of 5 percent or less, together with percentages of each; and by failing to comply with other requirements of the Act; and to cease violating the Federal Trade Commission Act by labeling as "Approx. 9' x 12'", rugs which were substandard both in length and in width by as much as eight inches.

The order to cease and desist, including order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Acushnet Carpet Mills, Inc., a corporation, its officers, Martin Berdy and Morris Lefkowits, individually and as officers of said corporation, and Arcco Selling Agency, Inc., a corporation, its officers, and Myron S. Rosenberg and I. Stanley Bailey, individually and as officers of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction, delivery for introduction, manufacture for introduction, sale, advertising or offering for sale, in commerce, or in the transportation or causing to be transported in commerce, or in the importation into the United States, of textile fiber products; or in connection with the selling, offering for sale, advertising, delivering, transporting, or causing to be transported, textile fiber products, which have been advertised or offered for sale, in commerce; or in connection with the selling, offering for sale, advertising, or causing to be transported, after shipment in commerce, textile fiber products, either in their original state or which were contained in other textile fiber products, as the terms "commerce" and "textile fiber products" are defined in the Textile Fiber Products Identification Act, do forthwith cease and desist from:

A. Misbranding such products by falsely or deceptively stamping, tagging, labeling, invoicing, advertising or otherwise identifying such products as to the name or amount of constituent fibers contained therein.

B. Misbranding textile fiber products by failing to affix labels to such products showing each element of information required to be disclosed by section 4(b) of the Textile Fiber Products Identification Act.

C. Making any representations by disclosure or by implication of the fiber contents of any textile fiber product in any written advertisement which is used to aid, promote, or assist directly or indirectly in the sale or offering for sale of such textile fiber product unless the same information required to be shown on the stamp, tag, label or other means of identification under section 4(b) (1) and (2) of the Textile Fiber Products Identification Act is contained in the said advertisement, except that the percentages of the fibers present in the textile fiber product need not be stated.

D. Making any representations as to fiber content of any textile fiber product or any portion of a textile fiber product which has been labeled as being composed of unknown or undetermined fibers.

It is further ordered, That respondents Acushnet Carpet Mills, Inc., a corporation, its officers, and Martin Berdy and Morris Lefkowitz, individually and as officers of said corporation, and Arcco Selling Agency, Inc., a corporation, its officers, and Myron S. Rosenberg and I. Stanley Bailey, individually and as officers of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of rugs or any other product in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from: Representing, directly or indirectly, the size of said products to be of larger dimensions than is the fact.

It is further ordered, That the complaint be, and the same hereby is, dismissed as to Milton L. Rosenberg, individually and as an officer of Arcco Selling Agency, Inc.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: September 29, 1961.

By the Commission.

[SEAL] JOSEPH W. SHEA,
Secretary.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER C—DRUGS

PART 146a—CERTIFICATION OF PENICILLIN AND PENICILLIN-CONTAINING DRUGS

PART 146b—CERTIFICATION OF STREPTOMYCIN (OR DIHYDROSTREPTOMYCIN) AND STREPTOMYCIN- (OR DIHYDROSTREPTOMYCIN-) CONTAINING DRUGS

Miscellaneous Amendments

Under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and delegated to the Commissioner of Food and Drugs by the Secretary (25 F.R. 8625), the regulations for certification of antibiotic and antibiotic-containing drugs (21 CFR

146a.67, 146b.106) are amended as follows:

1. Section 146a.67 *Procaine penicillin in streptomycin sulfate solution;* * * *, is amended in the following respects:

a. In the conclusion to paragraph (a), the words "by § 146b.101(a)" and "by § 146b.106(a)" are changed to read "by §§ 146b.101(a) or 146b.106(a)" and "by §§ 146b.103(a) or 146b.106(a)", respectively. As amended, the conclusion to paragraph (a) reads as follows:

The procaine penicillin used conforms to the requirements prescribed by § 146a.44(a). The streptomycin sulfate used conforms to the requirements prescribed by § 146b.101(a) or § 146b.106(a) of this chapter. The dihydrostreptomycin sulfate used conforms to the requirements prescribed by § 146b.103(a) or § 146b.106(a) of this chapter. Each other substance used, if its name is recognized in the U.S.P. or N.F., conforms to the standards prescribed therefor by such official compendium.

b. Paragraph (d)(3)(iii) is amended by adding thereto the following new sentence: "If the streptomycin or dihydrostreptomycin used in making the batch is a solution of the drug, the person who requests certification shall dry a sufficient quantity of the solution to meet these sample requirements."

2. Section 146b.106 *Streptomycin sulfate solution;* * * *, is amended in the following respects:

a. Paragraph (d)(2)(ii) is changed to read as follows:

(ii) The streptomycin or dihydrostreptomycin sulfate used in making the batch; potency on dry basis and crystallinity if it is crystalline dihydrostreptomycin sulfate.

b. Paragraph (d)(3)(iii) is changed to read as follows:

(iii) The streptomycin or dihydrostreptomycin used in making the batch; one immediate container, unless it is crystalline dihydrostreptomycin, in which case the sample shall consist of three immediate containers. Each immediate container shall contain approximately 0.5 gram of the dried drug packaged in accordance with the requirements of § 146b.101(b). If the streptomycin or dihydrostreptomycin used in making the batch is a solution of the drug, the person who requests certification shall dry a sufficient quantity of such solution for potency testing on the dry basis.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since the amendments are a relaxation of existing requirements, in that they provide certification procedure to cover alternative methods of manufacture for certain antibiotic drugs. I also find that such changes in manufacture do not alter the safety and efficacy of these drugs, conditions pertinent to their certification under section 507 of the Federal Food, Drug, and Cosmetic Act.

Effective date. This order shall be effective 30 days from the date of its publication in the FEDERAL REGISTER.

(Sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357)

Dated: January 10, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 62-450; Filed, Jan. 15, 1962; 8:46 a.m.]

Title 32—NATIONAL DEFENSE

Chapter V—Department of the Army

SUBCHAPTER E—ORGANIZED RESERVES

PART 562—RESERVE OFFICERS' TRAINING CORPS

Miscellaneous Amendments

1. In § 562.13, add new sentence to paragraph (b)(1) as follows:

§ 562.13 Establishment of senior division ROTC units.

* * * * * *

(b) *Procedure for the establishment of a senior division ROTC unit.* (1) * * *. The institution may make application for the Army to maintain accountability and responsibility for Government property provided for ROTC training at the institution at the same time application is made for the establishment of an ROTC unit.

2. In § 562.15, revise paragraph (e) to read as follows:

§ 562.15 Conditions for retention of units.

In order to retain an established ROTC unit, each institution must continuously meet the following requirements:

* * * * * *

(e) *Other factors.* (1) Each institution must maintain the appropriate requirements of AR 145-421 concerning storage of and responsibility for Government property provided for ROTC training at the institution.

(2) Each class MC and CC institution must maintain the requirements for establishment of a senior division unit as prescribed in § 562.13.

3. Add new paragraphs (d) to § 562.19, to read as follows:

§ 562.19 Enrollment quotas.

* * * * * *

(d) At class MC institutions, all students who qualify (§ 562.21) for enrollment in the ROTC will be enrolled therein without regard to quota limitations.

4. Revise paragraph (f) in § 562.21, to read as follows:

§ 562.21 General requirements for enrollment.

Each student must meet the following requirements to be eligible for enrollment in any division of the ROTC:

* * * * * *

(f) *Other requirements.* (1) The applicant must be selected by the PMS.

(2) The applicant must have the approval of the head of the institution or his representative.

(3) If previously enrolled in an officer candidate type training course, the applicant must be favorably recommended for other officer training programs by the officer in charge.

5. Revise § 562.25 to read as follows:

§ 562.25 Training of nonenrolled students.

Students who meet the requirements for enrollment prescribed in §§ 562.21 through 562.24 will not be authorized to pursue the ROTC courses under the provisions of this section. Students who are ineligible for enrollment or who do not fulfill the requirements for enrollment may pursue ROTC training under the authority of this section only if they are within one of the following categories. The provisions of paragraphs (a) and (f) of this section are applicable to all divisions of the ROTC:

(a) A noncitizen may be permitted to participate in ROTC training, and unclassified ROTC training materials may be disclosed to him, subject to subparagraph (1) or (2) of this paragraph:

(1) A noncitizen who intends to become a citizen of the United States must present evidence of such intent to the PMS. DA Form 1624-R (fig. 1), which will be reproduced locally on 8-inch by 5½-inch paper, will be used for this purpose.

(2) A national of a foreign country (who does not intend to become a citizen) with which the United States entertains friendly relations must present evidence of accreditation from his government. For this purpose each student will obtain a letter from the representative of his government in Washington, D.C., stating that there is no objection to the student receiving ROTC training. The PMS will retain the original of the letter in the student's 201 file and forward a copy for file to the Office of the Assistant Chief of Staff, G2, in the Army area in which the institution is located. If the PMS is in doubt regarding the maintenance of friendly relations between the United States and another country, he will forward all papers to the next higher headquarters for decision.

(b) At class HS, class MI and class MJC institutions, students under 14 years of age may pursue ROTC courses only under the provisions of this section.

(c) A student who meets requirements for enrollment in the senior division except for a requirement for which a request for waiver is submitted to higher authority may be permitted to pursue the course until a determination is made. Upon receipt of such determination, one of the following actions will be taken:

(1) A student whose request for waiver is approved will be enrolled, unless his enrollment is not desired for other reasons.

(2) A student whose request for waiver is not favorably considered will not be authorized to pursue the course at the discretion of the PMS only for the remainder of that semester, provided the student requires the academic credit toward graduation.

(d) A student who is found medically disqualified for initial or continued enrollment in the senior division, when his condition is considered remediable, or subject to reexamination within a specified period may pursue the course until final determination is made, see paragraph (g) of this section. However, if the student is already enrolled, he will be disenrolled and informed in writing of his disenrollment, as prescribed by the provisions of § 562.29a.

(e) Except students who are excluded from pursuing the ROTC courses for loyalty reasons (§ 562.24), any student attending a class MC institution who is ineligible for enrollment or does not meet enrollment requirements may pursue the course, if desired by the PMS and institutional authorities, under the following conditions:

(1) The student load must be within the capability of the ROTC instructor group. No authority exists for the assignment of additional military instructors for nonenrolled students.

(2) There must be no loss in effectiveness of military instruction and training.

(3) If DA Form 134 (Military Training Certificate—Reserve Officers' Training Corps) is presented to the student upon completion of his ROTC training, notation will be made thereon that the student participated in ROTC training in a "nonenrolled status." See § 562.9d.

(f) Pursuance of ROTC training other than in an enrolled status or under the provisions of this paragraph is not authorized. There is no provision for "provisional" or "informal" enrollment, or similar terms.

(g) Individuals, who have successfully completed MS I through MS IV training requirements (including or excluding summer camp training), and whose medical disqualifications have been determined to be remediable or subject to reexamination, may be retained in an eligible appointment status pending acceptable correction of identified medical defect. The students will not be authorized a period in excess of 18 months after graduation to meet medical requirements for appointment. Such students will be reported on DA Form 130 as prescribed in paragraph (h)(4) of this section.

(h) Any student authorized to pursue ROTC training in accordance with the provisions of this section will be subject to the following conditions:

(1) The institution will not receive a uniform allowance for such students, nor will the students be furnished a Government issued uniform while training at the institution. The conditions under which such students may be permitted to wear the ROTC uniform is set forth in paragraph (i) of this section.

(2) The students will not be eligible for commutation of subsistence.

(3) The students will not be eligible for an ROTC deferment or to be exempt from registration under the provisions of section 6(a) of the Universal Military Training and Service Act, as amended.

(i) Title 10, United States Code, section 773, as amended, authorizes a student permitted to pursue the course (not enrolled) to wear the ROTC uniform while attending the course of instruction. This provision does not include students denied enrollment because of refusal to sign the loyalty oath (§ 562.23). The uniform may be purchased by the institution or with the student's own funds. The students may wear the Army Green uniform while pursuing a course in which the enrolled students are permitted to wear the Army Green uniform. A foreign national may wear the Army Green uniform during his participation in ROTC training, provided:

(1) The uniform is purchased by the institution.

(2) The uniform remains the property of the institution.

(3) The student returns the uniform to the institution when he completes his ROTC training or withdraws therefrom.

(j) If the obstruction which prevented enrollment is removed, the student, if otherwise qualified, will be enrolled in the ROTC. Upon enrollment, the student will be:

(1) Reported on DA Form 131 as any other enrolled student.

(2) Granted credit for that portion of the course(s) successfully completed under provisions of this section.

(3) Eligible to receive a uniform or uniform allowance (as appropriate). Uniform allowances will be paid, or a uniform issued, as prescribed in AR 145-421 (administrative Army regulations).

(4) Eligible to receive commutation of subsistence (if appropriate). Commutation allowances will be paid as prescribed in AR 145-421.

(5) Eligible for ROTC deferment, if not otherwise deferred from induction.

(k) Students who are authorized to pursue the advanced course under the provisions of this section may be authorized to attend summer camp, as prescribed in paragraph 11, AR 145-30 (Army Regulations pertaining to summer training camps).

[C 1, AR 145-350, Dec. 15, 1961] (Sec. 3012, 70A Stat. 157; 10 U.S.C. 3012. Interpret or apply secs. 4381-4387, 70A Stat. 246-248; 10 U.S.C. 4381-4387)

J. C. LAMBERT,
Major General, U.S. Army,
The Adjutant General.

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 203—BRIDGE REGULATIONS

Miscellaneous Amendments

1. Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U.S.C. 499), § 203.95(b) governing the operation of the Connecticut State Highway Department bridge across Mystic River at Mystic, Conn., is hereby amended effective 30 days after publication in the FEDERAL REGISTER, as follows:

§ 203.95 Mystic River at Mystic, Conn.

* * * * * *

(b) *Connecticut State Highway Department bridge.* (1) Between the hours of 8:10 a.m. and 4:10 p.m. and between 5:10 p.m. and 5:40 p.m. each day, the drawspan shall be required to open for the passage of vessels only at thirty-(30)-minute intervals at 10 minutes after the hour and 20 minutes before each hour, except in an emergency, each opening to be of five (5) minutes' duration unless river traffic requires more or less to clear the drawspan. This will not apply to vessels owned or operated by the United States nor vessels employed for police or fire protection.

(2) Between 4:10 p.m. and 5:10 p.m., the draw need not be opened for the passage of vessels other than vessels owned or operated by the United States and vessels employed for police or fire protection.

(3) From May 1 to October 31, inclusive, between the hours of 5:40 p.m. and 8:10 a.m. and from November 1 to April 30, inclusive, between the hours of 5:40 p.m. and 8:00 p.m. and between the hours of 4:00 a.m. and 8:10 a.m., the draw shall be opened on call for passage of commercial vessels, vessels owned or operated by the United States, and vessels employed for police or fire protection. As soon as practicable and in no case later than 20 minutes after call signal, the draw shall be opened for all other vessels which cannot pass the closed bridge.

(4) From November 1 to April 30, inclusive, between the hours of 8:00 p.m. and 4:00 a.m., the draw shall be opened for the passage of commercial vessels, vessels owned or operated by the United States, and vessels employed for police and fire protection upon notice to the drawtender given at least one hour in advance of the time of the requested opening.

(5) All the times listed are local time at Mystic. The call signal for opening the draw shall be one long blast and two short blasts. If the draw cannot be opened immediately, a red flag or ball shall be conspicuously displayed on the bridge.

[Regs., Dec. 20, 1961, 285/91 (Mystic River, Conn.)-ENGCW-ON] (Sec. 5, 28 Stat. 362; 33 U.S.C. 499)

2. Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U.S.C. 499) § 203.130 governing the operation of certain bridges over Poquonock River, Yellow Mill Channel and Johnsons River, Conn., is hereby amended to omit the Grand Street Highway Bridge and § 203.131 is hereby prescribed to govern the operation of the Grand Street Highway Bridge across Poquonock River, Conn., effective 30 days after publication in the FEDERAL REGISTER, as follows:

§ 203.130 Poquonock River, Yellow Mill Channel, and Johnsons River, Conn.; bridges (highway and railroad) at Bridgeport, Conn.

(a) The regulations in this section are prescribed to govern the opening of cer-

tain drawbridges in the city of Bridgeport, Conn.:

Poquonock River:
Stratford Avenue Highway Bridge.
New York, New Haven, and Hartford Railroad Bridge.
Congress Street Highway Bridge.
East Washington Avenue Highway Bridge.
Yellow Mill Channel:
Yellow Mill Highway Bridge at Stratford Avenue.
Johnsons River:
Pleasure Beach Highway Bridge at end of Seaview Avenue.

(b) *The signals.* (1) The signals for opening the draws of the bridges shall be given by blast of a horn or steam whistle as follows:

For Stratford Avenue Highway Bridge, one long and one short blast.
For New York, New Haven, and Hartford Railroad Bridge, three short blasts.
For Congress Street Highway Bridge, four short blasts.
For East Washington Avenue Highway Bridge, one long and two short blasts.
For Yellow Mill Highway Bridge, one long and one short blast.
For Pleasure Beach Highway Bridge, one long and one short blast.

(2) In case the draw of any of the above bridges cannot be immediately opened when the signals are given, a red flag or ball by day and a red light by night shall be conspicuously displayed on the bridge.

(c) *The regulations.* (1) Except as hereinafter provided, the draws of the bridges shall be immediately opened upon the prescribed signal at all times of the day or night for the passage of foreign vessels and "vessels of the United States" as defined in section 4311 of the Revised Statutes (46 U.S.C. 251), and for any other vessels or watercraft which cannot pass the closed bridges the draws shall be opened at such time within 20 minutes after the prescribed signal as in the judgment of the bridge tender will cause the least interference with the land traffic over the bridge.

(2) *Exceptions.* Closed periods when the draws of the above highway bridges over the Poquonock River and the Yellow Mill Channel need not be opened:

(i) For vessels of any class:

6:45 a.m. 7:15 a.m.
7:45 a.m. 8:15 a.m.

(ii) Opened only for the passage of power-driven vessels other than yachts and pleasure craft, 50 feet or over in length or 25 tons or over net register:

11:45 a.m. to 1:15 p.m.

(iii) For vessels of any class, except when emergency condition exists, such emergency to be decided mutually by the Superintendent of Bridges or his authorized representative, and navigation interests involved, and is provisionally defined as the passage of boats that are unavoidably compelled to pass through the bridges during the period due to urgency of service or condition of tide:

4:30 p.m. to 6:10 p.m.

(iv) Pleasure Beach Highway Bridge for vessels of any class:

10:30 p.m. to 11:00 p.m.
11:15 p.m. to 11:45 p.m.

(v) Delay in opening the draw of the New York, New Haven, and Hartford Railroad Bridge for not more than 7 minutes after the giving of signal, is authorized when a train is actually ready to pass over the bridge.

(3) For every vessel that cannot pass the closed bridges, the operation of the draws shall afford full horizontal and vertical clearance of the draw opening regardless of the size or requirements of the passing vessel.

(4) There shall be conspicuously posted on both the upstream and downstream sides of the bridges in a manner that it can readily be read at any time a copy of the regulations of this section; a notice shall also be posted at the Stratford Avenue Bridge over the Poquonock River and the Yellow Mill Channel Bridge stating exactly how the Superintendent of Bridges, or his authorized representative, specified in subparagraph (2)(iii) of this paragraph may be reached.

§ 203.131 Poquonock River, Grand Street Highway Bridge, Bridgeport, Conn.

(a) The owner of or agency controlling this bridge will not be required to keep drawtenders in constant attendance.

(b) Whenever a vessel unable to pass under the closed bridge desires to pass through the draw, at least 24 hours' advance notice of the time the opening is required shall be given to the authorized representative of the owner of or agency controlling the bridge, except in case of emergency the draw shall be opened promptly upon notification. Advance notice shall be given either in person, by telephone, or otherwise to the mayor, city of Bridgeport, Bridgeport, Conn., or to such person as may be designated an authorized representative for the prompt opening of the draw at the time specified in the notice for the passage of the vessel.

(c) The owner of or agency controlling the bridge shall keep conspicuously posted on both the upstream and downstream sides of the bridge in such manner that it can be easily read at any time, a copy of the regulations of this section, together with a notice stating exactly how the drawtender may be reached in an emergency and how the representative specified in paragraph (b) of this section may be reached by telephone or otherwise.

[Regs., Dec. 20, 1961, 285/91 (Poquonock River, Conn.)–ENGCW–ON] (Sec. 5, 28 Stat. 362; 33 U.S.C. 499)

3. Pursuant to the provisions of Section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U.S.C. 499), § 203.525 is hereby revoked and § 203.245 is hereby amended with respect to paragraph (j) revising subparagraphs (26) and (27), redesignating subparagraphs (29) and (30) as (30) and (31), and subparagraphs (31)–(37) as (34)–(40), by adding new subparagraphs (29), (32), (33), and (35)(ii) to govern certain bridges over Trinity River, Clear Creek, Chocolate Bayou, and Brazos River, Tex., and by making minor revisions, effective on publication in the FEDERAL REGISTER since the bridges covered by the new subparagraphs are presently being operated as indicated therein, as follows:

§ 203.525 Clear Creek at Seabrook, Tex.; bridge of Galveston, Harrisburg & San Antonio Railroad. [Revoked]

§ 203.245 Navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets; bridges where the constant attendance of draw tenders is not required.

* * * * * *

(j) *Waterways discharging into Gulf of Mexico west of Mississippi River.* * * *

(26) Sabine River, La. and Tex.; Texas and New Orleans Railroad Company bridge near Echo, Tex., Kansas City Southern Railway Company bridge near Ruliff, Tex., and Louisiana Department of Highways bridge between Starks, La., and Deweyville, Tex. At least 24 hours' advance notice required.

(27) Cow Bayou, Tex.; Orange County highway bridge on Round Bunch Road and Texas Highway Department bridge at Orangefield. At least 6 hours' advance notice required.

(28) Taylors Bayou, Tex. * * *

(29) Trinity River, Tex.; Texas and New Orleans Railroad Company bridge at Liberty and Missouri Pacific Railroad Company bridges near Kenefick and at Riverside. The draws need not be opened for the passage of vessels, and paragraphs (b) to (e), inclusive, of this section shall not apply to these bridges.

(30) Buffalo Bayou, Tex.; Texas and New Orleans Railroad bridge at the head of Houston Turning Basin, Houston, and drawbridges upstream therefrom. At least 24 hours' advance notice required.

(31) Brays Bayou, Tex.; city of Houston highway bridge at Broadway, Houston. At least 12 hours' advance notice required.

(32) Clear Creek, Tex.; Texas and New Orleans Railroad Company bridge at Seabrook. The draw will be maintained in the open position for the passage of vessels except when it is necessary to close the draw for the passage of trains. A draw tender shall be in constant attendance when the draw is closed. Paragraphs (b) to (d), inclusive, of this section shall not apply to this bridge.

(33) Chocolate Bayou, Tex.; Missouri Pacific Railroad Company bridge near Liverpool. The draw is fixed in the closed position to navigation. Paragraphs (b) to (e), inclusive, of this section shall not apply to this bridge.

(34) Freeport Harbor, Tex.; Missouri Pacific Railroad Company bridge between Freeport and Velasco. At least 24 hours' advance notice required.

(35) Brazos River, Tex.

(i) Texas Highway Department bridge near Freeport. At least 12 hours' advance notice required.

(ii) Missouri Pacific Railroad Company bridge at Brazoria. The draw is fixed in the closed position to navigation. Paragraphs (b) to (e), inclusive, of this section shall not apply to this bridge.

(36) Colorado River, Tex. [Redesignated]

(37) Lavaca River, Tex.; Missouri Pacific Railroad Company and Texas Highway Department bridges near Vanderbilt. At least 48 hours' advance notice required, except in emergencies, when the draws will be opened as soon as possible after the receipt of notice.

(38) Nueces Bay, Tex.; Texas Highway Department bridge between Corpus Christi and Portland. On Sundays, Texas State holidays, and national holidays, and between 9:00 p.m. and 6:00 a.m. on all other days, advance notice required: *Provided*, That during a hurricane alert or in the event of a major disaster affecting the Nueces Bay area, a draw tender shall be in constant attendance and the draw shall be opened promptly on signal. Advance notice when required shall be given between the hours of 6:00 a.m. and 8:00 p.m. on a day the draw tender is required to be in attendance.

(39) Laguna Madre, Tex.; Padre Island Causeway (Nueces County) swing barge bridge across Humble Oil and Refining Company channel. Between 4:00 p.m. and 7:00 a.m., at least 1 hour advance notice required: *Provided*, That the regulations of this section may be temporarily suspended by the District Engineer, U.S. Army Engineer District, Galveston, Tex., for such periods as he may determine to be necessary upon notice to Nueces County.

(40) Arroyo Colorado, Tex.; Texas Highway Department bridge at Rio Hondo. At least 12 hours' advance notice required.

[Regs., Dec. 18, 1961, 285/91-ENGCW-ON] (Sec. 5, 28 Stat. 362; 33 U.S.C. 499)

4. Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U.S.C. 499), § 203.641 is hereby amended prescribing (f)(4) to govern the operation of the Chicago and North Western Railway bridge across the north branch of the Chicago River, mile 5.06, Chicago, Ill., effective on publication in the FEDERAL REGISTER since the bridge was last opened for navigation on July 30, 1960, as follows:

§ 203.641 Great Lakes tributaries; bridges where constant attendance of draw tenders is not required.

* * * * * *

(f) The bridges to which this section applies and the special regulations applicable in each case, are as follows:

* * * * * *

(4) Chicago River, North Branch, Chicago, Ill.: The Chicago and North Western Railway bridge, mile 5.06, will be opened on 2-hour advance telephone notice except during closed bridge hours which are between 7:00 and 8:00 in the morning and 5:30 and 6:30 in the evening, Monday through Saturday.

[Regs., Dec. 22, 1961, 285/91 (Chicago River, Ill.)–ENGCW–ON] (Sec. 5, 28 Stat. 362; 33 U.S.C. 499)

5. Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U.S.C. 499), § 203.712 is hereby amended revoking paragraph (f) governing the operation of the highway bridge across Novato Creek, near Ignacio, Calif., effective on publication in the FEDERAL REGISTER since the bridge no longer exists, as follows:

§ 203.712 Tributaries of San Francisco Bay and San Pablo Bay, Calif.

* * * * * *

(f) [Revoked.]

[Regs., Dec. 22, 1961, 285/91 (Novato Creek, Calif.)–ENGCW–ON] (Sec. 5, 28 Stat. 362; 33 U.S.C. 499)

J. C. LAMBERT,
Major General, U.S. Army,
The Adjutant General.

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[FCC 62-38]

PART 4—EXPERIMENTAL, AUXILIARY, AND SPECIAL BROADCAST SERVICES

Miscellaneous Amendments

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 3d day of January 1962;

The Commission on October 18, 1961, after conducting the rule making thereon adopted a second memorandum opinion and order in Docket No. 13928 containing a revision of Subparts A and B of Part 2 of its rules primarily to conform them to the Geneva Radio Regulations (1959).

The editorial changes set forth below are now necessary in Part 4 of our rules to make them consistent with the Geneva Radio Regulations and the recently adopted changes in Part 2. Because rule making has already been conducted in Docket No. 13928 and the changes in Part 4 are simply to conform them to the results of that rule making, they are editorial in nature and pursuant to the provisions of section 4 of the Administrative Procedure Act additional rule making thereon is unnecessary.

Authority for adoption of the amendments herein is found in section 4 (i) and (j) and 303 of the Communications Act of 1934, as amended.

Accordingly, it is ordered, That effective January 3, 1962, the Commission's rules are amended as set forth below.

Released: January 8, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

1. Section 4.161 is amended to read as follows:

§ 4.161 Frequency tolerance.

The licensee of an experimental television broadcasting station shall maintain the operating frequency of its station within the tolerance specified in the instrument of authorization.

2. Section 4.261 is amended to read as follows:

§ 4.261 Frequency tolerance.

The licensee of an experimental facsimile broadcasting station shall maintain the operating frequency of its station within the tolerance specified in the instrument of authorization.

3. Section 4.361 is amended to read as follows:

§ 4.361 Frequency tolerance.

The licensee of a developmental broadcasting station shall maintain the operating frequency of its station within the tolerance specified in the instrument of authorization.

§ 4.402 [Amendment]

4. Section 4.402 is amended by deleting note 2.

5. Section 4.502(c) is amended to read as follows:

§ 4.502 Frequency assignment.

* * * * * *

(c) FM intercity relay stations may be licensed to operate on any of the frequencies listed in paragraph (a) of this section, subject to the condition that no harmful interference is caused to stations operating in the band 942–952 Mc/s in accordance with the table of frequency allocations contained in § 2.106 of this chapter.

6. In § 4.602 paragraphs (a) and (f) are amended to read as follows:

§ 4.602 Frequency assignment.

(a) The following frequencies are available for assignment to television pickup, television STL, and television intercity relay stations:

Band A (Mc/s)	Band B (Mc/s)	Band C (Mc/s)	Band D (Mc/s)	
1990–2008	6875–6900	10550–10575	12700–12725	12975–13000
2008–2025	6900–6925	10575–10600	12725–12750	13000–13025
2025–2042	6925–6950	10600–10625	12750–12775	13025–13050
2042–2059	6950–6975	10625–10650	12775–12800	13050–13075
2059–2076	6975–7000	10650–10675	12800–12825	13075–13100
2076–2093	7000–7025	[1]	12825–12850	13100–13125
2093–2110	7025–7050	[1]	12850–12875	13125–13150
2450–2467	7050–7075	[1]	12875–12900	13150–13175
2467–2484	7075–7100	[1]	12900–12925	13175–13200
2484–2500	7100–7125	[1]	12925–12950	13200–13225
			12950–12975	13225–13250

[1] Pending further order by the Commission, frequencies between 7050 Mc/s and 7125 Mc/s will be reserved for use by communications common carriers to provide television pickup and television STL service to television broadcast stations.

Frequencies in the bands 17700–19300 Mc/s, 19400–19700 Mc/s, 27525–31300 Mc/s, and 38600–40000 Mc/s are available for assignment on a case-by-case basis for television pickup, STL and intercity relay purposes. Channel widths and frequency tolerance will be specified in individual authorizations. Frequencies shown above between 2450 and 2500 Mc/s in band A are allocated to accommodate the incidental radiations of industrial, scientific, and medical (ISM) equipment, and stations operating therein must accept any interference that may be caused by the operation of such equipment. Frequencies between 2450 and 2500 Mc/s are also shared with other communication services and ex-

clusive channel assignments will not be made, nor is the channeling shown above necessarily that which will be employed by such other services.

• • • • •

(f) The use of frequencies in the bands 1990–2110 Mc/s, 6875–7125 Mc/s and 12700–13200 Mc/s by television intercity relay stations shall be on a secondary basis, i.e., subject to the condition that no harmful interference is caused to stations operating in accordance with the table of frequency allocations in § 2.106 of this chapter.

Title 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

SUBCHAPTER B—CARRIERS BY MOTOR VEHICLE

[No. MC-C-2]

[Ex Parte No. MC-37]

PART 170—COMMERCIAL ZONES

New York, N.Y., Commercial Zones and Terminal Areas; Postponement of Effective Date

Upon consideration of the record in the above-entitled proceeding, and good cause appearing therefor:

It is ordered, That the effective date of the order of the Commission, entered November 17, 1961, in this proceeding, be, and it is hereby, postponed from January 4, 1962, to March 5, 1962.

Dated at Washington, D.C., this 4th day of January A.D., 1962.

By the Commission, Chairman Murphy.

[SEAL] HAROLD D. McCOY, *Secretary.*

[F.R. Doc. 62-457; Filed, Jan. 15, 1962; 8:46 a.m.]

[No. MC-C-2]

[Ex Parte No. MC-37]

PART 170—COMMERCIAL ZONES

New York, N.Y., Commercial Zones and Terminal Areas

At a general session of the Interstate Commerce Commission held at its office in Washington, D.C., on the 20th day of December A.D., 1961.

Upon consideration of the record in the above-entitled proceeding, and of:

1. Joint petition of The Port of New York Authority Brooklyn Chamber of Commerce, Inc., Shippers' Conference of Greater New York, New York Shipping Association, Inc., Commerce and Industry Association of New York, Inc., Newark Chamber of Commerce, New Jersey Industrial Traffic League, and Chamber of Commerce of Eastern Union County, filed June 30, 1961 for reconsideration and oral argument;

2. Joint reply by Middle Atlantic Conference and New Jersey Motor Truck Association, protestants, filed August 21, 1961;

3. Joint reply by Jayne's Motor Freight, Inc., and Johnson Bros. Trucking Co., Inc., protestants, and J. Leo Cooke Warehouse Corp., Allgood Terminal Warehouses, and General Warehouse Corp., interveners, filed August 21, 1961;

4. Reply of city of Jersey City, N.J., intervener, filed August 21, 1961;

and good cause appearing therefor:

It is ordered, That the said petition be, and it is hereby, denied, for the reasons that the findings of Division 1 are in accordance with the evidence and the applicable law, and no sufficient cause appears for reopening the proceeding for reconsideration or oral argument;

It is further ordered, That the corrected order of April 28, 1961, as postponed pursuant to section 17(8) of the Interstate Commerce Act, be, and it is hereby, reinstated and the effective date is fixed as February 19, 1962.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

VARIOUS OFFICIALS

Delegation of Authority

DECEMBER 29, 1961.

To: the Assistant Administrator for the Near East-South Asia, the Assistant Administrator for Latin America, the Assistant Administrator for Africa and Europe, the Assistant Administrator for Far East.

Pursuant to the authority delegated to me by Delegation of Authority No. 104 from the Secretary of State, I hereby delegate the following functions to each of the Assistant Administrators listed above for the countries or areas within their responsibility, with authority to redelegate as stated herein, retaining for myself concurrent authority to exercise any of the functions herein delegated:

(1) Authority to negotiate, execute and implement:

(a) All loan and guaranty agreements authorized under the Foreign Assistance Act of 1961;

(b) All loan and guaranty agreements which have been authorized by the Board of Directors of the corporate Development Loan Fund;

(c) All guaranty agreements which have been authorized pursuant to section 413(b)(4) of the Mutual Security Act of 1954, as amended.

The authorities enumerated in this section may be redelegated as appropriate.

(2) Authority to approve, negotiate, execute and implement all amendments of, and ancillary agreements with respect to, the loans and guarantees enumerated in (1) above as the Assistant Administrator may deem necessary or desirable, provided that the foregoing authority may not be utilized to approve amendments which would increase the maximum total amount of a loan or potential liability of the United States under a guaranty. The authority to negotiate, execute and implement those agreements referred to in this section may be redelegated as appropriate.

Nothing in this Delegation shall be deemed to supersede paragraph 4 of my Delegation of Authority No. 3 of November 4, 1961.

This Delegation of Authority shall be effective immediately and shall continue in full force and effect until such time as it is rescinded by me.

FOWLER HAMILTON, *Administrator.*

DEPARTMENT OF AGRICULTURE

Office of the Secretary

GEORGIA

Designation of Areas for Emergency Loans

For the purpose of making emergency loans pursuant to section 321(a) of Public Law 87-128 (7 U.S.C. 1961) it has been determined that in the following counties in the State of Georgia natural disasters have caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources:

Bartow.	Laurens.
Dodge.	Pulaski.
Floyd.	Screven.
Gordon.	Wilcox.
Johnson.	

Pursuant to the authority set forth above, emergency loans will not be made in the above-named counties after June 30, 1962, except to applicants who previously received emergency or special livestock loan assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 10th day of January 1962.

ORVILLE L. FREEMAN, *Secretary.*

[F.R. Doc. 62-454; Filed, Jan. 15, 1962; 8:46 a.m.]

UTAH

Designation of Areas for Emergency Loans

For the purpose of making emergency loans pursuant to section 321(a) of Public Law 87-128 (7 U.S.C. 1961) it has been determined that in the entire State of Utah natural disasters have caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

Pursuant to the authority set forth above, emergency loans will not be made in the above-named State after June 30, 1962, except to applicants who previously received emergency or special livestock loan assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 10th day of January 1962.

CIVIL SERVICE COMMISSION

CERTAIN POSITIONS OF PROFESSIONAL ENGINEERS AND SCIENTISTS THROUGHOUT THE WORLD

Notice of Increase in Minimum Rates of Pay

Under the provisions of section 803 of the Classification Act of 1949, as amended (63 Stat. 1106; 5 U.S.C. 1133), pursuant to 5 CFR 25.103, 25.105, the Commission has increased the minimum rate of pay as follows:

I.

GS-9: to $7,095 (rate e).
GS-10: to $7,655 (rate e).
GS-11: to $8,340 (rate d).

II. The above new minimum rates apply to classes of positions at grades GS-9, GS-10, and GS-11 in the following series and specializations:

A. All professional series in the GS-800 group. Professional Engineering Series at present in the GS-800 group are:

GS-801	General.
GS-803	Safety.
GS-804	Fire Prevention.
GS-805	Maintenance.
GS-806	Materials.
GS-808	Architectural.
GS-810	Civil.
GS-811	Construction.
GS-812	Structural.
GS-813	Hydraulic.
GS-819	Sanitary.
GS-820	Highway.
GS-824	Bridge.
GS-830	Mechanical.
GS-832	Automotive.
GS-840	Nuclear.
GS-850	Electrical.
GS-855	Electronic.
GS-861	Aerospace.
GS-862	Airways.
GS-870	Marine.
GS-871	Naval Architecture.
GS-880	Mining.
GS-881	Petroleum Production and Natural Gas.
GS-890	Agricultural.
GS-892	Ceramic.
GS-893	Chemical.
GS-894	Welding.
GS-896	Industrial.
GS-897	Valuation.

B. Until agencies have had an opportunity to change positions from the former GS-861 Aeronautical Engineering Series (recently superseded), and the former GS-834 Internal Combustion Power Plant Engineering Series (recently abolished), positions in those series are also included in the increases.

C. Science Series and specializations:

GS-015	Operations Research.
GS-1040	Architecture.
GS-1041	Landscape Architecture.
GS-1221	Patent Adviser.
GS-1224	Patent Examining.
GS-1306	Health Physics.
GS-1310	Physics.
GS-1313	Geophysics (Seismology).
GS-1313	Geophysics (Geomagnetics).
GS-1313	Geophysics (Earth Physics).
GS-1320	Chemistry.
GS-1321	Metallurgy.
GS-1330	Astronomy and Space Science.
GS-1340	Meteorology.
GS-1360	Oceanography (Physical).
GS-1372	Geodesy.
GS-1380	Forest Products Technology.
GS-1390	Technology, in the following Specializations:
	Rubber.
	Plastics.
	Rubber and Plastics.
	Aviation Survival Equipment.
	Industrial Radiography.
	Packaging and Preservation.
	Photographic Equipment.
GS-1510	Actuary.
GS-1520	Mathematics.
GS-1529	Mathematical Statistics.
GS-1301.1	Physical Science Subseries of the General Physical Science Series.

D. Until agencies have had an opportunity to change positions from the former GS-1330 Astronomy Series (recently revised), positions in that series are also included.

III. Geographic coverage for the increased rates for the classes of positions designated above is worldwide.

IV. Also under authority of section 803 of the Classification Act of 1949, as amended, the Commission has taken action to increase the minimum rate of compensation as follows:

A. For classes of positions in Series GS-861-0 Aerospace Engineering, and GS-1330-0 Astronomy and Space Science:

GS-5: to $5,335 (rate g).
GS-6: to $5,490 (rate e).
GS-7: to $6,345 (rate g).
GS-8: to $6,380 (rate d).

B. For classes of positions in GS-1301.-1-0 Physical Science Subseries:

GS-5: to $5,335 (rate g).
GS-7: to $6,345 (rate g).

V. Geographic coverage for the increased rates for the classes of positions designated in IV above is worldwide.

VI. Geographic coverage is extended to worldwide for existing section 803 rates for classes of positions shown in table I attached to Departmental Circular 793, Supplement 61 (dated July 6, 1960), and classes of positions in Series GS-840-0 Nuclear Engineering, grades 5, 6, 7, and 8.

VII. Geographic coverage is extended to worldwide for existing section 803 rates for classes of positions, grades 5 and 7, in the following series:

GS-1221-0	Patent Adviser.
GS-1224-0	Patent Examining.
GS-1340-0	Meteorology.
GS-1372-0	Geodesy.
GS-1510-0	Actuary.

VIII. Effective date for new minimum rates (I through V) and for action to extend geographic coverage of existing minimum rates (VI and VII above) will be the first day of the second pay period which begins after January 16, 1962.

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] MARY V. WENZEL,
Executive Assistant to the Commissioners.

[F.R. Doc. 62-461; Filed, Jan. 15, 1962; 8:47 a.m.]

FEDERAL COMMUNICATIONS COMMISSION

[FCC 62-36]

SUBVERSIVE ACTIVITIES CONTROL ACT OF 1950

Communist Organization Sponsorship Required To Be Identified

JANUARY 8, 1962.

Under the Subversive Activities Control Act of 1950, the Communist Party of the United States has been found to be a Communist-action organization within the meaning of that act and an order requiring it to register as such is outstanding. In view of this development, the Federal Communications Commission calls attention to section 10 of the act which in relevant part provides:

> It shall be unlawful for any organization which is registered under section 786 of this title, or for any organization with respect to which there is in effect a final order of the Board requiring it to register under said section, or determining that it is a Communist-infiltrated organization or for any person acting for or on behalf of any such organization * * * (2) to broadcast or cause to be broadcast any matter over any radio or television station in the United States, unless such matter is preceded by the following statement, with the name of the organization being stated in place of the blank: "The following program is sponsored by ---------- a Communist organization."

Accordingly, the Commission hereby advises its licensees that in the case of any program broadcast or caused to be broadcast by the Communist Party of the United States, the program shall be preceded by the announcement, "The following program is sponsored by the Communist Party of the United States, a Communist organization."

Adopted: January 3, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[Docket No. 14380; FCC 62M-37]

KSAY BROADCASTING CO.

Order Changing Place of Hearing

In re application of Grant R. Wrathall and Taft R. Wrathall as trustee for Grant R. Wrathall, Jr., Charlotte Wrathall, Lawrence Wrathall, and Loretta Wrathall, d/b as KSAY Broadcasting Co., San Francisco, Calif., Docket No. 14380, File No. BR-3528; for renewal of license of standard broadcast station KSAY.

The Acting Chief Hearing Examiner having under consideration petition filed December 21, 1961, on behalf of the applicant KSAY Broadcasting Co. requesting a change of place of hearing now scheduled to commence February 5, 1962, from Washington, D.C., to San Francisco, Calif.;

It appearing, that the Commission in its order of designation released November 22, 1961, set the hearing in this proceeding to commence in Washington, D.C., on February 5, 1962;

It further appearing, that petitioner pleads that the hearing was ordered solely because of alleged effects of the station's operation upon certain Army installations in Oakland, Calif., and further inter alia that its witnesses are located in the general area of San Francisco-Oakland;

It further appearing, that petitioner pleads that the Secretary of the Army, a party respondent, has advised that the Army is agreeable to holding the hearing in the San Francisco Bay area, with the understanding that sessions will be arranged in Washington if requested by any of the parties;

It further appearing, that counsel for the Commission's Broadcast Bureau has informally advised the Acting Chief Hearing Examiner that it interposes no objection to the transfer of the hearing from Washington, D.C., to San Francisco, Calif.;

It further appearing, that good cause exists why the petition should be granted and there is no objection thereto;

Accordingly, it is ordered, This 10th day of January 1962, that the petition is granted and the place of hearing now scheduled to commence February 5, 1962, is transferred from Washington, D.C., to San Francisco, Calif., at an hour and place to be announced.

Released: January 10, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 62-467; Filed, Jan. 15, 1962; 8:47 a.m.]

[Docket Nos. 12666-12668; FCC 62M-36]

PUBLIX TELEVISION CORP. ET AL.

Order Scheduling Prehearing Conference

In re applications of Publix Television Corp., Perrine, Fla., Docket No. 12666, File No. BPCT-2392; South Florida Amusement Co., Inc., Perrine, Fla., Docket No. 12667, File No. BPCT-2410; Coral Television Corp., South Miami, Fla., Docket No. 12668, File No. BPCT-2493; for construction permits for television broadcast stations.

The Hearing Examiner having under consideration the order of remand released herein on January 9, 1962;

It is ordered, This 9th day of January 1962, that a further hearing conference shall be held on February 16, 1962, commencing at 10:00 a.m., in the offices of the Commission at Washington, D.C.

Released: January 10, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[Docket No. 14415; FCC 62M-41]

RARITAN VALLEY BROADCASTING CO., INC. (WCTC)

Order Continuing Hearing

In re application of Raritan Valley Broadcasting Co., Inc. (WCTC), New Brunswick, N.J., Docket No. 14415, File No. BP-14494; for construction permit.

A prehearing conference in the above-entitled matter having been held on January 10, 1962, and it appearing from the record made therein that certain agreements were reached which properly should be formalized by order;

It is ordered, This 10th day of January 1962, that:

(1) The direct case of the applicant shall be presented by written, sworn exhibits;

(2) Preliminary drafts of the exhibits shall be exchanged among the parties on January 25, 1962;

(3) The written, sworn exhibits constituting the direct case of the applicant shall be exchanged among the parties and copies thereof supplied the Hearing Examiner on February 1, 1962;

(4) Rebuttal exhibits, if any, shall be exchanged among the parties and copies thereof supplied the Hearing Examiner on or before February 12, 1962;

(5) Notification of witnesses to be called for cross-examination shall be given on or before February 14, 1962;

It is further ordered, That the hearing in this matter heretofore scheduled to commence on February 7, 1962, is continued to February 15, 1962, commencing at 10:00 a.m. in the offices of the Commission at Washington, D.C.

Released: January 11, 1962.

INTERSTATE COMMERCE COMMISSION

[Notice 585]

MOTOR CARRIER TRANSFER PROCEEDINGS

JANUARY 11, 1962.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's general rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 30 days from the date of service of the order. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 64435. By order of January 9, 1962, Division 3, acting as an Appellate Division, approved the transfer to Matco Transportation, Inc., Brooklyn, N.Y., of the operating rights issued by the Commission January 26, 1953, in Certificate No. MC 44513, to Silk City Express, Inc., Paterson, N.J., authorizing the transportation, over irregular routes, of general commodities, excluding household goods, and other specified commodities, between points in Bergen, Hudson, Passaic, Union, and Essex Counties, N.J., on the one hand, and, on the other, New York, N.Y., and points in Nassau and Suffolk Counties, N.Y. Arthur J. Piken, 160-16 Jamaica Avenue, Jamaica 32, N.Y., transferee's attorney. Bert Collins, 140 Cedar Street, New York 6, N.Y., transferor's representative.

[SEAL] HAROLD D. MCCOY,
Secretary.

TARIFF COMMISSION

[22-25]

COTTON PRODUCTS

Correction of Notice of Investigation

The use of the word "Cotton" first appearing in the last clause of the Tariff Commission's notice of investigation under section 22 of the Agricultural Adjustment Act, as amended, with respect to articles and materials wholly or in part of cotton, published in the FEDERAL REGISTER on November 28, 1961 (26 F.R. 11226), was an error. The clause is corrected so as to read as follows: "or to reduce substantially the amount of any product processed in the United States from cotton or products thereof with respect to which such programs or operations are being undertaken."

As previously announced, the hearing in connection with the above-mentioned investigation has been rescheduled for 10 a.m., e.s.t., on February 13, 1962 (26 F.R. 11402).

Issued: January 11, 1962.

By order of the Commission.

[SEAL] DONN N. BENT,
Secretary.

[F.R. Doc. 62-449; Filed, Jan. 15, 1962; 8:45 a.m.]

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Misc. NM No. 9]

NEW MEXICO

Order Providing for Opening of Public Lands

JANUARY 8, 1962.

Pursuant to authority delegated to me by Order No. 684 section 1.5 of the Director, Bureau of Land Management, approved August 28, 1961 (26 F.R. 8216), it is ordered as follows:

In exchange of lands made under the provisions of section 8 of the Act of June 28, 1934 (48 Stat. 1269), as amended, the following described lands have been reconveyed to the United States:

NEW MEXICO PRINCIPAL MERIDIAN

T. 29 N., R. 11 E.,
Sec. 29, All.
T. 8 N., R. 9 W.,
Sec. 6, Lots 1, 2, SE¼NE¼, NE¼SE¼.
T. 6 N., R. 10 W.,
Sec. 10, SW¼.

The area described aggregates 929.80 acres.

The lands in T. 29 N., R. 11 E., are located 10 miles west of the village of Questa, New Mexico, and are accessible over graded and primitive roads. The soils are light to medium in texture, and the topography is smooth to moderately undulating with a moderate upslope from south to north. The extreme north end of the section is on a hillside. The vegetation consists chiefly of grama grass, white and other sage, blade grass, and a few scrub trees of no commercial value.

The lands in T. 8 N., R. 9 W., are located 16 miles southeast of the town of Grants, New Mexico. The soils are sandy loam and are subject to wind and gully erosion. The topography is flat to rolling with rocky slopes. Three gullies cross the tract varying from wide and shallow to narrow and very deep. Vegetation consists of grama grasses, Russian Thistle, chamisa, galleta, little bluestem, Apache plume, pinon, cedar, and juniper of no commercial value.

The lands in T. 6 N., R. 10 W., are located approximately 27 miles south of Grants, New Mexico. The southwest corner of the parcel is gently sloping and has a fair vegetative cover, whereas the remainder is primarily rocky mesa tops broken by a southward trending canyon which develops into an arroyo approximately 30 feet deep. The primary vegetative cover on the gently sloping part is grama grass, chamisa, and rabbit brush; the remainder is in juniper, cedar, and pinon with a few scattered Ponderosa Pine of no commercial value.

The public lands affected by this order are hereby restored to the operation of the public land laws, subject to any valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law, rules and regulations.

Inquiries and applications concerning the above lands shall be addressed to the Manager, Land Office, Bureau of Land Management, P.O. Box 1251, Santa Fe, New Mexico.

CHESLEY P. SEELY,
State Director.

Title 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 24—FORMAL EDUCATION REQUIREMENTS FOR APPOINTMENT TO CERTAIN SCIENTIFIC, TECHNICAL, AND PROFESSIONAL POSITIONS

Psychologist

Sections 24.23, 24.44, and 24.101 are revoked, and a new § 24.152 is added as set out below.

§ 24.152 Psychologist [All specializations except Counseling Psychologist (Vocational Rehabilitation and Education), GS–180–11–12], GS–180–5–15.

(a) *Educational requirement.* Applicants must have successfully completed a bachelor's or higher degree including, or supplemented by, courses in psychology totalling at least 24 semester hours, and including at least one course in statistics.

(b) *Duties.* Psychologists perform, supervise, administer, or consult on professional or scientific work (not requiring medical licensure) which relates to behavior, capacities, traits, interests, and activities of both human and animal organisms. This work may involve any one or combination of the following functions: (1) Experimentation with and/or systematic observation of organisms in an effort to develop scientific principles or laws concerning relationships of behavior to factors of environment, experience, and physiology or with a view to the practical application of findings (research); (2) application of professional or technical knowledge of psychological principles, theories, methods, or data to practical situations and problems (direct services); or (3) provision of college-level training in psychological principles, theories, methods, and techniques to advance knowledge of them and their appropriate use (training). Psychologists are concerned with how an organism behaves in an environment (including sensing, perceiving, moving, learning and remembering, feeling and emoting, thinking and problem solving, and socializing) in response to internal and external stimuli; with the reasons for the behavior (e.g., heredity, present environment, and past history, conditioning and training); and with the prediction and modification of behavior.

(c) *Knowledge and training requisite for performance of duties.* In its totality, psychology covers the full gamut of human and animal behavior and behavior characteristics. Among occupational fields touched by its peripheries are psychiatry, physiology, pharmacology, engineering, sociology, social work, education, statistics, and personnel. In either research or direct services its aim is partly integrative of (either to discover or to apply relationships between) these various areas of psychological knowledge. Psychology contains a large body of fundamental theories and concepts, and of experimental data, and requires training in the concepts and techniques of scientific methodology. The breadth of its interests; the necessity for relating theories and concepts from the various areas; and the large body of behavioral theory and concepts, and experimental data with which a psychologist must be familiar can only be obtained through systematic formal training in an organized curriculum which will provide broad coverage of the relevant areas of human knowledge, and particular coverage of the major areas of the behavioral sciences, including provision of the necessary laboratory facilities.

Title 7—AGRICULTURE

Chapter VII—Agricultural Stabilization and Conservation Service (Agricultural Adjustment), Department of Agriculture

SUBCHAPTER D—SPECIAL PROGRAMS

PART 775—FEED GRAINS

Subpart—1962 Feed Grain Program Regulations

Correction

In F.R. Doc. 61–12427, appearing at page 146 of the issue for Saturday, January 6, 1962, the first sentence of § 775.124(b) should read as follows:

(b) When any person who would have had an interest as producer (herein called "predecessor") in corn or grain sorghums or in barley, as applicable, if it had been produced on the diverted acreage has been succeeded on the farm by another producer (herein called "successor") after Form 477 has been filed and the successor's name is listed on Form 477–2, their share of the advance and final payment shall be divided on such basis as the predecessor and successor agree is fair and equitable. * * *".

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Orange Reg. 2]

PART 906—ORANGES AND GRAPEFRUIT GROWN IN THE LOWER RIO GRANDE VALLEY IN TEXAS

Limitation of Shipments

§ 906.303 Orange Regulation 2.

(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 906 (7 CFR Part 906), regulating the handling of oranges and grapefruit grown in the Lower Rio Grande Valley in Texas, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendation of the Texas Valley Citrus Committee established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of oranges, grown in the production area, are presently subject to regulation by grades and sizes, pursuant to the marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Texas Valley Citrus Committee on January 11, 1962, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of

oranges, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order; and terms relating to grade and diameter, when used herein, shall have the same meaning as is given to the respective term in the United States Standards for Oranges (Texas and States other than Florida, California, and Arizona) (§§ 51.680–51.712 of this title).

(2) Orange Regulation No. 1 (§ 906.301; 27 F.R. 7) is hereby terminated at 12:01 a.m., c.s.t., January 18, 1962.

(3) During the period beginning at 12:01 a.m., c.s.t., January 18, 1962, and ending at 12:01 a.m., c.s.t., February 5, 1962, no handler shall handle:

(i) Any oranges of any variety, grown in the production area, unless such oranges grade at least U.S. No. 2 Russet;

(ii) Any oranges of any variety, grown as foresaid, which are of a size smaller than $2^{3}/_{16}$ inches in diameter, except that not more than ten (10) percent, by count, of such oranges in any lot of containers, and not more than fifteen (15) percent, by count, of such oranges in any individual container in such lot may be of a size smaller than $2^{3}/_{16}$ inches in diameter;

(iii) Any oranges of any variety, grown as aforesaid, packed in any box or carton of inside dimensions other than those specified in subdivision (iv), unless the oranges are of a size within the diameter limits specified for one of the following pack sizes and otherwise are packed in accordance with the requirements of standard pack, except that not to exceed a total of 10 percent, by count, of the oranges in any such container may be outside such diameter limits:

Pack sizes:	Diameter limits in inches Min.	Max.
100	$3^{5}/_{16}$	$3^{15}/_{16}$
125	$3^{1}/_{16}$	$3^{9}/_{16}$
163	$2^{15}/_{16}$	$3^{3}/_{16}$
200	$2^{11}/_{16}$	$3^{1}/_{16}$
252	$2^{7}/_{16}$	$2^{13}/_{16}$
324	$2^{3}/_{16}$	$2^{9}/_{16}$

(iv) Any oranges of any variety, grown as aforesaid, packed in a box or carton having inside dimensions of $19^{3}/_{4}$ x $13^{1}/_{2}$ x $13^{1}/_{2}$ inches, unless such container is packed in accordance with one of the following pack sizes and contains the applicable number of oranges specified for the pack size: *Provided*, Such oranges are within the diameter limits specified in subdivision (iii) of this subparagraph for the particular pack size, except that not to exceed a total of 10 percent, by count, of the oranges in any such container may be outside such diameter limits:

Pack sizes:	Number of oranges
100	100
125	125
163	163
200	198
252	252
324	319

(v) Any oranges of any variety, grown as aforesaid, for which inspection is required unless an appropriate inspection certificate has been issued with respect thereto not more than 48 hours prior to the time of shipment.

(vi) The provisions of subdivisions (iii) and (iv) of this subparagraph shall not apply to the oranges in any gift package of fruit.

All oranges of any variety, grown as aforesaid, handled during the period specified in this section are subject to all applicable container regulations which are in effect pursuant to the aforesaid marketing agreement and order during such period.

(Sec. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 15, 1962.

F. L. SOUTHERLAND,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 62–606; Filed, Jan. 16, 1962; 11:24 a.m.]

[Orange Reg. 1, Amdt. 3]

PART 944—FRUITS; IMPORT REGULATIONS

Oranges

Pursuant to the provisions of section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), the provisions of paragraph (a) of § 944.300 (Orange Regulation 1; 26 F.R. 9668, 9905; 27 F.R. 8) are hereby amended to read as follows:

(a) On and after 12:01 a.m., e.s.t., January 18, 1962, the importation into the United States of any oranges is prohibited unless such oranges are inspected and grade at least U.S. No. 2 Russet, and are of a size not smaller than $2^{3}/_{16}$ inches in diameter, except that not more than 10 percent, by count, of such oranges in any lot of containers, and not more than 15 percent, by count, of such oranges in individual containers in such lot, may be of a size smaller than $2^{3}/_{16}$ inches in diameter.

It is hereby found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective time of this amendment beyond that hereinafter specified (5 U.S.C. 1001–1011) in that (a) the requirements of this amended import regulation are imposed pursuant to section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674; 75 Stat. 305), which makes such regulation mandatory; (b) such regulation imposes the same restrictions on imports of oranges as the grade and size restrictions being made applicable to the shipment of oranges grown in Texas under Orange Regulation 2 (§ 906.303) issued simultaneously herewith to become effective January 18, 1962; (c) compliance with this amended import regulation will not require any special preparation which cannot be completed by the effective time hereof; and (d) this amendment relieves restrictions on the importation of oranges.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated January 15, 1962, to become effective at 12:01 a.m., e.s.t., January 18, 1962.

F. L. SOUTHERLAND,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 62–605; Filed, Jan. 16, 1962; 11:24 a.m.]

PART 993—DRIED PRUNES PRODUCED IN CALIFORNIA

Amendment of Administrative Rules and Regulations

Notice was published in the December 15, 1961 issue of the FEDERAL REGISTER (26 F.R. 12037) that the Department had under consideration an amendment of the Subpart—Administrative Rules and Regulations, operative pursuant to Marketing Agreement No. 110, as amended, and Order No. 993, as amended (7 CFR Part 993; 26 F.R. 475), hereinafter referred to collectively as the "order", regulating the handling of dried prunes produced in California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The amendment would provide for the addition of a new paragraph (f) to § 993.150 (Disposition of prunes by handlers). Said paragraph (f) would provide for the disposition of pitted prunes for (1) human consumption as pitted prunes, and (2) use in prune products, on the basis of the quality of such prunes prior to pitting.

Interested persons were afforded the opportunity to file written data, views, or arguments with respect to the proposal within the time limit specified in said notice. None were filed.

After consideration of all relevant matters presented, including the information and recommendations submitted by the committee, and other available information, it is concluded that amendment of this subpart, as hereinafter set forth, would tend to effectuate the declared policy of the act.

Therefore, it is hereby ordered, That § 993.150 be amended as follows:

§ 993.150 Disposition of prunes by handlers.

* * * * *

(f) *Pitted prunes*—(1) *For human consumption as such.* No handler shall ship or otherwise make final disposition of any lot of pitted prunes for human consumption as pitted prunes unless the lot, before pitting, met (i) the applicable minimum standards set forth in § 993.97 (Exhibit A), or as such standards may be modified, for standard prunes or standard processed prunes, and (ii) the requirements specified in § 993.50 (c) and (d).

(2) *For use in prune products.* Any lot of substandard prunes, whether natural condition or processed, if within the applicable tolerances prescribed in § 993.97 II C (1), (2), and (3), may be pitted and shipped or disposed of for use and used in prune products for human consumption: *Provided*, That prior to shipment or other final disposition by handler, such prunes have lost their form and character as prunes to the satisfaction of the inspector and the committee. An inspection certificate on such lot shall not be issued until the inspector has determined that the prunes therein have lost their form and character as prunes. Disposition of pitted prunes by handlers for use in prune products shall be in accordance with the applicable provisions of paragraph (e) of this section.

It is hereby found and determined that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 1003(c)) in that: (1) Certain handlers recently have begun marketing pitted prunes in consumer packages for human consumption as pitted prunes; (2) Therefore, in keeping with the quality objectives of the order and to be consistent with present requirements for prunes other than pitted prunes, it is necesary to ensure that (i) prunes to be pitted for human consumption as pitted prunes meet, prior to pitting, the same minimum level of quality as that required for prunes for human consumption as such, (ii) that substandard prunes not in excess of the tolerances specified for the food and drug defects of mold, imbedded dirt, insect infestation and decay, may be pitted and used in prune products for human consumption, and (iii) that pitted prunes, from substandard lots, will not be sold in consumer packages for human consumption as pitted prunes.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 12, 1962, to become effective upon publication in the FEDERAL REGISTER.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division.

[F.R. Doc. 62–494; Filed, Jan. 16, 1962; 8:47 a.m.]

Title 13—BUSINESS CREDIT AND ASSISTANCE

Chapter I—Small Business Administration

PART 109—ADJUDICATIVE PROCEEDINGS; SMALL BUSINESS INVESTMENT COMPANIES

Pursuant to authority contained in sections 308 and 309 of the Small Business Investment Act of 1958, Public Law 85–699, 72 Stat. 694, as amended, the Small Business Administration hereby adopts new Part 109 of Subchapter B, Chapter I of Title 13 of the Code of Federal Regulations.

Information and effective date. The Small Business Investment Act Amendments of 1961, Public Law 87–341, section 309, provides SBA with the power to suspend Licenses and to issue cease and desist orders. The new Part 109, as set forth below, establishes the rules of practice for such proceedings. Since these rules of practice relate to matters which are exempt from the rule making requirements of the Administrative Procedure Act (5 U.S.C. 1003), they shall become effective upon publication in the FEDERAL REGISTER.

Sec.

AUTHORITY: §§ 109.1 to 109.29 issued under sec. 308, Public Law 85–699 and sec. 309, Public Law 87–341.

§ 109.1 Scope of rules.

The following rules of practice govern proceedings under section 309 of the act concerned with the suspension of a license, the ordering of a licensee to cease and desist from action or failure to act, and the ordering of a licensee to take such action or to refrain from such action as the Administration deems necessary to ensure compliance with the act and the regulations of the Administration.

§ 109.2 Definitions.

Examiner. "Examiner" means the hearing examiner conducting a hearing pursuant to section 309 of the Act;

Order. "Order," except as used in the phrase "order to show cause" and except as otherwise indicated, shall mean an order to suspend or cease and desist;

Party. "Party" means the Administration or respondent;

Respondent. "Respondent" means a licensee named in an order to show cause;

Secretary. "Secretary" means the Administrative Secretary of the Administration, Small Business Administration, Washington 25, D.C.

§ 109.3 Appearances.

(a) *Qualifications.* (1) Members of the bar of a Federal court or of the highest court of any State or Territory of the United States not disbarred or suspended by any court or administrative agency, may practice before the SBA in an adjudicative proceeding.

(2) A Respondent may be represented by a bona fide officer thereof upon a showing of adequate authorization.

(b) *Restrictions as to former employees.* In addition to the provisions of § 105.3–1 of this chapter, no former employee of the Administration shall appear as attorney or counsel in any proceeding the subject matter of which was pending in any manner or form in the Administration while such former employee was employed by the Administration, unless and until the Administrator determines, upon the written statement of the former employee and a statement from the SBID Deputy Administrator, that such subject matter did not come to the official attention of such former employee during his employment by the Administration and that he did not participate personally and substantially in the proceeding.

(c) *Notice of appearance.* Any attorney desiring to appear before the Administration or an examiner, on behalf of a respondent, shall file with the secretary a written notice of such appearance, which shall contain a statement of such attorney's eligibility as provided in this section. No other application shall be required for admission to practice, and no register of attorneys shall be maintained.

(d) *Standards of conduct.* All counsel practicing before the Administration shall conform to the standards of ethical conduct required of practitioners in the courts of the United States and by the bars of which they are members.

(e) *Suspension or disbarment of attorneys.* (1) The examiner shall have the authority, for good cause stated on the record, to bar from participation in a particular proceeding any attorney who shall refuse to comply with his directions, or who shall be guilty of disorderly conduct, dilatory tactics, or contemptuous language in the course of such proceedings. Any attorney so barred shall have the right to appeal to the Administrator from such action of the examiner, whereupon the Administrator will review the action of the examiner and take such action as he deems warranted by the circumstances.

(2) The Administrator, for good cause shown, may issue an order requiring any alleged offender to show cause why he should not be suspended or disbarred from practice before the Administration. Such alleged offender shall be granted due opportunity to be heard in his own defense. Thereafter, if warranted by the facts, the Administration will issue against such offender an order of reprimand, suspension or disbarment.

§ 109.4 Commencement of proceeding.

An adjudicative proceeding under section 309 of the act is commenced by the issuance and service upon the Respondent of an order to show cause by the Administration.

§ 109.5 Order to show cause and notice of hearing.

(a) *Form and notice.* An order to show cause shall contain a statement of the matters of fact and law asserted by the Administration and the legal authority and jurisdiction under which a hearing is to be held, and shall inform the Respondent that a hearing will be held at a time, at least thirty days after service of the order to show cause, and place stated in said order.

(b) *Motion for more definite order to show cause.* If the statement in an order to show cause is so vague or ambiguous that a party cannot reasonably frame a responsive answer, the respondent may move for a more definite statement before filing its answer. Such a motion shall be filed within fifteen days after service of the order to show cause and shall point out the defects complained of and the details desired.

§ 109.6 Answer.

(a) *Time for filing.* A respondent shall have thirty days after service of the order to show cause within which to file an answer thereto: *Provided, however,* That the filing of a motion for a more definite statement alters this period of time as follows, unless a different time is fixed by the examiner: (1) If the motion is denied, the answer shall be filed within ten days after notice of such action; (2) if the motion is granted, in whole or in part, the answer shall be filed within ten days after service of the more definite statement: *Provided further, however,* That in no event need an answer be filed in less than thirty days after service of the order to show cause.

(b) *Content of answer.* An answer shall conform to the following:

(1) *Contesting allegations of order to show cause.* Such answer shall contain:

(i) A concise statement of the facts constituting the ground of defense;

(ii) Specific admission, denial, or explanation of each fact alleged in the order to show cause, or if the respondent is without knowledge thereof, a statement to that effect.

(2) *Admitting allegations of order to show cause.* If the respondent elects not to contest the allegations of fact set forth in the order to show cause, the answer shall consist of a statement that respondent admits all material allegations to be true. Such an answer shall constitute a waiver of hearings as to facts so alleged, and an initial decision containing appropriate findings and conclusions and an appropriate order disposing of the proceeding shall be issued by the examiner. In such answer, the respondent may, however, reserve the right to submit proposed findings and conclusions and the right to petition for review under § 109.21.

(c) *Default.* Failure of the respondent to file answer within the time provided shall be deemed to constitute a waiver of its right to appear and to authorize the Examiner, without further notice to respondent, to find the facts to be as alleged in the order to show cause and to enter an initial decision containing such findings, appropriate conclusions and order.

(d) *Signature on answer.* Every answer filed pursuant to this rule shall be signed by an officer of the respondent or by the attorney who represents the respondent.

§ 109.7 Motions.

(a) *Presentation and disposition.* During the time a proceeding is before an examiner, all motions therein, except as provided in § 109.14(e), shall be addressed to and ruled upon by him, and, if in writing, shall be filed with the Secretary. All motions addressed to the Administrator shall be in writing and shall be filed with the Secretary.

(b) *Content.* All written motions shall state the particular order, ruling, or action desired and the grounds therefor.

(c) *Answers.* Within ten days after service of any written motion, or within such longer or shorter time as may be designated by the examiner or the Administrator, the opposing party shall answer or be taken to have consented to the granting of the relief asked for in the motion. The moving party shall have no right to reply, except as permitted by the examiner or the Administrator.

(d) *Motions for extensions.* As a matter of discretion, the examiner or the Administrator may waive the requirements of this section as to motions for extensions of time, and may rule upon such requests ex parte.

(e) *Rulings on motions for dismissal.* When a motion to dismiss an order to show cause or for other relief is granted with the result that the proceeding before the examiner is terminated, the examiner shall make and file an initial decision in accordance with the provisions of § 109.20. When a motion to dismiss is made at the close of the evidence offered in support of the order to show cause based upon the alleged failure to establish a prima facie case, the examiner may, if he so elects, defer ruling thereon until the close of the case for the reception of evidence.

§ 109.8 Amendments and supplemental pleadings.

(a) *Amendments*—(1) *By leave.* If and whenever determination of a controversy on the merits will be facilitated thereby, the examiner may, upon such conditions as are necessary to avoid prejudicing the public interest and the rights of the parties, allow appropriate amendments to pleadings: provided, however, that an application for amendment of an order to show cause may be allowed only if the amendment is reasonably within the scope of the proceeding initiated by the original order to show cause.

(2) *Conformance to evidence.* When issues not raised by the pleadings, but reasonably within the scope of the proceeding initiated by the original order to show cause, are tried by express or implied consent of the parties, they shall be treated in all respects as if they had been raised in the pleadings; and such amendments of the pleadings as may be necessary to make them conform to the evidence and to raise such issues shall be allowed at any time.

(b) *Supplemental pleadings.* The examiner may, upon reasonable notice and such terms as are just, permit service of a supplemental pleading setting forth transactions, occurrences, or events which have happened since the date of the pleading sought to be supplemented and which are relevant to any of the issues involved.

§ 109.9 Prehearing conferences.

(a) The examiner upon motion of any party or upon his own motion may direct counsel for all parties to meet with him for a conference to consider:

(1) Simplification and clarification of the issues;

(2) Necessity or desirability of amendments to pleadings, subject, however, to the provisions of § 109.8(a)(1);

(3) Stipulations, admissions of fact and of the contents and authenticity of documents;

(4) Expedition in the presentation of evidence, including, but not limited to, restriction of the number of expert, economic or technical witnesses; and

(5) Such other matters as may aid in the orderly disposition of the proceeding, including disclosure of the names of witnesses or furnishings for inspection or copying of nonprivileged documents, papers, books or other physical exhibits, which constitute or contain evidence relevant to the subject matter involved and which are in the possession, custody, or control of any party to the proceeding.

(b) Prehearing conferences, in the discretion of the examiner, may be stenographically reported as provided in § 109.15(f), but shall not be public unless all parties so agree.

(c) The examiner shall enter in the record an order which recites the action taken, the amendments allowed and the agreements made at the conference; and such order shall control the subsequent course of the proceeding, unless modified at the hearing to prevent manifest injustice. If counsel for any party after proper direction fails or refuses to disclose the names of witnesses or to make available for inspection or copying nonprivileged documents, papers, books or other physical exhibits, the Examiner, in his discretion, may also enter in the record an order providing, as appropriate:

(1) That the testimony of the witnesses whose names are not disclosed or the documents, papers, books or other physical exhibits which are not made available for inspection or copying in accordance with the direction shall not be introduced in evidence; or

(2) That counsel who fails or refuses to comply with the examiner's direction in respect to any of the foregoing shall be barred from participation in the proceeding in accordance with the provisions of § 109.3(e)(1).

§ 109.10 Voluntary intervention.

(a) Any individual, partnership, unincorporated association, or corporation desiring to intervene in an adjudicative proceeding shall make written application in the form of a motion setting forth the basis therefor. Such application shall have attached to it a certificate showing service thereof upon each party to the proceeding in accordance with the provisions of § 109.26(b). A similar certificate shall be attached to the answer filed by any party other than counsel in support of the order to show cause, showing service of such answer upon the applicant.

(b) The examiner or the Administrator may by order permit the intervention to such extent and upon such terms as are provided by law or as otherwise may be deemed proper. The examiner or the Administrator shall consider, among other matters, whether the intervention will unduly delay or prejudice the adjudication of the rights of the parties.

§ 109.11 Depositions.

(a) *When, how and by whom taken.* Good cause being shown, the testimony of any witness may be taken by deposition in any proceeding after answer to the order to show cause has been filed. Depositions may be taken orally before any person designated by the examiner and having power to administer oaths.

(b) *Application.* Any party desiring to take the deposition of a witness shall make application in writing to the examiner, setting forth the reasons why such deposition should be taken; the time when, the place where, and the name and post office address of the person before whom the deposition is to be taken; the name and post office address of each witness; and the subject matter concerning which each witness is expected to testify.

(c) *Notice.* Such notice as the examiner may order shall be given of the taking of a deposition, but this shall not be less than five days' written notice of the taking of a deposition within the continental United States, and not less than fifteen days' written notice when the deposition is to be taken elsewhere.

(d) *Taking and reception in evidence.* Each witness testifying upon deposition shall be duly sworn, and the adverse party shall have the right to cross-examine. The questions propounded and the answers thereto, together with all objections made, shall be reduced to writing and, in the presence of the officer before whom the deposition is taken, read to the witness, subscribed by him, and certified in the usual form by the officer. Thereafter, the officer shall forward the deposition, with three copies thereof, in an envelope under seal, endorsed with the title of the proceeding, to the examiner, and, subject to appropriate rulings on such objections to the questions and answers as were noted at the time of taking the deposition or as would be valid were the witness personally present and testifying, such deposition may be read in evidence by the party taking it as against any party who was present or represented at the taking of the deposition or who had due notice thereof.

§ 109.12 Admissions as to facts and documents.

(a) At any time after answer has been filed, any party may serve upon any other party a written request for the admission of the genuineness of any relevant documents described in the request, or the admission of the truth of any relevant matters of fact set forth in such documents. Copies of the documents shall be delivered with the request unless copies have already been furnished.

(b) Each requested admission shall be deemed made unless, within a period designated by the examiner, not less than ten days after service thereof, or within such further time as the examiner may allow, the party so served serves upon the party making the request either (1) a sworn statement denying specifically the relevant matters of which an admission is requested or setting forth in detail the reasons why he can neither truthfully admit nor deny them, or (2) written objections on the ground that some or all of the matters involved are privileged or irrelevant or that the request is otherwise improper in whole or in part, together with a copy of a request to the examiner for a hearing on the objections at the earliest practicable time. Answers on matters to which such objections are made may be deferred until the objections are determined, but if written objections are made to only a part of a request, the remainder of the request shall be answered within the period designated.

(c) Admissions obtained pursuant to this procedure may be used in evidence to the same extent and subject to the same objections as other admissions.

§ 109.13 Evidence.

(a) *Burden of proof.* Counsel supporting the order to show cause shall have the burden of proof, but the proponent of any factual proposition shall be required to sustain the burden of proof with reference thereto.

(b) *Admissibility.* Relevant, material, and reliable evidence shall be admitted. Irrelevant, immaterial, unreliable, and unduly repetitious evidence shall be excluded. Immaterial or irrelevant parts of an admissible document shall be segregated and excluded so far as practicable.

(c) *Official notice of facts.* When any decision of an examiner or of the Administrator rests, in whole or in part, upon the taking of official notice of a material fact not appearing in evidence of record, opportunity to disprove such noticed fact shall be granted any party making timely motion therefor.

(d) *Objections.* Objections to evidence shall timely and briefly state the grounds relied upon and the transcript shall include argument or debate thereon except as ordered by the Examiner. Rulings on all objections shall appear in the record.

(e) *Exceptions.* Formal exceptions to an adverse ruling by the examiner is not required.

(f) *Record of excluded evidence.* When an objection to a question propounded to a witness is sustained, the examining attorney may make a specific offer of what he expects to prove by the answer of the witness, or the examiner upon request shall receive and report the evidence in full, unless it clearly appears that the evidence is not admissible on any ground or that the witness is privileged. Similarly, rejected exhibits, adequately marked for identification, shall be retained in the record so as to be available for consideration by any reviewing authority.

§ 109.14 Presiding officials.

(a) *Who presides.* All hearings in adjudicative proceedings shall be presided over by an examiner.

(b) *Powers and duties.* Examiners shall have the duty to conduct fair and impartial hearings, to take all necessary action to avoid delay in the disposition of proceedings, and to maintain order. They shall have all powers necessary to that end, including the following:

(1) To administer oaths and affirmations;

(2) To issue subpoenas;

(3) To rule upon offers of proof and receive evidence;

(4) To take or cause depositions to be taken and to determine their scope;

(5) To regulate the course of the hearings and the conduct of the parties and their counsel therein;

(6) To hold conferences for simplification of the issues or any other proper purpose;

(7) To consider and rule upon all procedural and other motions appropriate in an adversary proceeding;

(8) To make and file initial decisions: and

(9) To take any action authorized by these rules or in conformance with the provisions of the Administrative Procedure Act (5 U.S.C. 1001 to 1011).

(c) *Substitution of examiner.* In the event of substitution of a new examiner for the one originally designated, any motion predicated upon such substitution shall be made within five days thereafter.

(d) *Interference.* In the performance of their adjudicative functions, Examiners shall not be responsible to, nor subject to the supervision or direction of, any officer, employee, or agent engaged in the performance of investigative or prosecuting functions for the Administration, and all directions by the Administrator to examiners concerning any adjudicative proceeding shall appear in and be made a part of the record.

(e) *Disqualification of examiners.* (1) When an examiner deems himself disqualified to preside in a particular proceeding, he shall withdraw therefrom by notice on the record and shall notify the Administrator of such withdrawal.

(2) Whenever any party shall deem the examiner for any reason to be disqualified to preside, or to continue to preside, in a particular proceeding, that party shall file with the Administrator a motion to disqualify and remove such examiner, such motion to be supported by affidavits setting forth the alleged grounds for disqualification. Copy of such motion shall be served by the Administration on the examiner whose removal is therein sought, who shall have ten days from such service within which to reply thereto. If the examiner does not disqualify himself within ten days, then the Administrator shall promptly determine the validity of the grounds alleged, either directly or on the report of another hearing examiner appointed to conduct a hearing for that purpose.

§ 109.15 Hearings; transcripts.

(a) *Public hearings.* All hearings in adjudicative proceedings shall be public unless otherwise specified in the order to show cause or ordered by the examiner for good cause shown.

(b) *Rights of parties.* Every party shall have the right to due notice, cross-examination, presentation of evidence, objection, motion, argument and all other rights essential to a fair hearing.

(c) *Adverse witnesses.* An adverse party, or an officer, agent, or employee thereof, and any witness who appears to be hostile, unwilling, or evasive, may be interrogated by leading questions and may also be contradicted and impeached by the party calling him.

(d) *Expedition.* Hearings shall proceed with all reasonable expedition. Unless the Administrator otherwise orders upon a certificate of necessity therefor by the examiner, all hearings will be held at one place and will continue without suspension until concluded. (This shall not bar overnight, week end, or holiday recesses, or other brief intervals of the sort normally involved in judicial proceedings.)

(e) *Notice.* Not less than ten days' notice of the time and place of any hearing shall be given, and in setting such hearings due regard shall be had for the public interest and the convenience and necessity of all parties, witnesses, and counsel.

(f) *Transcripts.* Hearings shall be stenographically reported and transcribed by the official reporter of the Administration under the supervision of the examiner, and the original transcript shall be a part of the record and the sole official transcript. Copies of transcripts are available to respondents and to the public from the reporter at rates not to exceed the maximum rates fixed by contract between the Administration and the reporter.

(g) *Corrections of the transcript.* Corrections of the official transcript may be made only when they involve errors affecting substance and then only in the manner herein provided: Corrections ordered by the examiner or agreed to in a written stipulation signed by all counsel and approved by the examiner shall be included in the record, and such stipulations, except to the extent they are capricious or without substance, shall be approved by the examiner. Corrections shall not be ordered by the examiner except upon notice and opportunity for the hearing of objections. Corrections so ordered or approved shall be incorporated in the record as an appendix and when so incorporated the Secretary shall make or cause to be made the necessary physical corrections in the official transcript so that it will incorporate the changes agreed upon or ordered. In making such physical corrections, there shall be no substitution of pages, but, to the extent practicable, such corrections shall be made by running a line through the matter to be changed, but without obliteration, and writing the matter as changed immediately above. Where the correction consists of an insertion, it shall be added, by rider or interlineation, as near as may be to the text which is intended to precede and follow it.

§ 109.16 Subpoenas.

(a) *Subpoenas ad testificandum.* Application for issuance of a subpoena requiring a witness to appear and testify before an examiner at a specified place and time may be made to the examiner, or to the Administrator.

(b) *Subpoenas duces tecum.* Application for issuance of a subpoena requiring a witness to appear before an Examiner at a specified time and place and produce specified documents shall be made in writing to the examiner or to the Administrator, and shall specify as exactly as possible the documents to be produced, showing their general relevancy and reasonable scope. Any motion to limit or quash such subpoena shall be filed within ten days after date of service of the subpoena.

(c) *Service.* A subpoena shall be served as provided in § 109.26(a).

(d) *Appeal.* An appeal to the Administrator from the examiner's ruling granting or denying a motion to issue, limit or quash any subpoena will be entertained by the Administrator only upon a showing that the ruling complained of involves substantial rights and will materially affect the final decision and that a determination of its correctness before conclusion of the hearing will better serve the interests of justice.

§ 109.17 Witnesses and fees.

(a) Witnesses at hearings shall be examined orally. Witnesses shall be paid the same fees and mileage as are paid witnesses in the courts of the United States.

(b) Witnesses whose depositions are taken, and the persons taking such depositions, shall severally be entitled to the same fees as are paid for like services in the courts of the United States.

(c) Witness fees and mileage, and fees for depositions, shall be paid by the party at whose instance witnesses appear.

§ 109.18 Proposed findings, conclusions, and order.

At the close of the reception of evidence in an adjudicative proceeding, or within a reasonable time thereafter fixed by the examiner, any party may file with the Secretary for consideration of the Examiner proposed findings of fact, conclusions of law, and order, together with reasons therefor and briefs in support thereof. Such proposals shall be in writing, shall be served upon all parties, and shall contain adequate references to the record and authorities relied on. The record shall show the examiner's ruling on each proposed finding and conclusion, except when his order disposing of the proceeding otherwise informs the parties of the action taken by him thereon.

§ 109.19 Interlocutory appeals.

Except as provided in § 109.16(d) and § 109.3(e), interlocutory appeals from rulings of an examiner may be filed only after permission is first obtained from the Administrator. Any request for such permission shall be in writing, not to exceed ten pages in length, and shall be filed within five days after notice of the ruling complained of. No such permission shall be granted by the Administrator unless he finds that such ruling involves substantial rights and will materially affect a final decision and that determination of its correctness before the conclusion of the proceeding would better serve the interests of justice.

Interlocutory appeals shall be in the form of a brief, not to exceed thirty pages in length, and shall be filed within five days after notice of the ruling complained of, in the case of appeals under § 109.16(d) or § 109.3(e), or within five days after notice of permission to file, in the case of appeals under § 109.19. Answer thereto may be filed within five days after service of the appeal brief. The appeal shall not operate to suspend the hearing unless otherwise ordered by the examiner or the Administrator.

§ 109.20 Initial Decision.

(a) *When filed and when effective.* Within thirty days after completion of the reception of evidence in a proceeding, or within such further time as the Administrator may allow on the examiner's written request, the examiner shall file an initial decision which shall become the decision of the Administration thirty days after service thereof upon the parties, unless (1) within fifteen days after service of such initial decision a petition for review thereof shall be filed, or (2) within such thirty-day period the Administrator issues an order placing the case on his own docket for review. A copy of the initial decision and order shall be served upon the respondent and each counsel or other representative who has appeared in the proceeding pursuant to § 109.3.

(b) *Content.* An initial decision shall include a statement of (1) findings and conclusions, with the reasons or basis therefor, upon all the material issues of fact, law, or discretion presented on the record, and (2) an appropriate order specifying the effective date thereof. Initial decisions shall be based upon a consideration of the whole record and supported by reliable, probative and substantial evidence.

(c) *By whom made.* The initial decision in an adjudicative proceeding shall be made and filed by the examiner who presided therein, except when he shall have become unavailable to the Administration, in which event a substitute examiner shall be designated.

(d) *Reopening: termination of examiner's jurisdiction.* (1) At any time prior to the filing of his initial decision, an examiner may reopen the proceeding for the reception of further evidence.

(2) Except for the correction of clerical errors, the jurisdiction of the examiner is terminated upon the filing of his initial decision, unless and until the proceeding is remanded to him by the Administrator.

§ 109.21 Petition for review.

(a) *Who may file.* Any party to a proceeding may file a petition for review within the time prescribed by § 109.20.

(b) *Content.* The petition for review shall concisely and plainly state (1) the questions presented for review, (2) the facts in abbreviated form, and (3) the reasons why review by the Administrator is deemed to be in the public interest. Such petition shall not exceed ten pages in length.

(c) *Answer.* Within ten days after service upon the opposing party of a petition for review, such party may file in opposition thereto an answer of not exceeding ten pages.

(d) *Disposition.* A petition for review will be granted where, on examination of the record, the petition for review, and the answer, the Administrator finds that the questions presented are substantial and that determination thereof by the Administrator is necessary or appropriate under the law to insure a just and proper disposition of the proceeding and to protect the rights of all parties. If the petition for review is denied, the initial decision of the examiner shall thereupon become the decision of the Administration.

§ 109.22 Administration review.

(a) Within thirty days after service of the Administrator's order granting the petition for review, the petitioner may file exceptions to the initial decision and a brief in support thereof.

(b) *Exceptions.* Each exception (1) shall relate only to substantive or procedural matters presented on the record, limited to the questions stated in the petition for review; (2) shall identify the part of the initial decision to which objection is made; (3) shall specify the portions of the record relied upon; and (4) shall state the grounds for the exception, including the citation of authorities in support thereof. Any objection to a ruling, finding, or conclusion which is not made a part of the exceptions shall be deemed to have been waived. Any exception which fails to present with accuracy, brevity and clearness whatever is essential to a ready and adequate understanding of the points requiring consideration may be disregarded.

(c) *Brief.* The brief in support of the exceptions shall contain, in the order indicated, the following:

(1) A subject index of the matter in the brief, with page references, and a table of cases, text books, statutes, and other material cited, with page references thereto;

(2) A concise statement of the case containing all that is material to the consideration of the questions presented;

(3) A specification of the assigned errors; and

(4) The argument presenting clearly the points of fact and law relied upon in support of the position taken on each question, with specific page references to the transcript and the legal or other material relied upon.

Material not included in the exceptions or brief may not be presented to the Administrator in oral argument or otherwise.

(d) *Answering brief.* Within thirty days after service of the brief upon the opposing party, such party may file an answering brief which shall also contain a subject index, with page references, and a table of cases, text books, statutes, and other material cited, with page references thereto. It shall be limited to the questions raised in the brief in support of the exceptions and shall present clearly the points of fact and law relied upon in support of the position taken on each question, with specific page references to the transcript and legal or other material relied upon.

(e) *Reply brief.* Reply briefs, not in excess of ten pages and limited to rebuttal of matter in an answering brief, will be received if filed and served within seven days after receipt of the answering brief or the day preceding the oral argument, whichever comes first. No answer to a reply brief will be permitted.

(f) *Length of briefs.* No brief in excess of sixty pages, including any appendices, shall be filed without leave of the Administrator.

(g) *Oral argument.* No oral arguments will be held in cases in which the Administrator grants review, unless he otherwise orders (1) upon request of any party made at the time of filing its brief, or (2) upon the Administrator's own motion. Oral arguments before the Administrator shall be reported stenographically unless otherwise ordered by the Administrator.

§ 109.23 Decision on review.

(a) Upon review of an initial decision, the Administrator will consider such parts of the record as are cited or as may be necessary to resolve the issues presented; and in addition will, to the extent necessary or desirable, exercise all the powers which he could have exercised if he had made the initial decision.

(b) In rendering his decision, the Administrator will adopt, modify, or set aside the findings, conclusions and order contained in the initial decision, and will include in the decision a statement of the reasons or basis for his action.

§ 109.24 Requirements as to form and filing of documents other than correspondence.

(a) *Filing.* All documents in proceedings hereunder before the Administration shall be addressed to and filed with the Administrative Secretary, Small Business Administration, Washington 25, D.C.

(b) *Title.* Documents shall clearly show the docket number and title of the proceeding.

(c) *Copies.* Ten copies shall be filed of a petition for review and of all briefs; five copies of all other documents shall be filed with the exception of reports of compliance under § 109.28, in which case only two copies need be filed, and notices of appearances under § 109.3, in which case only one copy need be filed.

(d) *Form.* (1) Documents, other than briefs filed with the Administrator on petitions for review, shall be printed, typewritten or otherwise processed in permanent form and on good unglazed paper. The paper must not be less than eight (8) inches nor more than eight and one-half (8½) inches by not less than ten and one-half (10½) inches nor more than eleven (11) inches. The left margin must be one and one-half (1½) inches and the right margin one (1) inch. Documents must be bound on the left side. If printed, the type shall be not less than ten (10) point adequately leaded.

(2) Briefs before the Administrator on review shall be printed on good unglazed paper seven (7) inches by ten (10) inches. The type shall not be less than ten (10) point adequately leaded. Citations and quotations shall not be less than ten (10) point single leaded and footnotes shall not be less than eight (8) point single leaded. The printed line shall not exceed four and three-quarter (4¾) inches in length.

(e) *Signature.* (1) One copy of each document shall be signed by an attorney of record for the party or, in the case of respondents not represented by counsel, by an officer of respondent.

(2) Signing a document constitutes a representation by the signer that he has read it, that to the best of his knowledge, information, and belief, the statements made in it are true, and that it is not interposed for delay. If a document is not signed or is signed with intent to defeat the purpose of this section, it may be stricken as sham and false and the proceeding may go forward as though the document had not been filed.

§ 109.25 Time.

(a) *Computation.* Computation of any period of time prescribed or allowed by these rules, by order of the Administrator, or an examiner, or by any applicable statute, shall begin with the first business day following that on which the act, event or development initiating such period of time shall have occurred. When the last day of the period so computed is a Saturday, Sunday, or national holiday, or other day on which the office of the Administration is closed, the period shall run until the end of the next following business day. When such period of time, with the intervening Saturdays, Sundays and national holidays counted, is less than seven days, each of the Saturdays, Sundays and such holidays shall be excluded from the computation. When such period of time, with the intervening Saturdays, Sundays and national holidays counted, exceeds seven days, each of the Saturdays, Sundays and such holidays shall be included in the computation.

(b) *Extensions.* For good cause shown, the examiner may, in any proceeding before him, extend any time limit prescribed or allowed by these rules or by order of the Administrator or the examiner, except those governing interlocutory appeals and initial decisions and those expressly requiring Administrator action. Except as otherwise provided by law, the Administrator, for good cause shown, may extend any time limit prescribed by these rules or by order of the Administrator or the examiner: *Provided, however,* That in a proceeding pending before an examiner, the application shall first be made to him. Applications for extensions of time shall be made by motion.

§ 109.26 Service.

(a) *By the Administration.* (1) Service of orders to show cause, orders and other processes of the Administration may be effected as follows:

(i) *By registered mail.* A copy of the document shall be addressed to the person, partnership, corporation or unincorporated association to be served at his or its residence or principal office or place of business, registered, and mailed; or

(ii) *By delivery to an individual.* A copy thereof may be delivered to the person to be served, or to a member of the partnership to be served, or to the president, secretary, or other executive officer or a director of the corporation or unincorporated association to be served; or

(iii) *By delivery to an address.* A copy thereof may be left at the principal office or place of business of the person, partnership, corporation or unincorporated association, or it may be left at the residence of the person or of a member of the partnership or of an officer or director of the corporation or unincorporated association to be served.

(2) Documents other than orders to show cause, orders and other processes of the Administration, the service of which starts the running of prescribed periods of time provided or allowed by any of the rules in this part or by any order of the Administration or an examiner for the performance of some act or the occurrence of some event or development, shall be served in the same manner as orders to show cause, orders and other processes of the Administration, or by certified mail.

(3) All other documents may be similarly served, or they may be served by ordinary first-class mail.

(b) *By other parties.* Service of documents by parties other than the Administration shall be by delivering copies thereof as follows: Upon the Administration, by personal delivery or delivery by first-class mail to the office of the Secretary; upon any other party, by delivery to the party. If the party is an individual or partnership, delivery shall be to such individual or a member of the partnership; if a corporation or unincorporated association, to an officer or agent authorized to accept service of process therefore. Delivery to a party other than the Administration means handing to the individual, partner, officer, or agent; leaving at his office with a person in charge thereof, or, if there is no one in charge or if the office is closed or if he has no office, leaving at his dwelling house or usual place of abode with some person of suitable age and discretion then residing therein; or sending by mail.

(c) *Proof of service.* (1) When service is by mail, registered or ordinary first-class, it is complete upon delivery of the document by the post office.

(2) When a party has appeared in a proceeding by a partner, officer, or attorney, service upon such partner, officer, or attorney of any document other than an order to show cause, order or other process of the Administration shall be deemed service upon the party.

(3) The return post office receipt for a document registered and mailed, or the verified return or certificate by the person serving the document by personal delivery or ordinary mail, setting forth the manner of said service, shall be proof of the service of the document.

§ 109.27 Ex parte communication.

(a) In an adjudicative proceeding, no employee or agent of the Administration who performs any investigative or prosecuting function in connection with the proceeding and no respondent in the proceeding, or agent, or counsel, or anyone acting on behalf of a respondent, shall communicate ex parte, directly or indirectly, with the Administrator, or the examiner, or any employee involved in the decisional process in such proceeding, with respect to the merits of that or a factually related proceeding.

(b) In an adjudicative proceeding, the Administrator, examiner or employee involved in the decisional process of such proceeding, shall not communicate ex parte, directly or indirectly, with any employee or agent of the Administration who performs any investigative or prosecuting function in connection with the proceeding, or with any party respondent in the proceeding, or agent, or counsel, or anyone acting on behalf of a party respondent, with respect to the merits of that or a factually related proceeding.

(c) In an adjudicative proceeding, if any ex parte communication is made to or by the examiner, or employee involved in the decisional process, in violation of paragraph (a) or (b) of this section, such examiner or employee, as the case may be, shall promptly inform the Administrator of the substance of such communication and the circumstances thereof.

§ 109.28 Reports of compliance.

Unless otherwise specifically provided in an order, in every proceeding in which the Administration has issued an order, the respondent named in such order shall file with the Administration within twenty days after service thereof, a report in writing, signed by the respondent, setting forth in detail the manner and form of his compliance with the order, and shall thereafter file with the Administration such further signed, written reports of compliance as it may require. Reports of compliance shall be under oath if so requested. Where court review of an order of the Administration is pending, respondent shall file only such reports of compliance as the court may require. Thereafter, the time for filing report of compliance shall begin to run de novo from the final judicial determination.

§ 109.29 Reopening of proceedings.

(a) In any case where an order has been issued by the Administration it may, upon notice to the parties, modify or set aside, in whole or in part, its report of findings as to the facts or order in such manner as it may deem proper at any time prior to expiration of the time allowed for filing a petition for review or prior to the filing of the transcript of record in the proceeding in a United States Court of Appeals pursuant to a petition for review.

(b) In any case where an order issued by the Administration has become final by reason of court affirmance or expiration of the statutory period for court review without a petition for such review having been filed, the Administration may at any time after reasonable notice and opportunity for hearing as to whether changed conditions of fact or of law or the public interest so require, reopen and alter, modify or set aside, in whole or in part, its report of findings as to the facts or order therein whenever in the opinion of the Administrator such action is required by said changed conditions or by the public interest.

(c) After an order dismissing an order to show cause has been issued, the Administration may, upon reasonable notice to the parties and opportunity for a hearing as to whether said proceeding should be reopened, issue an order reopening such proceeding whenever, in the opinion of the Administrator, changed conditions of fact or of law or the public interest so require.

Dated: January 12, 1962.

JOHN E. HORNE,
Administrator.

[F.R. Doc. 62 505; Filed, Jan. 16, 1962; 8:49 a.m.]

PART 110—INVESTIGATIONS; SMALL BUSINESS INVESTMENT COMPANIES

Pursuant to authority contained in sections 308 and 310 of the Small Business Investment Act of 1958, Public Law 85–699, 72 Stat. 694, as amended, the Small Business Administration hereby adopts new Part 110 of Subchapter B, Chapter I of Title 13 of the Code of Federal Regulations.

Information and effective date. The Small Business Investment Act Amendments of 1961, Public Law 87–341, section 310, provides SBA with the power to make investigations. The new Part 110, as set forth below, establishes the Rules Governing Investigations. Since these Rules Governing Investigations relate to matters which are exempt from the rule making requirements of the Administrative Procedure Act (5 U.S.C. 1003), they shall become effective upon publication in the FEDERAL REGISTER.

Sec.
110.1 Scope of rules.
110.2 Right to copy of data or transcript of testimony.
110.3 Counsel for witnesses in investigations.
110.4 Suspension or disbarment of counsel.
110.5 Information obtained in investigations.

AUTHORITY: §§ 110.1 to 110.5 issued under sec. 308, Public Law 85–699 and sec. 310, Public Law 87–341.

§ 110.1 Scope of rules.

(a) The following rules govern investigations under section 310 of the Act. Where, from examinations made pursuant to section 308(c) of the Small Business Investment Act of 1958, as amended, complaints received from members of the public, examination of filings and reports made with the Administration, or otherwise, it appears that there may be a violation of the Small Business Investment Act of 1958, as amended, or the regulations thereunder, or where it appears that there is a likelihood that a violation has been or is about to be committed, the Administration may order a formal investigation if it is deemed necessary. Unless otherwise ordered by the Administration, the investigation is nonpublic and the reports thereon are for the Administration's use only.

(b) Where it appears after investigation or otherwise that there has been a violation of any of the provisions of the Small Business Investment Act of 1958, as amended, or the regulations thereunder, the Administration may take one or more of the following actions: Institution of adjudicative proceedings looking to the imposition of remedial sanctions, initiation of injunctive proceedings in the courts, or proceedings looking to the revocation of a license.

§ 110.2 Right to copy of data or transcript of testimony.

A person who has submitted data or evidence in such investigations shall be entitled to retain or procure a copy of his data or a transcript of his testimony on payment of the prescribed fees; provided, however, in the case of nonpublic investigations such person shall file a written request stating the reason for desiring to procure such copy or transcript. The Administration may in any nonpublic investigatory proceeding for good cause deny such request. In the latter event, such person, upon proper identification, shall have the right to inspect the official transcript of his testimony.

§ 110.3 Counsel for witnesses in investigations.

Any person compelled to appear in person at an investigation designated in paragraph (a) of § 110.1 may be accompanied, represented and advised by counsel, but such counsel may not represent any other witness or any person being investigated, unless permitted in the discretion of the officer conducting the investigation or of the Administration upon being satisfied that there is no conflict of interest in such representation and that the presence of identical counsel for other witnesses or persons being investigated would not tend to hinder the course of the investigation.

§ 110.4 Suspension or disbarment of counsel.

The Administrator, for good cause shown, may issue an order requiring any counsel in an investigation to show cause why he should not be suspended or disbarred from practice before the Administration for reason of disorderly or contemptuous conduct or dilatory tactics in the course of any investigation. Such counsel shall be granted due opportunity to be heard in his own defense. Thereafter, if warranted by the facts, the Administration will issue against such counsel an order of reprimand, suspension or disbarment.

§ 110.5 Information obtained in investigations.

Information or documents obtained by the Administration in the course of any investigation shall, unless made a matter of public record, be deemed confidential. Officers and employees are hereby prohibited from making such confidential information or documents or any other non-public records of the Administration available to anyone other than an officer or employee of the Administration, unless the Administration authorizes the disclosure of such information or the production of such documents as not being contrary to the public interest. Any officer or employee who is served with a subpoena requiring the disclosure of such documents shall appear in court and, unless the authorization described in the preceding sentence shall have been given, shall respectfully decline to disclose the information or produce the documents called for, basing his refusal upon this section. Any officer or employee who is served with such a subpoena shall promptly advise the Administrator of the service of such subpoena, the nature of the information or documents sought, and any circumstances which may bear upon the desirability of making available such information or documents.

Dated: January 12, 1962.

JOHN E. HORNE,
Administrator.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Agency

[Reg. Docket No. 65; Reg. SR–436B]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

Airborne Weather Radar Equipment Requirements for Airplanes Carrying Passengers; Special Civil Air Regulation

Correction

In F.R. Doc. 62–98, appearing at page 97 of the issue for Friday, January 5, 1962, the second sentence of paragraph 3(b) of the Special Civil Air Regulation should begin with the words "After the date specified * * *" instead of "After the data specified * * *".

Chapter II—Civil Aeronautics Board

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. No. ER–346]

PART 227—TARIFFS OF AIR CARRIERS AND FOREIGN AIR CARRIERS: REDUCED RATES FOR FURLOUGHED MILITARY PERSONNEL AND IMMEDIATE FAMILIES OF MILITARY PERSONNEL

Reduced Rates for Dependents

JANUARY 12, 1962.

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 12th day of January 1962.

The Board in 26 F.R. 10238 and by circulation of Economic Draft Release, EDR–38 dated October 30, 1961, Docket 13142, gave notice that it had under consideration an amendment to Part 227 of the Economic Regulations for the purpose of permitting air carriers and foreign air carriers to file tariffs providing for reduced-rate transportation for certain limited travel of members of the immediate families of military personnel stationed overseas.

The only timely comment received in response to the Notice suggests that final action on the proposal be deferred pending evaluation of certain reduced-rate transportation now being provided for military personnel and members of their immediate family in overseas and foreign air transportation on a temporary basis. No comments were received which opposed the adoption of the proposal.

The rules contained in Part 227 as well as the subject amendment are permissive. Therefore, it is discretionary with the air carriers or foreign air carriers whether they will file tariffs providing such reduced-rate transportation. In view of this the Board is of the opinion that no useful purpose will be served by delaying the finalization of this proposal.

Section 227.5 is being renumbered § 227.0, amended to remove the restriction of the applicability of Part 227 to round-trip or open-jaw transportation, and clarified to eliminate the implication that it stands in the way of carriers filing tariffs providing for group travel of individually ticketed passengers. Furthermore, the requirement that trips must originate at a foreign point has been deleted as irrelevant to the policy of this regulation. Since these changes relieve restrictions on the air carriers subject to this regulation, the Board finds that notice and public procedure thereon are unnecessary.

The amendment adopted herein relieves air carriers and foreign air carriers of a restriction and serves the public interest. Good cause therefore exists for making the amendment effective less than 30 days after publication.

Accordingly, the Board hereby amends Part 227 of its Economic Regulations, 14 CFR Part 227, effective January 17, 1962, by adopting the following amendments thereto:

§ 227.1 [Amendment]

(1) By amending paragraph (b) of § 227.1 to read:

(b) "Reduced rate transportation" means the carriage by a carrier subject to the provisions of this Part of any furloughed military personnel or members of the immediate family of military personnel on active duty status and stationed outside the continental United States, for compensation specified in the applicable tariff • • • [remainder unchanged].

(2) By adding a new paragraph (d) to § 227.1 of this part to read:

(d) "Immediate Family" means the spouse and dependent children, living in the same household, of a member of the Armed Forces of the United States who is on active duty status and stationed outside the continental United States.

(3) By amending § 227.2 of this part to read:

§ 227.2 Conditions governing the furnishing of reduced-rate transportation.

Subject to compliance with the other provisions of this Part and with the limitations imposed in an air carrier's certificate of public convenience and necessity, issued under section 401 of the Act; in the applicable regulation or order of the Board authorizing an air carrier's operation; or in a foreign air carrier's foreign air carrier permit issued under section 402 of the Act, any air carrier or foreign air carrier may furnish reduced-rate transportation to:

(a) Furloughed military personnel traveling on through tickets calling for overseas or foreign air transportation.

(b) Members of the immediate family of furloughed military personnel traveling on through tickets calling for overseas or foreign air transportation: *Provided*, That such members are accompanied on the trip by such military personnel.

(c) Members of the immediate family of military personnel traveling on a one-way through ticket calling for overseas or foreign air transportation from an overseas or foreign point to the United States, its territories or possessions.

§ 227.4 [Amendment]

(4) By changing the section heading of § 227.4 to read "Identification"; redesignating present § 227.4 as paragraph (a) of § 227.4; and adding a new paragraph (b) to § 227.4 to read:

(b) *Identification of members of the immediate family.* No air carrier or foreign air carrier shall sell reduced-rate tickets or furnish reduced-rate transportation, pursuant to this Part, to the immediate family of any member of the Armed Forces of the United States unless such member shall execute and have countersigned by his Commanding Officer and deliver to the representatives of the carrier at the time of sale a declaration of eligibility reading as follows:

I declare that I am a member of the United States Armed Forces on active duty status and stationed outside the continental United States and that I am purchasing a ticket or tickets for ---------- who is (are) my spouse and dependent child (children) and who live(s) in my household for travel in foreign or overseas air transportation.

(Commanding officer)

(Signed)

(Grade)

(Branch of service)

(Service number)

(5) By deleting § 227.5 and inserting in lieu thereof, at the beginning of Part 227, a new § 227.0 to read:

§ 227.0 Applicability.

This part applies to reduced rate transportation furnished to individually ticketed passengers traveling singly or in groups in overseas or foreign air transportation.

(6) By amending the title of Part 227 to read: "Part 227—Tariffs of Air Carriers and Foreign Air Carriers: Reduced Rates for Furloughed Military Personnel and Immediate Families of Military Personnel".

(Sec. 204(a), 72 Stat. 743; 49 U.S.C. 1324. Interpret or apply sec. 403(b), 72 Stat. 759; 49 U.S.C. 1373)

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON, *Secretary.*

[F.R. Doc. 62-507; Filed, Jan. 16, 1962; 8:49 a.m.]

Chapter III—Federal Aviation Agency

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 61-FW-94]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Alteration of Federal Airways

On October 3, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 9325), stating that the Federal Aviation Agency proposed to alter VOR Federal airway Nos. 1515, 1517, 1521, and 1602.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for reasons stated in the notice, the following actions are taken:

§ 600.1515 [Amendment]

1. In the text of § 600.1515 (26 F.R. 1083, 4052) "thence to the Pahokee, Fla., VOR; Vero Beach, Fla., VOR;" is deleted and "thence via the Pahokee, Fla., VOR; INT of the Pahokee VOR 009° and the Vero Beach, Fla., VOR 193° radials; Vero Beach VOR;" is substituted therefor.

2. Section 600.1517 (26 F.R. 1083, 4052) is amended to read:

§ 600.1517 VOR Federal airway No. 1517 (Miami, Fla., to Chicago, Ill.).

From the Miami, Fla., VOR to the La Belle, Fla., VOR; thence 10-mile wide airway via the Lakeland, Fla., VOR; Ocala, Fla., VOR; INT of the Ocala VOR 343° and the Taylor, Fla., VOR 170° radials; Taylor VOR; Alama, Ga., VOR; Macon, Ga., VOR; McDonough, Ga., VOR; to the INT of the McDonough VOR 345° and the Royston, Ga., VOR 273° radials; thence via the Crossville, Tenn., VOR; Bowling Green, Ky., VOR; Lewis, Ind., VOR; thence 10-mile wide airway to the INT of the Lewis VOR 349° and the Indianapolis, Ind., VOR 288° radials; thence to the INT of the Peotone, Ill., VOR 168° and the Bradford, Ill., VOR 098° radials; thence 10-mile wide airway to the Peotone VOR.

3. Section 600.1521 (26 F.R. 1083) is amended to read:

§ 600.1521 VOR Federal airway No. 1521 (Miami, Fla., to Farmington, Mo.).

From the Miami, Fla., VOR via the La Belle, Fla., VOR; to the INT of the St. Petersburg, Fla., VOR 133° and the Lakeland, Fla., VOR 227° radials; thence 10-mile wide airway via the St. Petersburg VOR; to the Tallahassee, Fla., VOR; thence via the Tuskegee, Ala., VOR; Birmingham, Ala., VOR; Muscle Shoals, Ala., VOR; Paducah, Ky., VOR; to the Farmington, Mo., VOR.

4. Section 600.1602 (26 F.R. 1087) is amended to read:

§ 600.1602 VOR Federal airway No. 1602 (Fort Myers, Fla., to Vero Beach, Fla.).

From the Fort Myers, Fla., VOR via the La Belle, Fla., VOR; to the Vero Beach, Fla., VOR.

These amendments shall become effective 0001 e.s.t., March 8, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 11, 1962.

CHARLES W. CARMODY,
Acting Director,
Air Traffic Service.

[F.R Doc. 62-475; Filed, Jan. 16, 1962; 8:45 a.m.]

[Airspace Docket No. 61-LA-22]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Correction to an Amendment

On October 4, 1961, Federal Register Document 61-9473 was published in the FEDERAL REGISTER (26 F.R. 9335) and amended § 600.6248 of the regulations of the Administrator by altering VOR Federal airway No. 248 from Avenal, Calif., to Bakersfield, Calif.

In citing the number of this airway in the caption of the section amended, the airway number was incorrectly reported as No. 428; action is taken herein to correct this error.

Since this modification of amendment corrects an error and imposes no additional burden on any person, notice and public procedure hereon are unnecessary, and it may be made effective immediately.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), effective immediately, Federal Register Document 61-9473 (26 F.R. 9335) is modified by deleting in the caption to § 600.6248 "No. 428" and substituting therefor "No. 248".

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 11, 1962.

CHARLES W. CARMODY,
Acting Director,
Air Traffic Service.

[F.R. Doc. 62-476; Filed, Jan. 16, 1962; 8:45 a.m.]

[Airspace Docket No. 61-NY-112]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Alteration of Federal Airways

The purpose of these amendments to §§ 600.6016, 600.6103, 600.6258, 600.6260, and 600.6875 of the regulations of the Administrator is to change the name of the Hollins, Va., VORTAC to Roanoke, Va., VORTAC. This action will associate the en route navigational aid with the principal city at this location and will result in improved charting clarity.

Since these amendments are of a procedural nature and do not assign or reassign the use of navigable airspace, notice and public procedure hereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, these amendments will become effective more than 30 days after publication.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), the following actions are taken:

1. In the text of § 600.6016 (14 CFR 600.6016, 26 F.R. 3521, 3852) "Hollins, Va., VOR;" and "including a north alternate from the Hollins VOR to the Gordonsville VOR via the point of INT of the Hollins VOR 035°" are deleted, and "Roanoke, Va., VORTAC;" and "including a N alternate from the Roanoke VORTAC to the Gordonsville VORTAC via the INT of the Roanoke VORTAC 035°" are substituted therefor.

2. In the text of § 600.6103 (14 CFR 600.6103, 26 F.R. 3771) "Hollins, Va., VORTAC;" is deleted and "Roanoke, Va., VORTAC;" is substituted therefor.

3. In the text of § 600.6258 (14 CFR 600.6258) "Hollins, Va., VOR;" is deleted and "Roanoke, Va., VORTAC;" is substituted therefor.

4. In the text of § 600.6260 (14 CFR 600.6260) "Hollins, Va., VORTAC;" and "including a S alternate via the INT of the Hollins VORTAC 177° and the Lynchburg VOR 253° radials;" are deleted, and "Roanoke, Va., VORTAC;" and "including a S alternate via the INT of the Roanoke VORTAC 177° and the Lynchburg VORTAC 253° radials;" are substituted therefor.

5. In the text of § 600.6875 (14 CFR 600.6875, 26 F.R. 21, 26 F.R. 8246) "Hollins, Va., VORTAC 035° radials; Hollins VORTAC;" is deleted and "Roanoke, Va., VORTAC 035° radials; Roanoke VORTAC;" is substituted therefor.

These amendments shall become effective 0001 e.s.t., March 8, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 11, 1962.

CHARLES W. CARMODY,
Acting Director,
Air Traffic Service.

[F.R. Doc. 62-478; Filed, Jan. 16, 1962; 8:45 a.m.]

[Airspace Docket No. 61-NY-40]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS AND POSITIVE CONTROL AREAS

Designation of Federal Airway and Associated Control Areas

On August 9, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 7149), stating that the Federal Aviation Agency proposed to designate low altitude VOR Federal airway No. 423 from the Ithaca, N.Y., VOR to the Syracuse, N.Y., VORTAC via the intersection of the Ithaca VOR 001° True radial and the en route radial between the Watkins Glen, N.Y., VOR and Syracuse VORTAC. Subsequent to the publication of the notice, it has been determined that alignment of Victor 423 via the Ithaca VOR 356° radial will facilitate the flow of traffic between Ithaca and Syracuse and will provide a common intersection with Victors 14 and 35. Since this alteration constitutes a minor change in alignment of the airway as proposed, action is hereby taken to designate Victor 423 from Ithaca to Syracuse via the intersection of the Ithaca 356° radial and the en route radial between Watkins Glen, N.Y., and Syracuse, N.Y.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated in the notice, Parts 600 and 601 (14 CFR Parts 600, 601) are amended by adding the following sections:

§ 600.6423 VOR Federal airway No. 423 (Ithaca, N.Y., to Syracuse, N.Y.).

From the Ithaca, N.Y., VOR to the Syracuse, N.Y., VORTAC via the intersection of the Ithaca VOR 356° radial and the en route radial between Watkins Glen, N.Y., VOR and the Syracuse VORTAC.

§ 601.6423 VOR Federal airway No. 423 (Ithaca, N.Y., to Syracuse, N.Y.).

All of VOR Federal airway No. 423.

These amendments shall become effective 0001 e.s.t., March 8, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 11, 1962.

CHARLES W. CARMODY,
Acting Director,
Air Traffic Service.

[F.R. Doc. 62-477; Filed, Jan. 16, 1962; 8:45 a.m.]

[Airspace Docket No. 61-LA-126]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration of Continental Control Area

The purpose of this amendment to § 601.7101 of the regulations of the Administrator is to alter the description of the continental control area to include the Bullion Mountains, Calif., Restricted Area R-2501.

R-2501 is currently designated as a joint use area with the Los Angeles ARTC Center as the controlling agency. The inclusion of R-2501 within the continental control area will provide additional controlled airspace southeast of the Hector, Calif., VORTAC for the radar vectoring of aircraft transiting the Hector-Daggett area. This area east northeast of Los Angeles is a point of convergence for three jet routes and two intermediate altitude airways that are the principal east-west routings for civil turbojet traffic arriving and departing Los Angeles. Therefore, inclusion of R-2501 within the continental control area will promote more efficient utilization of the airspace. Such action is taken herein.

Since this amendment imposes no additional burden on the public, notice and public procedure hereon are unnecessary, and it may be made effective upon publication.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), the following action is taken:

In the text of § 601.7101 (26 F.R. 1399), the following is added:

R-2501 Bullion Mountains, Calif.

This amendment shall become effective upon publication in the FEDERAL REGISTER.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 11, 1962.

CHARLES W. CARMODY,
Acting Director,
Air Traffic Service.

[F.R. Doc. 62-472; Filed, Jan. 16, 1962; 8:45 a.m.]

[Airspace Docket No. 66-LA-112]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration of Control Zone

On November 8, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 10520), stating that the Federal Aviation Agency proposed to alter the Hoquiam, Wash., control zone.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated in the notice, § 601.2413 (14 CFR 601.2413) is amended to read:

§ 601.2413 Hoquiam, Wash., control zone.

Within a 5-mile radius of Bowerman Airport, Hoquiam, Wash., (latitude 46°58'16" N., longitude 123°56'08" W.), and within 2 miles either side of the Hoquiam VOR 059° radial extending from the 5-mile radius zone to the VOR.

This amendment shall become effective 0001 e.s.t., March 8, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 11, 1962.

CHARLES W. CARMODY,
Acting Director,
Air Traffic Service.

[F.R. Doc. 62-473; Filed, Jan. 16, 1962; 8:45 a.m.]

[Airspace Docket No. 61-SW-116]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Revocation of Control Zone

The purpose of this amendment to Part 601 of the regulations of the Administrator is to revoke the Marianna, Fla., control zone.

The Air Transport Association of America has stated that National Airlines has discontinued service into Marianna Municipal Airport and as a result airport weather service is no longer available. Therefore, action is taken herein to revoke the Marianna control zone.

Since this amendment imposes no additional burden on any person, notice and public procedure hereon are unnecessary and it may be made effective immediately. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective more than 30 days after publication.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), Part 601 (14 CFR Part 601) is amended as follows:

Section 601.2316 *Marianna, Fla., control zone* is revoked.

This amendment shall become effective 0001 e.s.t., March 8, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 11, 1962.

CHARLES W. CARMODY,
Acting Director,
Air Traffic Service.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 8363 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

Seneca Quilting Co., Inc., et al.

Subpart—Furnishing false guaranties: § 13.1053 *Furnishing false guaranties:* § 13.1053–90 *Wool Products Labeling Act.* Subpart—Invoicing products falsely: § 13.1108 *Invoicing products falsely:* § 13.1108–40 *Federal Trade Commission Act.* Subpart—Misbranding or mislabeling: § 13.1185 *Composition:* § 13.1185–90 *Wool Products Labeling Act.* Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 *Formal regulatory and statutory requirements:* § 13.1852–80 *Wool Products Labeling Act.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, secs. 2–5, 54 Stat. 1128–1130; 15 U.S.C. 45, 68)

[Cease and desist order, Seneca Quilting Co., Inc., et al. Brooklyn, N.Y., Docket 8363, Sept. 29, 1961]

In the Matter of Seneca Quilting Company, Inc., a Corporation, and Arthur Eisenberg, and Paul Melinger, Individually and as Officers of Said Corporation

Consent order requiring Brooklyn manufacturers to cease violating the Wool Products Labeling Act by labeling as "100% reprocessed wool, exclusive of ornamentation" and "90% reprocessed wool, 10% other fibers", interlining materials which contained substantially less woolen fibers than so represented, by failing to comply with other labeling requirements, and by furnishing false guaranties that certain of their wool products were not misbranded; and to cease violating the Federal Trade Commission Act by using on invoices the misrepresentations as to fiber content above set out .

The order to cease and desist, including order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Seneca Quilting Company, Inc., a corporation, and its officers, and Arthur Eisenberg and Paul Melinger, individually and as officers of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction, or manufacture for introduction, into commerce, or the offering for sale, sale, transportation or distribution, in commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act of 1939, of wool interlining materials or other "wool products" as such products are defined in and subject to the Wool Products Labeling Act of 1939, do forthwith cease and desist from:

A. Misbranding such products by:

1. Falsely or deceptively stamping, tagging, labeling or otherwise identifying such products as to the character or amount of the constituent fibers contained therein;

2. Failing to affix labels to such products showing each element of information required to be disclosed by section 4(a)(2) of the Wool Products Labeling Act of 1939, and in the manner and form prescribed by the rules and regulations promulgated under said Act.

B. Furnishing false guarantees that wool products are not misbranded under the provisions of the Wool Products Labeling Act, when there is reason to believe that the wool products so guaranteed may be introduced, sold, transported or distributed in commerce.

It is further ordered, That respondents Seneca Quilting Company, Inc., a corporation, and its officers, and Arthur Eisenberg and Paul Melinger, individually and as officers of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of interlining materials or any other products in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from misrepresenting, directly or indirectly, the constituent fibers of which such products are composed, or the percentages thereof, in invoices, shipping memoranda, or in any other manner.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: September 29, 1961.

By the Commission.

[SEAL] JOSEPH W. SHEA,
Secretary.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart A—Definitions and Procedural and Interpretative Regulations

EXTENSION OF EFFECTIVE DATE OF STATUTE FOR CERTAIN SPECIFIED FOOD ADDITIVES

Correction

In F.R. Doc. 61-12280, appearing at page 12769 of the issue for Saturday, December 30, 1961, the following entry should be inserted as the third listing under "Silicone basic polymers • • •" in the Product column of the tabular material in § 121.91: "Vsi-Silicone elastomer methyl and vinyl groups.".

PART 121—FOOD ADDITIVES

Subpart A—Definitions and Procedural and Interpretative Regulations

DELETION OF OBSOLETE MATERIAL FROM EXTENSION LIST

Correction

In F.R. Doc. 61-12424, appearing at page 12771 of the issue for Saturday, December 30, 1961, the parenthetical identification for Hexylene glycol should read as follows: "(2-methyl-2,4-dihydroxypentane)".

Title 22—FOREIGN RELATIONS

Chapter I—Department of State

SUBCHAPTER B—PERSONNEL

[Departmental Reg. 108.476]

PART 11—APPOINTMENT OF FOREIGN SERVICE OFFICERS

Eligibility

Part 11 is revised by changing §§ 11.1 through 11.7 to read as follows:

§ 11.1 Eligibility for appointment as Foreign Service officer.

No person shall be eligible for appointment as a Foreign Service officer unless he shall have demonstrated his loyalty to the Government of the United States and his attachment to the principles of the Constitution. The religion, race and political affiliations of a candidate will not be considered in designations, examinations or certifications.

§ 11.2 Written examination for appointment to class 8.

(a) The written examination will be given annually or semi-annually, if required, in designated cities in the United States and at Foreign Service posts abroad on dates established by the Board of Examiners for the Foreign Service.

(b) No person will be permitted to take a written examination for appointment as Foreign Service officer who has not been specifically designated by the Board of Examiners to take that particular examination. Prior to each written examination the Board will establish a closing date for the receipt of applications for designation to take the examination. No person will be designated for the written examination a candidate, as of the first day of the month preceding the closing date for the filing of applications, shall have been a citizen of the United States for at least 9 years and shall be at least 21 but under 31 years of age, except that an applicant who has been awarded a Bachelor's degree by a college or university, or has completed successfully his junior year at a college or university, may qualify as to age if at least 20 but under 31 years of age.

(c) Foreign Service staff employees and Civil Service employees of the Department of State who are 31 years of age or more may apply if they are under 35 years of age and will have completed not less than 3 years of satisfactory service as of the closing date for receipt of applications.

(d) The written examination is designed to permit the Board to test the candidate's intelligence and the breadth and quality of his knowledge and understanding. It will consist of 4 parts: (1) A general ability test, (2) an English expression test, (3) a general background test, and (4) a test in a modern language (French, German, Russian, or Spanish).

(e) The several parts of the written examination, exclusive of the modern language test, will be weighted in accordance with the rules laid down by the Board of Examiners. The modern language test will be graded separately.

§ 11.3 Oral examination for appointment to class 8.

(a) The oral examination will be given throughout the year at Washington and periodically in selected cities in the United States and at selected Foreign Service posts abroad.

(b) A candidate who receives a grade of 70 or above on the modern language portion of the written examination will receive a bonus of 5 points to be added to the weighted average grade he receives on the first three parts of the written examination. If a candidate's weighted average grade on the first three parts of the written examination, with the addition of the aforementioned 5 bonus points (if he is entitled to them), is 70 or higher, he will be eligible to take the oral examination. Candidates eligible for the oral examination will be given an opportunity, and will be required, to take the oral examination within 9 months after the date of the written examination. If a candidate fails to present himself for the oral examination on an agreed date within the 9 month period, his candidacy will automatically terminate. Time spent on Government duty outside the United States will not be counted.

(c) The oral examination will be given by a panel of deputy examiners selected by the Board of Examiners from a roster of Foreign Service officers, officers from the Department of State and other Government agencies, and qualified private citizens who by prior service as members of selection boards or through other appropriate activities have demonstrated special qualifications for this work. The examination will be conducted in the light of all available information concerning the candidate and will be designed to determine his competence to perform the work of a Foreign Service officer at home and abroad, his potential for growth in the Service, and his suitability to serve as a representative of the United States abroad. Determinations of duly constituted panels of deputy examiners are final, unless modified by specific action of the Board of Examiners for the Foreign Service.

(d) Candidates appearing for the oral examination will be graded "recommended for class 8", "recommended for class 7", or "not recommended".

§ 11.4 Physical examination for appointment to class 8.

(a) A candidate graded "recommended" on the oral examination will be eligible for the physical examination.

(b) The physical examination will be designed to determine the candidate's physical fitness to perform the duties of a Foreign Service officer and to determine the presence of any physical, nervous or mental disease or defect of such a nature as to make it unlikely that he would become a satisfactory officer. The Executive Director of the Board of Examiners for the Foreign Service, with the concurrence of the Director, Medical Division, may make such exceptions to these physical requirements as are in the interest of the Service. All such exceptions shall be reported to the Board of Examiners for the Foreign Service at its next meeting.

(c) The physical examination will be conducted either by medical officers of the Armed Services, the Public Health Service, the Department, or accredited colleges and universities, or, with the approval of the Board of Examiners, by private physicians.

(d) The Board of Examiners will determine on the basis of the report of the physician(s) who conducted the physical examination whether the candidate has met the standards set forth in paragraph (b) in this section.

§ 11.5 Certification for appointment to class 8.

No person will be certified as eligible for appointment as a Foreign Service officer of class 8 unless he is at least 21 years of age, has been a citizen of the United States for at least 10 years, and, if married, is married to a citizen of the

United States. A person shall be certified as eligible for direct appointment to class 7 if in addition to meeting these specifications he is at least 25 years old and has a record of graduate training or employment which clearly demonstrates ability and special skills for which there is a need in the Foreign Service. Recommended candidates who meet these requirements, who pass their physical examinations, and who, on the basis of investigation are found to be loyal to the Government of the United States and personally suitable to represent it abroad, will have their names placed on the rank-order register for class 8 appointments or, if deemed appropriate by the Board of Examiners, in the light of their age and education or employment record, on the rank-order register for class 7 appointments and they will be certified for appointment, in accordance with the needs of the Service in the order of their standing on their respective registers. Postponement of entrance on duty for required active military service will be authorized. A candidate may be certified for appointment to class 7 or 8 without first having passed the written examination in a modern language, but his appointment will be subject to the condition that he may neither be promoted to a higher class nor be retained in the Service unless within a specified period of time, he passes either a written examination in French, German, Russian, or Spanish, or an oral examination in any modern foreign language acceptable to the Department.

§ 11.6 Termination of eligibility.

Candidates who have qualified and whose names have been sent to the President, but who have not been appointed because of lack of vacancies, will be dropped from the rank-order register 30 months after the date of the written examination: *Provided, however,* That time spent in required active military service subsequent to establishing eligibility for appointment will not be counted.

§ 11.7 Travel expenses of candidates.

The travel and other personal expenses of candidates incurred in connection with the written and oral examinations will not be borne by the Government, except that the Department may issue round trip invitational travel orders to bring candidates to Washington at Government expense when it is determined that it is necessary in ascertaining a candidate's qualifications and adaptability for appointment.

(Secs. 212, 302, and 516, 60 Stat. 1001 and 1008, as amended; 22 U.S.C. 827, 842, and 911)

Dated: January 10, 1962.

For the Secretary of State.

WILLIAM J. CROCKETT,
Assistant Secretary,
for Administration.

Title 41—PUBLIC CONTRACTS

Chapter 9—Atomic Energy Commission

PART 9-12—LABOR

Subpart 9-12.53 Workmen's Compensation Insurance

Part 9-12 is amended as follows:

Sec.
9-12.5300 Scope of subpart.
9-12.5301 Policies and requirements.
9-12.5301-1 General.
9-12.5301-2 Special requirements.
9-12.5301-3 Contractor employees' benefit plan—self insurers.
9-12.5302 Assignment of responsibilities.
9-12.5302-1 General.
9-12.5302-2 Responsibility of Managers of Field Offices.
9-12.5302-3 Responsibilities of the Director, Division of Labor Relations and Controller, Headquarters.

AUTHORITY: §§ 9-12.5300 to 9-12.5302-3 issued under sec. 161, 70 Stat. 1069; 42 U.S.C. 2201. Implement and supplement sec. 205, 63 Stat. 390; 40 U.S.C. 486.

Subpart 9-12.53—Workmen's Compensation Insurance

§ 9-12.5300 Scope of subpart.

This subpart establishes the policies and requirements applicable to AEC cost-type contractors managing, operating, maintaining, or constructing Government-owned facilities for insurance covering workmen's compensation and employers' liability. This subpart does not apply to supply contracts for materials, equipment, services, etc., which are to be performed in the contractor's own facilities, even though such contracts may provide for reimbursement of certain costs.

§ 9-12.5301 Policies and requirements.

§ 9-12.5301-1 General.

Workmen's compensation insurance protects employers against liability imposed by workmen's compensation laws for injury or death to employees arising out of or in the course of their employment. This type of insurance is required by State laws unless employers have acceptable programs of self-insurance.

§ 9-12.5301-2 Special requirements.

Certain workmen's compensation laws contain provisions which result in limiting the protection afforded persons subject to such laws. The policy of the AEC with respect to these limitations as they affect persons employed by cost-type contractors falling within the scope of this subpart is set forth below:

(a) *Elective provisions.* Some workmen's compensation laws permit an employer to elect not to be subject to its provisions. It is the policy of AEC to require cost-type contractors to be subject to workmen's compensation provisions in jurisdictions permitting election.

(b) *Statutory immunity.* Under the provisions of some workmen's compensation laws certain types of employers; e.g., non-profit educational institutions, are relieved from liability. If a contractor falling within any of these categories has a statutory option to accept liability it is the policy of AEC to require him to do so.

(c) *Limited medical benefits.* Some workmen's compensation laws limit the liability of the employer for medical care to a maximum dollar amount or to a specified period of time. In such cases, a cost-type contractor's workmen's compensation insurance policy should contain a standard extra-statutory medical coverage endorsement.

(d) *Limits on occupational disease coverage; employer's liability.* Some workmen's compensation laws do not provide coverage for all occupational diseases. In such situations, a contractor's workmen's compensation insurance policy should contain voluntary coverage for all occupational diseases.

§ 9-12.5301-3 Contractor employees' benefit plan—self insurers.

The policies and requirements set forth in § 9-12.5301-2 apply in situations where cost-type contractors at Government-owned atomic energy installations purchase workmen's compensation insurance. With respect to self-insured contractors, the objectives specified in that subsection shall also be met. Inasmuch as self-insurers cannot comply with the technical requirements of paragraphs (c) and (d) of § 9-12.5301-2, the AEC encourages the use of a contract supplement providing for a Contractor Employees' Benefit Plan. Under unusual or unique circumstances, where adequately justified, certain contractors who are not self-insurers may also be considered eligible for a Contractor Employees' Benefit Plan.

§ 9-12.5302 Assignment of responsibilities.

§ 9-12.5302-1 General.

Directors, Headquarters Divisions and Offices, and Managers of Field Offices consistent with their delegations of responsibilities, shall assure that AEC cost-type contract operations at Government-owned atomic energy installations are implemented consistent with the policies and requirements of § 9-12.5301.

§ 9-12.5302-2 Responsibility of Managers of Field Offices.

In discharging their assigned responsibilities Managers of Field Offices shall:

(a) Review periodically the workmen's compensation insurance programs of cost-type contractors to whom this subpart applies in the light of applicable workmen's compensation statutes to assure conformance with the requirements of § 9-12.5301.

(b) Evaluate the adequacy of coverage of "self-insured" workmen's compensation programs to determine the need for a Contractor Employees' Benefit Plan.

(c) Arrange for the establishment of procedures for both new and existing Contractor Employees' Benefit Plans which will:

(1) Permit informal agreement whenever possible between the contractor and an employee as to the origin and extent of disabilities and the amount of payments which will be made under the Benefit Plan, and

(2) Provide, in the case of failure of more informal methods, for an impartial determination of the origin and extent of disabilities and the appropriate payments to be made under a benefit plan.

(d) Submit to the Director, Division of Labor Relations, Headquarters, all proposals for the establishment of new Contractor Employees' Benefit Plans or the modification of existing Plans.

§ 9-12.5302-3 Responsibilities of the Director, Division of Labor Relations, and Controller, Headquarters.

The Director, Division of Labor Relations, and the Controller are responsible jointly for approving Contractor Employees' Benefit Plans.

These regulations are effective immediately upon publication.

Dated at Germantown, Md., this 9th day of January 1962.

For the Atomic Energy Commission.

A. R. LUEDECKE,
General Manager.

[F.R. Doc. 62-468; Filed, Jan. 16, 1962; 8:45 a.m.]

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 13852; FCC 62-66]

PART 3—RADIO BROADCAST SERVICES

Table of Assignments, Television Broadcast Stations; Augusta, Bangor, Calais and Presque Isle, Maine

1. The Commission has before it for consideration a Request for Reconsideration filed by the University of Maine (the University), and a Petition for Reconsideration filed by Community Telecasting Service (Community), licensee of WABI-TV, Bangor, Maine. These documents request reconsideration of the Report and Order adopted by the Commission on April 19, 1961, and released on April 24, 1961, in Docket No. 13852 (RM-102 and RM-183) wherein the television Table of Assignments contained in § 3.606 of the Commission's rules and regulations was amended by reserving for educational use Channel 10 in Augusta, Maine, and Channel 10 in Presque Isle, Maine, and by removing Channel 7 from Calais, Maine, and assigning it to Bangor, Maine. Community and the University do not request any change in the action of the Commission with regard to Augusta and Presque Isle, aiming their new pleadings solely at the action which transferred Channel 7 from Calais to Bangor. In the original rule making the University supported the reservation of Channel 7 in Calais for educational use, and Community, while supporting the position of the University, desired Channel 7 to remain in Calais for commercial use if not so reserved for education. In this connection, Community submitted an application for a construction permit for Channel 7 in Calais contingent on its not being reserved for educational use. The application was accepted for filing on March 22, 1961, and is now pending (BPCT-2860).

OTHER DOCUMENTS FILED AFTER ADOPTION OF THE REPORT AND ORDER

2. The University also filed a Request for Stay and a supplement thereto.[1] Community filed a Petition for Stay of the aforementioned Report and Order. In addition, both requested oral argument of the matter.[2] Leon P. Gorman filed the following pleadings: a letter opposing the requests for stay, an Opposition to Petitions for Stay, an Opposition to Request for Reconsideration, and a Petition To Accept Late Filing of Oppositions.[3] Responsive to some of the Gorman pleadings, the University filed a Statement Concerning "Opposition to Petitions for Stay" and a Reply to "Opposition to Request for Reconsideration."[4] On September 13, 1961, the University of Maine filed with the Commission a "Request for Waiver and Acceptance of Supplemental Comments" to which was attached a "Supplement to Request for Reconsideration."[5]

3. On October 3, 1961, Governor John H. Reed of Maine sent a telegram to the Chairman requesting that a final decision in this proceeding be held in abeyance until the conclusion of a special session of the Maine legislature which he planned to convene on November 27, 1961.[6] In response to a Public Notice issued by the Commission on October 5, 1961, inviting comments on the Governor's telegram, the following documents were timely[7] filed: "Statement of the University of Maine," "Further Comments of American Broadcasting Company," "Statement on Behalf of Dirigo Broadcasting, Inc.,"[8] "Comments of Downeast Television, Inc. in Opposition to Request for Delay,"[9] and "Request to Accept Late-Filed Material" (also filed by Downeast Television, Inc.).[10]

4. On December 4, 1961, the Commission received a telegram from the Governor of Maine stating that the special session of the Maine Legislature had enacted and that he had signed an act providing for construction of an Educational Television Network for the State of Maine and the issuance of not exceeding one million five hundred thousand dollars of State of Maine bonds for the financing thereof. It further stated that inasmuch as this is a bonding issue, it will be submitted to the electorate in a referendum election on June 18, 1962. The Governor then urged that in the light of this development the Commission reconsider its decision in this matter.[11]

DECISION OF THE COMMISSION

5. The Commission has given careful consideration to the record herein and is of the opinion that Channel 7 should remain in Calais but not be reserved for noncommercial educational use. There has been no request to reconsider our reservation for noncommercial educational use of Channel 10 in Augusta and Channel 10 in Presque Isle, and that portion of our previous decision stands.

REASONS FOR THE DECISION

6. Throughout this proceeding it has been clear that there is not only a need

[1] We did not consider the material appearing in the supplement because it contained no information not already within the purview of the Commission.

[2] We are of the opinion that the written documents filed in this proceeding supply an adequate picture of the various proposals and the conflicting points of view, and that oral argument is unnecessary. Accordingly we deny the requests for oral argument.

[3] The formal Gorman oppositions were not timely filed, both having been received by the Commission about a week late. The Petition To Accept Late Filing of Oppositions stated that the illness of counsel prevented timely preparation and filing. The petition is hereby granted although it is pointed out that the oppositions did not alter the decision of the Commission in this matter, since the record without the Gorman oppositions would have led us to the same result.

[4] Letters from Maine congressmen were also received and made part of the docket in addition to letters and petitions (consisting of lists of signatures) most of which came from the Calais area and which favored the reservation for educational use of Channel 7 in Calais.

[5] As a reason for the late filing, it is stated that the supplemental information was brought to the attention of the University since the filing of their "Request for Reconsideration." This new information consists of a statement that if Channel 7 were assigned to Calais and reserved for noncommercial educational use it would improve the chances of developing ETV in New Brunswick, Canada, and the chances for an interchange of ETV programs betwen Canada and the United States. The request for waiver and acceptance of supplemental comments is denied since the Commission gave consideration to the exchange of programs between Canada and the United States in the Report and Order herein and the supplemental comments contain no new material of decisional significance.

[6] The Governor stated that he would make a specific recommendation at such legislative session for appropriate funds to implement the proposed statewide educational television plan. (The legislature convened on Nov. 27, 1961.)

[7] A pleading of the University captioned "Reply of the University of Maine to Downeast Television, Inc., in Opposition to Request for Delay" was not timely and was therefore not given consideration.

[8] Dirigo and Downeast are applicants for construction permits for a new station on Channel 7 in Bangor. Each filed its application after the release of the Report and Order herein.

[9] Downeast filed comments in which it referred to an "attached statement" prepared by its consulting engineer, but because of an unavoidable delay in the mails, the statement was not available for timely filing with the comments which were filed on Friday, Oct. 20, 1961. It was filed, instead, on Monday, Oct. 23, 1961. Since parties are not prejudiced thereby and since sufficient cause was shown, Downeast's "Request to Accept Late-Filed Material" is granted.

[10] Since this telegram, at most, confirms predictions made in the Governor's earlier telegram, upon which opportunity to comment has been had, it has been associated with the file herein and considered by the Commission. However, attention is directed to paragraph 10 below.

for a third competitive service in Bangor, but for a first service, commercial as well as educational, in the Calais area. The problem has been to weigh the conflicting elements in the total picture and arrive at a solution that would most fully reflect the public interest. Many factors were considered, among which were the possibility of the earliest use of Channel 7, the problem of conversion, and methods for serving the Calais area if Channel 7 were removed from that city. The question was a close one.

7. Our decision in the Report and Order herein was predicated on the belief that a third service could be provided for Bangor while at the same time a satisfactory means could be found for furnishing an educational network service to the Calais area. One possibility of serving Calais was that of a UHF station at Calais. The record as supplemented by the petitions for reconsideration discloses that about 90 percent of the homes in that area have VHF television sets (even though it is a "white area" with regard to U.S.-originated programs) and that a serious conversion problem would exist which was not previously apparent. Although this in itself is not determinative, considered with other factors it weighs in the balance for reversal of our previous decision.

8. We stated in the Report and Order that the record led to the conclusion that the best chance for utilization of Channel 7 (which had been lying fallow at Calais since the Sixth Report and Order) in the foreseeable future lay in Bangor. This, coupled with other considerations, influenced our decision to remove the channel from Calais. Upon reconsideration it appears that, although prediction of such a matter is difficult, there is a substantial possibility that Channel 7 in Calais will be used in the not too distant future—if not by educators, then by a commercial group. Community, for example, has applied for the channel and emphasizes its firm intention to construct a commercial station.

9. In deciding that Channel 7 should be assigned to Calais without a noncommercial educational reservation, we are not deciding against the use of that channel for educational television. Such an assignment leaves the channel open for applications by both commercial and educational interests. Should both apply, the public interest question of commercial vs. educational use of the channel in that area may be fully explored in a comparative hearing. In view of the confusion which existed as to the ultimate status of Channel 7, action on applications for use of the channel in Calais will be deferred for a reasonable period of time.

10. Although we did not rule upon the Governor's request to hold this proceeding in abeyance until the conclusion of the special legislative session and the question is now moot, we find the arguments filed in opposition thereto persuasive. The same considerations are applicable to the present posture of the proceeding. The question of funds for educational television in Maine is still undetermined and must be submitted to the voters of the state six months hence. However, the proceeding has been lengthy, comprehensive and complete. All relevant data are in the record. There is a pressing need for administrative finality and orderly dispatch of the Commission's business. This is especially so since delay pending a referendum vote would serve no useful purpose, neither our original nor our present decision having been founded on the availability or nonavailability of funds. Thus, if any petitions were to be filed requesting further delay pending the outcome of the June, 1962, referendum, they would be denied.

ORDER

11. In view of the foregoing: *It is ordered*, That the request for reconsideration of the University of Maine is denied; that the petition for reconsideration of Community Telecasting Service is denied insofar as it requests that Channel 7 be reserved for noncommercial educational use in Calais and is granted insofar as it requests that Channel 7 be assigned to Calais without such a reservation; that the requests of both parties for oral argument are denied; that the request for stay of the University of Maine and the petition for stay of Community Telecasting Service are dismissed as moot; that the petition to accept late filing of oppositions, filed by Leon Gorman is granted; that the request for waiver and acceptance of supplemental comments filed by the University of Maine is denied; that the request to accept late-filed material of Downeast Television, Inc., is granted; that the request of the Governor of Maine asking that a decision herein be held in abeyance pending the conclusion of a special session of the Maine Legislature is dismissed as moot; and that the request of the Governor of Maine asking for reconsideration is denied.

12. *It is further ordered*, pursuant to the authority contained in sections 4 (i) and (j), 303, and 307(b) of the Communications Act of 1934, as amended, that effective February 26, 1962, the table of assignments contained in § 3.606 of the Commission's rules and regulations is amended, insofar as the communities named are concerned, to read as follows:

City:	*Channel No.*
Bangor, Maine	2−, 5+, *16−
Calais, Maine	7−, 20−

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U.S.C. 303)

Adopted: January 10, 1962.

Released: January 12, 1962.

FEDERAL COMMUNICATIONS COMMISSION,[11]

[SEAL] BEN F. WAPLE,
Acting Secretary.

[11] Dissenting statement of Commissioner Lee, and statements of partial dissent by Chairman Minow and Commissioners Hyde, Cross, and Craven, filed as part of original document.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 33—SPORT FISHING

Noxubee National Wildlife Refuge, Mississippi

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

MISSISSIPPI

NOXUBEE NATIONAL WILDLIFE REFUGE

Sport fishing on the Noxubee National Wildlife Refuge, Mississippi, is permitted only on the areas designated by signs as open to fishing. This open area, comprising 1,277 acres or 3 percent of the total area of the refuge, is delineated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Peachtree-Seventh Building, Atlanta 23, Georgia. Sport fishing is subject to the following conditions:

(a) Species permitted to be taken: Largemouth black bass, bream, crappie, catfish and other minor species permitted by State regulations.

(b) Open season: March 1, 1962, to October 31, 1962. Daylight hours only.

(c) Daily creel limits: Bass, 15; bream, 50; and crappie, 30.

Aggregate daily limit of all kinds shall not exceed 75 per day.

(d) Methods of fishing:

1. Pole and line, artificial baits and lures, trotlines, grappling in accordance with State regulations. Snaglines prohibited.

2. Boats and motors permitted.

(e) Other provisions:

1. The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33.

2. A daily permit ($.50) is required by the Mississippi State Game and Fish Commission to fish in Bluff Lake and tail waters of the big and little spillways.

3. No permit is required in Betts Pond and Keaton Tower Pond, Parker Slough and Pete Slough and that portion of Cypress Creek, Oktoc Creek and Noxubee River within the refuge not covered by (2) above.

4. A Federal permit is not required to enter the public fishing area.

5. The provisions of this special regulations are effective to November 1, 1962.

LOUISIANA

SABINE NATIONAL WILDLIFE REFUGE

Sport fishing on the Sabine National Wildlife Refuge, Louisiana, is permitted only on the areas designated by signs as open to fishing. This open area, comprising 40,000 acres or 28 percent of the total area of the refuge, is delineated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Peachtree-Seventh Building, Atlanta 23, Georgia. Sport fishing is subject to the following conditions:

(a) Species permitted to be taken: Black bass, yellow bass, white bass; crappie, sunfish and other minor species permitted by State regulations.

(b) Open season: March 15, 1962, through October 15, 1962. From 45 minutes before sunrise to 45 minutes after sunset.

(c) Daily creel limits: Black bass, 15; yellow bass, 25; white bass, 25; crappie, 25; and sunfish, 50.

Other creel limits for minor species are as prescribed for State regulations.

(d) Methods of fishing:

1. Rod and reel, pole and line, artificial and live baits permitted.

2. Boats with outboard motors no larger than 7½ h.p. permitted in refuge lakes and impoundments. No size restrictions on boats and motors in the canals and rivers.

(e) Other provisions:

1. The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33.

2. Boats may be left in the pool during fishing season but must bear the owner's name and address. Unmarked boats left in the pool will be removed to refuge headquarters. All boats must be removed from the refuge prior to the close of the fishing season.

3. Travel over the refuge is restricted to water ways.

4. A Federal permit is not required to enter the public fishing area.

5. The provisions of this special regulation are effective to October 16, 1962.

W. L. TOWNS,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

JANUARY 10, 1962.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Parts 907, 908]

[Docket Nos. AO-245-A5 and AO-250-A3]

HANDLING NAVEL AND VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Notice of Hearing With Respect to Proposed Amendments of the Marketing Agreements and Orders

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674), and in accordance with the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in Room 810, Federal Building, 312 North Spring Street, Los Angeles, California, beginning at 10:00 a.m., P.s.t., February 8, 1962, with respect to proposed amendments to the marketing agreements and orders regulating the handling of navel and Valencia oranges grown in Arizona and designated part of California. The proposed amendments have not received the approval of the Secretary of Agriculture.

The public hearing is for the purpose of receiving evidence with respect to the economic and marketing conditions relating to the proposed amendments, which are hereinafter set forth, and to any appropriate modifications thereof.

Proposed by Pure Gold, Inc., Western Fruit Growers Sales Company, and Sunkist Growers, Inc.:

Proposal No. 1. A. Add a new § 907.33 as follows:

§ 907.33 Research and development.

The committee, with the approval of the Secretary, may establish or provide for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of navel oranges, the expense of such projects to be paid from funds collected pursuant to this part.

§ 907.60 [Amendment]

B. Delete the proviso and all subsequent language in § 907.60 and substitute in lieu thereof the following: "Early maturity allotments issued to any handler may be used only during the week for which issued, and the undershipment of any such allotment shall not entitle such handler to handle an additional quantity of oranges due to such undershipment. Upon the reaching of general maturity, the quantity of oranges available for current shipment of any handler who failed to use all of the early maturity allotments issued to him shall be adjusted by deducting therefrom a quantity of oranges equivalent to the total quantity of his oranges for which early maturity allotments were issued but were not used. The committee shall, with the approval of the Secretary, adopt procedural rules and regulations to effectuate the provisions of this part. Early maturity allotments issued under this section shall be on a prorate district basis."

§ 907.4 [Amendment]

C. Revise the provisions of § 907.4 *Production area* to read as follows: "'Production area' means the State of Arizona and that part of the State of California south of a line drawn due east and west through the post office in Turlock, California."

§ 907.66 [Amendment]

D. Delete paragraphs (a), (b), (c), and (d) of § 907.66 *Prorate districts* and substitute in lieu thereof the following:

(a) District 1 shall include that part of the State of California which is south of a line drawn due east and west through the post office in Turlock, California, and north of a line drawn due east and west through the post office in Oildale, California, but excluding San Luis Obispo County.

(b) District 2 shall include that part of the State of California which is south of a line drawn due east and west through the post office in Gorman, California, but including all of San Luis Obispo and Santa Barbara Counties, and west of a line drawn due north and south through the post office in White Water, California.

(c) District 3 shall include the State of Arizona and that part of the production area not included in Districts 1, 2, and 4.

(d) District 4 shall include that part of the State of California which is south of District 1 and north and east of District 2, but shall exclude that part of San Bernardino County located east of the 115th Meridian.

§ 907.31 [Amendment]

E. Delete the amount of $10 wherever it appears in § 907.31 and substitute in lieu thereof the amount $15.

§ 907.20 [Amendment]

F. Delete from § 907.20 the words "who shall not be handlers, or employees of handlers, or employees of central marketing organizations."

G. Revise the provisions of § 907.67 by adding immediately before the last sentence the following: "The exception provided in this section shall apply only if oranges are handled directly for the purposes specified in paragraphs (a) to (e) of this section by the initial handler thereof."

Proposal No. 2. A. Add a new § 908.33 as follows:

§ 908.33 Research and development.

The committee, with the approval of the Secretary, may establish or provide for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and comsumption of Valencia oranges, the expense of such projects to be paid from funds collected pursuant to this part.

§ 908.60 [Amendment]

B. Delete the proviso and all subsequent language in § 908.60 and substitute in lieu thereof the following: "Early maturity allotments issued to any handler may be used only during the week for which issued and the undershipment of any such allotment shall not entitle such handler to handle an additional quantity of oranges due to such undershipment. Upon the reaching of general maturity, the quantity of oranges available for current shipment of any handler who failed to use all of the early maturity allotments issued to him shall be adjusted by deducting therefrom a quantity of oranges equivalent to the total quantity of his oranges for which early maturity allotments were issued but were not used. The committee shall, with the approval of the Secretary, adopt procedural rules and regulations to effectuate the provisions of this part. Early maturity allotments issued under this section shall be on a prorate district basis."

§ 908.4 [Amendment]

C. Revise the provisions of § 908.4 *Production area* to read as follows: "'Production area' means the State of Arizona and that part of the State of California south of a line drawn due east and west through the post office in Turlock, California."

§ 908.66 [Amendment]

D. Delete paragraphs (a), (b), and (c) of § 908.66 *Prorate districts* and substitute in lieu thereof the following:

(a) District 1 shall include that part of the State of California which is south of a line drawn due east and west through the post office in Turlock, California, and north of a line drawn due east and west through the post office in Gorman, California, but excluding San Luis Obispo and Santa Barbara Counties, and that part of San Bernardino County located east of the 115th Meridian.

(b) District 2 shall include that part of the State of California which is south and west of District 1 and west of a line drawn due north and south through the post office in White Water, California.

(c) District 3 shall include the State of Arizona and that part of the production area not included in Districts 1 and 2.

§ 908.31 [Amendment]

E. Delete the amount $10 wherever it appears in § 908.31 and substitute in lieu thereof the amount $15.

§ 908.20 [Amendment]

F. Delete from § 908.20 the words "who shall not be handlers, or employees of handlers, or employees of central marketing organizations."

§ 908.67 [Amendment]

G. Revise the provisions of § 908.67 by adding immediately before the last sentence the following: "The exemption provided in this section shall apply only if oranges are handled directly for the purposes specified in paragraphs (a) to (e) of this section by the initial handler thereof."

Proposed by the Fruit and Vegetable Division, Agricultural Marketing Service:

§ 907.83 [Amendment]

Proposal No. 3. A. That paragraph (c)(3) of § 907.83 be amended to read as follows: "Upon recommendation of the committee, received not later than January 15 of each odd-numbered year, the Secretary shall conduct a referendum prior to March 15 of such year to ascertain whether continuance of this part is favored by the producers."

§ 908.83 [Amendment]

B. That paragraph (c)(3) of § 908.83 be amended to read as follows: "Upon recommendation of the committee, received not later than August 15 of each even-numbered year, the Secretary shall conduct a referendum prior to October 15 of such year to ascertain whether continuance of this part is favored by the producers."

That consideration be given to make such changes in the marketing agreements and orders as may be necessary to make the entire marketing agreements and orders conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing may be obtained from the Office of the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington 25, D.C., or the Field Representative, Fruit and Vegetable Division, Agricultural Marketing Service, 1031 South Broadway, Room 1005, Los Angeles 15, California.

Dated: January 12, 1962.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 62-514; Filed, Jan. 16, 1962; 8:51 a.m.]

[7 CFR Part 910]

[Docket No. AO 144-A10]

HANDLING OF LEMONS GROWN IN CALIFORNIA AND ARIZONA

Notice of Hearing with Respect to Proposed Amendments to the Amended Marketing Agreement and Order

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674) and in accordance with the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders, as amended (7 CFR Part 900), notice is hereby given of a public hearing to be held in Room 810, Federal Building, 312 North Spring Street, Los Angeles, California, beginning at 10 a.m., P.s.t., February 9, 1962, with respect to proposed further amendments to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), hereinafter referred to as the "marketing agreement" and "order," respectively, regulating the handling of lemons grown in California and Arizona. The proposed amendments have not received the approval of the Secretary of Agriculture.

The public hearing is for the purpose of receiving evidence with respect to the economic and marketing conditions relating to the proposed amendments, which are hereinafter set forth, and appropriate modifications thereof.

The following amendments to the marketing agreement and order, which have been proposed by the Pure Gold, Inc., Western Fruit Growers Sales Co., and Sunkist Growers, Inc., are as follows:

1. Add a new § 910.33 as follows:

§ 910.33 Research and development.

The committee, with the approval of the Secretary, may establish or provide for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of lemons, the expenses of such projects to be paid from funds collected pursuant to this part.

§ 910.12 [Amendment]

2. Delete the provisions of § 910.12(b) and substitute in lieu thereof the following:

(b) With respect to District 2, the total quantity of lemons which, in accordance with standards prescribed by the committee with the approval of the Secretary, potentially are marketable as fresh fruit under applicable laws and which were delivered to the handlers in such district during the preceding 20-week period.

3. Delete the words "ten percent" wherever they appear in § 910.57 and substitute in lieu thereof the words "twenty percent."

§ 910.15 [Amendment]

4. Delete the provisions of § 910.15 *Production area* and substitute in lieu thereof the following: "'Production area' means the State of Arizona and that part of the State of California south of a line drawn due east and west through the post office in Turlock, California."

§ 910.64 [Amendment]

5. Delete paragraphs (a) and (b) of § 910.64 *Districts* and substitute in lieu thereof the following:

(a) "District 1" shall include that part of the State of California which is south of a line drawn due east and west through the post office in Turlock, California, and north of a line drawn due east and west through the post office in Gorman, California, but excluding San Luis Obispo and Santa Barbara Counties and that part of San Bernardino County located east of the 115th Meridian.

(b) "District 2" shall include that part of the State of California which is south and west of District 1, and west of a line drawn due north and south through the post office in White Water, California.

§ 910.29 [Amendment]

6. Delete the amount "$10" wherever it appears in § 910.29 and substitute the amount "$15."

7. Add a new § 910.61a as follows:

§ 910.61a Early availability allotments.

Notwithstanding the provisions of § 910.56 the committee may, prior to the reaching of general availability in Prorate District 3, issue special allotments for the handling of lemons of early availability. Handlers controlling lemons of early availability in Prorate District 3 may apply to the committee for such allotments on forms prescribed by the committee and shall furnish to the committee such information as it may require. On the basis of all available information and after consideration of all of the factors enumerated in § 910.51(b) the committee shall determine the extent to which early availability allotment shall be granted. Total early availability allotments approved by the committee for this prorate district shall be distributed to all handlers who qualify therefor in proportion to the quantity requested by each handler in his application: *Provided however*, That early availability allotments issued to any handler prior to the reaching of general availability shall not permit the handling of a larger share of the lemons available for current shipment controlled by such handler than the share of lemons available for current shipment in this prorate district estimated to be allotted to all handlers in the utilization schedule established by the committee at the beginning of the season. Early availability allotments may be loaned only to handlers to whom early availability allotments have been granted. Upon the reaching of general availability, allotments issued for early availability lemons shall be offset or repaid by reducing the lemons available for current shipment of each handler who has received early availability allotments by the quantity of lemons for which early availability allotments were issued to him. The committee shall, with the approval of the Secretary, adopt the procedural rules and regulations to effectuate the provisions of this part.

§ 910.51 [Amendment]

8. Delete paragraph (c) of § 910.51 and substitute in lieu thereof the following:

(c) At any time during a week for which the Secretary, pursuant to § 910.52, has fixed the quantity of lemons which may be handled during such week, the committee may, if such

action is deemed advisable, recommend to the Secretary that such quantity be increased for such week. Any such recommendation, together with the committee's reasons for such recommendation, shall be submitted promptly to the Secretary.

§ 910.22 [Amendment]

9. Add the following at the end of § 910.22(d): "At least one of the nominees for member or alternate member shall be a grower from District 3."

§ 910.23 [Amendment]

10. Amend the provisions of § 910.23 by deleting therefrom the last two sentences of the section and substituting in lieu thereof the following: "From the nominations made pursuant to § 910.22 (d) or from other qualified growers and handlers, the Secretary shall select two grower members of the committee and an alternate to such grower members; also one handler member of the committee and an alternate to such handler member. At least one of the growers so selected shall be a grower of lemons in District 3. From the nominations made pursuant to § 910.22(f) or from other qualified persons, the Secretary shall select one member of the committee and an alternate to such member."

The Fruit and Vegetable Division, Agricultural Marketing Service, has proposed that consideration be given to making such other changes in the marketing agreement and order as may be necessary to make the entire marketing agreement and order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing may be obtained from the Office of the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington 25, D.C., or the Field Representative, Fruit and Vegetable Division, Agricultural Marketing Service, 1031 South Broadway, Room 1065, Los Angeles 15, California.

Dated: January 12, 1962.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 62-513; Filed, Jan. 16, 1962; 8:51 a.m.]

FEDERAL AVIATION AGENCY

[14 CFR Part 601]

[Airspace Docket No. 61-WA-180]

CONTROLLED AIRSPACE

Proposed Alteration of Control Area Extensions

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering amendments to §§ 601.1138 and 601.1013 of the regulations of the Administrator, the substance of which is stated below.

On January 11, 1962, new aircraft holding pattern procedures were implemented within the continental limits of the United States and in areas beyond such limits where adequate controlled airspace was currently established. Procedures requiring the designation of additional controlled airspace beyond the continental limits will be implemented upon completion of the processing of appropriate amendments to the Regulations of the Administrator. These procedures were developed to accommodate the increasing variety of aircraft speeds and operating altitudes in the IFR environment and provide for the containment of aircraft holding maneuvers within the holding pattern areas designed for such operation. However, a number of these holding pattern areas require the designation of additional controlled airspace to encompass the increased dimensions of such areas. The pilot then need only adhere to the standardized operating procedures and limitations for his type aircraft to remain within controlled airspace.

To fulfill additional controlled airspace requirements for the implementation of these procedures in the Miami, Fla., Air Route Traffic Control Center area, the Federal Aviation Agency is considering the following airspace actions:

1. The Orlando, Fla., control area extension (§ 601.1138) would be altered to add that airspace northwest of Orlando, bounded on the northwest by VOR Federal airway No. 97 east alternate, on the east by VOR Federal airway No. 35 west alternate and on the southwest by VOR Federal airway No. 97, excluding the portion below 2,000 feet MSL. This would provide additional controlled airspace for the protection of aircraft in holding patterns at Shrimp, Fla., Intersection (intersection of the Cross City, Fla., VOR 185° and the St. Petersburg, Fla., VORTAC 335° True radials) and Scallop, Fla., Intersection (intersection of the Cross City, VOR 207° and the St. Petersburg VORTAC 335° True radials).

2. The Fort Myers, Fla., control area extension (§ 601.1013) would be redesignated as that area bounded on the northeast by VOR Federal airway No. 35, on the east by VOR Federal airway No. 225 and on the west by Tampa, Fla., control area extension (§ 601.1228), excluding the portion of this control area extension below 2,000 feet MSL and excluding the portion above 20,000 feet MSL south of the Miami, Fla., control area extension (§ 601.1230). This would provide additional controlled airspace for the protection of aircraft in holding patterns at Marco, Fla., Intersection (intersection of a 091° True bearing to the Miami, Fla., RBN and a 171° True bearing to the Key West, Fla., radio range) Cape Romano, Fla., Intersection (intersection of the Fort Myers, Fla., VOR 177° and the Miami, Fla., VORTAC 269° True radials) and the Fort Myers VOR. The presently designated portion of the Fort Myers Control Area Extension that is not included in the proposal would be revoked since this area is designated as control area associated with VOR Federal airways.

Because of the time limitations imposed by the effective date of the revised holding pattern procedures, implementation of the provisions of Amendment 60-21 to the Civil Air Regulations, Part 60, Air Traffic Rules is being deferred in this instance. Upon completion of the review of controlled airspace requirements attendant to these provisions, separate airspace action will be initiated to convert these control area extensions to transition areas with appropriate controlled airspace floor assignments.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Assistant Administrator, Southern Region, ATTN: Chief, Air Traffic Division, Federal Aviation Agency, 52 Fairlie St., Atlanta 3, Georgia. All communications received within thirty days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Airspace Utilization Division, Federal Air Traffic Division Chief, or the Chief, Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Service Division Chief.

This amendment is proposed under sections 307(a) and 1110, 72 Stat. 749 and 800; 49 U.S.C. 1348 and 1510, and Executive Order 10854, 24 F.R. 9565.

Issued in Washington, D.C., on January 12, 1962.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

[F.R. Doc. 62-496; Filed, Jan. 16, 1962; 8:47 a.m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 2]

[Docket No. 14486; FCC 62-49]

AUTHORIZATION PRACTICES WITH RESPECT TO THE RADIONAVIGATION SERVICE IN CERTAIN BANDS

Notice of Proposed Rule Making

1. Notice is hereby given of proposed rule-making in the above entitled matter.

2. This proceeding is being instituted by the Commission in order to reflect accurately existing operations or policies in the bands 90–110 kc/s, 200–415 kc/s and 1800–2000 kc/s which are allocated nationally to the Radionavigation Service. Radionavigation aids are normally operated by the United States Government, however, this service may require the operation of non-Government radionavigation stations which the Government is not yet prepared to furnish. Existing footnote US18 authorizes such non-Government radionavigation aid stations to operate in the band 200–415 kc/s subject to certain limitations.

3. It is the purpose of this proposal to extend the scope of footnote US18 to include the frequency bands 90–110 kc/s and 1800–2000 kc/s and thus reflect the actual availability of these bands to non-Government radionavigation aid stations.

4. This proposal will not involve, nor would it adversely affect, any stations operating in any service other than radionavigation.

5. The proposed amendment to the rules, as set forth below is issued pursuant to the authority contained in sections 303 (c), (f) and (r) of the Communications Act of 1934, as amended.

6. Pursuant to applicable procedures set out in § 1.213 of the Commission's rules, interested parties may file comments on or before March 1, 1962, and comments in reply to the original comments may be filed on or before March 12, 1962. The Commission will consider all such comments and such other material and information as may be deemed necessary and relevant prior to taking final action in this matter.

7. In accordance with the provisions of § 1.54 of the Commission's rules, the original and 14 copies of all statements, briefs or comments shall be furnished the Commission.

Adopted: January 10, 1962.

Released: January 12, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

§ 2.106 [Amendment]

Footnote US18 to § 2.106 of the Commission's rules and regulations is amended to read as follows:

US18 Navigation aids in the U.S. and possessions between 90 and 110 kc/s, 200 and 415 kc/s, and 1800 and 2000 kc/s, are normally operated by the U.S. Government. However, authorizations may be made by the Commission for non-Government operation in these bands subject to the conclusion of appropriate arrangements between the Commission and the Government agencies concerned and upon special showing of need for service which the Government is not yet prepared to render.

NEW MEXICO

Amended Notice of Proposed Withdrawal and Reservation of Lands and Notice of Termination of Proposed Withdrawal and Reservation of Lands

JANUARY 8, 1962.

The Bureau of Reclamation has filed an application, Serial Number NM 094367 for the withdrawal of the lands described below, from all forms of appropriation including general mining but not the mineral leasing laws. The applicant desires the land for the Navajo Unit, Colorado River Storage Project.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, P.O. Box 1251, Santa Fe, New Mexico.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

[Redelegation of Authority 7]

CERTAIN AID OFFICIALS

Delegation of Authority Regarding Foreign Excess Property

Pursuant to the authority vested in me by Delegation of Authority No. 104 from the Secretary of State, I hereby delegate to each AID Mission Director, AID Representative, or AID Liaison Officer, the authority to make the determination required under section 607 of the Foreign Assistance Act of 1961 to permit the furnishing of foreign excess property in an amount not to exceed $50,000 of original acquisition cost in any fiscal year, provided that: (1) Such property is available in the country for which the person making the determination is the AID Mission Director, AID Representative, or AID Liaison Officer, and (2) transfers pursuant hereto are made only to the government of the country in which such person is the AID Mission Director, AID Representative, or AID Liaison Officer. Determinations made pursuant to this authority shall be made in accordance with prescribed procedures approved by the Assistant Administrator for Materials Resources.

FOWLER HAMILTON,
Administrator of Agency for International Development.

Office of the Secretary

TENNESSEE

Designation of Areas for Emergency Loans

For the purpose of making emergency loans pursuant to section 321(a) of Public Law 87-128 (7 U.S.C. 1961) it has been determined that in the following counties in the State of Tennessee natural disasters have caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources:

TENNESSEE

Franklin.	Giles.	Lincoln.

Pursuant to the authority set forth above, emergency loans will not be made in the above-named counties after June 30, 1962, except to applicants who previously received emergency or special livestock loan assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 11th day of January 1962.

ORVILLE L. FREEMAN,
Secretary.

DEPARTMENT OF COMMERCE

Maritime Administration

AMERICAN PRESIDENT LINES, LTD.

Notice of Application

Notice is hereby given that American President Lines, Ltd., has filed an application for a modification of a waiver previously granted under section 804 of the Merchant Marine Act, 1936, as amended, whereby Signal Oil and Gas Company, an affiliate of American President Lines, Ltd., or any Division or Subsidiary of Signal Oil and Gas Company, was permitted to operate or charter foreign-flag tanker vessels for world-wide carriage of petroleum and its products, so as to permit Signal Oil and Gas Company additionally, directly or through subsidiary or affiliated corporations, from time to time to construct or to take under long-term charter (up to 20 years or more in term) not more at any time than 5 tankers of foreign registry and each of 20,000-65,000 tons capacity, for use in world-wide carriage of petroleum and petroleum products.

Any person, firm or corporation having an interest in such application who desires to offer views and comments thereon for consideration by the Maritime Administrator should submit the same in writing, in triplicate, to the Secretary, Maritime Administration, Washington 25, D.C., by close of business on January 25, 1962. The Maritime Administrator will consider these views and comments and take such action with respect thereto as may be deemed appropriate.

Dated: January 15, 1962.

By Order of the Maritime Administrator.

JAMES S. DAWSON, Jr.,
Secretary.

FEDERAL MARITIME COMMISSION

ASSOCIATED STEAMSHIP LINES (MANILA) CONFERENCE

Notice of Agreements Filed for Approval

Notice is hereby given that the following described agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916 (39 Stat. 733, 75 Stat. 763; 46 U.S.C. 814):

Agreements 5600-20 and 5600-21, between the member lines of the Associated Steamship Lines (Manila) Conference, modify, as indicated below, the basic agreement of that conference which covers the trade from ports in the Philippine Islands direct to, or with transshipment at or via ports in Ceylon, India, Pakistan, Malaya, East Indies, Indo-China, Burma, Siam, Hong Kong, China, Korea, Japan, Siberia, United States of America, Canada, Cuba, Mexico, Central America, Canal Zone, South America, Caribbean Sea ports, the West Indies, Australia and New Zealand.

Agreement 5600-20, adds a new paragraph to the conference By-Laws to provide that during the absence abroad of any member of the Management Committee, the two remaining members may select the representative of another member line as a substitute to serve on the Committee only for the duration of such temporary absence.

Agreement 5600-21 modifies the basic conference agreement to provide for a new method of appointment of arbitrators for handling of disputes between member lines under the present arbitration provision.

Interested parties may inspect these agreements and obtain copies thereof at the Bureau of Foreign Regulation, Federal Maritime Commission, Washington, D.C., and may submit within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to either of these agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearings be desired.

By order of the Federal Maritime Commission.

Dated: January 11, 1962.

THOMAS LISI,
Secretary.

[List No. 31]

STANDARD BROADCAST APPLICATION READY AND AVAILABLE FOR PROCESSING

JANUARY 12, 1962.

In accordance with Commission action of January 10, 1962, granting a waiver of § 1.354(c) of the Commission rules permitting the below-described application to be placed at the top of the processing line, notice is hereby given that on February 19, 1962, the following application:

BP-15298 New, Tawas City-East Tawas, Mich.
Superior Broadcasting Co.
Req: 1480 kc, 1 kw, DA, Day.
(Requests the facility of Station WIOS.)

will be considered as ready and available for processing, and that pursuant to § 1.106(b)(1) and § 1.361(c) of the Com-

mission rules, an application, in order to be considered with this application or with any other application on file by the close of business on February 16, 1962, which involves a conflict necessitating a hearing with this application, must be substantially complete and tendered for filing at the offices of the Commission in Washington, D.C. by whichever date is earlier: (a) the close of business on February 16, 1962, or (b) the earlier effective cut-off date which this application or any other conflicting application may have by virtue of conflicts necessitating a hearing with applications appearing on previous lists.

The attention of any party in interest desiring to file pleadings concerning any pending standard broadcast application pursuant to section 309(d)(1) of the Communications Act of 1934, as amended, is directed to § 1.359(i) of the Commission rules for provisions governing the time of filing and other requirements relating to such pleadings.

Adopted: January 10, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

FEDERAL POWER COMMISSION

[Docket No. CP62-114]

EL PASO NATURAL GAS CO.

Notice of Application and Date of Hearing

JANUARY 9, 1962.

Take notice that on November 3, 1961, El Paso Natural Gas Company (Applicant), P.O. Box 1492, El Paso, Texas, filed in Docket No. CP62-114 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale and delivery of an additional 100,000 Mcf of natural gas per day to Pacific Gas and Electric Company (PG&E) on a best efforts basis for the limited term commencing December 1, 1961, and extending through April 30, 1962, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant seeks authority, during the limited term commencing December 1, 1961, and extending through April 30, 1962, to sell and deliver up to 100,000 Mcf of natural gas per day to PG&E on an interruptible and best efforts basis, at the existing delivery point to PG&E located near Topock, Arizona. Said quantities of gas to be provided are in addition to the presently certificated quantities of gas delivered by Applicant to PG&E and are to be provided from Applicant's existing sources of gas supply by use of its certificated pipeline facilities only after meeting its other customer requirements throughout its pipeline system.

No additional pipeline facilities are proposed by Applicant to render the subject service.

The proposed service would be rendered by Applicant in accordance with a service agreement between Applicant and PG&E dated October 12, 1961, and at rates contained in Applicant's FPC Gas Rate Schedule G-X-1 on file with the Commission as a part of its FPC Gas Tariff, Original Volume No. 1.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on February 8, 1962 at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 31, 1962. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 62-479; Filed, Jan. 16, 1962; 8:46 a.m.]

[Docket Nos. RI62-287—RI62-292]

HUMBLE OIL & REFINING CO. ET AL.

Order Providing for Hearings On and Suspension of Proposed Changes in Rates [1]

JANUARY 10, 1962.

Humble Oil & Refining Co. (Operator), et al., Docket No. RI62-287; Amerada Petroleum Corp. (Operator), et al., Docket No. RI62-288; Amerada Petroleum Corp., Docket No. RI62-289; Redfern Oil Co., Docket No. RI62-290; Herd Oil and Gas Co., Docket No. RI62-291; Sinclair Oil & Gas Co., Docket No. RI62-292.

The above-named respondents have tendered for filing proposed changes in presently effective rate schedules for sales of natural gas subject to the jurisdiction of the Commission. The proposed changes are designated as follows:

Docket No.	Respondent	Rate schedule No.	Supplement No.	Purchaser and producing area	Amount of annual increase	Date filing tendered	Effective date unless suspended	Date suspended until	Cents per Mcf: Rate in effect	Cents per Mcf: Proposed increased rate	Rate in effect subject to refund in docket Nos.
RI62-287	Humble Oil & Refining Co. (Operator) et al., P.O.Box 2180, Houston 1, Tex.	127	1	Texas Gas Transmission Corp. (East Lake Palourde Field, St. Martin Parish, south Louisiana).	$58,716	12-15-61	1-15-62	6-15-62	[2] 21.75	[3] 23.75	.....
RI62-288	Amerada Petroleum Corp. (Operator) et al., P.O. Box 2040, Tulsa 2, Okla.	11	8	Texas Gas Transmission Corp. (South Lewisburg Field, Acadia Parish, south Louisiana).	12,173	12-15-61	1-15-62	6-15-62	[4] 18.875	[5] 23.25	.....
		13	8	Texas Gas Transmission Corp. (South Lewisburg Field, Acadia and St. Landry Parishes, south Louisiana).	13,612	12-15-61	1-15-62	6-15-62	[4] 18.875	[5] 23.25	G-17539
RI62-289	Amerada Petroleum Corp.	9	7	do	4,628	12-15-61	1-15-62	6-15-62	[4] 20.811	[5] 23.25	G-17538
RI62-290	Refern OilCo., P.O.Box 1747, Midland, Tex.	1	4	El Paso Natural Gas Co. (Denton plant, Lea County, N. Mex.).	1,657	12-18-61	1-18-62	6-18-62	[6] 13.9536	[7] 17.0816	G-18770
RI-62-291	Herd Oil and Gas Co., P.O. Box 1747, Midland, Tex.	1	4	do	1,092	12-18-61	1-18-62	6-18-62	[6] 13.9536	[7] 17.0816	G-18769
RI62-292	Sinclair Oil & Gas Co., P.O. Box 521, Tulsa 2, Okla.	169	1	Northern Natural Gas Co. (Hugoton Field, Finney County, Kans.).	(9)	12-11-61	1-11-62	6-11-62	[10] 12.0	[11] 12.0	.....

[1] The stated effective date is the first day after expiration of the required statutory notice or, if later, the date requested by respondent.
[2] The pressure base is 15.025 psia.
[3] The pressure base is 14.65 psia.
[4] Periodic increase by contract.
[5] Favored-Nation increase.
[6] Includes tax reimbursement of 1.75 cents per Mcf.
[7] Includes tax reimbursement of 2.3 cents per Mcf.
[8] Includes tax reimbursement of 1.875 cents per Mcf.
[9] Annual amount of increase due to imposition of a floor of 11.0 cents per Mcf on the downward BTU adjustment is approximately $410.
[10] Effective rate is reduced by heating value deficiency to 9.701052 cents per Mcf.
[11] Renegotiated increase.
[12] Effective rate is reduced by heating value deficiency to 11.0 cents per Mcf (amounting to increase of 1.296948 cents per Mcf).

[1] This order does not provide for the consolidation for hearing or disposition of the several matters covered herein, nor should it be so construed.

The proposed increased rates, except that proposed by Sinclair Oil & Gas Company, exceed the applicable area price levels set forth in the Commission's Statement of General Policy No. 61-1, as amended (18 CFR Ch. I, Part 2, § 2.56). The increased rate proposed by Sinclair Oil & Gas Company, may result in the sale of less than pipeline quality gas at the area price level for pipeline quality gas.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearings concerning the lawfulness of the several proposed changes and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), public hearings shall be held upon dates to be fixed by notice from the Secretary concerning the lawfulness of the several proposed increased rates and charges contained in the above-designated supplements.

(B) Pending hearings and decisions thereon, the above-designated rate supplements are hereby suspended and the use thereof deferred until the date indicated in the above "Date Suspended Until" column, and thereafter until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until these proceedings have been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington 25 D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37) on or before February 22, 1962.

By the Commission.

GORDON M. GRANT,
Acting Secretary.

[F.R. Doc. 62-480; Filed, Jan. 16, 1962; 8:46 a.m.]

[Docket No. CP62-137]

LAKE SHORE PIPE LINE CO.

Notice of Application and Date of Hearing

JANUARY 9, 1962.

Take notice that on December 1, 1961, Lake Shore Pipe Line Company (Applicant), 1717 East Ninth Street, Cleveland 14, Ohio, filed in Docket No. CP62-137 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of field facilities to enable Applicant to take into its certificated main pipeline system natural gas which will be purchased from producers thereof from time to time during the twelve-month period commencing on the date on which the order in this docket issues, at a total cost not to exceed $250,000, with no single project to exceed a cost of $50,000, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The purpose of this "budget-type" application is to augment applicant's ability to act with reasonable dispatch in contracting for and connecting to its pipeline system new supplies of natural gas in various producing areas generally coextensive with said system.

The proposed facilities will be financed by cash on hand or short-term bank loans.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on February 8, 1962 at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 29, 1962. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

JOSEPH H. GUTRIDE,
Secretary.

[Project No. 675]

UTAH POWER AND LIGHT CO.

Notice of Application for Surrender of License

JANUARY 9, 1962.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U.S.C. 791a-825r) by Utah Power and Light Company, of Salt Lake City, Utah (correspondence to Leighton and Sherline, 910 Seventeenth Street NW., Washington 6, D.C.,), licensee for Project No. 675, situated in Utah County, Utah, and affecting lands of the United States within Wasatch National Forest (now known as Uinta National Forest).

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day upon which protests or petitions may be filed is February 26, 1962. The application is on file with the Commission for public inspection.

JOSEPH H. GUTRIDE,
Secretary.

FEDERAL TRADE COMMISSION

CERTAIN OFFICIALS

Delegation of Functions

Pursuant to the authority provided by Reorganization Plan No. 4 of 1961, the Federal Trade Commission on January 9, 1962, made the following Delegations of Authority:

(1) *In re: Motions, requests, and interlocutory appeals.* The Commission delegates to an individual Commissioner to be designated by the Chairman the authority to consider and determine all motions, requests, and interlocutory appeals to the Commission filed under the Commission's rules of practice, other than those motions, requests, and interlocutory appeals concerning the merits of a proceeding, and to have prepared and issued in the name of the Commission orders disposing of such motions, requests, and interlocutory appeals.

(2) *In re: Closing of docketed investigational files.* The Commission delegates to the Director and Assistant Director, Bureau of Restraint of Trade; the Director and Assistant Director, Bureau of Deceptive Practices; and the Director and Assistant Director, Bureau of Textiles and Furs, severally and without power of redelegation, the authority to close docketed investigational files, except those involving alleged false advertising of food, drugs, devices or cosmetics which are inherently dangerous, the sale of fabrics and wearing apparel which are so highly flammable as to be dangerous, the suppression or restraint of competition through conspiracy or discriminatory or monopolistic practices, or violation of section 7 of the Clayton Act: *Provided, however,* That such closing shall not be effective until the files shall have been transmitted to the Secretary and he shall have advised the Commission of the direction to close and no one member, within five working days thereafter, shall have objected to the closing. If upon the expiration of such five-day period no Commissioner shall have objected, the Secretary shall enter upon the records of the Commission the closing of the matter and take such other action as the closing requires.

(3) *In re: Extensions of time prescribed for compliance with demands for access, subpoenas, or orders issued during investigation of any matter.* The

Commission delegates to the Director and Assistant Director, Bureau of Restraint of Trade; the Director and Assistant Director, Bureau of Deceptive Practices; the Director and Assistant Director, Bureau of Textiles and Furs; and the Director and Assistant Director, Bureau of Economics, severally and without power of redelegation, the authority, for good cause shown, to extend the time prescribed for compliance with demands for access, subpoenas, or orders issued during the investigation of any matter.

(4) *In re: Extensions of time for filing reports of compliance.* The Commission delegates to the Director and Assistant Director, Bureau of Restraint of Trade; the Director and Assistant Director, Bureau of Deceptive Practices; and the Director and Assistant Director, Bureau of Textiles and Furs, severally and without power of redelegation, the authority, for good cause shown, to extend the time prescribed in § 4.28 of the Commission's rules of practice, or in any order, within which reports of compliance with orders to cease and desist may be filed.

(5) *In re: Initiation of investigations.* The Commission delegates to the Director and Assistant Director, Bureau of Restraint of Trade; the Director and Assistant Director, Bureau of Deceptive Practices; and the Director and Assistant Director, Bureau of Textiles and Furs, severally and without power of redelegation, the authority to initiate investigations of alleged or suspected violations of any law, or provision thereof, which the Commission is empowered or directed to enforce; or the manner and form of compliance with final orders issued by the Commission.

By direction of the Commission.

[SEAL] JOSEPH W. SHEA, *Secretary.*

Notice of Applications for Unlisted Trading Privileges and of Opportunity for Hearing

JANUARY 11, 1962.

In the matter of applications of the Boston Stock Exchange for unlisted trading privileges in certain securities.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to section 12(f)(2) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the common stocks of the following companies, which securities are listed and registered on one or more other national securities exchanges:

Laboratory For Electronics, Inc., File 7-2217.
Pan American Sulphur Co., File 7-2218.

Upon receipt of a request, on or before January 26, 1962, from any interested person, the Commission will determine whether the application with respect to any of the companies named shall be set down for hearing. Any such request should state briefly the title of the security in which he is interested, the nature of the interest of the person making the request, and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on any of the said applications by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington 25, D.C., not later than the date specified. If no one requests a hearing with respect to any particular application, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

LITTON INDUSTRIES, INC. AND SAN DIEGO IMPERIAL CORP.

Notice of Applications for Unlisted Trading Privileges and of Opportunity for Hearing

JANUARY 11, 1962.

In the matter of applications of the Philadelphia-Baltimore Stock Exchange for unlisted trading privileges in certain securities.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to section 12(f)(2) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in certain securities, which securities are listed and registered on one or more other national securities exchanges:

Litton Industries, Inc., File 7-2215.
San Diego Imperial Corp., File 7-2216.

Upon receipt of a request, on or before January 26, 1962, from any interested person, the Commission will determine whether the application with respect to any of the companies named shall be set down for hearing. Any such request should state briefly the title of the security in which he is interested, the nature of the interest of the person making the request, and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on any of the said applications by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington 25, D.C., not later than the date specified. If no one requests a hearing with respect to any particular application, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

By the Commission.

UNITED STATES DIVERSIFIED INDUSTRIES, INC.

Notice of Application to Strike From Listing and Registration and of Opportunity for Hearing

JANUARY 11, 1962.

The Pittsburgh Stock Exchange has filed an application with the Securities and Exchange Commission pursuant to section 12(d) of the Securities Exchange Act of 1934 and Rule 12d2-1(b) promulgated thereunder, to strike the specified security from listing and registration thereon.

The reasons alleged in the application for striking this security from listing and registration include the following: Since this Company's auditors refuse to express an opinion as to its financial condition, the Annual Report for 1960 must be considered incomplete and unacceptable.

Upon receipt of a request, on or before January 26, 1962, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D.C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official files of the Commission pertaining to the matter.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

INTERSTATE COMMERCE COMMISSION

[Notice 193]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

JANUARY 12, 1962.

The following letter-notices of proposals to operate over deviation routes for operating convenience only with service at no intermediate points have been filed with the Interstate Commerce Commission, under the Commission's deviation rules revised, 1957 (49 CFR 211.1 (c)(8)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 211.1(d)(4)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 211.1(e)) at any time but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's deviation rules revised, 1957, will be numbered consecutively for convenience in identification and protests if any should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC 3261 (Deviation No. 5), KRAMER BROS. FREIGHT LINES, INC., 4195 Central Avenue, Detroit 10, Mich., filed January 4, 1962. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Cleveland, Ohio, over Interstate Highway 90 to Buffalo, N.Y., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Cleveland over Ohio Highway 283 to Willowick, Ohio, thence over Ohio Highway 288 to Willoughby, Ohio, thence over Ohio Highway 174 to junction Ohio Highway 84, thence over Ohio Highway 84 to Ashtabula, Ohio, thence over U.S. Highway 20 to Erie, Pa., thence over Pennsylvania Highway 5 to the Pennsylvania-New York State Line, and thence over New York Highway 5 to Buffalo, and return over the same route.

No. MC 13062 (Deviation No. 1), SUTTON TRANSFER, INC., 332 High School Avenue, Lebanon, Ky., filed January 5, 1962. Attorney Fred F. Bradley, P.O. Box 127, Frankfort, Ky. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From the junction of Interstate Highway 64 and U.S. Highway 60, just east of Middletown (Jefferson County), Ky., to the Frankfort Interchange, thence over U.S. Highway 127 to junction U.S. Highway 60, west of Frankfort, Ky., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: From Louisville, Ky., over U.S. Highway 60 to Winchester, Ky.; and from Louisville, Ky., over U.S. Highway 60 to the Parkers Mill Road, thence over the Lane Allen Road and Rosemont Gardens Street to junction U.S. Highway 27, thence over U.S. Highway 27 to Nicholasville, Ky., thence over U.S. Highway 29 to Wilmore, Ky., and return over the same routes.

No. MC 13900 (Deviation No. 1), MIDWEST HAULERS, INC., 228 Superior Street, Toledo, Ohio, filed January 5, 1962. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over deviation routes as follows: (A) Minneapolis-St. Paul, Minn., over Interstate Highway 94 to junction U.S. Highway 12, four miles west of Eau Claire, Wis., (B) from the junction of Interstate Highway 90 and U.S. Highway 12, at Wisconsin Dells, Wis., over Interstate Highways 90 and 94 to junction U.S. Highways 12, 51 and Interstate Highway 90, just south of Madison, Wis., (C) from the junction of U.S. Highways 12, 18, 51 and Interstate Highway 90, just south of Madison, Wis., over U.S. Highway 51 to junction U.S. Highways 14 and 51, near Janesville, Wis., and (D) from the junction of U.S. Highways 14, 51, and Interstate Highway 90, near Janesville, Wis., over Interstate Highway 90 to Chicago, Ill., and return over the same routes, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: From Dubuque, Iowa, over U.S. Highway 20 to Boston, Mass.; from Minneapolis-St. Paul over U.S. Highway 12 to junction Wisconsin Highway 89, thence over Wisconsin Highway 89 to junction U.S. Highway 14, thence over U.S. Highway 14 to Chicago, Ill.; from Madison, Wis., over U.S. Highway 18 to Waukesha, Wis.; from Waukesha, Wis., over Wisconsin Highway 59 to Milwaukee, Wis.; from Milwaukee, Wis., over U.S. Highway 41 to Evansville, Ind.; from Madison, Wis., over U.S. Highway 12 (formerly U.S. Highway 51) to junction U.S. Highway 51, thence over U.S. Highway 51, to Bloomington, Ill.; from Beloit, Wis., over Wisconsin Highway 15 to Milwaukee; Wis.; and from Effingham, Ill., over U.S. Highway 45 to junction Wisconsin Highway 15, and return over the same routes.

No. MC 36436 (Deviation No. 2), MOLAND BROTHERS TRUCKING CO., 2502 West Huron Street, Duluth, Minn., filed January 2, 1962. Attorney Claude J. Jasper, 111 South Fairchild, Madison, Wis. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From the junction of Interstate Highway 90 and U.S. Highway 12, at Wisconsin Dells, Wis., over Interstate Highway 90 to junction U.S. Highway 14, east of Janesville, Wis., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: From Duluth, Minn. over U.S. Highway 53 to Eau Claire, Wis., thence over U.S. Highway 12 to Wisconsin Dells, thence over U.S. Highway 16 to Watertown, Wis., thence over Wisconsin Highway 26 to Janesville, thence over U.S. Highway 14 to Walworth, Wis., also from Watertown, Wis., over Wisconsin Highway 26 to Fort Atkinson, Wis., thence over Wisconsin Highway 89 to junction U.S. Highway 14, thence over U.S. Highway 14 to Walworth, Wis., thence over U.S. Highway 14 to junction U.S. Highway 12, thence over U.S. Highway 12 to Chicago, Ill.; from Duluth, Minn., to Watertown, Wis., as specified above, thence over U.S. Highway 16 to junction Wisconsin Highway 67, thence over Wisconsin Highway 67 to junction U.S. Highway 18, thence over U.S. Highway 18, via West Allis, Wis., to Milwaukee, Wis. (also from West Allis over Wisconsin Highway 59 to Milwaukee), thence over U.S. Highway 41 to Chicago, Ill. (also from Milwaukee over Milwaukee County Trunk Highway A to junction Wisconsin Highway 100, thence over Wisconsin Highway 100 to junction U.S. Highway 45, thence over U.S. Highway 45 to junction U.S. Highway 12, thence over U.S. Highway 12 to Chicago, Ill.); from Duluth, Minn., over U.S. Highway 53 to Chippewa Falls, Wis., thence over Wisconsin Highway 29 to Abbotsford, Wis., thence over Wisconsin Highway 13 to Wisconsin Rapids, Wis., thence over Wisconsin Highway 73 to Plainfield, Wis., thence over U.S. Highway 51 to Madison, Wis., thence over U.S. Highway 14 to Chicago, Ill.; and from Duluth, Minn., over U.S. Highway 53 to Eau Claire, Wis., thence over U.S. Highway 12 to junction U.S. Highway 16, thence over U.S. Highway 16 to Portage, Wis., thence over U.S. Highway 51 to Madison, Wis., thence over U.S. Highway 12 to Whitewater, Wis., thence over Wisconsin Highway 89 to junction U.S. Highway 14, thence over U.S. Highway 14 to junction Illinois Highway 31, thence over Illinois Highway 31 to junction Illinois Highway 62, thence over Illinois Highway 62 to Chicago, Ill., and return over the same routes.

No. MC 47848 (Deviation No. 1), HUDSON TRUCKING CO., INC., P.O. Box 222, Kendallville, Ind., filed January 2, 1962. Attorney Donald W. Smith, Suite 511 Fidelity Building, Indianapolis 4, Ind. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over deviation routes as follows: (A) From Kendallville, Ind., over U.S. Highway 6 to junction Indiana Highway 9, thence over Indiana Highway 9 to junction Indiana East-West Toll Road, thence over Indiana East-West Toll Road to the Illinois Calumet Expressway, thence over the Illinois Calumet Expressway to Chicago, Ill., (B) from Kendallville, Ind., over U.S. Highway 6 to junction U.S. Highway 421, thence over U.S. Highway 421 to junction Indiana East-West Toll Road, thence over Indiana East-West Toll Road to

the Illinois Calumet Expressway, thence over the Illinois Calumet Expressway to Chicago, Ill., (C) from Kendallville, Ind., over U.S. Highway 6 to junction Indiana Highway 49, thence over Indiana Highway 49 to the Indiana East-West Toll Road, thence over Indiana East-West Toll Road to the Illinois Calumet Expressway, thence over Illinois Calumet Expressway to Chicago, Ill., (D) from Kendallville, Ind., over U.S. Highway 6 to junction Indiana Highway 53, thence over Indiana Highway 53 to junction Kingery Expressway, thence over Kingery Expressway to the Illinois Calumet Expressway, thence over Illinois Calumet Expressway to Chicago, Ill., and return over the same routes, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Kendallville over U.S. Highway 6 to junction U.S. Highway 41, thence over U.S. Highway 41 to Chicago, and return over the same route.

No. MC 52746 (Deviation No. 5), KNAUS TRUCK LINES, INC., 715 South 25th Avenue, Bellwood, Ill., filed January 5, 1962. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Leon, Iowa, over Iowa Highway 2 to junction U.S. Highway 169, thence over U.S. Highway 169 to junction U.S. Highway 34, thence over U.S. Highway 34 to junction U.S. Highway 75, thence over U.S. Highway 75 to junction U.S. Highway 30, thence over U.S. Highway 30 to junction U.S. Highway 85, thence over U.S. Highway 85 to Denver, Colo., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: From Kansas City, Kans., over U.S. Highway 69, via Osceola, Iowa, to Des Moines, Iowa; from Kansas City, Kans., over the Kansas Turnpike to Wichita, Kans.; from Wichita, Kans., over U.S. Highway 54 to Liberal, Kans.; from Bucklin over unnumbered highway to junction U.S. Highway 154, thence over U.S. Highway 154 to Dodge City, Kans., thence over U.S. Highway 50S (now U.S. Highway 50) to Garden City, Kans.; from Liberal over U.S. Highway 83 to junction U.S. Highway 24, thence over U.S. Highway 24 to Colby, Kans.; from Denver, over U.S. Highway 40, via Agate, Colo., to Limon, Colo., thence over U.S. Highway 24 to Halford, Kans., and thence over U.S. Highway 83 to Oakley, Kans., and return over the same routes.

No. MC 66562 (Deviation No. 6), RAILWAY EXPRESS AGENCY, INCORPORATED, 219 East 42d Street, New York 17, N.Y., filed December 26, 1961. Attorney William H. Marx, same address. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, moving in express service, over a deviation route as follows: From St. Johnsbury, Vt., over U.S. Highway 5 to junction U.S. Highway 2, thence over U.S. Highway 2 to junction New Hampshire Highway 18, thence over New Hampshire Highway 18 to junction U.S. Highway 93, thence over U.S. Highway 93 to Littleton, N.H., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From White River Junction, Vt. over U.S. Highway 5 to Wells River, Vt., thence over U.S. Highway 302, via Woodsville, N.H., to Littleton, N.H., and thence over New Hampshire Highway 116 to Whitefield, N.H., and return over the same route.

No. MC 69116 (Deviation No. 10), SPECTOR FREIGHT SYSTEM, INC., 3100 South Wolcott Avenue, Chicago 8, Ill., filed January 4, 1962. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route between Chicago, Ill., and St. Louis, Mo., over Interstate Highway 55, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Chicago, over U.S. Highway 66 to junction Alternate U.S. Highway 66, thence over Alternate U.S. Highway 66 to Gardner, Ill., thence over U.S. Highway 66 to Springfield, Ill., thence over U.S. Highway 36 to junction U.S. Highway 67, thence over U.S. Highway 67 to junction Alternate U.S. Highway 67, thence over Alternate U.S. Highway 67 to St. Louis, and return over the same route.

MOTOR CARRIERS OF PASSENGERS

No. MC 45626 (Deviation No. 7), VERMONT TRANSIT CO., INC., 135 St. Paul Street, Burlington, Vt., filed January 5, 1962. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, over a deviation route between Waterbury and Bolton, Vt., over Interstate Highway 91, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport passengers over a pertinent service route as follows: From Waterbury over U.S. Highway 2 to Bolton, and return over the same route.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

JANUARY 12, 1962.

The following publications are governed by the Interstate Commerce Commission's general rules of practice including special rules (49 CFR 1.241) governing notice of filing of applications by motor carriers of property or passengers or brokers under sections 206, 209, and 211 of the Interstate Commerce Act and certain other proceedings with respect thereto.

All hearings and pre-hearing conferences will be called at 9:30 o'clock a.m., United States standard time (or 9:30 o'clock a.m., local daylight saving time, if that time is observed), unless otherwise specified.

APPLICATIONS ASSIGNED FOR ORAL HEARING OR PRE-HEARING CONFERENCE

MOTOR CARRIERS OF PROPERTY

No. MC 9895 (Sub-No. 122), filed January 8, 1962. Applicant: DENVER CHICAGO TRANSPORT COMPANY, INC., East 45th Avenue and Jackson Street, Denver, Colo. Applicant's attorney: Marion F. Jones, Suite 526 Denham Building, Denver, Colo. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cryogenic liquids*, in bulk, in government-owned and shipper-owned specially designed tank trailers, loaded and empty (1) between Painesville, Ohio, and points in Tennessee and (2) between West Palm Beach, Fla., and points in Tennessee.

HEARING: February 5, 1962, at the Claridge Hotel, Memphis, Tenn., before Examiner Richard H. Roberts.

No. MC 14514 (Sub No. 4), filed June 22, 1961. Applicant: JOHN KOEHN, JR., doing business as MERCHANTS DELIVERY, 115 Wabash Court, Danville, Ill. Applicant's attorney: Ray M. Foreman, 704–710 Baum Building, Danville, Ill. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Meat, packing-house products and groceries*, and *commodities* as described in paragraphs (a), (b), and (c) of the Appendix to the Report of the Commission in *Modification of Permits—Packing House Products*, 46 M.C.C. 23, and *empty containers or other such incidental facilities* (not specified), used in transporting the commodities specified above, from the site of Swift and Company plant at or near Rochelle, Ill., to points in Illinois and Indiana within seventy (70) miles of Danville, Ill., and (2) *Such merchandise* as is dealt in by mail order houses, and *empty containers or other such incidental facilities* (not specified) used in transporting the commodities specified in (2) above, between Chicago, Ill., and points in Illinois and Indiana, within seventy (70) miles of Danville, Ill.

HEARING: March 12, 1962, at the Midland Hotel, Chicago, Ill., before Joint Board No. 21, or, if the Joint Board waives its right to participate before Examiner Gordon M. Callow. This is to be heard on a consolidated record with MC 14514, John Koehn, Jr., doing business as Merchants Delivery, Danville, Ill., and MC 14514 (Sub-No. 3), John Koehn, Jr., doing business as Merchants Delivery, Conversion Proceeding.

No. MC 25798 (Sub-No. 56), filed November 3, 1961. Applicant: CLAY HYDER TRUCKING LINES, INC., Chimney Rock Highway, P.O. Box 1290, Gendersonville, N.C. Applicant's attorney: Thomas F. Kilroy, 1000 Connecticut Avenue NW., Washington 6, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chocolate, chocolate coating, cocoa, and ice cream coatings*, from Milwaukee, Wis., and Newark, N.J., to points in North Carolina, South Carolina, Georgia, Florida, Kentucky, Tennessee, Virginia, Mississippi, Alabama, and West Virginia.

HEARING: February 20, 1962, at the Midland Hotel, Chicago, Ill., before Examiner Leo A. Riegel.

No. MC 27817 (Sub-No. 41), filed December 18, 1961. Applicant: H. C. GABLER, INC., R.D. No. 3, Chambersburg, Pa. Applicant's attorney: Christian V. Graf, 407 North Front Street, Harrisburg, Pa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Grass stop*, in rolls, *metal stove shovels, metal roofing and siding*, and *fabricated metal building products*, from the site of the plant of Penn Supply and Metal Corporation at Philadelphia, Pa., to points in Ohio, Indiana, Illinois, and Michigan.

HEARING: February 23, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner William E. Messer.

No. MC 30837 (Sub-No. 290), filed December 15, 1961. Applicant: KENOSHA AUTO TRANSPORT CORPORATION, 4519 76th Street, Kenosha, Wis. Applicant's attorney: Paul F. Sullivan, 1821 Jefferson Place NW., Washington, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Boat trailers*, in initial movements by the truckaway method, from Waukegan, Ill., to points in the United States (except in Hawaii).

NOTE: Applicant states that the authority sought does not in any way duplicate its present operating rights.

HEARING: February 21, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner John B. Mealy.

No. MC 35334 (Sub-No. 53), filed December 20, 1961. Applicant: COOPER-JARRETT, INC., 2113 West 73d Street, Chicago 36, Ill. Applicant's attorney: Harris J. Klein, 280 Broadway, New York 7, N.Y. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods* between Marshall, Carrollton, Moberly, and Macon, Mo., on the one hand, and on the other, New York, N.Y., Baltimore, Md., points in Ohio, New Jersey, Connecticut, Pennsylvania, and Delaware, and points in Nassau, Suffolk, Westchester, Orange, Rockland, and Putnam Counties, N.Y.

HEARING: February 27, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner W. Elliott Neffen.

No. MC 52709 (Sub-No. 150) (AMENDMENT) published in the FEDERAL REGISTER, issue of December 20, 1961, republished, as amended, this issue. Applicant: RINGSBY TRUCK LINES, INC., a Nebraska corporation, 3201 Ringsby Court, Denver 5, Colo. Applicant's representative: Eugene St. M. Hamilton, 3201 Ringsby Court, Denver 5, Colo. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods; potatoes, dehydrated;* and *potato products other than frozen*, from Salt Lake City and Ogden, Utah, and points in Idaho, to points in Colorado, Nebraska, Iowa, Kansas, Missouri, Illinois, Indiana, and Ohio, and points in Wisconsin on and south of U.S. Highway 8.

NOTE: Applicant states that it "controls United Freight, Inc. (Docket FF 155), and Inter State Express, Inc. (Docket FF 102), both of which are wholly-owned by applicant; Arizona Pacific Tank Lines (MC–109584); Fortier Transportation Company under Temporary Management (MC–108398); and Colonial & Pacific Frigidways, Inc. (MC–111138), Temporary." This amendment adds potatoes, dehydrated, and potato products other than frozen, as commodities to be transported.

NOTE: Previous publication identified applicant's representative as an attorney in error. Mr. Hamilton is admitted to practice before the Commission's Bar as a Class B practitioner.

HEARING: Remains as assigned, February 5, 1962, at the Public Utilities Commission, State House, Boise, Idaho, before Examiner Donald R. Sutherland.

No. MC 65525 (Sub-No. 14), filed November 2, 1961. Applicant: WHITE BROTHERS TRUCKING CO., a corporation, Wasco, Ill. Applicant's Representative: George S. Mullins, 4704 West Irving Park Road, Chicago 41, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Precast, prestressed, reinforced and prefabricated concrete products, including slabs, beams, columns, forms and piling*, and *accessories used in the installation thereof*, (1) between points in Illinois, on the one hand, and, on the other, points in Indiana, Iowa, Minnesota, Missouri, Michigan, Ohio, and Wisconsin, and (2) between points in Ohio, on the one hand, and, on the other, points in Indiana, Kentucky, Michigan, Pennsylvania, and Wisconsin.

HEARING: February 21, 1962, at the Midland Hotel, Chicago, Ill., before Examiner Leo A. Riegel.

No. MC 71331 (Sub-No. 10), filed October 23, 1961. Applicant: FOY CHALKER AND A. C. CREEL, a partnership doing business as, DOVE TRUCK LINE, Route 5, Dothan, Ala. Applicant's attorney: Wilmer A. Hill, Transportation Building, Washington, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Table sauces, mayonnaise, salad dressing, sandwich spread, french dressing, chili sauce, prune juice* and *beverage syrup*, from Brundidge, Ala., to points in Florida east of a line beginning at the Georgia-Florida state line and extending along U.S. Highway 319, through Tallahassee, Fla., to junction with U.S. Highway 98, thence on and east of U.S. Highway 98, to the Gulf of Mexico at Panacea, Fla.

HEARING: March 2, 1962, at the U.S. Court Rooms, Montgomery, Ala., before Joint Board No. 99, or, if the Joint Board waives its right to participate, before Examiner J. Thomas Schneider.

No. MC 73165 (Sub-No. 168), filed December 11, 1961. Applicant: EAGLE MOTOR LINES, INC., 830 North 33d Street, P.O. Box 1348, Birmingham, Ala. Applicant's attorney: Maurice F. Bishop, 325 Frank Nelson Building, Birmingham 3, Ala. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Cotton gin machinery* and *cotton gin machinery parts*, from Prattville, Ala., and Columbus, Ga., to points in Arizona, California, and New Mexico; and (2) between Prattville, Ala., and Columbus, Ga., on the one hand, and on the other, points in Texas.

NOTE: Applicant indicates that it proposes to transport only empty containers or other such incidental facilities (not specified) used in transporting the commodities specified in this application, on return.

HEARING: February 26, 1962, at the Hotel Thomas Jefferson, Birmingham, Ala., before Examiner J. Thomas Schneider.

No. MC 83539 (Sub-No. 81), (CLARIFICATION), filed November 21, 1961, published FEDERAL REGISTER, issue of December 28, 1961, and republished as clarified, this issue. Applicant: C & H TRANSPORTATION CO., INC., 1935 West Commerce Street, P.O. Box 5976, Dallas, Tex. Applicant's attorney: W. T. Brunson, 419 Northwest Sixth Street, Oklahoma City 3, Okla. Notice of the filing of the subject application was published in the FEDERAL REGISTER, issue of December 28, 1961. Applicant's attorney advised, in a letter dated January 5, 1962, that the purpose of the application is to remove the gateways contained in applicant's Certificates, Nos. MC 83539, Subs 6, 14, 32 and 47.

HEARING: Remains as assigned February 15, 1962, at the Baker Hotel, Dallas, Tex., before Examiner Leo M. Pellerzi.

No. MC 86687 (Sub-No. 62) (CORRECTION AND CLARIFICATION), filed October 27, 1961, published in the FEDERAL REGISTER, issue of December 20, 1961, republished as corrected and clarified, this issue. Applicant: SEABOARD AIR LINE RAILROAD COMPANY, a corporation, 3600 West Broad Street, Richmond, Va. Applicant's attorney: Wilkes C. Robinson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, between Hamlet, Raleigh, Wilmington, Charlotte, and Henderson, N.C., and Columbia, S.C., over regular routes presently authorized in Certificate MC 86687, at sheets 1, 2, and 5 of said Certificate, serving the intermediate and off-route points named therein.

NOTE: (1) Applicant states that under its present Certificate MC 86687, the points of Raleigh, Hamlet, Wilmington and Charlotte, N.C., and Columbia, S.C., are designated as key points. Accordingly, no shipments can be transported by the Seaboard as a common carrier by motor vehicle between those points. Seaboard's less-than-carload shipments presently moving to and from these points and, also, Henderson, N.C. (not a key point), which involve another key point are presently being handled in Seaboard's regular merchandise box car service through the break-bulk point of Hamlet, N.C. At Hamlet, these shipments are reloaded in box cars for movement beyond to destination. The Seaboard proposes handling inbound shipments

to these points by rail to Hamlet, N.C., and from that point by truck to destination and handling outbound shipments originating at these points by truck to Hamlet and by rail beyond to destination. Therefore, all traffic moving to or from these points through Hamlet will either receive a prior rail haul to Hamlet or a subsequent rail haul from Hamlet. Applicant also states it is not here proposing to eliminate its presently applicable key point restrictions. Accordingly, shipments moving between these key points could still not move entirely by truck if the authority here sought is granted, but must move partly in rail service. This assures that the operation here proposed will be auxiliary and supplemental of rail service. (2) By letter dated January 3, 1962, subsequent to previous publication, applicant further clarifies the application as follows: "What applicant is proposing to do is handle inbound shipments to Raleigh, Wilmington, and Charlotte, N.C., and Columbia, S.C.; or outbound shipments from those points which move through Hamlet, N.C., by truck, provided such shipments receive a prior rail haul to Hamlet or will receive a subsequent rail haul from Hamlet. In other words, all traffic moving to or from the described points through Hamlet must receive either a prior or subsequent rail haul to or from Hamlet before it could be handled by applicant's truck between Hamlet and these key points. As to all other traffic, the key points will be operative. Therefore, an interstate shipment originating, for example, at Columbia, S.C., and destined to Charlotte, N.C., could not be handled entirely by truck through Hamlet should this application be granted. Such transportation would still be prohibited by application of the presently imposed key points". (3) This republication corrects the note as previously published, to that shown in note (1) above, and adds note (2) above.

HEARING: Remains as assigned, January 29, 1962, at the U.S. Court Rooms, Uptown P.O. Building, Raleigh, N.C., before Joint Board No. 2.

No. MC 95540 (Sub-No. 366) (AMENDMENT), filed May 29, 1961, published issue of June 7, 1961, amended November 30, 1961, and republished as amended this issue. Applicant: WATKINS MOTOR LINES, INC., Albany Highway, Thomasville, Ga. Applicant's attorney: Joseph H. Blackshear, 205 Jackson Building, Gainesville, Ga. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (a) *Meats, meat products, meat by-products*, and *articles distributed by meat packing houses*, as defined by the Commission, from Rochelle, Ill., to points in Alabama, Georgia, Louisiana, Mississippi, North Carolina, and South Carolina, and (b) *Dairy products*, from Rochelle, Ill., to points in Alabama, Georgia, Louisiana, and Mississippi.

NOTE: The purpose of this republication is to eliminate the destination points of North Carolina and South Carolina in (b) above.

FURTHER HEARING: March 14, 1962, at the Midland Hotel, Chicago, Ill., before Examiner Gordon M. Callow.

No. MC 95540 (Sub No. 371), filed June 12, 1961. Applicant: WATKINS MOTOR LINES, INC., Albany Highway, Thomasville, Ga. Applicant's attorney: Joseph H. Blackshear, Gainesville, Ga. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar, wine, juices and oils* (other than petroleum and foodstuffs), in bulk, from Baltimore, Md.; Kansas City, Mo.; New Orleans, La.; Savannah, Ga.; Wilmington, N.C.; and points in California, Illinois, Iowa, New York, and Virginia, to points in Alabama, Florida, and Georgia.

HEARING: February 19, 1962, at 680 West Peachtree Street NW., Atlanta, Ga., before Examiner J. Thomas Schneider.

No. MC 95540 (Sub-No. 389), filed December 6, 1961. Applicant: WATKINS MOTOR LINES, INC., Albany Highway, Thomasville, Ga. Applicant's attorney: Joseph H. Blackshear, Gainesville, Ga. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food and foodstuffs*, frozen and unfrozen, from points in Maine, New Hampshire, and Massachusetts, to points in Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee, and Texas.

NOTE: Applicant states that "it is affiliated with Arctic Express, Inc. through stock ownership in Bill Watkins, and Watkins Motor Lines, Inc."

HEARING: February 16, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner Lacy W. Hinely.

No. MC 95540 (Sub-No. 394), filed January 8, 1962. Applicant: WATKINS MOTOR LINES, INC., Albany Highway, Thomasville, Ga. Applicant's attorney: Duane W. Acklie, 605 South 12th Street, Lincoln, Nebr. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods and prepared foods and foodstuffs*, frozen and unfrozen, from points in Idaho, Oregon, Utah, and Washington, to points in Alabama, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, the District of Columbia, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Jersey, New Mexico, New York, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Dakota, Tennessee, Texas, Utah, Virginia, West Virginia, Wisconsin, and Wyoming.

NOTE: Applicant states that it is affiliated with Arctic Express, Inc. through stock ownership in Bill Watkins, and Watkins Motor Lines, Inc.

HEARING: February 5, 1962, at the Public Utilities Commission, State House, Boise, Idaho, before Examiner Donald R. Sutherland.

No. MC 102616 (Sub-No. 701), filed December 11, 1961. Applicant: COASTAL TANK LINES, INC., 501 Grantley Road, York, Pa. Applicant's attorney: Harold G. Hernly, 1624 Eye Street NW., Washington 6, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, from Cleveland, Ohio, to points in Illinois, Indiana, Minnesota, Wisconsin, and St. Louis, Mo.

HEARING: February 20, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner Reece Harrison.

No. MC 103880 (Sub 237), filed October 27, 1961. Applicant: PRODUCERS TRANSPORT, INC., 224 Buffalo Street, New Buffalo, Mich. Applicant's attorney: David Axelrod, 39 South La Salle Street, Chicago 3, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia* and *nitrogen solutions*, in bulk, in tank vehicles, from the plant site of the Amoco Chemicals Corporation located about six (6) miles southwest of Joliet, Ill., to points in Minnesota, Iowa, Wisconsin, Missouri, Indiana, Michigan, and Ohio.

NOTE: Applicant states that it is the owner of 50 percent of the outstanding shares of stock of Tank Truck Transport, Ltd.

HEARING: March 1, 1962, at Midland Hotel, Chicago, Ill., before Examiner Gordon M. Callow.

No. MC 103993 (Sub-No. 156), (AMENDMENT), filed October 9, 1961, published FEDERAL REGISTER, issue December 20, 1961, amended January 2, 1962, republished as amended this issue. Applicant: MORGAN DRIVE-AWAY, INC., 500 Equity Building, Elkhart, Ind. Applicant's attorney: John E. Lesow, 3737 North Meridian Street, Indianapolis 8, Ind. The republication of the subject application, as amended, showed the subsequent filing docket number assigned as Sub 356 in error. The correct sub number assigned as shown above is Sub No. 156.

No. MC 104589 (Sub-No. 19), filed January 8, 1961. Applicant: J. L. LAWHON, 209 University Avenue SW., Atlanta 10, Ga. Applicant's attorney: Paul M. Daniell, Suite 214–217 Grant Building, Atlanta 3, Ga. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Carbonated beverages, flavoring syrup, extracts of flavoring syrup, and advertising matter moving in connection with these commodities*, for the account of Canada Dry Corporation, from Atlanta, Ga., to points in Florida (except Escambia, Santa Rosa, Okaloosa, Walton, Holmes, Washington, Bay, Jackson, Calhoun, and Gulf Counties), and *empty containers and bottles*, on return.

NOTE: Applicant states, "it owns one-half of the capital stock of Refrigerated Transport Co., Inc."

HEARING: February 23, 1962, at 680 West Peachtree Street NW., Atlanta, Ga., before Joint Board No. 64, or, if the Joint Board waives its right to participate, before Examiner J. Thomas Schneider.

No. MC 105813 (Sub-No. 56), filed December 1, 1961. Applicant: BELFORD TRUCKING CO., INC., 1299 Northwest 23d Street, Miami, Fla. Applicant's attorney: David Axelrod, 39 South LaSalle Street, Chicago 3, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Building, roofing and insulating materials*, and *perlite products* from Florence, Ky., to points in Alabama, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, and Virginia.

HEARING: March 8, 1962, at the Midland Hotel, Chicago, Ill., before Examiner Gordon M. Callow.

No. MC 106456 (Sub-No. 37), filed January 3, 1962. Applicant: SUPER SERVICE MOTOR FREIGHT COMPANY, INC., Box 180, Fessler Lane, Nashville, Tenn. Applicant's attorney: James R. Browder, Box 180, Nashville, Tenn. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, household goods as defined by the Commission, and those requiring special equipment), serving the plant site of Nachman Corporation near Milford, Ill., as an off-route point in connection with applicant's regular route operations to and from Chicago, Ill.

HEARING: January 22, 1962, at the Midland Hotel, Chicago, Ill., before Joint Board No. 149.

No. MC 107107 (Sub-No. 192), filed January 4, 1962. Applicant: ALTERMAN TRANSPORT LINES, INC., P.O. Box 65, Allapattah Station, Miami 42, Fla. Applicant's representative: H. R. Marlane (same as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and packinghouse products*, as described by the Commission in Ex Parte MC–43, from Austin, Tex., to points in Alabama, Florida, Georgia, North Carolina, South Carolina, and Tennessee (except Memphis, Tenn.).

HEARING: February 16, 1962, at the Baker Hotel, Dallas, Texas, before Examiner Leo M. Pellerzi.

No. MC 107403 (Sub-No. 370), filed December 6, 1961. Applicant: E. BROOKE MATLACK, INC., 33d and Arch Streets, Philadelphia 4, Pa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, from Cleveland, Ohio, to points in Illinois, Indiana, Minnesota, Wisconsin, and St. Louis, Mo.

NOTE: Applicant has contract authority under MC 117637 and Subs thereunder, therefore dual operations may be involved. Applicant states "it is authorized to control Reader Brothers, Inc., and Edwin E. Clarke dba Clarke Bulk Transfer."

HEARING: February 20, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner Reece Harrison.

No. MC 107496 (Sub-No. 206), filed October 23, 1961. Applicant: RUAN TRANSPORT CORPORATION, 408 Southeast 30th Street, Des Moines, Iowa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia and liquid fertilizer solutions*, in bulk, in tank vehicles, from Joliet, Ill., and points within ten (10) miles thereof, to points in Iowa, Missouri, Indiana, Michigan, Ohio, Wisconsin, and Minnesota.

NOTE: Applicant states it is "wholly owned by John Ruan. Applicant controls and owns all of the outstanding capital stock of Illinois-Ruan Transport Corporation, an Illinois corporation, which also operates as a common carrier; by motor vehicles in interstate commerce for the transportation of petroleum and other products, in bulk, by authority of certificates issued by the I.C.C. and by various state regulatory commissions." Applicant has contract authority under MC 119136 and Subs thereunder, therefore, dual operations may be involved.

HEARING: March 1, 1962, at the Midland Hotel, Chicago, Ill., before Examiner Gordon M. Callow.

No. MC 108207 (Sub-No. 87), filed December 29, 1961. Applicant: FROZEN FOOD EXPRESS, 318 Cadiz Street, Dallas, Tex. Applicant's attorney: Ralph W. Pulley, Jr., First National Bank Building, Dallas 2, Tex. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chilled citrus products* from points in Cameron, Hidalgo, and Willacy Counties, Tex., to Memphis, Tenn., and points in Mississippi, Louisiana, Oklahoma, Arizona, New Mexico, California, Kansas, Missouri, Illinois, Indiana, Wisconsin, Minnesota, Iowa, Michigan, Arkansas, and Nebraska.

HEARING: January 25, 1962, at the Southland Hotel, Dallas, Tex., before Examiner Wm. N. Culbertson.

No. MC 109497 (Sub-No. 7), filed December 27, 1961. Applicant: A. F. COMER, doing business as A. F. COMER TRANSPORT SERVICE, Rocky Mount, N.C. Applicant's attorney: James E. Wilson, 1111 E Street NW., Washington 4, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Gasoline, kerosene, fuel oils, jet fuels, and lubricating oils*, from Wilmington, N.C., to points in Virginia.

HEARING: January 31, 1962, at the U.S. Court Rooms, Uptown Post Office Building, Raleigh, N.C., before Joint Board No. 7.

No. MC 110420 (Sub-No. 301), filed November 8, 1961. Applicant: QUALITY CARRIERS, INC., Calumet Street, Burlington, Wis. Applicant's attorney: Paul F. Sullivan, 1821 Jefferson Place NW., Washington 6, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Liquid chocolate*, in bulk, in tank vehicles, from Mt. Joy, Pa., to points in Ohio, Michigan, Indiana, Illinois, and Wisconsin; (2) *table sauce*, in bulk, in tank vehicles, from Harbor Beach, Mich., to points in Ohio, Indiana, Illinois, Wisconsin, Iowa, Minnesota, Missouri, Kentucky, and Pennsylvania; (3) *liquid sugar*, in bulk, in tank vehicles, from Clinton, Iowa, to points in Wisconsin, Indiana, Nebraska, Minnesota, Michigan, Missouri, Illinois, Ohio, Arkansas, Kentucky, South Dakota, North Dakota, and Tennessee; (4) *grain neutral spirits*, in bulk, in tank vehicles, from Milwaukee, Wis., to points in Pennsylvania, New York, New Jersey, Ohio, and Indiana.

NOTE: Applicant states that it also controls Bulk Transport Co. and Beaver Transport Co. (Dockets MC–F–4371 and MC–F–7372 respectively)

HEARING: February 23, 1962, at the Midland Hotel, Chicago, Ill., before Examiner Leo A. Riegel.

No. MC 110525 (Sub-No. 483), filed December 12, 1961. Applicant: CHEMICAL LEAMAN TANK LINES, INC., 520 East Lancaster Avenue, Downingtown, Pa. Applicant's attorney: Leonard A. Jaskiewicz, Munsey Building, Washington 4, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, from Cleveland, Ohio, to points in Illinois, Minnesota, Wisconsin, and St. Louis, Mo.

HEARING: February 20, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner Reece Harrison.

No. MC 110525 (Sub-No. 484), filed December 13, 1961. Applicant: CHEMICAL LEAMAN TANK LINES, INC., 520 East Lancaster Avenue, Downingtown, Pa. Applicant's attorney: Leonard A. Jaskiewicz, Munsey Building, Washington 4, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry cement*, from Security, Md., to points in Pennsylvania (except Franklin, Adams, Cumberland, Dauphin, York, and Lancaster Counties), and West Virginia (except Hardy, Mineral, Hampshire, Morgan, Berkeley, and Jefferson Counties).

NOTE: Applicant holds contract authority in MC 117507, therefore, dual operations may be involved.

HEARING: February 23, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner Parks M. Low.

No. MC 110698 (Sub-No. 194), filed December 28, 1961. Applicant: RYDER TANK LINE, INC. (York Division), 9020 La Porte Expressway, Houston 17, Tex. Applicant's attorney: Dale Woodall (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vegetable oils* and *coconut oils*, in bulk, in tank vehicles, from points in California, to points in Illinois, Iowa, Kansas, Missouri, Nebraska, Oklahoma, and Texas.

NOTE: Applicant states that capital stock of Ryder Tank Line, Inc. is held by Ryder System, Inc.

HEARING: January 22, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner Leo M. Pellerzi.

No. MC 111717 (Sub-No. 21), filed November 3, 1961. Applicant: TRACTOR TRANSPORT, INC., 535 South 84th Street, Milwaukee, Wis. Applicant's attorney: Frank M. Coyne, Bank of Madison Building, 1 West Main Street, Madison 3, Wis. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Lumber* (a) from points in Washington, Oregon, Idaho, Montana, Wyoming, and Colorado to points in Wisconsin, Illinois, Minnesota, and Iowa, and (b) from ports of entry on the International Boundary between United States and Canada in North Dakota and Minnesota, to points in Minnesota, Wisconsin, Iowa, and Illinois.

HEARING: February 19, 1962, at the Midland Hotel, Chicago, Illinois, before Examiner Leo A. Riegel.

No. MC 112617 (Sub-No. 106), filed January 3, 1962. Applicant: LIQUID TRANSPORTERS, INC., P.O. Box 5135, Cherokee Station, Louisville, Ky. Applicant's attorney: Leonard A. Jaskiewicz,

Munsey Building, Washington 4, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paint, paint products, paint ingredients* and *varnish*, in bulk, in tank vehicles, from Milwaukee, Wis., to points in Illinois, Indiana, Iowa, Kentucky, Ohio, Michigan, Minnesota, Missouri, Georgia, and Pennsylvania.

HEARING: March 8, 1962, at the Midland Hotel, Chicago, Ill., before Examiner Gordon M. Callow.

No. MC 117574 (Sub-No. 60), filed January 7, 1962. Applicant: DAILY EXPRESS, INC., Box 311, R.D. No. 1, Carlisle, Pa. Applicant's attorney: James E. Wilson, Perpetual Building, 1111 E Street NW., Washington 4, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pipe, conduit, attachments, parts* and *fittings therefor*, between Rootstown, Ohio, and points within five miles thereof, on the one hand, and, on the other, points in Indiana, Illinois, Wisconsin, Minnesota, Iowa, Missouri, North Dakota, South Dakota, Kansas, Nebraska, Kentucky, and Michigan.

HEARING: January 31, 1962, at the New Post Office Building, Columbus, Ohio, before Examiner Warren C. White.

No. MC 117995 (Sub-No. 4), filed January 9, 1962. Applicant: NEIL B. OLMSTED, E. B. OLMSTED AND ALVIN H. ANDERSON, doing business as REFRIGERATED TRUCK LINES, Route 3, Box 147, Mount Vernon, Wash. Applicant's attorney: George R. Labissoniere, 333 Central Building, Seattle 4, Wash. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods and potato products*, not frozen, (1) between points in Washington, Oregon, Idaho, and California, on the one hand, and, on the other, points in New York, Kentucky, Wyoming, Colorado, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Montana, Nebraska, Nevada, North Dakota, Wisconsin, Oklahoma, Ohio, South Dakota, Utah, Arizona, and Louisville, Ky., (2) between points in Idaho, on the one hand, and, on the other, points in Oregon and Washington, and (3) between points in California, on the one hand, and, on the other, points in Washington and Oregon.

HEARING: February 5, 1962, at the Public Utilities Commission, State House, Boise, Idaho, before Examiner Donald R. Sutherland.

No. MC 118865 (Sub-No. 5), filed December 6, 1961. Applicant: CEMENT EXPRESS, INC., Hokes Mill Road and Lemon Street, York, Pa. Applicant's representative: Adolph E. Solie, 1025 Seminole Highway, Madison 5, Wis. Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Cement* portland and masonry), from York, Pa., to points in Connecticut, Massachusetts, New Jersey, New York, and Rhode Island.

NOTE: Applicant states it is controlled by certain stockholders and officers of Tose, Inc.

HEARING: February 19, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner Samuel Horwich.

No. MC 118314 (Sub-No. 1), filed December 20, 1961. Applicant: MAGIC CITY PRODUCE CO., INC., 2501 Third Place W., Birmingham, Ala. Applicant's attorney: J. Douglas Harris, 413–414 Bell Building, Montgomery 4, Ala. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, (1) from New Orleans, La., and Gulfport, Miss., to points in Illinois, and (2) from Gulfport, Miss., to Birmingham, Ala., and *empty containers or other such incidental facilities* (not specified) used in transporting the commodities specified above, on return.

HEARING: February 27, 1962, at the Hotel Thomas Jefferson, Birmingham, Ala., before Examiner J. Thomas Schneider.

No. MC 119219 (Sub-No. 3), (REPUBLICATION), filed July 1, 1960, published FEDERAL REGISTER, issue of August 17, 1960, and republished this issue. Applicant: RAYMOND L. BURT, doing business as BURT DISTRIBUTING COMPANY, 935 Florida, SE., Albuquerque, N. Mex. Applicant's representative: L. C. Cypert, Room 2, 1115½ Central Avenue NE., Albuquerque, N. Mex. Notice of the filing of the subject application was published in the FEDERAL REGISTER of August 17, 1960. The application was heard at Sante Fe, N. Mex., on November 10, 1960. A Report and Order by Joint Board 87, composed of John Block, Jr., of New Mexico, was served December 2, 1960, and became effective by operation of law. An Order of the Commission, division 1, entered in the subject proceeding December 29, 1961, provides that upon consideration of the record in the above-entitled proceeding, and of petition of applicant, filed August 18, 1961, for reconsideration, that the proceeding be reopened for reconsideration on the present record, and also provides that notice of the application, as filed, be published in the FEDERAL REGISTER. The application on Form BMC 78, received July 1, 1960, sets forth the authority sought on page 1, Item II of the application, as follows: "to continue an operation instituted on May 28, 1960, as a contract carrier, by motor vehicle, in interstate or foreign commerce, over regular routes, in the transportation of meats, meat products, meat by-products, and dairy products, and listed in Sections A, B, and C of Appendix I of the Report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766, in vehicles equipped with temperature control devices, in distribution service on traffic originating outside, N. Mex., from Albuquerque, N. Mex., to points and places in New Mexico." Item III, page 1 reads: "Serving all intermediate points and the off-route points of Espanola and Los Alamos, N. Mex., on route 2 between Albuquerque and Taos, N. Mex." Item IV, page 2 reads: "Empty containers or other such incidental facilities used in transporting the commodities specified in this application will be transported on return trips." A notation on page 1 reads as follows:

"From Albuquerque, N. Mex., over U.S. Highway 85 to junction New Mexico Highway 44, thence over New Mexico Highway 44 to junction New Mexico Highway 422, thence over New Mexico Highway 422 to junction U.S. Highway 85, thence over U.S. Highway 85 through Sante Fe, N. Mex., to Las Vegas, N. Mex.

"From Albuquerque, N. Mex., over U.S. Highway 85 to junction New Mexico Highway 44, thence over New Mexico Highway 44 to junction New Mexico Highway 422, thence over New Mexico Highway 422 to junction U.S. Highway 85, thence over U.S. Highway 85 to Santa Fe, N. Mex., thence over U.S. Highway 64 to Taos, N. Mex., serving the off-route points of Espanola and Los Alamos, N. Mex.

"From Albuquerque, N. Mex., over U.S. Highway 85 to junction New Mexico Highway 44, thence over New Mexico Highway 44 to junction New Mexico Highway 422, thence over New Mexico Highway 422 to junction U.S. Highway 85, thence over U.S. Highway 85 to Santa Fe, N. Mex., thence over U.S. Highway 285 to Espanola, N. Mex., thence over unnumbered New Mexico Highway 4 to junction unnumbered New Mexico Highway, thence over said unnumbered New Mexico Highway to Los Alamos, N. Mex.

"From Albuquerque, N. Mex., over U.S. Highway 85 to junction New Mexico Highway 44, thence over New Mexico Highway 44 to Aztec, N. Mex., thence over U.S. Highway 550 to Shiprock, N. Mex.

"From Albuquerque, N. Mex., over U.S. Highway 66 to Gallup, N. Mex.

"Serving all intermediate points on the above-described routes for delivery only."

No. MC 119513 (Sub-No. 2), filed December 14, 1961. Applicant: HARRY EUGENE DEVILBLISS, doing business as DEVILBLISS TRUCK SERVICE, Post Office, Uniontown, Md. Applicant's representative: Donald E. Freeman, 97 Uniontown Road, Westminster, Md. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural wire and cordage*, in truckloads from Baltimore, Md., to points in Delaware, Florida, Georgia, Maryland, North Carolina, Ohio, Pennsylvania, South Carolina, Virginia, and West Virginia.

NOTE: Applicant states the proposed operation will be under continuing contract with Allied Cordage Company, Baltimore, Md.

HEARING: February 21, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner James I. Carr.

No. MC 119641 (Sub-No. 30), filed November 9, 1961. Applicant: RINGLE EXPRESS, INC., 405 South Grant Avenue, Fowler, Ind. Applicant's attorney: Robert C. Smith, 512 Illinois Building,

Indianapolis 4, Ind. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Building, roofing and insulating materials*, and *perlite products*, from Florence, Ky., to points in Illinois, Indiana, Iowa, Wisconsin, Missouri, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Tennessee, Arkansas, and Ohio, and *damaged and rejected shipments*, on return.

HEARING: March 8, 1962, at the Midland Hotel, Chicago, Ill., before Examiner Gordon M. Callow.

No. MC 119670 (Sub-No. 2), filed December 6, 1961. Applicant: THE VICTOR TRANSIT CORPORATION, P.O. Box 115, Winton Place Station, Cincinnati 32, Ohio. Applicant's attorney: Robert C. Smith, 512 Illinois Building, Indianapolis 4, Ind. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Building, roofing*, and *insulating materials*, and *perlite products*, from Florence, Ky., to points in Illinois, Indiana, the lower peninsula of Michigan, New York, Ohio, Pennsylvania, Virginia, West Virginia, Alabama, Tennessee, Wisconsin, and New Jersey, and (2) *machinery, equipment, materials* and *supplies* used in the manufacture, packing and shipping of building, roofing and insulating materials, and perlite products, from points in Illinois, Indiana, the lower peninsula of Michigan, New York, Ohio, Pennsylvania, Virginia, West Virginia, Alabama, Tennessee, Wisconsin, and New Jersey to Florence, Ky.

HEARING: March 8, 1962, at the Midland Hotel, Chicago, Ill., before Examiner Gordon M. Callow.

No. MC 119697 (Sub-No. 3), filed November 27, 1961. Applicant: CHRISPENS TRUCK LINES, INC., 348 West 42d Place, Chicago, Ill. Applicant's attorney: Joseph M. Scanlan, 111 West Washington Street, Chicago 2, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Brick, tile and refractory products*, from points in Lawrence and Beaver Counties, Pa., and points in Stark, Carroll, and Tuscarawas Counties, Ohio, to points in Illinois.

HEARING: March 5, 1962, at the Midland Hotel, Chicago, Ill., before Examiner Gordon M. Callow.

No. MC 119777 (Sub-No. 4), filed December 20, 1961. Applicant: LIGON SPECIALIZED HAULER, INC., P.O. Drawer 31, Madisonville, Ky. Applicant's attorney: Robert M. Pearce, 221½ St. Clair Street, Frankfort, Ky. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pallets, skids, bases, boxes, crating, veneer, baskets, oak treads, oak risers, oak sills, oak molding, cardboard cartons, nails* and *lumber* between points in Muhlenberg County, Ky., on the one hand, and on the other, points in Arkansas, Colorado, Iowa, Kansas, Louisiana, Minnesota, Missouri, Nebraska, North Dakota, Oklahoma, South Dakota, Texas, and all states east of the Mississippi River.

HEARING: February 23, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner James A. McKiel.

No. MC 119917 (Sub-No. 7), filed January 2, 1962. Applicant: DUDLEY TRUCKING COMPANY, INC., 717 Memorial Drive SE., Atlanta 16, Ga. Applicant's attorney: R. J. Reynolds, Jr., Suite 1424-35 C & S National Bank Building, Atlanta 3, Ga. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Shelled salted peanuts*, in mixed loads with bakery products, the quantity of peanuts not to exceed 5 percent of the aggregate load, from Atlanta, Ga., to points in Alabama, Florida, Louisiana, Mississippi, North Carolina, South Carolina, Virginia, Tennessee, and the District of Columbia, and *empty containers or other such incidental facilities* (not specified) used in transporting the commodities specified above and *rejected shipments*, on return.

NOTE: Applicant states it already holds authority to transport bakery products from Atlanta, Ga., to all points in the aforesaid destination states, and is not herein seeking any additional authority to transport bakery products.

HEARING: February 23, 1962, at 680 West Peachtree Street NW., Atlanta, Ga., before Examiner J. Thomas Schneider.

No. MC 123067 (Sub-No. 13), filed December 1, 1961. Applicant: M & M TANK LINES, INC., P.O. Box 4174, North Station, Winston-Salem, N.C. Applicant's representative: Frank C. Philips, P.O. Box 612, Winston-Salem, N.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Gasoline, kerosene, fuel oils, jet fuels*, and *lubricating oils*, in bulk, in tank vehicles, from Wilmington, N.C., to points in Virginia.

NOTE: Applicant states, "S. H. Mitchell, President, also controls Hennis Freight Lines, Inc., operating under MC 64994 and Subs thereto".

HEARING: January 31, 1962, at the U.S. Court Rooms, Uptown Post Office Building, Raleigh, N.C., before Joint Board No. 7.

No. MC 123407 (Sub-No. 3), filed October 12, 1961. Applicant: SEURING TRANSIT, INC., 2424 Minnehaha Avenue, Minneapolis, Minn. Applicant's attorney: Alan Foss, First National Bank Building, Fargo, N. Dak. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Building materials*, from L'Anse, Mich., to points in Wisconsin, Illinois, Minnesota, Iowa, North Dakota, South Dakota, Nebraska, Missouri, Indiana, Ohio, and Pennsylvania, and (2) *Machinery, equipment, materials and supplies used in the manufacture, processing and transmission of building materials*, from points in the above-named States to L'Anse, Mich.

NOTE: Applicant states Robert W. Sawyer, president and principal stockholder of applicant, has applications pending for a Certificate in MC 123303, and Subs 1 and 4 thereof. It is intended that substitution of Seuring Transit, Inc. as applicant will be sought in those dockets.

HEARING: February 26, 1962, at the Midland Hotel, Chicago, Ill., before Examiner Gordon M. Callow.

No. MC 123470 (Sub-No. 1) (AMENDED AND REASSIGNED NEW DOCKET NUMBER), filed September 25, 1961, published FEDERAL REGISTER, issue of November 29, 1961, amended by letter of January 8, 1962, and republished as amended, this issue. Applicant: WILLIAM HAROLD HUSTON, doing business as HUSTON TRUCK LINE, 219 Maple Street, Friend, Nebr. Applicant's attorney: James E. Ryan, 214 Sharp Building, Lincoln, Nebr. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Lignite*, treated and untreated, in bags only, and *bentonite clay*, in bags only, from points in Butte County, S. Dak., Crook and Weston Counties, Wyo., and Bowman County, N. Dak., to points in Nebraska (except Omaha), in Oklahoma, Kansas (except Kansas City), Missouri (except Kansas City and St. Louis), Texas, Colorado (except Denver), Iowa, and South Dakota, and *empty containers or other such incidental facilities* (not specified) used in transporting the commodities specified above, on return.

NOTE: As originally filed and noticed in the FEDERAL REGISTER, applicant sought authority to conduct the above-described operations as a *common carrier*. This republication reflects the amendment to show *contract authority* sought under a continuing contract with the American Colloid Company of Skokie, Ill. Carrier holds Certificate MC 104523 and subs thereunder. Accordingly, dual operations may be involved.

HEARING: Remains as assigned January 29, 1962, at the Hotel Sheraton Fontenelle, Omaha, Nebr., before Examiner W. Elliott Neffen.

No. MC 123794 (Sub-No. 1), filed December 20, 1961. Applicant: A. F. T. MOTOR FREIGHT, INC., P.O. Box 349, Conshohocken, Pa. Applicant's attorney: Wilmer A. Hill, Transportation Building, Washington 6, D.C. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Steel shelving, lockers* and *cabinets, sheet steel, culvert pipe, galvanized sheet steel, metal laths, pipe, reinforcing steel rods, nails*, and *other sheet metal products*, from the plant site of the Alan Wood Steel Company in the Philadelphia, Pa., Commercial Zone to New York, N.Y., Washington, D.C., points in Westchester, Putnam, and Dutchess Counties, N.Y., points in Virginia on, east and north of a line beginning at the Maryland-Virginia state line, and extending along U.S. Highway 15 to junction with U.S. Highway 250, thence along U.S. Highway 250 to junction with U.S. Highway 360, thence along U.S. Highway 360 to the Chesapeake Bay and points in Accomack and Northampton Counties, Va.; (2) *returned or rejected shipments of the above-described commodities* from above-specified destination points to the site of the Alan Wood Steel Company plant in the Philadelphia, Pa., Commercial Zone; and (3) *sheet steel, sheet steel products, metal lath, pipe, reinforcing steel rods*, and *nails* between the site of the Alan Wood Steel Company plant in the Philadelphia Commercial Zone, on the one hand, and on the other, points in Delaware, Maryland, and New Jersey.

NOTE: Applicant states that it holds authority to transport the named commodities to and from the Philadelphia, Pa., Commercial Zone, but for reasons of convenience for both this shipper and the applicant, it would be preferable to serve the plant through another gateway or gateways leading to the plant property (compromising 1,000 acres of land) outside the Philadelphia Commercial Zone. In effect, therefore, applicant indicates its request is for no additional authority, but only for an additional approach to the plant property of the Alan Wood Steel Company.

NOTE: By amendment applicant adds: "It will be understood that applicant does not here seek authority to abandon any of its present operating rights; it merely seeks to add to its present rights to and from the Philadelphia Commercial Zone the right to serve the plant of the Alan Wood Steel Company through another gateway or other gateways lying outside of the Philadelphia Commercial Zone."

HEARING: February 26, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner Alton R. Smith.

No. MC 123909 (Sub-No. 1), filed December 21, 1961. Applicant: LE MAR CORPORATION, P.O. Box 165, Winchester, Va. Applicant's attorney: Francis W. McInerny, Commonwealth Building, 1625 K Street NW., Washington 6, D.C. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Finished and unfinished rocket and missile inert components* and *raw materials used in the assembly thereof*, for the account of Hercules Powder Company, Inc., between the Allegeny Ballistics Laboratory at Pinto, W. Va., near Cumberland, Md., on the one hand, and on the other, points in Connecticut, Delaware, Florida, Maryland, Michigan, New Jersey, New York, Ohio, Pennsylvania, Tennessee, Utah, Virginia, West Virginia, and the District of Columbia.

NOTE: Applicant states that M. I. Novick, Treasurer of Le Mar Corporation, and a 50 percent stockholder, is also Vice President and Director of Novick Transfer Co., Inc.

HEARING: February 26, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner Dallas Russell.

No. MC 123952, filed October 2, 1961, originally published FEDERAL REGISTER issue of December 28, 1961, republished as reassigned this issue. Applicant: RENTAR TRUCKING, INC., 89-89 Union Turnpike, Glendale 27, N.Y. Applicant's attorney: Arthur Kaplan, 2 Lafayette Street, New York 7, N.Y. Previous notice of filing of the subject application covering the transportation of such merchandise as is dealt in by retail department stores, etc., between specified points in New York, New Jersey, Connecticut, and Pennsylvania, assigned the application for hearing January 30, 1962, at New York, N.Y., before Examiner Raymond V. Sar. This republication advises of the following change: ADVANCED DATE OF HEARING: January 24, 1962, at 346 Broadway, New York, N.Y. (same place), reassigned before Examiner Henry A. Cockrum.

No. MC 124072, filed November 29, 1961. Applicant: SEA, MOTOR, AIR, RAIL, TRANSPORTATION COMPANY, a corporation, 810 East 47th Street, Chicago 53, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Lumber;* (a) between points in Illinois on and north of U.S. Highway 20, and points in New York, Connecticut, Massachusetts, Rhode Island, and those in Indiana, Ohio, Pennsylvania, Maryland, Delaware, and New Jersey on and north of U.S. Highway 40; and (b) between Sault Ste. Marie, Mich., and points in New York, Connecticut, Massachusetts, Rhode Island, and those in Indiana, Ohio, Pennsylvania, Maryland, and Delaware on and north of U.S. Highway 40. (2) *New furniture* (crated and uncrated); between Grand Rapids, Mich. and points in that part of Indiana bounded on the east by U.S. Highway 27 and on the south by U.S. Highway 40, including points on said highway boundaries, those in Missouri on and north of U.S. Highway 66, points in Kansas, those in Oklahoma on and north of U.S. Highway 66, those in Colorado on and east of U.S. Highway 85, and those in Nebraska and Iowa on and south of U.S. Highway 30. (3) *New furniture* (crated); between Hammond, Ind. and points in Ohio, Pennsylvania, New York, Maryland, Delaware, Massachusetts, Connecticut and Rhode Island. (4) *Building materials (limited to lumber, plaster, cement, nails, asbestos and siding)*; between Traverse City, Mich., and points in Illinois, Indiana, Kentucky, and Ohio. (5) *Machinery parts;* between East Chicago, Ind., and points in Ohio, Pennsylvania, Indiana, Missouri, Illinois, Wisconsin, and Michigan.

HEARING: March 6, 1962, at the Midland Hotel, Chicago, Ill., before Examiner Gordon M. Callow.

No. MC 124094, filed December 14, 1961. Applicant: ROBERT BAKER BAYLES, Box 102, Bluemont, Va. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods* between points in Maryland, Virginia, West Virginia, and the District of Columbia.

HEARING: February 21, 1962, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner Laurence E. Masoner.

No. MC 124105, filed December 18, 1961. Applicant: BAGGETT BULK TRANSPORT, INC., 2 South 32d Street, Birmingham 5, Ala. Applicant's attorney: Harold G. Hernly, 1624 Eye Street NW., Washington 6, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement* and *lime and limestone*, in bulk and in packages, and *masonry and portland cement*, in packages, from Longview (Shelby County), Ala., to points in Georgia.

NOTE: Applicant states it is a wholly-owned subsidiary of Baggett Transportation Company.

HEARING: March 5, 1962, at the U.S. Court Rooms, Montgomery, Ala., before Joint Board No. 157, or if, the Joint Board waives its right to participate, before Examiner J. Thomas Schneider.

No. MC 124107, filed December 21, 1961. Applicant: V. F. LANASA, INC., 1817 East Franklin Street, Richmond, Va. Applicant's attorney: Richard D. Obenshain, Mutual Building, Richmond 19, Va. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, from Baltimore, Md., to Norfolk, Va., and *empty containers or other such incidental facilities* (not specified) used in transporting the above described commodities, on return.

HEARING: February 16, 1962, at the U.S. Court Rooms, Richmond, Va., before Joint Board No. 68.

No. MC 124134, filed January 3, 1962. Applicant: ALABAMA TRANSPORT, INC., 11700 Shaker Boulevard, Cleveland 20, Ohio. Applicant's attorney: John Andrew Kundtz, 1050 Union Commerce Building, Cleveland 14, Ohio. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement*, in bulk and in bags, from the plant site of the Lehigh Portland Cement Company, at Tarrant City (Birmingham), Ala., to points in Oktibbeha County, Miss., and *rejected and returned shipments* of the above-specified commodity, on return.

NOTE: Applicant has pending contract carrier authority in MC 119008, therefore, dual operations may be involved. Common control may also be involved.

HEARING: March 2, 1962, at the U.S. Court Rooms, Montgomery, Ala., before Joint Board No. 14, or if, the Joint Board waives its right to participate, before Examiner J. Thomas Schneider.

MOTOR CARRIERS OF PASSENGERS

No. MC 1002 (Sub-No. 16), filed January 2, 1962. Applicant: ASBURY PARK-NEW YORK TRANSIT CORPORATION, 275 Broadway, Keyport, N.J. Applicant's attorney: Edward W. Currie, 123 Main Street, Matawan, N.J. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in the same vehicle with passengers, (1) between Wall Township and Matawan Township, N.J., beginning at the junction of New Jersey Highway 34 and Monmouth County Highway 524, formerly known as Monmouth County Highway 19, in Wall Township, thence over New Jersey Highway 34 through Atlantic, Holmdel, and Marlboro Townships to the junction of New Jersey Highway 34 and Lloyd Road in Matawan Township, and return over the same routes, serving all intermediate points, (2) between Neptune Township and Wall Township, N.J., beginning at the junction of Main Street and New Jersey Highway 33, in Ocean Grove, Neptune Township, thence over New Jersey Highway 33 to junction New Jersey Highway 33 and New Jersey Highway 34 in Wall Township, and return over the same routes, serving all intermediate points, and (3) between points in Wall Township, N.J., beginning at the junction of New Jersey Highway 38 and the Garden State Parkway Northbound Entrance Ramp 97 in Wall Township, thence over New Jersey Highway 38 to the junction of New Jersey Highway 38

and New Jersey Highway 34 in Wall Township, and return over the same routes, serving all intermediate points.

NOTE: Applicant states Coastal Cities Coach Company, a New Jersey corporation, is owned by the same stockholders, and stock is held in the same proportion. It also operates under the same management.

HEARING: February 19, 1962, in Room 212, State Office Building, 1100 Raymond Boulevard, Newark, N.J., before Joint Board No. 119.

No. MC 1501 (Sub-No. 253), filed December 6, 1961. Applicant: THE GREYHOUND CORPORATION, 140 South Dearborn Street, Chicago 3, Ill. Applicant's attorney: Robert J. Bernard (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage*, and *express, newspapers and mail*, in the same vehicle with passengers, between Ozark, Ala., and Junction U.S. Highway 231 and Alabama Highway 134 near Newton, Ala.; from Ozark over unnumbered County Highway to its junction with Alabama Highway 134, thence over Alabama Highway 134 to its junction with U.S. Highway 231, and return over the same route, serving all intermediate points.

HEARING: March 1, 1962, at the U.S. Court Rooms, Montgomery, Ala., before Joint Board No. 100, or if the Joint Board waives its right to participate, before Examiner J. Thomas Schneider.

No. MC 3647 (Sub-No. 316), filed December 6, 1961. Applicant: PUBLIC SERVICE COORDINATED TRANSPORT, a corporation, 180 Boyden Avenue, Maplewood, N.J. Applicant's attorney: Richard Fryling (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage*, and *express and newspapers* in the same vehicle with passengers, between junction New Jersey Highway 34 and New Jersey Highway 79, Matawan Borough, N.J., and junction New Jersey Highway 34 and Lloyd Road, Matawan Township, N.J.; from junction New Jersey Highways 34 and 79, over New Jersey Highway 34 to junction Lloyd Road, and return over the same route, serving all intermediate points.

HEARING: February 19, 1962 at the State Office Building, Room 212, 1100 Raymond Boulevard, Newark, N.J., before Joint Board No. 119.

No. MC 3647 (Sub-No. 317), filed December 7, 1961. Applicant: PUBLIC SERVICE COORDINATED TRANSPORT, a corporation, 180 Boyden Avenue, Maplewood, N.J. Applicant's attorney: Richard Fryling, Public Service Coordinated Transport, Law Department, 180 Boyden Avenue, Maplewood, N.J. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage*, and *express* and *newspapers*, in the same vehicle with passengers, (1) Between Howell Township, N.J., and Lakewood Township, N.J., as follows: From junction U.S. Highway 9 and Aldrich Road, Howell Township, N.J., over Aldrich Road to junction of New Prospect Road, Jackson Township, N.J., thence over New Prospect Road to junction County Line Road, Lakewood, N.J., thence over County Line Road to junction of U.S. Highway 9 (Madison Avenue), Lakewood, N.J., and return over the same route, serving all intermediate points; and (2) Within Jackson Township, N.J., as follows: From junction Aldrich Road and New Prospect Road, Jackson Township, N.J., over Bennetts Mills-Hyson Road and Bennetts Mills-Vanhiseville Road to junction Cooks Bridge Road, thence over Cooks Bridge Road to junction Hope Chapel Road, thence over Hope Chapel Road to junction Lakewood-New Egypt Road (County Road 528), Jackson Township, N.J., and return over the same route, serving all intermediate points.

HEARING: February 16, 1962, at the State Office Building, Room 212, 1100 Raymond Boulevard, Newark, N.J., before Joint Board No. 119.

APPLICATION FOR BROKERAGE LICENSE

No. MC 12776, filed October 27, 1961. Applicant: NEVADARAMA, INC., 181 O'Farrell Street, San Francisco, Calif. For a license (BMC 5) to engage in operations as a *broker* at San Francisco, San Jose, Sacramento, Stockton, and Oakland Calif.; in arranging for the transportation by motor vehicle in interstate or foreign commerce of *Passengers*, both as individuals and groups, in round-trip and charter all-expense conducted "package" tours, between points in California and Nevada.

HEARING: February 12, 1962, at the New Mint Building, 133 Hermann Street, San Francisco, Calif., before Joint Board No. 75, or, if the Joint Board waives its right to participate before Examiner F. Roy Linn.

APPLICATIONS IN WHICH HANDLING WITHOUT ORAL HEARING IS REQUESTED

MOTOR CARRIERS OF PROPERTY

No. MC 10928 (Sub-No. 43), filed January 2, 1962. Applicant: SOUTHERN PLAZA EXPRESS, INC., P.O. Box 10572, Dallas 7, Tex. Applicant's attorney: Reagan Sayers, Century Life Building, Fort Worth 2, Tex. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment and those injurious or contaminating to other lading), (1) serving the site of the Rice University Research Center located near Houston, Tex., as an off-route point in connection with applicant's authorized regular-route operations between Houston and Texas City, Tex., and (2) from the intersection of U.S. Highway 75 and Farm-to-Market Road 528, thence over Farm-to-Market Road 528 to the Rice University Research Center; alternate routes, from the intersection of U.S. Highway 75 with Spencer Highway, Genoa-Red Bluff Road, Kirby Road, and Farm-to-Market Road 528, thence over above-specified highways and roads to the Rice University Research Center, and return over the same routes, serving no intermediate points and coordinating the service with that rendered under other authority held by applicant.

NOTE: Common control may be involved

No. MC 41849 (Sub-No. 13), January 8, 1962. Applicant: KEIGHTLEY BROS., INC., 1601 South 39th Street, St. Louis, Mo. Applicant's attorney: Ernest A. Brooks II, 1311–12 Ambassador Building, St. Louis 1, Mo. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bulk commodities* (except petroleum products and cement), between points in the St. Louis, Mo.-East St. Louis, Ill., Commercial Zone, as defined by the Commission.

No. MC 66562 (Sub-No. 1870), filed January 9, 1962. Applicant: RAILWAY EXPRESS AGENCY, INCORPORATED, 219 East 42d Street, New York 17, N.Y. Applicant's attorney: William H. Marx (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, moving in express service, between Hammond, La., and Bogalusa, La.: from Hammond over U.S. Highway 190 to Covington, La., thence over Louisiana Highway 21 to Bogalusa, and return over the same route, serving the intermediate point of Covington, La. RESTRICTION: The service to be performed will be limited to that which is auxiliary to or supplemental of express service, and the shipments transported by applicant will be limited to those moving on a through bill of lading or express receipt, covering, in addition to the motor carrier movements by applicant, an immediately prior or an immediately subsequent movement by rail or air.

No. MC 86687 (Sub-No. 64), filed January 2, 1962. Applicant: SEABOARD AIR LINE RAILROAD COMPANY, a corporation, 3600 West Broad Street, Richmond, Va. Applicant's attorney: Wilkes C. Robinson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, (1) between junction U.S. Highway 17 and South Carolina Highway 41; from junction U.S. Highway 17 and South Carolina Highway 41, thence over U.S. Highway 17 to Georgetown, S.C., and return over the same route, serving no intermediate points, as an alternate route for operating convenience only in connection with applicant's regular-route operations, and (2) between junction U.S. Highways 521 and 17A and junction U.S. Highway 17A and South Carolina Highway 41; from junction U.S. Highways 521 and 17A, thence over U.S. Highway 17A to junction with South Carolina Highway 41, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only in connection with applicant's regular-route operations.

No. MC 107496 (Sub-No. 222), filed January 2, 1962. Applicant: RUAN TRANSPORT CORPORATION, 408 Southeast 30th Street, Des Moines, Iowa. Applicant's attorney: H. L. Fabritz (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from Albany, Ill., and points within five (5) miles thereof to points in Iowa.

NOTE: Applicant states it is wholly owned by John Ruan. Applicant controls and owns all of the outstanding capital stock of Illinois-Ruan Transport Corporation, an Illinois corporation, which also operates as a common carrier by motor vehicle in interstate commerce for the transportation of petroleum and other products, in bulk.

No. MC 109637 (Sub-No. 198), filed January 8, 1962. Applicant: SOUTHERN TANK LINES, INC., 4107 Bells Lane, Louisville 11, Ky. Applicant's representative: H. N. Nunnally (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Asphalt and asphalt products*, in bulk, in tank vehicles, from Bowling Green, Ky., to points in Tennessee (except Nashville, Tenn., and points within 10 miles thereof).

No. MC 112750 (Sub-No. 91), filed January 3, 1962. Applicant: ARMORED CARRIER CORPORATION, 222–17 Northern Boulevard, Bayside, N.Y. Applicant's attorney: James K. Knudson, 1821 Jefferson Place NW., Washington, D.C. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Exposed and processed film and prints, complimentary replacement film*, and *incidental dealer handling supplies and advertising literature* (excluding motion picture film used primarily for commercial theatre and television exhibition)—(a) between Boston, Mass., on the one hand, and on the other, points in Grafton, Merrimack, Belknap, Cheshire, and Sullivan Counties, N.H., under contract with Eastman Kodak Company; and (b) between Portland, Maine, on the one hand, and on the other, points in Strafford, Rockingham, Hillsboro, Merrimack, Keene, and Sullivan Counties, N.H., under contract with Bicknell Photo Service of Portland, Maine, (2) *Sales audit media*, consisting of *charge sales tickets, cash sales tickets, charge credit sales tickets, refund slips, cash register tapes, application forms and accompanying documents*, between Providence, R.I., on the one hand, and on the other, points in Middlesex, Essex and Bristol Counties, Mass., under contract with Cherry & Webb Company of Providence, R.I.

No. MC 113959 (Sub-No. 2), filed January 8, 1962. Applicant: LEMMON TRANSPORT COMPANY, INCORPORATED, P.O. Box 580, Marion, Va. Applicant's attorney: Harry C. Ames, Jr., Transportation Building, Washington 6, D.C. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Rotodome units*, from Marion, Va., to Bethpage (Nassau County) and Peconic (Suffolk County), Long Island, N.Y., and Belmont, Calif.

NOTE: Applicant holds common carrier authority in MC 107544 and Subs thereunder.

No. MC 123992 (Sub-No. 1) (2d CORRECTION), filed November 15, 1961, republished as corrected in the FEDERAL REGISTER, issue of December 20, 1961, two words republished, as corrected, this issue. Applicant: SCHWERMAN CO. OF PA., INC., 620 South 29th Street, Milwaukee 46, Wis. Applicant's attorney: James R. Ziperski (same address as applicant). Application as previously republished in the FEDERAL REGISTER, issue of December 20, 1961, is corrected in two places as follows:

1. In line 22 (third column) the word printed as "Monogalia" is corrected to read "Monongalia".

2. In line 26 (third column) the last word printed as "Writ" is corrected to read "Wirt".

No. MC 124079 (CLARIFICATION), filed December 5, 1961, published FEDERAL REGISTER issue of December 20, 1961, clarified December 29, 1961, and republished, as clarified, this issue. Applicant: JACK BOWER, doing business as BOWER'S TOWING, 376 East Cuyahoga Falls Avenue, Akron, Ohio. Applicant's attorney: Harold M. Wilson, First National Tower, Akron, Ohio. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Any motor or other highway vehicles designed for general highway transportation, which are dead, wrecked, disabled, abandoned, repossessed, stolen* and *embezzled*, with and without cargo, by wrecker equipment only, (2) *dollies*, where said vehicles are in such condition that the vehicle cannot be towed and (3) *replacement vehicles* and *equipment for wrecked and disabled vehicles*, by wrecker service only, between points in Medina, Portage, Stark, Summit, and Wayne Counties, Ohio, on the one hand, and, on the other, points in Indiana, Kentucky, Michigan, Pennsylvania, and West Virginia.

NOTE: Applicant states that the proposed operation is restricted to exclude vehicles of the armed services or forces shipped by the United States Government, by wrecker service only. The purpose of this republication is to substitute the above restriction in lieu of the restriction previously published.

MOTOR CARRIERS OF PASSENGERS

No. MC 45626 (Sub-No. 46), filed January 5, 1962. Applicant: VERMONT TRANSIT CO., INC., 135 St. Paul Street, Burlington, Vt. Applicant's attorney: L. C. Major, Jr., 2001 Massachusetts Avenue NW., Washington 6, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage*, and *express and newspapers* in the same vehicle with passengers, in special operations, including the right to tack or join intersecting routes over which carrier is presently authorized to operate; Between westerly junction New York Highways 7 and 22 and junction Vermont Highway 346 and U.S. Highway 7, from westerly junction New York Highways 7 and 22, over New York Highway 22 to junction New York Highway 346, thence over New York Highway 346 to the New York-Vermont State line, thence over Vermont Highway 346 to junction U.S. Highway 7, and return over the same route, serving all intermediate points.

NOTE: Applicant states it presently holds regular route authority over other routes authorizing and permitting operations between the terminal points of the route applied for. Applicant also states that the route applied for is being sought by applicant primarily in order to permit it to improve its existing routes for service to and from the new Pownal, Vermont, Race Track which is presently under construction on U.S. Highway 7 near the village of Pownal, Vt.

No. MC 119098 (Sub-No. 2), filed December 27, 1961. Applicant: SMITH BUS SERVICE, INC., 302 York Street, Manchester, Md. Applicant's representative: Donald E. Freeman, 97 Uniontown Road, Westminster, Md. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage* in the same vehicle with passengers, between Hanover, Pa., and Upperco-Fowblesburg, Md.: from Hanover, Pa., over Pennsylvania Highway 94 to the Maryland-Pennsylvania state line, and thence over Maryland Highway 30 to Upperco (Arcadia)-Fowblesburg, Md., and return over the same route, serving the intermediate points of Bandanna and State Line, Pa., and Melrose, Manchester, Greenmount, and Hampstead, Md.

No. MC 123082 (Sub-No. 2), filed December 26, 1961. Applicant: PEOPLES TRANSIT COMPANY, INC., Frostburg, Md. Applicant's representative: Donald E. Freeman, 97 Uniontown Road, Box 24, Westminster, Md. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage*, in the same vehicle with passengers, between Cumberland, Md., and Piedmont, W. Va.: from Cumberland over U.S. Highway 40 to Frostburg, Md., thence over Maryland Highway 36 to the Maryland-West Virginia state line (and Piedmont city line), and return over the same route, serving the intermediate points of Lavale, Eckhart Mines, Frostburg, Borden-Shaft, Midland, Lonaconing, Pekin, Moscow, Barton, Franklin, and Westernport, Md.

NOTE: Applicant states that it holds authority from the Maryland Public Service Commission to serve the same route and intermediate points in intrastate transportation.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under section 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto (49 CFR 1.240).

Authority sought for purchase by HENRY SCHMAELZLE, an individual, doing business as HENRY SCHMAELZLE TRANSPORTATION, 148 Davenport Avenue, New Haven, Conn., of a portion of the operating rights of H & B FREIGHTWAYS, INC. (JOHN H. KRICK, TRUSTEE), Totoket Road, North Branford, Conn. Applicants' attorneys: Reubin Kaminsky, 410 Asylum Street, Hartford, Conn., and Gerald W. Brownstein, 157 Church Street, New Haven, Conn. Operating rights sought to be transferred: *Scrap metals*, as a *common carrier* over irregular routes between points in Connecticut, on the one hand, and, on the other, New York, N.Y., Philadelphia, Pa., and points in New Jersey. Vendee holds no authority from this Commission. Application has been filed for temporary authority under section 210a(b).

No. MC–F–8041. Authority sought for control by TRANSCONTINENTAL BUS SYSTEM, INC., 315 Continental Avenue, Dallas 7, Tex., of CONTINENTAL DISPATCH, INC., 425 Bolton Avenue, Alexandria, La. Applicants' attorney: Warren A. Goff, 315 Continental Avenue, Dallas 7, Tex. Operating rights sought to be controlled: Authority applied for under applications filed August 18, 1961, in Docket Nos. MC–123883 and MC–123883 Sub 1, to transport as a *common carrier* over irregular routes, *commercial papers, documents and written instruments*, ordinarily used in banks and banking institutions, destined to or originating at banks or banking institutions (excluding coins, currency, negotiable securities, stationary and supplies), between points in Arkansas, those in Mississippi on and north of U.S. Highway 80, those in Missouri on and south of Missouri Highway 84, on the one hand, and, on the other, Memphis, Tenn., and between points in Rapides Parish, La., points in Louisiana on and east of Louisiana Highway 19 from the Louisiana Mississippi State Line to Baton Rouge, La., thence from Baton Rouge over Louisiana Highway 1 to the Gulf of Mexico, points in Mississippi, on and south of U.S. Highway 80, points in Baldwin and Mobile Counties, Ala., and Pensacola, Fla., on the one hand, and, on the other, New Orleans, La. TRANSCONTINENTAL BUS SYSTEM, INC., is authorized to operate as a *common carrier* in Illinois, Missouri, Kansas, California, New Mexico, Colorado, Texas, Oklahoma, Utah, Arizona, Nevada, Nebraska, Arkansas, Louisiana, Indiana, and Iowa. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–8042. Authority sought for purchase by PAUL E. MERRILL, an individual, doing business as MERRILL TRANSPORT CO., 1037 Forest Avenue, Portland, Maine, of the operating rights and property of CLESS G. DAVIS, an individual, doing business as QUEEN CITY TRANSPORTS, 179 St. Paul Street, Burlington, Vt. Applicant's attorney: Francis E. Barrett, Professional Building, 25 Bryant Avenue, East Milton 86, Mass. Operating rights sought to be transferred: *Petroleum products*, in bulk, in tank vehicles, as a *common carrier* over irregular routes, from South Portland, Maine, Troy, N.Y., and points within 20 miles of Troy, to points in Vermont, traversing New Hampshire for operating convenience only; from Fort Edward, Whitehall, and Montcalm Landing (about two miles south of Ticonderoga, N.Y.), N.Y., to certain points in Vermont; and from Burlington, Vt., to points in Coos and Grafton Counties, N.H. Vendee is authorized to operate as a *common carrier* in Maine, New Hampshire, Rhode Island, and Massachusetts. Application has been filed for temporary authority under section 210a(b).

No. MC–F–8043. Authority sought for purchase by R. L. JEFFRIES TRUCKING CO., INC., 1020 Pennsylvania Street, Evansville 1, Ind., of the operating rights of ECK MILLER CONTRACT CO., INC., 1125 Sweeney Street, Owensboro, Ky., and for acquisition by R. L. JEFFRIES, 3015 Hartig Avenue, Evansville, Ind., C. R. JEFFRIES, 4209 Jennings Lane, Evansville, Ind., and O. E. JEFFRIES, 2926 Hartig Avenue, Evansville, Ind., of control of such rights through the purchase. Applicants' attorney: Ernest A. Brooks II, 1311 Ambassador Building, St. Louis 1, Mo. Operating rights sought to be transferred: *Such commodities* as require the use of special equipment by reason of size or weight, but not including motor vehicles, as a *common carrier* over irregular routes, from points in Ohio, Indiana, Illinois, Missouri, Tennessee, Virginia, West Virginia, and the lower Peninsula of Michigan, to points in Indiana, and Kentucky within 150 miles of Owensboro, Ky., including Owensboro; RESTRICTIONS: (1) The service authorized above is restricted against the transportation of traffic moving between any two points both of which are in Indiana, and (2) the above-specified authority may not be joined with any of the other authority granted herein for the purpose of rendering through service; *such commodities* as require the use of special equipment by reason of size or weight, and *parts thereof*, when moving in connection therewith, from points in Indiana, Illinois, Kentucky, and Tennessee within 150 miles of Owensboro, Ky., to points in Ohio, Indiana, Illinois, Missouri, Tennessee, Virginia, West Virginia, and the lower Peninsula of Michigan, and; *oil well and mine machinery, pipe, and supplies*, between points in Indiana, Illinois, Kentucky, and Tennessee within 200 miles of Owensboro, Ky., on the one hand, and, on the other, points in Indiana, Illinois, Kentucky, Tennessee, Mississippi, and Georgia; and between points within 35 miles of Owensboro, Ky., on the one hand, and, on the other, points in West Virginia. Vendee is authorized to operate as a *common carrier* in Indiana, Illinois, Kentucky, Alabama, Arkansas, Florida, Georgia, Iowa, Kansas, Louisiana, Michigan, Mississippi, Missouri, Nebraska, Ohio, Oklahoma, Tennessee, Texas, West Virginia, and Wisconsin. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–8044. Authority sought for purchase by SUBLER TRANSFER, INC., East Main Street, Versailles, Ohio, of a portion of the operating rights of PHILIP S. ZANGHI, an individual, doing business as RED LINE TRANSFER CO., 2320 Monumental Road, Baltimore, Md., and for acquisition by KENNETH SUBLER, BASIL SUBLER and RUBY SUBLER, all of Versailles, Ohio, of control of such rights through the purchase. Applicants' attorney: Taylor C. Burneson, 3430 Le Veque-Lincoln Tower, Columbus 15, Ohio. Operating rights sought to be transferred: *Agricultural commodities, packing-house products, groceries* (except bananas), and *canned goods*, as a *common carrier* over a regular route between Baltimore, Md., and Harrisburg, Pa., serving the intermediate point of York, Pa., *agricultural commodities, packing-house products, groceries* (except bananas), and *canned goods*, over irregular routes, from Baltimore, Md., Harrisburg, York, Scranton, and Philadelphia, Pa., and New York, N.Y., to Baltimore, Md., Harrisburg, York, Scranton, Philadelphia, Pittsburgh, and Wilkes-Barre, Pa., New York, N.Y., Richmond, Va., and Washington, D.C., traversing Delaware and New Jersey for operating convenience only, *bananas*, from New York, N.Y., and Philadelphia, Pa., to Harrisburg, York, Scranton, Wilkes-Barre, and Pittsburgh, Pa., and *bakery products*, from Wilkes-Barre, Pa., to Baltimore, Md., and Washington, D.C. Vendee is authorized to operate as a *common carrier* in Maryland, Illinois, Ohio, Delaware, New Jersey, Kentucky, New York, Wisconsin, Pennsylvania, New Hampshire, Maine, Connecticut, Virginia, Nebraska, Indiana, West Virginia, Massachusetts, Rhode Island, Minnesota, Michigan, Missouri, Vermont, Iowa, and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

No. MC–F–8045. Authority sought for purchase by VON DER AHE VAN LINES, INC., 4601 Olive Street, St. Louis 8, Mo., of the operating rights of ARCHER VAN LINES, INC., 2900 South Main Street, Salt Lake City, Utah, and for acquisition by R. L. VON DER AHE, also of St. Louis, Mo., of control of such rights through the purchase. Applicants' attorney: Ernest A. Brooks II, 1301 Ambassador Building, St. Louis 1, Mo. Operating rights sought to be transferred: *Household goods*, as a *common carrier* over irregular routes between Julesburg, Colo., and points within 75 miles thereof, on the one hand, and, on the other, points in Wyoming, South Dakota, Nebraska, and Kansas. Vendee is authorized to operate as a *common carrier* in 48 states and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–8047. Authority sought for control by HOWARD H. HOLDCROFT, 3200 Highway 75 North, Sioux City, Iowa, of PREMIER TRUCKING SERVICE CO., 2315 East Fourth Street, Sioux City, Iowa. Applicants' attorney: R. G. May, 316 Security Bank Building, Sioux Falls, S. Dak. Operating rights sought to be controlled: *General commodities*, excepting, among others, household goods and commodities in bulk, as a *common carrier* over irregular routes between points in the Chicago, Ill., Commercial Zone, on the one hand, and, on the other, Sioux City, Iowa, and Omaha and South Omaha, Nebr., and *paper boxes*, from Morris, Ill., to Des Moines and Sioux City, Iowa, and Omaha and South Omaha, Nebr. HOWARD H. HOLDCROFT holds no authority from this Commission. However, he is affiliated with HOLDCROFT TRANSPORTATION COMPANY, 32d and Highway 75N, Box 266, Sioux City, Iowa, which is authorized to operate as a *common carrier* in Nebraska, Iowa, South Dakota, Missouri, and Minnesota. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–8048. Authority sought for control by THEODORE EARL HAINES, P.O. Box 677, Winchester, Va., of THE J. P. BRESLIN TRUCKING & TERMINAL CORPORATION, 142 West Ostend Street, Baltimore, Md. Applicants' representative: Theodore Earl Haines, P.O. Box 81, Winchester, Va. Operating rights sought to be controlled: *Canned goods, dried fruit*, and *matches*, as a *common carrier* over irregular routes between Baltimore, Md., on the one hand, and, on the other, points in Delaware, Maryland, Pennsylvania, Virginia, West Virginia, and the District of Columbia, within 300 miles of Baltimore. THEODORE EARL HAINES holds no authority from this Commission. However, he is affiliated with THE J. AND L. LINES, INC., P.O. Box 677, Winchester, Va., which is authorized to operate as a *common carrier* in Maryland, Virginia, West Virginia, Ohio, Pennsylvania, New York, North Carolina, South Carolina, and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

No. MC–F–8049. Authority sought for purchase by E. B. OLMSTED and NEIL B. OLMSTED, a partnership, doing business as OLMSTED TRANSPORTATION COMPANY, Route 3, Box 147, Mt. Vernon, Wash., of a portion of the operating rights of HOME TRANSFER & STORAGE CO., 1906 Southeast 10th, Portland, Oreg. Applicants' attorney: George R. LaBissoniere, 333 Central Building, Seattle 4, Wash. Operating rights sought to be transferred: *General commodities*, excepting, among others, household goods and commodities in bulk, as a *common carrier* over regular routes between Seattle, Wash., and Sedro Woolley, Wash., between Mount Vernon, Wash., and Deception Pass Bridge, Wash., serving all intermediate and certain off-route points, and over an alternate route for operating convenience only, *household goods*, over irregular routes between points in Skagit County, Wash., on the one hand, and, on the other, points in Idaho, Oregon, and Washington, and *heavy machinery*, between points in Skagit County, Wash., on the one hand, and, on the other, points in Whatcom, Snohomish, King, and Pierce Counties, Wash., and between points in Skagit County, Wash. Vendee holds no authority from this Commission, however, NEIL B. OLMSTED AND E. B. OLMSTED are equal partners with ALVIN ANDERSON, doing business as REFRIGERATED TRUCK LINES, Rt. 3, Box 147, Mt. Vernon, Wash., which are authorized to operate as a *common carrier* in Washington, Illinois, Iowa, Michigan, Minnesota, Nebraska, Utah, California, Wisconsin, and Oregon. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–8050. Authority sought for purchase by RUAN TRANSPORT CORPORATION, 408 Southeast 30th Street, Des Moines, Iowa, of the operating rights and property of DENVER CHICAGO TRANSPORT COMPANY, INC., 45th Avenue at Jackson Street, Denver, Colo., and for acquisition by JOHN RUAN, also of Des Moines, of control of such rights and property through the purchase. Applicants' attorneys: Rex H. Fowler, 503 Central National Bank Building, Des Moines, Iowa, H. L. Fabritz, 408 Southeast 30th St., Des Moines, Iowa, and Axelrod, Goodman, and Steiner, 39 South La Salle Street, Chicago 3, Ill. Operating rights sought to be transferred: *Petroleum products*, in bulk, in tank vehicles, as a *common carrier* over regular routes from Casper and Sinclair, Wyo., and the Texas Company refinery, near Casper, Wyo., to points in Colorado, serving the intermediate points on Colorado Highway 13 between the Wyoming-Colorado State line and Rifle, Colo., including Rifle, Colo., and those on U.S. Highway 6 between Rifle, Colo., and the Colorado-Utah State line; the intermediate and off-route points in Dolores, Montezuma, La Plata, San Juan, Archuleta, and Hinsdale Counties, Colo., and all other intermediate points in Colorado which on April 7, 1939, were not served by a standard guage railroad, restricted to delivery only; the intermediate and off-route points of Craig, Colo., and those within two miles of Craig, and the Texas Company refineries, near Casper, Wyo., restricted to pick-up only; and the off-route point of The White Eagle refinery, near Casper, Wyo., for pick-up of shipments moving via Durango, Colo., to points in the above-named Colorado Counties; *liquid petroleum products*, from Casper, Wyo., to Denver, Colo., serving the intermediate point of Berthoud, Colo., restricted to delivery only, from Denver, Colo., to Laramie, Wyo., and from Denver, Colo., to Evergreen, Colo., serving no intermediate points, *petroleum products*, in bulk, in tank vehicles, over regular and irregular routes, from Sinclair, Wyo., and the Texas Company refinery, near Casper, Wyo., over irregular routes to junction of the above-specified regular routes, thence over these routes to junction of certain specified routes in Colorado, thence over these routes to certain points in Colorado, *crude oil*, in bulk, in tank vehicles, over irregular routes, from points in Logan, Morgan, and Weld Counties, Colo., to points in Wyoming, *petroleum products*, in bulk, in tank vehicles, from points in Wyoming, to points in Colorado and South Dakota, and *rejected shipments* of petroleum products, in bulk, in tank vehicles from the destination points described immediately above, to points in Wyoming, *petroleum products*, in bulk, in tank vehicles, be-

tween points in Colorado, between points in Colorado, on the one hand, and, on the other, points in Utah, from points in Colorado to points in Kansas and Nebraska, from points in Wyoming to points in Nebraska, from Denver, Colo., and Cheyenne, Wyo., and points within ten miles of each, and from the site of the Texas Company refinery, near Casper, Wyo., to points in South Dakota, and from points in Wyoming to points in Utah, *petroleum and petroleum products*, in bulk, in tank vehicles, from points in Nebraska to points in Colorado and Wyoming, *petroleum and petroleum products* (except crude petroleum and liquefied petroleum gas), in bulk, in tank vehicles from Sidney, Nebr., to points in South Dakota, and from Sidney, Nebr., to points in Kansas, *hydrochloric acid*, in bulk, in tank vehicles, from Sterling, Colo., and Kimball, Nebr., to points in Wyoming, from Sterling, Colo., to points in Nebraska, and from Wichita, Kans., to Denver, Colo., *caustic soda*, in bulk, in tank vehicles, from Wichita, Kans., to Denver, Colo., and Cheyenne, Wyo., and from the plant site of the Dow Chemical Company located approximately nine miles from Denver, Colo., to points in Montana, *sulphuric acid*, in bulk, in tank vehicles, from Casper, Wyo., to points in South Dakota, from Denver, Colo., to Edgemont, S. Dak., and from Denver Colo., to Casper, Wyo., *ammonium hydroxide* and *ammonium phosphate*, in bulk in tank vehicles, from Henderson, Colo., to points in South Dakota, Nebraska, and Wyoming, *molasses*, in bulk, in tank vehicles, between Denver, Colo., on the one hand, and, on the other, points in Wyoming, Kansas, Nebraska and South Dakota, and from Gering, Nebr., to points in South Dakota, Colorado, and Wyoming, and from Torrington, Wyo., to points in South Dakota, Colorado, and Nebraska, *vegetable oils*, in bulk, in tank vehicles, from Sidney, Nebr., to points in Missouri, Kansas, Colorado, and Utah, *concrete aggregates* from Laramie, Wyo., to points in Colorado, Utah, Nebraska, Idaho, Kansas, and South Dakota, *petroleum products*, other than crude oil in its natural state, from points in Wyoming and Colorado, to points in Nebraska, from points in Colorado, to points in Wyoming and South Dakota, from points in Colorado and Laramie County, Wyo., to points in Kansas, and between points in Wyoming. RESTRICTION: The authority under the commodity description immediately above is restricted against the following transportation: *Petroleum products*, in bulk, in tank vehicles, from points in Wyoming and Colorado, to points in Nebraska, and from points in Colorado, to points in Kansas, *crude petroleum*, in bulk, in tank vehicles, between points in Moffat and Rio Blanco Counties, Colo., between points in Moffat and Rio Blanco Counties, Colo., on the one hand, and, on the other points in Uintah County, Utah, between points in Colorado, and from points in Colorado, to points in Nebraska, *sulphuric, hydrochloric, and hydrofluoric acids*, in bulk, in tank vehicles, from Denver and Sterling, Colo., to points in Wyoming, *air-entraining solutions*, in bulk, in tank vehicles, from Denver, Colo., to Glen Canyon Dam Site, Ariz., and points within five miles of the Dam Site, *asphalt* and *road oil*, in bulk, in tank vehicles, from Sinclair, Wyo., to Pocatello, Idaho, and points within five miles thereof, *residual fuel oils Nos. 4, 5, and 6*, in bulk, in tank vehicles, from Sinclair, Wyo., to points in Idaho, *petroleum products*, in bulk, in tank vehicles, from points in Colorado, to points in South Dakota, *spent sulphuric acid*, in bulk, in tank vehicles, from Casper, Wyo., to Denver, Colo., *nitric acid*, in bulk, in tank vehicles, from Louviers, Colo., to Jeffrey City, Wyo., *anhydrous ammonia*, in bulk, in tank vehicles, restricted to shipments having a prior movement by rail, from points in Wyoming, to Jeffrey City, Wyo., and Waltman, Wyo, *liquid caustic soda* (sodium hydroxide), and *solutions thereof*, in bulk, from the site of the Rocky Mountain Arsenal located near Ladora, Colo., to Harrisburg, Nebr., and points within 15 miles thereof, *anhydrous hydrazine*, in bulk, in tank vehicles, from Lake Charles, La., and Saltville, Va., to Nimbus and Santa Susana, Calif., and the site of the Rocky Mountain Arsenal at Denver, Colo., *unsymmetrical dimethylhydrazine*, in bulk, in tank vehicles, from Baltimore, Md., to Nimbus and Santa Susana, Calif., and the site of the Rocky Mountain Arsenal at Denver, Colo., *unsummetrical dimenthylhydrazine and anhydrous hydrazine mixtures*, in bulk, in tank vehicles, from the site of the Rocky Mountain Arsenal at Denver, Colo., to U.S. Government missile sites and supporting missile installations and to missile testing and research facilities in Arizona, Arkansas, California, Florida, Kansas, New York, and Tennessee, and *acids* and *chemicals* in bulk, from Denver, Colo., to points in South Dakota. Vendee is authorized to operate as a *common carrier* in Iowa, Illinois, Wisconsin, Missouri, Minnesota, Nebraska, Kansas, North Dakota, South Dakota, Indiana, Michigan, Ohio, Colorado, Oklahoma, Arkansas, Louisiana, Kentucky, Texas, Pennsylvania, and Tennessee. Application has not been filed for temporary authority under section 210a(b).

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary*.

[F.R. Doc. 62-499; Filed, Jan. 16, 1962; 8:48 a.m.]

[Nos. 33590, 33591]

RATES; GENERAL INCREASES

JANUARY 12, 1962.

General increases—transcontinental, No. 33590; general increases in transcontinental rates via freight forwarders, No. 33591.

In the above-entitled proceedings, by orders dated October 13, 1960, the Commission, by division 2, instituted investigations into the lawfulness of certain increases in the class and commodity rates for the transportation of property in transcontinental movements by motor common carriers and freight forwarders. Special procedures were followed as set forth in the amended order of February 2, 1961. Direct evidence and rebuttal were submitted in writing, and oral cross-examination was held at Kansas City, Mo. The initial decision of Hearing Examiner Leonard J. Kassel was served on January 12, 1962, upon the parties whose appearances are shown therein. The order of the Hearing Examiner directs the respondents to cancel the affected tariff schedules, and discontinues these proceedings. His findings are as follows:

Findings—In No. 33590, the examiner finds that:

(1) The weighted average operating ratios of the class I and II respondents are not shown to be substantially related to the traffic on which the increased rates apply;

(2) The respondents have not shown that any group of carriers are representative of the respondents generally in relation to the affected traffic;

(3) The respondents have not shown the effect of the increased expenses on the traffic on which the increased rates apply;

(4) The withholding of increases between certain points in the excluded territory and the application of the increases between other points cause undue preference to the former localities and undue prejudice to the latter localities;

(5) And that these respondents have failed to sustain the statutory burden of proving that the rates in issue are just and reasonable.

In No. 33591, the examiner finds that:

(1) The evidence relating to the increased expense to the forwarders is lacking in probative value for failure to supply the underlying data;

(2) Assuming the alleged increased expense has probative value, there is no showing (a) of its relation to the traffic on which the increased rates apply, and (b) that an increase in rates on a segment of traffic which will yield increased revenue approximately 2.25 times the increased expense on all traffic is just and reasonable;

(3) The withholding of increases between certain points in the excluded territory and the application of the increases between other points cause undue preference to the former localities and undue prejudice to the latter localities;

(4) And that the respondents have failed to sustain the statutory burden of proving that the rates in issue are just and reasonable.

Copies of the Hearing Examiner's initial decision may be obtained by any interested person from the Secretary, Interstate Commerce Commission, Washington 25, D.C.

Exceptions to the Hearing Examiner's initial decision may be filed by interested parties on or before February 16, 1962.

[SEAL] HAROLD D. McCOY, *Secretary*.

[F.R. Doc. 62-500; Filed, Jan. 16, 1962; 8:48 a.m.]

FOURTH SECTION APPLICATIONS FOR RELIEF

JANUARY 12, 1962.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 37507: *Synthetic plastics cast of the Rocky Mountains.* Filed by Southwestern Freight Bureau, Agent (No. B-8129), for interested rail carriers. Rates on synthetic plastics, other than liquid (returned shipments), in carloads, between points in official (including Illinois), southern, southwestern and western trunk-line territories.

Grounds for relief: Carrier competition.

Tariffs: Supplements 26, 1, 1, and 1 to Southwestern Freight Bureau tariffs I.C.C. 4354, 4455, 4456 and 4457, respectively.

FSA No. 37508: *Barite from points in Arkansas and Missouri.* Filed by Southwestern Freight Bureau, Agent (No. B-8135), for interested rail carriers. Rates on barite (barytes), ground, not precipitated or refined by chemical process, in carloads, from Butterfield, Dierks, Glenwood, Malvern and National, Ark., Cadet Fountain Farm, Mineral Point, Potosi, Tiff, Valles Mines and Vineland, Mo., to specified points in Texas.

Grounds for relief: Market competition.

Tariff: Supplement 7 to Southwestern Freight Bureau tariff I.C.C. 4429.

FSA No. 37509: *Plaster from Cody, Wyo., to southwestern territory.* Filed by Southwestern Freight Bureau, Agent (No. B-8132), for interested rail carriers. Rates on plaster and related articles, in carloads, from Cody, Wyo., to points in southwestern territory.

Grounds for relief: Market competition.

Tariff: Supplement 124 to Southwestern Freight Bureau tariff I.C.C. 4149.

FSA No. 37510: *Joint motor-rail rates—M-K-T and Chicago Express, Incorporated, et al.* Filed by Middlewest Motor Freight Bureau, Agent (No. 324), for interested carriers. Rates on commodities, moving on class and commodity rates, loaded in highway trailers of the motor carriers over the highway, thence transported on railroad flat cars of the railroad, between points in Kansas, Missouri, Oklahoma and Texas, on the one hand, and points in Illinois, Indiana, Kentucky, Michigan, New York, Ohio, Pennsylvania and Wisconsin, on the other.

Grounds for relief: Motor-truck competition.

FSA No. 37511: *Iron or steel bars from and to points in WTL territory.* Filed by Western Trunk Line Committee, Agent (No. A-2220), for interested rail carriers. Rates on iron or steel bars, in carloads, from Chicago and points grouped therewith, Chicago Heights, Joliet, Alton, East St. Louis and Federal, Ill., St. Louis, Mo., and Kansas City, Mo.-Kans. to Chicago, Ill., and points grouped therewith, Council Bluffs, Iowa, Jefferson City and North Jefferson, Mo., and Omaha, Nebr.

Grounds for relief: Barge and market competition.

Tariffs: Supplements 34 and 46 to Western Trunk Line Committee tariffs I.C.C. A-4347 and A-4271, respectively.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary*.

Codification Guide

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears at the end of each issue beginning with the second issue of the month.

Monthly, quarterly, and annual cumulative guides, published separately from the daily issues, include the section numbers as well as the part numbers affected.

Title 7—AGRICULTURE

Chapter III—Agricultural Research Service, Department of Agriculture

PART 319—FOREIGN QUARANTINE NOTICES

Subpart—Nursery Stock, Plants, and Seeds

PERMITS FOR IMPORTATION OF STRAWBERRY PLANTS AND REQUIREMENTS FOR THEIR FOREIGN CERTIFICATION

On October 7, 1961, there was published in the FEDERAL REGISTER (26 F.R. 9513) a notice of proposed rule making relating to the amendment of § 319.37(b) of the notice of quarantine relating to the importation of nursery stock, plants, and seeds (7 CFR 319.37(b)) and § 319.37–13 of the regulations supplemental to said quarantine (7 CFR 319.37–13). After due consideration of all relevant matters presented, and pursuant to the provisions of sections 1, 5, and 9 of the Plant Quarantine Act of 1912, as amended (7 U.S.C. 154, 159, 162), in lieu of the proposed amendments, §§ 319.37–12 and 319.37–13 of said regulations (7 CFR 319.37–12, 319.37–13) are hereby amended in the following respects:

1. § 319.37–12 is amended by adding thereto a paragraph (e), to read as follows:

§ 319.37–12 Applications for and issuance of permits.

* * * * *

(e) Permits for the importation of strawberry plants (Fragaria spp.) from Europe will be issued only upon presentation to the Director of Division of satisfactory evidence that the red stele disease organism (Phytophthora fragariae Hickman) does not exist in the country where the plants were grown.

2. Section 319.37–13(a) is amended by adding at the end thereof another sentence to read as follows:

§ 319.37–13 Certification.

(a) * * * Further, a certificate accompanying a shipment of strawberry plants from Europe shall, in addition, state that the red stele disease organism (Phytophthora fragariae Hickman) is not known to occur in the country where the plants were grown.

(Secs. 1, 5, and 9, 37 Stat. 315, 316, 318, as amended; 7 U.S.C. 154, 159, 162)

The foregoing amendments shall become effective January 18, 1962.

These amendments must be made effective promptly to protect the United States against the entry of certain races of the red stele disease of strawberries. Certain races of this serious fungus disease, caused by Phytophthora fragariae Hickman, are not now prevalent in the United States. It has recently been reported to this Department that one or more of the races not reported as present here occur in a number of European countries. Although certain races of this fungus are known to exist in domestic strawberry plantings, many varieties of American strawberries are resistant to infection by the races prevalent here. However, recent experiments by Department scientists have shown that these resistant American varieties are all susceptible to infection by at least one of the foreign races. The fungus causing the disease is carried by infected strawberry plants and its presence or absence cannot be reliably determined by present port of entry inspection methods. Neither is there an effective treatment available for strawberry plants suspected of being infected. Moreover, it is impossible to distinguish between the races known to exist here and those found abroad, except by extensive laboratory work. Hereafter, a permit to import strawberry plants from any European country will be issued only when satisfactory evidence is submitted to the Director of the Plant Quarantine Division that such country is free of the red stele disease organism. Furthermore, the certificate accompanying such a permitted shipment from Europe must contain a statement that the red stele disease organism is not known to occur in the country where the plants were grown.

The amendments are less restrictive than the prohibitions originally proposed and it does not appear that further public rule making procedure will make new information available to the Department.

Therefore, under section 4 of the Administrative Procedure Act (5 U.S.C. 1003), it is found upon good cause that further notice of rule making and other public procedure on the amendments are impracticable, unnecessary, and contrary to the public interest and good cause is found for making them effective less than 30 days after their publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 12th day of January 1962.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

[F.R. Doc. 62–575; Filed, Jan. 17, 1962; 8:50 a.m.]

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 917—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

Changes in Representation of Certain Districts on Bartlett Pear Commodity Committee

Notice was published in the FEDERAL REGISTER issue of December 30, 1961 (26 F.R. 12782), that the Department was giving consideration to proposed amendments to the rules and regulations (Subpart—Rules and Regulations; 7 CFR 917.100, 24 F.R. 469) currently in effect pursuant to the marketing agreement, as amended, and Order No. 917, as amended (7 CFR Part 917), regulating the handling of Bartlett pears, plums, and Elberta peaches grown in California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

After consideration of all relevant matters presented, including the proposal set forth in the aforesaid notice which was submitted by the Control Committee (established pursuant to said amended marketing agreement and order as the agency to administer the provisions thereof), it is hereby found that the amendment, as hereinafter set forth, of the said rules and regulations is in accordance with the provisions of the said amended marketing agreement and order and will tend to effectuate the declared purposes of the Agricultural Marketing Agreement Act of 1937, as amended. Such amendment is hereby approved; and the said rules and regulations are amended as follows:

Delete § 917.116 and substitute therefor the following:

§ 917.116 Changes in representation of certain districts on Bartlett Pear Commodity Committee.

The representation or membership on the Bartlett Pear Commodity Committee is changed to provide for:

(a) One (1) member to represent the North Sacramento Valley District and the Central Sacramento Valley District;

(b) Three (3) members to represent the Sacramento River District, Stockton District, Contra Costa District, Santa Clara District, and Solano District;

(c) Two (2) members to represent the Placer District and the Colfax District;

(d) Three (3) members to represent the Lake District;

(e) One (1) member to represent the North Coast District and the North Bay District;

(f) Two (2) members to represent the El Dorado District; and all of the area not included in the North Sacramento Valley District, Central Sacramento Valley District, Colfax District, Placer District, Sacramento River District, Stockton District, Solano District, Contra Costa District, Santa Clara District, Lake District, North Coast District, and North Bay District.

It is hereby further found that good cause exists for not postponing the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 1001–1011) in that (1) changes in the representation of districts on the commodity committees are required to be based, insofar as practicable, on shipments of fruit during the past 3 seasons; (2) accurate information concerning such shipments was not

available to the Department until December 8, 1961; (3) notice that consideration was being given to the proposed amendment was issued on December 27, 1961, and published in the FEDERAL REGISTER on December 30, 1961; (4) nominations for membership on the commodity committees are required to be made not later than February 15 of each year; and (5) it is necessary that this amendment be made effective as soon as practicable in order that the required nomination meetings may be scheduled and nominations made prior to such date.

Dated: January 12, 1962, to become effective upon publication in the FEDERAL REGISTER.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 62–571; Filed, Jan. 17, 1962; 8:50 a.m.]

PART 950—IRISH POTATOES GROWN IN MAINE

Approval of Expenses and Rate of Assessment

Notice of rule making regarding proposed expenses and rate of assessment, to be made effective under Marketing Agreement No. 122 and Order No. 950 (7 CFR Part 950), regulating the handling of Irish potatoes grown in the State of Maine, was published in the FEDERAL REGISTER December 23, 1961 (26 F.R. 12294). This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674). After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, which proposals were adopted and submitted for approval by the Maine Potato Administrative Committee established pursuant to said marketing agreement and order, it is hereby found and determined that:

§ 950.209 Expenses and rate of assessment.

(a) The reasonable expenses that are likely to be incurred by the Maine Potato Administrative Committee to enable such committee to perform its functions pursuant to the provisions of aforesaid marketing agreement and order, during the fiscal period ending August 31, 1962, will amount to $40,544.00.

(b) The rate of assessment to be effective for the fiscal period ending August 31, 1962, shall be $1.25 per railroad car, $1.00 per truckload of 25,000 pounds or over, and $0.50 (fifty cents) per truckload of less than 25,000 pounds, or the respective equivalent quantities, of potatoes handled during said fiscal year.

(c) The terms used in this section shall have the same meaning as when used in this part.

It is hereby found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 1001–1011) in that: (1) The relevant provisions of said marketing agreement and order require that rates of assessment fixed for a particular fiscal period shall be applicable to all assessable potatoes from the beginning of such period and (2) the current fiscal period began on September 1, 1961, and the rates of assessment herein fixed will automatically apply to all assessable potatoes beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 12, 1962, to become effective upon publication in the FEDERAL REGISTER.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division.

[F.R. Doc. 62–572; Filed, Jan. 17, 1962; 8:50 a.m.]

[971.304, Amdt. 3]

PART 971—LETTUCE GROWN IN LOWER RIO GRANDE VALLEY OF SOUTH TEXAS

Limitation of Shipments

Findings. (a) Pursuant to Marketing Agreement No. 144 and Order No. 971 (7 CFR Part 971, formerly Part 1034), regulating the handling of lettuce grown in the Lower Rio Grande Valley in South Texas (Cameron, Hidalgo, Starr, and Willacy Counties), effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674), and upon the basis of the recommendation and information submitted by the South Texas Lettuce Committee, established pursuant to said marketing agreement and order, and upon other available information, it is hereby found that the amendment to the limitation of shipments hereinafter set forth will tend to effectuate the declared policy of the act.

(b) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, or engage in public rule making procedure, and that good cause exists for not postponing the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 1001–1011) in that (1) the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, (2) compliance with this amendment will not require any special preparation on the part of handlers, (3) information regarding the committee's recommendation has been made available to producers and handlers in the production area, and (4) this amendment relieves restrictions on the handling of lettuce grown in the production area.

Order, as amended. In § 971.304 (26 F.R. 10793, 11236, 12280), delete the provisions of paragraph (a) *Grade*, and paragraph (a) is, therefore, reserved.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date. Dated January 15, 1962, to become effective January 15, 1962.

F. L. SOUTHERLAND,
Acting Director, Fruit and Vegetable Division.

[F.R. Doc. 62–570; Filed, Jan. 17, 1962; 8:50 a.m.]

Title 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

STUDENTS AND EXCHANGE ALIENS

The following amendments to Chapter I of Title 8 of the Code of Federal Regulations are hereby prescribed:

PART 212—DOCUMENTARY REQUIREMENTS: NONIMMIGRANTS; WAIVERS; ADMISSION OF CERTAIN INADMISSIBLE ALIENS; PAROLE

Section 212.7 is amended by adding paragraph (c) to read as follows:

§ 212.7 Waiver of certain grounds of excludability.

* * * * *

(c) *Section 212(e).* An exchange alien who believes that compliance with the foreign-residence requirements of section 212(e) of the Act would impose exceptional hardship upon his spouse or child who is a citizen of the United States or a lawful permanent resident alien shall apply for a waiver on Form I–612. The applicant shall be notified of the decision and if the application is denied of the reasons therefor.

PART 214—NONIMMIGRANT CLASSES

1. Paragraph (a) of § 214.1 is amended to read as follows:

§ 214.1 Requirements for admission, extension, and maintenance of status.

(a) *General.* Every nonimmigrant alien applicant for admission or extension of stay in the United States shall establish that he is admissible to the United States or that a ground of inadmissibility has been waived under section 212(d)(3) of the Act; present a passport, valid for the period set forth in section 212(a)(26) of the Act, except as otherwise provided in this chapter, and, upon admission, a valid visa, except when either or both documents have been waived; agree that he will abide by all the terms and conditions of his admission or extension, and that he will depart at the expiration of the period of his admission or extension or on abandonment of his authorized nonimmigrant status; and post a bond on Form I–352 in the sum of not less than $500 if required by the district director, special inquiry officer, or the Board of Immigration Appeals at the time of admission or extension, to insure the maintenance of the alien's nonimmigrant status and his departure from the United States. A nonimmigrant other than one in the classes defined in (1) section 101(a)(15)(A)(i) or (ii) or (G)(i), (ii), (iii), or (iv) of the Act (members of which classes are not required to obtain extensions of stay if they continue to be so recognized by the Secretary of State as members of such classes); (2) section 101(a)(15)(C) or (D) of the Act (members of which classes are ineligible for extensions of stay); (3) section 101(a)(15)(J) of the Act, or (4) Title V of the Agricultural Act of 1949, as amended, and whose period of admission has not expired, shall apply on Form I–539 and may be granted or denied, without appeal, an extension of his period of temporary admission by an officer in charge of a suboffice or a district director.

2. Paragraphs (f) and (j) of § 214.2 are amended to read as follows:

§ 214.2 Special requirements for admission, extension, and maintenance of status.

* * * * *

(f) *Students.* A student seeking admission to the United States under section 101(a)(15)(F)(i) of the Act and his accompanying spouse and minor children shall not be eligible for admission unless he presents Form I–20 properly filled out by himself and the school to which he is destined. The student's spouse and minor children following to join him shall not be eligible for admission into the United States unless they present Form I–20 from the school in which the student is enrolled stating that he is taking a full course of study and noted by the school to indicate the date of expiration of his authorized stay in the United States as shown on the student's Form I–94. Form I–20 presented by a student returning from a temporary absence may be retained by him and used for any number of reentries within one year of the date of its issuance. A student shall not be eligible for transfer to another school unless he presents a valid Form I–20 completed by the school to which he desires to transfer. An application by a student for permission to accept employment shall be filed on Form I–538 and may be granted or denied without appeal by an officer in charge of a suboffice or a district director. A student's spouse or child shall not be eligible for an extension of stay unless the student is eligible for an extension of stay.

* * * * *

(j) *Exchange aliens.* As used in this chapter the term "exchange alien" means a nonimmigrant alien who was admitted to the United States under section 101(a)(15)(J) of the Act or acquired such status after admission, or who acquired exchange-visitor status under the United States Information and Educational Exchange Act of 1948, as amended. An exchange alien coming to the United States as a participant in a program designated pursuant to section 101(a)(15)(J) of the Act and his accompanying spouse and minor children shall not be eligible for admission unless the participant presents completely executed Form DSP–66 or DSP–67. The spouse and minor children following to join the participant shall not be eligible for admission unless they present a copy of the current Form DSP–66 or DSP–67 issued to the participant by his program sponsor. Form DSP–66 or DSP–67 presented by an exchange alien returning from a temporary absence may be retained by such alien and used for any number of reentries within one year of the date of its issuance. When applying for an extension of stay, a spouse or child of a participant in a designated exchange program shall be classified under section 101(a)(15)(J) of the Act unless the spouse or child is applying for an extension of stay for a purpose other than to accompany the participant. A spouse or child accompanying a participant shall not be eligible for an extension of stay unless the participant is eligible for an extension of stay.

3. Section 214.3 is amended to read as follows:

§ 214.3 Petitions for approval of schools.

Any institution or place of study seeking approval for the attendance of alien students shall file with the district director having administrative jurisdiction over the place in which it is located a Form I–17. The petitioner shall be notified of the decision, and, if the petition is denied, of the reasons therefor and of the right to appeal in accordance with the provisions of Part 103 of this chapter. Whenever a district director having administrative jurisdiction over the place in which an approved institution of learning or place of study is located has reason to believe that it is no longer entitled to approval, he shall send it a notice containing the reasons why it is proposed within 30 days of the delivery of the notice to enter a decision withdrawing the approval previously granted. Within such 30-day period, which may be extended, the institution or place of study may submit to the district director written representations, under oath and supported by documentary evidence, setting forth reasons why the approval should not be withdrawn. After consideration of the facts presented, the district director shall notify the institution or place of study in writing of his decision and if said decision is to withdraw the approval previously granted the reasons therefor and of its right to appeal in accordance with the provisions of Part 103 of this chapter. The required report concerning each nonimmigrant F–1 student shall be made on Form I–20B.

PART 248—CHANGE OF NONIMMIGRANT CLASSIFICATION

Section 248.1 is amended to read as follows:

§ 248.1 Scope of part.

Any alien lawfully admitted to the United States as a nonimmigrant (including an alien who acquired such status pursuant to section 247 of the Act) who is continuing to maintain his nonimmigrant status, may apply to have his nonimmigrant classification changed to any other nonimmigrant classification for which he may be qualified. This section shall not apply to an alien classified as a nonimmigrant under section 101(a)(15)(D) of the Act, or to an alien classified as a nonimmigrant under section 101(a)(15)(C) who is within the purview of section 238(d) of that Act.

PART 282—FORMS FOR SALE TO PUBLIC

Section 282.1 is amended to read as follows:

§ 282.1 Forms printed by the Public Printer.

The Public Printer is authorized to print for sale to the public by the Superintendent of Documents the following forms prescribed by Subchapter B of this chapter: G–28, I–20, I–94, I–95, I–129B, I–130, I–131, and I–418.

PART 299—IMMIGRATION FORMS

1. The list of forms in § 299.1 *Prescribed forms* is amended in the following respects:

a. The following forms and references thereto are added:

Form No.	*Title and description*
DSP–67	Certificate of Eligibility for Program Transfer of Exchange Visitors.
I–538	Application by Nonimmigrant F–1 Student for Permission to Accept Employment.
I–612	Application for Waiver of the Foreign Residence Requirement of Section 212(e) of the Immigration and Nationality Act.

b. The following form and reference thereto is deleted:

Form No.	*Title and description*
I–21	Report of Initial Registration and Termination of Attendance of Nonimmigrant "F" Student.

2. Section 299.2 is amended to read as follows:

§ 299.2 Forms available from the Superintendent of Documents.

The following forms required for compliance with the provisions of Subchapter B of this chapter may be obtained, upon prepayment, from the Superintendent of Documents, Government Printing Office, Washington, D.C.: G–28, I–20, I–94, I–95, I–129B, I–130, I–131, and I–418. A small supply of those forms shall be set aside by immigration officers for free distribution and official use.

3. Section 299.3 is amended to read as follows:

§ 299.3 Reproduction of forms by private parties.

The following forms required for compliance with the provisions of Subchapter B of this chapter may be printed or otherwise reproduced by an appropriate duplicating process by private parties at their own expense: I–20, I–94, I–95, and I–418. Forms printed or re-

produced by private parties shall conform to the officially printed forms currently in use with respect to size, wording, arrangement, style and size of type, and paper specifications. Such forms and all entries required to be made thereon shall be printed or otherwise duplicated in the English language with black ink or dye that will not fade or "feather" within 20 years.

(Sec. 103, 66 Stat. 173; 8 U.S.C. 1103)

This order shall become effective on the date of its publication in the FEDERAL REGISTER. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003) as to notice of proposed rule making and delayed effective date is unnecessary in this instance because the rules prescribed by the order, implementing the Act of September 21, 1961 (75 Stat. 527), relate to agency procedure.

Dated: January 12, 1962.

R. F. FARRELL,
Commissioner of Immigration and Naturalization.

[F.R. Doc. 62-578; Filed, Jan. 17, 1962; 8:50 a.m.]

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS AND POULTRY

PART 74—SCABIES IN SHEEP

Interstate Movement

Pursuant to the provisions of sections 1 through 4 of the Act of March 3, 1905, as amended, sections 1 and 2 of the Act of February 2, 1903, as amended, and sections 4 through 7 of the Act of May 29, 1884, as amended (21 U.S.C. 111–113, 115, 117, 120, 121, 123–126), §§ 74.2 and 74.3 of Part 74, Subchapter C, Chapter I, Title 9, Code of Federal Regulations, as amended, are hereby amended to read respectively, as follows:

§ 74.2 **Designation of free and infected areas.**

(a) Notice is hereby given that sheep in the following States, Territories, and District, or parts thereof as specified, are not known to be infected with scabies and such States, Territories, District, and parts thereof, are hereby designated as free areas:

(1) Alabama, Arizona, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Idaho, Louisiana, Maine, Massachusetts, Mississippi, Montana, Nevada, New Hampshire, North Carolina, Oregon, Puerto Rico, Rhode Island, South Carolina, Texas, Utah, Vermont, Washington, and Wyoming;

(2) That portion of South Dakota lying west of the Missouri River;

(3) The following Counties in Nebraska: Banner, Box Butte, Cheyenne, Dawes, Deuel, Garden, Kimball, Morrill, Sheridan, Sioux, and Scottsbluff;

(4) That portion of McKinley and San Juan Counties in New Mexico, occupied by the Navajo Indian Reservation;

(5) All of that area of the State of North Dakota lying west of the Missouri River and State Highway No. 8, beginning at a point where said river intersects the South Dakota boundary line and continuing along said river to a point on the Garrison Dam Reservoir directly south of the intersection of State Highways Nos. 23 and 8; thence directly north to the intersection of State Highways Nos. 23 and 8; thence, north along State Highway No. 8 to the North Dakota-Canadian boundary; and

(6) The following Counties in Kansas: Phillips, Rooks, Ellis, Rush, Pawnee, Edwards, Kiowa, and Comanche, and all Counties in the State of Kansas lying west thereof.

(b) Notice is hereby given also that sheep scabies exists in all States and Territories and parts of States not designated as free areas in paragraph (a) of this section, and they are hereby designated as infected areas.

§ 74.3 **Designation of eradication areas.**

(a) Notice is hereby given that sheep in the following States, Territories, or parts thereof as specified, are being handled systematically to eradicate scabies in sheep and such States, Territories, and parts thereof, are hereby designated as eradication areas:

(1) Arkansas, Hawaii, Illinois, New Jersey, New York, Tennessee, and Wisconsin;

(2) That portion of South Dakota lying east of the Missouri River;

(3) The following Counties in Kansas: Barber, Barton, Cloud, Ellsworth, Harper, Harvey, Kingman, Lincoln, McPherson, Mitchell, Osborne, Ottawa, Pratt, Reno, Republic, Rice, Russell, Sedgwick, Smith, Stafford, and Sumner Counties;

(4) All Counties in Nebraska except Banner, Box Butte, Cheyenne, Dawes, Deuel, Garden, Kimball, Morrill, Sheridan, Sioux, and Scottsbluff;

(5) All Counties in New Mexico except that portion of McKinley and San Juan Counties occupied by the Navajo Indian Reservation;

(6) All of the State of North Dakota except that area lying west of the Missouri River and State Highway No. 8, beginning at a point where said river intersects the South Dakota boundary line and continuing along said river to a point on the Garrison Dam Reservoir directly south of the intersection of State Highways Nos. 23 and 8; thence, directly north to the intersection of State Highways Nos. 23 and 8; thence, north along State Highway No. 8 to the North Dakota-Canadian boundary; and

(7) The following Counties in Michigan: Alger, Baraga, Chippewa, Delta, Dickinson, Gogebic, Houghton, Iron, Keweenaw, Luce, Mackinac, Marquette, Menominee, Ontonagon, and Schoolcraft Counties.

(Secs. 4–7, 23 Stat. 32, as amended, secs. 1, 2, 32 Stat. 791–792, as amended, secs. 1–4, 33 Stat. 1264, as amended, 1265, as amended; 21 U.S.C. 111–113, 115, 117, 120, 121, 123–126; 19 F.R. 74, as amended)

Effective date. The foregoing amendment shall become effective upon publication in the FEDERAL REGISTER.

The amendment deletes all parts of New Mexico heretofore designated as free areas, with the exception of portions of McKinley and San Juan Counties, from the list of free areas and adds such parts to the list of infected and eradication areas, as sheep scabies is known to exist in these parts in New Mexico. Hereafter, the restrictions pertaining to the interstate movement of sheep from or into infected and eradication areas as contained in the regulations in 9 CFR Part 74, as amended, will apply to such parts.

The amendment imposes certain restrictions necessary to prevent the spread of scabies, a communicable disease of sheep, and must be made effective promptly in order to accomplish its purpose in the public interest. Accordingly, under section 4 of the Administrative Procedure Act (5 U.S.C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 12th day of January 1962.

M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

[F.R. Doc. 62-576; Filed, Jan. 17, 1962; 8:50 a.m.]

Title 12—BANKS AND BANKING

Chapter II—Federal Reserve System

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

PART 262—RULES OF PROCEDURE

Applications and Requests

1. Effective January 12, 1962, Part 262 is amended by adding the following new subparagraph (7) to paragraph (f) of § 262.2:

§ 262.2 **Applications and requests.**

* * * * *

(f) *Bank holding company and merger applications.* * * *

(7) In any case in which the Board orders a public hearing or a public oral presentation of views, as soon as practicable following publication in the FEDERAL REGISTER of notice of such public proceeding, the application shall be available for inspection by the public except such portions thereof as to which the Board finds that disclosure would not be in the public interest.

2a. The purpose of this amendment is to make explicit in the Board's Rules of Procedure the present practice of the Board under which bank merger and bank holding company applications are made available for public inspection in cases in which the Board orders that a hearing or oral presentation of views shall be a public proceeding.

b. Notice, public participation, and deferred effective date are not required by section 4 of the Administrative Procedure Act for rules of agency procedure or practice, and therefore were not provided in connection with the adoption of these amendments.

(Sec. 11(i), 38 Stat. 262; 12 U.S.C. 248(i))

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM,
[SEAL] MERRITT SHERMAN,
Secretary.

[F.R. Doc. 62-539; Filed, Jan. 17, 1962; 8:47 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER C—AIRCRAFT REGULATIONS

[Reg. Docket No. 1026; Amdt. 388]

PART 507—AIRWORTHINESS DIRECTIVES

Douglas DC-6 and DC-7 Series Aircraft

Investigation has shown that extensions of repetitive inspection intervals based on service experience may be granted to some operators of Douglas DC-6 and DC-7 Series aircraft in complying with Amendment 259, 26 F.R. 1854. Accordingly, Amendment 259 is being amended to permit extension of inspection intervals where justified.

Since this amendment provides a procedure by which a different inspection interval may be established for the operators concerned, and thus relieves a present restriction, compliance with notice and public procedure hereon is unnecessary, and it may be made effective upon publication in the FEDERAL REGISTER.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 507.10(a) of Part 507 (14 CFR Part 507), is amended as follows:

Amendment 259 (26 F.R. 1854), is amended by adding paragraph (d) as follows:

(d) Upon request of the operator, an FAA maintenance inspector, subject to prior approval of the Chief, Engineering and Manufacturing Branch, FAA Western Region, may adjust the repetitive inspection intervals specified in this Airworthiness Directive to permit compliance at an established inspection period of the operator if the request contains substantiating data to justify the increase for such operator.

This amendment shall become effective January 18, 1962.

(Sec. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on January 11, 1962.

G. S. MOORE,
Acting Director,
Flight Standards Service.

[F.R. Doc. 62-524; Filed, Jan. 17, 1962; 8:46 a.m.]

[Reg. Docket No. 1026; Amdt. 386]

PART 507—AIRWORTHINESS DIRECTIVES

Piper Models PA-18 and PA-18A Aircraft

There have been several failures of the rudder cable attachment fitting lug at the weld on the rudder pedals on Piper Models PA-18 and PA-18A aircraft. To preclude further failures, an airworthiness directive requiring inspection of the weld is considered necessary.

As a situation exists which demands immediate action in the interest of safety, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days after date of publication in the FEDERAL REGISTER.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 507.10(a) of Part 507 (14 CFR Part 507), is hereby amended by adding the following new airworthiness directive:

PIPER. Applies to all Models PA-18 and PA-18A Series aircraft.

Compliance required within the next 25 hours' time in service after the effective date of this AD unless already accomplished.

Several failures have been reported of the rudder cable attachment fitting lug, P/N 40831, at the weld on rudder pedals, P/N's 40842-04 and 40842-05. Accordingly, the following shall be accomplished:

Visually inspect the weld that attaches the rudder cable lug, P/N 40831, to the foot bar tube on both left and right rudder pedals for evidence of separation, cracks in the weld, insufficient length of weld, or excessive wear of weld. A weld of sufficient length will extend approximately three-fourths of the way round the tube.

If the weld is separated, cracked, excessively worn, or of insufficient length, replace the rudder pedal assembly prior to further flight.

(Piper Service Bulletin No. 207, dated December 15, 1961, covers this subject.)

This amendment shall become effective January 23, 1962.

(Secs. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on January 11, 1962.

G. S. MOORE,
Acting Director,
Flight Standards Service.

[F.R. Doc. 62-525; Filed, Jan. 17, 1962; 8:46 a.m.]

[Reg. Docket No. 1027; Amdt. 387]

PART 507—AIRWORTHINESS DIRECTIVES

Piper Model PA-25 Aircraft

Amendment 298, 26 F.R. 5621, requires inspection of the front spar hinge fittings on certain Piper PA-25 aircraft every 100 hours' time in service until FAA approved modified parts are installed. FAA approved parts have been designed and are now available. The results of the inspections required by Amendment 298, have shown that in the interest of safety the present fittings should be replaced rather than be repeatedly inspected. Therefore Amendment 298, 26 F.R. 5621, is being superseded by a new directive to require installation of the modified fittings.

As a situation exists which demands immediate action in the interest of safety, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective upon publication in the FEDERAL REGISTER.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 507.10(a) of Part 507 (14 CFR Part 507), is hereby amended by adding the following new airworthiness directive:

PIPER. Applies to Model PA-25 aircraft, Serial Numbers 25-1 to 25-619 inclusive, 25-622, 25-623, 25-625, and 25-626.

Compliance required as indicated.

As a result of inspections performed on the aluminum front spar wing-to-fuselage attachment fittings, Piper P/N's 61111-00 and 61111-01, it has been determined that the following action is necessary. Within the next 25 hours' time in service after the effective date of this AD, but not later than February 15, 1962, unless already accomplished, replace the aluminum front spar wing-to-fuselage attachment fittings, Piper P/N's 61111-00 and 61111-01, with steel forgings, Piper P/N's 60113-00 and 60113-01, or equivalent parts approved by the FAA Eastern Region, Engineering and Manufacturing Branch. The steel forgings have ⅛ inch raised digits "60112" or "60112-1" on the parts.

The replacement shall be accomplished in accordance with Piper Service Bulletin No. 206, dated August 24, 1961, or FAA approved equivalent.

(Piper Service Bulletin No. 206, dated August 24, 1961, pertains to this subject.)

This supersedes Amendment 298, 26 F.R. 5621.

This amendment shall become effective January 18, 1962.

(Sec. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on January 11, 1962.

G. S. MOORE,
Acting Director,
Flight Standards Service.

[F.R. Doc. 62-526; Filed, Jan. 17, 1962; 8:46 a.m.]

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 61-LA-57]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Revocation of Segment of Low Altitude VOR Federal Airway and Associated Control Area and Alteration of Control Area Extension

The purpose of these amendments to §§ 600.6253, 601.6253 and 601.1416 of the regulations of the Administrator is to

revoke a segment of VOR Federal airway No. 253 and its associated control area, and to redefine the Salt Lake City, Utah, control area extension.

The segment of Victor 253 between the Timpie, Utah, intersection and the Tooele, Utah, intersection has a minimum en route altitude of 15,000 feet MSL which is above the ceiling of the low altitude airway structure in the continental United States. Consequently, this airway segment is, in effect, unusable and is therefore revoked herein. Intermediate altitude VOR Federal airway No. 1656 now serves this route at altitudes above 14,500 feet MSL.

The referred to portion of Victor 253 presently constitutes the southwest boundary of the Salt Lake City control area extension. It is therefore necessary to redefine this area using an appropriate radial of the Provo, Utah, VOR. This will not change the configuration of the existing Salt Lake City control area extension.

Since the changes effected by these amendments impose no additional burden on any person, notice and public procedure hereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, these amendments will become effective more than thirty days after publication.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), the following actions are taken:

1. Section 600.6253 (14 CFR 600.6253) is amended to read:

§ 600.6253 VOR Federal airway No. 253 (Provo, Utah, to Tooele, Utah, and Timpie, Utah, to Boise, Idaho).

From the Provo, Utah, VOR to the INT of the Ogden, Utah, VOR 194° and the Provo, VOR 315° radials. From the INT of the Salt Lake City, Utah, VOR 265° and the Ogden VOR 225° radials via the Bonneville, Utah, VOR; Lucin, Utah, VOR; Twin Falls, Idaho, VOR; to the Boise, Idaho, VOR.

2. Section 601.6253 (14 CFR 601.6253) is amended to read:

§ 601.6253 VOR Federal airway No. 253 control areas (Provo, Utah, to Tooele, Utah, and Timpie, Utah, to Boise, Idaho).

All of VOR Federal airway No. 253.

§ 601.1416 [Amendment]

3. In the text of § 601.1416 (14 CFR 601.1416) "NW along VOR Federal airway No. 253 to the INT of VOR Federal airway No. 32; and E along Victor 32 to the point of beginning." is deleted and "NW along a line parallel to and 5 miles NE of the Provo 315° radial to VOR Federal airway No. 32; thence E along Victor 32 to the point of beginning." is substituted therefor.

These amendments shall become effective 0001 e.s.t. March 8, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 11, 1962.

CHARLES W. CARMODY,
Acting Director,
Air Traffic Service.

[F.R. Doc. 62-536; Filed, Jan. 17, 1962; 8:46 a.m.]

[Airspace Docket No. 61-FW-87]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration of Control Zone, Revocation of Control Area Extension and Designation of Transition Area

On September 27, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 9090) stating that the Federal Aviation Agency (FAA) proposed to alter the El Dorado, Ark., control zone, revoke the El Dorado control area extension and designate the El Dorado transition area.

The Departments of Army and Air Force voiced no objections to the proposal, however, the Air Transport Association (ATA) recommended the control zone extension be increased from 8 to 10 miles.

With regard to the ATA's recommendation, coordination between offices of the FAA has resulted in revisions to the instrument approach procedure at the Goodwin Airport to provide for a procedure turn maneuvering altitude of 1,500 feet above the surface. It is the policy of the Agency to provide control zone protection to a point seven nautical miles outbound from the approach fix in those instances where the procedure turn is executed at or above 1,500 feet above the surface within 10 nautical miles of the approach fix, and the final approach fix crossing altitude is less than 1,500 feet above the surface. Accordingly, action is taken herein to designate the control zone extension as described in the notice.

No other adverse comments were received.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated herein and in the notice, the following actions are taken:

1. Section 601.2398 (14 CFR 601.2398) is amended to read:

§ 601.2398 El Dorado, Ark., control zone.

Within a 5-mile radius of the Goodwin Airport, El Dorado, Ark. (Lat. 33°13'05" N, Long. 92°48'45" W), and within 2 miles either side of the El Dorado VORTAC 052° radial extending from the 5-mile radius zone to 8 miles NE of the VORTAC.

2. Part 601 (14 CFR 601) is changed as follows:

a. Add:

§ 601.10015 El Dorado, Ark. (Goodwin Airport), transition area.

That airspace extending upward from 1,200 feet above the surface within 8 miles NW and 5 miles SE of the El Dorado, Ark., VORTAC 052° and 232° radials, extending from the Goodwin Airport to 18 miles NE of the VORTAC.

b. Revoke:

§ 601.1417 Control area extension (El Dorado, Ark.). [Revoked]

These amendments shall become effective 0001 e.s.t. March 8, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 11, 1962.

CHARLES W. CARMODY,
Acting Director,
Air Traffic Service.

[F.R. Doc. 62-527; Filed, Jan. 17, 1962; 8:46 a.m.]

[Airspace Docket No. 61-NY-119]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration of Control Zone

The purpose of this amendment to § 601.2198 of the regulations of the Administrator is to alter the description of the Montpelier, Vt., control zone.

The Montpelier control zone is designated, in part, on the northeast course of the Montpelier radio range. The Federal Aviation Agency is decommissioning this radio range. Therefore, since the Montpelier terminal area is adequately served by the Montpelier VOR, action is taken herein to alter the Montpelier control zone by deleting reference to the radio range. However, the designated airspace will not be altered.

Since the change effected by this amendment is less restrictive in nature than present requirements, and imposes no additional burden on any person, notice and public procedure hereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective more than 30 days after publication.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), § 601.2198 (14 CFR 601.2198) is amended to read:

§ 601.2198 Montpelier, Vt., control zone.

Within a 5-mile radius of the Barre-Montpelier Airport (latitude 44°12'15" N., longitude 72°33'45" W.) and within 2 miles either side of the 034° bearing from the airport extending from the 5-mile radius zone to 13 miles NE of the airport.

This amendment shall become effective 0001 e.s.t. March 8, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 12, 1962.

CHARLES W. CARMODY,
Acting Director,
Air Traffic Service.

[F.R. Doc. 62-528; Filed, Jan. 17, 1962; 8:46 a.m.]

[Airspace Docket No. 61-SW-119]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration of Control Area Extension

The purpose of this amendment to § 601.1002 of the regulations of the Administrator is to alter the Austin, Tex., control area extension.

The Austin control area extension is designated on the Austin radio beacon.

The Federal Aviation Agency no longer has an air traffic service requirement for the Austin radio beacon. However, the present controlled airspace based on this facility is still utilized by aircraft executing prescribed VOR instrument approach procedures. Accordingly, action is taken herein to substitute the geographical coordinates of the Austin radio beacon, latitude 30°22'36" N., longitude 97°40'55" W., for the Austin radio beacon in the description of the Austin control area extension.

Since this amendment imposes no additional burden on the public, notice and public procedure hereon are unnecessary and it may be made effective immediately.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), § 601.1002 (14 CFR 601.1002) is amended to read:

§ 601.1002 Control area extension (Austin, Tex.).

Within a 40-mile radius of latitude 30°22'36" N., longitude 97°40'55" W.

This amendment shall become effective upon the date of publication in the FEDERAL REGISTER.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 12, 1962.

CHARLES W. CARMODY,
Acting Director,
Air Traffic Service.

[F.R. Doc. 62-529; Filed, Jan. 17, 1962; 8:46 a.m.]

[Airspace Docket No. 61-SW-120]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration of Control Zone

The purpose of this amendment to § 601.2149 of the regulations of the Administrator is to alter the Jacksonville, Fla., control zone.

The Jacksonville control zone east extension as presently designated is based, in part, on the Fort George Island fan marker. The Federal Aviation Agency proposes to decommission this fan marker since its continued operation is no longer warranted for air traffic service purposes. However, the controlled airspace based, in part, upon this aid will still be utilized by aircraft executing prescribed radio range instrument approach procedures. Accordingly, action is taken herein to delete the Fort George Island fan marker from the description of the Jacksonville control zone and substitute therefor the corresponding mileage distance from the radio range.

Since this amendment imposes no additional burden on the public, notice and public procedure hereon are unnecessary and it may be made effective immediately.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), the following action is taken:

Section 601.2149 (14 CFR 601.2149) is amended to read:

§ 601.2149 Jacksonville, Fla., control zone.

Within a 5-mile radius of Imeson Airport, Jacksonville, Fla. (latitude 30°25'17" N., longitude 81°38'15" W.), within 2 miles either side of the Jacksonville VORTAC 064° radial extending from the 5-mile radius zone to 10 miles NE of the VORTAC; within 2 miles either side of the Jacksonville RR E course extending from the RR to 10.3 miles E of the RR; within a 3-mile radius of Mayport NAS, Fla. (latitude 30°23'45" N., longitude 81°25'15" W.) and within 2 miles either side of the 051° bearing from the Mayport RBN extending from the 3-mile radius zone to 10 miles NE of the RBN.

This amendment shall become effective upon the date of publication in the FEDERAL REGISTER.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 12, 1962.

CHARLES W. CARMODY,
Acting Director,
Air Traffic Service.

[F.R. Doc. 62-530; Filed, Jan. 17, 1962; 8:46 a.m.]

[Airspace Docket No. 61-SW-121]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration of Control Zone

The purpose of this amendment to § 601.2270 of the regulations of the Administrator is to alter the time of designation of the Enid, Vance AFB, Okla., control zone.

The Enid control zone is designated from 0600 through 1800 hours local standard time Monday through Friday and from 1300 through 1700 hours local standard time on Sunday. The Federal Aviation Agency, with Department of the Air Force concurrence, is changing the time of designation of the Enid control zone from 0600 through 1800 hours local standard time Monday through Friday and from 1300 through 1700 hours local standard time on Sunday to 0600 through 1800 hours local standard time Monday through Friday, except holidays.

Since this amendment imposes no additional burden on the public, notice and public procedure hereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective more than 30 days after publication.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), the following action is taken: In the text of § 601.2270 (26 F.R. 8630) "from 0600 through 1800 hours local standard time Monday through Friday and from 1300 through 1700 hours local standard time on Sunday." is deleted and "from 0600 through 1800 hours local standard time Monday through Friday except holidays." is substituted therefor.

This amendment shall become effective 0001 e.s.t. March 8, 1962.

(Sec. 307(e), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 12, 1962.

CHARLES W. CARMODY,
Acting Director,
Air Traffic Service.

[F.R. Doc. 62-531; Filed, Jan. 17, 1962; 8:46 a.m.]

[Airspace Docket No. 61-SW-122]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration of Control Zone

The purpose of this amendment to § 601.2247 of the regulations of the Administrator is to alter the Abilene, Tex., control zone.

The present Abilene control zone is designated, in part, based on the Abilene radio range. The Federal Aviation Agency (FAA) proposes to convert the Abilene radio range to a nondirectional radio beacon. Therefore, the FAA has determined that the extension of the Abilene control zone based on the north course of the radio range is no longer required for air traffic service purposes and may be revoked, such action is taken herein.

Since the change effected by this amendment is less restrictive in nature than the present requirements, and imposes no additional burden on any person, notice and public procedure thereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be

made on aeronautical charts, this amendment will become effective more than 30 days after publication.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), the following action is taken:

Section 601.2247 (14 CFR 601.2247) is amended to read:

§ 601.2247 Abilene, Tex., control zone.

Within a 5-mile radius of the Abilene, Tex., Municipal Airport (latitude 32°25'10" N., longitude 99°41'20" W.); within 2 miles either side of the Abilene ILS localizer S course extending from the 5-mile radius zone to the ILS OM; within 2 miles either side of the Abilene VOR 112° radial extending from the 5-mile radius zone to the VOR; within a 5-mile radius of Dyess AFB, Abilene, Tex. (latitude 32°25'10" N., longitude 99° 51'15" W.); within 2 miles either side of the Abilene VOR 354° radial extending from the Dyess 5-mile radius zone to 12 miles N of the VOR; and within 2 miles either side of the 168° and 348° bearings from the Dyess AFB RBN extending from the 5-mile radius zone to 12 miles S of the RBN.

This amendment shall become effective 0001 e.s.t., March 8, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 11, 1962.

CHARLES W. CARMODY,
Acting Director,
Air Traffic Service.

[F.R. Doc. 62-532; Filed, Jan. 17, 1962; 8:46 a.m.]

[Airspace Docket No. 61-SW-123]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration of Control Zone

The purpose of this amendment to § 601.2230 of the regulations of the Administrator is to alter the Brunswick, Ga., control zone.

The Brunswick control zone is designated within a 5-mile radius of the McKinnon Airport; within 2 miles either side of the 226° True bearing from the Brunswick radio beacon extending from the 5-mile radius zone to 12 miles southwest of the radio beacon and within 2 miles either side of the 023° True radial of the Brunswick VOR extending from the 5-mile radius to the VOR.

The control zone extension based on the Brunswick radio beacon is no longer required for air traffic control procedures. Therefore, action is taken herein to revoke the control zone extension based on this navigational aid.

Since the change effected by this amendment reduces a burden on the public, notice and public procedure hereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective more than thirty days after publication.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), § 601.2230 (14 CFR 601.2230) is amended to read:

§ 601.2230 Brunswick, Ga. (McKinnon Airport), control zone.

Within a 5-mile radius of McKinnon Airport, Brunswick, Ga. (latitude 31°09'-05" N., longitude 81°23'20" W.), and within 2 miles either side of the 023° radial of the Brunswick VOR extending from the 5-mile radius zone to the VOR.

This amendment shall become effective 0001 e.s.t., March 8, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 12, 1962.

CHARLES W. CARMODY,
Acting Director,
Air Traffic Service.

[F.R. Doc. 62-533; Filed, Jan. 17, 1962; 8:46 a.m.]

[Airspace Docket No. 61-WA-237]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration of Control Zone

The purpose of this amendment is to change the name of University of Illinois Airport to University of Illinois-Willard Airport in the description of the Champaign, Ill., control zone in order to correctly reflect the name of this facility.

Since this amendment is editorial in nature, and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and it may be made effective immediately.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), the following action is taken: In the text of § 601.2475 (14 CFR 601.2475) "University of Illinois Airport" is deleted and "University of Illinois-Willard Airport" is substituted therefor.

This amendment shall become effective upon publication in the FEDERAL REGISTER.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 12, 1962.

CHARLES W. CARMODY,
Acting Director,
Air Traffic Service.

[F.R. Doc. 62-535; Filed, Jan. 17, 1962; 8:46 a.m.]

[Airspace Docket No. 61-SW-124]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration of Control Zone

The purpose of this amendment to § 601.2352 of the regulations of the Administrator is to alter the Dalhart, Tex., control zone.

The Dalhart, Tex., control zone is designated within a 3-mile radius of the Municipal Airport with an extension to the southeast within 2 miles either side of a line bearing 132° True extending from the Dalhart radio beacon and an extension to the north within 2 miles either side of the 184° and 004° True radials of the Dalhart VOR.

The extension to the southeast is no longer required for air traffic control purposes. The extension to the north as presently designated will not fully protect the proposed instrument approach procedure. Therefore, action is taken herein to revoke the southeast extension and realign the north extension within 2 miles either side of the Dalhart VORTAC 002° True radial in lieu of the 004° True radial.

Since the change effected by this amendment reduces a burden on the public, notice and public procedure hereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective more than thirty days after publication.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), the following action is taken:

Section 601.2352 (14 CFR 601.2352) is amended to read:

§ 601.2352 Dalhart, Tex., control zone.

Within a 3-mile radius of the Dalhart, Tex., Municipal Airport (latitude 36°01'-30" N., longitude 102°32'55" W.), and within 2 miles either side of the 002° radial of the Dalhart VORTAC extending from the 3-mile radius zone to 10 miles N of the VORTAC.

This amendment shall become effective 0001 e.s.t. March 8, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 11, 1962.

CHARLES W. CARMODY,
Acting Director,
Air Traffic Service.

[F.R. Doc. 62-534; Filed, Jan. 17, 1962; 8:46 a.m.]

[Airspace Docket No. 61-HO-5]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Designation of Transition Area, Revocation of Control Area Extension and Alteration of Control Area Extension

On October 5, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 9386) stating that the Federal Aviation Agency proposed to revoke the Kaneohe, Hawaii, control area extension; designate, in lieu thereof, a transition area at the Kaneohe Marine Corps Air Station, Oahu, Hawaii; and alter the Oahu, Hawaii, control area extension.

Since these actions involve the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order No. 10854.

No adverse comments were received regarding the proposed amendments.

Subsequent to publication of the Notice, the Kahuku Point, Oahu, Hawaii, Restricted Area R-3106 was amended (Airspace Docket No. 61-WA-143, 26 F.R. 10636) by enlarging the area southeastward and designating a controlling agency. This action, to be effective January 11, 1962, results in a minor penetration of the Kaneohe transition area being designated herein. Therefore, appropriate reference to R-3106 in the description of the transition area is included herein. References to warning areas in § 601.1423 are also updated herein.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated in the notice, the following actions are taken:

§ 601.1423 [Amendment]

1. In the text of § 601.1423 (14 CFR 601.1423, 26 F.R. 8171, 10636),

a. "The airspace south of the Kaneohe control area extension (601.1380) lying within" is deleted and "Within" is substituted therefor.

b. "Excluding the portion below 4,000 feet MSL which lies within the geographic limits of Warning Area (W-322 Area D). The portions of this control area extension which coincide with R-3102, R-3106 and R-3109 shall be used only after obtaining prior approval from appropriate authority; and the portions which lie within the geographic limits of, and between the established altitudes of, Warning Areas W-318, W-319 (Area A), W-320 (Area B), W-321 (Area C) and W-334 are excluded during these warning areas' times of established use." is deleted and "excluding the portion below 4,000 feet MSL within the geographic limits of W-322 (Area D), the portion within W-318 and the portion that coincides with and underlies the Kaneohe, Oahu, Hawaii, transition area (§ 601.10019). The portions of this control area extension within R-3102, R-3106 and R-3109 shall be used only after obtaining prior approval from appropriate authority." is substituted therefor.

2. Part 601 (14 CFR Part 601) is amended by deleting the following section:

§ 601.1380 Control area extension (Kaneohe, Hawaii). [Deleted]

3. Part 601 (14 CFR Part 601) is amended by adding the following section:

§ 601.10019 Kaneohe, Oahu, Hawaii, transition area.

That airspace extending upward from 1,200 feet above the surface within the area bounded by a line beginning at latitude 21°25'00" N., longitude 157°47' 00" W.; to latitude 21°23'00" N., longitude 157°41'00" W.; to latitude 21°41' 00" N., longitude 157°18'00" W.; thence counterclockwise along the arc of a 35-mile radius circle centered at latitude 21°27'00" N., longitude 157°47'00" W.; to latitude 21°56'00" N., longitude 157° 57'00" W.; to latitude 21°30'00" N., longitude 157°48'00" W.; thence counterclockwise along the arc of a 3-mile radius circle centered at latitude 21°27' 35" N., longitude 157°46'50" W., to point of beginning. The portion of this transition area which coincides with R-3106 shall be used only after obtaining prior approval from appropriate authority.

These amendments shall become effective 0001 e.s.t., March 8, 1962.

(Secs. 307(a), 1110, 72 Stat. 749 and 800; 49 U.S.C. 1348, 1510, E.O. 10854, 24 F.R. 9565)

Issued in Washington, D.C., on January 12, 1962.

CHARLES W. CARMODY,
Acting Director,
Air Traffic Service.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 7476 o.]

PART 13—PROHIBITED TRADE PRACTICES

Murray Space Shoe Corp. Et Al.

Subpart—Advertising falsely or misleadingly: § 13.170 *Qualities or properties of product or service:* § 13.170-22 *Corrective, orthopedic, etc.;* § 13.170-52 *Medicinal, therapeutic, healthful, etc.;* § 13.170-70 Preventive or protective.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Murray Space Shoe Corp. et al., Bridgeport, Conn., Docket 7476, Oct. 17, 1961]

In the Matter of Murray Space Shoe Corporation, a Corporation, and Alan E. Murray and Lucille Marsh Murray, Individually and as Officers of Said Corporation, and Alan E. Murray and Lucille Marsh Murray, Copartners Trading and Doing Business as Alan E. Murray Laboratories and Murray Space Shoe

Order requiring Bridgeport, Conn., manufacturers of molded shoes—custom made over plaster casts of customers' feet—to cease making in advertising unqualified claims that the shoes had therapeutic qualities and would correct, prevent, or relieve various diseases and disorders; and dismissing for lack of proof of competitive effect, charges of exclusive dealing.

The order to cease and desist is as follows:

It is ordered, That respondents Murray Space Shoe Corporation, a corporation, and its officers, and Alan E. Murray and Lucille Marsh Murray, individually and as officers of said corporation, and respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution of molded shoes, that is, custom-made shoes constructed over plaster casts of the customers' feet, or any shoe of substantially similar construction or design, do forthwith cease and desist from, directly or indirectly:

1. Disseminating or causing to be disseminated any advertisement, including pamphlets and circulars distributed to customers and prospective customers, by means of the United States mails, or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, which represents, directly or by implication:

(a) That their shoes have therapeutic qualities, except that nothing herein contained shall prevent respondents from making representations permitted under subparagraphs (b) and (d) hereof, and provided further that nothing herein contained shall prevent respondents from representing that said shoes, or the wearing thereof, will give relief from pains or disorders of the feet due to, or caused by, ill-fitting shoes, to the extent not prohibited by subparagraph (c) hereof.

(b) That their shoes, or the wearing thereof, will correct, prevent, or relieve swollen ankles, swollen joints, puffiness on ball of foot, pain in the hip, fatigue, or sagging ankles unless expressly and clearly limited to relief only of said diseases or ailments due to, or caused by, ill-fitting shoes.

(c) That their shoes, or the wearing thereof, will correct, prevent or relieve indigestion, stomach ulcers, high blood pressure or arthritis.

(d) That their shoes, or the wearing thereof, will correct hammer toes or bunions, provided, however, that nothing contained in this paragraph shall

prevent respondents from representing that their said shoes, or the wearing thereof, will give relief from pain suffered by a person with hammer toes or bunions.

2. Disseminating or causing to be disseminated any advertisement by any means for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of said shoes, which advertisements contain any of the representations prohibited in Paragraph 1 above.

It is further ordered, That all allegations contained in the complaint under Count I, not hereinbefore mentioned under Paragraph 1, be, and the same hereby are, dismissed.

It is further ordered, That the allegations of the Commission's complaint herein under Count II thereof be, and the same hereby are, dismissed.

By "Final Order", report of compliance was required as follows:

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist, as modified.

Issued: October 17, 1961.

By the Commission.

[SEAL] JOSEPH W. SHEA, *Secretary.*

[F.R. Doc. 62-560; Filed, Jan. 17, 1962; 8:49 a.m.]

Title 18—CONSERVATION OF POWER

Chapter I—Federal Power Commission

[Order 241; Docket No. R-205]

PART 2—GENERAL POLICY AND INTERPRETATIONS

Natural Gas Companies; Exempt Facilities

JANUARY 12, 1962.

The Commission has before it for consideration an amendment to § 2.55 of Part 2, Subchapter A, General Rules, Chapter I of Title 18, Code of Federal Regulations.

Section 7(c) of the Natural Gas Act (15 U.S.C. 717f(c)) requires, inter alia, a certificate of public convenience and necessity issued by the Commission for any proposed construction or extension of natural gas facilities subject to the jurisdiction of the Commission. Section 2.55 of the Commission's rules (18 CFR 2.55) interprets the word "facilities" as used in section 7(c) of the Act to exclude from the requirement for certification certain types of facilities therein described. The pertinent portions of that section here under consideration are set forth below.

§ 2.55 *Definition of term used in section 7(c).* For the purposes of section 7(c) of the Natural Gas Act, as amended, the word "facilities" as used therein shall be interpreted to exclude:

* * * * *

(b) *Replacement of facilities.* Facilities which constitute the replacement of existing facilities which have or will soon become unserviceable: *Provided*, That such replacement will not result in a reduction or abandonment of service rendered by means of such facilities; and, *Provided, further*, That such replacement does not appreciably change the daily delivery capacity of the existing transmission pipeline system.

(c) *New delivery points.* Metering and regulating installations and branch lines necessary to the establishment of new delivery points required for the delivery of gas to an existing customer for resale in a local community presently served from the same pipeline system by such customer.

Questions have arisen in the past concerning the meaning of the word "unserviceable" and the clause "*Provided, further*, That such replacement does not appreciably change the daily delivery capacity of the existing transmission pipeline system" in § 2.55(b) and the words "local community presently served" in § 2.55(c). Accordingly, we are adopting amendments to those paragraphs for purposes of clarification.

The Commission finds:

(1) The amendments herein adopted represent matters of interpretation which do not require notice or hearing under section 4(a) of the Administrative Procedure Act.

(2) Adoption and promulgation of the proposed amendments are necessary and appropriate for the purposes of administration of the Natural Gas Act.

The Commission, acting pursuant to the authority granted by the Natural Gas Act, as amended, particularly sections 7 and 16 thereof (52 Stat. 824, 830; 56 Stat. 83; 15 U.S.C. 717f, 717o), orders:

(A) In § 2.55 of Part 2, Subchapter A, General Rules, Chapter I of Title 18 of the Code of Federal Regulations, subsections (b) and (c) are amended to read as follows:

(b) *Replacement of facilities.* Facilities which constitute the replacement of existing facilities which have or will soon become physically deteriorated or obsolete to the extent that replacement is deemed advisable: *Provided*, That such replacement will not result in a reduction or abandonment of service rendered by means of such facilities: *Provided further*, That such replacement shall have substantially equivalent designed delivery capacity as the particular facilities being replaced.

(c) *New delivery points.* Metering and regulating installations and branch lines necessary to the establishment of new delivery points required for the delivery of gas to an existing customer for resale in a local community presently served from the same pipeline system by such customer: *Provided*, That the "local community presently served" shall include only the area in which distribution facilities are being operated by the distributor company, but shall not include any area outside the distribution system or beyond the confines of the community, whether incorporated or not, presently being served by the natural gas company's pipeline system.

(B) The statement and amendments herein prescribed shall become effective February 12, 1962.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

Title 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

SUBCHAPTER E—EDUCATION

PART 34—ADMINISTRATION OF A PROGRAM OF VOCATIONAL TRAINING FOR ADULT INDIANS

Selection of Applicants

On page 6476 of the FEDERAL REGISTER of July 19, 1961, there was published a notice and text of a proposed amendment of § 34.3 of Title 25, Code of Federal Regulations. The purpose of this amendment is to define further eligibility for Adult Vocational Training Services.

Interested persons were given 30 days within which to submit written comments, suggestions or objections with respect to the proposed amendment. No comments, suggestions or objections have been received, and the proposed amendment is hereby adopted without change and is set forth below. This amendment shall become effective at the beginning of the 30th calendar day following the date of this publication in the FEDERAL REGISTER.

STEWART L. UDALL, *Secretary of the Interior.*

JANUARY 11, 1962.

Section 34.3 is amended to read as follows:

§ 34.3 Selection of applicants.

The Vocational Training Program is available primarily to adult Indians of one-fourth or more degree of Indian blood who are not less than 18 and not more than 35 years of age and who reside within the exterior boundaries of Indian reservations under the jurisdiction of the Bureau of Indian Affairs or on trust or restricted lands under the jurisdiction of the Bureau of Indian Affairs. The Program is also available to additional Indians who reside near reservations in the discretion of the Secretary of the Interior when the failure to provide the services would have a direct effect upon Bureau programs within the reservation boundaries. An application for training services may be approved, within the limitation of available funds, when it is determined that the applicant is in need of such training in order to obtain reasonable and satisfactory employment, and that it is feasible for him to pursue such training. Reasonable and satisfactory employment is employment that provides:

(a) Sufficient income for the individual or family unit to live at an economic level considered as adequate in the community; and

(b) Opportunity for advancement on the basis of skill and experience acquired in the course of employment.

Title 32—NATIONAL DEFENSE

Chapter V—Department of the Army

SUBCHAPTER C—MILITARY EDUCATION

PART 543—PROMOTION OF RIFLE PRACTICE

Issues of Equipment

Add new subparagraph (6) to § 543.2 (c), to read as follows:

§ 543.2 Issues of rifles, ammunition, etc., to civilian shooting clubs.

* * * * *

(c) *Issues.* * * *

(6) *Weapons for State rifle and pistol associations.* Each recognized and approved State rifle and pistol association may receive eight caliber .30 M1 National Match rifles and six caliber .45 National Match pistols to be used by members of the State civilian teams selected to represent their respective States at the National Matches. If the number of weapons authorized is insufficient, additional weapons may be approved by the Director of Civilian Marksmanship for issue upon receipt of proper justification from the organization. In States which have no recognized State Associations, a recognized civilian club may receive these weapons upon approval by the Director of Civilian Marksmanship. The weapons will remain in the custody of the State Association or authorized club on a year-round basis. No alteration or modification of these weapons is authorized. All existing regulations pertaining to the bonding, transportation, maintenance, and property accountability for civilian clubs apply to these organizations.

Title 35—PANAMA CANAL

Chapter I—Canal Zone Regulations

[Canal Zone Order 59]

PART 24—SANITATION, HEALTH, AND QUARANTINE

Subpart H—Licensing of Pest Exterminators

Effective on the thirtieth day after publication in the FEDERAL REGISTER, Part 24 of Chapter I, Title 35, Code of Federal Regulations, is amended by adding thereto a new Subpart H embracing §§ 24.200 to 24.208, and reading as follows:

Sec.
24.200 License required to engage in business of pest extermination.
24.201 Licensed foreman required to be in charge.
24.202 Possession and display of licenses.
24.203 Renewal of licenses; suspension and revocation.
24.204 Approval of types, concentrations, and manner of use of insecticides and rodenticides required.
24.205 Sale of insecticides and rodenticides.
24.206 Inapplicability to Government agencies and their officers and employees.
24.207 Inapplicability to military reservations.
24.208 Punishment for violation.

AUTHORITY: §§ 24.200 to 24.208 issued under 2 C.Z. Code 371; sec. 3(c) of E.O. 9746, July 1, 1946 (11 F.R. 7329), as amended by E.O. 10595, Feb. 7, 1955 (20 F.R. 819).

§ 24.200 License required to engage in business of pest extermination.

No firm, establishment, company, corporation, or individual doing business in his own name shall engage in the business of extermination of pests such as rats, roaches, ticks, termites, ants or other harmful insects or rodents, unless licensed to do so by the Health Director of the Canal Zone Government. An applicant shall not be licensed unless it establishes to the satisfaction of the Health Director (a) that a sufficient number of its personnel are licensed under § 24.201 to ensure its capacity to conduct its business in conformity with the regulations in this subpart, and (b) that it is otherwise properly qualified and competent to conduct such business.

CROSS REFERENCE: See also 3 C.Z. Code 221 for certain statutory requisites applicable to corporations doing business in the Canal Zone.

§ 24.201 Licensed foreman required to be in charge.

Each crew or gang of pest exterminators performing pest eradication shall be under the direct and immediate supervision of a foreman or gang leader licensed as a pest exterminator under this section. In order to be licensed as a pest exterminator the applicant must establish to the satisfaction of the Chief, Division of Sanitation of the Health Bureau of the Canal Zone Government, or such other person as may be designated by the Health Director to issue such licenses, that he is familiar with the accepted methods of dispensing insecticides and rodenticides, with their toxicity and other significant qualities, and with safety precautions to be observed in their use.

§ 24.202 Possession and display of licenses.

The foreman or leader of each crew or gang of pest exterminators performing pest eradication shall have in his possession a legible copy of the license issued to him under § 24.201 and a legible copy of the license issued to his employer under § 24.200 and shall display such licenses on demand of personnel of the Health Bureau or of the Canal Zone Police.

§ 24.203 Renewal of licenses; suspension and revocation.

Licenses issued under §§ 24.200 and 24.201 shall be renewed annually. The licensing authority may require the same kind of showing of qualification of an applicant for renewal of a license as is required of an applicant for an original license. Licenses may be suspended at any time by the issuing authority, without prior notice to the licensee, for failure to comply with these regulations or with the terms of the license or for other good and sufficient cause. The suspended licensee shall be entitled to a hearing if he requests it within 10 days of receiving notice of the suspension. The hearing, if requested, shall be held by the licensing authority or his delegate within 10 days of the request therefor or within such later period as may be acceptable to the suspended licensee and the licensing authority. Upon completion of the hearing, or if no hearing is requested, the licensing authority shall: (a) Remove the suspension, (b) extend the suspension for a fixed period, or (c) revoke the license. A former licensee whose license has been revoked shall not be eligible to apply for a new license until expiration of a period of 1 year following the revocation.

§ 24.204 Approval of types, concentrations, and manner of use of insecticides and rodenticides required.

Licensees under §§ 24.200 and 24.201 shall use only such insecticides or rodenticides and only such concentrations thereof and shall employ only such techniques as are approved in writing by the Chief of the Sanitation Division for each licensee under § 24.200.

§ 24.205 Sale of insecticides and rodenticides.

The sale of insecticides and rodenticides is prohibited. This section does not prohibit pest exterminators who are issued licenses under §§ 24.200 and 24.201 from dispensing approved insecticides and rodenticides in the performance of pest eradication and including the cost thereof in the charges for the service.

§ 24.206 Inapplicability to Government agencies and their officers and employees.

The provisions of this subpart do not apply to agencies or instrumentalities of the United States or to their officers or employees who use, handle, dispense or sell insecticides or rodenticides in the performance of their official duties.

§ 24.207 Inapplicability to military reservations.

The provisions of this subpart do not apply within military or naval reservations.

§ 24.208 Punishment for violation.

A violation of any of the provisions contained in this subpart is punishable, as provided in section 373 of Title 2 of the Canal Zone Code, by a fine of not more than $25 or by imprisonment in jail for not more than thirty days, or by

both; and each day such violation continues constitutes a separate offense.

ELVIS J. STAHR, Jr.,
Secretary of the Army.

JANUARY 11, 1962.

[F.R. Doc. 62-550; Filed, Jan. 17, 1962; 8:48 a.m.]

Title 46—SHIPPING

Chapter I—Coast Guard, Department of the Treasury

SUBCHAPTER M—BULK GRAIN CARGOES

[CGFR 61-65]

PART 144—LOADING AND STOWAGE OF GRAIN CARGOES

Transportation of Loose Grain in Bulk

The Merchant Marine Council held a public hearing on March 27, 1961, for the purpose of receiving comments, views and data with respect to the proposals regarding bulk grain cargoes, which was considered as Item VI on its Agenda. These proposals were included in the notice of proposed rule making published in the FEDERAL REGISTER on February 15, 1961 (26 F.R. 1278–1286). The Merchant Marine Council Public Hearing Agenda (CG–249), dated March 27, 1961, set forth the proposals in detail and copies thereof were furnished to all who indicated an interest in the subjects set forth therein.

The purpose for this revision is to promote safety in the handling, stowage and transportation of loose grain in bulk on board vessels by establishing minimum requirements. These requirements apply to cargo vessels of 500 gross tons or over or passenger vessels when such vessels are carrying loose grain in bulk on international voyages other than international voyages on the Great Lakes. A number of comments were received and in view of problems presented the final recommendations of the Merchant Marine Council were delayed. The primary problem was one regarding stability and related to the sufficiency of the "GM" limits contained in the proposals. It has been determined that the proposals regarding 12-inch and 14-inch "GM" limits are not sufficient for safety when applied to vessels larger than the Liberty ships. The values which are considered sufficient for such larger ships are 1¾ percent of the beam for one- or two-deck vessels and 2 percent of the beam for vessels having more than two decks. Thus a two-deck vessel of 68-foot beam is required to have a minimum "GM" of 1.19 feet or 14.3 inches, and a three-deck vessel of 75-foot beam, a minimum "GM" of 1.5 feet or 18.0 inches. Since these "GM" values are also higher in some cases than that provided in the 1960 Safety of Life at Sea Convention, action has been initiated to effect a reconsideration of the grain stability provisions in this 1960 Convention by the Intergovernmental Maritime Consultative Organization.

The proposals in Item VI regarding "Bulk Grain Cargoes" as revised are approved. Changes in 46 CFR 144.10–95, 144.20–1, 144.20–10, 144.20–20, 144.20–22, 144.20–28, 144.20–30, 144.20–32, 144.20–34, and 144.20–36 were made by the Merchant Marine Council. These changes were the direct result of comments received and problems presented or are deemed necessary to make the regulations sufficiently definitive. Except for those changes regarding stability, these changes neither increase nor decrease the severity of the requirements.

This document is the last of a series regarding the regulations and actions considered at the March 27, 1961, Public Hearing and Annual Session of the Merchant Marine Council. This document contains the final actions taken with respect to Item VI regarding "Bulk Grain Cargoes." The seventh document of this series summarized the actions taken by the Merchant Marine Council with respect to the March 27, 1961, Public Hearing and was published in the FEDERAL REGISTER of September 30, 1961 (26 F.R. 9253–9304). The eighth document dealt with smoke detecting systems on passenger vessels and was published in the FEDERAL REGISTER of September 23, 1961 (26 F.R. 8979). The ninth document dealt with shipboard cargo gear and power-operated industrial trucks and was published in the FEDERAL REGISTER of November 23, 1961 (26 F.R. 10995–11022).

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Orders 120, dated July 31, 1950 (15 F.R. 6521), 167–14, dated November 26, 1954 (19 F.R. 8026), CGFR 56–28, dated July 24, 1956 (21 F.R. 5659), and 167–38, dated October 26, 1959 (24 F.R. 8857), the following amendments to 46 CFR Part 144 are prescribed and shall be in effect on and after 30 days after the date of publication of this document in the FEDERAL REGISTER:

Subpart 144.10—General Requirements

1. Section 144.10–70 is amended to read as follows:

§ 144.10–70 Feeders, bins, and bulkheads.

(a) Feeders, bins, and bulkheads shall be of sufficient strength to withstand the pressure of the head of grain contained therein and shall be made grain tight. When the height of the 'tween decks is greater than normal, special attention should be given to the stiffening and support of feeders and bins.

(b) Wood feeders and bin bulkheads may be constructed:

(1) Of planks worked vertically not less than 2½-inch thickness, but where the vertical unsupported span exceeds 8 feet the thickness of the planks shall be increased, or additional stiffening fitted; or,

(2) Of studding and lined with grain-tight boards 2 inches in thickness or two 1 inch layers of shiplap, laid horizontally with broken joints. Studding where possible shall be placed inside the hatch coamings and shall be not less than 4 inches by 6 inches on edge spaced not more than 2 feet centers.

(c) Wing feeders may be constructed in a similar manner around trimming hatches. In all cases the planks at the corners shall be well secured to substantial vertical cants.

(d) Where the depth of the hatch end beams or coamings exceeds 15 inches below the surface of the deck, feeding holes shall be provided to allow the grain to flow through the coamings into the hold or 'tween decks; where the depth of the coamings below the surface of the deck exceeds 15 inches and is not more than 18 inches feeding holes 2 inches in diameter shall be provided. Where the depth exceeds 18 inches feeding holes of 3½-inch diameter shall be provided. Feeding holes shall be spaced approximately 2 feet apart.

(e) Engine room, boiler room, stokehold bulkheads and donkey boiler recesses where subjected to heat shall be sheathed with wood and made grain tight. An air space of at least 6 inches shall be left between the bulkhead and the sheathing and a box trunk ventilator 6 inches by 8 inches shall be provided from the top of the air space to a ventilator or hatchway, or other equal and approved means of ventilation adopted. Sheathing shall be supported on vertical runners spaced not more than 2 feet centers and shall consist of 2 inch planks or two thicknesses of 1 inch boards laid to break joint. Other approved means of insulation may be accepted.

(f) Feeders or bin bulkheads may be constructed of bagged grain: *Provided*, That:

(1) The bags are tightly stowed and interlocked.

(2) Whenever practicable the bags are so stowed as to engage firmly with the vessel's sides, bulkheads, and other convenient structures. Where this is not possible, the bagged bulkheads are to be not less than 11 feet (mean) in thickness and stepped.

(3) Transverse bagged bulkheads not in way of hatchways or forming feeders but supporting grain on one side only are to be not less than 11 feet (mean) in thickness and stepped.

(4) In place of bagged grain, as required by this section, cased, baled, or other suitable cargo may be used provided it is equally strongly supported and made grain-tight with strong separation cloths.

(R.S. 4405, as amended, 4462, as amended; 46 U.S.C. 375, 416. Interpret or apply R.S. 4417, as amended, sec. 1, 49 Stat. 1544, as amended, sec. 3, 68 Stat. 675; 46 U.S.C. 391, 367, 50 U.S.C. 198; E.O. 10402, 17 F.R. 9917; 3 CFR, 1952 Supp.)

2. Section 144.10–95 is amended to read as follows:

§ 144.10–95 Responsibility of owner or master.

(a) The loading of bulk grain in accordance with the regulations in this part is a responsibility of the master, who shall designate a competent responsible person to be in constant attendance during loading operations. Nothing in the regulations in this part shall be deemed to relieve the owner or master of a ship from taking all necessary and reasonable precautions to prevent grain from shifting.

(R.S. 4405, as amended, 4462, as amended; 46 U.S.C. 375, 416. Interpret or apply R.S. 4417, as amended, sec. 1, 49 Stat. 1544, as amended, sec. 3, 68 Stat. 675; 46 U.S.C. 391, 367, 50 U.S.C. 198; E.O. 10402, 17 F.R. 9917; 3 CFR, 1952 Supp.)

Subpart 144.20—Detailed Loading and Stowage Requirements

3. Sections 144.20–1 to 144.20–40, inclusive, which comprise the entire text of Subpart 144.20, are deleted and the following §§ 144.20–1 to 144.20–36, inclusive, are substituted in their place so that this subpart, as revised, reads as follows:

Sec.
144.20–1 Trimming and filling.
144.20–2 Bagged grain.
144.20–10 Stowage of full holds and compartments.
144.20–20 Feeders required.
144.20–22 Stowage of partly filled holds and compartments.
144.20–24 Exceptions to the requirements for longitudinal bulkheads.
144.20–26 Trimming and bagging of end spaces.
144.20–28 Common loading.
144.20–30 Bulk grain in 'tween decks and superstructures.
144.20–32 Stowage of specially suitable ships.
144.20–34 Stability conditions.
144.20–36 Grain loading plans.

AUTHORITY: §§ 144.20–1 to 144.20–36 issued under R.S. 4405, as amended, 4462, as amended; 46 U.S.C. 375, 416. Interpret or apply R.S. 4417, as amended, sec. 1, 49 Stat. 1544, as amended, sec. 3, 68 Stat. 675; 46 U.S.C. 391, 367, 50 U.S.C. 198; E.O. 10402, 17 F.R. 9917; 3 CFR, 1952 Supp.

§ 144.20–1 Trimming and filling.

(a) The safe loading of grain, in accordance with the regulations in this part, is vitally dependent upon compartments which are treated as entirely filled, being actually well trimmed so as to fill all the spaces between the beams and in the wings and ends. It is equally important that the feeders be loaded and trimmed so as to contain at least the minimum percentage of grain required by the regulations in this part.

(b) Spaces which are to be partly filled and bagged off, or equivalent, must be levelled for proper bagging.

§ 144.20–2 Bagged grain.

(a) Bagged grain stowed in a hold, compartment or bin with loose grain in bulk shall be in sound bags, well filled and securely closed.

§ 144.20–10 Stowage of full holds and compartments.

(a) Subject to the provisions of § 144.20–22, any hold or compartment which is entirely filled with bulk grain shall be divided either by a longitudinal bulkhead or by a shifting board in line with, or not more than 5 percent of the molded breadth of the vessel from the center line; or by longitudinal bulkheads or shifting boards off the centerline of the vessel, port and starboard, provided the distance between them shall not exceed 60 percent of the molded breadth of the vessel, and that in this latter case trimming hatches of suitable size shall be provided in the wings at longitudinal intervals of not more than 25 feet with end trimming hatches placed not more than 12 feet from transverse bulkheads. In every case the longitudinal bulkheads or shifting boards shall be properly constructed and fitted grain-tight with proper fillings between the beams. In holds such longitudinal bulkheads or shifting boards shall extend downwards from the underside of the deck to a distance of at least one-third of the depth of the hold or 8 feet, whichever is the greater. In compartments in tween decks and superstructures they shall extend from deck to deck. Except as provided otherwise in this section, longitudinal bulkheads or shifting boards shall extend to the top of the feeders of the hold or compartment in which they are situated.

(b) In the case of vessels loaded with bulk grain other than linseed, in which a metacentric height (after correction for the free surface effects of liquids in tanks and as otherwise noted in this part) is maintained throughout the voyage of not less than 1¾ percent of the vessel's beam but not less than 12 inches in the case of one or two deck vessels, and not less than 2 percent of the vessel's beam but not less than 14 inches in the case of other vessels, longitudinal bulkheads or shifting boards need not be fitted in the following locations and subject to the following conditions:

(1) Below and within 7 feet of a feeder, but only in way of a hatchway, if that feeder contains, or all the feeders collectively feeding a compartment contain, not less than 5 percent of the quantity of grain carried in that compartment. Feeders so considered shall have such dimensions that the free grain surface will remain within the feeders throughout the voyage, after allowing for a settling of grain amounting to 2 percent of the volume of the compartment fed and a shift of the free grain surface to an angle of 12 degrees to the horizontal. In calculating the net minimum metacentric height specified in paragraph, the heeling moment due to such a grain shift shall be allowed for by taking a deduction equal to this moment divided by the product of the displacement and the sine of 5 degrees.

(2) In way of the hatchway where the bulk grain beneath the hatchway is trimmed in the form of a saucer hard up to the deckhead beyond the hatchway and is topped off with bagged grain or other suitable bagged cargo extending to a height in the center of the saucer of not less than 6 feet above the top of the bulk grain (measured below the deck line). In this case, the bagged grain or other suitable bagged cargo shall fill the hatchway and the saucer below and shall be stowed tightly against the deckhead, the longitudinal bulkheads, the hatchway beams and the hatchway side and end coamings. For the purposes of this subparagraph suitable packaged general cargo having a stowage factor of not less than 25 cubic feet or not more than 70 cubic feet per ton, and of such unit dimension that it can be stowed tightly to completely fill the saucer, may be used in place of bagged cargo provided a tarpaulin or separation cloth is used between the cargo and the grain.

§ 144.20–20 Feeders required.

(a) Except as otherwise provided in § 144.20–10(b)(2) and as subsequently otherwise provided in this section, any hold or compartment which is entirely filled with bulk grain shall be fed by suitably placed and properly constructed feeders so as to secure a free flow of grain from the feeder to all parts of that hold or compartment. Each feeder shall contain not less than 2½ percent nor more than 8 percent of the quantity of grain carried in that part of the hold or compartment that it feeds, except as provided in § 144.20–10(b)(1). Feeders which do not extend to the weather deck but which instead open up into a tween deck shall either be of such dimensions and filling level that a shift of grain free surface to an angle of 12 degrees to the horizontal cannot spill out of the feeder, or the grain free surface shall be secured against such shifting and spillage.

(b) When bulk grain is carried in deep tanks primarily constructed for the carriage of liquids, or in other spaces of comparable size, location, arrangement, and construction, of breadth not exceeding half the vessel's beam, or that are divided by one or more permanent steel longitudinal divisions fitted grain-tight, feeders to these spaces may be omitted if the tanks and tank hatchways are completely filled and the hatch covers secured.

§ 144.20–22 Stowage of partly filled holds and compartments.

(a) Subject to the provisions of § 144.20–24, if any hold or compartment is partly filled with bulk grain, it shall comply with both of the following conditions:

(1) It shall be divided by a longitudinal bulkhead or shifting boards, in line with, or not more than 5 percent of the molded breadth of the vessel from the center line or by longitudinal bulkheads or shifting boards off the center line of the vessel port and starboard, provided that the distance between them shall not exceed 60 percent of the molded breadth of the vessel. In every case the longitudinal bulkheads or shifting boards shall be properly constructed and shall extend from the bottom of the deck, as the case may be, to a height of not less than 2 feet above the surface of the bulk grain. In the case of vessels loaded with bulk grain other than linseed, in which a metacentric height (after correction for the free surface effects of liquids in tank) is maintained throughout the voyage of not less than 1¾ percent of the vessel's beam but not less than 12 inches in the case of one or two deck vessels, and not less than 2 percent of the vessel's beam but not less than 14 inches in the case of other vessels, longitudinal bulkheads or shifting boards may be omitted in way of the hatchway.

(2) The bulk grain shall be levelled and topped off with bagged grain or other suitable cargo tightly stowed and extending to a height of not less than 4 feet above the top of the bulk grain within spaces or portions of spaces divided by such longitudinal bulkheads

or shifting boards, and not less than 5 feet within portions of spaces not so divided. The bagged grain or other suitable cargo shall be supported on suitable platforms laid over the whole surface of the bulk grain. Such platforms shall consist of bearers spaced not more than 4 feet apart and 1 inch boards laid thereon spaced not more than 4 inches apart, or of strong separation cloths with adequate overlapping.

(b) Unless stability data indicates that the metacentric height maintained throughout the voyage (after correction for the free surface effects of liquids in tanks) is at least 1¾ percent of the vessel's beam but not less than 12 inches in the case of one or two deck vessels, and not less than 2 percent of the vessel's beam but not less than 14 inches in the case of other vessels, not more than two holds or compartments shall be partly filled with bulk grain; except that other holds or compartments may be partly filled with bulk grain if they are filled up to the deckhead with bagged or other suitable cargo. For the purpose of this paragraph the following conditions apply:

(1) Superimposed tween decks shall be regarded as separate compartments and separate from any lower hold below them.

(2) Feeders and partly filled spaces, referred to in § 144.20–30(a)(2) shall not be regarded as compartments.

(3) Holds or compartments provided with one or more grain-tight longitudinal divisions shall be regarded as one hold or compartment.

§ 144.20–24 Exceptions to the requirements for longitudinal bulkheads.

(a) The fitting of longitudinal bulkheads or shifting boards in accordance with the provisions of § 144.20–10 and 144.20–22 is not required under the following conditions:

(1) In a lower hold (which term also includes the lower part of the hold of a single deck vessel) if the bulk grain therein does not exceed one-third of the capacity of the hold, or where such lower hold is divided by a shaft tunnel, one-half the capacity of that lower hold; or,

(2) In any space in a tween deck or superstructure provided that the wings are tightly stowed with bagged grain or other suitable cargo to a breadth on each side of not less than 20 percent of the breadth of the vessel in way thereof; or,

(3) In those parts of spaces where the maximum breadth of the deckhead within the said spaces does not exceed one-half of the molded breadth of the vessel.

§ 144.20–26 Trimming and bagging of end spaces.

(a) When the distance, measured in a fore and aft line, from any part of a hold or compartment to the nearest feeder exceeds 25 feet, the bulk grain in the end spaces beyond 25 feet from the nearest feeder shall be levelled off at a depth of at least 6 feet below the deck, and the end spaces filled with bagged grain built up on a suitable platform constructed as required in § 144.20–22(a)(2).

§ 144.20–28 Common loading.

(a) For the purpose of §§ 144.20–10 and 144.20–20 lower holds and tween deck spaces over them may be loaded as one compartment under the following conditions:

(1) The hatches to spaces so treated as common spaces shall be of such proportions and shall have sufficient volume within their coamings and above deck so as to serve as feeders, based upon the total volume of the common spaces served.

(2) Longitudinal bulkheads or shifting boards shall be fitted deck to deck, and in all cases for the full length of the space, in the tween deck of a vessel having two decks; in all other cases the longitudinal bulkheads or shifting boards shall be fitted for the upper third of the total depth of the common spaces.

(3) In order to secure an adequate flow of grain all spaces shall comply with the requirements of § 144.20–26. Additionally, openings shall be provided in the wings of the deck immediately below the uppermost deck forward and aft of the ends of the hatchways so as to provide in combination with the hatchways a maximum fore and aft feeding distance of 8 feet. Such openings shall be located approximately on the diagonal line between the hatch corners and the corners of the tween deck spaces.

(4) The metacentric height maintained throughout the voyage (after correction for the free surface effects of liquids in tanks) shall not be less than 1¾ percent of the vessel's beam but not less than 12 inches in the case of one or two deck vessels and not less than 2 percent of the vessel's beam but not less than 14 inches in the case of other vessels.

§ 144.20–30 Bulk grain in tween decks and superstructures.

(a) Bulk grain shall not be carried above deck, in the tween deck of a two-deck vessel, or in the upper tween deck of a vessel having more than two decks except under the following conditions:

(1) The bulk grain or other cargo shall be stowed so as to ensure maximum stability. The metacentric height maintained throughout the voyage (after correction for the free surface effects of liquids in tanks) shall not be less than 1¾ percent of the vessel's beam but not less than 12 inches in the case of one or two deck vessels, and not less than 2 percent of the vessel's beam but not less than 14 inches in the case of other vessels. Where specific data on metacentric height is not available, grain loaded above deck, in the tween deck of a two deck vessel, or in the uppermost tween deck of a vessel having more than two decks, shall not exceed 28 percent by weight of the total cargo below the space concerned; except that this limitation shall not apply when the grain carried above deck or in the uppermost tween deck is oats, barley, or cotton seed. The conditions in this subparagraph are in all cases subject to the additional condition that the master is satisfied that the ship will have adequate stability throughout the voyage.

(2) The deck area of any portion of the spaces referred to in this section which contains bulk grain and which is only partly filled shall not exceed 1,000 square feet.

(3) All spaces referred to in this section in which bulk grain is stowed shall be subdivided by transverse bulkheads at intervals of not more than 100 feet. When this distance is exceeded the excess space shall be entirely filled with bagged grain or other suitable cargo.

§ 144.20–32 Stowage of specially suitable ships.

(a) Ships which are generally of self-trimming type, specially designed and constructed for the carriage of bulk cargoes and having two or more vertical or sloping grain-tight longitudinal divisions suitably disposed to limit the effect of any transverse shift of grain, may carry bulk grain without regard to the requirements of §§ 144.20–10 through 144.20–30 subject however to compliance with the following requirements:

(1) As many holds and compartments as possible shall be full and trimmed full.

(2) For any specified arrangement of stowage the metacentric height at any stage of the voyage (after correction for the free surface effects of liquids in tanks) shall be sufficient so that the list resulting from the heeling moment due to the following assumed shift of grain shall not exceed 5 degrees or the angle at which one-half the freeboard is immersed, if less.

(3) In all holds and compartments, grain surfaces are assumed to settle 2 percent by volume and at a slope of 30 degrees under all surfaces which have an inclination of less than 30 degrees to the horizontal. All resulting grain free surfaces except those sloping opposite to the direction of list (i.e., sloping towards the high side after list) are assumed to shift to an angle of 12 degrees with the original horizontal.

(4) However, any grain surfaces which are overstowed in accordance with § 144.20–22 shall be assumed to shift after settling, to an angle of 8 degrees with the original horizontal.

(5) Where the metacentric height necessary to compliance with the provisions of this section is considered to be excessive, the design of vessel will be required to be suitably modified or stowage in accordance with §§ 144.20–10 through 144.20–30 will be required.

(6) Where acceptance under the provisions of this section is desired, calculations relative to the anticipated loading and to the foregoing stability requirements shall be submitted to the Commandant, U.S. Coast Guard, for approval prior to commencement of construction. These will be subject to confirmation by a stability test as provided in § 93.05–1 of Subchapter I (Cargo and Miscellaneous Vessels) of this chapter.

(b) Where considered necessary, supplementary conditions shall be required either with respect to the vessel's design and construction, or with respect to particular loading precautions to prevent shifting of grain.

§ 144.20–34 Stability conditions.

(a) It is a condition of acceptance of loading based upon the stability limits specified in this subpart that the vessel shall be supplied with plans and stability data, approved by the Commandant, including the following information:

(1) A capacity plan, including grain capacities and centers.

(2) The minimum acceptable GM when carrying grain.

(3) Stability data applicable to typical loading conditions for grain and other homogeneous cargoes when loaded at stowage factors of 45, 55, 65, 75 cubic feet per ton. Such data shall be given, in each case, both for typical departure and arrival conditions. Where an arrival condition includes salt water ballast, and an intermediate tankage condition results in a lesser GM, such intermediate condition shall also be given. In calculating the available GM, free surface allowance shall be made for all slack liquids, but in no case shall the free surface correction used be less than that corresponding to maximum free surface for the pair of tanks, port and starboard, of each type, having the largest free surface, plus the fuel oil settlers, plus the virtual free surface at 5 degrees heel for all nominally full fuel oil tanks (taken 98 percent full).

(4) To provide for conditions wherein shifting boards may be omitted, as provided by § 144.20–10(b)(1), grain free surface applicable to feeders not fitted with shifting boards shall be given. In order to provide flexibility in the subsequent selection of feeder arrangements, this free surface shall be presented as a function of the aggregate length of feeders, grain density, and vessel displacement rather than as just applying to any specific grain stowage arrangement.

(b) The stability information supplied specially suitable ships shall, in general, comply with this section subject to such modification as is necessary, having regard for their special arrangements.

(c) Double bottom tanks having a width measured at half length in excess of 60 percent of the vessel's molded breadth shall in no case be permitted. Such tanks shall therefore be divided by a watertight longitudinal division.

§ 144.20–36 Grain loading plans.

(a) Vessels carrying grain shall be loaded in accordance with grain loading plans bearing the approval of the National Cargo Bureau, Inc., or of another agency otherwise officially designated. A grain loading plan shall take into account the applicable requirements of this subchapter and shall indicate the main characteristics of the fittings used to prevent the shifting of cargo. It shall indicate the distribution and the circumstances of loading. Additionally, in all cases where approval is dependent upon the stability limits specified in this subpart, it shall, in conjunction with the information called for by § 144.20–34, indicate the applicable minimum GM and associated tankage conditions.

(b) A grain loading plan, in addition to the language in which it is given, shall be annotated in at least one other of the following languages: English, French, Spanish, or Russian.

(c) A copy of the grain loading plan shall be maintained at all times on the vessel. The master, if so required, shall produce it for the inspection of the appropriate authority of the port in which loading takes place.

(d) A grain loading plan and associated stability information approved for a vessel belonging to a country which is a party to the effective International Safety of Life at Sea Convention, issued either under the authority of the government of that country or under the authority of another government which is a party to that Convention upon the request of the first government, will be accepted by the United States. Other contracting governments have agreed to accept such information as evidence that the vessel, when loaded in accordance with this grain loading plan, meets the applicable grain loading requirements of the effective Convention.

(e) Vessels not having a grain loading plan approved in accordance with the paragraph (d) of this section may expect to be required to comply in detail with the rules of the country in which the loading port is situated.

VESSELS SHIFTING PORTS

4. Section 144.30–1 is amended by revising paragraphs (b) and (c)(1) to read as follows:

§ 144.30–1 Shifting vessels with part cargoes of loose grain in bulk.

* * * * *

(b) Vessels subject to the regulations in this part, moving between ports totally within the inland waters of the United States, may load any amount of loose grain in bulk without securing the grain provided shifting boards extend above the grain in each hold at least 2 feet. Vessels that have no longitudinal bulkheads or shifting boards in the lower holds shall comply with § 144.20–10(c).

(c) * * *

(1) Any one hold with less than 50 percent of its bulk grain capacity provided shifting boards extend above the grain in each hold at least 2 feet.

(R.S. 4405, as amended, 4462, as amended; 46 U.S.C. 375, 416. Interpret or apply R.S. 4417, as amended, sec. 1, 49 Stat. 1544, as amended, sec. 3, 68 Stat. 675; 46 U.S.C. 391, 367, 50 U.S.C. 198; E.O. 10402, 17 F.R. 9917; 3 CFR, 1952 Supp.)

Subpart 144.40—Equivalents Allowed for Construction of Feeders and Bin Bulkheads, and Stowage of Loose or Heavy Grain in Bulk

§§ 144.40–1—144.40–50 [Canceled]

5. Subpart 144.40, consisting of §§ 144.40–1 to 144.40–50, inclusive, is canceled in its entirety. (The requirements in these sections are either covered in revised regulations in this document or it has been determined they are no longer necessary.)

(R.S. 4405, as amended, 4462, as amended; 46 U.S.C. 375, 416)

Dated: January 11, 1962.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 52]

UNITED STATES STANDARDS FOR GRADES OF FROZEN SWEETPOTATOES [1]

Notice of Proposed Rule Making

Notice is hereby given that the United States Department of Agriculture is considering the issuance of United States Standards for Grades of Frozen Sweetpotatoes pursuant to the authority contained in the Agricultural Marketing Act of 1946 (secs. 202–208, 60 Stat. 1087, as amended; 7 U.S.C. 1621–1627). This standard, if made effective, will be the first issue by the Department of grade standards for this product.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed standard should file the same with the Chief, Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D.C., not later than 120 days after publication hereof in the FEDERAL REGISTER.

PRODUCT DESCRIPTION, COLOR, STYLES, GRADES

Sec.

52.5001 Product description.
52.5002 Colors of frozen sweetpotatoes.
52.5003 Styles of frozen sweetpotatoes.
52.5004 Grades of frozen sweetpotatoes.

FACTORS OF QUALITY

52.5005 Ascertaining the grade.
52.5006 Color.
52.5007 Uniformity of size.
52.5008 Defects.
52.5009 Character.

EXPLANATION AND METHOD OF ANALYSIS

52.5010 Preparation by heating.

LOT INSPECTION AND CERTIFICATION

52.5011 Ascertaining the grade of a lot.

SCORE SHEET

52.5012 Score sheet for frozen sweetpotatoes.

AUTHORITY: §§ 52.5001 to 52.5012 issued under sec. 202–208, 60 Stat. 1087, as amended; 7 U.S.C. 1621–1627.

PRODUCT DESCRIPTION, COLOR, STYLES, GRADES

§ 52.5001 Product description.

Frozen sweetpotatoes is the product prepared from the clean, sound root of sweetpotatoes (Ipomoea batatas) by washing, sorting, trimming, draining, and peeling, as the case may be. The product may or may not be cooked; may be prepared with the addition of suitable seasoning ingredient(s), sweetening ingredient(s), antioxidant(s), edible oil(s), or spices. Such ingredients may or may not be admixed with the sweetpotatoes or they may be contained separately from the sweetpotato ingredient. When the sweetpotatoes have been cooked or partially cooked prior to freezing and are packed with a high density sirup and/or sugar to produce a "candied" effect, the frozen sweetpotatoes may be considered "Candied Sweetpotatoes" for the purposes of this subpart. In lieu of peeling, the product may be prepared as unpeeled sweetpotatoes in baked or stuffed form, with or without the addition of edible fat or oil to the peel. "Stuffed" form consists of cooked potatoes where the flesh has been removed from the peel, has been comminuted or crushed, and has been replaced in the peel or a preformed shell. The product is frozen in accordance with good commercial practice and maintained at temperatures necessary for the preservation of the product.

§ 52.5002 Colors of frozen sweetpotatoes.

(a) Golden.
(b) Yellow.
(c) Mixed (golden and yellow).

§ 52.5003 Styles of frozen sweetpotatoes.

(a) *Whole.* (1) Peeled.
(2) Baked (unpeeled).
(3) Stuffed (in peel or preformed shell).

(b) *Halved (or halves).* (1) Peeled.
(2) Stuffed (in peel or preformed shell).

(c) *Sliced.* This style consists of peeled units, cut longitudinally and/or crosswise, with flat-parallel or corrugated-parallel surfaces.

(d) *French-cut.* This style consists of peeled units cut into strips, commonly called French-style cut, which may have flat or corrugated surfaces.

(e) *Diced.* This style consists of peeled units cut into recognizable cube-shape units.

(f) *Cut (or chunks).* This style consists of peeled units of irregular sizes and shapes which do not conform to any of the foregoing single styles.

(g) *Mashed (or Souffle).* This style consists of peeled, cooked, and wholly comminuted or crushed sweetpotatoes.

(h) *Mixed (or combination).* This style consists of peeled units which are a combination of two or more of the foregoing styles.

§ 52.5004 Grades of frozen sweetpotatoes.

(a) "U.S. Grade A" (or "U.S. Fancy") is the quality of frozen sweetpotatoes that (1) possess similar varietal characteristics, (2) have a normal flavor and odor, (3) have a good or reasonably good color, (4) are practically uniform, or reasonably uniform, in size for the applicable style, (5) are practically free from defects, (6) possess a good character, and (7) score not less than 90 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U.S. Grade B" (or "U.S. Extra Standard") is the quality of frozen sweetpotatoes that (1) may possess similar or mixed varietal color characteristics, (2) have a normal flavor and odor, (3) have a reasonably good color, (4) are reasonably uniform in size for the applicable style, (5) are reasonably free from defects, (6) possess a reasonably good character, and (7) score not less than 80 points when scored in accordance with the scoring system outlined in this subpart.

(c) "Substandard" is the quality of frozen sweetpotatoes that fail to meet the requirements of U.S. Grade B.

FACTORS OF QUALITY

§ 52.5005 Ascertaining the grade of a sample unit.

(a) *General.* In addition to considering other requirements outlined in the standards, the following quality factors are evaluated in ascertaining the grade of the product:

(1) *Factors not rated by score points.* (i) Varietal characteristics, as applicable.

(ii) Flavor and odor. A representative sample of the product is cooked to determine flavor and odor. "Normal flavor and odor" means that the flavor of the product before and after cooking is characteristic of properly prepared sweetpotatoes and is free from objectionable flavors and objectionable odors of any kind.

(2) *Factors rated by score points.* (i) The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors are:

Factors:	Points
Color	20
Uniformity of size	20
Absence of defects	40
Character	20
Total score	100

(ii) Quality factors of color, uniformity of size, and absence of defects are determined by observing the product in the frozen or partially frozen state as soon as the units are separable into individual units, as the case may be, and after the product has been prepared by heating in a suitable manner; the factors of color and character (including consistency, as applicable) and flavor are evaluated after the product has been prepared by heating in a suitable manner as prescribed in this subpart.

§ 52.5006 Color.

(a) *General.* The color of the product (before and after heating) is evaluated on the internal color in whole baked, whole stuffed, and halved stuffed styles and on the overall external color appearance for all other styles. Color variations due to packing media consisting of brown sugar or sweetening mixtures including brown sugar and spices are considered characteristic.

(b) (*A*) *classification.* Frozen sweetpotatoes that possess a good color may be given a score of 18 to 20 points. "Good color" means a reasonably bright characteristic color (either yellow or golden, but not mixed) and that there may be reasonable variations of such characteristic color among the units, in each unit, or in the mass.

(c) (*B*) *classification.* If frozen sweetpotatoes possess a reasonably good color, a score of 16 or 17 points may be given. "Reasonably good color" means that the color (yellow, golden, or mixed) may be variable among the units, in each unit, or in the mass and that the color may be no more than slightly dull. Mixed color types shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a partial limiting rule).

(d) (*SStd*) *classification.* If frozen sweetpotatoes possess an off-color, a score of 0 to 15 points may be given. "Off-color" means that the over-all color is extremely dull, such as, but not limited to the presence of units that are extremely oxidized or the presence of units that are green colored. Frozen sweetpotatoes that score in this classification shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.5007 Uniformity of size.

(a) *General.* The factor of uniformity of size for the styles of mashed and mixed frozen sweetpotatoes is not scored; the other three factors (color, absence of defects, and character) are scored and the total multiplied by 100 and divided by 80, dropping any fractions to determine the total score.

(b) *Definition of a "small unit."* A unit that weighs less than 1/10 ounce is considered a "small unit" when contained in sliced, French-cut, or cut styles.

(c) (*A*) *classification.* Frozen sweetpotatoes that are practically uniform in size may be given a score of 18 to 20 points. "Practically uniform in size" in styles other than mashed or mixed means that:

(1) The frozen sweetpotatoes comply with the size and uniformity requirements for (A) classification in Table I of this subpart; and, in addition

(2) The over-all appearance of the product for the applicable style is not materially affected by units of abnormal size and shape.

(d) (*B*) *classification.* If the frozen sweetpotatoes are reasonably uniform in size, a score of 16 or 17 points may be given. "Reasonably uniform in size" in styles other than mashed or mixed means that:

(1) The frozen sweetpotatoes comply with the size and uniformity requirements for (B) classification in Table I of this subpart; and, in addition

(2) The over-all appearance of the product for the applicable style is not seriously affected by units of abnormal size and shape.

(e) (*SStd*) *classification.* Frozen sweetpotatoes that fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 15 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

TABLE I—UNIFORMITY OF SIZE REQUIREMENTS FOR CERTAIN STYLES OF FROZEN SWEETPOTATOES

Styles, as applicable	(A) Classification		(B) Classification	
	Uniformity of size		Uniformity of size	
Whole:				
(1) Peeled	May vary moderately in size. The weight of the smallest unit is no less than ½ the weight of the largest unit.		May vary considerably in size. The weight of the smallest unit is no less than ⅓ the weight of the largest unit.	
(2) Baked (unpeeled)				
(3) Stuffed				
Halves:				
(1) Peeled	May vary moderately in size. The weight of the smallest unit is no less than ⅔ the weight of the largest unit.		May vary considerably in size. The weight of the smallest unit is no less than ½ the weight of the largest unit.	
(2) Stuffed				
		Small units		Small units
Sliced	May vary moderately in size except that the thickness of slices are reasonably uniform.	Composite weight does not exceed 5% by weight of all units.	May vary considerably in size except that the thickness of slices are fairly uniform.	Composite weight does not exceed 10% by weight of all units.
French-cut				
Cuts (or chunks)				
Diced	May vary moderately in size.	No limits.	May vary considerably in size.	No limits.

§ 52.5008 Defects.

(a) *General.* The factor of defects refers to the degree of freedom from particles of peel in peeled styles; broken skins and broken or distorted preformed shells in whole baked, whole stuffed, and halves stuffed styles; primary and secondary rootlets, fibrous ends, discolored areas, and corky areas, or from other defects that detract from the appearance or edibility of the unit or product.

(b) (*A*) *classification.* Frozen sweetpotatoes of any style that are practically free from defects may be given a score of 36 to 40 points. "Practically free from defects" has the following meaning for the applicable styles:

(1) *Whole baked; whole stuffed; halves stuffed.* The peel or shell is not broken nor the shell distorted to any noticeable extent other than in the opening in whole stuffed style; and the units are practically free from primary and secondary rootlets, internal fibers, internal corky areas, and any other defects which do not affect materially the appearance or the edibility of the product.

(2) *Whole peeled; halves peeled; mashed.* The product may contain not more than a slight amount of particles of peel, primary and secondary rootlets, untrimmed fibrous ends, discolored areas, corky areas, and any other defects which do not affect materially the appearance or the edibility of the product.

(3) *All other styles.* The aggregate weight of all defective units does not exceed 5 percent, by weight, of all the units: *Provided,* The overall appearance and edibility of the product is not materially affected by the presence of defective units.

(c) (*B*) *classification.* If the frozen sweetpotatoes of any style are reasonably free from defects, a score of 32 to 35 points may be given. Frozen sweetpotatoes that fall into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" has the following meaning for the applicable styles:

(1) *Whole baked; whole stuffed; halves stuffed.* The peel or shell may be broken or the shell distorted to some extent other than in the opening in whole stuffed style; and the units are reasonably free from primary and secondary rootlets, internal fibers, internal corky areas, and any other defects which do not affect seriously the appearance or edibility of the product.

(2) *Whole peeled; halves peeled; mashed.* The product may contain not more than a moderate amount of particles of peel, primary or secondary rootlets, untrimmed fibrous ends, discolored areas, corky areas, and any other defects which do not affect seriously the appearance or edibility of the product.

(3) *All other styles.* The aggregate weight of all defective units does not exceed 10 percent, by weight, of all the units: *Provided,* The overall appearance and edibility of the product is not seriously affected by the presence of defective units.

(d) (*SStd*) *classification.* Frozen sweetpotatoes that fail to meet the requirements of paragraph (c) of this section may be given a score of 0 to 31 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.5009 Character.

(a) *General.* The factor of character refers to the texture or consistency and condition of the flesh, the degree of freedom from pithy units and tough or coarse fibers, the uniformity of tenderness of the frozen sweetpotatoes after heating in a suitable manner, and the tendency of the frozen sweetpotatoes (except for mashed style) to retain their apparent original conformation and size without disintegration.

(b) (*A*) *classification.* Frozen sweetpotatoes that possess a good character may be given a score of 18 to 20 points. "Good character and consistency" has

[1] Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable state laws and regulations.

the following meaning for the applicable styles:

(1) *Whole baked.* The flesh is not soggy nor dry and is practically free from tough or coarse internal fibers.

(2) *Whole stuffed; halves stuffed; mashed.* The mass or stuffing possesses a uniformly smooth texture and consistency and is free from lumps and tough or coarse fibers.

(3) *All other styles.* The units possess a uniformly smooth texture, are practically free from tough or coarse fibers, and may be firm to soft but hold their apparent original conformation and size without material disintegration.

(c) *(B) classification.* If the frozen sweetpotatoes possess a reasonably good character, a score of 16 or 17 points may be given. "Reasonably good character and consistency" has the following meaning for the applicable styles:

(1) *Whole baked.* The flesh is not excessively dry and is reasonably free from tough or coarse internal fibers.

(2) *Whole stuffed; halves stuffed; mashed.* The texture and consistency of the mass or stuffing may be coarse and stiff but practically free from lumps, and not more than a few tough or coarse fibers may be present.

(3) *All other styles.* The units possess a reasonably uniform smooth texture, are reasonably free from tough or coarse fibers, and 75 percent, by weight, or more of the units hold their apparent original conformation and size without material disintegration.

(d) *(SStd.) classification.* Frozen sweetpotatoes that fail to meet the requirements of paragraph (c) of this section may be given a score of 0 to 15 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

EXPLANATION AND METHOD OF ANALYSIS

§ 52.5010 Preparation by heating.

"Prepared by heating in a suitable manner" means by either of the following applicable methods:

(a) *Oven method.* (Applicable to any style).

(1) Place the product and packing media, if any, in a shallow pan (or use the open carton if suitable for heating) of sufficient size so that the product may be spread to a uniform thickness of not more than 1½ inches; and

(2) Place pan (or open carton) and frozen contents into a properly ventilated oven, preheated to 375 degrees F., and allow to remain 30 minutes or longer until the interior portions of the larger units are thoroughly heated and cooked; or

(b) *Pot method.* (Not applicable to baked and stuffed styles). Place the product while still in the frozen state in a stainless steel cooking utensil and add enough water to cover the product. Bring to a boil, cover, and simmer until the larger units are thoroughly cooked.

LOT INSPECTION AND CERTIFICATION

§ 52.5011 Ascertaining the grade of a lot.

The grade of a lot of frozen sweetpotatoes covered by these standards is determined by the procedures set forth in the Regulations Governing Inspection and Certification of Processed Fruits and Vegetables, Processed Products Thereof, and Certain Other Processed Food Products (§§ 52.1 through 52.87).

SCORE SHEET

§ 52.5012 Score sheet for frozen sweetpotatoes.

Size and kind of container	
Container mark or identification	
Label	
Package contents (ounces)	
Weight of media (ounces)—if contained separately	
Style of pack of sweetpotatoes	
Count (whole; halves)	
Type of media (if any)	
Brix measurement of media (if liquid and contained separately)	
Color (yellow; golden; mixed)	

Factors		Score points	
Color	20	(A)	18–20
		(B)	[1] 16–17
		(SStd.)	[2] 0–15
Uniformity of size	20	(A)	18–20
		(B)	16–17
		(SStd.)	[2] 0–15
Absence of defects	40	(A)	36–40
		(B)	[1] 32–35
		(SStd.)	[2] 0–31
Character	20	(A)	18–20
		(B)	[1] 16–17
		(SStd.)	[2] 0–15
Total score	100		

Flavor and odor	
Grade

MILK IN MADISON, WISCONSIN, MARKETING AREA

Notice of Extension of Time for Filing Exceptions to the Recommended Decision on Proposed Marketing Agreement and Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given that the time for filing exceptions to the recommended decision with respect to the proposed marketing agreement and order regulating the handling of milk in the Madison, Wisconsin marketing area, which was issued December 22, 1961 (26 F.R. 12591), is hereby extended to February 3, 1962.

Signed at Washington, D.C., on January 15, 1962.

JAMES T. RALPH,
Assistant Secretary.

TURKEY HATCHING EGGS AND TURKEYS

Notice of Reopening of Hearing on Proposed Marketing Agreements and Proposed Orders

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U.S.C. 601–674), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the reopening of the hearing on proposed marketing agreements and orders regulating the handling of turkey hatching eggs and turkeys which was held in the cities of Richmond, Virginia; Des Moines, Iowa; Las Vegas, Nevada; Oklahoma City, Oklahoma; Chicago, Illinois; and Albany, New York during the period between November 20 and December 13, 1961. (26 F.R. 10286, 10516, and 10772).

Such hearing is hereby reopened and will be reconvened at 3d Floor, Windsor Room, Hotel Phillips, 12th and Baltimore Streets, Kansas City, Missouri, commencing on January 29, 1962, at 10:00 a.m., local time, and will continue as necessary through January 31, 1962.

Attached to this notice of hearing is a draft of a proposed marketing agreement and order regulating the handling of turkeys which incorporates modifications proposed and considered in the course of previous sessions of the hearing. This draft has been prepared solely for the purpose of aiding interested persons and has not received the approval of the Secretary of Agriculture. All interested persons will be afforded an opportunity at the hearing to submit additional evidence, data, and views as they may desire with respect to the proposed marketing agreements and orders which are the subject of the hearing and appropriate modifications thereof, including the attached draft.

Copies of this notice of the reopening of the hearing may be procured from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D.C., or may there be inspected.

Dated: January 17, 1962.

JAMES T. RALPH,
Assistant Secretary.

Draft of Proposed Marketing Agreement and Order Regulating the Handling of Turkeys Incorporating Modifications Proposed in the Course of the Hearing

DEFINITIONS

§ 301.1 Secretary.

"Secretary" means the Secretary of Agriculture of the United States or any employee of the Department to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

§ 301.2 Act.

"Act" means Public Act No. 10, 73d Congress, as amended and as reenacted

and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U.S.C. 601 et seq.).

§ 301.3 Person.

"Person" means an individual, partnership, corporation, association, or any other business unit.

§ 301.4 Production Area.

"Production area" means the 48 contiguous states of the continental United States and the District of Columbia.

§ 301.5 Turkey.

"Turkey" means that fowl belonging to the family Meleagridae, the genus Meleagris and the species Gallopavo.

§ 301.6 Type or variety.

"Type" or "variety" are synonymous and mean such classification of turkeys as the Committee may recommend and the Secretary shall approve.

§ 301.7 Quantity.

"Quantity" means the weight of live turkeys at the time of shipment to a handler or receipt by a handler or the equivalent thereof of processed turkeys as determined by the committee.

§ 301.8 Processed turkey.

"Processed turkey" means the eviscerated turkey (ready to cook) or the equivalent thereof of New York Dressed or Kosher processed turkey as determined by the committee.

§ 301.9 Handle.

"Handle" means the slaughtering of turkeys in the production area for the production of meat.

§ 301.10 Handler.

"Handler" means a person who handles turkey.

§ 301.11 Exempt handler.

"Exempt handler" means a handler who handles less than a quantity of 7,000 pounds of turkey per marketing year.

§ 301.12 Producer.

"Producer" means a person, other than a producer-handler, who (a) is directly engaged in the production of a quantity of turkeys in excess of 1,800 pounds per year and who ships or delivers turkeys to a handler, other than an exempt handler or producer-handler, and operates and controls the facilities for the production of turkeys and produces turkey with such facilities; or (b) is involved in the production of turkeys by having a proprietary interest in the turkeys defined in subparagraph (a): *Provided,* That for the purposes of this part, if two or more persons are producers with respect to the turkeys defined in (a) of this section, their respective shares in the turkeys shall be deemed to be a quantity of turkeys equal to the total number of turkeys so produced divided by the number of persons who are producers thereof.

§ 301.13 Proprietary interest.

"Proprietary interest" means participation in the risk of profit and loss of the production of turkeys.

§ 301.14 Producer-handler.

"Producer-handler" means a person who (a) handles a quantity of not more than 65,000 pounds of turkey per marketing year, of which not more than 5,000 pounds of such turkey are not of his own production, and (b) does not produce any turkeys other than those he handles.

§ 301.15 Board.

"Board" means the Turkey Advisory Board established pursuant to this part.

§ 301.16 Committee.

"Committee" means the Turkey Administrative Committee established pursuant to this part.

§ 301.17 Marketing year.

"Marketing year" means the 12-month period beginning February 1, of each year and ending January 31 of the following year, or such other period as may be recommended by the Committee and approved by the Secretary.

§ 301.18 Year.

"Year" means the marketing year when referring to a period after the order has become effective and the 12-month calendar year when referring to periods prior to the order becoming effective.

TURKEY ADVISORY BOARD

§ 301.20 Establishment and membership.

A turkey advisory board is hereby established, consisting of 60 members, of whom 57 shall be nominated to represent various states and regions, as listed below:

California-Nevada	6
Minnesota	6
Iowa	4
Wisconsin	3
Virginia-West Virginia	3
Missouri	3
Texas	3
Indiana	2
Utah and Arizona	2
Ohio	2
Arkansas	2
North Carolina	2
Colorado-New Mexico	1
New England States	1
Georgia-Florida	1
Washington	1
Oregon	1
Pennsylvania	1
Oklahoma	1
Michigan	1
Nebraska	1
North Dakota	1
Illinois	1
Kansas	1
South Dakota	1
Kentucky-Tennessee	1
New York	1
Delaware, Maryland, New Jersey, District of Columbia	1
Montana, Idaho, Wyoming, Alabama, Mississippi, Louisiana	1
South Carolina	1

The remaining three members shall be representatives-at-large and shall be selected at the discretion of the Secretary. Each member of the Board shall have an alternate member nominated in the same manner as members.

§ 301.21 Term of office.

Members and alternate members of the Board shall serve for terms of three years ending on the last day of January, and each such member and his alternate shall serve until his successor is selected and qualified: *Provided,* That the term of office of the initial board shall be three years for one-third of the members and their alternates, two years for one-third of the members and their alternates, and for the remaining one-third of the members and their alternates shall be from the effective date of this part to the last day of January 1963, such staggered terms of office to be determined by the Secretary.

§ 301.22 Nominations.

Nominees for membership on the Board shall be made at one or more nomination meetings called and supervised by the committee under rules and regulations promulgated by the committee and approved by the Secretary. Such meetings shall be held in and for each of the states of groups of states specified in § 301.20 and reasonable publicity shall be provided for such nomination meetings by the committee. Only producers and handlers other than exempt handlers shall be eligible to vote and each such person shall have but one vote. Voting shall be by secret ballot. Three nominations shall be made for each member position, which shall also be deemed nominations for such member's alternate. All nominations should be certified by the Committee to the Secretary as soon as practicable and, after the initial appointment of the Board, no later than January 4 immediately preceding the commencement of the term of office for the position for which a nomination is certified. Such certification shall include, for each nominee, a brief summary of his experience and association with the turkey industry. For the purpose of obtaining nominations for the initial Board, the Secretary shall perform the functions of the committee.

§ 301.23 Duties.

The duties of the Board shall consist of selecting from among its members a chairman and other officers, establishing procedures for performing its functions, the making of nominations for membership on the committee, the certifying of such nominations to the Secretary, the making of recommendations with respect to marketing policy, and the consideration of such other matters as it deems proper or as the committee or the Secretary may request.

TURKEY ADMINISTRATIVE COMMITTEE

§ 301.24 Establishment and membership.

A Turkey Administrative Committee is hereby established to administer the terms and provisions of this part. Such Committee shall consist of 19 members which shall include the chairman of the Board who shall also be chairman of the Committee. For each member there shall be an alternate member. No person shall be selected or continue to serve as a member or alternate member

of the Committee unless he is serving as a member or alternate member of the Board.

§ 301.25 Nomination.

The Board shall nominate from among its members and alternate members 38 nominees for appointment as members and alternate members of the Committee. All such nominations for the Committee shall be certified by the Board to the Secretary as soon as practicable following their nomination.

§ 301.26 Term of office.

Members and alternate members of the Committee shall serve for terms of one year ending on January 31, the initial term beginning with the effective date of this part and ending on January 31, 1963, but each such member and alternate member shall continue to serve until his successor is selected and has qualified.

§ 301.27 Powers.

The Committee shall have the following powers:

(a) To administer the terms and provisions of this part;

(b) To make rules and regulations to effectuate the terms and provisions of this part;

(c) To receive, investigate, and report to the Secretary, complaints of violations of this part; and

(d) To recommend to the Secretary amendments to this part.

§ 301.28 Duties.

The Committee shall have among others the following duties:

(a) To act as intermediary between the Secretary and any producer or handler.

(b) To keep minutes, books, and other records which shall clearly reflect all of its acts and transactions and these shall be subject to examination by the Secretary at any time.

(c) To investigate and assemble data on the production, handling, and marketing of turkeys and to make recommendations concerning the issuance of regulations pursuant to this part.

(d) To submit to the Secretary or the Board such available information with respect to turkey hatching eggs and turkeys as may be requested and such other information as the Committee may deem desirable and pertinent;

(e) To select from among its members officers other than the chairman and to adopt such rules and regulations for the conduct of its business as it may deem advisable;

(f) To appoint or employ such other persons as it may deem necessary and to determine the salaries and define the duties of each such person;

(g) To cause the books of the Committee to be audited by a certified public accountant at least once each marketing year and at such other times as the Committee may deem necessary or as the Secretary may request, to submit two copies of each such audit report to the Secretary, and to make available a copy which does not contain confidential data for inspection at the offices of the Committee by producers and handlers;

(h) To prepare and submit to the Secretary monthly statements of the financial operations of the Committee and to make such statements, together with the minutes of the meetings of said Committee and the Board, available for inspection at the offices of the Committee by producers and handlers;

(i) To give the Secretary the same notice of meetings of the Committee and the Board as is given to members;

(j) To investigate compliance with and to use means available to the Committee to prevent violation of the provisions of this part; and

(k) To establish with the approval of the Secretary such rules and regulations as are necessary or incidental to administration of this subpart, as are consistent with its provisions, and as would tend to accomplish the purposes of this subpart and the act.

BOARD AND COMMITTEE

§ 301.30 Selection.

The Secretary shall select and appoint members and alternate members of the Board and the Committee in the numbers and with the qualifications specified in this subpart. Such selections shall, to the extent feasible in the light of the following considerations, be made from the nominations certified by the Committee and the Board: *Provided*, That in making such selections and appointments the Secretary shall give major recognition to turkey producers, including consideration of the size, nature, and location of their production operations, and reasonable handler representation with a view to the extent possible and practicable to have representation from all segments of the industry.

§ 301.31 Failure to nominate.

In the event a nominee for any member or alternate member position is not certified pursuant to and within the time specified in this subpart, the Secretary may select an eligible person to fill such position without regard to nomination.

§ 301.32 Qualify by acceptance.

Each person selected as a member or as an alternate member shall, prior to serving, qualify by filing with the Secretary a written acceptance as soon as practicable after being notified of such selection.

§ 301.33 Alternate members.

An alternate for a member shall act in the place and stead of such member (a) during his absence, or (b) in the event of his removal, resignation, disqualification, or death, until a successor for such member's unexpired term has been selected and has qualified.

§ 301.34 Vacancies.

Any vacancy occasioned by the removal, resignation, disqualification, or death of any member, or any need to select a successor through failure of any person selected as a member or alternate member to qualify, shall be recognized by the Committee certifying to the Secretary a new nominee within 40 calendar days.

§ 301.35 Procedure.

All decisions of the Board and the Committee reached at an assembled meeting shall be by majority vote of the members present. All votes in an assembled meeting shall be cast in person and a quorum must be present for a valid decision. A quorum for the Board shall consist of not less than thirty (30) members and for the Committee not less than ten (10) members. Such quorum requirements may be changed by the Secretary, upon recommendation of the Board or Committee. The Committee may vote by mail or telegram upon due notice to all members, but any proposition to be so voted upon first shall be explained accurately, fully, and identically by mail or telegram, to all such members. When any proposition is submitted to be voted on by such method, it must be favored by not less than fourteen (14) members of the Committee to constitute action by the Committee.

§ 301.36 Expenses and compensation.

The members of the Committee and the Board, and the alternate members, shall be allowed their necessary expenses, actual or per diem, as approved by the Committee. If the Secretary upon recommendation of the Board determines that it is necessary for the efficient and effective operation of the Board or Committee and that the members thereof receive reasonable compensation for their services, such members may receive such compensation at a rate recommended by the Committee and approved by the Secretary.

EXPENSES AND ASSESSMENTS

§ 301.40 Expenses and budget.

The committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by it during each marketing year for the maintenance and functioning of the Board and committee and for other such purposes, as the Secretary may, pursuant to the provisions of this subpart, determine to be appropriate. The Committee shall file a proposed budget of expenses and rate of assessment with the Secretary as soon as practicable after the beginning of the marketing year.

§ 301.41 Assessments.

Each handler shall pay to the committee, upon demand, with respect to turkeys handled by him, his pro rata share of all expenses which the Secretary finds are reasonable and likely to be incurred by the committee during each marketing year. Each handler's pro rata share shall be at a rate of assessment per hundred pounds of processed turkey, fixed by the Secretary. At any time during the marketing year the Secretary may decrease the rate of assessment or may increase the rate of assessment to cover unanticipated expenses or a deficit in the anticipated quantity of turkeys handled but in no event shall such assessment exceed $.20 per 100 pounds of processed turkey: *Provided*, That no such assessment shall be retroactive. In order to provide funds to carry out the functions of the board and committee, the committee may accept advance payments from any handler and such shall be credited towards assessments levied pursuant to this section against such handler. The payment of expenses for the maintenance and functioning of the board and committee may be required throughout the period during which this part is in effect and irrespective of whether particular provisions thereof are suspended or become inoperative, or whether volume regulation is in effect.

§ 301.42 Accounting.

(a) If, at the end of a marketing year, the assessments collected are in excess of expenses incurred, such excess shall be accounted for in accordance with one of the following:

(1) If such excess is not retained in a reserve, as provided in subparagraph (2) of this paragraph, it shall be refunded proportionately and to the extent practicable to the persons from whom it was collected.

(2) The committee, with the approval of the Secretary, may carry over such excess into subsequent marketing year, as a reserve: *Provided*, That funds already in the reserve do not equal approximately one marketing year's expenses. Such reserve funds may be used (i) to defray expenses, during any marketing year, prior to the time assessment income is sufficient to cover such expenses, (ii) to cover deficits incurred during any marketing year when assessment income is less than expenses, (iii) to defray expenses incurred during any period when any or all provisions of this part are suspended or are inoperative, (iv) to cover necessary expenses of liquidation in the event of termination of this part. Upon such termination, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate.

(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purpose specified in this part and shall be accounted for in the manner provided for in this part. The Secretary may at any time require the committee and its members to account for all receipts and disbursements.

(c) Upon the removal or expiration of the term of office of any member of the committee, such member shall account for all receipts and disbursements and deliver all property and funds in his possession to the committee, and shall execute such assignments and other instruments as may be necessary and appropriate to vest in the committee full title to all of the property, funds, and claims vested in such member pursuant to this part.

(d) The committee may make recommendations to the Secretary for one or more of the members, thereof, or any other person, to act as a trustee for holding records, funds, or any other committee property during periods of suspension of this subpart, or during any period or periods when regulations are not in effect and if the Secretary determines such action appropriate, he may direct that such person or persons shall act as trustee or trustees for the committee.

RESEARCH DEVELOPMENT

§ 301.45 Research and development.

The committee, with the approval of the Secretary, may establish or provide for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, and distribution of turkeys. The expenses of such projects shall be paid from funds collected pursuant to § 301.41.

REGULATIONS

§ 301.50 Marketing policy.

At least once each marketing year the Board shall prepare and submit to the Secretary through the committee a report setting forth its general marketing policy for such ensuing period or periods as it may deem appropriate. Notice of the Board's marketing policy shall be given promptly by reasonable publicity to producers and handlers. The report shall include any recommendation it may make for regulatory action in such period or periods as well as data and information used by the board in formulating the marketing policy. In developing the marketing policy, the board shall give consideration to the following factors:

(a) The estimated quantity of processed turkeys on hand in the production area at the beginning of such period or periods.

(b) The probable availability of additional turkeys during such period or periods.

(c) The estimated quantity of processed turkeys which should be carried over as a desirable inventory into any succeeding period or periods.

(d) The number of turkey hatching eggs set for hatching or the number of poults placed in such period or periods as will reflect probable availability of turkeys in the period or periods for which regulation is proposed.

(e) The estimated market requirements for processed turkeys for the period or periods for which regulation may be proposed, including in such estimates as separate items probable trade demands for such turkeys in the various available outlets for such turkeys.

(f) Current prices being received for turkeys and the probable general level of prices to be received for turkeys by producers and handlers.

(g) The trend and level of consumer income and any other factors which may affect consumer demand for processed turkeys.

(h) Any other pertinent factors bearing on the marketing of such turkeys, including the estimated supply or demand for particular types or sizes of turkeys or special problems relating thereto.

(i) The need for any regulations and recommendations with respect thereto dealing in any manner with any of the foregoing or with the authorities for regulation provided by this subpart.

Recommendations with respect to specific implementation of the general marketing policy recommended by the Board shall be made to the Secretary by the committee from time to time, as circumstances warrant, and the committee's recommendation shall contain the data and information upon which it is based, together with the specific regulatory action recommended.

§ 301.51 Issuance of regulations.

The Secretary shall regulate the handling of turkeys as authorized by this subpart whenever he finds from the recommendations and information submitted by the board or committee, or from other available information, that such regulation may tend to effectuate the declared policy of the act. Such regulation may:

(a) Limit the quantity of turkeys all handlers may receive for handling pursuant to § 301.56.

(b) Limit the handling for specified outlets of particular grades, sizes, qualities or packs of any or all types of turkeys during a specified period or periods.

(c) Fix, or provide methods for fixing, pursuant to §§ 301.55 and 301.57 through 301.68, free and surplus percentages applicable to the handling of all turkeys handled by handlers and for the pooling of set aside turkeys and the distribution of the proceeds of such pool.

(d) Limit the handling of turkeys differently for different period or periods, for difference regions, for different types, sizes or for different purposes, or any combination of the foregoing for any period.

VOLUME REGULATION

§ 301.55 Volume regulation.

The Secretary may establish, upon the recommendation of the board, or other available information, regulation of turkeys for the marketing year or for such period or periods as he may prescribe, by any one or both of the methods hereinafter specified if he determines that regulation by the method or methods employed may tend to effectuate the declared policy of the act. Such regulation may be based upon different desirable quantities or desirable free quantities for different types or sizes of turkeys, or for any or all portions of the production area; and when such quantities are established for such turkeys, the allocation of bases, allotments, or percentages under such regulation shall be equitably apportioned among producers: *Provided*, That if the Board recommends volume regulation for the balance of the fiscal year 1962, remaining after this part becomes effective, such volume regulation shall be restricted to Method No. II provided in §§ 301.57 through 301.68 and in such event the Board shall give due consideration to the regional differences in production of turkeys.

METHOD NO. I

§ 301.56 Desirable quantity.

Whenever a desirable quantity of turkeys which all handlers may acquire from producers in the marketing year has been established the committee shall equitably apportion such quantity among producers by establishing allocation bases and allotments for the marketing year as follows:

(a) *Allocation bases*. Each producer shall be apportioned an allocation base which shall be computed as follows:

(1) Each producer's base for the years 1963 and 1964 shall be the highest of the quantity of turkeys produced by him which were marketed in the years 1959, or 1960 or 85 percent of the quantity which were marketed by him in the year 1961: *Provided*, That where more than one producer is involved in the production of turkeys marketed from the same production facility, the year 1961, as adjusted, shall be used in computing their bases unless the producers concerned agree to the use of either 1959 or 1960.

(2) For the marketing years 1965 and thereafter each producer's allocation base shall be determined by taking the average of the highest quantity of turkeys produced by him which were marketed in any three of the five years immediately preceding the marketing year for which the allocation base is being determined: *Provided*, That for the purposes of this computation the 1961 quantity for allocation base purposes shall be limited as in subparagraph (1) of this paragraph; and the year 1962 shall not be used in the computation of bases: *Provided further*, That where more than one producer is involved in the production of turkeys marketed from the same production facility, the three most recent base years shall be used in computing their bases unless the producers concerned agree to the use of other years of said five years.

(3) A producer who operates and controls the facilities for production, the marketing from which was divided between producers in establishing his base, may have the option upon application to the committee to have his allocation base adjusted up to the total quantity of turkeys marketed from such facilities in his base period as if he had had the sole proprietary interest in such turkeys: *Provided*, Such producer may exercise such option only once and: *Provided further*, That such adjusted allocation base shall be available only when the total marketings from such facilities are turkeys in which the producer has the sole proprietary interest.

(4) (i) The committee may provide for adjustment of a producer's allocation base upon a showing that such producers' production in the applicable base periods provided in subparagraphs (1) and (2) of this paragraph was not representative.

(ii) A producer-handler who desires to relinquish his status as a producer-handler, may be apportioned an allocation base by the committee based upon his past production and marketing in accordance with regulations made by the committee and approved by the Secretary.

(iii) If the sum of the desirable quantity in any marketing year exceeds the sum of the allotments of the preceding year the committee may determine a portion of the difference between such sums which may be apportioned to persons who are not producers of turkeys and who can establish that they have the ability to produce.

(b) *Application.* Each producer desiring an allocation base for the marketing year shall, not later than 6 weeks preceding such marketing year, or prior to such date as the committee may otherwise prescribe, file with the committee or other agency specified by the committee an application therefore on forms prescribed by the committee, which shall supply all pertinent information required by the committee. The burden of supplying and supporting all such information filed with the committee shall rest upon the producer.

(c) *Committee verification.* The committee or agency shall check and determine the accuracy of the information submitted pursuant to this section and shall be authorized to make a thorough investigation of any application. Whenever the committee finds an error, omission, false statement or inaccuracy in any such application, it shall correct the same and shall give the person who submitted the application a reasonable opportunity to discuss with the committee or agency the factors considered in making the corrections. In the event of correction of a base, the allotment apportioned to the producer pursuant to paragraph (d) of this section shall likewise be corrected.

(d) *Allotments.* Each producer who has an allocation base shall be apportioned an allotment of turkeys which handlers may purchase or otherwise acquire or receive from such producer for their account or the account of such producer during the marketing year which allotment shall be computed by dividing the desirable quantity of turkeys established pursuant to this section by the sum of the allocation bases of all producers, and multiplying such producer's allocation base by the resulting percentage figure. The result shall be the producer's allotment of the established desirable quantity of turkeys and no handler shall acquire a quantity of turkeys from any producer (including such handler in his capacity as a producer) which would result in handlers having acquired or received a greater quantity of turkeys from such producer than the total quantity so apportioned to such producer, plus such additional amounts as may be specifically provided in this part.

(e) *Certification of allotments.* The committee, with the approval of the Secretary, may establish by regulation such means of certification or identification with respect to allotments of producers as may be required to effectuate the purposes of any regulation issued under this part.

(f) *Allotments by period.* Whenever the board recommends and the Secretary finds that such recommendation may tend to effectuate the declared policy of the Act, he may establish within the marketing year a period or periods within which handlers may acquire a producer's allotment or specified portion thereof. In determining the quantities of turkeys which handlers may acquire in such period or periods, the Board shall take into consideration the seasonal patterns of production by region, such regions to be established by the committee, and shall apportion such quantities to be acquired by handlers from producers so as to provide equity among producers.

(g) *Foundation breeders.* The committee may establish, by regulation, a definition of a foundation breeder and, notwithstanding the provisions of paragraphs (d) and (e) of this section if the committee finds, upon substantial information submitted by a producer who is a foundation breeder, that such producer's apportionment of the established desirable quantity of turkeys is having a substantial adverse affect upon the operation of a sound breeding program, the committee may adjust such producer's allotment which may be acquired by handlers to the extent necessary to avoid or mitigate such adverse affect. A determination as to whether a producer is a foundation breeder shall be made by the committee and shall be based upon an application for foundation breeder status, filed with the committee by the producer, containing such information as the committee may prescribe, and upon such other information as the committee may find necessary in order to arrive at its determination.

(h) *Allotment adjustment.* (1) In any marketing year or period or periods within such marketing year when allotments are in effect any handler may acquire from a producer a quantity of turkeys which will result in the total quantity of turkeys acquired from such producer by handlers exceeding such producer's allotment by not in excess of 5 percent thereof: *Provided*, That such producer furnishes the handler with a certification that his total marketings of turkeys during the period, including the excess quantity, consisted of turkeys of his own production only and upon such certification, the producer's allotment for the period shall be deemed adjusted accordingly: *Provided further*, That any handler receiving excess turkeys under these conditions shall make the producer's certification available to the committee and file such reports relating thereto as the committee may require and the committee shall reduce the allotment to be acquired from the producer for the ensuing period by the quantity by which his current allotment was adjusted.

(2) If handlers do not acquire from a producer that producer's full allotment for the marketing year, or period within a marketing year, then such quantity which was not acquired from such producer may, pursuant to regulations issued by the committee, be added to the quantity which may be acquired from such producer during the next marketing year, or period, but in no event shall such quantity exceed 5 percent of the quantity which may be acquired from a producer during the marketing year, or in a period within a marketing year.

(i) *Transfers of bases and allotments.* Allocation bases and allotments shall not be transferred except as authorized by regulations issued by the committee and then only in the following circumstances:

(1) *Allocation bases.* (i) In the event of a transfer of the producer's entire production facilities, the base may be transferred to the person acquiring and continuing the use of such facilities.

(ii) In the event of the death, retirement, or entry into military service of a producer, the entire allocation base may be transferred to a member of such producer's immediate family who carries on the turkey production operation.

(iii) If an allocation base is held jointly and such joint holding is terminated, the entire base may be transferred to one of the joint holders.

(2) *Allotments.* A producer's allotment may be transferable to another producer for a marketing year subject to regulations issued by the committee.

METHOD NO. II

§ 301.57 Desirable free quantity.

Whenever a desirable free quantity of turkeys has been established for any period or periods as may be prescribed, all handlers shall handle such turkeys in such period or periods subject to the percentage requirements of § 301.58.

§ 301.58 Free and surplus percentages.

(a) Whenever the committee concludes that the volume of turkeys which will be available for handling, in a period or periods for which there has been established a desirable free quantity of turkeys, will exceed such desirable free quantity it may recommend to the Secretary that the handling of turkeys in such period or periods be limited by establishing free and surplus percentages applicable to the handling of all turkeys, or the handling of turkeys of any grade, size or quality, or any combination thereof. If the Secretary finds that such recommendation may tend to effectuate the declared policy of the Act he may establish free and surplus percentages applicable to such total handlings or of any grade, size, or quality thereof, within such period or periods, which shall total 100 percent of the turkeys to which the percentages apply. If the Secretary determines that such percentages should be modified within any such period or periods, appropriate new percentages may be established: *Provided*, That any change in the applicable percentages may be applicable only to the remainder of the period and may not be retroactive.

(b) Whenever free and surplus percentages have been established for a period or periods, each handler shall set aside at such times as the committee may prescribe, and withhold for marketing a quantity of processed turkeys computed by multiplying the quantity of all turkeys handled by him in such period by the applicable surplus percentage.

(c) The committee, with the approval of the Secretary, may prescribe the grade, size, or quality of turkeys which shall be set aside to meet the surplus percentage and may require that such surplus percentage be set aside from each lot handled: *Provided*, That for purposes of this provision each day's slaughter of each producer's turkeys or of the handler's own turkeys shall be deemed a separate lot. The turkeys handled by a handler which are free quantity turkeys may be disposed of by him in any marketing outlet, subject, however, to any grade, size or quality restrictions otherwise provided by this part.

§ 301.60 Set aside turkeys.

(a) All turkeys set aside to meet the handler's set aside obligation shall be held by the handler for the account of the committee in compliance with regulations of the committee, approved by the Secretary, until the handler has been relieved of such responsibility by the committee. Such set aside turkeys shall be free and clear of all liens: *Provided*, That any liens which were outstanding at the time turkeys were set aside shall be subject in every way to this order and the regulations thereunder, and any lienholder with respect to such lien shall, to the extent of such lien, be deemed an assignee of a pro rata interest in the net proceeds of the applicable pool of set aside turkeys.

(b) The handler shall hold such turkeys in storage, in such facilities and under such storage conditions as the committee may prescribe.

(c) Set aside turkeys shall be labeled or otherwise marked in such manner as the committee may prescribe so as to be identifiable at all times and shall be subject to inspection by the committee or its representatives at all times.

(d) Upon reasonable notice by the committee, a handler shall commence delivery to the committee or its designee of any or all set aside turkeys held for the account of the committee and at such rate as may be prescribed.

(e) Handlers shall use good commercial practices in caring for set aside turkeys and be liable to the committee for losses of set aside resulting from lack of due care.

(f) The committee may, by regulation, authorize methods, other than processing and storage by which a handler may comply with his set aside requirements. Some such other methods might include, but are not limited to the following.

(1) The committee may allow the handler to purchase other handlers free percentage turkeys to fulfill his set aside requirement.

(2) The committee may, upon authorization and payment from the handler, purchase free percentage turkeys to fulfill the handlers set aside.

(3) The committee may designate in advance a point or points of delivery of set aside turkeys to which the handler may ship such turkeys whenever he has set aside commitments.

(4) The committee may allow the handler to satisfy his set aside requirements for a period or periods by setting aside at a time or times specified by the committee, the aggregate of his set aside requirements rather than meeting such requirements out of each day's processing.

§ 301.61 Set aside by grade, size, or type.

Upon recommendation by the committee and approval by the Secretary, the quantities of turkeys to be set aside by handlers may be segregated by grade, size, or type and separate pools may be established for the disposition thereof and the distribution of proceeds.

§ 301.62 Title.

The committee, with respect to turkeys set aside for the account of the committee, shall be deemed to have title thereto as trustees and is authorized to negotiate loans on such set aside surplus turkeys for the purpose of paying the expenses relating thereto, or for making advance payments, or both.

§ 301.63 Pooling period.

Any pool of set aside turkeys shall consist of all surplus percentage turkeys set aside by all handlers during any period or periods as may be prescribed, but any such period shall be not less than one month, nor more than one year in duration: *Provided*, That a pool may include surplus turkeys from one or more set aside periods within a marketing year.

§ 301.64 Handler compensation.

Each handler shall be compensated for processing and other costs relating to the surplus percentage set aside of turkeys as the committee may deem to be appropriate, in accordance with charges established at the beginning of the marketing year by the committee with the approval of the Secretary. Such costs shall be borne by the producers, or their successors in interest, and may be deducted from any monies owed by handlers to such persons.

§ 301.65 Committee disposition of set aside.

(a) *General.* The committee shall have the power and authority to sell and dispose of, or use any agency approved by the Secretary including cooperatives, to dispose of any and all set aside turkeys upon the best terms and at the highest prices attainable consistent with the provisions and objectives of this part, but only in the outlets specified in paragraph (b) of this section.

(b) *Outlets.* The committee may sell or dispose of set aside turkeys in the following outlets:

(1) By sales for disposition in export;

(2) By direct sale to any agency of the United States Government;

(3) In other outlets which the Secretary, upon recommendation of the committee, may specify by regulation to be substantially noncompetitive with those for normal outlets for turkeys, as defined by regulations, or

(4) To the extent feasible and consistent with the purposes of this part, the committee with the approval of the Secretary may sell or dispose of set aside surplus turkeys in any other outlets, including any normal outlets for turkeys.

(c) The committee shall make disposition of surplus turkeys in each pool as expeditiously as practical consistent with the provisions and objectives of this part, and in any event not later than August 1 of the following marketing year.

§ 301.66 Distribution of net proceeds.

The net proceeds from the disposition of any pool of set aside surplus turkeys shall be distributed, after deduction of any expenses incurred by the committee for the receiving, handling, holding, or disposition thereof, to handlers pro rata on the basis of the quantities of their respective contributions to the set aside contained in such pool, for distribution

by such handlers to the respective producers of such turkeys, or their successors in interest, in accordance with records of each handler showing their respective contributions to the handler's total set aside.

§ 301.67 Equity holders.

So that the handler may determine each producer's or his successor's or assignee's interest or equity in the handler's total set aside, each handler who sets aside turkeys to meet his surplus percentage shall determine, or cause to be determined, the size, grade, and quantity of turkeys so set aside which were received from each producer thereof, together with the name and address of such producer, or his successor in interest, and any other information which the Committee may require to identify all producers of the turkeys so set aside. The handler shall keep a record of all such information pertinent to each pool of set aside surplus turkeys to which it may be pertinent.

§ 301.68 Prohibition against disposition.

Except as provided herein, set aside turkeys shall not be used or disposed of by any handler.

CERTIFICATION FOR GRADE OR QUALITY

§ 301.69 Certification for grade or quality.

Whenever, for any period or periods, regulations are in affect which require the determination of grade or quality of turkeys, the Secretary, upon recommendation of the committee, may, by regulation, require each handler to cause such turkeys to be certified for grade by any agency or agencies which he may designate, and further require that any such agency certify the grade of such turkeys on forms or certificates to be prescribed by the committee with the approval of the Secretary. The cost of any such services shall be borne by the handler.

APPLICATION OF PROVISIONS

§ 301.70 Application of provisions.

(a) *Producer-handlers and exempt handlers.* Sections 301.41, 301.55, 301.56, except § 301.56(a)(3), and §§ 301.57 through 301.69 shall not apply to producer-handlers or exempt handlers.

(b) *Institutional exemptions.* The committee may, by regulations approved by the Secretary, exempt from the application of §§ 301.41, 301.55 and 301.56 through 301.69 turkeys produced by federal, state, or other governmental or private institutions for their own consumption.

(c) *Research and educational exemptions.* The committee may exempt from the application of sections 301.41 and 301.55 through 301.69 persons, other than foundation breeders, producing turkeys for research and educational purposes upon application by such persons to the committee, and a determination by the committee, that the quantity of turkeys sought to be exempted are reasonable for the purposes stated.

REPORTS AND RECORDS

§ 301.71 Reports.

(a) *Regular monthly reports.* At a time and in a manner prescribed by the committee, each handler shall file reports with the committee on forms prescribed by the committee and approved by the Secretary, relating to his handling of turkeys for the preceding month, and providing such information with respect thereto as the committee may prescribe.

(b) *Exempt-handler and producer-handler reports.* Each handler exempted under § 301.70 shall make reports at such times and in such manner and containing such information as the committee may request.

(c) *Other reports.* Upon the request of the committee, each handler shall furnish to the committee reports relating to the handling of turkeys other than producer turkeys and such other information as may be necessary to enable the committee to exercise its powers and perform its duties under this part.

§ 301.72 Records.

Each person required to file reports with the committee shall maintain such records pertaining to all turkeys handled as will substantiate the required reports and such others as may be prescribed by the committee. All such records shall be maintained for not less than six years after the termination of the marketing year to which such records relate.

§ 301.73 Verification of reports and records.

For the purpose of assuring compliance with record keeping requirements and verifying reports filed by handlers, producer handlers and other persons required to file reports to the committee, the Secretary and the committee, through its duly authorized employees, shall have access to any premises where applicable records are maintained, where turkeys are handled, and, at any time during reasonable business hours, shall be permitted to inspect such person's premises, and any and all records of such persons with respect to matters within the purview of this part.

§ 301.74 Confidential information.

All reports and records furnished or submitted to the committee, or obtained by the employees of the committee, which contain data or information constituting a trade secret or disclosing the trade position, financial condition, or business operations of the particular handler from whom received, shall be treated as confidential and the reports and all information obtained from records shall at all times be kept in the custody and under the control of one or more employees of the committee, who shall disclose such information to no person other than the Secretary.

COMPLIANCE

§ 301.75 Compliance.

Except as provided in this subpart, no handler shall handle turkeys, the handling of which has been prohibited by the Secretary in accordance with provisions of this subpart, or the rules and regulations thereunder, and no handler shall handle turkeys except in conformity to the provisions of this subpart.

MISCELLANEOUS PROVISIONS

§ 301.80 Supervisory authority.

Regulations implementing this order shall be approved by the Secretary prior to being made effective. Nothing in this order shall impair the Secretary's right to take such action as necessary to carry out his responsibility to insure that actions taken are in the public interest, tend to effectuate the purpose of the Act, and are within legal authority. Any person having responsibilities in connection with the administration of this order may be removed or suspended by the Secretary at his discretion if he concludes such action to be in the public interest.

§ 301.81 Personal liability.

No member or alternate member of the committee or board, nor any employee, representative, or agent of the committee shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any person, for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate member, employee, representative, or agent, except for acts of dishonesty.

§ 301.82 Separability.

If any provision of this subpart, is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this subpart or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

§ 301.83 Derogation.

Nothing contained in this subpart is or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 301.84 Duration of immunities.

The benefits, privileges, and immunities conferred upon any person by virtue of this subpart, shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.

§ 301.85 Agents.

The Secretary may, by a designation in writing, name any person, including any officer or employee of the United States Government, or name any service, division or branch in the United States Department of Agriculture to act as his agent or representative in connection with any of the provisions of this subpart.

§ 301.86 Effective time.

The provisions of this subpart, or any amendments thereto, shall become effective at such time as the Secretary may declare, and shall continue in force until terminated or suspended in one of the ways specified in this subpart.

§ 301.87 Termination or suspension.

(a) *Failure to effectuate policy of act.* The Secretary shall terminate or suspend the operation of any or all of the provisions of this subpart, whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(b) *Referendum.* The Secretary shall terminate the provisions of this subpart on or before the 30th day of January of any marketing year whenever he is required to do so by the provisions of section 8c(16)(B) of the act. The Secretary may, at any time he deems it desirable, hold a referendum of producers to determine whether they favor termination of this subpart. However, the Secretary shall hold a referendum of producers between October 1 and October 31, 1964, to determine whether they favor termination of this subpart and thereafter shall hold a referendum for the same purpose between October 1 and October 31 of each subsequent even numbered year if the Secretary receives recommendation from the Board requesting the holding of such a referendum. The results of such a referendum shall be announced by the Secretary by November 30 of any marketing year in which held.

(c) *Termination of act.* The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 301.88 Procedure upon termination.

Upon termination of this subpart, the members of the committee then functioning shall continue as joint trustees, for the purposes of liquidating the affairs of the committee. Action by such trustees shall require the concurrence of a majority of said trustees. Such trustees shall continue in such capacity until discharged by the Secretary, and shall account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and the joint trustees, to such person as the Secretary may direct; and shall, upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all the funds, properties, and claims vested in the committee or the joint trustees, pursuant to this subpart. Any person to whom funds, property, or claims have been transferred or delivered by the committee or the joint trustees, pursuant to this section, shall be subject to the same obligations imposed upon the members of said committee and upon said joint trustees.

§ 301.89 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this subpart or any regulation issued pursuant to this subpart, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provisions of this subpart or any regulation issued under this subpart, or (b) release any set aside held for the account of the committee nor permit its disposition contrary to the provisions of this subpart, or (c) release or extinguish any violation of this subpart or any regulation issued under this subpart, or (d) affect or impair any rights or remedies of the Secretary, or any other person, with respect to such violation.

§ 301.90 Amendments.

Amendments to this subpart may be proposed, from time to time, by any person or by the committee.

PROVISIONS APPLICABLE ONLY TO PROPOSED MARKETING AGREEMENT

§ 301.100 Counterparts.

This agreement may be executed in multiple counterparts, and when one counterpart is signed by the Secretary all such counterparts shall constitute, when taken together, one and the same instrument as if all signatures were contained in one original.

§ 301.101 Additional parties.

After the effective date of this agreement, any handler may become a party hereto if a counterpart is executed by him and delivered to the Secretary. This agreement shall take affect as to such new contracting party at the time such counterpart is delivered to the Secretary and the benefits, privileges, and immunities conferred by this agreement shall then be effective as to such new contracting party.

§ 301.102 Order with marketing agreement.

Each signatory handler favors and approves the issuance of an order, by the Secretary, regulating the handling of turkeys in the same manner as is provided for in this agreement; and each signatory handler hereby requests the Secretary to issue, pursuant to the act, such order.

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR Part 516]

RECORDS TO BE KEPT BY EMPLOYERS

Proposed Revision

Notice is hereby given that pursuant to section 11 of the Fair Labor Standards Act of 1938 (52 Stat. 1066, as amended; 29 U.S.C. 211), Reorganization Plan No. 6 of 1950 (3 CFR 1949–53 Comp., p. 1004), and General Order No. 45–A (15 F.R. 3290) of the Secretary of Labor, the Administrator of the Wage and Hour and Public Contracts Divisions proposes to revise Part 516 of Title 29, Code of Federal Regulations, in order to provide record-keeping requirements appropriate under the Fair Labor Standards Amendments of 1961 (Public Law 87–30). The proposed revision includes the changes in §§ 516.1 to 516.3 and 516.23 proposed earlier by notice published in the FEDERAL REGISTER on August 30, 1961 (26 F.R. 8114), together with a proposed further revision of § 516.23 relating to situations in which different minimum wage rates may apply to an employee's employment, during the same workweek.

Interested persons may submit written data, views, and arguments relating to the proposed revision to the Administrator of the Wage and Hour and Public Contracts Divisions, United States Department of Labor, Washington 25, D.C., within fifteen days from its publication in the FEDERAL REGISTER.

The proposed revision reads as follows:

INTRODUCTORY

Sec.
516.1 Form of records.

Subpart A—General Requirements

516.2 Employees subject to minimum wage and 40-hour week overtime provisions; sections 6 and 7(a) of the act.
516.3 Bona fide executive, administrative, professional, and outside sales employees as referred to in section 13(a)(1) of the act—items required.
516.4 Posting of notices.
516.5 Records to be preserved three years.
516.5 Records to be preserved three years.
516.7 Place for keeping records and their availability for inspection.
516.8 Computations and reports.
516.9 Petitions for exceptions.
516.10 Amendment of regulations.

Subpart B—Records Pertaining to Employees Subject to Miscellaneous Exemptions Under the Act; Other Special Requirements

516.11 Employees under certain collective bargaining agreements who are partially exempt from overtime as provided in section 7(b)(1) or 7(b)(2) of the act.
516.12 Employees employed in industries "of a seasonal nature" who are partially exempt from overtime pay requirements pursuant to section 7(b)(3) of the act.
516.13 Employees exempt from overtime pay requirements during 14 workweeks pursuant to section 7(c) of the act.
516.14 Employees totally exempt from overtime pay requirements pursuant to section 7(c) and sections 13(b)(1), (2), (3), (4), (5), (6), (7), (8), (9), (10), and (11) of the act—items required.
516.15 Employees totally exempt from overtime pay requirements pursuant to section 13(b)(6) of the act—items required.
516.16 Employees exempt from both the minimum wage and overtime pay requirements under sections 23(a)(2), (3), (4), (5), (8), (9), (10), (11), (12), (13), (14), (15), (18), (19), (20), (21), or (22) of the act—items required.
516.17 Employees exempt from both the minimum wage and overtime pay requirements under section 13(a)(16) of the act—items required.
516.18 Employees exempt under section 13(a)(17) of the act—items required.
516.19 Employees employed pursuant to a bona fide individual contract or a collective bargaining agreement and compensated in accordance with sections 6 and 7(e) of the act—items required.

Sec.

516.20 Employees compensated for overtime work on the basis of the "applicable" piece rates or hourly rates as provided in sections 7(f)(1) and 7(f)(2) of the act—items required.
516.21 Employees compensated for overtime hours at a "basic" rate which is substantially equivalent to the employee's average hourly earnings, in accordance with section 7(f)(3) of the act—items required.
516.22 "Red caps" and other employees dependent on tips as part of wages—items required.
516.23 Learners, apprentices, messengers, or handicapped workers or students employed under special certificates as provided in section 14 of the act.
516.24 Industrial homeworkers.
516.25 Additional records required when additions or deductions are made to or from wages for "board, lodging, or other facilities" customarily furnished to employees.
516.26 Employees under more than one minimum hourly rate.
516.27 Minors employed in agriculture—items required.

AUTHORITY: §§ 516.1 to 516.27 issued under sec. 11, 52 Stat. 1066, as amended; 29 U.S.C. 211.

INTRODUCTORY

§ 516.1 Form of records.

(a) No particular order or form of records is prescribed by the regulations in this part. However, every employer who is subject to any of the provisions of the Fair Labor Standards Act of 1938, as amended (hereinafter referred to as the "act"), is required to maintain records containing the information and data required by the specific sections of this part.

(b) Scope of regulations:

(1) The regulations in this part are divided into two subparts. Subpart A of this part contains the requirements applicable to all employers employing covered employees, including the general requirements relating to the posting of notices, the preservation and location of records, and similar general provisions. This subpart also contains the requirements applicable to employers of employees to whom both the minimum wage provisions of section 6 and the overtime pay provisions of section 7(a) of the act apply. As most covered employees fall within this category, employers, in most instances, will be concerned principally with the recordkeeping requirements of Subpart A of this part. Section 516.3 thereof contains the requirements relating to executive, administrative, professional and outside sales employees.

(2) Subpart B of this part deals with the information and data which must be kept with respect to employees (other than executive, administrative, professional, and outside sales employees) who are subject to any of the exemptions provided in the act, and with special provisions relating to deductions from and additions to wages for "board, lodging, or other facilities," industrial homeworkers, employees dependent upon tips as part of wages, and employees subject to more than one minimum wage. The sections in Subpart B of this part require the recording of more, less, or different items of information or data than required under the generally applicable recordkeeping requirements of Subpart A of this part.

Subpart A—General Requirements

§ 516.2 Employees subject to minimum wage and overtime provisions; sections 6 and 7(a) of the act.

(a) *Items required.* Every employer shall maintain and preserve payroll or other records containing the following information and data with respect to each and every employee to whom both sections 6 and 7(a) of the act apply:

(1) Name in full, and on the same record, the employee's identifying symbol or number if such is used in place of name on any time, work, or payroll records. This shall be the same name as that used for Social Security record purposes,

(2) Home address,

(3) Date of birth, if under 19,

(4) Occupation in which employed,

(5) Time of day and day of week on which the employee's workweek begins. If the employee is part of a work force or employed in or by an establishment all of whose workers have a workweek beginning at the same time on the same day, a single notation of the time of the day and beginning day of the workweek for the whole workforce or establishment will suffice. If, however, any employee or group or employees has a workweek beginning and ending at a different time, a separate notation shall then be kept for that employee or group of employees,

(6) (i) Regular hourly rate of pay for any week when overtime is worked and overtime excess compensation is due under section 7(a) of the act, (ii) basis on which wages are paid (such as "$1.30 hr."; "$10 day"; "$50 wk."; "$50 wk. plus 5 percent commission on sales over $300 wk."), and (iii) the amount and nature of each payment which, pursuant to section 7(d) of the act, is excluded from the "regular rate" (these records may be in the form of vouchers or other payment data),

(7) Hours worked each workday and total hours worked each workweek (for purposes of this section, a "workday" shall be any consecutive 24 hours),

(8) Total daily or weekly straight-time earnings or wages, that is, the total earnings or wages due for hours worked during the workday or workweek, including all earnings or wages due during any overtime worked, but exclusive of overtime excess compensation,

(9) Total overtime excess compensation for the workweek, that is, the excess compensation for overtime worked which amount is over and above all straight-time earnings or wages also earned during overtime worked,

(10) Total additions to or deductions from wages paid each pay period. Every employer making additions to or deductions from wages shall also maintain, in individual employee accounts, a record of the dates, amounts, and nature of the items which make up the total additions and deductions,

(11) Total wages paid each pay period,

(12) Date of payment and the pay period covered by payment, except that,

(13) Subparagraphs (6)(i) and (iii) and (9) of this paragraph shall not apply prior to September 3, 1963, with respect to any employee with respect to whom the overtime provisions of section 7(a) of the act do not become effective until September 3, 1963.

(b) *Records of retroactive payment of wages.* Every employer who makes retroactive payment of wages or compensation under the supervision of the Administrator pursuant to section 16(c) of the act, shall:

(1) Record and preserve, as an entry on his payroll or other pay records, the amount of such payment to each employee, the period covered by such payment, and the date of payment,

(2) Prepare a report of each such payment on the receipt form provided or authorized by the Wage and Hour Division, and (i) preserve a copy as part of his records, (ii) deliver a copy to the employee, and (iii) file the original, which shall evidence payment by the employer and receipt by the employee, with the Administrator or his authorized representative within 10 days after payment is made.

§ 516.3 Bona fide executive, administrative, professional, and outside sales employees as referred to in section 13(a)(1) of the act—items required.

With respect to persons employed in a bona fide executive, administrative or professional capacity or in the capacity of outside salesman, as defined in Part 541 of this chapter (pertaining to so-called "white collar" employee exemptions), employers shall maintain and preserve records containing all the information and data required by § 516.2 (a) except subparagraphs (6) through (10) thereof, and, in addition thereto the basis on which wages are paid (this may be shown as "$350 mo."; "$95 wk."; or "on fee").

§ 516.4 Posting of notices.

Every employer employing any employees who are (a) engaged in commerce or in the production of goods for commerce or (b) employed in an enterprise engaged in commerce or in the production of goods for commerce, and who are not specifically exempt from both the minimum wage provisions of section 6 and the overtime provisions of section 7(a) of the act, shall post and keep posted such notices pertaining to the applicability of the act, as shall be prescribed by the Wage and Hour Division, in conspicuous places in every establishment where such employees are employed so as to permit them to observe readily a copy on the way to or from their place of employment.

§ 516.5 Records to be preserved three years.

Each employer shall preserve for at least three years:

(a) Payroll records: From the last date of entry, all those payroll or other records containing the employee information and data required under any of the applicable sections of this part and

(b) Certificates, agreements, plans, notices, etc.: From their last effective date, all written:

(1) Collective bargaining agreements relied upon for the exclusion of certain costs under section 3(m) of the act,

(2) Collective bargaining agreements, under sections 7(b)(1) or 7(b)(2) of the act, and any amendments or additions thereto,

(3) Plans, trusts, employment contracts, and collective bargaining agreements under section 7(d) of the act,

(4) Individual contracts or collective bargaining agreements under section 7(e) of the act. Where such contracts or agreements are not in writing, a written memorandum summarizing the terms of each such contract or agreement,

(5) Written agreements or memoranda summarizing the terms of oral agreements or understandings under section 7(f) of the act, and

(6) Certificates and notices listed or named in any applicable section of this part.

(c) A record of (1) total dollar volume of sales or business, and (2) total volume of goods purchased or received during such periods (weekly, monthly, quarterly, etc.) and in such form as the employer maintains in the ordinary course of his business.

§ 516.6 Records to be preserved two years.

(a) *Supplementary basic records.* Each employer required to maintain records under this part shall preserve for a period of at least two years:

(1) *Basic employment and earnings records.* From the date of last entry, all basic time and earning cards or sheets of the employer on which are entered the daily starting and stopping time of individual employees, or of separate work forces, or the individual employee's daily, weekly, or pay period amounts of work accomplished (for example, units produced) when those amounts determine in whole or in part the pay period earnings or wages of those employees.

(2) *Wage rate tables.* From their last effective date, all tables or schedules of the employer which provide the piece rates or other rates used in computing straight-time earnings, wages or salary, or overtime excess computation, and

(3) *Work time schedules.* From their last effective date, all schedules or tables of the employer which establish the hours and days of employment of individual employees or of separate work forces.

(b) *Order, shipping, and billing records.* Each employer shall also preserve for at least two years from the last date of entry the originals or true copies of any and all customer orders or invoices received, incoming or outgoing shipping or delivery records, as well as all bills of lading and all billings to customers (not including individual sales slips, cash register tapes or the like) which the employer retains or makes in the course of his business or operations.

(c) *Records of additions to or deductions from wages paid.* Each employer who makes additions to or deductions from wages paid shall preserve for at least two years from the date of last entry:

(1) Those records of individual employee accounts referred to in § 516.2 (a)(10),

(2) All employee purchase orders, or assignments made by employees, all copies of addition or deduction statements furnished employees, and

(3) All records used by the employer in determining the original cost, operating and maintenance cost, and depreciation and interest charges, if such costs and charges are involved in the additions to or deductions from wages paid.

§ 516.7 Place for keeping records and their availability for inspection.

(a) *Place of records.* Each employer shall keep the records required by the regulations in this part safe and accessible at the place or places of employment, or at one or more established central recordkeeping offices where such records are customarily maintained. Where the records are maintained at a central recordkeeping office, other than in the place or places of employment, such records shall be made available within 72 hours following notice from the Administrator or his duly authorized and designated representative.

(b) *Inspection of records.* All records shall be open at any time to inspection and transcription by the Administrator or his duly authorized and designated representative.

§ 516.8 Computations and reports.

Each employer required to maintain records under this part shall make such extension, recomputation, or transcription of his records and shall submit to the Wage and Hour Division such reports concerning persons employed and the wages, hours, and other conditions and practices of employment set forth in his records as the Administrator or his duly authorized and designated representative may request in writing.

§ 516.9 Petitions for exceptions.

(a) *Submission of petitions for relief.* Any employer or group of employers who, due to peculiar conditions under which he or they must operate, desires authority to maintain records in a manner other than required in this part, or to be relieved of preserving certain records for the period specified in the regulations in this part, may submit a written petition to the Administrator setting forth the authority desired and the reasons therefor.

(b) *Action on petitions.* If, on review of the petition and after completion of any necessary investigation supplementary thereto, the Administrator shall find that the authority prayed for, if granted, will not hamper or interfere with enforcement of the provisions of the act or any regulation or orders issued thereunder, he may then grant such authority but limited by such conditions as he may determine are requisite, and subject to subsequent revocation. Where the authority granted hereunder is sought to be revoked for failure to comply with the conditions determined by the Administrator to be requisite to its existence, the employer or groups of employers involved shall be notified in writing of the facts constituting such failure and afforded an opportunity to achieve or demonstrate compliance.

(c) *Compliance after submission of petitions.* The submission of a petition or the delay of the Administrator in acting upon such petition shall not relieve any employer or group of employers from any obligations to comply with all the requirements of the regulations in this part applicable to him or them. However, the Administrator shall give notice of the denial of any petition with due promptness.

§ 516.10 Amendment of regulations.

(a) *Petitions for revision of regulations.* Any person wishing a revision of any of the terms of the regulations in this part with respect to records to be kept by employers may submit to the Administrator a written petition setting forth the changes desired and the reasons for proposing them.

(b) *Action on such petitions.* If upon inspection of the petition the Administrator believes that reasonable grounds are set forth for amendment of the regulations in this part, the Administrator shall either schedule a hearing with due notice to interested persons, or make other provisions for affording interested persons an opportunity to present data, views, or arguments relating to any proposed changes.

Subpart B—Records Pertaining to Employees Subject to Miscellaneous Exemptions Under the Act; Other Special Requirements

§ 516.11 Employees under certain collective bargaining agreements who are partially exempt from overtime as provided in section 7(b)(1) or 7(b)(2) of the act.

(a) *Items required.* Every employer of employees who are employed:

(1) In pursuance of an agreement, made as a result of collective bargaining by representatives of employees certified as bona fide by the National Labor Relations Board, which provides that no employees shall be employed more than 1,040 hours during any period of 26 consecutive weeks as provided in section 7(b)(1) of the act, or

(2) In pursuance of an agreement, made as a result of collective bargaining by representatives of employees certified as bona fide by the National Labor Relations Board, which provides that the employee shall be employed not more than 2,240 hours during a specified period of 52 consecutive weeks and shall be guaranteed employment as provided in section 7(b)(2) of the act, shall maintain and preserve payroll or other records, with respect to each and every such employee, containing all the information and data required by § 516.2, except that with respect to paragraph (a)(9) thereof, the employer shall record daily as well as weekly overtime excess compensation.

(b) *Submission of copy of agreement to the Administrator.* The employer shall also keep as part of his records and, within 30 days after such collective bargaining agreement has been made, re-

§ 516.20 Employees compensated for overtime work on the basis of the "applicable" piece rates or hourly rates as provided in sections 7(f)(1) and 7(f)(2) of the act—items required.

(a) *Items required.* Every employer who employs any employees who are compensated for overtime work on the basis of the "applicable" piece rates or hourly rates as provided in sections 7(f)(1) and 7(f)(2) of the act shall maintain and preserve payroll or other records containing the following information and data with respect to each and every employee to whom both sections 6 and 7(a) of the act apply:

(1) Name in full, and on the same record, the employee's identifying symbol or number if such is used in place of name on any time, work, or payroll records. This shall be the same name as that used for Social Security record purposes,

(2) Home address,

(3) Date of birth, if under 19,

(4) Occupation in which employed,

(5) Time of day and day of week on which the employee's workweek begins. If the employee is part of a work force or employed in or by an establishment all of whose workers have a workweek beginning at the same time on the same day, a single notation of the time of the day and beginning day of the workweek for the whole workforce or establishment will suffice. If, however, any employee or group or employees has a workweek beginning and ending at a different time, a separate notation shall then be kept for that employee or group of employees,

(6) (i) Regular hourly rate of pay for any week when overtime is worked and overtime excess compensation is due under section 7(a) of the act, (ii) basis on which wages are paid (such as "$1.30 hr."; "$10 day"; "$50 wk."; "$50 wk. plus 5 percent commission on sales over $300 wk."), and (iii) the amount and nature of each payment which, pursuant to section 7(d) of the act, is excluded from the "regular rate" (these records may be in the form of vouchers or other payment data),

(7) Hours worked each workday and total hours worked each workweek (for purposes of this section, a "workday" shall be any consecutive 24 hours),

(8) Total daily or weekly straight-time earnings or wages, that is, the total earnings or wages due for hours worked during the workday or workweek, including all earnings or wages due during any overtime worked, but exclusive of overtime excess compensation,

(9) Total overtime excess compensation for the workweek, that is, the excess compensation for overtime worked which amount is over and above all straight-time earnings or wages also earned during overtime worked,

(10) Total additions to or deductions from wages paid each pay period. Every employer making additions to or deductions from wages shall also maintain, in individual employee accounts, a record of the dates, amounts, and nature of the items which make up the total additions and deductions,

(11) Total wages paid each pay period,

(12) Date of payment and the pay period covered by payment, except that,

(13) Subparagraphs (6)(i) and (iii) and (9) of this paragraph shall not apply prior to September 3, 1963, with respect to any employee with respect to whom the overtime provisions of section 7(a) of the act do not become effective until September 3, 1963.

(b) *Records of retroactive payment of wages.* Every employer who makes retroactive payment of wages or compensation under the supervision of the Administrator pursuant to section 16(c) of the act, shall:

(1) Record and preserve, as an entry on his payroll or other pay records, the amount of such payment to each employee, the period covered by such payment, and the date of payment,

(2) Prepare a report of each such payment on the receipt form provided or authorized by the Wage and Hour Division, and (i) preserve a copy as part of his records, (ii) deliver a copy to the employee, and (iii) file the original, which shall evidence payment by the employer and receipt by the employee, with the Administrator or his authorized representative within 10 days after payment is made.

§ 516.21 Employees compensated for overtime hours at a "basic" rate which is substantially equivalent to the employee's average hourly earnings, in accordance with section 7(f)(3) of the act—items required.

(a) *Items required.* Every employer who employs any employees who are compensated for overtime hours at a "basic" rate which is substantially equivalent to the employee's average hourly earnings, in accordance with section 7(f)(3) of the act shall maintain and preserve payroll or other records containing the following information and data with respect to each and every employee to whom both sections 6 and 7(a) of the act apply:

(1) Name in full, and on the same record, the employee's identifying symbol or number if such is used in place of name on any time, work, or payroll records. This shall be the same name as that used for Social Security record purposes,

(2) Home address,

(3) Date of birth, if under 19,

(4) Occupation in which employed,

(5) Time of day and day of week on which the employee's workweek begins. If the employee is part of a work force or employed in or by an establishment all of whose workers have a workweek beginning at the same time on the same day, a single notation of the time of the day and beginning day of the workweek for the whole workforce or establishment will suffice. If, however, any employee or group or employees has a workweek beginning and ending at a different time, a separate notation shall then be kept for that employee or group of employees,

(6) (i) Regular hourly rate of pay for any week when overtime is worked and overtime excess compensation is due under section 7(a) of the act, (ii) basis on which wages are paid (such as "$1.30 hr."; "$10 day"; "$50 wk."; "$50 wk. plus 5 percent commission on sales over $300 wk."), and (iii) the amount and nature of each payment which, pursuant to section 7(d) of the act, is excluded from the "regular rate" (these records may be in the form of vouchers or other payment data),

(7) Hours worked each workday and total hours worked each workweek (for purposes of this section, a "workday" shall be any consecutive 24 hours),

(8) Total daily or weekly straight-time earnings or wages, that is, the total earnings or wages due for hours worked during the workday or workweek, including all earnings or wages due during any overtime worked, but exclusive of overtime excess compensation,

(9) Total overtime excess compensation for the workweek, that is, the excess compensation for overtime worked which amount is over and above all straight-time earnings or wages also earned during overtime worked,

(10) Total additions to or deductions from wages paid each pay period. Every employer making additions to or deductions from wages shall also maintain, in individual employee accounts, a record of the dates, amounts, and nature of the items which make up the total additions and deductions,

(11) Total wages paid each pay period,

(12) Date of payment and the pay period covered by payment, except that,

(13) Subparagraphs (6)(i) and (iii) and (9) of this paragraph shall not apply prior to September 3, 1963, with respect to any employee with respect to whom the overtime provisions of section 7(a) of the act do not become effective until September 3, 1963.

(b) *Records of retroactive payment of wages.* Every employer who makes retroactive payment of wages or compensation under the supervision of the Administrator pursuant to section 16(c) of the act, shall:

(1) Record and preserve, as an entry on his payroll or other pay records, the amount of such payment to each employee, the period covered by such payment, and the date of payment,

(2) Prepare a report of each such payment on the receipt form provided or authorized by the Wage and Hour Division, and (i) preserve a copy as part of his records, (ii) deliver a copy to the employee, and (iii) file the original, which shall evidence payment by the employer and receipt by the employee, with the Administrator or his authorized representative within 10 days after payment is made.

§ 516.22 "Red caps" and other employees dependent on tips as part of wages—items required.

(a) *Items required.* Every employer who employs any employees who are "red caps" and other employees dependent on tips as part of wages shall maintain and preserve payroll or other records containing the following information and data with respect to each and every employee to whom both sections 6 and 7(a) of the act apply:

(1) Name in full, and on the same record, the employee's identifying symbol or number if such is used in place of name on any time, work, or payroll records. This shall be the same name as that used for Social Security record purposes,

(2) Home address,

(3) Date of birth, if under 19,

(4) Occupation in which employed,

(5) Time of day and day of week on which the employee's workweek begins. If the employee is part of a work force or employed in or by an establishment all of whose workers have a workweek beginning at the same time on the same day, a single notation of the time of the day and beginning day of the workweek for the whole workforce or establishment will suffice. If, however, any employee or group or employees has a workweek beginning and ending at a different time, a separate notation shall then be kept for that employee or group of employees,

(6) (i) Regular hourly rate of pay for any week when overtime is worked and overtime excess compensation is due under section 7(a) of the act, (ii) basis on which wages are paid (such as "$1.30 hr."; "$10 day"; "$50 wk."; "$50 wk. plus 5 percent commission on sales over $300 wk."), and (iii) the amount and nature of each payment which, pursuant to section 7(d) of the act, is excluded from the "regular rate" (these records may be in the form of vouchers or other payment data),

(7) Hours worked each workday and total hours worked each workweek (for purposes of this section, a "workday" shall be any consecutive 24 hours),

(8) Total daily or weekly straight-time earnings or wages, that is, the total earnings or wages due for hours worked during the workday or workweek, including all earnings or wages due during any overtime worked, but exclusive of overtime excess compensation,

(9) Total overtime excess compensation for the workweek, that is, the excess compensation for overtime worked which amount is over and above all straight-time earnings or wages also earned during overtime worked,

(10) Total additions to or deductions from wages paid each pay period. Every employer making additions to or deductions from wages shall also maintain, in individual employee accounts, a record of the dates, amounts, and nature of the items which make up the total additions and deductions,

(11) Total wages paid each pay period,

(12) Date of payment and the pay period covered by payment, except that,

(13) Subparagraphs (6)(i) and (iii) and (9) of this paragraph shall not apply prior to September 3, 1963, with respect to any employee with respect to whom the overtime provisions of section 7(a) of the act do not become effective until September 3, 1963.

(b) *Records of retroactive payment of wages.* Every employer who makes retroactive payment of wages or compensation under the supervision of the Administrator pursuant to section 16(c) of the act, shall:

(1) Record and preserve, as an entry on his payroll or other pay records, the amount of such payment to each employee, the period covered by such payment, and the date of payment,

(2) Prepare a report of each such payment on the receipt form provided or authorized by the Wage and Hour Division, and (i) preserve a copy as part of his records, (ii) deliver a copy to the employee, and (iii) file the original, which shall evidence payment by the employer and receipt by the employee, with the Administrator or his authorized representative within 10 days after payment is made.

§ 516.23 Learners, apprentices, messengers, or handicapped workers or students employed under special certificates as provided in section 14 of the act.

(a) *Items required.* Every employer who employs any learners, apprentices, messengers, or handicapped workers or students employed under special certificates as provided in section 14 of the act shall maintain and preserve payroll or other records containing the following information and data with respect to each and every employee to whom both sections 6 and 7(a) of the act apply:

(1) Name in full, and on the same record, the employee's identifying symbol or number if such is used in place of name on any time, work, or payroll records. This shall be the same name as that used for Social Security record purposes,

(2) Home address,

(3) Date of birth, if under 19,

(4) Occupation in which employed,

(5) Time of day and day of week on which the employee's workweek begins. If the employee is part of a work force or employed in or by an establishment all of whose workers have a workweek beginning at the same time on the same day, a single notation of the time of the day and beginning day of the workweek for the whole workforce or establishment will suffice. If, however, any employee or group or employees has a workweek beginning and ending at a different time, a separate notation shall then be kept for that employee or group of employees,

(6) (i) Regular hourly rate of pay for any week when overtime is worked and overtime excess compensation is due under section 7(a) of the act, (ii) basis on which wages are paid (such as "$1.30 hr."; "$10 day"; "$50 wk."; "$50 wk. plus 5 percent commission on sales over $300 wk."), and (iii) the amount and nature of each payment which, pursuant to section 7(d) of the act, is excluded from the "regular rate" (these records may be in the form of vouchers or other payment data),

(7) Hours worked each workday and total hours worked each workweek (for purposes of this section, a "workday" shall be any consecutive 24 hours),

(8) Total daily or weekly straight-time earnings or wages, that is, the total earnings or wages due for hours worked during the workday or workweek, including all earnings or wages due during any overtime worked, but exclusive of overtime excess compensation,

(9) Total overtime excess compensation for the workweek, that is, the excess compensation for overtime worked which amount is over and above all straight-time earnings or wages also earned during overtime worked,

(10) Total additions to or deductions from wages paid each pay period. Every employer making additions to or deductions from wages shall also maintain, in individual employee accounts, a record of the dates, amounts, and nature of the items which make up the total additions and deductions,

(11) Total wages paid each pay period,

(12) Date of payment and the pay period covered by payment, except that,

(13) Subparagraphs (6)(i) and (iii) and (9) of this paragraph shall not apply prior to September 3, 1963, with respect to any employee with respect to whom the overtime provisions of section 7(a) of the act do not become effective until September 3, 1963.

(b) *Records of retroactive payment of wages.* Every employer who makes retroactive payment of wages or compensation under the supervision of the Administrator pursuant to section 16(c) of the act, shall:

(1) Record and preserve, as an entry on his payroll or other pay records, the amount of such payment to each employee, the period covered by such payment, and the date of payment,

(2) Prepare a report of each such payment on the receipt form provided or authorized by the Wage and Hour Division, and (i) preserve a copy as part of his records, (ii) deliver a copy to the employee, and (iii) file the original, which shall evidence payment by the employer and receipt by the employee, with the Administrator or his authorized representative within 10 days after payment is made.

§ 516.24 Industrial homeworkers.

(a) *Items required.* Every employer who employs any industrial homeworkers shall maintain and preserve payroll or other records containing the following information and data with respect to each and every employee to whom both sections 6 and 7(a) of the act apply:

(1) Name in full, and on the same record, the employee's identifying symbol or number if such is used in place of name on any time, work, or payroll records. This shall be the same name as that used for Social Security record purposes,

(2) Home address,

(3) Date of birth, if under 19,

(4) Occupation in which employed,

(5) Time of day and day of week on which the employee's workweek begins. If the employee is part of a work force or employed in or by an establishment all of whose workers have a workweek beginning at the same time on the same day, a single notation of the time of the day and beginning day of the workweek for the whole workforce or establishment will suffice. If, however, any employee or group or employees has a workweek beginning and ending at a different time, a separate notation shall then be kept for that employee or group of employees,

(6) (i) Regular hourly rate of pay for any week when overtime is worked and overtime excess compensation is due under section 7(a) of the act, (ii) basis on which wages are paid (such as "$1.30 hr."; "$10 day"; "$50 wk."; "$50 wk. plus 5 percent commission on sales over $300 wk."), and (iii) the amount and nature of each payment which, pursuant to section 7(d) of the act, is excluded from the "regular rate" (these records may be in the form of vouchers or other payment data),

(7) Hours worked each workday and total hours worked each workweek (for purposes of this section, a "workday" shall be any consecutive 24 hours),

(8) Total daily or weekly straight-time earnings or wages, that is, the total earnings or wages due for hours worked during the workday or workweek, including all earnings or wages due during any overtime worked, but exclusive of overtime excess compensation,

(9) Total overtime excess compensation for the workweek, that is, the excess compensation for overtime worked which amount is over and above all straight-time earnings or wages also earned during overtime worked,

(10) Total additions to or deductions from wages paid each pay period. Every employer making additions to or deductions from wages shall also maintain, in individual employee accounts, a record of the dates, amounts, and nature of the items which make up the total additions and deductions,

(11) Total wages paid each pay period,

(12) Date of payment and the pay period covered by payment, except that,

(13) Subparagraphs (6)(i) and (iii) and (9) of this paragraph shall not apply prior to September 3, 1963, with respect to any employee with respect to whom the overtime provisions of section 7(a) of the act do not become effective until September 3, 1963.

(b) *Records of retroactive payment of wages.* Every employer who makes retroactive payment of wages or compensation under the supervision of the Administrator pursuant to section 16(c) of the act, shall:

(1) Record and preserve, as an entry on his payroll or other pay records, the amount of such payment to each employee, the period covered by such payment, and the date of payment,

(2) Prepare a report of each such payment on the receipt form provided or authorized by the Wage and Hour Division, and (i) preserve a copy as part of his records, (ii) deliver a copy to the employee, and (iii) file the original, which shall evidence payment by the employer and receipt by the employee, with the Administrator or his authorized representative within 10 days after payment is made.

§ 516.25 Additional records required when additions or deductions are made to or from wages for "board, lodging, or other facilities" customarily furnished to employees.

(a) *Items required.* Every employer who employs any employees who are employed in connection with "board, lodging, or other facilities" customarily furnished to employees shall maintain and preserve payroll or other records containing the following information and data with respect to each and every employee to whom both sections 6 and 7(a) of the act apply:

(1) Name in full, and on the same record, the employee's identifying symbol or number if such is used in place of name on any time, work, or payroll records. This shall be the same name as that used for Social Security record purposes,

(2) Home address,

(3) Date of birth, if under 19,

(4) Occupation in which employed,

(5) Time of day and day of week on which the employee's workweek begins. If the employee is part of a work force or employed in or by an establishment all of whose workers have a workweek beginning at the same time on the same day, a single notation of the time of the day and beginning day of the workweek for the whole workforce or establishment will suffice. If, however, any employee or group or employees has a workweek beginning and ending at a different time, a separate notation shall then be kept for that employee or group of employees,

(6) (i) Regular hourly rate of pay for any week when overtime is worked and overtime excess compensation is due under section 7(a) of the act, (ii) basis on which wages are paid (such as "$1.30 hr."; "$10 day"; "$50 wk."; "$50 wk. plus 5 percent commission on sales over $300 wk."), and (iii) the amount and nature of each payment which, pursuant to section 7(d) of the act, is excluded from the "regular rate" (these records may be in the form of vouchers or other payment data),

(7) Hours worked each workday and total hours worked each workweek (for purposes of this section, a "workday" shall be any consecutive 24 hours),

(8) Total daily or weekly straight-time earnings or wages, that is, the total earnings or wages due for hours worked during the workday or workweek, including all earnings or wages due during any overtime worked, but exclusive of overtime excess compensation,

(9) Total overtime excess compensation for the workweek, that is, the excess compensation for overtime worked which amount is over and above all straight-time earnings or wages also earned during overtime worked,

(10) Total additions to or deductions from wages paid each pay period. Every employer making additions to or deductions from wages shall also maintain, in individual employee accounts, a record of the dates, amounts, and nature of the items which make up the total additions and deductions,

(11) Total wages paid each pay period,

(12) Date of payment and the pay period covered by payment, except that,

(13) Subparagraphs (6)(i) and (iii) and (9) of this paragraph shall not apply prior to September 3, 1963, with respect to any employee with respect to whom the overtime provisions of section 7(a) of the act do not become effective until September 3, 1963.

(b) *Records of retroactive payment of wages.* Every employer who makes retroactive payment of wages or compensation under the supervision of the Administrator pursuant to section 16(c) of the act, shall:

(1) Record and preserve, as an entry on his payroll or other pay records, the amount of such payment to each employee, the period covered by such payment, and the date of payment,

(2) Prepare a report of each such payment on the receipt form provided or authorized by the Wage and Hour Division, and (i) preserve a copy as part of his records, (ii) deliver a copy to the employee, and (iii) file the original, which shall evidence payment by the employer and receipt by the employee, with the Administrator or his authorized representative within 10 days after payment is made.

§ 516.26 Employees under more than one minimum hourly rate.

(a) *Items required.* Every employer who employs any employees who are employed under more than one minimum hourly rate shall maintain and preserve payroll or other records containing the following information and data with respect to each and every employee to whom both sections 6 and 7(a) of the act apply:

(1) Name in full, and on the same record, the employee's identifying symbol or number if such is used in place of name on any time, work, or payroll records. This shall be the same name as that used for Social Security record purposes,

(2) Home address,

(3) Date of birth, if under 19,

(4) Occupation in which employed,

(5) Time of day and day of week on which the employee's workweek begins. If the employee is part of a work force or employed in or by an establishment all of whose workers have a workweek beginning at the same time on the same day, a single notation of the time of the day and beginning day of the workweek for the whole workforce or establishment will suffice. If, however, any employee or group or employees has a workweek beginning and ending at a different time, a separate notation shall then be kept for that employee or group of employees,

(6) (i) Regular hourly rate of pay for any week when overtime is worked and overtime excess compensation is due under section 7(a) of the act, (ii) basis on which wages are paid (such as "$1.30 hr."; "$10 day"; "$50 wk."; "$50 wk. plus 5 percent commission on sales over $300 wk."), and (iii) the amount and nature of each payment which, pursuant to section 7(d) of the act, is excluded from the "regular rate" (these records may be in the form of vouchers or other payment data),

(7) Hours worked each workday and total hours worked each workweek (for purposes of this section, a "workday" shall be any consecutive 24 hours),

(8) Total daily or weekly straight-time earnings or wages, that is, the total earnings or wages due for hours worked during the workday or workweek, including all earnings or wages due during any overtime worked, but exclusive of overtime excess compensation,

(9) Total overtime excess compensation for the workweek, that is, the excess compensation for overtime worked which amount is over and above all straight-time earnings or wages also earned during overtime worked,

(10) Total additions to or deductions from wages paid each pay period. Every employer making additions to or deductions from wages shall also maintain, in individual employee accounts, a record of the dates, amounts, and nature of the items which make up the total additions and deductions,

(11) Total wages paid each pay period,

(12) Date of payment and the pay period covered by payment, except that,

(13) Subparagraphs (6)(i) and (iii) and (9) of this paragraph shall not apply prior to September 3, 1963, with respect to any employee with respect to whom the overtime provisions of section 7(a) of the act do not become effective until September 3, 1963.

(b) *Records of retroactive payment of wages.* Every employer who makes retroactive payment of wages or compensation under the supervision of the Administrator pursuant to section 16(c) of the act, shall:

(1) Record and preserve, as an entry on his payroll or other pay records, the amount of such payment to each employee, the period covered by such payment, and the date of payment,

(2) Prepare a report of each such payment on the receipt form provided or authorized by the Wage and Hour Division, and (i) preserve a copy as part of his records, (ii) deliver a copy to the employee, and (iii) file the original, which shall evidence payment by the employer and receipt by the employee, with the Administrator or his authorized representative within 10 days after payment is made.

§ 516.27 Minors employed in agriculture—items required.

(a) *Items required.* Every employer who employs any minors employed in agriculture shall maintain and preserve payroll or other records containing the following information and data with respect to each and every employee to whom both sections 6 and 7(a) of the act apply:

(1) Name in full, and on the same record, the employee's identifying symbol or number if such is used in place of name on any time, work, or payroll records. This shall be the same name as that used for Social Security record purposes,

(2) Home address,

(3) Date of birth, if under 19,

(4) Occupation in which employed,

(5) Time of day and day of week on which the employee's workweek begins. If the employee is part of a work force or employed in or by an establishment all of whose workers have a workweek beginning at the same time on the same day, a single notation of the time of the day and beginning day of the workweek for the whole workforce or establishment will suffice. If, however, any employee or group or employees has a workweek beginning and ending at a different time, a separate notation shall then be kept for that employee or group of employees,

(6) (i) Regular hourly rate of pay for any week when overtime is worked and overtime excess compensation is due under section 7(a) of the act, (ii) basis on which wages are paid (such as "$1.30 hr."; "$10 day"; "$50 wk."; "$50 wk. plus 5 percent commission on sales over $300 wk."), and (iii) the amount and nature of each payment which, pursuant to section 7(d) of the act, is excluded from the "regular rate" (these records may be in the form of vouchers or other payment data),

(7) Hours worked each workday and total hours worked each workweek (for purposes of this section, a "workday" shall be any consecutive 24 hours),

(8) Total daily or weekly straight-time earnings or wages, that is, the total earnings or wages due for hours worked during the workday or workweek, including all earnings or wages due during any overtime worked, but exclusive of overtime excess compensation,

(9) Total overtime excess compensation for the workweek, that is, the excess compensation for overtime worked which amount is over and above all straight-time earnings or wages also earned during overtime worked,

(10) Total additions to or deductions from wages paid each pay period. Every employer making additions to or deductions from wages shall also maintain, in individual employee accounts, a record of the dates, amounts, and nature of the items which make up the total additions and deductions,

(11) Total wages paid each pay period,

(12) Date of payment and the pay period covered by payment, except that,

(13) Subparagraphs (6)(i) and (iii) and (9) of this paragraph shall not apply prior to September 3, 1963, with respect to any employee with respect to whom the overtime provisions of section 7(a) of the act do not become effective until September 3, 1963.

(b) *Records of retroactive payment of wages.* Every employer who makes retroactive payment of wages or compensation under the supervision of the Administrator pursuant to section 16(c) of the act, shall:

(1) Record and preserve, as an entry on his payroll or other pay records, the amount of such payment to each employee, the period covered by such payment, and the date of payment,

(2) Prepare a report of each such payment on the receipt form provided or authorized by the Wage and Hour Division, and (i) preserve a copy as part of his records, (ii) deliver a copy to the employee, and (iii) file the original, which shall evidence payment by the employer and receipt by the employee, with the Administrator or his authorized representative within 10 days after payment is made.

port and file a copy thereof with the Administrator at Washington 25, D.C. Likewise, the employer shall keep a copy of each amendment or addition thereto and, within 30 days after such amendment or addition has been agreed upon, shall report and file a copy thereof with the Administrator at Washington 25, D.C.

(c) *Record of persons and periods employed under agreements.* The employer shall also make, keep, and preserve a record, either separately or as a part of the payroll:

(1) Listing each and every employee employed pursuant to each such collective bargaining agreement and each amendment and addition thereto.

(2) Indicating the period or periods during which the employee has been or is employed pursuant to an agreement under section 7(b)(1) or 7(b)(2) of the act, and

(3) Showing the total hours worked during any period of 26 consecutive weeks, if the employee is employed in accordance with section 7(b)(1) of the act or during the specified period of 52 consecutive weeks, if employed in accordance with section 7(b)(2) of the act.

§ 516.12 Employees employed in industries "of a seasonal nature" who are partially exempt from overtime pay requirements pursuant to section 7(b)(3) of the act.

(a) *Items required.* With respect to employees employed pursuant to the partial overtime pay exemption for 14 workweeks provided in section 7(b)(3) of the act, employers shall maintain and preserve records containing all the information and data required by § 516.2, except that with respect to paragraph (a)(9) thereof, the employer shall record the daily as well as the weekly overtime compensation.

(b) *Establishment operation records.* The employer shall also note in his records the beginning and ending of each workweek during which the establishment operates under the 14 workweek exemption provided in section 7(b)(3) of the act.

(c) *Posting of notice of weeks taken under the 14 workweek exemption.* (1) In addition every employer shall prepare a legible printed, typewritten or handwritten (in ink) notice reading:

NOTICE—OVERTIME PAYMENTS

This establishment has taken the workweek (or workweeks) beginning _____ and ending _____ in this pay period as a part of the 14 workweeks permitted under section 7(b)(3) of the Fair Labor Standards Act, when overtime, at a rate of not less than time and one-half the regular hourly rate, need only be paid for any hours worked over 12 hours a day and 56 hours a week.

This week (or these weeks) in this pay period completes the _____ week of the permissible 14 workweeks.

Date _____

Signed _____

(2) On the date when employees are paid for any pay period which includes any week or part of a week during which the establishment operates under the 14-workweek partial overtime exemption provided under section 7(b)(3) of the act, the employer shall, after making appropriate notations in the blank spaces in the above form, either (i) prominently post and display that notice at the pay window or other place or places where the employees affected are being paid or (ii) otherwise notify each such employee, in writing, to the same effect.

§ 516.13 Employees exempt from overtime pay requirements during 14 workweeks pursuant to section 7(c) of the act.

(a) *Items required.* With respect to employees employed pursuant to the total overtime pay exemption for 14 workweeks provided in section 7(c) of the act, employers shall maintain and preserve records containing all the information and data required by § 516.2 except paragraph (a)(9) thereof.

(b) *Establishment operation record.* Every such employer shall also note in his records the beginning and ending of each workweek during which the establishment operates under the 14 workweek exemption provided in section 7(c) of the act.

(c) *Posting of notice of weeks taken under 14 workweek exemption.* (1) In addition, every such employer shall prepare a legible printed, typewritten or handwritten (in ink) notice reading:

NOTICE—OVERTIME PAYMENTS

This establishment has taken the workweek (or workweeks) beginning _____ and ending _____ in this pay period as a part of the 14 workweeks permitted under section 7(c) of the Fair Labor Standards Act during which overtime excess compensation, as provided in section 7(a), is not due for overtime worked.

This week (or these weeks) in this pay period completes the _____ week of the permissible 14 workweeks.

Date _____

Signed _____

(2) On the date when employees are paid for any pay period which includes any week or part of a week during which the establishment operates under the 14-workweek partial overtime exemption provided in section 7(c) of the act, the employer, shall after making appropriate notations in the blank spaces in the aforesaid notice, either (i) prominently post and display that notice at the pay window or other place or places where the employees affected are being paid or (ii) otherwise notify each such employee, in writing, to the same effect.

§ 516.14 Employees totally exempt from overtime pay requirements pursuant to section 7(c) and sections 13(b)(1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) of the act—items required.

Every employer operating under the complete exemption from the overtime pay requirements of section 7(a) of the act as provided in sections 7(c), 13(b)(1), (2), (3), (4), (5), (7), (8), (9), (10), and (11) of the act, shall maintain and preserve payroll or other records, with respect to each and every employee to whom section 6 of the act applies but to whom neither section 7(a) nor 7(b) applies, containing all the information and data required by § 516.2(a) except subparagraphs (6) and (9) thereof and, in addition thereto, containing information and data regarding the basis on which wages are paid (such as "$1.30 hr."; "$10 day"; "$50 wk."; "$50 wk. plus 5 percent commission on sales over $300 wk.").

§ 516.15 Employees totally exempt from overtime pay requirements pursuant to section 13(b)(6) of the act—items required.

Every employer operating under the complete exemption from the overtime pay requirements of section 7(a) of the act as provided in section 13(b)(6) of the act shall maintain and preserve payroll or other records, with respect to each and every employee to whom section 6 of the act applies, but to whom neither section 7(a) nor 7(b) applies, containing all the information required by § 516.2(a) except subparagraphs (5) through (9) thereof and, in addition thereto, the following:

(a) Basis on which wages are paid (such as "$1.20 hr."; "$10 day"; "$350 mo."),

(b) Hours worked each workday and total hours worked each pay period (for purposes of this section, a "workday" shall be any consecutive 24 hours; the "pay period" shall be the period covered by the wage payment, as provided in section 6(b)(2) of the act),

(c) Total straight-time earnings or wages for each pay period, and

(d) The name, type, and documentation, registry number, or other identification of the vessel or vessels upon which employed.

§ 516.16 Employees exempt from both the minimum wage and overtime pay requirements under sections 13(a)(2), (3), (4), (5), (8), (9), (10), (11), (12), (13), (14), (15), (18), (19), (20), (21), or (22) of the act—items required.

With respect to each and every employee covered by the act, but to whom the employer is neither required to pay the minimum wage provided in section 6 nor overtime compensation as provided in section 7, due to the applicability of section 13(a)(2), (3), (4), (5), (8), (9), (10), (11), (12), (13), (14), (15), (18), (19), (20), (21), or (22) of the act, employers shall maintain and preserve records containing the information and data required by subparagraphs (1) through (4) of § 516.2(a) and, in addition thereto, information indicating the place or places of employment.

§ 516.17 Employees exempt from both the minimum wage and overtime pay requirements under section 13(a)(16) of the act—items required.

(a) With respect to each and every employee covered by the act, but to whom the employer is neither required to pay the minimum wage provided in section 6 nor overtime compensation as provided in section 7, except as provided in, and due to the applicability of, section 13(a)(16) of the act, the employer shall maintain and preserve records containing the information and data required by subparagraphs (1) through (4) of § 516.2(a) and, in addition thereto, the employer shall maintain and preserve the records specified in paragraphs (b) and (c) of this section.

(b) For each workweek in which the employee is employed both in agriculture and in connection with livestock auction operations, the employee shall maintain and preserve records of: (1) The total number of hours worked by each such employee, (2) the total number of hours in which he was employed in agriculture during that workweek, and the total number of hours in which he was employed in connection with livestock auction operations during that workweek, and (3) the total straight time earnings for his employment in connection with livestock auction operations during that workweek.

(c) The employer shall maintain and preserve records indicating place or places of employment.

§ 516.18 Employees exempt from both the minimum wage and overtime pay requirements under section 13(a)(17) of the act—items required.

(a) With respect to each and every employee covered by the act, but to whom the employer is neither required to pay the minimum wage provided in section 6 nor overtime compensation as provided in section 7, due to the applicability of section 13(a)(17) of the act, the employer shall maintain and preserve records containing the information and data required by subparagraphs (1) through (4) of § 516.2(a) and, in addition thereto, the information and data required by paragraph (b) of this section.

(b) For each workweek, the employer shall maintain and preserve records containing: (1) The names of all employees described in paragraph (a) of this section actually employed (suffered or permitted to work) during any part of the workweek and (2) for all other persons employed in the elevator, whether or not covered by the act, the following information:

(i) Name in full,

(ii) Name of employer, and

(iii) Occupation in which employed in the elevator.

§ 516.19 Employees employed pursuant to a bona fide individual contract or a collective bargaining agreement, and compensated in accordance with sections 6 and 7(e) of the act—items required.

Every employer shall maintain and preserve payroll or other records, with respect to each and every employee to whom both sections 6 and 7(e) of the act apply, containing all the information and data required by § 516.2(a) except subparagraphs (8) and (9) and, in addition thereto, the following:

(a) Total weekly guaranteed earnings.

(b) Total weekly compensation in excess of weekly guaranty,

(c) A written memorandum summarizing the terms of the bona fide individual contract or the agreement made as a result of collective bargaining by representatives of employees, pursuant to which the employee is employed, where such contract or agreement is not in writing.

§ 516.20 Employees compensated for overtime work on the basis of the "applicable" piece rates or hourly rates as provided in sections 7(f)(1) and 7(f)(2) of the act—items required.

With respect to each and every employee compensated for overtime work in accordance with section 7(f)(1) or 7(f)(2) of the act, employers shall maintain and preserve records containing all the information and data required by § 516.2(a) except subparagraphs (6) and (9) thereof and, in addition thereto, the following:

(a)(1) Each hourly or piece rate at which the employee is employed, (2) basis on which wages are paid, and (3) the amount and nature of each payment which, pursuant to section 7(d) of the act, is excluded from the "regular rate,"

(b) The number of overtime hours worked at each applicable hourly rate or the number of units of work performed at each applicable piece rate during the overtime hours.

(c) Total weekly overtime excess compensation at each applicable rate; that is, the excess compensation for overtime worked which amount is over and above all straight-time earnings or wages also earned during overtime worked,

(d) The date of the agreement or understanding to use this method of compensation and the period covered thereby. If the employee is part of a work force or employed in or by an establishment all of whose workers have agreed to use this method of compensation a single notation of the date of the agreement or understanding and the period covered will suffice.

§ 516.21 Employees compensated for overtime hours at a "basic" rate which is substantially equivalent to the employee's average hourly earnings, in accordance with section 7(f)(3) of the act—items required.

With respect to each and every employee compensated for overtime hours at a "basic" rate which is substantially equivalent to the employee's average hourly earnings, in accordance with section 7(f)(3) of the act, employers shall maintain and preserve records containing all the information and data required by § 516.2 except paragraph (a)(6) thereof and, in addition thereto, the following:

(a)(1) The hourly or piece rates applicable to each type of work performed by the employee, (2) the computation establishing the basic rate at which the employee is compensated for overtime hours. If the employee is part of a work force or employed in or by an establishment all of whose workers have agreed to accept this method of compensation, a single entry of this computation will suffice, (3) the amount and nature of each payment which, pursuant to section 7(d) of the act, is excluded from the "regular rate,"

(b) A copy of the written agreement or, if there is no such agreement, a memorandum summarizing the terms of the oral agreement or understanding to use this method of computation. If the employee is part of a group, all of whom have agreed to use this method of computation a single memorandum will suffice.

§ 516.22 "Red caps" and other employees dependent on tips as part of wages—items required.

Supplementary to the provisions of any section of the regulations in this part pertaining to the records to be kept with respect to such employees, every employer shall also maintain and preserve payroll or other records containing the following additional information and data with respect to each and every employee employed in any occupation in the performance of which the employee receives tips or gratuities from third persons and which tips or gratuities are accounted for or turned over by the employee to the employer:

(a) Actual total hours worked each workday in those occupations in the performance of which the employee receives tips or gratuities from third persons,

(b) Actual total hours worked each workday in any other occupation,

(c) Total daily or weekly straight-time earnings segregated according to:

(1) Time paid for under paragraph (a) of this section,

(2) Time paid for under paragraph (b) of this section,

(3) Tips or gratuities received and accounted for or turned over by the employee to the employer.

§ 516.23 Learners, apprentices, messengers, students, or handicapped workers employed under special certificates as provided in section 14 of the act.

(a) *Items required.* With respect to persons employed as learners, apprentices, messengers, or full-time students employed outside of their school hours in any retail or service establishment or handicapped workers at special minimum hourly rates under Special Certificates pursuant to section 14 of the act employers shall maintain and preserve records containing the same information and data required with respect to other employees employed in the same occupations.

(b) *Segregation or designation on payroll and use of identifying symbol.* In addition, each employer shall segregate on his payroll or pay records the names and required information and data with respect to those learners, apprentices, messengers (and handicapped workers and students), employed under Special Certificates. A symbol or letter shall also be placed before each such name on the payroll or pay records indicating that that person is a "learner," "apprentice," "messenger," "student," or "handicapped worker," employed under a Special Certificate.

§ 516.24 Industrial homeworkers.

(a) *Definitions.* (1) "Industrial homeworker" and "homeworker," as used in this section, mean any employee employed or suffered or permitted to perform industrial home work for an employer.

(2) "Industrial home work," as used in this section, means the production by any person in or about a home, apartment, tenement, or room in a residential

establishment of goods for an employer who suffers or permits such production, regardless of the source (whether obtained from an employer or elsewhere) of the materials used by the homeworker in such production.

(3) The meaning of the terms "person," "employ," "employer," "employee," "goods," and "production" as used in this section is the same as in the act.

(b) *Items required.* Every employer shall maintain and preserve payroll or other records containing the following information and data with respect to each and every industrial homeworker employed by him (excepting those homeworkers to whom section 13(d) of the act applies and those homeworkers in Puerto Rico to whom Part 545 or Part 681 of this chapter apply, or in the Virgin Islands to whom Part 695 of this chapter applies):

(1) Name in full, and on the same record, the employee's identifying symbol or number if such is used in place of name on any time, work, or payroll records. This shall be the same as that used for Social Security record purposes,

(2) Home address,

(3) Date of birth if under 19,

(4) With respect to each lot of work:

(i) Date on which work is given out to worker, or begun by worker, and amount of such work given out or begun,

(ii) Date on which work is turned in by worker, and amount of such work,

(iii) Kind of articles worked on and operations performed,

(iv) Piece rates paid,

(v) Hours worked on each lot of work turned in,

(vi) Wages paid for each lot of work turned in,

(vii) Deductions for Social Security taxes,

(viii) Date of wage payment and pay period covered by payment,

(5) With respect to each week:

(i) Hours worked each week,

(ii) Wages earned for each week at regular piece rates,

(iii) Extra pay due each week for overtime worked,

(iv) Total wages earned each week,

(v) Deductions for Social Security taxes,

(6) With respect to any agent, distributor, or contractor: The name and address of each such agent, distributor, or contractor through whom home work is distributed or collected and name and address of each homeworker to whom home work is distributed or from whom it is collected by each such agent, distributor, or contractor.

(7) Record of retroactive payment of wages. Every employer who makes retroactive payment of wages or compensation under the supervision of the Administrator pursuant to section 16(c) of the act, shall:

(i) Record and preserve, as an entry on his payroll or other pay records, the amount of such payment to each employee, the period covered by such payment, and the date of payment.

(ii) Prepare a report of each such payment on the receipt form provided or authorized by the Wage and Hour Division, and (a) preserve a copy as part of his records, (b) deliver a copy to the employee, and (c) file the original, which shall evidence payment by the employer and receipt by the employee, with the Administrator or his authorized representative within 10 days after payment is made.

(c) *Home work handbook.* In addition to the information and data required in paragraph (b) of this section, a separate handbook (to be obtained by the employer from the Wage and Hour Division and supplied by him to each worker) shall be kept for each homeworker. The information required therein shall be entered by the employer or the person distributing or collecting home work on behalf of such employer each time work is given out to or received from a homeworker. Except for the time necessary for the making of entries by the employer, the handbook must remain in the possession of the homeworker until such time as the Wage and Hour Division may request it. Upon completion of the handbook (that is, no space remains for additional entries) or termination of the homeworker's services, the handbook shall be returned to the employer for preservation in accordance with the regulations in this part. A separate record and a separate handbook shall be kept for each person performing home work.

§ 516.25 Additional records required when additions or deductions are made to or from wages for "board, lodging, or other facilities" customarily furnished to employees.

(a) In addition to keeping other records required by the regulations in this part, an employer who makes deductions from the wages of his employees for "board, lodging, or other facilities" (as these terms are used in section 3(m) of the act) furnished to them by the employer or by an affiliated person, or who furnishes such "board, lodging, or other facilities" to his employees as an addition to wages, shall maintain and preserve records substantiating the cost of furnishing each class of facility. Separate records of the cost of each item furnished to an employee need not be kept. The requirement may be met by keeping combined records of the costs incurred in furnishing each class of facility, such as housing, fuel, or merchandise furnished through a company store or commissary. Thus, in the case of an employer who furnishes housing, separate cost records need not be kept for each house. The cost of maintenance and repairs for all the houses may be shown together. Original cost and depreciation records may be kept for groups of houses acquired at the same time. Costs incurred in furnishing similar or closely related facilities, moreover, may be shown in combined records. For example, if joint costs are incurred in furnishing both housing and electricity and the records are not readily separable, the housing and electricity together may be treated as a "class" of facility for recordkeeping purposes. Merchandise furnished at a company store may be considered as a "class" of facility for recordkeeping purposes. Merchandise furnished at a company store may be considered as a "class" of facility and the records may show the cost of the operation of the store as a whole, or records showing the cost of furnishing the different kinds of merchandise may be maintained separately. Where cost records are kept for a "class" of facility rather than for each individual article furnished to employees, the records must also show the gross income derived from each such class of facility; e.g., gross rentals in the case of houses, total sales through the store or commissary, total receipts from sales of fuel, etc.

(1) Such records shall include itemized accounts showing the nature and amount of any expenditures entering into the computation of the reasonable cost as defined in Part 531 of this chapter, and shall contain the data required to compute the amount of the depreciated investment in any assets allocable to the furnishing of the facilities, including the date of acquisition or construction, the original cost, the rate of depreciation and the total amount of accumulated depreciation on such assets. If the assets include merchandise held for sale to employees, the records should contain data from which the average net investment in inventory can be determined.

(2) No particular degree of itemization is prescribed. The amount of detail shown in these accounts should be consistent with good accounting practices, and should be sufficient to enable the Administrator or his representative to verify the nature of the expenditure and the amount by reference to the basic records which must be preserved pursuant to § 516.6(c)(3).

(b) If additions to or deductions from wages paid (1) so affect the total cash wages due in any workweek (even though the employee actually is paid semimonthly) as to result in the employee receiving less in cash than the minimum hourly wage provided in section 6 of the act or in any applicable wage order, or (2) if the employee works in excess of 40 hours a week and (i) any addition to the wages paid are a part of his wages, or (ii) any deductions made are claimed as allowable deductions under section 3(m) of the act, the employer shall maintain records showing those additions to or deductions from wages paid on a workweek basis. (For legal deductions not claimed under section 3(m) and which need not be maintained on a workweek basis, see §§ 777.13 to 777.15 of this chapter.)

§ 516.26 Employees under more than one minimum hourly rate.

(a) *Additional items required.* An employer of any employees subject to different minimum wage rates of pay, who elects to pay less than an amount arrived at by applying the highest applicable minimum rate for all hours worked in any workweek, shall, in addition to any employee information and data required to be kept with respect to them by any applicable section of the regulations in this part maintain and preserve payroll or other records containing the following information and data with respect to each of those employees:

(1) The minimum rate of pay required to be paid for each different type of employment in which each such employee was engaged during the workweek (including, in Puerto Rico, the Virgin Islands, and American Samoa, the applicable wage order rates),

(2) The basis on which wages are paid for each such different type of employment ("$1.30 each hour"; $10.00 a day"; $50.00 wk."; 2¢ per piece"; $50 wk. plus 5 percent commission on sales over $300 wk."; etc.),

(3) The piece rate, if any, for each operation on each type of goods upon which the employee has worked under each such different applicable minimum rate of pay and the number of pieces worked upon at such piece rates (including, in Puerto Rico and the Virgin Islands, the lot number of each type of goods upon which the employee has worked),

(4) The total hours or fractions thereof worked that workweek by each such employee in employment covered by each such different applicable minimum rate, and

(5) The total wages due each such employee at straighttime for the hours worked in each such different type of employment including any amounts earned in excess of the applicable minimum rate of pay.

(b) *Records of workers whose work cannot be segregated.* The provisions of paragraph (a) of this section shall not be construed to affect in any way the records to be kept, or compensation to be paid employees whose activities cannot be segregated and who are, therefore, not subject to different minimum rates of pay.

§ 516.27 Minors employed in agriculture—items required.

Every employer (other than a parent or guardian standing in the place of a parent employing his own child or a child in his custody) who employs in agriculture any minor under 18 years of age shall maintain and preserve records containing the following data with respect to each and every such minor so employed:

(a) Name in full.

(b) Place where minor lives while employed. If the minor's permanent address is elsewhere, give both addresses.

(c) Date of birth.

Provided, however, That such data need not be maintained for any minor employees who work only on days when school is not in session.

Signed at Washington, D.C., this 12th day of January 1962.

CLARENCE T. LUNDQUIST,
Administrator.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 121]

FOOD ADDITIVES

Notice of Filing of Petition

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786; 21 U.S.C. 348 (b)(5)), notice is given that two petitions (FAP 634, 635) have been filed by Cook Paint and Varnish Company, Post Office Box 389, Kansas City 41, Missouri, proposing the issuance of a regulation to amend § 121.2514 of the food additives regulations to provide for the safe use of the following substances in the formulation of resinous and polymeric coatings that contact food:

1. Diphenolic acid (FAP 634).

2. 3-Pentadecyl phenol mixture obtained from cashew nut liquid (FAP 635).

Dated: January 11, 1962.

J. K. KIRK,
Assistant Commissioner of Food and Drugs.

ATOMIC ENERGY COMMISSION

[10 CFR Part 30]

EXEMPTION OR GENERAL LICENSING OF CERTAIN BYPRODUCT MATERIALS FOR MEDICAL USE

Notice of Proposed Rule Making

A number of byproduct materials, such as iodine 131, phosphorus 32, chromium 51, cobalt 58, and cobalt 60, have been used for medical purposes for several years. Considerable experience has been obtained also with various devices containing byproduct material.

The Commission considers that the uses, contraindications, and necessary precautionary measures for safe handling of certain of these byproduct materials and devices have been determined. It appears feasible and desirable, therefore, to exempt physicians from the licensing requirements of Part 30 for relatively small quantities of certain byproduct materials. It also appears feasible and desirable to issue a general license to physicians for larger quantities of these byproduct materials if appropriate radiation safety limitations are made a condition of the general license.

The proposed amendments would exempt the use for diagnostic purposes by physicians of iodine 131, cobalt 58, cobalt 60, and chromium 51 in specified forms and relatively small quantities. A general license would be established for the medical use of iodine 131 and phosphorus 32 in specified forms and limited quantities sufficient for certain therapeutic and diagnostic uses. The exemption and this general license would apply only to byproduct material obtained from a supplier holding (a) an effective new drug application, or license issued by the Secretary, Department of Health, Education, and Welfare, and (b) a license issued by the Atomic Energy Commission under § 30.24(k) of the proposed amendment. A general license would be established also for needles and tubes containing cobalt 60.

The exemption and general licenses would apply only to physicians defined in 10 CFR 30.4(i) as "* * * an individual licensed by a state or territory of the United States, the District of Columbia or the Commonwealth of Puerto Rico to dispense drugs in the practice of medicine." Cobalt 60 needles and tubes would be generally licensed for use by a physician who has at least three years of experience in the interstitial or intracavitary use of sealed sources containing radioactive materials, and who certifies to the Commission that he is familiar with the hazards and appropriate precautions associated with such sealed sources.

The general licensees would be required to register with the Commission and receive a registration number prior to obtaining the byproduct material or device for use under the general license. The conditions to which the general license would be subject will be reproduced upon the Registration Certificate. Thus, he will be informed of the conditions of the general license.

The proposed amendments also would establish licensing criteria for persons proposing to distribute byproduct material for use by physicians who would be exempted or generally licensed by the amendment.

STATEMENT OF RADIATION SAFETY CONSIDERATIONS

Section 30.11: Under the provisions of the exemption in § 30.11 the pharmaceutical containing radioactive material would be packaged in individual cali-

brated doses ready for administration. No processing by the physician would be required. The radioisotopes would be used only by physicians and for medical diagnosis. The proposed exemption requires that the radioactive material be stored, until administered, in the original shipping container or a container providing equivalent radiation protection. The maximum quantities of radioactive material which a physician could possess at any one time under the exemption would be 200 microcuries of iodine 131; 10 microcuries of cobalt 58; 10 microcuries of cobalt 60; and 200 microcuries of chromium 51.

The radiation doses received by physicians or technicians in the administration and handling of diagnostic doses of radioisotopes which would be exempted are quite small. Interstate Commerce Commission regulations specify that the radiation on the surface of a shipping container shall not exceed 200 milliroentgens per hour (mr/hr) and at one meter from the contained radioactive material shall not exceed 10 mr/hr. In practice, the radiation levels about containers of diagnostic doses of isotopes are much less than these maximum allowable levels. The radioisotope container is handled by physicians and technicians for very short periods of time. Remote handling equipment is unnecessary. The dose rate at a distance of one centimeter from a point source of 200 microcuries of iodine 131 is about 440 mr/hr or 7.3 mr/minute. A bottle of iodine 131 capsules is not a point source, but the dose rate close to it would be of this order of magnitude.

The dose rates from the other diagnostic radioisotopes which would be exempted will be much lower than for iodine 131. The dose rates at one centimeter from point sources of 10 microcuries of cobalt 58, 10 microcuries of cobalt 60 and 200 microcuries of chromium 51 are 60 mr/hr, 128 mr/hr and 80 mr/hr, respectively.

10 CFR Part 20 specifies that the hands of radiation workers may be exposed to 18¾ rems per quarter or an average dose of 1440 millirem per week. If an individual were exposed only through the handling of 200 microcuries of iodine 131, he could handle the cup or bottle containing the radioisotope $\frac{1440}{7.3}=198$ minutes each week without exceeding the limiting hand dose established by 10 CFR Part 20. In practice, diagnostic doses of radioisotopes are handled only one or two minutes during each administration and in a large diagnostic program perhaps no more than ten cases a week would be involved. The hand doses received by physicians and technicians from handling diagnostic doses of radioisotopes are small.

The whole body exposures to medical personnel are likewise small from the handling of these doses. The dose rate at one foot from 200 microcuries of unshielded iodine 131, 10 microcuries of unshielded cobalt 58, 10 microcuries of unshielded cobalt 60 and 200 microcuries of unshielded chromium 51 are 0.5 mr/hr, 0.06 mr/hr, 0.14 mr/hr and 0.09 mr/hr, respectively. Doses received by physicians and technicians who work in the radioisotope diagnostic programs are so small that personnel monitoring equipment is not required under the provisions of § 20.202 of 10 CFR Part 20.

Because of the low levels of radiation involved and the manner in which diagnostic radioisotopes are used, there is no need to specify minimum training or experience requirements for physicians. Further, a radiation survey meter is not needed. In the case of accidental spills, which are infrequent, the radiation instrumentation used by the licensee to interpret results of the diagnostic tests can be used to check for contamination. There is little likelihood that the radioisotopes will be ingested or inhaled by medical personnel since no processing of the radioisotopes will be involved. Since diagnostic radioisotopes are ordered by physicians on an as needed basis, very little of the material is disposed of as waste.

Section 30.26: Iodine 131 and phosphorus 32 which would be generally licensed under § 30.26 would be packaged in individual doses ready for administration. No additional processing of the material would be required and the radioisotopes would be used only by physicians and only for medical diagnosis or therapy. The maximum quantities of radioactive material which a physician could possess at any one time under this general license would be 15 millicuries of iodine 131 and 10 millicuries of phosphorus 32.

Since phosphorus 32 is a pure beta emitter, the radiation dose rates received by the hands of persons who handle this isotope in closed containers is quite low. The bremsstrahlung dose rate through the walls of a glass bottle containing 5 millicuries of the isotope is about 0.5 mr/hr at 10 centimeters from the bottle. The surface dose rate could be as high as $0.5\times(10)^2=50$ mr/hr. Quimby [1] found that the dose rate at the mouth of an "open" bottle with a 3 square centimeter area and 5 centimeters deep, containing 10 millicuries of phosphorus 32 was as high as 100 rads per hour. Hence, precautions must be taken when handling this isotope to assure that the hands are not overexposed. However, because of the type of container in which the isotope is received and the manner in which the material is used, the radiation doses to physicians and technicians working with phosphorus 32 are normally low.

The radiation levels outside of the bodies of patients who have been given phosphorus 32 are quite low. There is no external hazard to nursing personnel who care for such patients. Instructions for nursing personnel are standardized with respect to precautions to be observed in the event the patient should vomit after oral administration and precautions to be observed regarding excreta.

Therapeutic doses of iodine 131 are normally handled with forceps or tongs to reduce the radiation exposure. The dose rate at the surface of an unshielded bottle containing 15 millicuries of iodine 131 could be as high as 0.55 roentgens per minute. The provisions of the general license would, in effect, require that the iodine 131 be kept in a shielded container which would reduce the radiation level at the container surface to 200 mr/hr and at one meter from the contained radioactive material 10 mr/hr. Because of the shielding of the storage container and the routine manner in which the material is used, the radiation doses to physicians and technicians working with the material are kept well below the exposure limits of 10 CFR Part 20.

Special precautions are required in the handling of patients containing therapeutic levels of iodine 131 with respect to external radiation in the vicinity of the patient and with respect to vomitus and excreta. Extrapolating calculations given by Quimby,[1] the maximum dose which a nurse would be expected to receive while caring for a patient containing 15 millicuries of iodine 131 for six days would be about 25 millirem to the whole body and 250 millirem to the hands. A special duty nurse would be expected to receive a whole body exposure of about 50 millirem during the same period because of the extra time spent in the room.

The general license would apply only to iodine 131 and phosphorus 32 in capsules or other forms of prepackaged individual doses. Capsule form reduces the possibility of radio-contamination if the pharmaceutical is dropped. Suppliers of the general licensed radioisotopes would be required under the provisions of § 30.24(k) to provide the general licensee with instructions as to the precautions to be observed in handling this material. These instructions would be approved by the Commission's staff prior to issuance of a license to the supplier authorizing him to distribute radioisotopes to general licensees. With the safety instructions issued by the radioisotope supplier, these radioisotopes should be used in a safe manner.

Because of the high levels of radiation associated with millicurie amounts of unshielded phosphorus 32 and iodine 131, and possible contamination which could result from vomitus and excreta, a radiation survey instrument is considered necessary for use by the general licensee at all times to assure the safe use of this material.

As in the case of diagnostic radioisotopes, therapeutic doses are ordered by physicians on an as needed basis. Consequently, very little waste material results. Because of the short half-lives of iodine 131 and phosphorus 32 any contaminated equipment, including bedding, can be stored until the radioactivity has decayed to safe amounts.

The proposed general license of § 30.26 would not require the hospitalization of patients containing radioisotopes. The levels of radiation about patients containing phosphorus 32 are very low. Those about patients containing iodine 131 are substantial but are not considered sufficiently high to warrant hospitalization. Such patients are permitted to return home after administration under present specific licensing procedures. The dose rate at one foot from the thyroid of a patient who is administered 30 millicuries of iodine 131 is initially less than 20 mr/hr. Approximately 50 percent of the radioisotope is eliminated by urinary excretion during the first 48 hours and thereafter the radioisotope is reduced 50 percent each week due to biological and radiological decay.[1]

The general license would require each physician who proposes to receive byproduct material under the provisions of the general license to register with the Commission prior to receiving the byproduct material. Registration will provide the Commission with the names and addresses of the generally licensed physicians so that inspections may be conducted by the AEC.

Section 30.28: Cobalt 60 was one of the first artificial radioisotopes to be used therapeutically, since it seemed to be the most suitable replacement for radium.[2] Needles or tubes of this radioisotope are used to supplement or replace radium in intracavitary or interstitial treatments. The dosage delivered by 0.646 millicuries of cobalt 60 is the same in roentgens per hour as that delivered by one milligram of radium filtered by 0.5 mm of platinum.[3] The procedures for cobalt 60 therapy are essentially the same as for radium. Cobalt 60 is a relatively corrosion resistant metal while radium is a powder (radium sulfate). Absorbed cobalt 60 is rapidly excreted while radium may be deposited in the bone.

Cobalt 60 needles are prepared by hermetically sealing small segments of cobalt 60 wire in stainless steel tubing and other corrosion resistant metals. They are essentially the same size as radium needles. Needles are placed directly in the tumor mass with thread or wire by which they may be withdrawn after the desired dosage has been delivered.

There are five stages during which radiation hazards may exist during the use of cobalt 60. These are listed below along with a discussion of each.

1. *Storage and transfer from storage.* Under the provisions of the proposed general license the cobalt 60 must be stored in the shielded storage case in which the cobalt 60 is received or a container providing equivalent radiation protection. The maximum radiation level on the surface of the container would be 200 mr/hr and at 1 meter from the contained radioactive material 10 mr/hr. The sources are prepared for use with the aid of remote handling tools behind shields. The need for shielding and remote manipulators is evident inasmuch as the dose rate at one foot from 100 millicuries of unshielded cobalt 60 is 1.4 r/hr. Procedures for transfer are well established because of the experience gained over several years in the use of radium.

2. *Application to patient.* Cobalt 60 sources are normally applied to patients in the operating room. They are transferred to the operating room in their shielded container and placed in the patient by use of remote manipulators. The time required to insert sources in patients is kept at a minimum since the methods of implant are determined in advance. Sources are packed in place with dressings and special appliances to assure that sources are not accidentally extruded from the patient.

3. *Irradiation of patient.* Procedures for caring for patients with cobalt 60 implants are well established. Special instructions are required for nursing personnel to advise them of safe distances and times to spend in the vicinity of the patient, and to inform them of what should be done if a tube or needle should be extruded from the patient. Under the provisions of the general license the physician would be supplied such instructions by the supplier of the byproduct material.

Because of the high dose rates about patients containing cobalt 60 needles or tubes, the proposed general license would require hospitalization of the patient until the byproduct material is removed. The dose rate at three feet from a patient containing 100 millicuries of the isotope may be as high as 155 mr/hr. A radioisotope record card containing the radiation caution symbol would be required to be attached to the patient's bed or to the door of the room in which the patient is hospitalized. The card would accompany the patient whenever he leaves his room as long as the radioisotope is contained in his body. The card would serve to give warning to anyone performing services for the patient in order to minimize their radiation exposures.

4. *Removal of sources.* Sources may be removed in the operating room or at the patient's bedside. They are immediately returned to the storage container. Special care must be taken when removing the sources to assure that all sources placed in the patient are accounted for. The proposed general license would require that a physical inventory of the cobalt 60 needles or tubes be conducted after each use to account for all byproduct material used.

5. *Dismantling of cobalt 60 applicator and return to stock.* Following removal of the sources from the patient, the applicator is dismantled behind shielding with remote manipulators, cleaned and returned to the shielded container for future use. These procedures are well established.

Because of the high levels of radiation associated with the millicurie amounts of cobalt 60 which would be used, the general license would require the licensee to maintain and use a calibrated radiation survey instrument in his program. The instrument would also be useful to locate any source which is accidentally extruded from a patient.

The provisions of the general license require that the sealed source shall be tested for leakage at twelve-month intervals, and specify what should be done in event a leaking source is found. The manufacturer of the sealed sources would be required to test sources following manufacture to assure that they are properly sealed. Also, each source must be individually calibrated and marked by the manufacturer so as to identify the number of millicuries and linear intensity of each needle or tube.

Any physician who proposes to receive byproduct material under general license would be required to register with the Commission prior to receiving the material. The general licensee would not be permitted to transfer, abandon or dispose of the radioisotope except by transfer to a person generally or specifically licensed to receive the material. Further, persons who manufacture and distribute cobalt 60 under the provisions of § 30.24(1) would be required by § 30.32 (g) to inform the Commission of all transfers of cobalt 60 to general licensees. Because of the possible hazards of the radioisotope in the hands of an untrained person, the reporting requirements are considered necessary. Further, this will enable the Commission to perform inspections of the general licensed physician.

Pursuant to the Atomic Energy Act of 1954, as amended, and the Administrative Procedure Act of 1946, notice is hereby given that adoption of the following amendments to Part 30 is contemplated. All interested persons who desire to submit written comments or suggestions in connection with the proposed amendments should send them to the Secretary, United States Atomic Energy Commission, Washington 25, D.C., within ninety (90) days after publication of this notice in the FEDERAL REGISTER. Comments received after that period will be considered if it is practicable to do so, but assurance of consideration cannot be given except as to comments filed within the period specified.

1. A new § 30.11 is added to read as follows:

§ 30.11 Exemption of certain quantities of byproduct material for medical use.

(a) A physician is exempt from the requirements for a license set forth in section 81 of the Act and from the regulations in this part to the extent that he receives, possesses, uses or transfers in accordance with the provisions of paragraphs (b), (c), and (d) of this section the following byproduct materials:

(1) Iodine 131 in capsules, disposable hypodermic syringes or other forms of prepackaged individual doses.

(2) Cobalt 58 in capsules or other forms of prepackaged individual doses.

(3) Cobalt 60 in capsules or other forms of prepackaged individual doses.

(4) Chromium 51.

(b) A physician shall not possess at any one time, pursuant to the exemption in paragraph (a) of this section more than:

(1) 200 microcuries of iodine 131, and

(2) 10 microcuries of cobalt 58, and

(3) 10 microcuries of cobalt 60, and

(4) 200 microcuries of chromium 51.

[3] Quimby, Edith H., et al., "Radioactive Isotopes in Clinical Practice," Lea and Febiger (1958).

(c) The exemption in paragraph (a) of this section is effective only when:

(1) The container of the pharmaceutical bears a label which includes the following statement: "This pharmaceutical may be distributed to physicians under license exemption of the U.S. Atomic Energy Commission."

(2) The byproduct material is stored, until administered, in the original shipping container or in a container providing equivalent radiation protection.

(d) A physician who possesses byproduct material under the exemption in this section:

(1) Shall use the pharmaceutical received pursuant to the exemption in paragraph (a) of this section only for those uses described in the label or brochure accompanying the package.

(2) Shall not transfer, abandon, or dispose of the byproduct material except by transfer to a person authorized to receive the byproduct material pursuant to a specific license issued by the Commission or pursuant to the exemption in paragraph (a) in this section or the general license in § 30.26(a).

(3) Shall not transfer the byproduct material to another person except in the unopened, labeled shipping container as received from the supplier.

2. A new § 30.26 is added to read as follows:

§ 30.26 General license, certain diagnostic and therapeutic quantities.

(a) A general license is hereby issued to any physician to receive, possess, use, or transfer in accordance with the provisions of paragraphs (b), (c), and (d) of this section the following byproduct materials:

(1) Iodine 131 in capsules or other forms of prepackaged individual doses.

(2) Phosphorus 32 in capsules or other forms of prepackaged individual doses.

(b) No physician shall receive, possess, use, or transfer byproduct material pursuant to the general license established by paragraph (a) of this section until he has:

(1) Filed Form AEC 482, "Registration Certificate—Medical Use of Byproduct Material Under General License" in triplicate with the Director, Division of Licensing and Regulation, U.S. Atomic Energy Commission, Washington 25, D.C., and

(2) Received from the Commission a validated copy of the Form AEC–482 with registration number assigned.

(c) A physician who receives a pharmaceutical containing byproduct material pursuant to the general license established by paragraph (a) of this section shall comply with the following:

(1) He shall not possess at any one time, pursuant to the general license in paragraph (a) of this section, more than:

(i) 15 millicuries of iodine 131 in capsules or other forms of prepackaged individual doses, and

(ii) 10 millicuries of phosphorus 32 in capsules or other forms of prepackaged individual doses.

(2) He shall not receive, possess, or use the pharmaceutical pursuant to the general license in paragraph (a) of this section, unless the container bears a label which includes the following statement: "This pharmaceutical may be distributed to physicians pursuant to general license 10 CFR 30.26 of the U.S. Atomic Energy Commission."

(3) He shall use the pharmaceutical received pursuant to the general license in paragraph (a) of this section only for those uses described in the label or brochure accompanying the package.

(4) He shall not transfer, abandon, or dispose of the pharmaceutical except:

(i) By transfer to a person authorized to receive the byproduct material pursuant to a specific license issued by the Commission or pursuant to the general license in paragraph (a) of this section.

(ii) By release into a sanitary sewerage system: *Provided, however,* That the total quantity of byproduct material released into the sanitary sewerage system by the general licensee does not exceed more than 100 microcuries in any twenty-four hour period and the total quantity of byproduct material released into the sanitary sewerage system by the general licensee does not exceed 100 millicuries in any one year.

(5) He shall not transfer such pharmaceutical to another person except in the unopened, labeled shipping container as received from the supplier.

(6) He shall store the pharmaceutical until administered, in the original shipping container or a container providing equivalent radiation protection.

(7) He shall not use the pharmaceutical for any purpose other than medical diagnosis or therapy.

(8) He shall maintain, at each facility where the byproduct material is used, a calibrated and operable radiation survey instrument capable of measuring from 0.1 millirad per hour to 20 millirads per hour of the radiations emitted by the material generally licensed pursuant to paragraph (a) of this section.

(9) He shall calibrate or have calibrated each survey instrument at intervals not to exceed six (6) months and after each servicing.

(10) He shall secure byproduct material against unauthorized removal from the place of storage.

(11) He shall survey the immediate areas in which iodine 131 or phosphorus 32 is used for possible contamination immediately following a spill or unaccounted loss of any quantity of iodine 131 or phosphorus 32 and shall decontaminate such areas to a level not exceeding 2 millirads per hour measured at a distance of one centimeter from the surface.

(12) He shall maintain records showing the dates of calibration of each survey instrument, names of persons who performed the calibrations, and the results of surveys required by subparagraph (11) of this paragraph.

(13) He shall assure that each container in which a quantity of more than 10 microcuries of iodine 131 of phosphorus 32 is transported, stored, or used bears a durable, clearly visible label bearing the conventional three-bladed radiation symbol (magenta or purple on yellow background) and the words: "Caution—Radioactive Material." If the container is used for storage the label shall also state the quantities and kinds of radioactive materials in the container and the date of measurement of the quantities.

(14) He shall assure that each area or room in which a total of more than 100 microcuries of iodine 131 or phosphorus 32 is used or stored, excluding byproduct material contained in patients, is conspicuously posted with a sign bearing the conventional three-bladed radiation symbol and the words: "Caution—Radioactive Material(s)." Such posting is not required for an area or room which is under the licensee's control, and which contains byproduct material for less than eight hours, if the materials are constantly attended by an individual who will take necessary precautions to minimize exposure of individuals to the radiation.

(15) He shall comply with such radiation safety instructions which accompany the shipment of byproduct material and are referenced in the label attached to the container of the byproduct material.

(16) He shall report by telephone or telegraph to the Director, Division of Licensing and Regulation, Atomic Energy Commission within 24 hours after its occurrence becomes known to the licensee any loss or theft of more than one millicurie of iodine 131 or phosphorus 32.

(d) In addition to the conditions, limitations and requirements of paragraphs (b), (c), and (d) of this section, the general license provided in paragraph (a) of this section is subject to the conditions, limitations and requirements of §§ 30.32, 30.33, 30.41, 30.42, 30.43, 30.44, 30.52, and 30.61 of this part.

(e) The general licensee under paragraph (a) of this section is exempt from the requirements of Part 20 of this chapter with respect to the byproduct materials covered by the general license.

3. A new § 30.28 is added to read as follows:

§ 30.28 General license, cobalt 60 for interstitial, intracavitary therapy.

(a) A general license is hereby issued to any physician who has at least three years of experience in the interstitial or intracavitary use of sealed sources containing radioactive materials, and certifies to the Commission that he is familiar with the hazards and appropriate precautions associated with such sealed sources, to receive, possess, use, or transfer, in accordance with the provisions of paragraphs (b), (c), and (d) of this section, cobalt 60 contained in needles or tubes designed and manufactured for interstitial or intracavitary therapy.

(b) No physician shall receive, possess, use, or transfer byproduct material pursuant to the general license established by paragraph (a) of this section until he has:

(1) Filed Form AEC–482–A, "Registration Certificate—Generally Licensed Medical Devices," in triplicate with the Director, Division of Licensing and Regulation, U.S. Atomic Energy Commission, Washington 25, D.C., and

(2) Received from the Commission a validated copy of the Form AEC–482–A with registration number assigned.

(c) A physician who receives byproduct material pursuant to the general license established by paragraph (a) of this section shall comply with the following requirements:

(1) He shall not possess at any one time, pursuant to the general license in paragraph (a) of this section more than 100 millicuries of cobalt 60.

(2) He shall not receive, possess, or use byproduct material pursuant to the general license in paragraph (a) of this section, unless the container bears a label which includes the following statement: "This device may be distributed to physicians pursuant to general license 10 CFR 30.28 of the U.S. Atomic Energy Commission."

(3) He shall have the cobalt 60 needles and tubes tested for leakage of radioactive material by a person specifically licensed by the Commission to perform such tests, at no longer than twelve-month intervals by a test capable of detecting the presence of 0.005 microcurie of removable contamination on each sealed source. Any test which reveals the presence of 0.005 microcurie or more removable radioactive material shall be considered evidence that the sealed source is leaking.

(4) He shall immediately withdraw from use any cobalt 60 needle or tube which is leaking or has been damaged or broken and shall cause it to be repaired by the supplier or other person holding a specific license issued by the Commission to manufacture or repair such needle or tube, or dispose of it by transfer to a person specifically licensed by the Commission to receive the byproduct material. A report shall be filed in duplicate by the physician within 10 days after determining that any needle or tube is leaking, with the Director, Division of Licensing and Regulation, U.S. Atomic Energy Commission, Washington 25, D.C., describing the type of needle or tube involved, the test results, and the corrective action taken.

(5) He shall not transfer, abandon, or dispose of the needle or tube except by transfer to a person authorized to receive the byproduct material pursuant to a specific license issued by the Commission or pursuant to the general license in paragraph (a) of this section.

(6) He shall store the byproduct material, except when in use, in the shielded storage box or case in which it is received or in a container providing equivalent radiation protection.

(7) He shall secure each cobalt 60 needle or tube against unauthorized removal from its place of storage.

(8) He shall maintain, at each facility where the byproduct material is used, a calibrated and operable radiation survey instrument capable of measuring from 0.1 millirad per hour to 500 millirads per hour of the radiations emitted by the generally licensed material.

(9) He shall calibrate or have calibrated each survey instrument at intervals not to exceed six (6) months and after each servicing.

(10) He shall conduct after each use a physical inventory of the cobalt 60 needles or tubes to account for all the byproduct material used.

(11) He shall hospitalize any patient in whom the physician has inserted cobalt 60 until such time as the cobalt 60 is removed from the patient.

(12) He shall complete and attach a radioisotope record card to the bed or to the door of the room in which a patient with cobalt 60 in his body is hospitalized. The card shall accompany the patient whenever he leaves such room and shall include the following:

(i) The conventional three-bladed radiation caution symbol.

(ii) The name of the patient.

(iii) The number of millicuries of cobalt 60 which have been administered to the patient.

(iv) The name of the physician in charge.

(13) He shall post each area or room in which a cobalt 60 needle is being used or stored with a sign bearing the conventional three-bladed radiation symbol (magenta or purple on yellow background) and the words: "Caution—Radioactive material(s)."

(i) Such posting is not required for an area or room which is under the licensee's control and which contains cobalt 60 needles or tubes for less than eight hours if the cobalt 60 is constantly attended by an individual who will take necessary precautions to minimize exposure of individuals to the radiation.

(ii) Such posting is not required for a room or other area in a hospital because of the presence of cobalt 60 needles or tubes in patients provided there are personnel in attendance who will take necessary precautions to minimize the exposure of other persons to the radiation.

(14) He shall not possess, use or transfer generally licensed byproduct material in such a manner as to cause any individual, other than a patient to whom the byproduct material is administered, to receive in any period of one calendar quarter from generally licensed byproduct material and other sources of radiation in the licensee's possession a dose in excess of the limits specified in the following table:

Rems Per Calendar Quarter	
(i) Whole body; head and trunk; active blood-forming organs; lens of eyes; or gonads	1¼
(ii) Hands and forearms; feet and ankles	18¾
(iii) Skin of whole body	7½

(15) He shall supply a film badge, pocket chamber, or pocket dosimeter to, and shall require the use of such personnel monitoring equipment by, any individual who is likely to receive a radiation dose in any one calendar quarter in excess of 25 percent of the applicable values specified in subparagraph (14) of this paragraph.

(16) He shall make or cause to be made such radiation surveys as may be necessary for him to comply with the provisions of this section.

(17) He shall report by telephone or telegraph to the Director, Division of Licensing and Regulation, immediately after its occurrence becomes known to the physician, any loss or theft of a cobalt 60 needle or tube.

(18) He shall maintain records of:

(i) All tests performed on the cobalt 60 needle or tube as required under this section, including dates and results of the tests and names of individuals who conduct the tests.

(ii) Dates of calibration for each survey instrument and names of persons who performed the calibrations.

(iii) Inventories of cobalt 60 needles or tubes.

(iv) The radiation dose of all individuals for whom personnel monitoring is required by subparagraph (15) of this paragraph.

(v) Radiation surveys required by § 30.28(c)(16).

(19) He shall comply with such radiation safety instructions which accompany the shipment of byproduct material and are referenced in the label attached to the container of the byproduct material.

(d) The general license provided in paragraph (a) of this section is subject to the provisions of §§ 30.32, 30.33, 30.41, 30.42, 30.43, 30.44, 30.52 and 30.61 of this part.

(e) The general licensee under paragraph (a) of this section is exempt from the requirements of Part 20 of this chapter with respect to the byproduct materials covered by the general license.

§ 30.24 [Amendment]

4. A new paragraph (k) is added to § 30.24 to read as follows:

(k) *Manufacture and distribution of byproduct material for exempt or generally licensed medical use.* An application for a specific license to manufacture, import, label, package, and distribute byproduct material for use by physicians exempt from licensing under § 30.11 or generally licensed under § 30.26 will not be approved unless:

(1) The applicant satisfies the general requirements specified in § 30.23.

(2) The applicant submits evidence that the byproduct material is to be manufactured, labeled, and packaged in accordance with a new drug application which the Commissioner of Food and Drugs, Food and Drug Administration, has permitted to become effective, or in accordance with a license issued by the Secretary, Department of Health, Education and Welfare.

(3) The applicant submits complete information as to the labeling to be affixed to the container of the byproduct material which shall bear one of the following statements, as appropriate:

(i) "This pharmaceutical may be distributed to physicians under license exemption of the U.S. Atomic Energy Commission."

(ii) "This pharmaceutical may be distributed to physicians pursuant to general license 10 CFR 30.26 of the U.S. Atomic Energy Commission."

(4) The labels and brochures which accompany each package of byproduct material:

(i) Contain adequate information as to precautions to be observed in handling and storing such byproduct materials;

(ii) Include a copy of § 30.11 or § 30.26 as appropriate.

5. A new paragraph (l) is added to § 30.24 to read as follows:

(l) *Manufacture of cobalt 60 needles or tubes for distribution to persons generally licensed under § 30.28* An application for a specific license to manufacture, import, label, package and distribute cobalt 60 needles or tubes for use by physicians generally licensed under § 30.28 will not be approved unless:

(1) The applicant satisfies the general requirements specified in § 30.23.

(2) The applicant submits sufficient information relating to the design, manufacture, prototype testing and quality control procedures for the cobalt 60 needles or tubes, to provide reasonable assurance that the byproduct material contained in the needle or tube under normal conditions of use will not be likely to escape therefrom.

(3) The applicant submits sufficient information relating to the storage container for the cobalt 60 needles or tubes, to provide reasonable assurance that:

(i) No person would be likely to receive a radiation exposure to a major portion of his body in excess of 0.5 rem in a year under ordinary circumstances of storage.

(ii) The storage container may be kept locked.

(4) The applicant submits complete information as to the labeling to be affixed to the storage container for the cobalt 60 needles or tubes, which shall contain adequate information for the safe use or manipulation of the cobalt 60 needle or tube and shall bear the following statement: "This device may be distributed to physicians pursuant to general license 10 CFR 30.28 of the U.S. Atomic Energy Commission."

(5) In describing the label or labels to be affixed to the storage container for the cobalt 60 needles or tubes, the applicant shall separately indicate those instructions and precautions which are necessary to assure safe use of the byproduct material.

(6) Cobalt 60 needles or tubes will be comprised of cobalt 60 wire hermetically sealed within stainless steel tubing, or within other metal or alloy having equivalent properties of resistance to corrosion and abrasion.

(7) Each cobalt 60 needle or tube will:

(i) Be subjected to suitable tests to detect possible leakage of byproduct material.

(ii) Be individually calibrated.

(iii) Have engraved upon it a code marking which indicates the linear intensity and number of millicuries for such needle or tube.

§ 30.32 [Amendment]

6. A new paragraph (g) is added to § 30.32 to read as follows:

(g) Each licensee authorized under § 30.24(l) to manufacture, import, label, package, and distribute cobalt 60 needles or tubes to generally licensed physicians:

(1) Shall report in duplicate to the Director, Division of Licensing and Regulation, all transfers of such cobalt 60 needles or tubes to physicians generally licensed under § 30.28(a). Such report shall identify each general licensee by name and address and registration number; date of transfer; the type of cobalt 60 needles or tubes transferred and the amount in millicuries of byproduct material contained in the needles or tubes. The report shall be submitted within 10 days after the end of each calendar month in which such needle or tube is transferred to a generally licensed physician.

(2) Shall furnish to each general licensee to whom he transfers such cobalt 60 needle or tube,

(i) A copy of the general license established by § 30.28.

(ii) A certificate of calibration which shall include a statement that the needle or tube has been tested and shows no detectable leakage of radioactive material to the exterior of the needle or tube, a statement of the dosage rate, and the name of the manufacturer."

Dated at Germantown, Md., this 10th day of January 1962.

For the Atomic Energy Commission.

WOODFORD B. McCOOL,
Secretary.

[F.R. Doc. 62-517; Filed, Jan. 17, 1962; 8:45 a.m.]

FEDERAL AVIATION AGENCY

[14 CFR Part 507]

[Reg. Docket No. 1025]

EDO AIRCRAFT

Airworthiness Directives

Pursuant to the authority delegated to me by the Administrator, (14 CFR Part 405), notice is hereby given that the Federal Aviation Agency has under consideration a proposal to amend Part 507 of the regulations of the Administrator to include an airworthiness directive requiring modification of Edo Models 345 and 345A airborne Loran A receivers to reduce the radiation to an acceptable level. This proposed action is deemed necessary since it has been determined that excessive spurious radiation from these receivers can adversely affect the operation of other navigational or communication equipment installed in aircraft.

Interested persons may participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Docket Section of the Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C. All communications received on or before February 19, 1962, will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in light of comments received. All comments submitted will be available, in the Docket Section for examination by interested persons when the prescribed date for return of comments has expired. This proposal will not be given further distribution as a draft release.

This amendment is proposed under the authority of Sections 313(a), 601 and 603 of the Federal Aviation Act of 1958 (72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423).

In consideration of the foregoing, it is proposed to amend § 507.10(a) of Part 507 (14 CFR Part 507), by adding the following airworthiness directive:

Edo. Applies to all aircraft equipped with Model 345 and 345A airborne Loran A receivers.

Compliance required within 1,200 hours' time in service after the effective date of this AD.

In order to reduce the spurious radiation which can adversely effect other navigational and communication equipment, modify Models 345 and 345A receivers in accordance with Edo Field Change Bulletin No. 27, dated August 28, 1961, so that the maximum radiation is 400 micromicrowatts.

Issued in Washington, D.C., on January 11, 1962.

G. S. MOORE,
Acting Director,
Flight Standards Service.

[F.R. Doc. 62-521; Filed, Jan. 17, 1962; 8:46 a.m.]

[14 CFR Parts 600, 601]

[Airspace Docket No. 61-HO-9]

FEDERAL AIRWAYS, CONTROLLED AIRSPACE AND REPORTING POINTS

Alteration of Federal Airway and Associated Control Areas

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering amendments to §§ 600.6409 and 601.6409 of the regulations of the Administrator, the substance of which is stated below.

Hawaiian VOR Federal airway No. 9 presently extends from the point of intersection of the Lanai, Hawaii, VOR 224° and the Honolulu VOR 179° True radials to the Honolulu, Hawaii, VOR. In addition, this airway includes the airspace between straight lines starting from a point on each outer boundary of the airway at a distance of 50 statute miles south from the Honolulu VOR, and diverging southward at angles of 6° relative to the centerline of the airway. The portion of this airway above 21,000 feet, mean sea level, which overlaps Warning Area (W-321 Area C) is excluded.

The Federal Aviation Agency is considering the alteration of VOR Federal airway No. 9 by redesignating it as follows:

From the intersection of the Lanai, Hawaii, VOR 223° and the Honolulu, Hawaii, VORTAC 179° True radials (Honolulu Oceanic Control Area Boundary), to the Honolulu VORTAC, including the additional area between lines diverging at angles of 5° from the centerline extending southward from the Honolulu VORTAC to the Honolulu Oceanic Control Area Boundary. It is proposed to designate the floors of the control areas associated with this VOR airway at 5,000 feet above the surface between the intersection of the Lanai VOR 223° and the Honolulu VORTAC 179° True radials, and the intersection of the Lanai VOR 232° and the Honolulu VORTAC 179° True radials; at 3,000 feet above the surface between the intersection of the Lanai VOR 232° and the Honolulu VORTAC 179° True radials, and the intersection of the Molokai, Hawaii, VOR 239° and the Honolulu VORTAC 179° True radials; and at 1,500 feet above the surface between the intersection of the Molokai, Hawaii, VOR 239° and the Honolulu VORTAC 179° True radials, and the Honolulu VORTAC. The portion of this airway which would fall within the geographic limits of, and between the established altitudes of Warning Area "C" (W-321) would be excluded during the time of use of the warning area.

This proposed action would release controlled airspace which is no longer required for the management of air traffic, and the outermost segment of the control area associated with this airway would have a floor which is compatible with the base of the Honolulu Oceanic Control Area.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Assistant Administrator, Pacific Region, Attn: Chief Air Traffic Division, Federal Aviation Agency, P.O. Box 4009, Honolulu 12, Hawaii. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on January 12, 1962.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

[F.R. Doc. 62-522; Filed, Jan. 17, 1962; 8:46 a.m.]

[14 CFR Part 602]

[Airspace Docket No. 61-WA-173]

JET ROUTES AND JET ADVISORY AREAS

Designation

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering amendments to §§ 602.100 and 602.200 of the regulations of the Administrator, the substance of which is stated below.

The Federal Aviation Agency has under consideration the designation of Jet Route No. 501 from the Seattle, Wash., VORTAC to the intersection of the Seattle VORTAC 331° True radial and the United States/Canadian border, at which point it would join with Canadian High Level airway No. 501. This would provide the United States portion of a route for turbojet aircraft operating between Seattle and Alaskan and Canadian terminals. Radar jet advisory service would be provided civil turbojet aircraft operating via this jet route. This proposed jet route would not coincide with any high altitude refueling areas.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Chief, Airspace Utilization Division. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on January 12, 1962.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

[F.R. Doc. 62-523; Filed, Jan. 17, 1962; 8:46 a.m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 9]

[Docket No. 14452; RM 288]

FREQUENCIES, FREQUENCY STABILITY AND DEFINITIONS; PETITION FILED BY SYLVANIA ELECTRIC PRODUCTS, INC.

Order Extending Time for Filing Comments

In the matter of amendment of Part 9 of the Commission's rules relative to implementation of certain requirements of the Geneva Radio Regulations (1959) regarding frequencies, frequency stability and definitions. Petition filed by Sylvania Electric Products, Inc., New York, New York, October 24, 1961.

1. The Commission has before it for consideration a request from Aircraft Owners and Pilots Association (AOPA) dated January 5, 1962 for an extension of time for the filing of comments in the above-entitled proceeding to February 19, 1962.

2. The request is based on the grounds that insufficient time exists from actual receipt of the notice of proposed rule making to the closing date for comments, and the serious economic impact of the rules. Petitioner states that of the four weeks allowed for comments, almost two weeks elapsed before the Docket was in the hands of the interested parties. In addition, a survey by AOPA Foundation indicates that more than 65,000 VHF aircraft transmitters having an estimated replacement value of 60 million dollars will be affected by the proposal.

3. Inasmuch as the subject notice of proposed rule making was released on December 22, 1961, just prior to the Christmas and New Year holidays, it is understandable that the notice may have been delayed in reaching interested parties. The Commission, therefore, is of the view that an extension of time for the filing of comments in the above-entitled proceeding would serve the public interest, convenience and necessity, and is warranted.

In view of the foregoing: *It is ordered*, That the date for filing comments in the above-entitled matter is extended to February 8, 1962 and the date for filing replies to such comments is extended to February 19, 1962.

Adopted: January 12, 1962.

Released: January 15, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

Notices

DEPARTMENT OF JUSTICE

Office of the Attorney General

[Order No. 259–62]

RESPONSIBILITY FOR PERFORMANCE OF CERTAIN FUNCTIONS RELATING TO IMMIGRATION AND NATIONALITY LAWS

By virtue of the authority vested in me by section 161 of the Revised Statutes (5 U.S.C. 122), and section 2 of Reorganization Plan No. 2 of 1950 (64 Stat. 1261), I hereby amend paragraph (1) of section 18(a) of Order No. 175–59, of January 19, 1959, to read as follows:

(1) Subject to the limitations contained in section 103 of the Immigration and Nationality Act (8 U.S.C. 1103) and the provisions for review by the Board of Immigration Appeals, administer and enforce the Immigration and Nationality Act and all other laws relating to immigration (including, but not limited to, admission, exclusion, and deportation), naturalization, and nationality. Nothing in this paragraph shall be construed to authorize the Commissioner of Immigration and Naturalization to supervise the litigation of, or to approve the filing of records on review, appeals, or petitions for writs of certiorari or to intervene or have independent representation in cases under the immigration and nationality laws except as provided in paragraph (5) of this subsection.

This order shall be effective as of October 26, 1961.

Dated: December 28, 1961.

ROBERT F. KENNEDY,
Attorney General.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[Portland Area Office Redelegation Order 1, Amdt. 12, Correction]

IRRIGATION MATTERS

Redelegation of Authority

JANUARY 12, 1962.

In Federal Register Document 61–11515, appearing on page 11687 of the issue for December 6, 1961, the following change should be made:

SEC. 3.205 *Concessions on reservoir sites and other lands in Indian irrigation projects; leases for agriculture, business or grazing purposes.* The granting of concessions on reservoir sites, reserves for canals or flowage areas, and other lands which have been withdrawn or otherwise acquired in connection with the Fort Hall Irrigation Project and to permit or lease such lands for agricultural, business or grazing purposes pursuant to 25 CFR Part 203.

JOHN O. CROW,
Deputy Commissioner.

Bureau of Land Management

[Classification No. 95]

NEVADA

Small Tract Classification; Amendment

Effective January 10, 1962, Federal Register Document 53–8583 appearing on pages 6413–14 of the issue for October 18, 1953, is amended revising the appraised value, realigning the longer axes, amending the rights-of-way of 33 feet in width along the boundaries thereof for roads and public utilities.

A list of tracts affected is posted and available for public inspection in the Nevada Land Office, 50 Ryland Street, Reno, Nevada. Twenty-three of the twenty-four tracts affected are under application.

DANIEL P. BAKER,
Chief, Division of Lands and Minerals Management.

JANUARY 10, 1962.

WYOMING

Notice of Proposed Withdrawal and Reservation of Lands

JANUARY 10, 1962.

The Bureau of Reclamation, United States Department of the Interior, has filed an application, serial number Wyoming 077497, for the withdrawal of lands described below, from all forms of appropriation under the first form of withdrawal as provided by section 3 of the Act of June 17, 1902 (32 Stat. 388). Grazing administration will remain under the jurisdiction of the Bureau of Land Management until such time as the lands are actually required for reclamation purposes.

The applicant desires the land for reclamation development in connection with the Shoshone Project.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions or objections in connection with the proposed withdrawal may present their views in writing to the State Director, Bureau of Land Management, Department of the Interior, P.O. Box 929, Cheyenne, Wyoming.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 57 N., R. 98 W.,
Sec. 4: Lots 1, 2, S½NE¼, SE¼.
T. 58 N., R. 98 W.,
Sec. 34: S½

The above areas aggregate 641.24 acres.

ED PIERSON,
State Director.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

JACKSONVILLE LIVE STOCK AUCTION ET AL.

Deposting of Stockyards

It has been ascertained, and notice is hereby given, that the stockyards named herein, originally posted on the respective dates specified below as being subject to the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 et seq.), no longer come within the definition of a stockyard under said act and are, therefore, no longer subject to the provisions of the act.

Name and Location of Stockyard and Date of Posting

Jacksonville Live Stock Auction, Jacksonville, Fla.; Mar. 8, 1960.
Wolverine Dairy Consignment Sale, Wolverine, Mich.; Dec. 18, 1959.
Luther E. Tadlock Stockyard, Forest, Miss.; Feb. 9, 1959.
Farmers Stock Yard, Asheville, N.C.; Apr. 1, 1959.
Stockman's Auction Co., Inc., Huron, S. Dak.; Dec. 11, 1950.
Farmers Livestock Market of Camden, Inc., Camden, Tenn.; May 5, 1959.
Smithville Livestock Commission Co., Smithville, Tex.; Oct. 30, 1959.

The owner of the Luther E. Tadlock Stockyard, Forest, Mississippi, has dismantled the stockyard facilities and will construct a new stockyard in the approximate location. Notice of proposed posting of the new market will be issued.

Notice or other public procedure has not preceded promulgation of the foregoing rule since it is found that the giving of such notice would prevent the due and timely administration of the Packers and Stockyards Act and would, therefore, be impracticable and contrary to the public interest. There is no legal warrant or justification for not depositing promptly a stockyard which is no longer within the definition of that term contained in the act.

The foregoing is in the nature of a rule granting an exemption or relieving a restriction and, therefore, may be made effective in less than 30 days after publication in the FEDERAL REGISTER. This notice shall become effective upon publication in the FEDERAL REGISTER.

(42 Stat. 159, as amended and supplemented; 7 U.S.C. 181 et seq.)

Done at Washington, D.C., this 15th day of January 1962.

H. L. JONES,
Chief, Rates and Registrations Branch, Packers and Stockyards Division, Agricultural Marketing Service.

[F.R. Doc. 62–573; Filed, Jan. 17, 1962; 8:50 a.m.]

WALKER COUNTY LIVESTOCK ET AL.

Posted Stockyards

Pursuant to the authority delegated under the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 et seq.), on the respective dates specified below it was ascertained that the livestock markets named below were stockyards within the definition of that term contained in section 302 of the act, as amended (7 U.S.C. 202), and were, therefore, subject to the act, and notice was given to the owners and to the public by posting notice at the stockyards as required by said section 302.

Name and Location of Stockyard and Date of Posting

ALABAMA

Walker County Livestock, Jasper; Dec. 8, 1961.

COLORADO

Davis Ranch Sales Pavilion, Fort Morgan; Nov. 22, 1961.

GEORGIA

Burke County Stockyard, Waynesboro; Nov. 9, 1961.

IOWA

O'Neill Livestock Auction, Eldora; Dec. 8, 1961.

KANSAS

Ottawa Livestock Commission Co., Ottawa; Nov. 27, 1961.
S. & J. Livestock Commission Co., Inc., Norton; Dec. 4, 1961.

LOUISIANA

Brown-Alsbrooks Stockyards, Inc., Marksville; Oct. 20, 1961.

MISSISSIPPI

Walnut Sales Company, Walnut; Dec. 4, 1961.

MONTANA

Dillon Livestock Auction Co., Dillon; Nov. 30, 1961.

OKLAHOMA

Henryetta Livestock Auction, Henryetta; Nov. 14, 1961.

OREGON

Valley Livestock Auction Market, Hood River; Nov. 26, 1961.

SOUTH DAKOTA

Madden Livestock Market, Inc., St. Onge; Dec. 7, 1961.

TENNESSEE

Lincoln County Live Stock Market, Fayetteville; Nov. 27, 1961.

TEXAS

Arlington Livestock Commission Co., Inc., Arlington; Dec. 19, 1961.
Coleman Live Stock Auction Commission Co., Inc., Coleman; Dec. 11, 1961.

Done at Washington, D.C., this 15th day of January 1962.

H. L. JONES,
Chief, Rates and Registrations Branch, Packers and Stockyards Division, Agricultural Marketing Service.

Office of the Secretary

MISSISSIPPI AND VIRGINIA

Designation of Areas for Emergency Loans

For the purpose of making emergency loans pursuant to section 321(a) of Public Law 87–128 (7 U.S.C. 1961) it has been determined that in the following counties in the States of Mississippi and Virginia natural disasters have caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources:

MISSISSIPPI

Bolivar.	Smith.
Coahoma.	Sunflower.
Carroll.	Tallahatchie.
Holmes.	Tunica.
Humphreys.	Warren.
Leflore.	Washington.
Pontotoc.	Yazoo.
Quitman.	

VIRGINIA

Accomack.	Northampton.

Pursuant to the authority set forth above, emergency loans will not be made in the above-named counties after June 30, 1962, except to applicants who previously received emergency or special livestock loan assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 12th day of January 1962.

JOHN P. DUNCAN, JR.,
Acting Secretary.

ATOMIC ENERGY COMMISSION

[Docket No. 27–32]

BAY CITIES TRANSPORTATION CO.

Notice of Issuance of Byproduct, Source and Special Nuclear Material License

Please take notice that since no requests for a formal hearing have been filed following the filing of notice of proposed licensing action with the Federal Register Division on September 20, 1961, the Atomic Energy Commission has this date issued Byproduct, Source and Special Nuclear Material License No. 4–7774–1 authorizing Bay Cities Transportation Company, Pier No. 3, San Francisco 11, California to receive waste byproduct, source and special nuclear material and to transfer said material to AEC-designated land burial sites for disposal, in accordance with the terms and conditions of said license. The license differs from the proposed licensing action in that the licensee is not authorized to store waste byproduct, source and special nuclear material. Notice of the proposed licensing action was published in the FEDERAL REGISTER on September 21, 1961, 26 FR 8915.

Dated at Germantown, Md., January 12, 1962.

For the Atomic Energy Commission.

R. L. KIRK,
Deputy Director, Division of Licensing and Regulation.

[Docket No. 14487; FCC 62-59]

BELLEVILLE BROADCASTING CO., INC. (WIBV)

Order Designating Application for Hearing on Stated Issues

In re application of Belleville Broadcasting Company, Inc. (WIBV), Belleville, Illinois, has 1260 kc, 1 kw, Day, requests 1260 kc, 5 kw, DA-2, U, Docket No. 14487, File No. BP-13787; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 10th day of January 1962;

The Commission having under consideration the above-captioned and described application for an increase in the daytime power and establish nighttime operation for Station WIBV, Belleville, Illinois; and

It appearing, that, except as indicated by the issues specified below, the applicant is legally, technically, financially and otherwise qualified to construct and operate the facilities proposed but that, while data submitted by the applicant indicates that the proposed operation of WIBV will cause no objectionable interference to any existing or proposed operation, a study of the WIBV proposal indicates that the nighttime operation proposed would increase the RSS limitation of Station WALM, Albion, Michigan, from 14.0 mv/m to 15.7 mv/m; and

It further appearing, that, in view of the foregoing, the Commission is unable to make the statutory finding that a grant of the instant application would serve the public interest, convenience and necessity, and is of the opinion that the application must be designated for hearing on the issues set forth below:

It is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, that the instant application is designated for hearing, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the areas and population which may be expected to gain or lose primary service from the proposed operation of Station WIBV and the availability of other primary service to such areas and populations.

2. To determine whether the instant proposal of WIBV would cause objectionable interference to Station WALM, Albion, Michigan, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine, in the light of the evidence adduced pursuant to the foregoing issues, whether a grant of the instant application would serve the public interest, convenience and necessity.

It is further ordered, That Calhoun Broadcasting Company, licensee of Station WALM, Albion, Michigan is made a party to the proceeding.

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicant and party respondent herein, pursuant to § 1.140 of the Commission rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

It is further ordered, That, the applicant herein shall, pursuant to Section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.362(b) of the Commission's rules, give notice of the hearing, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.362(g) of the rules.

Released: January 15, 1962.

DOVER BROADCASTING CO. ET AL.

Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Dover Broadcasting Co., Richmond, Va., requests 1540 kc, 10 kw, 1 kw (CH), D, Docket No. 14488, File No. BP-13831; 1540 Radio, Inc., Richmond, Va., requests 1540 kc, 10 kw, DA-D, Docket No. 14489, File No. BP-14813; Oram C. Hutton, Milton Beyer and James T. Doukas d/b as Richmond Broadcasting Co., Richmond, Va., requests 1540 kc, 50 kw, DA-D, Docket No. 14490, File No. BP-14814; Homer C. Eliades and Plato G. Eliades d/b as Eliades Broadcast Co., Hopewell, Va., requests 1540 kc, 10 kw, 1 kw (CH), D, Docket No. 14491, File No. BP-14820; WDYL Radio, Inc. (WDYL), Ashland, Va., has 1430 kc, 1 kw, D, requests 1540 kc, 10 kw, 1 kw (CH), D, Docket No. 14492, File No. BMP-9493; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 10th day of January 1962;

The Commission having under consideration the above-captioned and described applications;

It appearing, that except as indicated by the issues set forth below, each of the subject applicants possesses the necessary qualifications to construct and operate its proposal; and

It further appearing, that the following matters are to be considered in connection with the aforementioned issues specified below:

1. The five co-channel proposals involve mutually destructive interference.

2. The proposed operation of WDYL Radio, Inc. would cause interference to the operation of Station WDON, Wheaton, Maryland.

3. The aerial site photograph submitted with the application of the Richmond Broadcasting Company is not sufficiently clear and does not show sufficient detail to permit a determination as to whether the proposed site is satisfactory.

4. John Laurino, president, director and fifty-percent stockholder in WDYL Radio, Inc., is also the individual applicant for a new standard broadcast station at Chester, Virginia (File No. BP-13752, Docket No. 14382). Due to the proximity of Ashland and Chester, Virginia, it will be necessary to determine in the hearing ordered below whether a grant of the WDYL application would be in contravention of § 3.35 of the Commission's rules on multiple ownership. In considering the WDYL proposal and § 3.35 of the Commission's rules, it appears appropriate to consider the size, extent and location of the areas served and to be served; the extent of the overlap involved (if any); the number of persons residing within the overlap area; the classes of stations involved; the extent of other competitive service to the areas in question; the extent to which the stations will rely on the same revenue and program sources; the nature of the programming that the stations will present with particular reference to the needs of the communities they are designed to serve; the advertising practices of the stations; the source of program material and talent for each station; and such other factors as will tend to demonstrate that the overlap and/or concentration of control involved will or will not be in contravention of § 3.35 of the Commission's rules.

It further appearing, that, in view of the foregoing, the Commission is unable to make the statutory finding that a grant of the subject applications would serve the public interest, convenience, and necessity, and is of the opinion that the applications must be designated for hearing in a consolidated proceeding on the issues set forth below:

It is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the instant applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the areas and populations which would receive primary service from each of the proposals for new standard broadcast stations and the availability of other primary service to such areas and populations.

2. To determine the areas and populations which may be expected to gain or lose primary service from the proposed operation of Station WDYL and the availability of other primary service to such areas and populations.

3. To determine the nature and extent of the interference, if any, that each of the instant proposals would cause to and receive from each other and the interference that each of the instant proposals would receive from all other existing standard broadcast stations, the areas and populations affected thereby, and the availability of other primary service to such areas and populations affected by interference from any of the instant proposals.

4. To determine whether the instant proposal of WDYL would cause objectionable interference to Station WDON, Wheaton, Maryland, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

5. To determine whether a grant of the instant proposal of WDYL Radio, Inc., would be in contravention of the provisions of § 3.35 of the Commission rules.

6. To determine whether the transmitter site proposed by Richmond Broadcasting Company is satisfactory with particular regard to any conditions that may exist in the vicinity of the antenna system which would distort the proposed antenna radiation pattern.

7. To determine, in the light of section 307(b) of the Communications Act of 1934, as amended, whether the proposal for Hopewell, Virginia, or the proposal for Ashland, Virginia, or one of the three proposals for Richmond, Virginia, would better provide a fair, efficient and equitable distribution of radio service.

8. To determine, in the event it is concluded pursuant to the foregoing issue that one of the three proposals for Richmond, Virginia, should be favored, which of the three proposals would best serve the public interest, convenience and necessity in the light of the evidence adduced under the issues herein and the record made with respect to the significant differences between the said applicants as to:

(a) The background and experience of each having a bearing on the applicant's ability to own and operate the proposed standard broadcast station.

(b) The proposal of each with respect to the management and operation of the proposed station.

(c) The programing services proposed in each of the said applications.

9. To determine, in the light of the evidence adduced pursuant to the foregoing issues which, if any, of the instant applications should be granted.

It is further ordered, That Commercial Radio Equipment Company, licensee of Station WDON, Wheaton, Maryland, is made a party to the proceeding.

It is further ordered, That, in the event of a grant of the Dover Broadcasting Company application, the construction permit shall contain a condition that measurement data made on permittee and WANT, United Broadcasting Company of Virginia, Richmond, Virginia at a point where the antenna resistance is measured shall be submitted with the application for license to prove that the installation of the filter circuits or other isolation equipment do not prevent satisfactory performance, pursuant to § 3.45(e)(1) of the rules, and that field observations or measurements shall be made to clearly show that operations of the two stations with the same antenna do not result in spurious radiations to the extent that interference would result to other radio services.

It is further ordered, That, in the event of a grant of the application of 1540 Radio, Inc., the construction permit shall contain the condition that before program tests are authorized, permittee shall submit sufficient data made in accordance with §§ 3.48 and 2.524 of the Commission rules to establish that the transmitter installed meets Commission requirements.

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants and party respondent herein, pursuant to § 1.140 of the Commission rules, in person or by attorney, shall, within 20 days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.362(b) of the Commission's Rules, give notice of the hearing, either individually or, if feasible, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.362(g) of the rules.

It is further ordered, That, the issues in the above-captioned proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding, and upon sufficient allegations of fact in support thereof, by the addition of the following issue. To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

RADIO-ACTIVE BROADCASTING, INC. (WATO)

Order Continuing Hearing

In re application of Radio-Active Broadcasting, Inc. (WATO), Oak Ridge, Tenn., Docket No. 14255, File No. BP-13833; for construction permit.

The Hearing Examiner having under consideration a Motion to Cancel Presently Scheduled Procedural Dates in the

Above Proceeding and Request for Further Prehearing Conference, filed by the applicant herein on January 9, 1962;

It appearing, that, as stated in the aforementioned pleading it has now been determined that, by using a directional antenna, the applicant would be enabled to increase its power without creating any additional interference to Station WMTN, a respondent herein;

It further appearing, that it is stated in this pleading that by use of the aforementioned directional antenna the issues relating to a possible contravention of the Commission's multiple ownership rules (47 CFR 3.35) may be resolved without the necessity of a hearing;

It further appearing, that in order to provide for the directional antenna it is necessary for the applicant to seek to amend its application, and that in this connection it is stated that the necessary engineering amendment cannot be prepared prior to February 14, 1962;

It further appearing, that in accordance with an Order of the Examiner herein, released December 12, 1961 (FCC 61M-1946) specific dates were fixed for the exchange of exhibits, revised exhibits and notification of witnesses during the period between January 10 and 26, 1962, and that the hearing itself was rescheduled to commence on February 5, 1962;

It further appearing, that counsel for the other parties to the proceeding have consented to a grant of the motion above-described and have agreed to a waiver of the provisions of the Commission's rules (47 CFR 1.43), relating to the witholding of action on motions for a four-day period; and

It further appearing, that good cause has been shown for a prompt grant of the Motion herein;

It is ordered, This 11th day of January 1962, that the Motion of the applicant is granted; that the procedural dates set forth in the Examiner's Order of December 12, 1961, are cancelled; that a further prehearing conference is scheduled to commence on February 20, 1962, at 9:30 a.m. at the Offices of the Commission in Washington, D.C.; and that the hearing heretofore scheduled to commence on February 5, 1962, is postponed until further order of the Examiner.

Wage and Hour Division

CERTIFICATES AUTHORIZING EMPLOYMENT OF LEARNERS AT SPECIAL MINIMUM RATES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.), the regulations on employment of learners (29 CFR Part 522), and Administrative Order No. 524 (24 F.R. 9274) the firms listed in this notice have been issued special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates otherwise applicable under section 6 of the Act. The effective and expiration dates, occupations, wage rates, number or proportion of learners, learning periods, and the principal product manufactured by the employer for certificates issued under general learner regulations (§§ 522.1 to 522.11) are as indicated below. Conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.20 to 522.25, as amended).

The following learner certificates were issued authorizing the employment of ten percent of the total number of factory production workers for normal labor turnover purposes. The effective and expiration dates are indicated.

Blue Bell, Inc., Tishomingo County, Tishomingo, Miss.; effective 1-1-62 to 12-31-62 (men's and boys' work pants).

Dillon Manufacturing Co., Inc., Wayne Road, Savannah, Tenn.; effective 12-30-61 to 12-29-62 (hospital gowns, shirts, pants, etc.).

Dury Clothing Co., Inc., 330 Philadelphia Avenue, West Pittston, Pa.; effective 1-9-62 to 1-8-63 (men's trousers).

The Exylin Co., Mount Vernon, Ind.; effective 1-2-62 to 1-1-63. Learners may not be employed at special minimum wage rates in the production of travel bags (raincoats).

Riviera Sportswear Co., 1207 South Seventh Street, La Crosse, Wis.; effective 1-3-62 to 1-2-63 (dresses).

Southern Manufacturing Co., Plant No. 1, 333 Fifth Avenue North, Nashville, Tenn.; effective 1-1-62 to 12-31-62 (work shirts).

Southern Manufacturing Co., Plant No. 2, 1202 Broad Street, Nashville, Tenn.; effective 1-1-62 to 12-31-62 (sport shirts).

The Turner Manufacturing Co., 117 French Street, Goodlettsville, Tenn.; effective 1-7-62 to 1-6-63 (ladies' and girls' blouses).

Vernon Manufacturing Co., Inc., 700 Texas Street, Vernon, Tex.; effective 1-1-62 to 12-31-62 (men's and boys' trousers and shorts).

Winchendon Fashions, Inc., 61 Railroad Street, Winchendon, Mass.; effective 1-2-62 to 1-1-63 (ladies' dresses).

Yunker Manufacturing Co., Inc., 315 Ann Street, Parkersburg, W. Va.; effective 1-2-62 to 1-1-63 (children's wear—outerwear).

The following learner certificates were issued for normal labor turnover purposes. The effective and expiration dates and the number of learners authorized are indicated.

Barry Bob Sportswear Co., Inc., 625 La Salle Street, Berwich, Pa.; effective 12-29-61 to 12-28-62; 10 learners. Learners may not be employed in the production of separate skirts (junior petites coordinates).

Blue Bell, Inc., Nappanee, Ind.; effective 1-6-62 to 1-5-63; 10 learners (boys' dungarees).

Gibson Garment Co., Inc., Gibson, Ga.; effective 1-2-62 to 1-1-63; 10 learners (men's and boys' pants).

Irene Garment Co., R. 410 East Diamond Avenue, Hazleton, Pa.; effective 1-4-62 to 1-3-63; 10 learners (women's dresses).

Klos Manufacturing Co., Muskogee, Okla.; effective 1-2-62 to 1-1-63; 10 learners (children's clothing—shorts and pants).

Mode O'Day Corp., 403½ South Main Street, Ottawa, Kans.; effective 1-1-62 to 12-31-62; 10 learners (ladies' cotton dresses).

Portland Dress Co., Inc., Brackett Street, Portland, Maine; effective 1-2-62 to 1-1-63; 10 learners (ladies' dresses).

The following learner certificates were issued for plant expansion purposes. The effective and expiration dates and the number of learners authorized are indicated.

Dury Clothing Co., Inc., 330 Philadelphia Avenue, West Pittston, Pa.; effective 12-30-61 to 6-29-62; 10 learners (men's trousers).

The Exylin Co., Mount Vernon, Ind.; effective 1-2-62 to 6-1-62; 20 learners. Learners may not be employed at special minimum wage rates in the production of travel bags (raincoats).

Glove Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.60 to 522.65, as amended).

Knoxville Glove Co., 819 McGhee Street Knoxville, Tenn.; effective 1-15-62 to 1-14-63; 10 percent of the total number of stitchers for normal labor turnover purposes (work gloves).

Knitted Wear Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.30 to 522.35, as amended).

Ellwood Knitting Mills, Inc., 1110 Mecklen Lane, 911 Lawrence Avenue, Ellwood City, Pa.; effective 1-1-62 to 6-30-62; 40 learners for plant expansion purposes (men's and boys' knitted outerwear).

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.11, as amended).

Miller Manufacturing Co., 1105 South Ayers, Fort Worth 5, Tex.; effective 1-1-62 to 6-30-62; 2 learners for normal labor turnover purposes in the occupation of sewing machine operator for a learning period of 160 hours at the rate of $1.00 an hour (clothes pin bags, laundry bags, barbecue aprons, pot holders, etc.).

Each learner certificate has been issued upon the representations of the employer which, among other things, were that employment of learners at special minimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be annulled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 522.9.

Signed at Washington, D.C., this 8th day of January 1962.

ROBERT G. GRONEWALD,
Authorized Representative of the Administrator.

Electrospace Corp. of Puerto Rico, Naguabo, P.R.; effective 11-6-61 to 5-5-62; 72 learners for plant expansion purposes, in the occupations of assemblers of electronic parts, cable assemblers, operators of automatic wire cutting machines, each for a learning period of 480 hours at the rates of 80 cents an hour for the first 240 hours and 90 cents an hour for the remaining 240 hours (electronic signal equipment).

Each learner certificate has been issued upon the representations of the employers which, among other things, were that employment of learners at special minimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be annulled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 522.9.

Signed at Washington, D.C., this 2d day of January 1962.

ROBERT G. GRONEWALD,
Authorized Representative of the Administrator.

[F.R. Doc. 62-548; Filed, Jan. 17, 1962; 8:48 a.m.]

Title 3—THE PRESIDENT

Proclamation 3445

LAW DAY, U.S.A., 1962

By the President of the United States of America

A Proclamation

WHEREAS one of the great challenges of our age is man's struggle to sustain individual freedom, human dignity, and justice for all; and

WHEREAS one of the vital bulwarks in that struggle is the rule of law which underlies our whole social, economic and governmental structure, and through which we strive constantly to broaden and secure for all our citizens the rights and opportunities guaranteed by the Constitution and the Bill of Rights; and

WHEREAS the strengthening of the rule of law in our own country directly concerns every citizen because it is of fundamental importance both to the nation's welfare at home and to our hopes for building an enduring structure of world peace through wider application of the rule of law in relations between nations; and

WHEREAS, just as freedom itself demands constant vigilance, it is essential that we nurture through education and example an appreciation of the values of our system of justice and that we foster through improved understanding of the function of law and of independent courts an increased respect for law and for the rights of others as basic elements of our free society; and

WHEREAS the Congress of the United States, by a joint resolution approved April 7, 1961, 75 Stat. 43, has designated the first day of May of each year as Law Day, U.S.A.; has called upon the American people to rededicate themselves to "the ideals of equality and justice under law in their relations with each other as well as with other nations" and to cultivate "that respect for law that is so vital to the democratic way of life"; and has requested the President to issue a proclamation calling for appropriate observance of that day:

NOW, THEREFORE, I, JOHN F. KENNEDY, President of the United States of America, do hereby request that the people of the United States observe Tuesday, May 1, 1962, with appropriate programs and ceremonies in recognition of Law Day, U.S.A. I especially urge that the schools, civic and service organizations, public bodies, the legal profession and the media of information participate in this worthy educational undertaking. I also call upon public officials to cause the flag of the United States to be displayed on all government buildings on that day.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 16th day of January in the year of our Lord nineteen hundred and sixty-two, and of the [SEAL] Independence of the United States of America the one hundred and eighty-sixth.

JOHN F. KENNEDY

By the President:

DEAN RUSK,
Secretary of State.

[F.R. Doc. 62-701; Filed, Jan. 18, 1962; 10:51 a.m.]

Executive Order 10987

AGENCY SYSTEMS FOR APPEALS FROM ADVERSE ACTIONS

WHEREAS the public interest requires the maintenance of high standards of employee performance and integrity in the public service, prompt administrative action where such standards are not met, and safeguards to protect employees against arbitrary or unjust adverse actions; and

WHEREAS the prompt reconsideration of protested administrative decisions to take adverse actions against employees will promote the efficiency of the service, assist in maintaining a high level of employee morale, further the objective of improving employee-management relations, and insure timely correction of improper adverse actions;

NOW, THEREFORE, by virtue of the authority vested in me by the Constitution of the United States, by Section 1753 of the Revised Statutes (5 U.S.C. 631), by the Civil Service Act of 1883 (22 Stat. 403; 5 U.S.C. 632, et seq.), and as President of the United States, it is hereby ordered as follows:

SECTION 1. The head of each department and agency, in accord with the provisions of this order and regulations issued thereunder by the Civil Service Commission, and to the extent specified in such regulations, shall establish within the department or agency a system for the reconsideration of administrative decisions to take adverse action against employees. Information on the system shall be brought to the attention of all employees. Within the principles established by this order and subject to the broad guidelines contained in the regulations, each department and agency is authorized to develop such agency appeals procedures as may be appropriate to its own organizational requirements.

SEC. 2. (a) The Civil Service Commission shall, not later than April 1, 1962, issue regulations to put this order into effect and shall make a continuing review of the manner in which this order is being implemented by the departments and agencies.

(b) Nothing in this order shall be deemed to enlarge or restrict the authority of the Civil Service Commission to adjudicate appeals submitted in accordance with Chapter I of Title 5 of the Code of Federal Regulations.

SEC. 3. The Civil Service Commission in issuing regulations and the departments and agencies in developing an appeals system shall be guided by the following principles:

(1) The appeals system shall be a simple, orderly method through which an employee or former employee may seek timely administrative reconsideration of a decision to take adverse action against him.

(2) Employees and representatives of employee organizations shall have an opportunity to express their views as to the formulation and operation of the appeals procedures.

(3) An appeal shall be in writing and indicate clearly the corrective action sought and the reasons therefor.

(4) The system shall provide ordinarily for one level of appeal, except that it may include further administrative review when the delegations of authority or organizational arrangements of the agency so require.

(5) An employee who has not previously had an opportunity for a hearing in connection with the agency decision to take adverse action shall, on his request, be granted one hearing, except when the holding of a hearing is impracticable by reason of unusual location or other extraordinary circumstance.

(6) The employee shall be assured freedom from restraint, interference, coercion, discrimination, or reprisal in presenting his appeal.

(7) The employee shall have the right to be accompanied, represented, and advised by a representative of his own choosing in presenting his appeal.

(8) The employee shall be assured of a reasonable amount of official time to present his appeal.

(9) An appeal shall be resolved expeditiously. To this end, both the employee and the department or agency shall proceed with an appeal without undue delay.

SEC. 4. The head of each department and agency is authorized to include provision for advisory arbitration, where appropriate, in the agency appeals system.

SEC. 5. (a) This order shall not apply to the Central Intelligence Agency, the National Security Agency, the Federal Bureau of Investigation, the Atomic Energy Commission, and the Tennessee Valley Authority.

(b) The Civil Service Commission, on the recommendation of the heads of the agencies concerned, may exclude classes of employees the nature of whose work makes the application of the provisions of this order inappropriate.

SEC. 6. This order shall become effective as to all adverse actions commenced by issuance of a notification of proposed action on or after July 1, 1962.

JOHN F. KENNEDY

THE WHITE HOUSE,
January 17, 1962.

[F.R. Doc. 62-699; Filed, Jan. 18, 1962; 10:18 a.m.]

Executive Order 10988

EMPLOYEE-MANAGEMENT COOPERATION IN THE FEDERAL SERVICE

WHEREAS participation of employees in the formulation and implementation of personnel policies affecting them contributes to effective conduct of public business; and

WHEREAS the efficient administration of the Government and the well-being of employees require that orderly and constructive relationships be maintained between employee organizations and management officials; and

WHEREAS subject to law and the paramount requirements of the public service, employee-management relations within the Federal service should be improved by providing employees an opportunity for greater participation in the formulation and implementation of policies and procedures affecting the conditions of their employment; and

WHEREAS effective employee-management cooperation in the public service requires a clear statement of the respective rights and obligations of employee organizations and agency management:

NOW, THEREFORE, by virtue of the authority vested in me by the Constitution of the United States, by section 1753 of the Revised Statutes (5 U.S.C. 631), and as President of the United States, I hereby direct that the following policies shall govern officers and agencies of the executive branch of the Government in all dealings with Federal employees and organizations representing such employees.

SECTION 1. (a) Employees of the Federal Government shall have, and shall be protected in the exercise of, the right, freely and without fear of penalty or reprisal, to form, join and assist any employee organization or to refrain from any such activity. Except as hereinafter expressly provided, the freedom of such employees to assist any employee organization shall be recognized as extending to participation in the management of the organization and acting for the organization in the capacity of an organization representative, including presentation of its views to officials of the executive branch, the Congress or other appropriate authority. The head of each executive department and agency (hereinafter referred to as "agency") shall take such action, consistent with law, as may be required in order to assure that employees in the agency are apprised of the rights described in this section, and that no interference, restraint, coercion or

discrimination is practiced within such agency to encourage or discourage membership in any employee organization.

(b) The rights described in this section do not extend to participation in the management of an employee organization, or acting as a representative of any such organization, where such participation or activity would result in a conflict of interest or otherwise be incompatible with law or with the official duties of an employee.

SEC. 2. When used in this order, the term "employee organization" means any lawful association, labor organization, federation, council, or brotherhood having as a primary purpose the improvement of working conditions among Federal employees, or any craft, trade or industrial union whose membership includes both Federal employees and employees of private organizations; but such term shall not include any organization (1) which asserts the right to strike against the Government of the United States or any agency thereof, or to assist or participate in any such strike, or which imposes a duty or obligation to conduct, assist or participate in any such strike, or (2) which advocates the overthrow of the constitutional form of Government in the United States, or (3) which discriminates with regard to the terms or conditions of membership because of race, color, creed or national origin.

SEC. 3. (a) Agencies shall accord informal, formal or exclusive recognition to employee organizations which request such recognition in conformity with the requirements specified in sections 4, 5 and 6 of this order, except that no recognition shall be accorded to any employee organization which the head of the agency considers to be so subject to corrupt influences or influences opposed to basic democratic principles that recognition would be inconsistent with the objectives of this order.

(b) Recognition of an employee organization shall continue so long as such organization satisfies the criteria of this order applicable to such recognition; but nothing in this section shall require any agency to determine whether an organization should become or continue to be recognized as exclusive representative of the employees in any unit within 12 months after a prior determination of exclusive status with respect to such unit has been made pursuant to the provisions of this order.

(c) Recognition, in whatever form accorded, shall not—

(1) preclude any employee, regardless of employee organization membership, from bringing matters of personal concern to the attention of appropriate officials in accordance with applicable law, rule, regulation, or established agency policy, or from choosing his own representative in a grievance or appellate action; or

(2) preclude or restrict consultations and dealings between an agency and any veterans organization with respect to matters of particular interest to employees with veterans preference; or

(3) preclude an agency from consulting or dealing with any religious, social, fraternal or other lawful association, not qualified as an employee organization, with respect to matters or policies which involve individual members of the association or are of particular applicability to it or its members, when such consultations or dealings are duly limited so as not to assume the character of formal consultation on matters of general employee-management policy or to extend to areas where recognition of the interests of one employee group may result in discrimination against or injury to the interests of other employees.

SEC. 4. (a) An agency shall accord an employee organization, which does not qualify for exclusive or formal recognition, informal recognition as representative of its member employees without regard to whether any other employee organization has been accorded formal or exclusive recognition as representative of some or all employees in any unit.

(b) When an employee organization has been informally recognized, it shall, to the extent consistent with the efficient and orderly conduct of the public business, be permitted to present to appropriate officials its views on matters of concern to its members. The agency need not, however, consult with an employee organization so recognized in the formulation of personnel or other policies with respect to such matters.

SEC. 5. (a) An agency shall accord an employee organization formal recognition as the representative of its members in a unit as defined by the agency when (1) no other employee organization is qualified for exclusive recognition as representative of employees in the unit, (2) it is determined by the agency that the employee organization has a substantial and stable membership of no less than 10 per centum of the employees in the unit, and (3) the employee organization has submitted to the agency a roster of its officers and representatives, a copy of its constitution and by-laws, and a statement of objectives. When, in the opinion of the head of an agency, an employee organization has a sufficient number of local organizations or a sufficient total membership within such agency, such organization may be accorded formal recognition at the national level, but such recognition shall not preclude the agency from dealing at the national level with any other employee organization on matters affecting its members.

(b) When an employee organization has been formally recognized, the agency, through appropriate officials, shall consult with such organization from time to time in the formulation and implementation of personnel policies and practices, and matters affecting working conditions that are of concern to its members. Any such organization shall be entitled from time to time to raise such matters for discussion with appropriate officials and at all times to present its views thereon in writing. In no case, however, shall an agency be required to consult with an employee organization which has been formally recognized with respect to any matter which, if the employee organization were one entitled to exclusive recognition, would not be included within the obligation to meet and confer, as described in section 6(b) of this order.

SEC. 6. (a) An agency shall recognize an employee organization as the exclusive representative of the employees, in an appropriate unit when such organization is eligible for formal recognition pursuant to section 5 of this order, and has been designated or selected by a majority of the employees of such unit as the representative of such employees in such unit. Units may be established on any plant or installation, craft, functional or other basis which will ensure a clear and identifiable community of interest among the employees concerned, but no unit shall be established solely on the basis of the extent to which employees in the proposed unit have organized. Except where otherwise required by established practice, prior agreement, or special circumstances, no unit shall be established for purposes of exclusive recognition which includes (1) any managerial executive, (2) any employee engaged in Federal personnel work in other than a purely clerical capacity, (3) both supervisors who officially evaluate the performance of employees and the employees whom they supervise, or (4) both professional employees and nonprofessional employees unless a majority of such professional employees vote for inclusion in such unit.

(b) When an employee organization has been recognized as the exclusive representative of employees of an appropriate unit it shall be entitled to act for and to negotiate agreements covering all employees in the unit and shall be responsible for representing the interests of all such employees without discrimination and without regard to employee organization membership. Such employee organization shall be given the opportunity to be represented at discussions between management and employees or employee representatives concerning grievances, personnel policies and practices, or other matters affecting general working conditions of employees in the unit. The agency and such employee organization, through appropriate officials and representatives, shall meet at reasonable times and confer with respect to personnel policy and practices and matters affecting working conditions, so far as may be appropriate subject to law and policy requirements. This extends to the negotiation of an agreement, or any question arising thereunder, the determination of appropriate techniques,

consistent with the terms and purposes of this order, to assist in such negotiation, and the execution of a written memorandum of agreement or understanding incorporating any agreement reached by the parties. In exercising authority to make rules and regulations relating to personnel policies and practices and working conditions, agencies shall have due regard for the obligation imposed by this section, but such obligation shall not be construed to extend to such areas of discretion and policy as the mission of an agency, its budget, its organization and the assignment of its personnel, or the technology of performing its work.

SEC. 7. Any basic or initial agreement entered into with an employee organization as the exclusive representative of employees in a unit must be approved by the head of the agency or an official designated by him. All agreements with such employee organizations shall also be subject to the following requirements, which shall be expressly stated in the initial or basic agreement and shall be applicable to all supplemental, implementing, subsidiary or informal agreements between the agency and the organization:

(1) In the administration of all matters covered by the agreement officials and employees are governed by the provisions of any existing or future laws and regulations, including policies set forth in the Federal Personnel Manual and agency regulations, which may be applicable, and the agreement shall at all times be applied subject to such laws, regulations and policies:

(2) Management officials of the agency retain the right, in accordance with applicable laws and regulations, (a) to direct employees of the agency, (b) to hire, promote, transfer, assign, and retain employees in positions within the agency, and to suspend, demote, discharge, or take other disciplinary action against employees, (c) to relieve employees from duties because of lack of work or for other legitimate reasons, (d) to maintain the efficiency of the Government operations entrusted to them, (e) to determine the methods, means and personnel by which such operations are to be conducted; and (f) to take whatever actions may be necessary to carry out the mission of the agency in situations of emergency.

SEC. 8. (a) Agreements entered into or negotiated in accordance with this order with an employee organization which is the exclusive representative of employees in an appropriate unit may contain provisions, applicable only to employees in the unit, concerning procedures for consideration of grievances. Such procedures (1) shall conform to standards issued by the Civil Service Commission, and (2) may not in any manner diminish or impair any rights which would otherwise be available to any employee in the absence of an agreement providing for such procedures.

(b) Procedures established by an agreement which are otherwise in conformity with this section may include provisions for the arbitration of grievances. Such arbitration (1) shall be advisory in nature with any decisions or recommendations subject to the approval of the agency head; (2) shall extend only to the interpretation or application of agreements or agency policy and not to changes in or proposed changes in agreements or agency policy; and (3) shall be invoked only with the approval of the individual employee or employees concerned.

SEC. 9. Solicitation of memberships, dues, or other internal employee organization business shall be conducted during the non-duty hours of the employees concerned. Officially requested or approved consultations and meetings between management officials and representatives of recognized employee organizations shall, whenever practicable, be conducted on official time, but any agency may require that negotiations with an employee organization which has been accorded exclusive recognition be conducted during the non-duty hours of the employee organization representatives involved in such negotiations.

SEC. 10. No later than July 1, 1962, the head of each agency shall issue appropriate policies, rules and regulations for the implementation of this order, including: A clear statement of the rights of its

employees under the order; policies and procedures with respect to recognition of employee organizations; procedures for determining appropriate employee units; policies and practices regarding consultation with representatives of employee organizations, other organizations and individual employees; and policies with respect to the use of agency facilities by employee organizations. Insofar as may be practicable and appropriate, agencies shall consult with representatives of employee organizations in the formulation of these policies, rules and regulations.

SEC. 11. Each agency shall be responsible for determining in accordance with this order whether a unit is appropriate for purposes of exclusive recognition and, by an election or other appropriate means, whether an employee organization represents a majority of the employees in such a unit so as to be entitled to such recognition. Upon the request of any agency, or of any employee organization which is seeking exclusive recognition and which qualifies for or has been accorded formal recognition, the Secretary of Labor, subject to such necessary rules as he may prescribe, shall nominate from the National Panel of Arbitrators maintained by the Federal Mediation and Conciliation Service one or more qualified arbitrators who will be available for employment by the agency concerned for either or both of the following purposes, as may be required: (1) to investigate the facts and issue an advisory decision as to the appropriateness of a unit for purposes of exclusive recognition and as to related issues submitted for consideration; (2) to conduct or supervise an election or otherwise determine by such means as may be appropriate, and on an advisory basis, whether an employee organization represents the majority of the employees in a unit. Consonant with law, the Secretary of Labor shall render such assistance as may be appropriate in connection with advisory decisions or determinations under this section, but the necessary costs of such assistance shall be paid by the agency to which it relates. In the event questions as to the appropriateness of a unit or the majority status of an employee organization shall arise in the Department of Labor, the duties described in this section which would otherwise be the responsibility of the Secretary of Labor shall be performed by the Civil Service Commission.

SEC. 12. The Civil Service Commission shall establish and maintain a program to assist in carrying out the objectives of this order. The Commission shall develop a program for the guidance of agencies in employee-management relations in the Federal service; provide technical advice to the agencies on employee-management programs; assist in the development of programs for training agency personnel in the principles and procedures of consultation, negotiation and the settlement of disputes in the Federal service, and for the training of management officials in the discharge of their employee-management relations responsibilities in the public interest; provide for continuous study and review of the Federal employee-management relations program and, from time to time, make recommendations to the President for its improvement.

SEC. 13. (a) The Civil Service Commission and the Department of Labor shall jointly prepare (1) proposed standards of conduct for employee organizations and (2) a proposed code of fair labor practices in employee-management relations in the Federal service appropriate to assist in securing the uniform and effective implementation of the policies, rights and responsibilities described in this order.

(b) There is hereby established the President's Temporary Committee on the Implementation of the Federal Employee-Management Relations Program. The Committee shall consist of the Secretary of Labor, who shall be chairman of the Committee, the Secretary of Defense, the Postmaster General, and the Chairman of the Civil Service Commission. In addition to such other matters relating to the implementation of this order as may be referred to it by the President, the Committee shall advise the President with respect to any problems arising out of completion of agreements pursuant to sections 6 and 7, and shall receive the proposed standards of conduct for employee organizations and proposed code of fair labor practices in the

Federal service, as described in this section, and report thereon to the President with such recommendations or amendments as it may deem appropriate. Consonant with law, the departments and agencies represented on the Committee shall, as may be necessary for the effectuation of this section, furnish assistance to the Committee in accordance with section 214 of the Act of May 3, 1945, 59 Stat. 134 (31 U.S.C. 691). Unless otherwise directed by the President, the Committee shall cease to exist 30 days after the date on which it submits its report to the President pursuant to this section.

SEC. 14. The head of each agency, in accordance with the provisions of this order and regulations prescribed by the Civil Service Commission, shall extend to all employees in the competitive civil service rights identical in adverse action cases to those provided preference eligibles under section 14 of the Veterans' Preference Act of 1944, as amended. Each employee in the competitive service shall have the right to appeal to the Civil Service Commission from an adverse decision of the administrative officer so acting, such appeal to be processed in an identical manner to that provided for appeals under section 14 of the Veterans' Preference Act. Any recommendation by the Civil Service Commission submitted to the head of an agency on the basis of an appeal by an employee in the competitive service shall be complied with by the head of the agency. This section shall become effective as to all adverse actions commenced by issuance of a notification of proposed action on or after July 1, 1962.

SEC. 15. Nothing in this order shall be construed to annul or modify, or to preclude the renewal or continuation of, any lawful agreement heretofore entered into between any agency and any representative of its employees. Nor shall this order preclude any agency from continuing to consult or deal with any representative of its employees or other organization prior to the time that the status and representation rights of such representative or organization are determined in conformity with this order.

SEC. 16. This order (except section 14) shall not apply to the Federal Bureau of Investigation, the Central Intelligence Agency, or any other agency, or to any office, bureau or entity within an agency, primarily performing intelligence, investigative, or security functions if the head of the agency determines that the provisions of this order cannot be applied in a manner consistent with national security requirements and considerations. When he deems it necessary in the national interest, and subject to such conditions as he may prescribe, the head of any agency may suspend any provision of this order (except section 14) with respect to any agency installation or activity which is located outside of the United States.

Approved—January 17th, 1962.

JOHN F. KENNEDY

THE WHITE HOUSE,
January 17, 1962.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 33—SPORT FISHING

Okefenokee National Wildlife Refuge, Georgia

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

GEORGIA

OKEFENOKEE NATIONAL WILDLIFE REFUGE

Sport fishing on the Okefenokee National Wildlife Refuge, Georgia, is permitted only on the areas designated by signs as open to fishing. This open area, comprising 825 acres or .25 percent of the total area of the refuge, is delineated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Peachtree-Seventh Building, Atlanta 23, Georgia. Sport fishing is subject to the following conditions:

(a) Species permitted to be taken: Largemouth black bass, bream, eastern pickerel, and other minor species as permitted by State regulations.

(b) Open season: January 15, 1962, through December 31, 1962. Daylight hours only.

(c) Daily creel limits:

1. Largemouth black bass, 15; Bream, 70; Eastern pickerel, 15.

Other minor species as permitted by State regulations.

2. Total aggregate not more than 75 fish in one day.

(d) Methods of fishing: Pole and line, rod and reel, artificial and live baits (except live minnows) permitted. Rowboats, boats with motors not larger than 10 h.p., canoes and other floating devices permitted in the designated fishing areas.

(e) Other provisions:

(1) The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33.

(2) Persons entering refuge from main access points must register with the respective concessionaire.

(3) Appropriate State licenses must be exhibited at the request of any authorized Federal or State officer.

(4) Fishing on designated areas may be closed by the refuge officer in charge during periods of wildlife concentrations if necessary to provide adequate protection.

(5) A Federal permit is not required to enter the public fishing area.

(6) The provisions of this special regulation are effective to January 1, 1963.

GEORGIA

PIEDMONT NATIONAL WILDLIFE REFUGE

Sport fishing on the Piedmont National Wildlife Refuge, Georgia, is permitted only on the areas designated by signs as open to fishing. This open area, comprising 4 acres or 0.0001 percent of the total area of the refuge, is delineated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Peachtree-Seventh Building, Atlanta 23, Georgia. Sport fishing is subject to the following conditions:

(a) Species permitted to be taken: Largemouth black bass, bream and other minor species permitted under State regulations.

(b) Open season: March 1, 1962, through October 31, 1962, during daylight hours only.

(c) Daily creel limits:

(1) Largemouth black bass, 15; Bream, 70.

Other species as permitted by State regulations.

(d) Methods of fishing: Pole and line, rod and reel, artificial and live baits (except live minnows) permitted. Rowboats, canoes and other floating devices permitted; boats with motors prohibited.

(e) Other provisions:

(1) The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33.

(2) A Federal permit is not required to enter the public fishing area.

(3) The provisions of this special regulation are effective to November 1, 1962.

W. L. TOWNS,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

[F.R. Doc. 62-624; Filed, Jan. 18, 1962; 8:49 a.m.]

PART 33—SPORT FISHING

Buffalo Lake National Wildlife Refuge, Texas

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

TEXAS

BUFFALO LAKE NATIONAL WILDLIFE REFUGE

Sport fishing on the Buffalo Lake National Wildlife Refuge, Texas, is permitted only on waters designated by signs as open to fishing. These open waters, comprising 2,358 acres and 37 percent of the total refuge area, are delineated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Albuquerque, New Mexico. Sport fishing is subject to the following conditions:

(a) Species permitted to be taken: Largemouth bass, channel catfish, crappie and other minor species permitted under State regulations.

(b) Open season: March 1, 1962, through October 31, 1962, all waters of the Buffalo Lake National Wildlife Refuge. January 15, 1962, through February 28, 1962, and November 1, 1962, through December 31, 1962, all waters lying north of a diagonal line extending across the lake from the northwest corner to the southeast corner of Survey 116. Also the east shore line, for bank fishing only, from the above-mentioned diagonal line on the east shore to the Tierra Blanca Creek at the west refuge boundary except that said shore line will be closed to fishing during the waterfowl hunting season in that part of Texas.

(c) Daily creel limits: Largemouth bass, 15; channel catfish, 15; crappie, no limit; plus other creel limits for minor species as are prescribed for State regulations.

(d) Methods of fishing:

(1) As prescribed by State regulations.

(e) Other provisions:

(1) The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33.

(2) A Federal permit is not required to enter the public fishing area.

(3) The provisions of this special regulation are effective January 15, 1962, through December 31, 1962.

Dated: January 9, 1962.

CAREY H. BENNETT,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

[F.R. Doc. 62-597; Filed, Jan. 18, 1962; 8:46 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter II—Civil Aeronautics Board

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. No. ER-545]

PART 202—TERMS, CONDITIONS AND LIMITATIONS OF CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY; INTERSTATE AND OVERSEAS ROUTE AIR TRANSPORTATION

Matters of Procedure and Administration Relating to Airport Authorizations and Service Pattern Changes

JANUARY 5, 1962.

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 5th day of January 1962.

A notice of proposed rule making was published in the FEDERAL REGISTER on August 5, 1961 (26 F.R. 7061) and circulated to the industry as Economic Regulations Docket 12868, dated July 31, 1961, proposing an amendment to Part 202 of the Board's Economic Regulations to clarify the administrative and procedural provisions of this part.

Interested persons have been afforded an opportunity to participate in the making of this amendment and due consideration has been given to all relevant matters presented. Though the comments received were generally in agreement with the amendment, some changes were suggested with respect to specific items proposed.

The Board adopts the suggestion that information required in airport notices be considered a minimum and that a carrier should be permitted to add more information if it so desires. Related suggestions that the notice should always include the facts relied upon by the air carrier and that no notice should become effective without a hearing were not adopted for the reasons that the application procedure calling for submission of an economic case by the air carrier would be invoked where any reasonable grounds therefor are present and that a hearing in every instance is not warranted.

In view of a question raised by a comment, another sentence has been added to § 202.3(a) explaining that the prohibition against carrying traffic between two airports serving the same point would not apply to through traffic which the air carrier performing the inter-airport service receives from, or transfers to, one of its own flights.

In response to a suggestion that applications need not reiterate information previously set forth in the notice, the Board finds that an application should be complete in itself and therefore retains the "full information" requirement.

Proposed § 202.3(c) called for elimination of service of airport notices on scheduled air carriers serving points intended to be served through the proposed airport. Since airport notices play an important part in such matters as schedule planning and establishment of through and connecting service, the Board has decided to retain the service requirement and add a suggested requirement that airport managers and air carriers serving either the currently used airport or the proposed airport be served.

The requirement for affidavits in §§ 202.3(b), 202.4(b), and 202.5(b) has been dropped in view of the penalty clause set forth in section 1001, Title 18, of the United States Code concerning false statements to any federal agency, which covers the respective submission to the Board.

The Board also adopts the suggestion that memoranda in response to airport notices and applications for permission to use an airport or for change in service pattern are to be served on all persons required by the rule to be served with said notices and applications. This will keep all interested persons cognizant of the status of such matters. Suggestions that air carriers be permitted to answer objections to airport notices and applications have not been adopted. As to notices, the Board would normally require an application to be filed where valid objections were raised to the notice; thus the decision to hold a hearing would be based upon the application rather than the notice. After an air carrier has received the objections to its notice and has filed an application with those objections in mind, allowing it to further reply to objections to the application would extend the procedure without serving any useful purpose in most instances.

The Board has extended the time limits for the filing of memoranda in support of, or opposition to, notices and applications as proposed in the notice, to fifteen days for memoranda in response to the notices and to twenty days for memoranda in response to the applications.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 202 of the Economic Regulations (14 CFR Part 202), effective February 16, 1962, by:

1. Amending the title to read "Part 202—Terms, Conditions and Limitations of Certificates of Public Convenience and Necessity; Interstate and Overseas Route Air Transportation."

2. Amending the opening text of § 202.1 to read:

§ 202.1 Applicability.

Unless a certificate or the order authorizing the issuance of such certificate shall otherwise provide, there shall be attached to the exercise of the privileges granted by each certificate (other than a certificate for supplemental air transportation) authorizing an air carrier * * * (remainder unchanged).

§ 202.2 [Amendment]

3. Amending § 202.2 by changing the reference to the Act from "section 405 (e)" to "section 405(b)."

4. Amending § 202.3 to read as follows:

§ 202.3 Airport authorization.

(a) *Airport notice.* An airport notice is required to be filed with the Board if the holder of a certificate desires to serve regularly a point named in such certificate, or a point which the holder is otherwise authorized to serve regularly, through an airport not then regularly used or authorized to be used by the holder to serve such point. Airport notices are not required of Alaskan air carriers, holders of certificates authorizing use of rotary wing aircraft only, and holders of certificates limited to community center service and interairport service. When an airport notice is required hereunder, the certificate holder shall file it with the Board at least 30 days prior to the proposed date of inauguration of the use of the airport. Such notice shall be conspicuously entitled Airport Notice; shall, as a minimum amount of information, describe such airport by name and, if it is not an airport already being used by an air carrier subject to the provisions of this part, state its location; shall state the

date of intended inauguration of service and whether a waiver of the 30-day notice provision is requested; and shall contain a notice to the persons served that they may, within 15 days of the date the notice was filed, file and serve memoranda in support of, or in opposition to, the notice. A recommended format of Airport Notice is set forth below as Appendix A. The use of such airport may be inaugurated 30 days after the filing of such notice, unless the Board notifies the holder within said 30-day period that it appears to the Board that such use may adversely affect the public interest, in which event such use shall not thereafter be inaugurated (except as may be expressly permitted by such notification from the Board) unless and until the Board finds, upon application filed by the holder, pursuant to paragraph (b) of this section, that the public interest would not be adversely affected by such use. The Board may permit the use of an airport at any time after the filing of the airport notice whenever the circumstances warrant such action. In no event shall the provisions of this section be construed as authorizing an air carrier to receive at one airport and discharge at any other airport serving the same point passengers or property moving locally between the two airports, or passengers or property moving as part of a through journey to or from some other point which such carrier receives from, or transfers to, another air carrier at one of the two airports. This prohibition does not apply to the carriage between airports of through traffic which the air carrier performing the interairport service receives from, or transfers to, one of its own flights.

(b) *Application for permission to use an airport.* Following notification by the Board that the use of an airport proposed in an airport notice may adversely affect the public interest, the air carrier may file an application for permission to use such airport. Such applications shall be conspicuously entitled "Application for Permission To Use the_____ _____ Airport for Serving _____" and shall set forth the information required in the airport notice as well as any other facts relied upon to establish that the proposed airport use is in the public interest, a statement of economic data or other matters which it is desired that the Board officially notice, and shall contain a notice to the persons served that they may, within 20 days of the date the application was filed, file and serve memoranda in support of, or in opposition to, the application.

(c) *Persons to be served.* A copy of each airport notice or application for permission to use an airport shall be served upon such persons as the Board may designate in a particular case, and shall be served upon the following persons in all cases:

(1) The Postmaster General, marked for attention of Assistant Postmaster General—Bureau of Transportation;

(2) Each scheduled air carrier which regularly renders service to or from the point intended to be served through either the currently used or proposed airport and the airport managers of said airports;

(3) The chief executives of the city (or other political subdivision) and of the State, in which are located the currently used airport, the proposed airport, and the point to be served, respectively. (If there be a state commission or agency having jurisdiction of transportation by air, notice shall be served on such commission or agency rather than on the chief executive of the State.)

§ 202.4 [Amendment]

5. Amending the second sentence of § 202.4(b) by replacing the period at the end thereof with a comma and adding the words: "a statement of economic data or other matters which it desired that the Board officially notice. The application shall also contain a notice to the persons served that they may, within twenty days of the date the application was filed, file and serve memoranda in support of, or in opposition to, the application."

6. Amending § 202.4(c)(1), by replacing the words "Second Assistant Postmaster General" by "Assistant Postmaster General—Bureau of Transportation."

7. Amending § 202.5 to read as follows:

§ 202.5 Filing and service of airport notices and applications for change in service pattern and permission to use an airport; procedure thereon.

(a) *Number of copies and certificate of service.* An original and three copies of each Airport Notice and an original and nineteen copies of each Application for Change in Service Pattern or application for permission to use an airport shall be filed with the Board, each setting forth the names and addresses of the persons required to be served and stating that service has been made on all such persons by personal service or by registered or certified mail, and the date of such service. In the case of service by mail, the date of mailing shall be considered the date of service. Each copy of a notice or application served pursuant to this part shall state that such service is made pursuant to this part.

(b) *Pleadings by interested persons.* Any interested person may file and serve upon the air carrier and those persons required by §§ 202.3 and 202.4 to be served with the airport notice or application for permission to use an airport or for change in service pattern, a memorandum in opposition to, or in support of, such notice or application within 15 days of the filing of airport notices and within 20 days of the filing of an application for permission to use an airport or change of service pattern. Such memoranda shall set forth in detail the reasons for the position therein taken, with a statement of economic data and other matters which it is desired that the Board shall officially notice. An executed original and three copies in the case of airport notices, nineteen copies in the case of applications for permission to use an airport or change of service pattern, shall be filed with the Docket Section of the Board. In the case of airport notices, such memoranda shall be marked for the attention of the Chief, Routes and Agreements Division. Unless ordered by the Board upon application or upon its own motion, further pleadings will not be entertained.

(c) *Petitions for reconsideration.* A petition for reconsideration of the Board's determination on an application for permission to use an airport or change in service pattern may be filed by any interested persons within ten days after the date thereof. Except for the date of filing, such petitions shall conform to the provisions of section 37 of Part 302 of the Procedural Regulations. Any interested person may file a memorandum in opposition to, or in support of the petition within ten days after it is filed. An executed original and nineteen copies of such petition for reconsideration or memorandum shall be filed with the Docket Section, and copies thereof shall be served upon the persons described in §§ 202.3(c) or 202.4(c), as the case may be. Unless ordered by the Board upon application or upon its own motion, further pleadings will not be entertained.

§ 202.6 [Amendment]

8. Amending § 202.6(c) by changing the word "gage" to read "gauge".

§ 202.7 [Amendment]

9. Amending § 202.7 by changing the reference to the Act from "section 401 (h)" to "section 401(g)".

§ 202.8 [Amendment]

10. Amending § 202.8(d) by changing the reference to the Act from "Civil Aeronautics Act" to "Federal Aviation Act."

(Sec. 204(a), 72 Stat. 743; 49 U.S.C. 1324. Interpret or apply secs. 403, 1001, 1002, 72 Stat. 758, 788, 790; 49 U.S.C. 1373, 1481, 1482)

NOTE: The reporting requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON, *Secretary.*

APPENDIX A

RECOMMENDED AIRPORT NOTICE FORM

Date_____

To: Chief, Routes and Agreements Division,
Bureau of Economic Regulation,
Civil Aeronautics Board,
Washington 25, D.C.

Re: Airport Notice filed pursuant to Part 202 of Economic Regulations.

DEAR SIR: Transmitted herewith are an original and three copies of this notice to advise that _____ (air carrier) intends to inaugurate service to the following points through the following airports:

Point _____
Airport _____
Service to be inaugurated on or after _____
Give exact longitude and latitude of the airport to be served _____
Indicate whether waiver of 30-day provision is requested _____

NOTICE: The regulations of the Civil Aeronautics Board provide that memoranda in support of or in opposition to this airport notice may be filed with the addressee above within 15 days of the date of filing hereof. Such memoranda shall be served on the applicant carrier and the persons on whom the notice has been served.

Chapter III—Federal Aviation Agency

SUBCHAPTER C—AIRCRAFT REGULATIONS

[Reg. Docket No. 962; Amdt. 389]

PART 507—AIRWORTHINESS DIRECTIVES

Boeing Models 707 and 720 Series Aircraft

A proposal to amend Part 507 of the regulations of the Administrator to include an airworthiness directive requiring modification of the secondary seals of the fuel dump chutes on Boeing 707 and 720 Series aircraft was published in 26 F.R. 10571.

Interested persons have been afforded an opportunity to participate in the making of the amendment. One comment was received, recommending the compliance time be at aircraft overhaul. The established overhaul period for Boeing 707 and 720 Series aircraft is 3,250 hours' time in service. Since the modification is one which could be most satisfactorily accomplished at an overhaul, the compliance provision contained in the notice has been revised accordingly.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 507.10(a) of Part 507 (14 CFR Part 507) is hereby amended by adding the following new airworthiness directive:

BOEING. Applies to Models 707 and 720 Series airplanes which have not previously been modified in accordance with Boeing Service Bulletin No. 1359, dated June 30, 1961 (Service Bulletin No. 1359 contains a list of such airplanes), and to Model 707 airplanes on which retractable dump chutes have been installed per Boeing Service Bulletin No. 1200.

Compliance required as indicated.

In order to prevent leakage through the secondary seal of the fuel dump chute when fuel is allowed to enter the manifold for any reason, the following modification shall be accomplished within 3,250 hours' time in service after the effective date of this directive:

Remove the secondary fuel seal assembly, Boeing P/N 66-2538, and rebuild, using new parts from Boeing kit, P/N 65-9566-1. Upon completion of the rebuilding, change the part number of secondary seal assembly to 69-16258-1. Use new "O" ring seal P/N MS29512-226 when installing secondary seal assembly, P/N 69-16258-1.

(Boeing Service Bulletin No. 1359, dated June 30, 1961, covers this modification.)

This amendment shall become effective February 20, 1962.

(Sec. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on January 15, 1962.

GEORGE C. PRILL, *Director, Flight Standards Service.*

[F.R. Doc. 62-587; Filed, Jan. 18, 1962; 8:45 a.m.]

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 62-WA-6]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Alteration of Federal Airway

The purpose of this amendment to § 600.6881 of the regulations of the Administrator is to alter VOR Federal airway No. 881, a preferred route between Cleveland, Ohio, and Miami, Fla.

Victor 881 is designated in part to coincide with a segment of VOR Federal airway No. 185 from Augusta, Ga., to Asheville, N.C., via Spartanburg, S.C. On December 9, 1961, an amendment to the regulations of the Administrator was published in the FEDERAL REGISTER (26 F.R. 11822) as Airspace Docket No. 61-FW-68. This amendment altered Victor 185 by realigning it from Augusta to Asheville via Greenwood, S.C., effective February 8, 1962. Since this segment of Victor 185 is a portion of a preferred route between Cleveland and Miami, action is taken herein to alter Victor 881 between Augusta and Asheville via the altered alignment of Victor 185.

Since this amendment is minor in nature, does not involve the assignment of additional airspace and imposes no burden on any person, notice and public procedure hereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective more than 30 days after publication.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), § 600.6881 (25 F.R. 8169) is amended as follows:

In the text "Spartanburg, S.C., VOR;" is deleted and "Greenwood, S.C., VOR;" is substituted therefor.

This amendment shall become effective 0001 e.s.t. March 8, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 15, 1962.

D. D. THOMAS, *Director, Air Traffic Service.*

[F.R. Doc. 62-588; Filed, Jan. 18, 1962; 8:45 a.m.]

[Airspace Docket No. 61-AN-5]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration of Federal Airway, Associated Control Areas and Reporting Points

On August 1, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 6859) stating that the Federal Aviation Agency proposed to alter VOR Federal airway No. 438 and its associated control areas, and to designate the Fielding and Glacier Intersections and the Fairbanks, Alaska, ILS localizer as low altitude VOR reporting points.

No comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated in the notice, the following actions are taken:

1. Section 600.6438 (26 F.R. 4488) is amended to read:

§ 600.6438 VOR Federal airway No. 438 (Shuyak, Alaska, to Fairbanks, Alaska).

From the Shuyak, Alaska, RBN via the Homer, Alaska, VOR; INT of the Homer VOR 027° and the Anchorage, Alaska, VOR 198° radials; Anchorage VOR; INT of the Anchorage VOR direct radial to the Nenana, Alaska, VOR and the SW course of the Fairbanks, Alaska, ILS localizer; to the Fairbanks ILS localizer, including a W alternate from the INT of the Anchorage VOR direct radial to the Nenana VOR with the SW course of the Fairbanks ILS localizer to the Fairbanks ILS localizer via the Nenana VOR, including the area within 16 miles either side of the centerline of the airway and its W alternate at and above 24,000 feet MSL from the Anchorage VOR to the Fairbanks ILS localizer. The portions of this airway which coincide with R-2203 and R-2206 are excluded. The portion of this airway which coincides with R-2201 shall be used only after obtaining prior approval from appropriate authority.

2. Section 601.6438 (14 CFR 601.6438, 26 F.R. 4488) is amended to read:

§ 601.6438 VOR Federal airway No. 438 control areas (Shuyak, Alaska, to Fairbanks, Alaska).

All of VOR Federal airway No. 438 including a W alternate.

§ 601.7001 [Amendment]

3. In § 601.7001 (14 CFR 601.7001) the following are added:

Fielding INT: INT of the Anchorage, Alaska, VOR 086° and the Talkeetna, Alaska, RBN 067° bearing.

Glacier INT: INT of the Nenana, Alaska, VOR 189° radial and the NW course of the Summit, Alaska, RR.

Fairbanks, Alaska, ILS localizer.

These amendments shall become effective 0001 e.s.t., March 8, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 15, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-589; Filed, Jan. 18, 1962; 8:45 a.m.]

[Airspace Docket No. 61-FW-93]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration of Federal Airways and Controlled Airspace

The purpose of these amendments to §§ 600.6035, 600.6157, 600.6843, 600.6881, 600.1519, 601.1013 and 601.1408 of the regulations of the Administrator is to provide for the relocation of the Fort Myers, Fla., VOR. The Fort Myers VOR is scheduled to be relocated to a new site on the Page Airport, Fort Myers, Fla., at Lat. 26°35'19" N., Long. 81°52'01" W. on or about March 8, 1962.

This move is necessary to improve the operation of the Fort Myers VOR as the present radials from 100° clockwise through 125° are not usable because of the extensive building of houses and associated power lines in the vicinity of the present VOR. Relocation of the Fort Myers VOR will require slight changes to the airways based on this VOR. Airways aligned direct between the Fort Myers VOR and other VORs will be altered slightly but no formal amendments will be required. Other airways will be altered as indicated below.

Alteration of the Miami, Fla., control area extension is made to provide continuity of the northern boundary of this control area extension with VOR Federal airway No. 35 since the relocation of the Fort Myers VOR and attendant alteration of Victor 35 would leave a gap in the controlled airspace along the northern boundary as presently designated.

A slight alteration would be made to the Fort Myers, Fla., control area extension to base this area on the appropriate radial of the relocated Fort Myers VOR. The size of the control area extension would be essentially the same. Implementation of the provisions of Amendment 60-21 to the Civil Air Regulations, Part 60, Air Traffic Rules is being deferred for the Miami and Fort Myers control area extensions. Upon completion of the review of controlled airspace requirements attendant to these provisions, separate airspace action will be initiated to convert these control area extensions to transition areas with appropriate controlled airspace floor assignments.

Since the changes effected by these amendments are minor in nature and will impose no additional burden on the public, notice and public procedure hereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, these amendments will become effective more than thirty days after publication.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), the following actions are taken:

1. In the text of § 600.6035 (14 CFR 600.6035) "Miami, Fla., omnirange; intersection of the Miami omnirange 269° and the Fort Myers omnirange 134° radials including a west alternate from the point of intersection of the Miami omnirange 153° radial and the Miami International Airport ILS localizer west course to the point of intersection of the Miami omnirange 269° and the Fort Myers omnirange 134° radials via the intersection of the Miami International Airport ILS localizer west course and the Fort Myers omnirange 134° radials; Fort Myers, Fla., VOR; St. Petersburg, Fla., VOR; Cross City, Fla., VOR including an east alternate from the point of intersection of the St. Petersburg VOR 153° radial" is deleted and "Miami, Fla., VORTAC; INT of the Miami VORTAC 269° and the Fort Myers, Fla., VOR 137° radials, including a W alternate from the point of INT of the Miami VORTAC 153° radial and the Miami International Airport ILS localizer W course to the point of INT of the Miami VORTAC 269° and the Fort Myers VOR 137° radials via the INT of the Miami International Airport ILS localizer W course and the Fort Myers VOR 137° radial; Fort Myers VOR; St. Petersburg, Fla., VOR; Cross City, Fla., VOR including an east alternate from the point of INT of the St. Petersburg VOR 151° radial" is substituted therefor.

2. In the text of § 600.6157 (14 CFR 600.6157, 26 F.R. 573, 1754, 2344, 3462, 6810) "La Belle, Fla., VOR including a west alternate from the point of INT of the Miami VOR 221° and the Fort Myers, Fla., VOR 134° radials via the point of INT of the Fort Myers VOR 134° and the La Belle VOR 162° radials to the La Belle, Fla., VOR;" is deleted and "La Belle, Fla., VOR including a W alternate from the point of INT of the Miami VORTAC 221° and the Fort Myers, Fla., VOR 137° radials via the point of INT of the Fort Myers VOR 137° and the La Belle VOR 162° radials to the La Belle VOR;" is substituted therefor.

3. In the text of § 600.6881 (26 F.R. 8169) "INT of the Fort Myers VOR 134°" is deleted and "INT of the Fort Myers VOR 137°" is substituted therefor.

4. In the text of § 600.6843 (26 F.R. 21) "INT of the Fort Myers VOR 134° True" is deleted and "INT of the Fort Myers VOR 137°" is substituted therefor.

5. In the text of § 600.1519 (26 F.R. 1079) "INT of the Fort Myers VOR 333° and the Lakeland, Fla., VOR 202° radials" is deleted and "INT of the Fort Myers VOR 331° and the Lakeland, Fla., VOR 202° radials" is substituted therefor.

6. In the text of § 601.1013 (26 F.R. 714) "220° True radial" is deleted and "215° True radial" is substituted therefor.

7. In the text of § 601.1408 (26 F.R. 7328) "Lat. 25°49'00" N., Long. 81°47'00" W., to Lat. 25°46'40" N., Long. 81°09'15" W." is deleted and "Lat. 25°48'55" N., Long. 81°45'00" W., to Lat. 25°46'35" N., Long. 81°08'15" W." is substituted therefor.

These amendments shall become effective 0001 e.s.t. March 8, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 15, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[Airspace Docket No. 61-FW-43]

PART 608—SPECIAL USE AIRSPACE

Alteration of Restricted Area

On September 19, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 8817), stating that the Federal Aviation Agency had under consideration a request by the Department of the Army to alter the Salinas, P.R., Restricted Area R-7103 as follows: increase the designated altitudes from 5,000 feet MSL to 12,000 feet MSL; increase the designated time of use to continuous, June 1 through August 31, and to sunrise to sunset on Saturdays and Sundays from September 1 through May 31; and to slightly alter the restricted area boundaries.

Although not mentioned in the notice, the Department of the Army has concurred in a further alteration of the northeast boundary of R-7103 to eliminate a slight overlap of Route 4 between the Ramey VOR and the Point Tuna Intersection. Such action is taken herein.

No objections were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated herein and in the notice, the following action is taken:

In § 608.71 (26 F.R. 7205) the following change is made:

R-7103 Salinas, P.R.

Boundaries. Beginning at Lat. 18°03'00" N., Long. 66°14'35" W.; to Lat. 18°01'16" N., Long. 66°15'14" W.; to Lat. 17°59'57" N., Long. 66°16'00" W.; to Lat. 17°59'16" N., Long. 66°17'11" W.; to Lat. 18°01'00" N., Long. 66°19'58" W.; to Lat. 18°01'53" N., Long. 66°18'53" W.; to Lat. 18°02'34" N., Long. 66°18'47" W.; to Lat. 18°08'25" N., Long. 66°17'54" W.; to Lat. 18°04'07" N., Long. 66°17'00" W.; to point of beginning.

Designated altitude. Surface to 12,000 feet MSL.

Time of designation. Continuous, June 1 through August 31; and sunrise to sunset, Saturday and Sunday, September 1 through May 31.

This amendment shall become effective 0001 e.s.t., March 8, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 15, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-591; Filed, Jan. 18, 1962; 8:46 a.m.]

[Airspace Docket No. 61-KC-27]

PART 608—SPECIAL USE AIRSPACE

Alteration of Restricted Area

On September 27, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 9091) stating that the Federal Aviation Agency was considering altering the time of designation of Upper Red Lake, Minn., Restricted Area R-4304 from "Sunrise to sunset, May 16, through October 14, and sunrise Saturday to sunset Sunday October 15, through May 15" to "0700 to 1700 c.s.t., May 1 through October 31".

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated in the notice, the following action is taken:

In § 608.43 *Minnesota*, R-4304 Upper Red Lake, Minn., (26 F.R. 7197), is amended by deleting "*Time of designation*, Sunrise to sunset, May 16 through October 14, and sunrise Saturday to sunset Sunday, October 15 through May 15." and substituting "*Time of designation*, 0700 to 1700 c.s.t., May 1 through October 31." therefor.

This amendment shall become effective 0001 e.s.t. April 5, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 15, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-592; Filed, Jan. 18, 1962; 8:46 a.m.]

[Airspace Docket No. 61-NY-22]

PART 608—SPECIAL USE AIRSPACE

Alteration of Restricted Area

On September 9, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 8951), stating that the Federal Aviation Agency has under consideration a request by the Department of Army to expand the southern boundary of the Camp Breckinridge, Ky., Restricted Area R-3701 to abut State Highway 56. Additionally, the time of designation of this restricted area would be altered to 0400 to 2400 c.s.t., daily, June 1 through August 31.

No objections were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated in the notice, the following action is taken:

In § 608.37 (26 F.R. 7194) the following change is made:

R-3701 Camp Breckinridge, Ky.

Boundaries. Beginning at latitude 37°42'-45" N., longitude 87°47'30" W.; to latitude 37°38'35" N., longitude 87°42'00" W.; to latitude 37°36'10" N., longitude 87°42'00" W.; along State Highway 56 to latitude 37°38'30" N., longitude 87°52'20" W.; to latitude 37°39'20" N., longitude 87°52'20" W.; to latitude 37°40'20" N., longitude 87°51'10" W.; to latitude 37°40'20" N., longitude 87°49'40" W.; to latitude 37°42'20" N., longitude 87°49'40" W.; to the point of beginning.

Designated altitudes. Surface to 20,000 feet MSL.

Time of designation. 0400 to 2400 c.s.t., June 1 through August 31.

Using agency. Commanding General, U.S. Army Armor Center, Fort Knox, Ky.

This amendment shall become effective 0001 e.s.t., March 8, 1962..

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 15, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-593; Filed, Jan. 18, 1962; 8:46 a.m.]

[Airspace Docket No. 61-NY-114]

PART 608—SPECIAL USE AIRSPACE

Modification of Restricted Area

The purpose of this amendment to § 608.52 of the regulations of the Administrator is to change the using agency of the Oswego, N.Y., Restricted Area R-5203. The activities conducted within this area are air to air gunnery and air to ground rocket firing.

The Department of the Air Force has requested a change in the using agency for Restricted Area R-5203 from "Commander, Air National Guard, Permanent Training Site, Hancock Field, Syracuse, N.Y." to "Commander, Air National Guard Base, Niagara Falls Municipal Airport, Niagara Falls, N.Y., Phone: Butler 5-6691, Extension 497". Such action is taken herein.

Since this amendment imposes no additional burden on the public, compliance with the notice, public procedure and effective date requirements of section 4 of the Administrative Procedure Act is unnecessary and it may be made effective immediately.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), the following action is taken:

In § 608.52 New York (26 F.R. 7199, 7962), the Oswego, N.Y., Restricted Area R-5203 is amended to read:

R-5203 Oswego, N.Y.

Boundaries. Beginning at latitude 43°-37'00" N., longitude 76°45'00" W.; to latitude 43°24'00" N., longitude 76°45'00" W.; to latitude 43°24'00" N., longitude 78°00'00" W.; to latitude 43°37'00" N., longitude 78°-00'00" W.; to the point of beginning.

Designated altitudes. Surface to flight level 320.

Time of designation. Sunrise to sunset.

Using agency. Commander, Air National Guard Base, Niagara Falls Municipal Airport, Niagara Falls, N.Y., Phone: Butler 5-6691, Extension 497.

This amendment shall become effective upon the date of publication in the FEDERAL REGISTER.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 15, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-594; Filed, Jan. 18, 1962; 8:46 a.m.]

[Airspace Docket No. 61-NY-116]

PART 608—SPECIAL USE AIRSPACE

Alteration of Restricted Area

The purpose of this amendment to § 608.41 of the regulations of the Administrator is to reduce the time of designation of the Nashawena, Mass., Restricted Area R-4104.

The Department of the Navy has advised that R-4104 will not be required during the period July 1 through September 30 annually. Therefore, action is taken herein to delete the current time of designation "0700 to 2400 e.s.t." and substitute therefor "0070 to 2400 e.s.t., October 1 through June 30 annually.".

Since this amendment reduces a burden on the public, compliance with the notice, public procedure, and effective date requirements of section 4 of the Administrative Procedure Act is unnecessary.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), § 608.41 Massachusetts (26 F.R. 7196) is amended as follows:

In R-4104 Nashawena, Mass., "*Time of designation.* 0700 to 2400 e.s.t." is deleted and "*Time of designation.* 0700 to 2400 e.s.t., October 1 through June 30 annually." is substituted therefor.

This amendment shall become effective upon date of publication in the FEDERAL REGISTER.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 15, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-595; Filed, Jan. 18, 1962; 8:46 a.m.]

[Reg. Docket No. 1006; Amdt. 252]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

The amendments to standard instrument approach procedures contained herein are being adopted to become effective when indicated in order to promote safety. The revised procedures supersede the existing procedures of the same classification now in effect for the airports specified therein. For the convenience of the users, the revised procedures specify the complete procedure and indicate the changes to the existing procedures.

As a situation exists which demands immediate action in the interests of safety in air commerce, I find that compliance with the notice, procedure and effective date provisions of section 4 of the Administrative Procedure Act would be contrary to the public interest and is therefore not required.

Pursuant to the authority delegated to me by the Administrator (24 F.R. 5662), Part 609 is amended as follows:

1. The low or medium frequency range procedures prescribed in § 609.100(a) are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots	

PROCEDURE CANCELLED, EFFECTIVE 20 JANUARY 1962.

City, Gustavus; State, Alaska; Airport Name, Gustavus; Elev., 28'; Fac. Class., SBRAZ; Ident., GST; Procedure No. 2, Amdt. 5; Eff. Date, 1 Oct. 55; Sup. Amdt. No. 4; Dated, 31 May 54

2. The automatic direction finding procedures prescribed in § 609.100(b) are amended to read:

ADF STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums

3. The very high frequency omnirange (VOR) procedures prescribed in § 609.100(c) are amended to read in part:

VOR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.
If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition From—	Transition To—	Course and distance	Minimum altitude (feet)	Ceiling and visibility minimums Condition	2-engine or less: 65 knots or less	2-engine or less: More than 65 knots	More than 2-engine, more than 65 knots

Procedure turn South side crs, 303° Outbnd, 123° Inbnd, 2300' within 10 miles.
Minimum altitude at glide slope interception inbnd, 2300'.
Altitude of glide slope and distance to appr end of runway at LOM, 2239'—4.5 mi; at LMM, 1060'—0.5 mi.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 4.5 miles after passing LOM, climb to 2500' on the ALO-VOR R-094 within 20 miles or, when directed by ATC, (1) climb to 2500' on the ALO-VOR R-141 within 20 miles, (2) climb to 2500' on SE crs of ILS within 10 miles.

City, Waterloo; State, Iowa; Airport Name, Waterloo Municipal; Elev., 870'; Fac. Class., ILS; Ident., I-ALO; Procedure No. ILS-12, Amdt. 1; Eff. Date, 20 Jan. 62; Sup. Amdt. No. Orig.; Dated, 10 Sept. 60

6. The radar procedures prescribed in § 609.500 are amended to read in part:

RADAR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.
If a radar instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the radar controller. From initial contact with radar to final authorized landing minimums, the instructions of the radar controller are mandatory except when (A) visual contact is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach, except when the radar controller may direct otherwise prior to final approach, a missed approach shall be executed as provided below when (A) communication on final approach is lost for more than 5 seconds during a precision approach, or for more than 30 seconds during a surveillance approach; (B) directed by radar controller; (C) visual contact is not established upon descent to authorized landing minimums; or (D) if landing is not accomplished.

Transition				Ceiling and visibility minimums

				A-dn	700-2	700-2	700-2

If visual contact not established upon descent to authorized landing minimums or if landing not accomplished, climb to 4000' on LGA-VOR R-046 to Stamford VHF Int cross Scarsdale VHF Int at 3000' or above. Hold NE Stamford Int one-minute left turns, inbnd crs 226°.
CAUTION: (1) Standard clearance not provided over obstructions in final approach area and in missed approach area. (2) Unlighted obstructions in approach zone (runway 4) protruding 40' above lights at beginning of approach lightlane decreasing to 10' above lights at 1100' from approach end of runway. (3) Tower 415' msl 3.8 mi SW, tower 390' msl 3.5 mi SW, building 968' msl 6.7 mi SW.
¢Takeoff minimums for Runways 4 and 31 will not be less than 200-1 during periods when tower advisories indicate presence of surface ships in channel.
*500-1 required with approach lights inoperative.
#AIR CARRIER NOTE: Sliding scale not authorized for landing on Runways 13, 31, and 22.

City, New York; State, N.Y.; Airport Name, LaGuardia; Elev., 20'; Fac. Class. and Ident., LaGuardia Radar; Procedure No. 1, Amdt. 10; Eff. Date, 20 Jan. 62; Sup. Amdt. No. 9; Dated, 11 Jan. 61

These procedures shall become effective on the dates specified therein.

(Secs. 313(a), 307(c), 72 Stat. 752, 749; 49 U.S.C. 1354(a), 1348(c))

Issued in Washington, D.C., on December 18, 1961.

G. S. MOORE,
Acting Director, Flight Standards Service.

[F.R. Doc. 62-23; Filed, Jan. 18, 1962; 8:45 a.m.]

[Reg. Docket No. 1016; Amdt. 253]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

The amendments to standard instrument approach procedures contained herein are being adopted to become effective when indicated in order to promote safety. The revised procedures supersede the existing procedures of the same classification now in effect for the airports specified therein. For the convenience of the users, the revised procedures specify the complete procedure and indicate the changes to the existing procedures.

As a situation exists which demands immediate action in the interests of safety in air commerce, I find that compliance with the notice, procedure and effective date provisions of section 4 of the Administrative Procedure Act would be contrary to the public interest and is therefore not required.

Pursuant to the authority delegated to me by the Administrator (24 F.R. 5662), Part 609 is amended as follows:

1. The low or medium frequency range procedures prescribed in § 609.100(a) are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots

4. The terminal very high frequency omnirange (TerVOR) procedures prescribed in § 609.200 are amended to read in part:

TERMINAL VOR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.
If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots	
				T–dn	300–1	300–1	200–½
				C–dn	500–1	500–1	500–1½

If visual contact not established upon descent to authorized landing minimums or if landing not accomplished, climb to 2600′ straight ahead, make right turn and proceed to Youngstown VOR. Hold North on R-005 YNG-VOR, 1-min. right turns, 185° inbnd at 2600′.

City, Youngstown; State, Ohio; Airport Name, Youngstown; Elev., 1196′; Fac. Class., ILS MHW; Ident., I-YNG IIBD; Procedure No. ILS-32, Amdt. 6; Eff. Date, 27 Jan. 62; Sup. Amdt. No. 5 (ILS portion comb. ILS-ADF); Dated, 23 Nov. 57

6. The radar procedures prescribed in § 609.500 are amended to read in part:

RADAR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.
If a radar instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the radar controller. From initial contact with radar to final antborired landing minimums, the instructions of the radar controller are mandatory except when (A) visual contact is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach, except when the radar controller may direct otherwise prior to final approach, a missed approach shall be executed as provided below when (A) communication on final approach is lost for more than 5 seconds during a precision approach, or for more than 30 seconds during a surveillance approach; (B) directed by radar controller; (C) visual contact is not established upon descent to authorized landing minimums; or (D) if landing is not accomplished.

If visual contact not established upon descent to authorized landing minimums or if landing not accomplished, Runways 23L, 23R, 27R, 27L, 14 and 18, climb to 2300′ and proceed to YIP LOM. Runways 5L, 5R, 9L, 36 and 32, climb to 2600′, proceed to SVM VOR on 170R or when directed by ATC, (1) climb to 2300′, proceed via W crs DTW LFR to the DTW LFR.
Aircraft executing missed approach may after being reidentified, be radar controlled.
#Surveillance approaches straight-in to runway 9R NA due to antenna location and ground clutter.
*Radar transitions in vicinity of 1240′ TWR 10 mi. W will be conducted at 2300′ within 3 mi. and 1800′ MSL within 3–5 mi. (inclusive).
**Runway visual range 2600′ authorized for take-off in lieu of 200–½ when 200–½ authorized providing high intensity runway lights are in satisfactory operating condition.
***Runway visual range 2600′ authorized for landing on Runwy 5R; provided that all components of the PAR, high-intensity runway lights, approach lights, condenser-discharge flashers, middle and outer compass locators and all related airborne equipment are operating satisfactorily. Descent below authorized landing minimum altitude of 916′ MSL shall not be made unless visual contact with the approach lights has been established or the aircraft is clear of clouds.

City, Detroit; State, Mich.; Airport Name, Willow Run; Elev., 716′; Fac. Class. and Ident, Willow Run Radar; Procedure No. 1, Amdt. 6; Eff. Date, 27 Jan. 62; Sup. Amdt No. 5; Dated, 2 Sept. 61

RADAR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If a radar instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the radar controller. From initial contact with radar to final authorized landing minimums, the instructions of the radar controller are mandatory except when (A) visual contact is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach, except when the radar controller may direct otherwise prior to final approach, a missed approach shall be executed as provided below when (A) communication on final approach is lost for more than 5 seconds during a precision approach, or for more than 30 seconds during a surveillance approach; (B) directed by radar controller; (C) visual contact is not established upon descent to authorized landing minimums; or (D) if landing is not accomplished.

Radar transitions and vectoring utilizing Portland Radar authorized in accordance with approved Radar patterns and sector altitudes.

If visual contact not established upon descent to authorized landing minimums or if landing not accomplished.

All runways: Climb to 2000' direct to PO-LFR or PDX-VOR or, when directed by ATC, Runway 10R: Climb to 2100' on crs 096° DX LMM within 10 miles; Runway 28R: Climb to 2300' on NW crs PDX ILS localizer 278° to Sauvies Island RBn.

*200-½ authorized on Runways 10R-L, 28R-L only. 700-2 required on Runway 20.

¶¶Runway visual range 2600' also authorized for landing on runway 10R; provided that all components of the PAR, high intensity runway lights, approach lights, condenser discharge flashers, middle and outer compass locators, and all related airborne equipment are in satisfactory operating condition. Descent below 223' MSL shall not be made unless visual contact with the approach lights has been established or the aircraft is clear of clouds.

§Runway visual range 2600' also authorized for takeoff on Runway 10R in lieu of 200-½ when 200-½ is authorized providing high intensity runway lights are operational.

‡CAUTION: 664' MSL terrain 1.8 mi SE of airport.

¶Minimum altitude over 3-mile radar fix inbnd on final, 900'.

City, Portland; State, Oreg.; Airport Name, Portland International; Elev., 23'; Fac. Class. and Ident., Portland Radar; Procedure No. 1, Amdt. 5; Eff. Date, 27 Jan. 62; Sup. Amdt. No. 4; Dated, 23 Sept. 61

These procedures shall become effective on the dates specified therein.

(Secs. 313(a), 307(c), 72 Stat. 752, 749; 49 U.S.C. 1354(a), 1348(c))

Issued in Washington, D.C., on December 22, 1961.

GEORGE C. PRILL,
Director, Flight Standards Service.

[F.R. Doc. 62-103; Filed, Jan. 18, 1962; 8:45 a.m.]

[Reg. Docket No. 1017; Amdt. 254]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

The amendments to standard instrument approach procedures contained herein are being adopted to become effective when indicated in order to promote safety. The revised procedures supersede the existing procedures of the same classification now in effect for the airports specified therein. For the convenience of the users, the revised procedures specify the complete procedure and indicate the changes to the existing procedures.

As a situation exists which demands immediate action in the interests of safety in air commerce, I find that compliance with the notice, procedure and effective date provisions of section 4 of the Administrative Procedure Act would be contrary to the public interest and is therefore not required.

Pursuant to the authority delegated to me by the Administrator (24 F.R. 5662), Part 609 is amended as follows:

1. The low or medium frequency range procedures prescribed in § 609.100(a) are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedures unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approach, shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots

6. The radar procedures prescribed in § 609.500 are amended to read in part:

RADAR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If a radar instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the radar controller. From initial contact with radar to final authorized landing minimums, the instructions of the radar controller are mandatory except when (A) visual contact is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach, except when the radar controller may direct otherwise prior to final approach, a missed approach shall be executed as provided below when (A) communication on final approach is lost for more than 5 seconds during a precision approach, or for more than 30 seconds during a surveillance approach; (B) directed by radar controller; (C) visual contact is not established upon descent to authorized landing minimums; or (D) if landing is not accomplished.

Radar terminal area maneuvering sectors and altitudes				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots

Title 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 2586]

[88222]

MONTANA

Additions to Montana Grazing District No. 4

By virtue of the authority vested in the Secretary of the Interior by the Act of June 28, 1934 (48 Stat. 1269; 43 U.S.C. 315, et seq.), as amended, it is ordered as follows:

1. The following-described lands are hereby added to and made a part of Montana Grazing District No. 4, as heretofore established and modified:

a. Those lands within the area known as the Buffalo Creek Land Use Adjustment Project (Mt–LU–23) all in Yellowstone County containing approximately 73,714.44 acres.

b. Those public domain lands all in Yellowstone County located within the following described area containing approximately 6,525.18 acres:

2. The lands in the Buffalo Creek Land Use Adjustment Project are among those, jurisdiction over which was transferred from the Department of Agriculture to the Department of the Interior for use, administration, or exchange under the Taylor Grazing Act (48 Stat. 1269) as amended, and other acts, by Executive Order No. 10787 of November 6, 1958.

Subject to the conditions and provisions of Executive Order No. 10787, jurisdiction over the lands, among others, was transferred to the Bureau of Land Management for use, administration, or exchange under the Taylor Grazing Act or under the general land management authority of the Secretary of the Interior, by Departmental Order No. 2843 of November 17, 1959.

JOHN A. CARVER, JR.,
Assistant Secretary of the Interior.

JANUARY 15, 1962.

[F.R. Doc. 62-600; Filed, Jan. 18, 1962; 8:47 a.m.]

Title 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 545—HOMEWORKERS IN THE FABRIC AND LEATHER GLOVE INDUSTRY; THE HANDKERCHIEF, SQUARE SCARF, AND ART LINEN INDUSTRY; THE CHILDREN'S DRESS AND RELATED PRODUCTS INDUSTRY; THE WOMEN'S AND CHILDREN'S UNDERWEAR AND WOMEN'S BLOUSE AND NECKWEAR INDUSTRY; THE NEEDLEWORK AND FABRICATED TEXTILE PRODUCTS INDUSTRY; AND THE SWEATER AND KNIT SWIMWEAR INDUSTRY IN PUERTO RICO

Minimum Piece Rate Increases

On December 7, 1961, a proposal to amend Schedule A and Schedule B of 29 CFR 545.13 was published in the FEDERAL REGISTER (26 F.R. 11735). Its purpose is to increase the piece rates appearing thereon commensurate with increases in the minimum hourly wage rates now applicable under the Fair Labor Standards Act of 1938 (29 U.S.C. 201) and the revised wage orders for the women's and children's underwear and women's blouse and neckwear industry in Puerto Rico (26 F.R. 10130), the handkerchief, square scarf, and art linen industry in Puerto Rico (26 F.R. 10130) and the children's dress and related products industry in Puerto Rico (26 F.R. 9819). The addition of new operations Nos. 21.1, 21.2, 22.2, and 22.3 were also proposed on the basis of production time studies conducted in Puerto Rico with a representative group of employees.

Interested persons were given 15 days in which to file written statements of data, views, or arguments in regard to these proposals. After consideration of all such relevant matter as was presented, I hereby adopt the proposals without change, effective February 19, 1962.

Signed at Washington, D.C., this 15th day of January 1962.

CLARENCE T. LUNDQUIST,
Administrator.

§ 545.13 Piece rates established in accordance with § 545.9.

SCHEDULE A—PIECE RATE SCHEDULE FOR THE WOMEN'S AND CHILDREN'S UNDERWEAR AND WOMEN'S BLOUSE AND NECKWEAR INDUSTRY AND THE CHILDREN'S DRESS AND RELATED PRODUCTS INDUSTRY IN PUERTO RICO [1]

176	First thread, inside, linen 1600 count and over, 16" x 16" to 20" x 20".	5.80	Do.
177	After first thread (for example, for hemstitching)	[5]	

[1] See current wage orders for these two industries for definitions of the industries and of the classifications of "hand-sewing", "hand-embroidery", and "other operations", and for applicable minimum hourly wage rates.

[2] Piece rate not applicable when operation is performed on articles which are wholly machine-sewn or machine-knit.

[3] These piece rates have been set on the basis of O.N.T. thread #5, corded, which averages 28 stitches per inch of solid cord. If corded threads are used which are not so thick, the rate should be increased in proportion to the increase in the number of stitches per inch. If corded thread #11 is used, 15 percent must be added to the piece rates established for thread #5.

[4] For each additional count of 100, add 1.16 cents.

[5] For second and third threads, 20 percent of rate for first threads; for additional threads, 15 percent of rate for first thread.

SCHEDULE B—PIECE RATE SCHEDULE FOR THE HANDKERCHIEF, SQUARE SCARF, AND ART LINEN INDUSTRY IN PUERTO RICO [1]—Continued

No.	Operation	Cents	Unit of payment
	Scallop cutting		
	Hand-cutting machine-embroidered, shallow, curved scallops on handkerchiefs or square scarves:		
187.4	Small, measuring from 3/16" up to but not including 5/8", along outside edge.	29.12	Per dozen scallops.
187.5	Medium, measuring from 5/8" up to but not including 7/8", along outside edge.	36.67	Do.
187.6	Large, measuring from 7/8" to and inclusive of 1¼", along outside edge.	55.00	Do.
	Needlepoint operations [4] [7]		
200	Compact florals, figures and landscapes	30.16	Per 1,000 stitches.
201	Scattered florals	32.48	Do.
202	Scattered florals consisting of borders or garlands only	34.80	Do.
203	Combinations of compact center and scattered borders in which the compact portion totals 45 percent or more of the total design.	32.48	Do.
204	Combinations of compact center and scattered borders in which the compact portion totals less than 45 percent of the entire design.	34.80	Do.
205	2.32 cents must be added to the above piece rates to cover thumbtack mounting on frame for each piece of canvas. Employers using other methods must set individual rates for mounting and removing canvas in accordance with section 545.10.		

[1] See current wage order for this industry for definition of the industry and of the classification of "hand-sewing" and "other operations", and for applicable minimum hourly wage rates.
[2] Piece rate not applicable when operation is performed on articles which are otherwise wholly machine-sewn.
[4] *Exceptions.* These piece rates do not apply to the following types of needlepoint. For these and all other varieties of needlepoint not covered by the schedule and definitions, piece rates must be set by employers in accordance with Regulation 545.10.
1. Florals having more than 10,000 stitches.
2. Florals having more than 36 color tones.
3. Figures and landscapes having more than 3,000 stitches.
4. Figures and landscapes having more than 25 color tones.
5. Petit Point.
6. Stamped grospoint.
[7] *Definitions.* (1) A scattered design is one in which 50 percent or more of the component parts, when finished, are separated by spaces of unsewn canvas. (2) A compact design is one in which 50 percent or more of the finished piece contains no spaces of unsewn canvas.

PART 728—WHEAT

Subpart—1962–63 Marketing Year

DETERMINATION OF COUNTY NORMAL YIELDS

Correction

In F.R. Doc. 61-12418, appearing at page 76 of the issue for Friday, January 5, 1962, the following corrections are made:

A. In the tabular material of §728.1208 (d):

1. At the top of the first column of page 81, the heading reading "South Dakota—Continued" should read "North Dakota—Continued".

2. Under "Virginia", the entry reading "Goodhue—24.2" should read "Gloucester—22.4".

3. Under "Wyoming", the listing for Teton County should read "30.8" instead of "30.3".

B. In the tabular material following the signature of the document: Under "Utah", the listings appearing under the heading "Summer fallow" should appear under the heading "Irrigated", and the listings appearing under the heading "Continuous cropping" should appear under the heading "Summer fallow". As corrected, there should be no listings appearing under the heading "Continuous cropping" for Utah.

Correction

In F.R. Doc. 62-371, appearing at page 335 of the issue for Friday, January 12, 1962, the following concurrence should appear at the end of the document, after the signature of Orville L. Freeman:

Concurred in for the Secretary of State:

EDWIN M. MARTIN,
Assistant Secretary.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 20—FROZEN DESSERTS; DEFINITIONS AND STANDARDS OF IDENTITY

Ice Cream, French Ice Cream; Effective Date of Order Amending Standard of Identity

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055; as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371) and in accordance with the authority delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education, and Welfare (25 F.R. 8625), notice is hereby given that no objections were filed to the order published in the FEDERAL REGISTER of December 6, 1961 (26 F.R. 11676) with regard to amending the standards of identity for ice cream and french ice cream to increase the factor by which the weight of chocolate or cocoa solids is multiplied from 1.5 to 2.5, to allow for additional sweetening ingredients. Accordingly, the amendment promulgated by that order will become effective February 4, 1962.

(Secs. 401, 701, 52 Stat. 1046, 1055; as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371)

Dated: January 15, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

PART 121—FOOD ADDITIVES

Subpart C—Food Additives Permitted in Animal Feed and Animal-Feed Supplements

METHYL ESTERS OF HIGHER FATTY ACIDS

Correction

In F.R. Doc. 61-11686, appearing at page 11828 of the issue for Saturday, December 9, 1961, the phrase "vegetable oil or tallow" appearing in § 121.224(a) should read "edible vegetable oil or tallow".

SUBCHAPTER C—DRUGS

PART 146b—CERTIFICATION OF STREPTOMYCIN (OR DIHYDROSTREPTOMYCIN) AND STREPTOMYCIN- (OR DIHYDROSTREPTOMYCIN-) CONTAINING DRUGS

Miscellaneous Amendments

Correction

In F.R. Doc. 62-450, appearing at page 443 of the issue for Tuesday, January 16, 1962, under item 2a: The opening words of § 146b.106(d)(2)(ii) should read "The streptomycin sulfate or dihydrostreptomycin sulfate • • •" instead of "The streptomycin or dihydrostreptomycin sulfate • • •".

Title 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 201—PROCEDURE OF THE POST OFFICE DEPARTMENT

Subpart K—Procedures Under the Employment Policy of the Post Office Department

In Part 201, as published in 26 F.R. 11654–11666, and amended by 26 F.R. 12771–12780, Subpart K is amended to read as follows:

§ 201.90 Employment policy.

(a) *Purpose and scope.* Executive Order 10925 of March 6, 1961, establishes The President's Committee on Equal Employment Opportunity and reaffirms Government policy with respect to the exclusion and prohibition of discrimination against any employee or applicant for employment in the Federal Government because of race, creed, color, or national origin. The Executive Order points out that discrimination because of race, creed, color, or national origin is contrary to the Constitutional principles and policies of the United States and that it is the policy of the Executive Branch of the Government to encourage by positive measures equal opportunity for all qualified persons within the Government. These regulations also apply to cases pending under Executive Order 10590, as amended, and regulations promulgated thereunder.

(b) *Authority.* These instructions issued in conformity with and under the authority of E.O. 10925, constitute the basic regulations to govern the administration of employment policies in the Post Office Department.

(c) *Designation of employment policy officer.* The Assistant Postmaster General, Bureau of Personnel, is designated as the Employment Policy Officer for the Post Office Department.

(d) *Duties of employment policy officer.* The Employment Policy Officer shall:

(1) Advise the Postmaster General with respect to the preparation of regulations, reports, and other matters dealing with the exclusion and prohibition of discrimination under E.O. 10925.

(2) Process complaints of alleged discrimination in personnel matters within the Post Office Department headquarters and field installations and make recommendations to appropriate administrative officials for such corrective measures as he may deem necessary.

(3) Appraise the personnel operations of the Post Office Department headquarters and field installations at regular intervals to assure their continuing conformity to the policy expressed in Executive Order 10925 of excluding and prohibiting discrimination.

(4) Institute prompt investigation of each complaint, and shall be responsible for developing a complete case record, including an adequate transcript or agreed summary of any hearing, sufficient to dispose of all relevant issues. Whenever necessary or appropriate for a full development of the case, the investigation shall include an appraisal of employment practices in the organizational segment or unit in which the alleged discrimination occurred.

(e) *Designation of Deputy Employment Policy Officers.* The following officials are designated as Deputy Employment Policy Officers for the indicated units:

Unit and Deputy Employment Policy Officer
All Field Installations: Special Assistant to Regional Director for Employee Relations, where authorized, otherwise Regional Director.
Inspection Service Field Organizations: Chief Postal Inspector.
Headquarters Organizations: Bureau or Office Head.

(f) *Complaints*—(1) *Right to file.* The right to file complaints without restraint, interference, coercion or reprisal is recognized.

(2) *Who may file.* Any aggrieved postal employee or qualified applicant for postal employment who believes he has been discriminated against because of race, creed, color, or national origin may file a written signed complaint. The complaint may be submitted by an authorized representative of the aggrieved individual, such authorization to be in writing.

(3) *Where to file.* Complaints may be filed with the Deputy Employment Policy Officer, the Employment Policy Officer, or with The President's Committee.

(4) *When to file.* Written signed complaints shall be filed within 90 days from the date of the alleged discrimination unless such time is extended by the Department or the Executive Vice Chairman of The President's Committee for good cause shown.

(5) *What to file.* Each complainant should file Form 1776, "Equal Employment Opportunity Complaint" in duplicate. Failure to submit this form will not preclude the right of the employee to file a complaint under these regulations.

(6) *Right to counsel.* Parties to proceedings under these regulations shall have the right to be accompanied, represented and advised by counsel, or by other qualified representatives.

(7) *Action to be taken by deputy employment policy officer*—(i) *Copy of complaint.* The Deputy Employment Policy Officer shall send promptly a copy of each complaint he receives to the Employment Policy Officer for transmittal to the Executive Vice Chairman of the Committee.

(ii) *Negotiation and informal settlement.* On cases filed with him or referred to him, the Deputy Employment Policy Officer shall take necessary steps to secure the facts and to develop a complete record of the case. This will include an interview with the complainant and with the persons against whom the

complaint is made. When necessary, the Deputy Employment Policy Officer may request the Employment Policy Officer to have an investigation conducted by the Postal Inspection Service. After he has the facts, if the Deputy Employment Policy Officer belives there is sufficient justification for the complaint to support an effort to dispose of the matter informally, or if it appears there is no basis for the complaint, an attempt should be made to resolve the matter by informal means.

(iii) *Hearing and conclusion.* (a) In any case not disposed of by informal means, the complainant shall be afforded an opportunity for an informal oral hearing before the Deputy Employment Policy Officer, or his designee (but in no case shall the investigating officer be the hearing officer), at a convenient time and place, provided request therefor is made within 10 days from the receipt of the proposed resolution. At such hearing, the installation shall produce any witnesses under its jurisdiction upon a showing satisfactory to the hearing officer of reasonable necessity therefor. Parties to the hearing shall have the right of confrontation and cross-examination as may be necessary to a development of the facts. Any request for the attendance of necessary witnesses shall be made in writing by the complainant at least 10 days prior to the date of the hearing. The complainant shall have the right to receive a concise and accurate summary of the facts pursuant to his complaint, and upon which the Deputy Employment Policy Officer relied in making his proposed resolution, together with a statement of the reasons for the Deputy Employment Policy Officer's resolution in denying the claim of the complainant. The Deputy Employment Policy Officer may, in lieu of a summary statement, make available to the complainant the entire investigative report of the agency. In cases in which the complainant or his agent is provided with such summary statement, the Executive Vice Chairman or his representative shall have the right, upon request, to examine the entire record in such a case, including all data gathered pursuant to investigation of the complaint.

(b) The hearing officer shall make his proposed findings and recommended conclusions on the basis of the record before him and submit his findings and conclusions to the Deputy Employment Policy Officer. The Deputy Employment Policy Officer, after consultation with the Regional Director, where appropriate, will render his decision to the complainant based upon the total record. The letter of decision shall contain a concise and accurate summary of the facts which were relied upon in reaching the decision, together with a statement of the reasons for denying the claim of the complainant.

(iv) *Transcript of testimony.* Where practicable, a transcript of the testimony shall be made. If a verbatim transcript is not practicable, a full summary of the testimony shall be made by the Hearing Officer, or if the complainant does not agree with the summary, he may note and sign his exceptions, which will become a part of the summary. The complainant shall be furnished a copy of the summary or transcript.

(8) *Appeal to employment policy officer.* If the decision of the Deputy Employment Policy Officer is not satisfactory to the complainant, he may appeal the decision to the Employment Policy Officer within 10 days of the date of the decision by the Deputy Employment Policy Officer, unless the Employment Policy Officer waives this time limitation for good cause. The Employment Policy Officer will make the final decision for the Department and notify the complainant and the Deputy Employment Policy Officer. The letter of decision shall contain a concise and accurate summary of the facts which were relied upon in reaching the decision, together with a statement of the reasons for denying the claim of the complainant.

(9) *Referral to President's Committee for advisory opinion.* The Employment Policy Officer, if he so desires, may refer a case to the Executive Vice Chairman of The President's Committee for study and recommendation after the Employment Policy Officer has formulated his findings and recommendations and prior to any decision by the Employment Policy Officer. Where such referral has been made, final decision by the Employment Policy Officer may be made only after receipt of the recommendations of the Executive Vice Chairman.

(10) *Submission by complainant to President's Committee for review.* If the decision of the Employment Policy Officer is not satisfactory to the complainant, he may request the Employment Policy Officer to send the case to the Executive Vice Chairman of The President's Committee for review. Such request must be made by the complainant within 30 days of the date of final action by the Employment Policy Officer, unless the Executive Vice Chairman waives this time limitation for good cause.

(g) *Processing of complaints*—(1) *Time limitation.* Within 30 days from receipt of a complaint by the Deputy Employment Policy Officer or Employment Policy Officer, or within such additional time as may be allowed by the Executive Vice Chairman for good cause shown, the complaint shall be processed and report submitted to the Executive Vice Chairman as required by subparagraph (3) of this paragraph. Where the complainant requests a hearing, the complaint shall be processed within 60 days. When necessary, the Employment Policy Officer will request the Executive Vice Chairman to allow additional time.

(2) *Delay on part of complainant.* Where the complainant fails to appear without good cause shown or fails within 60 days to furnish requested information, or to otherwise process his complaint such case may be closed.

(3) *Report of disposition of complaint.* The Employment Policy Officer shall submit to the Executive Vice Chairman of The President's Committee a report of the final disposition of each written complaint filed under the Executive Order. The report shall contain the following:

(i) A copy of the complete case record, if requested by the Executive Vice Chairman.

(ii) A summary of the complete case record, which shall include the following:

(a) The name and address of the complainant.

(b) The date on which the complaint was filed with or referred to the Department, and, where the complaint was filed with the Department, the name and title of the officer with whom filed.

(c) A summary of the complaint indicating the specific type or types of discrimination alleged.

(d) A summary of the results of any appraisal of employment practices and the significant facts disclosed by the investigation and any hearing.

(e) A statement describing disposition of the complaint. If the complaint was withdrawn, the reason for withdrawal should be included.

(f) The date of the disposition of the complaint.

(4) *Report by Deputy Employment Policy Officer.* Deputy Employment Policy Officers will submit disposition reports to the Employment Policy Officer, in duplicate, in conformity with the format outlined in paragraph (g) (3) of this section.

(R.S. 161, as amended; 5 U.S.C. 22, 39 U.S.C. 309, 501. E.O. 10925, 26 F.R. 1977)

LOUIS J. DOYLE,
General Counsel.

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 11—INDUSTRIAL RADIO SERVICES

Definitions

The Commission having under consideration the need of amending the list of definitions of terms in use in Part 11 of its Rules; and

It appearing, that, by its Second Memorandum Opinion and Order in Docket 13928, released October 25, 1961 (FCC 61-1235), the Commission amended Part 2, inter alia, to make the definitions of terms therein conform to those adopted in Geneva Radio Regulation (1959), and that Part 11 should be amended to conform to Part 2 in that respect, and to make certain other adjustments of an editorial nature; and

It further appearing, that, the amendments ordered herein are editorial in nature, hence the notice, procedural and effective date provisions of section 4 of the Administrative Procedures Act are not applicable; and

It further appearing, that, the amendments adopted herein are issued pursuant to authority contained in sections 4(i) and 303 of the Communications Act of 1934, as amended, and section 0.341(a) of the Commission's Statement of Organization, Delegations of Authority and Other Information;

It is ordered, This 16th day of January 1962, that effective January 22, 1962, § 11.3 Part 11, is amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U.S.C. 303)

Released: January 16, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

Section 11.3 is revised to read:

§ 11.3 Definitions.

For the purpose of this part, the following definitions shall be applicable. For other definitions, refer to Part 2 of this chapter, Frequency Allocations and Treaty Matters; General Rules and Regulations:

Antenna structures. The term "antenna structures" includes the radiating system, its supporting structures and any surmounting appurtenances.

Assigned frequency. The frequency appearing on a station authorization, from which the carrier frequency may deviate by an amount not to exceed that permitted by the frequency tolerance.

Authorized bandwidth. The frequency band, specified in kilocycles and centered on the carrier frequency containing those frequencies upon which a total of 99 percent of the radiated power appears, extended to include any discrete frequency upon which the power is at least 0.25 percent of the total radiated power.

Base station. See Land Station, this section.

Carrier frequency. The frequency of the carrier.

Control station. An Operational Fixed Station, the transmissions of which are used to control automatically the emissions or operation of another radio station at a specified location.

Duplex operation. Operating method in which transmission is possible simultaneously in both directions.

Fixed relay station. An Operational Fixed Station in the fixed service, established to receive radio signals directed to it from any source and to retransmit them automatically on a fixed service frequency for reception at one or more fixed points.

Fixed service. A service of radiocommunication between specified fixed points.

Harmful interference. Any emission, radiation or induction which endangers the functioning of a radionavigation service or of other safety services or seriously degrades, obstructs, or repeatedly interrupts a radiocommunication service operating in accordance with this chapter.

Industrial, scientific and medical equipment (ISM). Devices which use radio waves for industrial, scientific, medical, or any other purposes including the transfer of energy by radio and which are neither used nor intended to be used for radiocommunication.

Landing area. A landing area means any locality, either of land or water, including airports and intermediate landing fields, which is used, or approved for use for the landing and take-off of aircraft whether or not facilities are provided for the shelter, servicing, or repair of aircraft, or for receiving or discharging passengers or cargo. Aeronautical facilities not in existence at the time of filing of an application for radio facilities will be given consideration only when proposed airport construction or improvement plans are on file with the Federal Aviation Agency as of the filing date of the application for such radio facilities.

Land station. A station in the mobile service not intended to be used while in motion. (Of the various types of land stations, only the Base Station is pertinent to this part, and the term will be used interchangeably with the term Land Station.)

Mobile relay station. A Base Station in the mobile service, authorized primarily to retransmit automatically on a mobile service frequency communications originated by mobile stations.

Mobile service. A service of radiocommunication between mobile and land stations, or between mobile stations.

Mobile station. A station in the mobile service intended to be used while in motion or during halts at unspecified points. (For purposes of this part, the term includes hand-carried and pack-carried units.)

Operational fixed station. A Fixed Station not open to public correspondence, operated by and for the sole use of those agencies operating their own radiocommunication facilities in the Public Safety, Industrial, Land Transportation, Aviation or Marine Services. (This term includes all stations licensed in the fixed service under this part.)

Person. An individual, partnership, association, joint stock company, trust, or corporation.

Public correspondence. Any telecommunication which the offices and stations must, by reason of their being at the disposal of the public, accept for transmission.

Radiocommunication. Telecommunication by means of radio waves.

Radiodetermination. The determination of position, or the obtaining of information relating to position, by means of the propagation properties of radio waves.

Radiolocation. Radiodetermination used for purposes other than those of radionavigation.

Radiolocation land station. A station in the radiolocation service not intended to be used while in motion.

Radiolocation mobile station. A station in the radiolocation service intended to be used while in motion or during halts at unspecified points.

Radiolocation service. A radiodetermination service involving the use of radiolocation.

Radionavigation. Radiodetermination used for the purposes of navigation, including obstruction warning.

Radio Service. An administrative subdivision of the field of radiocommunication. In an engineering sense, the subdivisions may be made according to the method of operation, as, for example, mobile service and fixed service. In a regulatory sense, the subdivisions may be descriptive of particular groups of licensees, as, for example, the groups of persons licensed under this part.

Safety service. A radiocommunication service used permanently or temporarily for the safeguarding of human life and property.

Signaling. Intermittent or periodic transmission (excluding radiotelephony or any type of Morse code) of intelligence by means of prearranged tones, impulses, or combinations thereof, designed to actuate a mechanism at the point of reception.

Simplex Operation. Operating method in which transmission is made possible alternately in each direction, for example, by means of manual control.

Standard Metropolitan Area. Any or all of the areas within the continental limits of the United States described and enumerated as Standard Metropolitan Areas in the U.S. Census of Population, 1950; Vol. I, Number of Inhabitants; Chapter 1, U.S. Summary; Bureau of the Census, United States Department of Commerce. (The Standard Metropolitan Areas in the United States are listed in that publication in Table 26, beginning on page 1-66.) The publication is sold by the U.S. Government Printing Office, Washington 25, D.C.

Station authorization. Any construction permit, license, or special temporary authorization issued by the Commission.

Telemetering. The use of telecommunication for automatically indicating or recording measurements at a distance from the measuring instrument.

[Docket No. AO-275-A7]

MILK IN INLAND EMPIRE MARKETING AREA

Notice of Extension of Time for Filing Exceptions to Recommended Decision on Proposed Amendments to Tentative Marketing Agreement and to Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given that the time for filing exceptions to the recommended decision with respect to the proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Inland Empire marketing area, which was issued December 22, 1961 (26 F.R. 12611), is hereby extended to January 19, 1962.

Dated: Washington, D.C., January 15, 1962.

JAMES T. RALPH,
Assistant Secretary.

Food and Drug Administration

[21 CFR Part 19]

CREAM CHEESE

Notice of Proposal to Amend Standard of Identity

Notice is given that a petition has been filed by Kraft Foods Division of National Dairy Products Corporation, 500 Peshtigo Court, Chicago 90, Illinois, setting forth a proposed amendment to the definition and standard of identity for cream cheese (21 CFR 19.515).

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371) and under the authority delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education, and Welfare (25 F.R. 8625), all interested persons are hereby invited to present their views in writing regarding the proposal published in this notice. Such views and comments should be submitted in quintuplicate, addressed to the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., prior to the thirtieth day following the date of publication of this notice in the FEDERAL REGISTER.

It is proposed that in § 19.515 *Cream cheese; identity; label statement of optional ingredients* paragraph (b)(2) be amended by inserting the words "guar gum" after the words "carob bean gum".

This will have the effect of permitting guar gum to be used in cream cheese, subject to the same limit on quantity (solids of the guar gum not to exceed 0.5 percent of the weight of the finished cream cheese) and the same provision for label declaration as a "vegetable gum" which the standard prescribes for gum karaya, gum tragacanth, and carob bean gum in paragraph (c).

Dated: January 12, 1962.

CIVIL AERONAUTICS BOARD

[14 CFR Part 302]

[Docket No. 13305]

RULES OF PRACTICE IN ECONOMIC PROCEEDINGS

Supplemental Notice of Proposed Rule Making

JANUARY 15, 1962.

The Board, in 26 F.R. 12623 and by circulation of a notice of proposed rule making, PDR-17, dated December 21, 1961, gave notice that it had under consideration the adoption of a proposed amendment to Part 302 of the rules of practice which would establish special rules prescribing a standardized cost method for proceedings concerned with changes in the authorized operations of certain local service air carriers.

In its notice the Board requested interested parties to submit such comments as they may desire not later than January 26, 1962. Request has been received to extend the date for such comments for at least 45 days because of the need for analysis of the proposal by an economic consultant. The undersigned, acting under authority duly delegated to him by the Board, finds that good cause has been shown for a lesser extension than requested and that it will be in the public interest to allow an additional 28 days for the filing of comments.

Therefore, pursuant to the authority delegated under section 7.3 C of Public Notice PN 15 and redelegated under section 7.6 thereof, the undersigned hereby extends the date for comments on PDR-17 until February 23, 1962. All relevant matter in communications received on or before February 23, 1962, will be considered by the Board before taking final action on the proposed amendments to Part 302. Copies of such communications will be available for examination by interested persons in the Docket Section of the Board, Room 711, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., upon receipt thereof.

(Secs. 204(a) and 1001 of the Federal Aviation Act, 72 Stat. 743, 788; 49 U.S.C. 1324, 1481)

SMALL BUSINESS ADMINISTRATION

[13 CFR Part 107]

SMALL BUSINESS INVESTMENT COMPANIES

Proposals, License Applications; Notice of Proposed Rule Making

Notice is hereby given that pursuant to authority contained in section 308 of the Small Business Investment Act of 1958, Pub. Law 85-699, 72 Stat. 694, as amended, it is proposed to amend, as set forth below, §§ 107.102(g)(1), 107.201 (a) and (b), and 107.202(a) of Part 107 of Subchapter B, Chapter I of Title 13 of the Code of Federal Regulations, as revised in 26 F.R. 8232-8242. Prior to the final adoption of such amendment, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in triplicate, to the Small Business Investment Division, Small Business Administration, Washington 25, D.C., within a period of twenty-one days of the date of this notice in the FEDERAL REGISTER.

Information. The amendments now under consideration emphasize and provide expressly that neither the submission of a proposal nor the issuance of a notice under § 107.102(g)(1) of the regulations, nor the submission of a License Application affects the statutory discretion of SBA to issue or not to issue a company a License.

It is proposed to amend the Small Business Investment Company Regulations as follows:

1. Delete the following language from § 107.102(g)(1): "and SBA shall be committed by said approval to issue a license if the terms and conditions of the approved proposal are completed;". As amended, § 107.102(g)(1) reads as follows:

§ 107.102 Proposal.

* * * * *

(g) After consideration of a Proposal SBA shall notify the Proponents, either:

(1) That the Proponents may proceed with all action necessary to qualify the Proposed Operator for execution and submission of a License Application; which action shall be completed and a License Application submitted by the Proposed Operator within 90 days from the date of said notice from SBA, unless such period is extended by SBA; or

2. Delete paragraphs (a) and (b) of § 107.201 and substitute in lieu thereof the following:

§ 107.201 License Application.

(a) A License Application may be submitted upon SBA Form No. 415[2] by the Proposed Operator only after issuance by SBA of the notice referred to under § 107.102(g)(1) and in accordance with instructions issued by SBA, including instructions contained in such notice. Such License Application shall be submitted within 90 days after issuance of said notice.

(b) Within 180 days after submission of a License Application SBA will give due regard, among other things, to the need for financing of small business concerns in the area in which the Proposed Operator intends to commence business, the general character of the proposed management of the Proposed Operator, and the number of existing Licensees and the volume of their operations, and after consideration of all relevant factors, will in its discretion either issue a License to the Proposed Operator or notify the Proposed Operator that after consideration of all relevant factors the SBA will not issue a License to the Proposed Operator.

3. Delete § 107.202(a) and substitute in lieu thereof the following:

§ 107.202 Prerequisites for issuance of License.

Prior to the issuance of a License, each Proposed Operator shall have:

(a) Executed and submitted a License Application, including such additional information, statements and representations as may be otherwise required by SBA.

Dated: January 15, 1962.

JOHN E. HORNE,
Administrator.

[F.R. Doc. 62-625; Filed, Jan. 18, 1962; 8:49 a.m.]

[2] Filed with the Federal Register Office as part of the original document. Copies of SBA Form 415, License Application, together with instructions, are available at the office of the Deputy Administrator, Investment Division, Small Business Administration, 811 Vermont Avenue NW., Washington 25, D.C., and at all Regional Offices of the Small Business Administration, the addresses of which offices may be obtained from the office of the Deputy Administrator, Investment Division, Small Business Administration, 811 Vermont Avenue NW., Washington 25, D.C.

TELEPHONE CABLE FROM CANADA

Fair Value Determination

JANUARY 12, 1962.

A complaint was received that paper-insulated, lead-covered telephone cable from Canada was being sold in the United States at less than fair value within the meaning of the Antidumping Act of 1921.

I hereby determine that paper-insulated, lead-covered telephone cable from Canada is not being, nor likely to be, sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)).

Statement of reasons. The complaint in this case was specifically against sales to a United States military department. Because the entry of the cable is effected under 10 U.S.C. 2383, the merchandise is entirely free of import duties, including any duty which might apply pursuant to the Antidumping Act of 1921. By virtue of the implementation of the United States-Canada Production and Development Sharing Program the Buy American Act does not apply. Duty, including possible dumping duty, is not an applicable factor in evaluating bids submitted under the Armed Forces Procurement Regulations by Canadian interests.

Available facts pertaining to sales in the United States of the subject merchandise to purchasers other than the United States Government, did not indicate sales, or a likelihood of sales, at less than fair value.

Since there could be no effective application of the Antidumping Act under the circumstances in this case, relative to United States Government importations, it was determined that a full-scale investigation was not warranted.

This determination and the statement of reasons therefor are published pursuant to section 201(c) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(c)).

[SEAL] JAMES A. REED,
Assistant Secretary of the Treasury.

[F.R. Doc. 62-618; Filed, Jan. 18, 1962; 8:47 a.m.]

[Dept. Circular; Public Debt Series—No. 1–62]

4 PERCENT TREASURY BONDS OF 1969

Offering of Bonds; Additional Issue

JANUARY 15, 1962.

I. *Offering of bonds.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions, at 99.75 percent of their face value and accrued interest, from the people of the United States for bonds of the United States, designated 4 percent Treasury Bonds of 1969. The amount of the offering under this circular is $1,000,000,000, or thereabouts. In addition to the amount offered for public subscription, the Secretary of the Treasury reserves the right to allot up to $100,000,000 of these bonds to Government Investment Accounts. The books will be open only on January 15, 1962, for the receipt of subscriptions for this issue.

II. *Description of bonds.* 1. The bonds now offered will be an addition to and will form a part of the series of 4 percent Treasury Bonds of 1969 issued pursuant to Department Circulars Nos. 996, 1024 and 1056, dated September 16, 1957, March 23, 1959, and November 18, 1960, respectively, will be freely interchangeable therewith, and are identical in all respects therewith except that interest on the bonds to be issued under this circular will accrue from January 24, 1962. Subject to the provision for the accrual of interest from January 24, 1962, on the bonds now offered, the bonds are described in the following quotation from Department Circular No. 996:

1. The bonds will be dated October 1, 1957, and will bear interest from that date at the rate of 4 percent per annum, payable semi-annually on April 1 and October 1 in each year until the principal amount becomes payable. They will mature October 1, 1969, and will not be subject to call for redemption prior to maturity.

2. The income derived from the bonds is subject to all taxes imposed under the Internal Revenue Code of 1954. The bonds are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The bonds will be acceptable to secure deposits of public moneys.

4. Bearer bonds with interest coupons attached, and bonds registered as to principal and interest, will be issued in denominations of $500, $1,000, $5,000, $10,000, $100,000 and $1,000,000. Provision will be made for the interchange of bonds of different denominations and of coupon and registered bonds, and for the transfer of registered bonds, under rules and regulations prescribed by the Secretary of the Treasury.

5. Any bonds issued hereunder which upon the death of the owner constitute part of his estate, will be redeemed at the option of the duly constituted representatives of the deceased owner's estate, at par and accrued interest to date of payment: [1] *Provided:*

(a) That the bonds were actually owned by the decedent at the time of his death; and

(b) That the Secretary of the Treasury be authorized to apply the entire proceeds of redemption to the payment of Federal estate taxes.

Registered bonds submitted for redemption hereunder must be duly assigned to "The Secretary of the Treasury for redemption, the proceeds to be paid to the District Director of Internal Revenue at _____ for credit on Federal estate taxes due from estate of _____." Owing to the periodic closing of the transfer books and the impossibility of stopping payment of interest to the registered owner during the closed period, registered bonds received after the closing of the books for payment during such closed period will be paid only at par with a deduction of interest from the date of payment to the next interest payment date; [2] bonds received during the closed period for payment at a date after the books reopen will be paid at par plus accrued interest from the reopening of the books to the date of payment. In either case checks for the full six months' interest due on the last day of the closed period will be forwarded to the owner in due course. All bonds submitted must be accompanied by form PD 1782,[3] properly completed, signed and sworn to, and by proof of the representatives' authority in the form of a court certificate or a certified copy of the representatives' letters of appointment issued by the court. The certificate, or the certification to the letters, must be under the seal of the court, and except in the case of a corporate representative, must contain a statement that the appointment is in full force and be dated within six months prior to the submission of the bonds, unless the certificate or letters show that the appointment was made within one year immediately prior to such submission. Upon payment of the bonds appropriate memorandum receipt will be forwarded to the representatives, which will be followed in due course by formal receipt from the District Director of Internal Revenue.

6. The bonds will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States bonds.

III. *Subscription and allotment.* 1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Office of the Treasurer of the United States, Washington. Only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies. Commercial banks, which for this purpose are defined as banks accepting demand deposits, may submit subscriptions for account of customers provided the names of the customers are set forth in such subscriptions. Others than commercial banks will not be permitted to enter subscriptions except for their own account. Subscriptions from commercial banks for their own account will be restricted in each case to an amount not exceeding 5 percent of the combined amount of time and savings deposits, including time certificates of deposit, or 15 percent of the combined capital, surplus and undivided profits, of the subscribing bank, whichever is greater. Subscriptions from banking institutions generally for their own account and from States, political subdivisions or instrumentalities thereof, public pension and retirement and other public funds, and dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, will be received without deposit. Subscriptions from all others must be accompanied by payment of 25 percent of the amount of bonds applied for, not subject to withdrawal until after allotment. Following allotment, any portion of the 25 percent payment in excess of 25 percent of the amount of bonds allotted may be released upon the request of the subscribers.

2. All subscribers are required to agree not to purchase or to sell, or to make any agreements with respect to the purchase or sale or other disposition of any bonds of this additional issue, until after midnight January 15, 1962.

3. Commercial banks in submitting subscriptions will be required to certify that they have no beneficial interest in any of the subscriptions they enter for the account of their customers, and that their customers have no beneficial interest in the banks' subscriptions for their own account.

4. The Secretary of the Treasury reserves the right to reject or reduce any subscription, to allot less than the amount of bonds applied for, and to make different percentage allotments to various classes of subscribers; and any action he may take in these respects shall be final. The basis of the allotment will be publicly announced, and allotment notices will be sent out promptly upon allotment.

IV. *Payment.* 1. Payment at 99.75 percent of their face value and accrued interest from October 1, 1961, to January 24, 1962 ($12.63736 per $1,000), for bonds allotted hereunder must be made or completed on or before January 24, 1962, or on later allotment. The total amount of such payment will be $1,010.13736 per $1,000 face amount of bonds allotted. In every case where payment is not so completed, the payment with application up to 25 percent of the amount of bonds allotted shall, upon declaration made by the Secretary of the Treasury in his discretion, be forfeited to the United States. Any qualified depositary will be permitted to make payment by credit in its Treasury Tax and Loan Account for bonds allotted to it for itself and its customers up to any amount for which it shall be qualified in excess of existing deposits, when so notified by the Federal Reserve Bank of its district.

V. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective districts, to issue allotment notices, to receive payment for bonds allotted, to make delivery of bonds on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive bonds.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

[SEAL] DOUGLAS DILLON,
Secretary of the Treasury.

[F.R. Doc. 62–619; Filed, Jan. 18, 1962; 8:48 a.m.]

[1] An exact half-year's interest is computed for each full half-year period irrespective of the actual number of days in the half year. For a fractional part of any half year, computation is on the basis of the actual number of days in such half year.

[2] The transfer books are closed from March 2 to April 1 and from September 2 to October 1 (both dates inclusive) in each year.

[3] Copies of Form PD 1782 may be obtained from any Federal Reserve Bank or from the Treasury Department, Washington, D.C.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Group No. 459]

CALIFORNIA

Notice of Filing of Plats of Survey

JANUARY 12, 1962.

1. Plats of survey of the lands described below will be officially filed in the Land Office, Riverside, California, effective at 10:00 a.m., January 25, 1962.

SAN BERNARDINO MERIDIAN

T. 9 S., R. 21 E.,
Sec. 25, lots 2, 4, 5, 6, and 7.
The area described aggregates 202.50 acres.
T. 15 S., R. 24 E.,
Sec. 16, lots 2 and 3, SW¼SW¼;
Sec. 17, lots 5 to 13, inclusive;
Sec. 19, lots 8 to 12, inclusive;
Sec. 20, all;
Sec. 21, lots 1 to 6, inclusive, W½SW¼, SE¼SW¼;
Sec. 28, lots 1 to 9, inclusive;
Sec. 29, all;
Sec. 30, lots 9 to 16, inclusive;
Sec. 31, lots 5 to 8, inclusive, NE¼NE¼;
Sec. 32, lots 1 to 4, inclusive, N½NW¼.
The area described aggregates 3103.53 acres.

2. Except for and subject to valid existing rights, it is presumed that title to the following land passed to the State of California upon acceptance of the abovementioned plat of survey.

SAN BERNARDINO MERIDIAN

T. 15 S., R. 24 E.,
Sec. 16, lots 2 and 3, SW¼SW¼.
The area described aggregates 90.33 acres.

3. The following described lands are withdrawn by Departmental Order of October 16, 1931 ("F" of October 20, 1931) under the provisions of the Act of June 17, 1902 (32 Stat. 388):

T. 15 S., R. 24 E.,
Sec. 16, lots 2 and 3, SW¼SW¼;
Sec. 17, lots 5 to 13, inclusive;
Sec. 19, lots 8 to 12, inclusive;
Sec. 20, all;
Sec. 21, lots 1 to 6, inclusive, W½SW¼, SE¼SW¼;
Sec. 28, lots 1 to 9, inclusive;
Sec. 29, all;
Sec. 30, lots 9 to 16, inclusive;
Sec. 31, lots 5 to 8, inclusive, NE¼NE¼;
Sec. 32, lots 1 to 4, inclusive, N½NW¼.
The area described aggregates 3103.53 acres.

4. The following described lands are withdrawn by Departmental Order of February 19, 1929 ("F" of February 25, 1929) and included in First Form Reclamation withdrawal, Colorado River Storage Project under the provisions of section 3 of the Act of June 17, 1902 (32 Stat. 388):

T. 9 S., R. 21 E.,
Sec. 25, lots 2, 4, 5, 6, and 7.
The area described aggregates 202.50 acres.

5. The public lands affected by this order are hereby restored to the operation of the public land laws, subject to any valid existing rights, the provisions of existing withdrawals, and the requirements of applicable laws, rules, and regulations.

6. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their application, setting forth all facts relevant to their claims.

7. Inquiries concerning these lands should be addressed to the Manager, Land Office, Bureau of Land Management, 1414 8th Street, P.O. Box 723, Riverside, California.

OLIVER W. JOHNSON, JR.,
Acting Manager,
Riverside Land Office.

BONNEVILLE POWER ADMINISTRATION

Disposition of Power From Certain Projects; Related Matters

SEC. 1. *Designation as marketing agent.* The Bonneville Power Administrator (hereinafter called the "Administrator") is designated as the agent to market surplus electric power and energy generated at the following Federal projects in the Pacific Northwest: Bonneville Project; Columbia Basin Project, including the reserved power and energy made available pursuant to section 7(c) of the Coulee Dam Community Act of 1957 (71 Stat. 524); Hungry Horse Project; Chandler Power

Plant, Kennewick Division, Yakima Project; Roza Power Plant, Roza Division, Yakima Project; and all projects now or hereafter constructed in the drainage basin of the Columbia River and its tributaries and in all other river basins, except the Rogue River Basin, which drain into the Pacific Ocean in the states of Washington and Oregon, for which the Secretary of the Interior is authorized to market power pursuant to section 5 of the act of December 22, 1944 (58 Stat. 887), or section 2 of the act of March 2, 1945 (59 Stat. 10). In addition, the Administrator is designated as the marketing agent for power purchased by him pursuant to the act of July 27, 1954 (68 Stat. 573), or any other authority. The Administrator may exercise such of the authority vested in the Secretary of the Interior by any act or executive order applicable to the marketing of the surplus electric energy referred to in this order as may be necessary or appropriate for carrying out the program functions assigned to the Administrator.

SEC. 2. *Integration and interconnection.* The Administrator shall, consistent with applicable statutes, executive orders, and directives of the Secretary: (a) Integrate the power facilities of all projects for which he is the power marketing agent: *Provided*, That nothing in this order should be construed as conferring authority to operate power-producing facilities of such projects; (b) interconnect such power facilities with other power projects or systems and exchange electric energy with and purchase and sell electric energy from and to such projects or systems; (c) sell or dispose of all electric energy in accordance with the policies of the act of August 20, 1937 (50 Stat. 731), as amended, the act of December 22, 1944 (58 Stat. 887), and, with respect to projects subject thereto, the Federal Reclamation laws or any other applicable statute; and (d) enter into contracts for a period of years for the purpose of transmitting power generated by non-Federal entities in the area described in section 1 of this order to points within such area. In marketing power produced through the integrated operation of the generating projects for which he is designated the marketing agent, the Administrator may exercise any of the functions vested in him with respect to any project.

SEC. 3. *Power contracts.* The Administrator may, subject to applicable statutes, executive orders, and directives of the Secretary, enter into contracts for the sale or disposition of electric power and energy in the performance of the functions assigned by this order. Contracts or agreements for the sale or disposition of electric energy shall contain such terms as are necessary to protect fully the public interest, to implement the power policies of the Department, and to assure that electric energy be made available to the ultimate consumer at the lowest possible rates consistent with sound business principles.

SEC. 4. *Investigations, studies, and research.* The Administrator shall, either independently or in cooperation with other Federal or non-Federal agencies, make or assist in such surveys, investigations, studies, and informational reports as he determines to be necessary or appropriate (a) for or relating to the interconnection of the Columbia River power system with other power or storage projects or systems in adjacent regions of the United States or Canada and the exchange of electric energy therewith; (b) for the development and integration of additional sources of electric energy, whether hydro, thermal, or nuclear, for coordination with the Columbia River power system or for increasing the supplies of firm power that can be made available from the projects referred to in section 1 of this order; (c) for promoting or assisting the development of new outlets for or increased uses of electric energy available for disposition by him; and (d) for carrying out the responsibilities assigned to him. He shall undertake or participate with other agencies in (a) the gathering and dissemination of basic data necessary for achieving the most economical development and widespread distribution of the available or potential power resources of the Pacific Northwest; and (b) such engineering, research, developmental, and demonstrational work as he deems necessary or appropriate to promote the most efficient and economical use of the transmission facilities in the Pacific Northwest or the most widespread use of electric energy. He shall participate with other agencies in the multi-purpose comprehensive planning for the development of the water and related land resources of the Pacific Northwest and in studies and research on matters pertaining to such development which affect or are affected by the development of the power resources of that region.

SEC. 5. *Redelegation.* The Administrator may, in writing, redelegate to officers and employees of the Bonneville Power Administration any of the authority granted by this order and he may authorize written redelegation of such authority.

SEC. 6. *Revocation.* Order No. 2753 as amended (19 F.R. 2145; 22 F.R. 1090, 4169, 9196; 23 F.R. 9789) is hereby revoked.

(Sec. 2, Reorganization Plan No. 3 of 1950; 5 U.S.C. 113z-15, note)

JAMES K. CARR,
Acting Secretary of the Interior.

JANUARY 12, 1962.

FEDERAL AVIATION AGENCY

GENERAL SAFETY DISTRICT OFFICE AT CHARLESTON, W. VA.

Notice of Closing

Notice is hereby given that on or about March 1, 1962, the General Safety District Office in Charleston, West Virginia, will be closed. Services to the general aviation public of West Virginia, formerly provided by this office, will be rendered by the General Safety District Office in Pittsburgh, Pennsylvania. Those counties within Virginia and Kentucky formerly under the jurisdiction of the Charleston office will be served by the General Safety District Offices in Richmond, Virginia, and Louisville, Kentucky, respectively.

(Sec. 313(a), 72 Stat. 752, 49 U.S.C. 1354)

Issued in Washington, D.C., on January 15, 1962.

N. E. HALABY,
Administrator.

DEPARTMENT OF AGRICULTURE

Agricultural Research Service

IDENTIFICATION OF CARCASSES OF CERTAIN HUMANELY SLAUGHTERED LIVESTOCK

Change in List of Establishments

Pursuant to section 4 of the Act of August 27, 1958 (7 U.S.C. 1904) and the statement of policy thereunder in 9 CFR 181.1, the list of establishments operated under Federal inspection pursuant to the Meat Inspection Act (21 U.S.C. 71 et seq.) which use humane methods of slaughter and incidental handling of livestock, published as a notice in 27 F.R. 18 on January 3, 1962, is hereby amended as follows:

1. The reference to Siegel Weller Packing Co., Establishment 153, and the reference to cattle with respect to said establishment are deleted.

2. The reference to Central Packing Co., Inc., Establishment 208, and the reference to cattle with respect to said establishment are deleted.

Done at Washington, D.C., this 15th day of January 1962.

C. H. PALS,
Director, Meat Inspection Division, Agricultural Research Service.

[F.R. Doc. 62-607; Filed, Jan. 18, 1962; 8:47 a.m.]

IDENTIFICATION OF CARCASSES OF CERTAIN HUMANELY SLAUGHTERED LIVESTOCK

Supplemental List of Humane Slaughterers

Pursuant to section 4 of the Act of August 27, 1958 (7 U.S.C. 1904) and the statement of policy thereunder in 9 CFR 181.1 the following table lists additional establishments operated under Federal inspection under the Meat Inspection Act (21 U.S.C. 71 et seq.) which have been officially reported as humanely slaughtering and handling the species of livestock respectively designated for such establishments in the table. This list supplements the list previously published under the Act (27 F.R. 18) for December and represents those establishments and species which were reported too late to be included in the earlier list or which have come into compliance with respect to species indicated since the completion of the reports on which the earlier list was based. The establishment number given with the name of the establishment is branded on each carcass of livestock inspected at that establishment. The table should not be understood to indicate that all species of livestock slaughtered at a listed establishment are slaughtered and handled by humane methods unless all species are listed for that establishment in the table. Nor should the table be understood to indicate that the affiliates of any listed establishment use only humane methods:

Agricultural Stabilization and Conservation Service

MILK MARKETING ORDERS DIVISION; VARIOUS OFFICIALS

Delegation of Authority

Pursuant to the Authority delegated to the undersigned (26 F.R. 8820, 26 F.R. 7812, 26 F.R. 7796, 7 CFR Part 900), authority is hereby delegated to the various market administrators of Federal milk orders and to the various marketing specialists of the Milk Marketing Orders Division charged with the responsibility of representing the Director of said Division in the respective areas, to perform the functions of the Administrator prescribed by the General Regulations in § 900.4 (b) and (c) (7 CFR Part 900, 26 F.R. 7796), as follows:

(1) Except in the case of a new program pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), the various market administrators of Federal milk orders, in respect to a hearing regarding an order administered by him, shall mail a true copy of the notice of hearing to each of the persons known to him to be interested in the hearing, based upon records available to the market administrator in the respective area, as required by the general regulations in § 900.4(b)(1)(ii) (7 CFR Part 900, 26 F.R. 7796), and execute the determination as therein prescribed.

(2) In the case of new programs and programs in operation pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), the various marketing specialists of the Milk Marketing Orders Division, charged with the responsibility of representing the Director of said Division in connection with hearing regarding proposed milk orders or amendments to existing milk orders, with respect to which a notice of hearing has been issued, shall, except as notification has been given pursuant to Paragraph (1) above, mail a true copy of the notice of hearing to each of the persons known to such representatives to be interested in such hearings as required by the general regulations in § 900.4(b)(1)(ii) (7 CFR Part 900, 26 F.R. 7796), and execute the determination as therein prescribed.

(3) If for any reason, any person assigned functions hereunder, finds it impractical or impossible to give the notice involved with respect to any hearing, he shall immediately notify the Director of such facts with the reasons for his so finding in order that a decision may be made as to the need for a determination being filed in the proceeding as prescribed in § 900.4(c) of said regulations (7 CFR Part 900, 26 F.R. 7796).

Done at Washington, D.C., this 16th day of January 1962, to become effective immediately.

H. L. FOREST,
Director, Milk Marketing Orders Division, Agricultural Stabilization and Conservation Service.

ATOMIC ENERGY COMMISSION

[Docket No. RM-150-2]

STATE OF CALIFORNIA

Proposed Agreement for Assumption of Certain AEC Regulatory Authority

Notice is hereby given that the U.S. Atomic Energy Commission is publishing for public comment, prior to action thereon, a proposed agreement received from the Governor of the State of California for the assumption of certain of the Commission regulatory authority pursuant to section 274 of the Atomic Energy Act of 1954, as amended.

A summary of the California program submitted to the Commission is set forth below as Appendix A to this notice. A copy of the complete text of the California program, including proposed California regulations, is available for public inspection in the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., or may be obtained by writing to the Director, Office of Radiation Standards, United States Atomic Energy Commission, Washington 25, D.C. All interested persons desiring to submit comments and suggestions for the consideration of the Commission in connection with the proposed agreement should send them in triplicate to the Secretary, U.S. Atomic Energy Commission, Wash-

ington 25, D.C., within 30 days after initial publication in the FEDERAL REGISTER.

Exemptions from the Commission's regulatory authority which would implement this proposed agreement, as well as other agreements which may be entered into under section 274 of the Atomic Energy Act, as amended, were published as proposed Part 150 to the Commission's regulations in FEDERAL REGISTER issuances of Sept. 29, 1961; Oct. 6, 1961; Oct. 13, 1961; Oct. 20, 1961; 26 F.R. 9174, 9428, 9678, 9873. In reviewing this proposed agreement, interested persons should also consider the aforementioned proposed exemptions, which the Commission still has under consideration.

Dated at Germantown, Md., this 9th day of January 1962.

For the Atomic Energy Commission.

WOODFORD B. MCCOOL,
Secretary.

Agreement Proposed by the State of California Pursuant to Section 274 of the Atomic Energy Act of 1954, as amended, for the Assumption of Certain of the AEC's Regulatory Authority

Whereas, the United States Atomic Energy Commission (hereinafter referred to as the Commission) is authorized under section 274b. of the Atomic Energy Act of 1954, as amended, to enter into an agreement with the Governor of any State providing for discontinuance of the regulatory authority of the Commission under Chapters 6, 7, and 8 and section 161 of that Act with respect to any or all of the following materials within the State; namely, byproduct materials, source materials, and special nuclear materials in quantities not sufficient to form a critical mass (hereinafter referred to as agreement materials); and

Whereas, the Governor of the State of California (hereinafter referred to as the State) is authorized under section 25830 of the California Health and Safety Code to enter into such an agreement, which agreement shall become effective when ratified by the State Legislature; and

Whereas, the Governor of the State has certified on December 15, 1961, that the State has a program for the control of radiation hazards adequate to protect the public health and safety with respect to agreement materials within the State, and that the State desires to assume the regulatory responsibility discontinued by the Commission for such materials; and

Whereas, the Commission has found on ---------- that the State program is compatible with the Commission's program for the regulation of agreement materials, and that the State program is adequate to protect the public health and safety with respect to such materials; and

Whereas, the Commission and the State recognize the desirability and importance of maintaining compatibility between their respective programs for the control of agreement materials with respect to public health and safety; and

Whereas, the Commission and the State agree that reciprocal recognition of licenses issued by the Commission and by all States which enter into agreements with the Commission similar to this agreement (hereinafter referred to as agreement States) is of great importance for the development of the uses of agreement materials and that such reciprocal recognition must be based upon continuing compatibility of the programs of the Commission and such States for the control of agreement materials;

Now, therefore, it is hereby agreed between the Commission and the Governor of the State, acting in behalf of the State, as follows:

Article I. For purposes of this agreement:

A. "Byproduct materials," "critical mass," and "ocean or sea" have the meanings given to such terms in Part 150 of the Commission's regulations in effect on the ratification date of this agreement.

B. "Source material," "special nuclear material," "production facility," and "utilization facility" have the meanings given to such terms in those parts of the Commission's regulations that are incorporated by reference in Part 150 and that are in effect on the ratification date.

C. "Ratification date" means the date on which the California Legislature transmits to the Governor for signature a bill ratifying this agreement.

Article II. Subject to the exceptions stated in Article III, the Commission shall discontinue, as of the effective date of this agreement, the regulatory authority of the Commission under Chapters 6, 7, and 8 and section 161 of the Atomic Energy Act of 1954, as amended, with respect to the following materials within the State:

A. Byproduct materials;

B. Source materials;

C. Special nuclear materials in quantities such that the amount authorized for possession at any one time under any one license is not sufficient to form a critical mass.

Article III. This agreement does not provide for discontinuance of any Commission responsibility and authority with respect to regulation of:

A. The construction and operation of any production or utilization facility;

B. The export from or import into the United States of byproduct, source, or special nuclear material, or of any production or utilization facility;

C. The disposal into the ocean or sea of byproduct, source, or special nuclear waste materials;

D. The disposal of such other byproduct, source, or special nuclear material as the Commission determines by regulation or order should, because of the hazards or potential hazards thereof, not be so disposed of without a license from the Commission.

Article IV. Notwithstanding this agreement, the Commission is authorized:

A. By rule, regulation, or order to require that the manufacturer, processor, or producer of any equipment, device, commodity, or other product containing source, byproduct, or special nuclear material shall not transfer possession or control of such product except pursuant to a license issued by the Commission; and

B. To issue rules, regulations, or orders under subsection 161 b. or i. of the Atomic Energy Act of 1954, as amended, to protect the common defense and security, to protect restricted data, or to guard against the loss or diversion of special nuclear material.

Article V. Each party to this agreement will:

A. Use its best efforts to maintain compatibility between its program for the control of agreement materials and the programs of the other party and of other agreement States. To this end, each party will consult with the other and with all agreement States prior to any modification of its regulations for the control of agreement materials and will seek to arrive at a common solution of differences, to be incorporated insofar as practicable into the regulations of both parties and all agreement States concurrently.

B. Provide for reciprocal recognition of licenses for agreement materials issued by the other party or by any agreement State, subject to such conditions as to duration of such recognition of each license, reporting of information, and compliance with regulations as are deemed necessary to protect the health and safety of the public. Such recognition is conditioned upon the continuance of program compatibility in accordance with paragraph A of this article.

Article VI. This agreement, upon acceptance by the Commission and the Governor of the State and ratification by law of the State, shall become effective on July 1, 1962.

Article VII. The Commission, upon its own initiative, after reasonable notice and opportunity for hearing to the State, or upon request of the Governor of the State, may terminate or suspend this agreement and reassert the licensing and regulatory authority vested in it under the Atomic Energy Act of 1954, as amended, if the Commission finds that such termination or suspension is required to protect the public health and safety.

APPENDIX A

Summary of California's Proposed Policies and Procedures for the Licensing and Regulation of Byproduct, Source, and Special Nuclear Materials

State policy and courses of action with respect to atomic energy development and radiation protection have been the subject of California legislative consideration for a number of years. Public hearings by the Assembly Interim Committee on Public Health in 1958 led to the enactment of the Atomic Energy Development and Radiation Protection Law in 1959, which:

1. Declared it to be State policy to "encourage the constructive development of industries producing or utilizing atomic energy and radiation and to eliminate unnecessary exposure of the public to ionizing radiation."

2. Established the position of Coordinator of Atomic Energy Development and Radiation Protection in the Governor's Office.

3. Directed the Department of Public Health to institute a program for the registration of sources of radiation.

The Congress, also in 1959, amended the Atomic Energy Act of 1954 to permit for the first time a transfer of certain regulatory authority from the U.S. Atomic Energy Commission to qualified states in accordance with negotiated agreements.

In implementation of the State statute and with a view toward appraising the desirability or necessity for a broad system of radiation control, including assumption of authority from the AEC, the registration program was so designed as to obtain a maximum of information regarding radiation use in California. The Assembly Interim Committee on Public Health, following public hearings on these subjects in 1960, concluded that a comprehensive program of radiation control should be instituted promptly and that the state should prepare to enter into agreement with the Atomic Energy Commission, subject to approval of such an agreement by the Legislature. The Coordinator of Atomic Energy Development and Radiation Protection, after consultation with the Advisory Council and the Departmental Coordinating Committee of his Office, and with representatives of industry and the professional groups that use atomic energy and radiation, made a similar recommendation in his annual report to the Governor and the Legislature in January 1961.

As a result of these recommendations, Assembly Bill 1975 was introduced in the 1961 session of the Legislature, providing the framework for such a program, including enabling provisions to permit the Governor to enter into agreement with the Atomic Energy Commission. The bill was derived in large measure from suggested legislation of the Council of State Governments. It was widely circulated and critically reviewed by a number of interested and affected persons and groups, and was revised to take into account appropriate comments. After extensive consideration by Committees of the Legislature, including several public

hearings at which all interested parties were afforded opportunity to be heard, the measure was enacted as the Radiation Control Law (Chapter 1711, Laws of 1961).

The statute directed the State Department of Public Health to adopt regulations for effectuating the purposes of this legislation. In drafting regulations, the Department was guided by the statutory provision for compatibility with the standards and regulatory programs of the Federal government, an integrated effective system of regulation within the State, and a system consonant insofar as possible with those of other states. The regulations were drawn largely from models developed jointly by the Atomic Energy Commission, the U.S. Public Health Service, and the Council of State Governments; and from recommendations of the National Committee on Radiation Protection and Measurement.

Assistance in drafting the regulations was obtained from a number of individuals, agencies, and groups, including the Atomic Energy Commission, the U.S. Public Health Service, the California Coordinator of Atomic Energy Development and Radiation Protection, several California state and local agencies, and a distinguished twelve-member Advisory Committee. This Advisory Committee included representation from industry, labor, medicine, dentistry, medical physics, and local health departments.

Two public meetings were held under the auspices of the Department of Public Health to permit interested persons to present their views on the proposed regulations. These meetings were publicized in advance through regular news media. In addition, notices of the meetings, together with copies of the proposed regulations, were sent to some 500 persons and groups known to be concerned. Such notices were mailed to all persons who had previously requested notifications of this sort; known leaders of affected groups; leading industries, distributors, manufacturers, and insurance carriers; leading universities and colleges; major hospitals; the California Manufacturers' Association; the California Medical Association; and others.

The first such meeting was held in Los Angeles on October 17, 1961, and 56 persons attended. The second meeting was held in Berkeley on October 20, with 64 persons in attendance. Each meeting lasted more than five hours and the proposed regulations were considered in detail. The notice announcing the meetings stated that written comments would also be welcomed. This was reiterated to those in attendance at the meetings. A number of written comments were received and given full consideration.

Following the public meetings, the Advisory Committee met to consider suggestions made at the meetings and in correspondence. This led to a final redrafting of the regulations. Copies were sent to all persons and groups that had received the initial draft.

In accordance with section 25734 of the Health and Safety Code, this final draft was submitted for review by the Coordinator of Atomic Energy Development and Radiation Protection and was approved for public notice of a hearing to be held before the State Board of Public Health. Such notice was published thirty days in advance of the hearing date in accordance with section 11423 of the Government Code, and notice of the hearing was also mailed to all persons and groups to whom copies of the proposed regulations had been sent. At the hearing on December 8, 1961, full opportunity was given to all interested persons to be heard before action was taken. The Board adopted the regulations and they constitute Title 17, Chapter 5, Subchapter 4, sections 30100 to 30397, inclusive, of the Administrative Code of California.

SECTION 1. *The Radiation Control Program.* The radiation control program of the State is designed to regulate all sources of radiation other than those for which regulatory responsibility is to be retained by the U.S. Atomic Energy Commission. As the term "radiation sources" is used hereinafter in this narrative, it is intended to mean those sources under the control of the State. The sources are divided into two major categories; radioactive materials and radiation machines. Radioactive materials are to be regulated under a licensing program similar to the existing program of the U.S. Atomic Energy Commission, requiring possession of a license prior to acquisition or use of such materials. Radiation machines and certain generally licensed radioactive materials will be subject to a registration program involving the reporting of information by the registrant and the right of inspection by the State for compliance with prescribed safety standards. Each of these two major segments of the program is to be supported by a schedule of fees which relates to that specific part of the program. The agency charged with the responsibility of promulgating regulations and issuing licenses is the State Department of Public Health. A portion of the inspection and enforcement activities will be delegated by specific agreement to the Division of Industrial Safety of the State Department of Industrial Relations and may be delegated to local health agencies of cities and counties as the latter develop and demonstrate competence.

The regulations adopted by the State Department of Public Health will be controlling in this program throughout the State. As agreements for the delegation of responsibility for inspection and enforcement by other agencies are developed, it is planned to insure that no duplication or overlapping or jurisdiction occurs.

SEC. 2. *Licensing.* Provision is made for the issuance of both specific and general licenses comparable to those issued by the U.S. Atomic Energy Commission. Such licenses are required for the possession of radioactive materials above exempt amounts or concentrations, regardless of the mode of formation of such materials.

The responsibility for licensing of radioactive materials has been assigned by statute to the State Department of Public Health. The statute requires that Department to enter into agreement with the Division of Industrial Safety of the Department of Industrial Relations for the performance of certain inspection and enforcement activities. When such an agreement is concluded, it will allocate to that Division, among other duties, the responsibility for technical evaluations of license applications relating to industrial uses in general, prior to issuance of such licenses by the Department of Public Health. The Department of Public Health will itself conduct such technical evaluations with respect to other uses. As authorized by the Statute, the Department of Public Health plans to enter into agreement with such local health agencies as demonstrate adequate competence, authorizing them to conduct technical evaluations of license applications.

It is planned to make pre-licensing inspection a part of the evaluation procedure in general. In connection with licensing procedures, provision is made to give opportunity for all interested persons to be heard. With respect to human use of radioactive materials, the Department of Public Health will appoint a committee of not less than three qualified physicians to review license applications and make recommendations thereon. The Department will also have on its staff one or more physicians with special competence in radiological health who will review the recommendations of this committee.

SEC. 3. *Inspection.* Inspection for compliance with regulations and with license conditions will be carried on by the Department of Public Health, the Division of Industrial Safety, and any local health agencies with which agreements have been made as described in section 2—Licensing. Each license will be assigned to a single agency for such purposes.

Based upon the existing number and kind of the specific licenses, a priority system will be established under which inspection of the most hazardous activities will be conducted at least once each six months, and the remainder on a less frequent basis, depending upon the relative hazard. Initial priorities will be established on the basis of the pre-licensing evaluation and may be modified in accordance with subsequent inspections. It is expected that all licensed activities will be inspected at least once in two years.

Most inspections will be scheduled visits; a significant number may be on an unannounced basis. Inspection visits will usually entail a comprehensive review by the inspector of the licensee's equipment, facilities, in the handling or storage of radioactive material, the procedures in effect, including actual operation, and interviewing the personnel directly involved. The inspector will review the licensee's survey methods and results, personnel monitoring practices and results, the posting and labeling used, the instructions to personnel, and the methods and apparent effectiveness of maintaining control of people in the restricted area. He will review the licensee's records of receipts, transfers, and inventory of licensed material. He may physically check the inventory. He will examine records concerning disposal to the sewerage system and burial in the soil, if pertinent. He may make measurements of radiation levels. Prior to leaving the licensee's premises, he will meet with management to discuss the results of his inspection. During this meeting, he will attempt to answer questions concerning the regulatory program.

The inspector will prepare a report in sufficient detail to inform his supervisor of the facts and circumstances observed during the inspection. These reports will provide the basis for any necessary enforcement action. Appropriate elements of this information will be filed in the various agencies as needed. The Department of Public Health will review the operation of this system to insure that timely and adequate inspections are performed and that appropriate actions are taken.

In addition, there will be investigations of incidents and complaints involving licensed materials and operations to determine the cause, the steps taken by the licensee to cope with the incident, whether or not there was noncompliance with a regulation, and the steps the licensee is taking to avoid recurrence of the incident.

Licensees will be informed of the results of all inspections, first orally at the time of the inspection, and by letter or notice from the inspecting agency.

SEC. 4. *Enforcement.* Reports of inspections of licensees' activities will be evaluated by the inspecting agency to determine the status of compliance of the licensees with license conditions and regulations. If no item of noncompliance is observed, the licensee is so informed. If only minor matters of noncompliance, such as improper signs, failure to label, etc., are involved, which, at the time of the inspection, the licensee agrees to correct, the licensee will be informed in writing of the items of noncompliance and that corrective action will be reviewed during the next inspection. If the inspection reveals a noncompliance of a more serious nature, the licensee will be required to inform the inspecting agency in writing, usually within 15 to 30 days, as to corrective action taken and the date completed. In these cases, the inspecting agency representative will either conduct a prompt follow-up inspection or the matter will be reviewed

during a regular inspection to insure that corrective action has, in fact, been accomplished. If the reply does not satisfactorily explain the noncompliance and assure that further violations will be prevented, the inspecting agency will take such administrative actions as are available to them.

It is expected that most of the enforcement functions will be administratively consummated by the inspecting agency. In cases where this is not successful, the inspecting agency will refer the matter to the State Department of Public Health, which may issue an order to show cause why the license should not be modified or terminated. In that event, there is provision for formal hearing in accordance with the California Administrative Procedures Act, and for judicial review of the final order resulting from such hearing. There is also provision for emergency action without notice or hearing, but such emergency action is subject to a prompt hearing upon request of the licensee. Among the enforcement procedures available to the State Department of Public Health are modification, suspension, or revocation of licenses, injunctive relief, and criminal sanctions afforded in the courts.

SEC. 5. *Participation by other agencies.* The statute provides for participation in the radiation control program by the State Division of Industrial Safety and by local health agencies in accordance with agreements that may be made between such agencies and the State Department of Public Health, subject to review by the Coordinator of Atomic Energy Development and Radiation Protection. Such agreements will permit the technical evaluation of license applications, the conducting of inspections for compliance with licenses and regulations, and such enforcement activities as may be administratively consummated within the agency. When further enforcement proceedings are required, involving formal hearings upon the suspension or revocation of licenses, such hearings will be conducted by the State Department of Public Health. Participating agencies will be required to maintain equivalent standards to those maintained by the State Department of Public Health with respect to educational and experience requirements of technical personnel engaged in the program, numbers of personnel in proportion to numbers of assigned licenses, adequacy of kinds and amounts of equipment and facilities, and procedures followed in inspection and enforcement. Inspecting agencies will be required to insure compliance by licensees with the license conditions and with the rules and regulations promulgated under the Radiation Control Law.

The statute permits the existence of local ordinances and regulations that are consistent with State Law and regulations. It provides that only the State shall assess a fee and that the proceeds from such fees shall be equitably distributed between the participating agencies. These provisions will be incorporated in agreements for the participation of such agencies in the program.

SEC. 6. *Organization and Personnel.* The radiation control program will be established in the Bureau of Radiological Health, an existing organizational unit of the State Department of Public Health. Technical positions in the existing program of this bureau are listed below. Personnel will be utilized in the control program to the degree required.

Acting Chief.
Senior Health Physicist.
Senior Engineer.
4 Associate Health Physicists—One position unfilled.
Associate Statistician.
2 Consultant Physicians—One position unfilled.
Consultant Engineer.

Upon consummation of an agreement with the AEC, the following additional personnel will be employed, as available, to perform license evaluations and to provide supervision over the inspection program:

1 Supervising Health Physicist.
2 Senior Health Physicists.
1 Associate Health Physicist.

The Department expects to maintain as inspectors qualified personnel trained in health physics in the approximate ratio of one for each 175 licenses. During the initial phases, the equivalent number of man-years is planned to be devoted to these purposes by the existing staff. This ratio of inspectors to licenses will also apply to other agencies having inspectional responsibilities.

The educational and experience requirements for the position categories directly related to the licensing program are as follows:

Supervising Health Physicist: Bachelor's degree in physical or life sciences, including or supplemented by courses in health physics or radiation biology. Seven years of responsible professional experience in health physics or a closely related field, at least three years of which must have included principal responsibility for a major program of radiological health.

Senior Health Physicist: Graduation from college with major work in the applied or life sciences and including or supplemented by at least four courses in nuclear or health physics or radiation biology. Five years of responsible professional experience in health physics or a closely related field, at least two years of which must have included responsibility for a major program in radiological health. (Master's degree or equivalent academic work in health physics or closely related fields may be substitutes for two years of experience; one year of Atomic Energy Commission fellowship training may be substituted for one year of experience.) As an alternate to these requirements, two years of experience as an Associate Health Physicist in the California State service will be acceptable.

Associate Health Physicist: Equivalent of college graduation with major work in physical or life sciences, including or supplemented by at least two courses in nuclear or health physics or radiation biology. Three years of responsible professional experience (excluding routine radiation monitoring and surveys) in health physics or closely related fields. (One year of full time graduate work in health physics or closely related fields, or completion of one-year Atomic Energy Commission health physics fellowship may be substituted for one year of required experience.)

[Docket No. 50-157]

CORNELL UNIVERSITY

Notice of Issuance of Utilization Facility License

Please take notice that no request for a formal hearing having been filed following the publication of notice of the proposed action in the FEDERAL REGISTER, the Atomic Energy Commission has issued License No. R-80 authorizing Cornell University to possess and operate at power levels up to 100 kilowatts (thermal) the TRIGA Mark II nuclear reactor located on the University's campus at Ithaca, New York.

The license as issued is substantially as set forth in the Notice of Proposed Issuance of Facility License published in the FEDERAL REGISTER August 3, 1961, 26 F.R. 6999, except that authorization to possess and use a 10 curie Polonium 210 sealed source for reactor startup has been added to paragraph 3C.

Dated at Germantown, Md., this 11th day of January 1962.

For the Atomic Energy Commission.

E. G. CASE,
Acting Chief, Test and Power Reactor Safety Branch, Division of Licensing and Regulation.

CIVIL AERONAUTICS BOARD

[Docket No. 13334; Order No. E-17929]

AMERICAN AIRLINES, INC.

Proposed Reduction of Eastbound Freight Rates on Perishables; Order of Investigation and Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 15th day of January 1962.

By tariff revisions marked to become effective January 17, 1962, American Airlines, Inc. (American) proposes significantly lower rates at selected weight breaks on gladioli, iris, fruits and vegetables from Los Angeles and San Francisco to midwest and eastern markets. In addition, the carrier proposes to establish lower rates on various commodities in Groups 570 and 590 from Chicago to Los Angeles at selected weight breaks, equal to rates in effect for competitive carriers.

No complaints have been filed. However, American itself had filed a complaint, requesting investigation and suspension of identical proposals submitted by Trans World Airlines, Inc. (TWA) for effectiveness January 7, 1962, for gladioli, iris, fruits and vegetables. In summary, American had claimed that the proposals were below competitive levels, would dilute carrier revenues, and were not adequately justified. It stated that it had instructed its tariff agent to meet TWA's filings as a defensive measure.

By Order E-17900, adopted January 4, 1962, the Board initiated an investigation of and suspended the foregoing TWA proposals. In that order the Board found that such rate proposals would significantly undercut competitive rates in effect for other carriers, by almost 20 percent for gladioli and iris, and by almost 10 percent for fruits and vegetables. For fruits and vegetables, the yields from the proposed rates would be low even for eastbound movements (which would involve directional imbalance) averaging about 10.5 cents per ton-mile, ranging as low as 9.7 cents; proposals would typically be the lowest 100-pound rates in effect for any commodity for any carrier in the markets in which they are to apply. For gladioli and iris, the yields would average approximately 12.5 cents per ton-mile, significantly low for cut flowers, which have traditionally been hauled at higher eastbound rates than numerous other commodities.

Upon consideration of the matters of record, the Board finds that the rates proposed by American on gladioli, iris, and fruits and vegetables from Los Angeles and San Francisco may be unjust or unreasonable, or unjustly discriminatory, or unduly preferential, or unduly prejudical, and should be investigated. Because of the dilution of carrier revenues which might result from the application of these rates, the Board has further concluded to suspend these portions of the tariff revisions and defer their use pending investigation.

Accordingly, pursuant to the Federal Aviation Act of 1958 and particularly sections 204(a) and 1002 thereof:

It is ordered, That:

1. An investigation is instituted to determine whether the rates and provisions described below are or will be unjust or unreasonable, or unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and, if found to be unlawful, to determine and prescribe the lawful rates and provisions.

2. Pending hearing and decision by the Board, the rates and provisions described below are suspended and their use deferred to and including April 16, 1962, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board.

3. The investigation instituted herein is consolidated with the proceedings designated In the Matter of Reduced Eastbound Freight Rates on Perishables Proposed by Trans World Airlines, Inc., Docket 13324, et al.

4. Copies of this order shall be filed with the tariff, and shall be served upon American Airlines, Inc., The Flying Tiger Line Inc., and Trans World Airlines, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
Secretary.

The specific commodity rates applying on Commodity Group No. 298 via routing "AA" from Los Angeles, Calif., to the points specified below as set forth on the following named revised pages of Agent B. H. Smith's Official Air Freight Specific Commodity Tariff No. 5-B, C.A.B. No. 12:

Revised pages:
78th and 79th revised pages 87 to Baltimore, Md.
84th and 85th revised pages 88 to Boston, Mass.
72d and 73d revised pages 89 to Chicago, Ill.
72d and 73d revised pages 89 to Cleveland, Ohio
72d and 73d revised pages 89 to Columbus, Ohio
73d and 74th revised pages 90 to Dayton, Ohio
73d and 74th Revised pages 90 to Detroit, Mich.
29th and 30th revised pages 90-A to Hartford, Conn.
64th and 65th revised pages 92 to New York, N.Y.

63d and 64th revised pages 93 to Philadelphia, Pa.
63d and 64th revised pages 93 to Pittsburgh, Pa.
15th, 16th and 17th, revised pages 94-A to Washington, D.C.

The specific commodity rates applying on Commodity Group No. 306 via routing "AA" from San Francisco, Calif., to the points specified below as set forth on the following named revised pages of Agent B. H. Smith's Official Air Freight Specific Commodity Tariff No. 5-B, C.A.B. No. 12:

Revised pages:
59th and 60th revised pages 102 to Baltimore, Md.
48th and 49th revised pages 103 to Boston, Mass.
48th and 49th revised pages 103 to Chicago, Ill.
39th and 40th revised pages 104 to Cleveland, Ohio
39th and 40th revised pages 104 to Columbus, Ohio
39th and 40th revised pages 104 to Dayton, Ohio
13th and 14th revised pages 104-A to Detroit, Mich.
15th and 16th revised pages 104-B to Hartford, Conn.
55th and 56th revised pages 107 to New York, N.Y.
55th and 56th revised pages 107 to Philadelphia, Pa.
37th and 38th revised pages 108 to Pittsburgh, Pa.
31st and 32d revised pages 110 to Washington, D.C.

Agent B. H. Smith's Official Air Freight Specific Commodity Tariff No. 5-B, C.A.B. No. 12:

On 64th and 65th revised pages 92, the specific commodity rate of $14.45, subject to minimum weight of 100 pounds, on Commodity Group Numbers 295 and 470, from Los Angeles, Calif., to New York, N.Y., via the routing "AA".

On 15th, 16th, and 17th revised pages 94-A, the specific commodity rates on Commodity Group Numbers 295 and 470 from Los Angeles, Calif., to Washington, D.C., via the routing "AA".

On 56th and 56th revised pages 107, the specific commodity rate of $15.15, subject to a minimum weight of 100 pounds, on Commodity Group Numbers 295 and 470 from San Francisco, Calif., to New York, N.Y., via the routing "AA."

On 31st and 32d revised pages 110, the specific commodity rate of $14.35, subject to a minimum weight of 100 pounds, on Commodity Group Numbers 295 and 470 from San Francisco, Calif., to Washington, D.C., via the routing "AA".

FEDERAL MARITIME COMMISSION

[Docket No. 964 (Sub-2)]

SUGAR, REFINED OR TURBINATED, IN BAGS IN THE ATLANTIC/GULF PUERTO RICO TRADE

Investigation of Increased Rates; Notice of Supplemental Order

On January 8, 1962, the Federal Maritime Commission entered the following Second Supplement Order to the original order in this proceeding dated December 7, 1961.

It appearing that there is currently pending in this proceeding an investigation of an increase in rates on Sugar, refined or turbinated, in bags from Puerto Rico ports to Atlantic and Gulf ports, which said rates have been suspended and are now to become effective on April 8, 1962 and later; and

It further appearing that on January 3, 1962, Sea-Land Service, Inc., Puerto Rican Division, filed with the Federal Maritime Commission (Commission) tariff schedules designated 11th Revised Page No. 34 and Original Page 34A to Homeward Freight Tariff No. 4, FMC-F No. 2 (Pan-Atlantic Steamship Corporation, FMC-F, Series) to become effective February 5, 1962, which said schedules provide for increased commodity rates on Sugar, refined or turbinated, in bags; and

It further appearing that upon consideration thereof there is reason to believe that said schedules would, if permitted to become effective, result in rates which would be unjust, unreasonable, or otherwise unlawful in violation of the Shipping Act, 1916, as amended or the Intercoastal Shipping Act, 1933, as amended; and

It further appearing that the Commission is of the opinion that the new rates on sugar, refined or turbinated, in bags should be made the subject of a public investigation and hearing to determine whether they are just, reasonable, and otherwise lawful under the Shipping Act, 1916, as amended, or the Intercoastal Shipping Act, 1933, as amended; and

It further appearing that the effective date of the said schedules should be suspended pending such investigation;

Now therefore it is ordered, That this proceeding be, and it is hereby, expanded to include, in addition to the matters now under investigation, an investigation into and concerning the lawfulness of the increased rates on sugar, refined or turbinated, in bags named in the said schedule, with a view to making such findings and orders in the premises as the facts and circumstances shall warrant; and

It is further ordered, That 11th Revised Page 34 and Original Page 34A to Sea-Land Service, Inc. Puerto Rican Division (Pan-Atlantic Steamship Corporation FMC-F Series) Homeward Freight Tariff No. 4, FMC-F No. 2, be, and they are hereby, suspended and that the use thereof be, and it is hereby, deferred to and including June 4, 1962, unless otherwise authorized by the Commission, and that the rates heretofore in effect, and which were to be changed by the suspended rates, shall remain in effect during the period of suspension; and

It is further ordered, That no change shall be made in the matter hereby suspended nor the matter which is continued in effect as a result of such suspension until the period of suspension or any extension thereof has expired, or until this investigation and suspension proceeding has been disposed of, whichever first occurs, unless otherwise authorized by the Commission; and

It is further ordered, That there shall be filed immediately with the Commission by Sea-Land Service, Inc. Puerto Rican Division, a consecutively numbered supplement to the aforesaid tariff schedule which supplement shall bear no effective date, shall reproduce the portion of this order wherein the suspended matter is described, and shall state that the aforesaid rates are suspended and may not be used until the 5th day of June 1962, unless otherwise authorized by the Commission, and that the rates heretofore in effect, and which were to be changed by the suspended rates, shall remain in effect during the period of suspension, and neither the matter suspended, nor the matter which is continued in effect as a result of such suspension, may be changed until the period of suspension or any extension thereof has expired, or until this investigation and suspension proceeding has been disposed of, whichever first occurs, unless otherwise authorized by the Commission; and

It is further ordered, That copies of this order shall be filed with the said tariff schedule in the Bureau of Domestic Regulation of the Federal Maritime Commission; and

It is further ordered, That (I) the investigation herein ordered be assigned for public hearing before an examiner of the Commission's Office of Hearing Examiners, at a date and place to be determined and announced by the Chief Examiner, to receive evidence in this proceeding, which will provide an adequate record for proper disposition of the issues and that an initial decision be issued; (II) Sea-Land Service, Inc. Puerto Rican Division, be and it is hereby made respondent in this proceeding; (III) a copy of this order shall forthwith be served upon Sea-Land Service, Inc., Puerto Rican Division, and all others heretofore named protestants or respondents hereto; (IV) the said respondents be duly notified of the time and place of the hearing ordered; and (V) this order and notice of the said hearing be published in the FEDERAL REGISTER.

Dated: January 15, 1962.

By the Commission.

FEDERAL POWER COMMISSION

[Docket Nos. CP60-32, CR62-82]

CITIES SERVICE GAS CO.

Notice of Application and Date of Hearing and Notice of Application for Amendment

JANUARY 15, 1962.

Take notice that on September 27, 1961, as supplemented on November 22, 1961, Cities Service Gas Company (Applicant), P.O. Box 1995, Oklahoma City, Oklahoma, filed in Docket No. CP62-82 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the installation and operation of pipeline taps and block gates on Applicant's Kansas City-Hugoton pipeline at the intake side of Applicant's Hugoton Compressor Station in Grant County, Kansas, to enable Applicant to deliver natural gas to Cities Service Helex, Inc. (Helex), all as more fully set forth in the application, as supplemented, which is on file with the Commission and open to public inspection.

Applicant proposes to sell an estimated average daily volume of 60 MMcf of gas to Helex pursuant to a contract between Applicant and Helex dated September 11, 1961. Helex will use and consume the gas for fuel and the extraction of helium and liquid hydrocarbons at its plant to be located near the Hugoton Compressor Station. Helex will sell the helium to the United States of America pursuant to the Helium Act of 1960 and will sell the liquid hydrocarbons to another purchaser.

Applicant alleges that it will have natural gas available to it currently and through 1979 in the Kansas-Hugoton field in excess of the peak-day capacity and annual requirements of its Hugoton-Kansas City transmission pipeline delivering gas from the Kansas-Hugoton field before the requirements of Helex are added thereto, and through 1976 after the requirements of Helex are added thereto.

The cost of the proposed facilities is estimated to be $95,000, which would be financed with treasury cash.

Concurrently with the subject application, Applicant has submitted a study of its gas reserves. Based on this study, Applicant requests that paragraph (F) of the order issued December 27, 1960, in Docket No. CP60-32, be eliminated. That paragraph required that Applicant should limit its total annual sales of natural gas to an amount approximately equal to the total demands served as shown in line 43 of Exhibit No. 30 in Docket No. CP60-32 beginning with the calendar year 1961 and in each calendar year thereafter until Applicant makes a showing, satisfactory to the Commission, that such restriction should be eliminated or modified.

These matters should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on February 13, 1962, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by the application in Docket No. CP62-82: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests, requests for hearing or petitions to intervene in either Docket No. CP60-32 or CP62-82 may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before February 7, 1962. Failure of any party to appear at and participate in the hearing in Docket No. CP62-82 shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 62-621; Filed, Jan. 18, 1962; 8:49 a.m.]

[Docket No. G-16842 etc.]

TENNESSEE GAS TRANSMISSION CO. ET AL.

Notice of Applications, Date of Hearing and Consolidation of Proceedings

JANUARY 15, 1962.

Tennessee Gas Transmission Company, Docket No. G-16842; Tennessee Gas Transmission Company, Docket No. CP60-94; Lowell Gas Company, Docket No. CP61-9; Tennessee Natural Gas Lines, Inc., Docket No. CP61-27; Central Illinois Electric and Gas Company, Docket No. CP61-122; Texaco Inc., Docket No. CI61-60; Texaco Inc., Docket No. CI61-1713; Midwestern Gas Transmission Company, Docket No. CP62-116; Allied Gas Company, Docket No. CP62-132; Alabama-Tennessee Natural Gas Company, Docket No. CP62-133; Village of Provencal, Louisiana, Docket No. CP62-152; Cities Service Production Company, Docket No. CI62-135; Tidewater Oil Company, Docket No. CI62-137; Atlantic Refining Company, Docket No. CI62-146; Continental Oil Company, Docket No. CI62-147; Arnold H. Brunner & Company, Docket No. CI62-305; Samedan Oil Corporation, Docket No. CI62-378.

Take notice that on November 7, 1961, Tennessee Gas Transmission Company (Tennessee), P.O. Box 2511, Houston 1, Texas, filed an Amended Application as supplemented on December 18, 1961, at Docket No. CP60-94 pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Tennessee to construct and operate certain facilities for the transportation and sale of natural gas in interstate commerce, all as is more fully set forth in the application which is on file with the Commission and open to public inspection.

Tennessee in its application at Docket No. CP60-94, as amended, seeks authorization to increase the presently authorized contract quantities of its existing Contract Demand and General Service customers by 160, 169 Mcf of natural gas per day at 14.73 psia and to render a storage service totalling 10,120 Mcf per day at 14.73 psia to two of its existing customers. The proposed additional service is scheduled to commence in the fall of 1962 and will be rendered pursuant to the terms of existing rate schedules. In order to render the proposed additional service, Tennessee seeks authorization to increase its design day delivery capacity to 2,785,000 Mcf. Its presently authorized design day delivery capacity of 2,669,031 Mcf was authorized by the Commission at Docket No. G-16842. The proposed facilities for which authorization is sought to afford the above-noted increase in design day delivery capacity consist of approximately 152 miles of 30-inch and 36-inch mainline loop in Ohio, Pennsylvania and New York; an additional 66,900 compressor horsepower at existing stations located in Louisiana, Mississippi, Alabama and Tennessee; and an additional 20,800 compressor horsepower at new stations to be located in Louisiana, Kentucky, Pennsylvania and New York.

Tennessee also requests authorization to construct 58.2 miles of 20-inch gathering line from its presently authorized on-shore facilities to Block 176 (offshore Louisiana) in the Ship Shoal area where it proposes to acquire gas reserves in place. Tennessee also seeks authorization to replace approximately two miles of 3-inch pipeline by a similar length of 6-inch pipeline in Northampton, Massachusetts.

The application states that the proposed facilities, which are estimated to cost $56,624,000, will be financed through Tennessee's revolving credit agreement during the construction period and permanently financed with bonds, debentures, common stocks and funds generated from its operations.

Tennessee proposes to acquire and develop the Ship Shoal area at a total estimated cost of $2,043,727,000 over a 29-year period.

The following producer-applicants seek authorization to sell gas to Tennessee for resale in interstate commerce:

Docket No., Producer, Name of Field and County

CI61-60; Texaco Inc.; Gross Isle, Vermilion Parish, La.
CI61-1713; Texaco Inc.; Chandeleur Sound, Block 69 (Off-shore, Louisiana).
CI62-135; Cities Service Production Co.; Cameron Area East Block 64 (Off-shore, Louisiana).
CI62-137; Tidewater Oil Co.; Cameron Area East Block 64 (Off-shore, Louisiana).
CI62-146; Atlantic Refining Co.; Cameron Area East Block 64 (Off-shore, Louisiana).
CI62-147; Continental Oil Co.; Cameron Area East Block 64 (Off-shore, Louisiana).
CI62-305; Arnold H. Brunner & Co.; Bayou Rambio, Terrebonne Parish, La.
CI62-378; Samedan Oil Corp.; Chalkley, Northwest, Calcasieu Parish, La.

On October 20, 1961, Tennessee filed a motion for the postponement of the hearing to amend the certificate issued it in Docket No. G-16842 and requested that the aforementioned hearing be consolidated with Tennessee's expansion application in Docket No. CP60-94, which we have described above.

On August 30, 1961, the Commission issued Tennessee temporary authority in Docket No. G-16842 to substitute certain compressor facilities for loopline

Page 34 and Original Page 34A to Sea-Land Service, Inc. Puerto Rican Divi-

[F.R. Doc. 62-620; Filed, Jan. 18, 1962; 8:48 a.m.]

plicant), P.O. Box 1995, Oklahoma City,

provisions of § 1.30(c) (1) or (2) of the

per day at 14.73 psia to two of its exist-

tain compressor facilities for loopline

facilities that Tennessee was previously authorized to construct on its gas supply system in southern Louisiana. The order temporarily authorizing the substituted facilities required that Docket No. G-16842 be re-opened and that Tennessee establish in formal hearing that these facilities were justifiable as an economic alternative to the previously authorized loopline facilities and that Tennessee file certain data to support such a proposition. Tennessee in its motion for consolidation alleges that it will supply the data requested by the Commission but that the data it will submit will be more meaningful when considered with its current expansion proposal in Docket No. CP60-94. Hence, it seems appropriate that these proceedings be consolidated for purposes of hearing,

On July 27, 1960, Tennessee Natural Gas Lines, Inc., (Tennessee Natural) whose principal place of business is located at 1003 Nashville Trust Building, Nashville 3, Tennessee, filed an application in Docket No. CP61-27 proposing an increase in its presently authorized firm service from Tennessee, its sole supplier, from 3,000 Mcf per day to 8,300 Mcf per day. Tennessee Natural proposes to sell this gas to the Ford Motor Company for use in sheet glass furnaces in its Nashville, Tennessee plant. Tennessee Natural also seeks an increase in its presently authorized interruptible service from 10,500 Mcf per day to 15,500 Mcf per day also for use in glass furnaces in the Nashville plant of the Ford Motor Company.

On July 15, 1960, Lowell Gas Company whose principal place of business is located in Lowell, Massachusetts filed an application in Docket No. CP61-9 for an order under section 7(a) of the Natural Gas Act directing Tennessee to establish physical connection of its facilities with those which Applicant proposes to construct, and to sell and deliver to Applicant volumes of natural gas for distribution and resale to the town of Wilmington, Massachusetts, whose requirements are estimated to be as follows:

Year	Requirements in Mcf at 14.73 psia	
	Peak day	Annual
1st	709	81,350
2d	1,221	141,617
3d	1,755	204,611

Tennessee would be required to build a metering station at a point on its 12-inch transmission line which runs through the town of Wilmington.

On November 27, 1961, Alabama Tennessee Natural Gas Company (Alabama Tennessee), P.O. Box 380, Florence, Alabama, filed an application in Docket No. CP62-133 pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Alabama-Tennessee to construct and operate certain facilities to deliver the additional supply of natural gas required by Applicant's customers during the 1962-1963 winter heating season, all as is more fully set out in its application which is on file with the Commission and open to public inspection.

The facilities which the Applicant requests authorization to construct consist of approximately 6.65 miles of 12¾-inch main line and approximately 1.23 miles of 10¾-inch main line to be constructed parallel to Applicant's main line facilities in Lawrence, Morgan, and Madison Counties, Alabama.

The application reveals that Tennessee is the sole supplier of Alabama-Tennessee and that its presently authorized volume of natural gas from Tennessee is 79,435 Mcf per day. In Docket No. CP60-94, as amended, Tennessee requested authorization to deliver an additional quantity of 1,230 Mcf of gas per day to Alabama-Tennessee in order to enable that company to meet its requirements.

On November 7, 1961, Midwestern Gas Transmission Company (Midwestern) whose principal place of business is the Tennessee Building, Houston, Texas, filed an application in Docket No. CP62-116 pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Midwestern to supply Northern Illinois Gas Company, an existing customer with an additional volume of contract demand gas in the amount of 15,000 Mcf per day at 14.73 psia commencing with the 1962-1963 heating season. No additional facilities will be necessary to render the increased natural gas service. The gas supply to support the above-noted proposal is to be obtained from Tennessee all as is more fully set forth in the application which is on file with the Commission and open to public inspection.

On November 27, 1961, Allied Gas Company (Allied) whose principal place of business is located at 134 North Market Street, Paxton, Illinois, filed an application in Docket No. CP62-132 for an order under section 7(a) of the Natural Gas Act directing Midwestern to establish physical interconnections of its transportation facilities with the facilities proposed to be constructed by Allied, and to sell and deliver to Allied volumes of natural gas for distribution and resale in the Towns of Gilman, Onarga and Cissna Park in Iroquois County, and Rankin and Potomac in Vermilion County, Illinois. The natural gas requirements of those towns are estimated to be as follows:

Year	Annual requirements (Mcf)	Maximum day contract (Mcf)
1st	36,000	394
2d	96,900	794
3d	116,300	949

On October 19, 1960, Central Illinois Electric and Gas Company (Central Illinois), an Illinois corporation having its principal place of business at 303 North Main Street, Rockford, Illinois filed an application at Docket No. CP61-122 and on December 13, 1960, a supplement thereto, pursuant to section 7(a) of the Natural Gas Act, for an order directing Midwestern to establish physical connection of its transportation facilities with the facilities proposed to be constructed by Applicant and to sell and deliver to Central Illinois its natural gas requirements for the Village of Oakwood, Illinois and its environs, all as more fully set forth in the application, which is on file with the Commission and open for public inspection.

Applicant intends to construct and operate a regulator station at a proposed point of connection on the main line of Midwestern and a 2-inch lateral 1,500 feet from the above-noted point of connection to the Village limits of Oakwood. Central Illinois also proposes to construct and operate the necessary distribution facilities in the Village of Oakwood.

The estimated annual and peak day requirements for the Village of Oakwood and its environs are as follows:

Year	Peak day demand (Mcf @ 14.73 psia)	Annual requirements (Mcf @14.73psia)
1st	270	17,200
2d	310	29,500
3d	365	34,400

A formal hearing was held on this application on June 12, 1961, and the Presiding Examiner issued an initial decision in that proceeding recommending that the application of Central Illinois be denied without prejudice. On October 20, 1961, Central Illinois filed a petition to reopen the proceeding in Docket No. CP61-122 and on December 15, 1961 this Commission issued an order granting the petition to reopen.

The above-captioned proceedings will serve as an appropriate forum in which the reopened proceeding in Docket No. CP61-122 can be heard.

On December 28, 1961, the Village of Provencal, Louisiana, a municipal corporation filed an application at Docket No. CP62-152 pursuant to section 7(a) of the Natural Gas Act for an order directing Tennessee to establish physical connection of its transportation facilities with those facilities proposed to be constructed by the Village of Provencal and to sell and deliver to that village its natural gas requirements all as more fully set forth in the application which is on file with the Commission and open for public inspection.

The estimated annual and peak day requirements for the Village of Provencal are estimated as follows:

Year	Peak day (Mcf @ 14.73 psia)	Annual requirements (Mcf @14.73psia)
1st	240	24,218
2d	265	27,395
3d	285	29,339

These related matters should be heard on a consolidated record under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on March 12, 1962, at 10:00 a.m., e.s.t., in a hearing room of the Federal Power

Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such applications.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before February 12, 1962.

JOSEPH H. GUTRIDE,
Secretary.

[Docket No. RI60-256 etc.]

TEXAS PACIFIC COAL AND OIL CO.

Order Terminating Proceedings as to One Co-Respondent, Redesignating Proceedings and Accepting Undertaking

JANUARY 15, 1962.

Texas Pacific Coal and Oil Company, Docket Nos. RI60-256, RI60-350, RI60-362, RI60-386, and RI60-442.

The increased rates subject to review in the instant proceedings were filed by Jal Oil Company (Jal Oil) and were permitted to become effective, under bond, subject to further orders of the Commission. On March 30, 1961, Texas Pacific Coal and Oil Company (Texas Pacific) and Jal Oil filed a joint motion to substitute, effective on and after January 1, 1961, Texas Pacific for Jal Oil as Respondent in these proceedings. Texas Pacific concurrently filed its agreements and undertakings and a Notice of Succession and Adoption of Rate Schedules by which Texas Pacific ratified and adopted the rate schedules under review in these proceedings and all supplements thereto. By order issued September 15, 1961, in these proceedings, the Commission (1) designated Texas Pacific as Co-respondent with Jal Oil in each of these proceedings, and (2) accepted the aforementioned Texas Pacific agreements and undertakings effective as of 7:00 a.m., January 1, 1961, and continued in effect the aforementioned surety bonds filed by Jal Oil to cover any refunds which may be ordered for the period prior to January 1, 1961.

On November 24, 1961, Texas Pacific and Jal Oil filed joint Motions to Dismiss these proceedings as to Jal Oil, leaving such pending as to Texas Pacific and to accept Texas Pacific's revised agreements and undertakings. Said motions recite that "Texas Pacific and Jal Oil have agreed between themselves that all refunds, if any, ordered in these proceedings will be made by Texas Pacific." Consistent with the foregoing Texas Pacific concurrently tendered revised agreements and undertakings "unlimited as to time."

The Commission finds: Good cause has been shown, and it is appropriate in the public interest, that these proceedings be terminated as to Jal Oil, that Jal Oil be released from its obligations under the surety bonds filed herein, that these proceedings be redesignated as hereinafter ordered and that agreements and undertakings filed herein on November 24, 1961 by Texas Pacific be accepted for filing.

The Commission orders:

(A) The proceedings in Docket Nos. RI60-256, RI60-350, RI60-362, RI60-386 and RI60-442 are terminated as to Jal Oil, effective as of the date of this order.

(B) Jal Oil is hereby released from its obligations under the surety bonds filed by it in these proceedings.

(C) The title of the proceedings in Docket Nos. RI60-256, RI60-350 and RI60-386 is changed from Texas Pacific Coal and Oil Company and Jal Oil Company, Inc. (Operator) et al., to Texas Pacific Coal and Oil Company and the title of the proceedings in Docket Nos. RI60-362 and RI60-442 from Texas Pacific Coal and Oil Company and Jal Oil Company, Inc., to Texas Pacific Coal and Oil Company.

(D) The agreements and undertakings filed on November 24, 1961, by Texas Pacific in these proceedings are hereby accepted for filing in lieu of those which became effective as of January 1, 1961.

(E) This order is without prejudice to any findings or orders which have been or hereafter may be made by the Commission in these proceedings.

By the Commission.

JOSEPH H. GUTRIDE,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-3848]

APEX MINERALS CORP.

Order Summarily Suspending Trading

JANUARY 15, 1962.

The common stock, $1.00 par value, of Apex Minerals Corporation, being listed and registered on the San Francisco Mining Exchange, a national securities exchange; and

The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on such Exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion further that such suspension is necessary in order to prevent fraudulent, deceptive or manipulative acts or practices, with the result that it will be unlawful under section 15(c)(2) of the Securities Exchange Act of 1934 and the Commission's Rule 15c2-2 thereunder for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of such security, otherwise than on a national securities exchange;

It is ordered, Pursuant to section 19(a)(4) of the Securities Exchange Act of 1934, that trading in said security on the San Francisco Mining Exchange be summarily suspended in order to prevent fraudulent, deceptive or manipulative acts or practices, this order to be effective for a period of ten (10) days, January 16, 1962, to January 25, 1962, both dates inclusive.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F.R. Doc. 62-603; Filed, Jan. 18, 1962; 8:47 a.m.]

[File No. 24A-1551]

NATIONAL MERCANTILE CLEARING HOUSE, INC.

Order Temporarily Suspending Exemption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

JANUARY 15, 1962.

I. National Mercantile Clearing House, Inc. (issuer), a collection service company, filed with the Commission on October 23, 1961, a notification on Form 1-A and an offering circular relating to a proposed public offering of 75,000 shares of its 1 cent par value common stock at $4.00 per share for an aggregate amount of $300,000, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) thereof and Regulation A promulgated thereunder.

II. The Commission has reasonable cause to believe that:

A. The terms and conditions of Regulation A have not been complied with in that:

1. The notification on Form 1-A fails to set forth the names and addresses of certain predecessors and affiliates of the issuer as required by Item 2 thereof.

2. The offering circular fails to disclose the remuneration of officers and directors of the issuer as required by Item 9(b) and to describe adequately material transactions between the issuer and insiders as required by Item 9(c) and Schedule I.

B. The offering circular contains untrue statements of material facts and omits to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, particularly in that:

1. The offering circular fails to disclose the manner and extent to which the securities being offered will be diluted due to issuer's financial condition and its issuance of stock to insiders at prices substantially lower than the public offering price.

2. It overstates the number of full-time employees.

3. It falsely describes certain letters as letters of recommendation of satisfactory use and merit" and fails to disclose their true nature.

4. It contains financial statements as of August 31, 1961, which are false and misleading because:

(a) Sales and profits of the issuer for the eight months ended August 31, 1961, are substantially overstated.

(b) Certain accounts receivable are shown as current assets without disclos-

ing that such receivables had been written off by the issuer's accountant as "bad debts" as of December 31, 1960.

(c) Certain assets, liabilities and transactions affecting issuer's capital are inaccurately and inadequately described in the financial statements and notes thereto.

(d) Material amounts claimed by issuer's former counsel for legal fees and material amounts claimed to be owed by the issuer to others are not disclosed in the financials and notes thereto.

C. The offering would be made in violation of section 17 of the Securities Act of 1933, as amended.

III. *It is ordered*, Pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing within thirty days after the entry of this order; that within twenty days after receipt of such request the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; that if no hearing is requested and none is ordered by the Commission, this order shall become permanent on the thirtieth day after its entry and shall remain in effect unless or until it is modified or vacated by the Commission; and that notice of the time and place for any hearing will be promptly given by the Commission.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

INTERSTATE COMMERCE COMMISSION

[Rev. S.O. 562; Taylor's I.C.C. Order No. 139]

CHICAGO GREAT WESTERN RAILWAY CO.

Diversion or Rerouting of Traffic

In the opinion of Charles W. Taylor, Agent, the Chicago Great Western Railway Company, due to weather conditions, is unable to transport traffic routed over its lines.

It is ordered, That:

(a) Rerouting traffic: The Chicago Great Western Railway Company and its connections, being unable to transport traffic in accordance with shippers routing because of weather conditions, are hereby authorized to divert or reroute traffic moving over its lines over any available route to expedite the movement.

(b) Concurrence of receiving roads to be obtained: The railroad desiring to divert or reroute traffic under this order shall confer with the proper transportation officer of the railroad or railroads to which such traffic is to be diverted or rerouted, and shall receive the concurrence of such other railroads before the rerouting or diversion is ordered.

(c) Notification to shippers: The carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is diverted or rerouted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic by said Agent is deemed to be due to carrier's disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to such traffic; divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) Effective date: This order shall become effective at 2:00 p.m., January 11, 1962.

(g) Expiration date: This order shall expire at 11:59 p.m., January 15, 1962, unless otherwise modified, changed, suspended or annulled.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement and by filing it with the Director, Division of the Federal Register.

Issued at Washington, D.C., January 11, 1962.

INTERSTATE COMMERCE COMMISSION, CHARLES W. TAYLOR, *Agent.*

FOURTH SECTION APPLICATIONS FOR RELIEF

JANUARY 15, 1962.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 37512: *Asphalt from Colorado and Wyoming.* Filed by Western Trunk Line Committee, Agent (No. A-2219), for interested rail carriers. Rates on asphalt (asphaltum), natural, byproduct or petroleum (other than paint, stain or varnish), in packages, or solid in bulk, except in tank cars, in carloads, from Casper, Cheyenne, Cody, Sinclair, Thermopolis, Wyo., and Denver, Colo., to Buchanan, Clovis, Encino and Vaughn, N. Mex.

Grounds for relief: Short-line distance formula.

Tariffs: Supplement 60 to Atchison, Topeka and Santa Fe Railway tariff I.C.C. 14812, and other schedules named in the application.

FSA No. 37513: *Cast iron pipe and fittings from Ft. Worth, Swan, and Tyler, Tex.* Filed by Southwestern Freight Bureau, Agent (No. B-8136), for interested rail carriers. Rates on cast iron pipe and fittings, loaded in trailers and transported on railroad flat or open top equipment, from Ft. Worth, Swan and Tyler, Tex., to points in Illinois and western trunk-line territories.

Grounds for relief: Motor-truck competition, short-line distance formula, and grouping.

Tariffs: Supplements 72, 133, 32 and 61 to Southwestern Freight Bureau tariffs I.C.C. 4345, 4312, 4362 and 4307, respectively.

FSA No. 37514: *Iron and steel articles to southwestern territory.* Filed by Southwestern Freight Bureau, Agent (No. B-8137), for interested rail carriers. Rates on iron or steel articles, loaded in trailers and transported on railroad flat or open top equipment, from points in Illinois and western trunk-line territories, to points in southwestern territory.

Grounds for relief: Motor-truck competition, short-line distance formula, and grouping.

Tariffs: Supplements 72, 133 and 61 to Southwestern Freight Bureau tariffs I.C.C. 4345, 4312, and 4307, respectively.

FSA No. 37515: *T.O.F.C. class rates from Las Cruces, N. Mex.* Filed by Southwestern Freight Bureau, Agent (No. B-8138), for interested rail carriers. Rates on various commodities moving on class rates, loaded in trailers and transported on railroad flat or open top equipment, from Las Cruces, N. Mex., to points in Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Minnesota, Mississippi, Missouri, Nebraska, Oklahoma, Tennessee, Texas and Wisconsin.

Grounds for relief: Motor-truck competition, short-line distance formula and grouping.

Tariffs: Supplements 133, 57 and 22 to Southwestern Freight Bureau tariffs I.C.C. 4312, 4353, and 4362, respectively.

FSA No. 37516: *Petroleum products between points in southwestern territory.* Filed by Southwestern Freight Bureau, Agent (No. B-8139), for interested rail carriers. Rates on petroleum or petroleum products, also lubricating oil or grease, noibn, other than petroleum, in trailers loaded on railroad flat or open top equipment, between points in southwestern territory, also between points in southwestern territory, on the one hand, and Natchez, Miss., and Memphis, Tenn., on the other.

Grounds for relief: Motor-truck competition, short-line distance formula and grouping.

Tariff: Supplement 57 to Southwestern Freight Bureau tariff I.C.C. 4353.

By the Commission.

[Notice 586]

MOTOR CARRIER TRANSFER PROCEEDINGS

JANUARY 16, 1962.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 64387. By order of January 10, 1962, the Transfer Board approved the transfer to L. A. Eureka Lines, a corporation, Montebello, Calif., of the claimed Section 7 Grandfather rights of Joe P. Cabral, doing business as L. A. Eureka Lines, Montebello, Calif., covering the transportation of: frozen fruits, frozen berries, frozen vegetables, bananas, and certain exempt commodities, from points in Oregon, Washington, and ports of entry in Washington, Idaho and California, to points in California, Oregon, Washington, Idaho, Montana, Nevada, Utah, and Phoenix, Ariz. R. Y. Schureman, 1010 Wilshire Boulevard, Los Angeles 17, Calif., attorney for applicants.

No. MC-FC 64412. By order of January 10, 1962, the Transfer Board approved the transfer to Keith L. Tremper, Rhinebeck, N.Y., of Certificate No. MC 102490 Sub 2, issued March 5, 1958, to Gordon E. Bailey, Parishville, N.Y., authorizing the transportation of household goods, over irregular routes, between Rhinebeck N.Y., and points in New York east of the Hudson River within 15 miles of Rhinebeck, except Poughkeepsie, N.Y., on the one hand, and, on the other, points in Connecticut, Delaware, Maryland, New Jersey, Pennsylvania, Rhode Island, and the District of Columbia. Joseph Worona, 4 Liberty Street, Poughkeepsie, N.Y., attorney for applicants.

No. MC-FC 64589. By order of January 15, 1962, the Transfer Board approved the transfer to Martin Truck Line, Inc., Prairie Village, Kans., of the operating rights in Certificate No. MC 40783, issued November 18, 1940, to Floyd McMichael, Council Grove, Kans., authorizing the transportation, over regular routes, of general commodities, excluding household goods, commodities in bulk, and other specified commodities, between Council Grove, Kans., and Kansas City, Mo. Sol M. Yarowsky, 909 Waltower Building, Kansas City 6, Mo., applicant's attorney.

No. MC-FC 64666. By order of January 10, 1962, the Transfer Board approved the transfer to Vernon R. Doering, doing business as Michigan Ohio Motor Freight, Toledo, Ohio, of Certificate No. MC 61318, issued November 5, 1948, to V. R. Doering and O. K. Ingham, a partnership, doing business as Michigan and Ohio Motor Freight Company, Pontiac, Mich., authorizing the transportation of: General commodities, excluding household goods, commodities in bulk, and other specified commodities, over regular routes, between Pontiac, Mich., and Toledo, Ohio, and return to Pontiac. Service is authorized to the intermediate point of Detroit, Mich., restricted to traffic originating at Toledo, Ohio. Robert B. Gosline, Schumaker, Loop & Kendrick, attorneys for Carl F. Dorcas, receiver, 811 Madison Avenue, Toledo, Ohio.

No. MC-FC 64673. By order of January 10, 1962, the Transfer Board approved the transfer to Eugene E. Kiso, Morrison, Mo., of Certificate No. MC 109214, issued February 14, 1955, to Wm. W. Branson, Chamois, Mo., authorizing the transportation of: Ordinary livestock, from Morrison, Mo., and points in Osage and Gasconade Counties, Mo., within 15 miles of Morrison, to National City, Ill., and general commodities, excluding household goods, commodities in bulk, and other specified commodities from National City, and East St. Louis, Ill., and St. Louis, Mo., to Morrison, Mo., and points in Osage and Gasconade Counties, Mo., within 15 miles of Morrison. Thomas P. Rose, Jefferson Building, Jefferson City, Mo., attorney for applicants.

[SEAL] HAROLD D. MCCOY, *Secretary.*

FEDERAL REGISTER

Telephone WOrth 3-3261

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Office of the Federal Register, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D.C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

Title 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Credit Corporation, Department of Agriculture

MISCELLANEOUS AMENDMENTS TO CHAPTER

In order to conform Chapter IV of Title 6 of the Code of Federal Regulations to the present organizational structure of the Department of Agriculture in accordance with Memorandum No. 1458 of the Secretary of Agriculture, dated June 14, 1961, the following changes are made:

A. Subchapter A of Chapter IV is amended as follows:

1. Wherever the designation "Commodity Stabilization Service" appears, it is deleted and the designation "Agricultural Stabilization and Conservation Service" is substituted therefor.

2. Wherever the designation "Director of the Division or Commodity Stabilization Commodity Office" appears, it is deleted and the designation "Director of the Agricultural Stabilization and Conservation Service Division or Commodity Office" is substituted therefor.

3. Wherever the designation "Agricultural Stabilization and Conservation State Offices" appears, it is deleted and the designation "Agricultural Stabilization and Conservation Service State Offices" is substituted therefor.

4. Wherever the designation "Agricultural Stabilization and Conservation County Office" appears, it is deleted and the designation "Agricultural Stabilization and Conservation Service County Office" is substituted therefor.

5. Wherever the designation "Director, Grain Division, Commodity Stabilization Service" appears, it is deleted and the designation "Director, Grain Division, Agricultural Stabilization and Conservation Service" is substituted therefor.

B. Subchapter B of Chapter IV is amended as follows:

1. Wherever the designations "Commodity Stabilization Service" and "CSS" appear, they are deleted and the designations "Agricultural Stabilization and Conservation Service" and "ASCS," respectively, are substituted therefor.

2. Wherever the designation "CSS Commodity Office" appears, it is deleted and the designation "ASCS Commodity Office" is substituted therefor.

3. Wherever the designation "ASC County Office" appears, it is deleted and the designation "ASCS County Office" is substituted therefor.

4. Wherever the designations "Agricultural Stabilization and Conservation state and county offices" and "ASC state and county offices" appears, they are deleted and the designations "Agricultural Stabilization and Conservation Service state and county offices" and "ASCS state and county offices", respectively, are substituted therefor.

5. Wherever the designation "State Administrative Officer" appears, it is deleted and the designation "State Executive Director" is substituted therefor.

6. Wherever in Part 443, the designation "Deputy Administrator for Price Support, CSS" appears, it is deleted and the designation "Deputy Administrator, Price and Production, ASCS" is substituted therefor.

7. Wherever in Part 472 the designation "Deputy Administrator, Production Adjustment, CSS" appears, it is deleted and the designation "Deputy Administrator, State and County Operations, ASCS" is substituted therefor.

8. Wherever in Part 474 the designation "Deputy Administrator for Operations, CSS" appears, it is deleted and the designation "Deputy Administrator, Management, ASCS," is substituted therefor.

C. Subchapter C of Chapter IV is amended as follows:

1. Wherever the designations "Commodity Stabilization Service" or "CSS" appear, they are deleted and the designations "Foreign Agricultural Service" or "FAS", respectively, are substituted therefor.

2. Wherever the designations "CSS Commodity Office" or "Commodity Stabilization Service Commodity Office" appear, they are deleted and the designations "ASCS Commodity Office" and "Agricultural Stabilization and Conservation Service Commodity Office", respectively, are substituted therefor.

3. Wherever the designation "Director, Grain Division, CSS" appears, it is deleted and the designation "Director, Grain Division, ASCS" is substituted therefor.

4. Sections 481.156, 483.196, 483.296 and 484.155 are each amended to read "Vice President means the Vice President who is the Administrator, Foreign Agricultural Service".

5. Wherever the designation "Executive Vice President, CCC" appears, it is deleted and the designation Vice President who is "Administrator, FAS," is substituted therefor.

6. Wherever the designation "CSS Cotton Products and Export Operations Office" appears, it is deleted and the designation "ASCS Cotton Products and Export Operations Office" is substituted therefor.

Effective date. The foregoing amendments shall be effective December 30, 1961.

The foregoing amendments relate solely to matters of agency management and personnel and therefore are excepted from the requirements of section 4 of the Administrative Procedure Act (5 U.S.C. 1003).

Done at Washington, D.C., this 30th day of December 1961.

E. A. JAENKE,
Acting Executive Vice President, Commodity Credit Corporation.

[F.R. Doc. 62–666; Filed, Jan. 19, 1962; 8:48 a.m.]

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 8430 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

Kemworth Laboratories, Inc., and Harold H. Fisher

Subpart—Advertising falsely or misleadingly: § 13.130 *Manufacture or preparation;* § 13.195 *Safety:* § 13.195–60 *Product.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Kemworth Laboratories, Inc. et al., Orange, N.J., Docket 8430, Oct. 3, 1961]

In the Matter of Kemworth Laboratories, Inc., a Corporation, and Harold H. Fisher, Individually and as an Officer of Said Corporation

Consent order requiring distributors of drugs in Orange, N.J., including the preparations "Chorionic Gonadotropin Lyopholized", "Posterior Pituitary Solution, U.S.P.", and "Vitamin B–12 Solution", to cease representing falsely in advertisements in periodicals, by such statements as "Rigid quality control", that they employed an adequate control system.

The order to cease and desist is as follows:

It is ordered, That Kemworth Laboratories, Inc., a corporation and its officers, and Harold H. Fisher, individually and as an officer of said corporation, and Respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of drugs, do forthwith cease and desist, directly or indirectly:

1. Disseminating or causing to be disseminated any advertisement by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement:

(a) Uses the term "quality control" or any other term or words of similar import or meaning; or

(b) Represents, directly or indirectly, that Respondents, or any of them, have

an adequate control system, or misrepresents the nature or extent of the procedures used by them in the manufacture, preparation or distribution of drugs:

2. Disseminating or causing the dissemination of any advertisement by any means for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of drugs, which advertisement contains the term, words or representations prohibited in paragraph 1 hereof.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the above-named respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: September 25, 1961.

By the Commission.

[SEAL] JOSEPH W. SHEA, *Secretary.*

[F.R. Doc. 62-648; Filed, Jan. 19, 1962; 8:45 a.m.]

Title 7—AGRICULTURE

Chapter VII—Agricultural Stabilization and Conservation Service (Agricultural Adjustment), Department of Agriculture

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

PART 730—RICE

Subpart—1962–63 Marketing Year

STATE AND COUNTY RESERVE ACREAGES AND COUNTY ACREAGE ALLOTMENTS FOR 1962 CROP

Sec.
730.1305 Basis and purpose.
730.1306 State reserve acreages.
730.1307 County acreage allotments and county reserve acreages.

AUTHORITY: §§ 730.1305 to 730.1307 issued under secs. 301, 353, 375, 52 Stat. 38, 61, as amended, 66; 7 U.S.C. 1301, 1353, 1375.

§ 730.1305 Basis and purpose.

(a) The State and county reserve acreages and county acreage allotments for 1962 crop rice contained in §§ 730.1306 and 730.1307 have been determined pursuant to and in conformity with the provisions of section 353 of the Agricultural Adjustment Act of 1938, as amended. Said sections are issued to announce: (1) State reserve acreage for new farms or new producers in each of the applicable rice-producing States; (2) State reserve acreages for appeals and corrections, missed farms, and adjustments in factored allotments in the producer States of Arizona, California, Florida, North Carolina, Tennessee, Texas, and the "producer administrative area" in Louisiana; and (3) county acreage allotments and county reserve acreages for appeals and corrections, missed farms, and adjustments in factored allotments in the farm States of Arkansas, Illinois, Mississippi, Missouri, Oklahoma, South Carolina, and the "farm administrative area" in Louisiana. Since farm acreage acreage allotments for 1962 crop rice in the producer States, including the "producer administrative area" of Louisiana, will be established pursuant to the act primarily on the basis of past production of rice by the producer on the farm in lieu of past production of rice on the farm, the 1962 State acreage allotments of rice for those States will be apportioned directly to farms, and county acreage allotments and county reserve acreages for appeals and corrections, missed farms, and adjustments in factored allotments will not be determined for such States.

(b) The determinations made in §§ 730.1306 and 730.1307 indicate the amount of State reserve acreages for new farms or new producers in each of the applicable rice-producing States, the amount of State reserve acreages for appeals and corrections, missed farms, and adjustments in factored allotments in the "producer States"; and the amount of county acreage allotments and county reserve acreages for appeals and corrections, missed farms, and adjustments in factored allotments in the "farm States".

(c) The State and county reserve acreages in §§ 730.1306 and 730.1307 were established on the basis of the needs therefor as recommended by the State and county committees.

(d) The county acreage allotments in § 730.1307 were established by apportioning the State acreage allotment, minus the State acreage reserve for new farms, among the counties in the State in the same proportion that they shared in the total acreage allotted in 1956, as provided by section 353(c)(1) and section 353(c)(6) of the Agricultural Adjustment Act of 1938, as amended. No adjustments in county acreage allotments were made under the proviso in section 353(c)(1) of the act.

(e) Prior to the determination of State and county reserve acreages and county acreage allotments for 1962 crop rice, public notice (26 F.R. 8675) was given in accordance with the Administrative Procedure Act (5 U.S.C. 1003). No data, views, or recommendations pertaining to the determination of the State and county reserve acreages and county acreage allotments for 1962 crop rice were submitted pursuant to such notice.

(f) The determinations made in §§ 730.1306 and 730.1307 have been made on the basis of the latest available statistics of the Federal Government as required by section 301(c) of the Agricultural Adjustment Act of 1938, as amended.

(g) Pursuant to the Agricultural Adjustment Act of 1938, as amended, marketing quotas on the 1962 crop of rice have been proclaimed (27 F.R. 145) and the date for the referendum to be held to determine whether farmers are in favor of or opposed to such quotas has been set for January 23, 1962 (27 F.R. 184). The act requires that, insofar as practicable, notices of farm acreage allotments, which are based on State and county allotments and reserves, be mailed to producers in time to be received prior to the referendum. Since the referendum will be held on January 23, 1962, it is necessary to waive the 30-day effective date provision of the Administrative Procedure Act as applied to the determinations herein. Accordingly, this document shall become effective upon filing with the Director, Office of the Federal Register.

§ 730.1306 State reserve acreages.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Orange Reg. 2]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Limitation of Shipments

§ 905.305 Orange Regulation 2.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, including Temple oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of oranges, including Temple oranges, grown in the production area, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on January 16, 1962, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of oranges, including Temple oranges, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade, diameter, standard pack, and standard box, as used herein, shall have the same meaning as is given to the respective term in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140–51.1178 of this title; 25 F.R. 8211).

(2) During the period beginning at 12:01 a.m., e.s.t., January 22, 1962, and ending at 12:01 a.m., e.s.t., February 5, 1962, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(i) Any oranges, including Temple oranges, grown in the production area, which do not grade at least U.S. No. 1 Russet;

(ii) Any oranges, except Temple oranges, grown in the production area, which are of a size smaller than $2\frac{1}{16}$ inches in diameter, except that a tolerance of 10 percent, by count, of oranges smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in said United States Standards for Florida Oranges and Tangelos: *Provided*, That in determining the percentage of oranges in any lot which are smaller than $2\frac{9}{16}$ inches in diameter, such percentage shall be based only on those oranges in such lot which are of a size $2\frac{1}{16}$ inches in diameter or smaller; or

(iii) Any Temple oranges, grown in the production area, which are of a size smaller than $2\frac{9}{16}$ inches in diameter, except that a tolerance of ten percent, by count, of Temple oranges smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in the aforesaid United States Standards for Florida Oranges and Tangelos.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 17, 1962.

FLOYD F. HEDLUND, *Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[F.R. Doc. 62-704; Filed, Jan. 19, 1962; 8:51 a.m.]

[Grapefruit Reg. 2]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Limitation of Shipments

§ 905.306 Grapefruit Regulation 2.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 905 as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos

grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of all grapefruit, grown in the production area, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on January 16, 1962, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade, diameter, standard pack, and standard box, as used herein, shall have the same meaning as is given to the respective term in the United States Standards for Florida Grapefruit (§§ 51.750–51.783 of this title; 26 F.R. 163).

(2) During the period beginning at 12:01 a.m., e.s.t., January 22, 1962, and ending at 12:01 a.m., e.s.t., February 5, 1962, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(i) Any grapefruit, grown in the production area, which do not grade at least U.S. No. 1: *Provided*, That such grapefruit may have discoloration to the extent permitted under the U.S. No. 2 Russet grade, and may have slightly rough texture caused only by speck type melanose;

(ii) Any seeded grapefruit, grown in the production area, which are smaller than $3^{15}/_{16}$ inches in diameter, except that a tolerance of 10 percent, by count, of seeded grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in said United States Standards for Florida Grapefruit; or

(iii) Any seedless grapefruit, grown in the production area, which are smaller than $3^{9}/_{16}$ inches in diameter, except that a tolerance of 10 percent, by count, of seedless grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in said United States Standards for Florida Grapefruit.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 17, 1962.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Tangerine Reg. 2]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Limitation of Shipments

§ 905.307 Tangerine Regulation 2.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 905 as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of tangerines, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when the section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of tangerines, grown in the production area, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on January 16, 1962, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such tangerines; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of tangerines, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade, diameter, and standard pack, as used herein, shall have the same meaning as is given to the respective term in the United States Standards for Florida Tangerines (§§ 51.1810–51.1834 of this title; 25 F.R. 8216).

(2) During the periods beginning at 12:01 a.m., e.s.t., January 22, 1962, and ending at 12:01 a.m., e.s.t., February 5, 1962, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(i) Any tangerines, grown in the production area, that do not grade at least U.S. No. 1; or

(ii) Any tangerines, grown in the production area, that are of a size smaller than the size that will pack 246 tangerines, packed in accordance with the requirements of a standard pack, in a half-standard box (inside dimensions $9\frac{1}{2}$ x $9\frac{1}{2}$ x $19\frac{1}{8}$ inches; capacity 1,726 cubic inches).

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 17, 1962.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Tangelo Reg. 2]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Limitation of Shipments

§ 905.308 Tangelo Regulation 2.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of tangelos, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of tangelos, grown in the production area, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on January 16, 1962, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such tangelos; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of tangelos, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade, diameter, standard pack, and standard box, as used herein, shall have the same meaning as is given to the respective term in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140–51.1178 of this title; 25 F.R. 8211).

(2) During the period beginning at 12:01 a.m., e.s.t., January 22, 1962, and ending at 12:01 a.m., e.s.t., February 5, 1962, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(i) Any tangelos, grown in the production area, which do not grade at least U.S. No. 1 Russet; or

(ii) Any tangelos, grown in the production area, which are of a size smaller than $2^{5}/_{16}$ inches in diameter, except that a tolerance of 10 percent, by count, of tangelos smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in said United States Standards for Florida Oranges and Tangelos.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 17, 1962.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 62–705; Filed, Jan. 19, 1962; 8:51 a.m.]

[Navel Orange Reg. 3]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 907.303 Navel Orange Regulation 3.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act by tending to establish and maintain such orderly marketing conditions for such oranges as will provide, in the interests of producers and consumers, an orderly flow of the supply thereof to market throughout the normal marketing season to avoid unreasonable fluctuations in supplies and prices, and is not for the purpose of maintaining prices to farmers above the level which it is declared to be the policy of Congress to establish under the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on January 18, 1962.

(b) *Order.* (1) The respective quantities of navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a.m., P.s.t., January 21, 1962, and ending at 12:01 a.m., P.s.t., January 28, 1962, are hereby fixed as follows:

(i) District 1: 300,000 cartons;
(ii) District 2: 350,000 cartons;
(iii) District 3: Unlimited movement;
(iv) District 4: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," "District 4," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 19, 1962.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 62–761; Filed, Jan. 19, 1962; 11:23 a.m.]

[Lemon Reg. 3]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 910.303 Lemon Regulation 3.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part

910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011), because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on January 16, 1962.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period beginning at 12:01 a.m., P.s.t., January 21, 1962, and ending at 12:01 a.m., P.s.t., January 28, 1962, are hereby fixed as follows:

(i) District 1: 18,600 cartons;

(ii) District 2: 167,400 cartons;

(iii) District 3: unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 17, 1962.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 62–677; Filed, Jan. 19, 1962; 8:50 a.m.]

PART 989—RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

Modification of Reserve and Surplus Percentages for 1961–62 Crop Year

The Raisin Administrative Committee has unanimously recommended that the percentages of standard natural (sun-dried) Thompson Seedless raisins acquired by handlers during the 1961–62 crop year (which began September 1, 1961) which shall be reserve tonnage and surplus tonnage, heretofore designated (§ 989.217, 26 F.R. 9815) as 15 percent and 20 percent, respectively, be modified by reducing the reserve percentage to 10 percent and increasing the surplus percentage to 25 percent. The committee is established under, and its recommendation is made pursuant to, Marketing Agreement No. 109, as amended, and Order No. 989, as amended (7 CFR Part 989), regulating the handling of raisins produced from grapes grown in California. This marketing agreement and order program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the "act."

On the basis of the estimated 1961 production of 208,000[1] tons of standard natural (sun-dried) Thompson Seedless raisins, the reserve percentage of 15 percent and the surplus percentage of 20 percent provide a reserve tonnage of 31,200 tons and a surplus tonnage of 41,600 tons, respectively. Modification of the reserve percentage from 15 to 10 percent and the surplus percentage from 20 to 25 percent will transfer about 10,400 tons from the reserve pool to the surplus pool. This transfer is necessary to make reserve tonnage not needed in free tonnage outlets available promptly as surplus tonnage for export to countries outside of the Western Hemisphere.

None of the present reserve tonnage has yet been sold by the committee to handlers to augment their supplies available to meet trade demand in free tonnage outlets and for carryout. It is estimated that at least 10,400 tons of the reserve tonnage will not be needed by handlers for these purposes.

However, the committee has disposed of nearly all of the present surplus tonnage. There now exists good demand for additional quantities of surplus tonnage for export through handlers to countries outside the Western Hemisphere, and the transfer will provide raisins for this demand. While any reserve tonnage held unsold by the committee on August 1, 1962 will then automatically become surplus tonnage available for export to such countries, the prompt transfer of about 10,400 tons of reserve tonnage to surplus will provide raisins to supply current export demand and facilitate orderly disposition in export of raisins deemed to be in excess of trade demand and carryout requirements for free tonnage.

In view of the foregoing, and on the basis of the recommendation of the Raisin Administrative Committee and other available information, it is hereby found that to modify the reserve and surplus percentages, as set forth hereinafter, will tend to effectuate the declared policy of the act.

Therefore, § 989.217 (26 F.R. 9815) is hereby revised by modifying the reserve and surplus percentages to read as follows:

§ 989.217 Free, reserve, and surplus tonnage percentages for the 1961–62 crop year.

The percentages of standard natural (sun-dried) Thompson Seedless raisins acquired by handlers during the crop year beginning September 1, 1961, which shall be free tonnage, reserve tonnage, and surplus tonnage, respectively, are designated as follows: Free tonnage percentage, 65 percent; reserve tonnage percentage, 10 percent; and surplus tonnage percentage, 25 percent.

It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice and engage in public rule-making procedure, and that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 1003) in that: (1) Under this regulatory program the percentages designated for a particular crop year and any modification thereof apply to all standard raisins of the applicable varietal type acquired by handlers from the beginning of the crop year, and most of the raisins for the current crop year have been acquired by handlers; (2) the current crop year began on September 1, 1961, and the modified percentages herein designated will automatically apply to such raisins acquired on and after that date; (3) prompt action to make the excess portion of the reserve tonnage of raisins available as surplus tonnage is necessary so that such raisins may be sold to meet current export demand, which may be lost to the California raisin industry if not promptly supplied; and (4) handlers are aware of the modification of the percentages recommended by the committee and no preliminary preparation is required to utilize or comply with this regulation.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 17, 1962.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division.

[F.R. Doc. 62–678; Filed, Jan. 19, 1962; 8:50 a.m.]

[1] All tonnage figures herein are in terms of natural condition weight.

Chapter X—Agricultural Stabilization and Conservation Service (Marketing Agreements and Orders), Department of Agriculture

[Milk Order 64]

PART 1064—MILK IN GREATER KANSAS CITY MARKETING AREA

Order Suspending Certain Provisions

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Greater Kansas City marketing area (7 CFR Part 1064), it is hereby found and determined that:

(a) The following provision of the order, relating to the qualification of a supply plant as a pool plant does not tend to effectuate the declared policy of the Act for the period January 1962: In § 1064.10(b) the words "not less than 50 percent of its supply of".

(b) Notice of proposed rule making, public procedure thereon, and 30 days notice of effective date hereof are impractical, unnecessary, and contrary to the public interest in that:

(1) This suspension order does not require of persons affected substantial or extensive preparation prior to the effective date.

(2) This suspension order is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area.

(3) This suspension order will permit a supply plant to qualify as a pool plant if it ships any milk to pool distributing plants. Such qualification is needed to make available to the market milk which is needed for Class I sales during an emergency supply situation resulting from extremely cold and snowy weather.

(4) Cooperative associations and handlers who handle a substantial volume of the producer milk on the market have requested suspension of this provision.

Therefore, good cause exists for making this order effective for the period January 1962.

It is therefore ordered, That the aforesaid provision of the order is hereby suspended for the month of January 1962.

Effective upon publication in the FEDERAL REGISTER.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Signed at Washington, D.C., on January 17, 1962.

JAMES T. RALPH,
Assistant Secretary.

[F.R. Doc. 62–679; Filed, Jan. 19, 1962; 8:50 a.m.]

Title 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 61—MONEY ORDERS

Signature Requirement for Cashing Money Orders

A notice of a proposed change in the signature requirements for cashing money orders in § 61.3(c) of Title 39, Code of Federal Regulations, was published in the FEDERAL REGISTER of December 9, 1961, at page 11838. Interested persons were given 30 days in which to submit written comments with respect to the proposal.

No comments have been received with respect to the proposed changes. Accordingly, the proposal is adopted without change. As so adopted, § 61.3(c) is amended by adding a new subparagraph (6) to read as follows:

§ 61.3 Cashing money orders.

* * * * * * *

(c) *Signature requirements.* * * *

(6) *More than one payee.* Money orders completed by purchaser to show more than one firm or person as payee may be paid to any of them.

NOTE: The corresponding Postal Manual section is 171.336.

(R.S. 161, as amended; 5 U.S.C. 522, 39 U.S.C. 501, 507, 5101–5105)

LOUIS J. DOYLE,
General Counsel.

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER C—AIRCRAFT REGULATIONS

[Reg. Docket No. 1032; Amdt. 390]

PART 507—AIRWORTHINESS DIRECTIVES

Beech Model 35 Aircraft

Amendment 287 (AD 61–10–1) 26 F.R. 4283, requires inspection of the center section front and rear trusses of Beech Model 35 aircraft at 100-hour intervals. Because of the superiority of magnetic particle inspection over visual and dye penetrant inspections, which will not detect subsurface cracks, Amendment 287 is being superseded by a new directive which permits longer inspection intervals if magnetic particle inspection is used. Provision also is made for inspection periods to be increased when a heavier front truss is used for replacement.

Since this amendment relaxes a requirement and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and this amendment will become effective upon publication in the FEDERAL REGISTER.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 507.10(a) of Part 507 (14 CFR Part 507), is hereby amended by adding the following new airworthiness directive:

BEECH. Applies to all Model 35 aircraft Serial Numbers D–1 through D–1500.

Compliance required as indicated.

Service records disclose that the visual inspections required by previous issues of this airworthiness directive have not adequately covered the entire wing center section steel trusses. Also, since the magnetic particle inspection is superior to other types of inspections in this application, longer intervals between such inspections are acceptable. Therefore, the following inspection in accordance with either (a) or (b) shall be accomplished.

In order to gain access to the forward and rear trusses, remove the front seat bottom, rear seat, front spar forward partition, rear spar partition and all floorboards adjacent to the forward and rear spars and disconnect the air duct located on the right side of the forward spar. Also remove any other adjacent installations as found necessary for access.

(a) Dye penetrant or visual inspection: Within 100 hours' time in service since the last inspection performed in accordance with AD 61–10–1, inspect the center section front and rear wing carry through spar steel trusses for cracks using either the dye penetrant inspection method or a thorough visual inspection with adequate lighting, a 3-power magnifying glass and mirror. The entire truss must be inspected; however, the areas most prone to cracks are the tubes and end fittings adjacent to the four wing attached points on each truss, and in the center sections where the diagonal and vertical tubes attach. Boiled linseed oil or linoil deposits on the truss exterior are likely indications of a crack through the tube wall. Give particular attention to areas near welds. If no cracks are found, repeat the above inspection each 100 hours' time in service. If indications of cracks are found verify by a magnetic particle inspection in accordance with (b). Cracked trusses shall be replaced or repaired prior to further flight in accordance with Beech Service Bulletin 35–24 as revised December 1961, or FAA approved equivalent. If the repairs permitted by Service Bulletin 35–24 are accomplished, the subsequent inspections shall be performed each 100 hours' time in service from the time the repairs were made. If a truss is replaced by one of the same type, the initial repetitive inspection shall be performed within 500 hours' time in service thereafter for the center section front truss and within 1,000 hours' time in service thereafter for the rear truss, and repeated every 100 hours' time in service thereafter.

(b) Magnetic particle inspection: Within the next 100 hours' time in service since the last inspection performed in accordance with AD 61–10–1 inspect the center section front and rear wing carry through spar steel trusses for cracks using the magnetic particle inspection procedures outlined in Beech Service Bulletin 35–24 as revised December 1961, or FAA approved equivalent. If no cracks are found reinspect within each 500 hours' time in service thereafter for the center section front truss and within each 1,000 hours' time in service thereafter for the rear truss. Cracked truss shall be replaced or repaired prior to further flight in accordance with Beech Service Bulletin 35–24 as revised December 1961, or FAA approved equivalent. If the repairs permitted by Service Bulletin 35–24 are accomplished, the two subsequent inspections of the affected truss shall be performed at 100 hours' and 400 hours' time in service from the time the repairs were made. If no cracks are found in the repaired truss during these two inspections or if a truss is replaced by one of the same type, the 500-hour or 1,000-hour intervals become applicable from the time of repair or replacement.

(c) If the front truss is replaced with the new heavier truss P/N 35–410030–17, the repetitive inspection of the front truss required by (a) and (b) shall not commence until 2,000 hours' time in service after replacement. This new truss is readily identifiable since all clips are clamped on instead of welded to the truss. Inspect the rear truss in accordance with either (a) or (b) even though the front truss is replaced.

(d) The inspection agency shall indicate on the airplane log whether one or both trusses were inspected.

(Beech Service Bulletin No. 35-24 as revised December 1961, covers this same subject.)

This supersedes Amendment 287, 26 F.R. 4283.

This amendment shall become effective January 20, 1962.

(Sec. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on January 15, 1962.

G. S. MOORE,
Acting Director,
Flight Standards Service.

[F.R. Doc. 62-639; Filed, Jan. 19, 1962; 8:45 a.m.]

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 61-KC-32]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Alteration

On September 21, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 8910), stating that the Federal Aviation Agency proposed to realign and extend a segment of intermediate altitude VOR Federal airway No. 1676.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated in the notice the following action is taken:

Section 600.1676 (26 F.R. 1090) is amended to read:

§ 600.1676 VOR Federal airway No. 1676 (Chicago, Ill. to Windsor, Ont.).

From the Northbrook, Ill., VOR via the South Bend, Ind., VOR; thence 10-mile wide airway to the INT of the South Bend VOR 075° and the Muskegon, Mich., VOR 157° radials; thence via the INT of the South Bend VOR 075° and the Windsor, Ont., VOR 261° radials; to the INT of the Windsor VOR 261° and the Salem, Mich., VOR 123° radials; thence 10-mile wide airway to the Windsor VOR, excluding the portion which lies over Canada.

This amendment shall become effective 0001 e.s.t., March 8, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 16, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-641; Filed, Jan. 19, 1962; 8:45 a.m.]

[Airspace Docket No. 61-LA-77]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Alteration

On September 28, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 9137), stating that the Federal Aviation Agency proposed to alter intermediate altitude VOR Federal airway No. 1557 between Sacramento, Calif., and Linden, Calif.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for reasons stated in the notice, the following action is taken: In the text of § 600.1557 (26 F.R. 1087, 10428) "to the Linden, Calif., VOR; thence via the Sacramento, Calif., VOR; thence 10 mile wide airway via the INT of Sacramento VOR 346° and the Red Bluff, Calif., VOR 158° radials;" is deleted and "Linden, Calif., VOR; Sacramento, Calif., VOR; INT of the Sacramento VOR 346° and the Red Bluff, Calif., VOR 158° radials;" is substituted therefor.

This amendment shall become effective 0001 e.s.t., March 8, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 16, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-642; Filed, Jan. 19, 1962; 8:45 a.m.]

[Airspace Docket No. 61-WA-242]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration of Transition Area

On December 27, 1961, there was published in the FEDERAL REGISTER (26 F.R. 12507), an amendment to Part 601 of the regulations of the Administrator. This amendment, effective January 11, 1962, designated the Gila Bend, Ariz., transition area (§ 601.10861).

Subsequent to publication of the amendment, it has been determined that this transition area penetrates the northern boundary of the Ajo, Ariz., Restricted Area (R-2301) and the Gila Bend Restricted Area (R-2305) by ¾ of a mile. To eliminate the conflict between the transition area and the restricted areas, action is taken herein to alter the description of the transition area by excluding the portions of the transition area that coincide with the restricted areas. This action will not require a change to the holding pattern procedures executed within this transition area.

Since this action is minor in nature and imposes no additional burden on any person, notice and public procedure hereon are unnecessary, and it may be made effective on less than 30 days notice.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), the following action is taken: In § 601.10861 (26 F.R. 12507), "20 miles W of the VORTAC." is deleted and "20 miles W of the VORTAC, excluding the portions which coincide with R-2301 and R-2305." is substituted therefor.

This amendment shall become effective 0001 e.s.t., February 8, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 16, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-645; Filed, Jan. 19, 1962; 8:45 a.m.]

[Airspace Docket No. 60-HO-4]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration

On March 25, 1961, there were published in the FEDERAL REGISTER (26 F.R. 2549), amendments to Parts 600 and 601 of the Regulations of the Administrator which, in part, designated the Breakers Intersection as the Intersection of the Honolulu, Hawaii, VORTAC 269° and the Lihue, Hawaii VOR 128° radials to become effective November 16, 1961. This effective date was postponed until February 8, 1962 (26 F.R. 9207, dated September 30, 1961).

In describing the Breakers Intersection, the Lihue VOR 128° radial was incorrectly cited. This should have read the Lihue VOR 130° radial. Action is taken herein to correct this error.

Since this alteration is minor in nature and imposes no additional burden on any person, notice and public procedure hereon are unnecessary, and the effective date of the final rule as amended may be retained.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), effective immediately, Airspace Docket No. 60-HO-4 (26 F.R. 2549, 9207), Item 16., (b), (2), is altered to read as follows:

Breakers INT: INT of the Honolulu, Hawaii, VORTAC 269° and the Lihue, Hawaii, VOR 130° radials.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 16, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-640; Filed, Jan. 19, 1962; 8:45 a.m.]

[Airspace Docket No. 61-WA-214]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration of Positive Control Area

On December 6, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 11686), stating that the Federal Aviation Agency proposed to expand the Chicago, Ill./Indianapolis, Ind., positive control area.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated in the notice, § 601.9011 (14 CFR 601.9011, 26 F.R. 5621) is amended to read:

§ 601.9011 Positive control area (Chicago, Ill.-Indianapolis, Ind.).

That airspace within the continental control area, from flight level 240 to and including flight level 600, bounded by a line beginning at:

Latitude 43°40'00" N., longitude 90°00'00" W.; thence to latitude 43°40'00" N., longitude 87°40'00" W.; thence to latitude 43°14'20" N., longitude 87°44'30" W.; thence to latitude 43°16'00" N., longitude 86°30'00" W.; thence to latitude 43°20'00" N., longitude 86°30'00" W.; thence to latitude 43°30'00" N., longitude 86°45'00" W.; thence to latitude 44°20'00" N., longitude 84°50'00" W.; thence to latitude 44°00'00" N., longitude 82°13'00" W.; thence southward and eastward along the United States/Canadian Border to latitude 43°38'00" N., longitude 76°47'30" W.; thence to latitude 42°45'00" N., longitude 76°50'00" W.; thence to latitude 40°45'00" N., longitude 78°35'00" W.; thence to latitude 40°15'00" N., longitude 78°25'00" W.; thence to latitude 38°33'00" N., longitude 80°55'00" W.; thence to latitude 38°00'00" N., longitude 81°00'00" W.; thence to latitude 37°00'00" N., longitude 83°40'00" W.; thence to latitude 37°40'00" N., longitude 87°30'00" W.; thence to latitude 38°30'00" N., longitude 88°00'00" W.; thence to latitude 39°22'00" N., longitude 88°00'00" W.; thence counterclockwise along an arc with a 65-statute mile radius centered at latitude 39°05'37" N., longitude 89°09'45" W.; to latitude 39°55'30" N., longitude 88°35'30" W.; thence to latitude 40°03'00" N., longitude 89°07'00" W.; thence counterclockwise along an arc with a 29-statute mile radius centered at latitude 39°-53'32" N., longitude 89°37'31" W.; to latitude 40°17'20" N., longitude 89°48'00" W.; thence to latitude 40°06'30" N., longitude 90°10'00" W.; thence to latitude 41°00'00" N., longitude 90°50'00" W.; thence to latitude 42°00'00" N., longitude 91°00'00" W.; thence to latitude 43°10'00" N., longitude 90°30'00" W.; thence to the point of beginning.

This amendment shall become effective 0001 e.s.t., March 8, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 16, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[Airspace Docket No. 61-KC-38]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

PART 608—SPECIAL USE AIRSPACE

Alteration of Restricted Area and Continental Control Area

On September 23, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 8990), stating the Federal Aviation Agency was considering the alteration of the Camp Atterbury, Ind., Restricted Area R-3401 by increasing the designated altitude, increasing the designated time of use and assigning as controlling agency the Federal Aviation Agency, Indianapolis ARTC Center. In addition it was proposed to include R-3401 as part of the continental control area.

No adverse comment was received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated in the notice, the following actions are taken:

1. In § 608.34 *Indiana*, R-3401 Camp Atterbury, Ind. (26 F.R. 7194), is amended to read:

R-3401 Camp Atterbury, Ind.:

Boundaries. Beginning at latitude 39°21'-30" N., longitude 86°06'00" W.; to latitude 39°21'30" N., longitude 85°59'30" W.; to latitude 39°13'00" N., longitude 86°06'00" W.; to the point of beginning.

Designated altitudes. Surface to 40,000 feet MSL.

Time of designation. Continuous.

Controlling agency. Federal Aviation Agency, Indianapolis ARTC Center.

Using agency. Commanding officer, Camp Atterbury, Ind.

2. In the text of § 601.7101 (26 F.R. 1399) the following is added:

R-3401 Camp Atterbury, Ind.

These amendments shall become effective 0001 e.s.t., April 5, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 16, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-644; Filed, Jan. 19, 1962; 8:45 a.m.]

Title 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T.D. 55548]

PART 1—CUSTOMS DISTRICTS, PORTS, AND STATIONS

Ports of Entry; Changes in Customs Field Organization

JANUARY 15, 1962.

By virtue of the authority vested in the President by section 1 of the Act of August 1, 1914, 38 Stat. 623 (19 U.S.C. 2), which was delegated to the Secretary of the Treasury by the President by Executive Order No. 10289, September 17, 1951 (3 CFR Ch. II), and pursuant to authorization given to me by Treasury Department Order No. 190, Rev. 1 (26 F.R. 11877), the limits of the customs port of entry of Atlanta, Georgia, in Customs Collection District No. 17 (Georgia) which now comprise the corporate limits of the city of Atlanta, Georgia, are hereby extended to include:

All that area within Fulton, Cobb, and DeKalb Counties, Georgia, bounded by a line beginning at the point of intersection of Fulton, Clayton, and Fayette County lines; thence southwest along Fulton-Fayette County line to intersection with State Route 92; thence northwest along State Route 92 to intersection with Chattahoochee River; thence northeast along Chattahoochee River to intersection with State Route 3; thence northwest along State Route 3 to intersection with State Route 280; thence southeast along State Route 280 to intersection with U.S. Highway 41; thence southeast along U.S. Highway 41 to intersection with Chattahoochee River; thence along Chattahoochee River in a northeasterly direction to intersection with Fulton-Gwinett County line; thence south along Gwinett County line to intersection with U.S. Highway 23; thence in a southerly direction along U.S. Highway 23 to intersection with State Route 155; thence south along State Route 155 to intersection with Decatur city boundary; thence east and south along Decatur city boundary to intersection with State Route 155; thence south along State Route 155 to intersection with Flat Shoals Road; thence along Flat Shoals Road four-tenths (0.4) mile to intersection with Panthersville Road; thence south along Panthersville Road to intersection with Bouldercrest Road; thence south along Bouldercrest Road to intersection with DeKalb-Clayton County line; thence west and south along Clayton County line to point of beginning, and also the Atlanta Municipal Airport which lies partly in Fulton County and partly in Clayton County.

This extension is effective on the date of publication of this Treasury decision in the FEDERAL REGISTER.

Section 1.1(c), Customs regulations, is amended by adding after "Atlanta" in the column headed "Ports of Entry" in District No. 17 (Georgia) "(including territory described in T.D. 55548)."

In order to correctly reflect the status of Hawaii as a State, the second sentence of footnote 4 in Part 1 of the Customs regulations is amended to read as follows:

Marine documents may also be issued at the Commercial Port of Guam, under the supervision of the collector of customs at Honolulu, Hawaii.

In order to correctly reflect the status of Puerto Rico as a commonwealth, § 1.1(c) of the Customs regulations is amended by deleting "The Territory of Puerto Rico" in the column headed "Area of District" in District No. 40 (Puerto Rico) and substituting therefor "The Commonwealth of Puerto Rico."

Salisbury, Maryland, was designated as a customs station in Customs Collection District No. 13 (Maryland) on July 5, 1961. To reflect this designation, § 1.2 (d), Customs regulations is amended by inserting in its proper numerical order the following entry in the list of customs stations:

District No.	Customs station	Port of entry having supervision
13	Salisbury, Md	Baltimore.

In order to show district numbers for the various comptrollers of customs districts, the listing of assignments of customs districts to comptrollers of customs in § 1.4 of the Customs regulations is changed to read as follows:

Comptroller district	Address	Customs districts
1	Customhouse, Boston, Mass.	1, 2, 4, 5, 6, and 7.
2	Customhouse, New York, N.Y.	8, 9, and 10.
3	Customhouse, Philadelphia, Pa.	11, 12, 38, 40, 41, 42, and 43.
4	Customhouse, Baltimore, Md.	13, 14, 15, 16, 17, 18, 49, and 51.
5	Customhouse, Chicago, Ill.	33, 34, 35, 36, 37, 39, 45, and 47.
6	Customhouse, New Orleans, La.	19, 20, 21, 22, 23, 24, 26, and 50.
7	Customhouse, San Francisco, Calif.	25, 27, 28, 29, 30, 31, and 32.

In order to correct the addresses for the office locations of appraisers of merchandise in customs districts Nos. 1, 5, 12, 15, 17, 30, 34, 35, and 45, the following descriptions are substituted in § 1.6 of the Customs Regulations to replace those now appearing therein:

District No.	Name of district	Location of headquarters	Address of appraiser of merchandise
34	Dakota	Pembina, N. Dak	202 Federal Bldg.
17	Georgia	Savannah, Ga	1-3 E. Bay St.
1	Maine and New Hampshire	Portland 3, Maine	Box 593, Pearl St. Station.
35	Minnesota	Minneapolis 1, Minn	150 U.S. Courthouse.
15	North Carolina	Wilmington, N.C	Rm. 204, Princess and Water Sts.
12	Pittsburgh	Pittsburgh 19, Pa	7th Ave. and Grant St.
5	Rhode Island	Providence 3, R. I	24 Weybosset St.
45	St. Louis	St. Louis 1, Mo	1114 Market St.
30	Washington	Seattle 4, Wash	34 Federal Office Bldg.

(R.S. 161, sec. 1, 37 Stat. 434, sec. 1, 38 Stat. 623, as amended, R.S. 251, sec. 624, 46 Stat. 759; 5 U.S.C. 22, 19 U.S.C. 1, 2, 66, 1624)

[SEAL] JAMES A. REED,
Assistant Secretary of the Treasury.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 15—CEREAL FLOURS AND RELATED PRODUCTS; DEFINITIONS AND STANDARDS OF IDENTITY

Enriched Corn Meals; Standard of Identity; Effective Date

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055; as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371) and in accordance with the authority delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education, and Welfare (25 F.R. 8625), notice is hereby given that no objections were filed to the order published in the FEDERAL REGISTER of November 28, 1961 (26 F.R. 11209) with regard to calcium in self-rising enriched corn meals. Accordingly, the amendment promulgated by that order will become effective January 27, 1962.

(Secs. 401, 701, 52 Stat. 1046, 1055; as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371)

Dated: January 15, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 62-662; Filed, Jan. 19, 1962; 8:47 a.m.]

SUBCHAPTER C—DRUGS

PART 141a—PENICILLIN AND PENICILLIN-CONTAINING DRUGS; TESTS AND METHODS OF ASSAY

PART 141b—STREPTOMYCIN (OR DIHYDROSTREPTOMYCIN) AND STREPTOMYCIN- (OR DIHYDROSTREPTOMYCIN-) CONTAINING DRUGS; TESTS AND METHODS OF ASSAY

PART 141c—CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS; TESTS AND METHODS OF ASSAY

PART 141d—CHLORAMPHENICOL AND CHLORAMPHENICOL-CONTAINING DRUGS; TESTS AND METHODS OF ASSAY

PART 141e—BACITRACIN AND BACITRACIN-CONTAINING DRUGS; TESTS AND METHODS OF ASSAY

Miscellaneous Amendments

Under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug and Cosmetic Act (sec. 507, 59 Stat. 463 as amended; 21 U.S.C. 357) and delegated to the Commissioner of Food and Drugs by the Secretary (25 F.R. 8625), the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR 141a.29, 141a.45, 141a.54, 141a.60, 141a.100, 141b.111, 141c.214, 141c.218, 141c.230, 141c.231, 141d.301, 141e.430) are amended as indicated below:

1. Section 141a.29(a) is amended to read as follows:

§ 141a.29 Procaine penicillin for aqueous injection.

(a) *Potency.* Using as the sample for assay a representative aliquot of the suspension equivalent to one dose (or, if it is a dry mixture of the drug, a representative aliquot of the drug equivalent to one dose after it has been reconstituted as directed in the labeling), proceed as directed in § 141a.1, using approximately 50 to 100 milliliters of redistilled methyl alcohol, dimethyl formamide, or formamide to dissolve the sample, or by the iodometric method as described in § 141a.5(d)(1), except dissolve the sample in about 5.0 milliliters of redistilled methyl alcohol, dimethyl formamide, or formamide prior to diluting with 1 percent phosphate buffer, pH 6.0. Its potency is satisfactory if it contains not less than 90 percent of the number of units that it is represented to contain.

2. Section 141a.45(a) is amended to read as follows:

§ 141a.45 *l*-Ephenamine penicillin G for aqueous injection.

(a) *Potency.* Proceed as directed in § 141a.43(a), using as the sample for assay a representative aliquot of the suspension equivalent to one dose; or if it is a dry mixture of the drug, a representative aliquot of the drug equivalent to one dose after it has been reconstituted as directed in the labeling. Its potency is satisfactory if it contains not less than 90 percent of the number of units that it is represented to contain.

3. Section 141a.54(a) is amended to read as follows:

§ 141a.54 Benzathine penicillin G for aqueous injection.

(a) *Potency.* Proceed as directed in § 141a.47(a), using as the sample for assay a representative aliquot of the suspension equivalent to one dose; or if it is a dry mixture of the drug, a representative aliquot of the drug equivalent to one dose after it has been reconstituted as directed in the labeling. Its potency is satisfactory if it contains not less than 90 percent of the number of units that it is represented to contain.

§ 141a.60 [Amendment]

4. In § 141a.60 *Penicillin and dihydrostreptomycin-streptomycin sulfates veterinary* • • •, a new sentence is inserted after "(a) *Potency.*"

(a) *Potency.* Use as the sample for assay a representative aliquot of the suspension equivalent to one dose; or if it is a dry mixture of the drug, a representative aliquot of the drug equivalent to one dose after it has been reconstituted as directed in the labeling.

§ 141a.100 [Amendment]

5. In § 141a.100 *Phenethicillin potassium (potassium α-phenoxyethyl penicillin)*, paragraph (h) is revised to read as follows:

(h) *Identity.* Add 0.5 milliliter of a methyl alcohol solution containing 2.0 milligrams per milliliter to a test tube, and dry under a current of air. Add one drop of an aqueous chromotropic acid solution containing 10 milligrams per milliliter. Add two milliliters of sulfuric acid and heat in a glycerol bath at 150° C. for 3 to 4 minutes. An olive-green color is produced. (Penicillin V or its salts give a blue or purple color.)

§ 141b.111 [Amendment]

6. In § 141b.111 *Streptomycin sulfate solution* • • •, paragraph (a) is amended by changing "and 141b.106(b)" to read "and 141b.106 (b) and (c)".

7. Section 141c.214(a) is amended to read as follows:

§ 141c.214 Chlortetracycline dressing.

(a) *Potency.* Using appropriate volumes of peroxide-free ether and 0.01 *N* HCl and individual dressing, or if it is a strip dressing an accurately weighed representative portion of approximately 1.5 grams, proceed as directed in § 141c.202(a).

§ 141c.218 [Amendment]

8. In § 141c.218 *Tetracycline hydrochloride*, paragraph (a) is amended to read as follows:

(a) *Potency.* Use the tetracycline hydrochloride working standard as the standard of comparison, and proceed as directed in § 141c.201(a), except:

(1) Use 0.1 *N* HCl instead of 0.01 *N* HCl for the preparation of the standard stock solution and the sample stock solution.

(2) In the cylinder-plate assay:

(i) Further dilute the samples in 0.1 *M* phosphate buffer, pH 4.5, to an estimated final concentration of 1.0 microgram per milliliter instead of 0.10 microgram per milliliter; and

(ii) The final concentrations for the standard curve are 0.64, 0.8, 1.0, 1.25, and 1.56 micrograms per milliliter.

(3) In the turbidimetric assay:

(i) Further dilute the samples in 0.1 *M* phosphate buffer, pH 4.5, to an estimated final concentration of 0.24 microgram per milliliter instead of 0.06 microgram per milliliter; and

(ii) The final concentrations for the standard curve are 0.146, 0.187, 0.240, 0.308, and 0.395 microgram per milliliter.

The potency of tetracycline hydrochloride intended for use by injection is satisfactory if each immediate container contains not less than 90 percent of the tetracycline hydrochloride that it is represented to contain.

§ 141c.230 [Amendment]

9. In § 141c.230 *Chlortetracycline hydrochloride powder topical* • • •, paragraph (a)(2) is changed to read as follows:

(a) *Potency.* • • •

(2) *Powder packaged with inert gases.* Spray, as directed in the labeling, the entire contents of each container to be tested into a separate 2-liter Erlehmeyer flask, held in a horizontal position. Add 500 milliliters of 0.1 *N* HCl and shake to dissolve the contents. Immediately remove aliquots of this solution and, using 0.1 *M* potassium phosphate buffer, pH 4.5, for further dilutions, proceed as directed in § 141c.201(a) if it is chlortetracycline hydrochloride powder or § 141c.218(a) if it is tetracycline hydrochloride powder. Calculate the average total amount of antibiotic expelled from the containers. The total potency is satisfactory if it contains not less than 85 percent of the number of milligrams of chlortetracycline hydrochloride or tetracycline hydrochloride that it is represented to contain.

§ 141c.231 [Amendment]

10. Section 141c.231 *Capsules tetracycline and oleandomycin phosphate* • • • is amended as follows:

a. Paragraph (a)(1)(ii) is amended to read as follows:

(a) *Potency.* • • •

(1) • • •

(ii) *Working standard and solutions.* Dissolve an appropriate amount of the working standard in sufficient 0.1 *N* HCl to give a concentration of 1,000 micrograms per milliliter. This stock solution may be kept in the refrigerator for 1 week. Make daily dilutions of the stock solution with 0.1 M potassium phosphate buffer (pH 4.5) to obtain concentrations of 0.146, 0.187, 0.240, 0.308, and 0.395 micrograms per milliliter. Add 1.0 milliliter of each such concentration to each of three 16 millimeters x 125 millimeters test tubes.

b. Paragraph (c)(1)(vi) is amended by changing the words "as described in subdivision (ii)(b)" to read "as described in subdivision (ii)(a)".

11a. Section 141d.301(a)(3) is amended to read as follows:

§ 141d.301 Chloramphenicol.

(a) *Potency.* • • •

(3) *Working standard.* Dissolve a weighing of the standard in sufficient ethyl alcohol to give a solution of 10,000 micrograms per milliliter. Further dilute in 1 percent phosphate buffer, pH 6.0, to give a stock solution of 1,000 micrograms per milliliter. This stock solution may be used for 1 month if stored in a refrigerator. The working standard is prepared from the stock solution by diluting a portion with 1 percent phosphate buffer, pH 6.0, to a concentration of 50 micrograms per milliliter.

§ 141d.301 [Amendment]

b. In § 141d.301, paragraph (a)(7) is amended by changing the fourth sentence to read as follows: "At the same time, prepare a standard curve by diluting the stock standard solution with 1 percent phosphate buffer, pH 6.0, to give final concentrations of 32.0, 40.0, 50.0, 62.5, and 78.1 micrograms per milliliter."

§ 141e.430 [Amendment]

12. In § 141e.430 *Bacitracin-neomycin-polymyxin powder topical;* • • •, paragraph (b) is amended by changing the second sentence to read: "Freeze the container by placing in a suitable sharp freezing unit having a temperature not higher than −30° C."

The setting of the effective date of this order will be delayed 30 days to permit any interested person to file comments or objections. Any such comments should be submitted in triplicate to the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C.

(Sec. 507, 59 Stat. 463 as amended; 21 U.S.C. 357)

Dated: January 16, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 62-664; Filed, Jan. 19, 1962; 8:47 a.m.]

PART 146a—CERTIFICATION OF PENICILLIN AND PENICILLIN-CONTAINING DRUGS

Sampling Requirements

In the matter of amending the regulations for the certification of penicillin and penicillin-containing drugs to require collection of samples during the time the batch is being packaged into market containers:

There was published in the FEDERAL REGISTER of March 11, 1961 (26 F.R. 2127) a proposal to amend the regulations affecting the collection of samples of tablets, troches, and capsules of antibiotic and antibiotic-containing drugs subject to section 507 of the Federal Food, Drug, and Cosmetic Act. The Commissioner of Food and Drugs has considered comments and objections to the proposal, some of which are accepted and some rejected, and has concluded that changes in the regulations should be made with respect only to penicillin and penicillin-containing drugs.

Therefore, under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 507(b), 59 Stat. 463, as amended; 701(a), 52 Stat. 1055; 21 U.S.C. 357(b), 371(a)), and delegated to the Commissioner by the Secretary (25 F.R. 8625), the regulations for certification of penicillin and penicillin-containing drugs (21 CFR 146a.17 (26 F.R. 7733), 146a.21, 146a.27, 146a.30, 146a.34, 146a.38, 146a.53, 146a.60, 146a.88, 146a.92, 146a.106) are amended as follows:

1. Section 146a.17(d)(1), (d)(2)(i), (d)(3)(i), and (e)(1) is changed to read as follows:

§ 146a.17 Phenethicillin potassium (potassium-phenoxyethyl penicillin) tablets.

• • • • • •

(d) *Request for certification; samples.* (1) In addition to complying with the requirements of § 146.2 of this chapter, a person who requests certification of a

batch of phenethicillin potassium tablets shall submit with his request a statement showing the batch mark, the number of tablets in such batch, the number of tablets of the batch packaged into dispensing-size containers during each day's packaging operations, the number of units in each tablet, the date on which the latest assay of the drug comprising such batch was completed, the date (unless submitted previously) on which the latest assay of the phenethicillin potassium used in making such batch was completed, the quantity of each ingredient used in making the batch, and a statement that each such ingredient conforms to the requirements prescribed therefor, if any, by this section.

(2) • • •

(i) The batch:

(*a*) If the person who requests certification is the manufacturer of the batch: Average potency and average moisture of tablets collected during the time of tableting the batch, and, unless the tablets are packaged into dispensing-size containers immediately after they are compressed, average moisture of tablets collected during each day of packaging the batch.

(*b*) If the person who requests certification is not the manufacturer of the batch: Average potency and average moisture of tablets collected during each day the tablets are being packaged into dispensing-size containers.

• • • • •

(3) • • •

(i) The batch:

(*a*) If the person who requests certification is the manufacturer of the batch: One tablet for each 5,000 tablets in the batch, but in no case less than 30 tablets collected by taking single tablets at such intervals throughout the entire time of tableting the batch that the quantities tableted during the intervals are approximately equal;

(*b*) If, after tableting, such person packages the batch into dispensing-size containers: 20 tablets collected at equal intervals during each day the tablets are being packaged, except that this sample is not required if the tablets are packaged immediately after they are compressed;

or

(*c*) If the person who requests certification is not the manufacturer of the batch (for the purposes of certification, a batch shall be that number of tablets filled by such person into dispensing-size containers during each day's packaging operations): One tablet for each 5,000 tablets, but in no case less than 30 tablets collected by taking single tablets at such intervals throughout each day of packaging the tablets that the quantities packaged during the intervals are approximately equal.

• • • • •

(e) *Fees.* • • •

(1) $0.75 for each tablet in the samples submitted in accordance with paragraph (d)(3)(i) (*a*) and (*c*) of this section; $3.00 for the sample submitted in accordance with paragraph (d)(3)(i)(*b*) of this section; $5.00 for each package in the sample submitted in accordance with paragraph (d)(3)(ii) of this section; $4.00 for each package in the sample submitted in accordance with paragraph (d)(3)(iii) of this section.

2. Section 146a.21 (d)(1), (d)(2)(i), (d)(3)(i), and (e)(1) is changed to read as follows:

§ 146a.21 Capsules penicillin-tetracycline phosphate complex-novobiocin-nystatin veterinary.

• • • • •

(d) *Request for certification; samples.* (1) In addition to complying with the requirements of § 146.2 of this chapter, a person who requests certification of a batch shall submit with his request a statement showing the batch mark; the number of capsules in such batch; the number of capsules of the batch packaged into dispensing-size containers during each day's packaging operations; the batch marks and (unless submitted previously) the dates on which the latest assays of the penicillin, tetracycline phosphate complex, novobiocin, and nystatin used in making such batch were completed; the quantity of each ingredient used in making the batch; the date on which the latest assay of the drug comprising such batch was completed; and a statement that each other ingredient used conforms to the requirements prescribed therefor by this section.

(2) • • •

(i) The batch:

(*a*) If the person who requests certification is the manufacturer of the batch: Average potency and average moisture of capsules collected during the time of capsuling the batch, and, unless the capsules are packaged into dispensing-size containers immediately after they are capsuled, average moisture of capsules collected during each day of packaging the batch.

(*b*) If the person who requests certification is not the manufacturer of the batch: Average potency and average moisture of capsules collected during each day the capsules are being packaged into dispensing-size containers.

• • • • •

(3) • • •

(i) The batch:

(*a*) If the person who requests certification is the manufacturer of the batch: One capsule for each 5,000 capsules in the batch, but in no case less than 30 capsules collected by taking single capsules at such intervals throughout the entire time of capsuling the batch that the quantities capsuled during the intervals are approximately equal;

(*b*) If, after capsuling, such person packages the batch into dispensing-size containers: 20 capsules collected at equal intervals during each day the capsules are being packaged, except that this sample is not required if the capsules are packaged immediately after they are capsuled;

or

(*c*) If the person who requests certification is not the manufacturer of the batch (for the purposes of certification, a batch shall be that number of capsules filled by such person into dispensing-size containers during each day's packaging operations): One capsule for each 5,000 capsules, but in no case less than 30 capsules collected by taking single capsules at such intervals throughout each day of packaging the capsules that the quantities packaged during the intervals are approximately equal.

• • • • •

(e) *Fees.* • • •

(1) $1.50 for each capsule in the samples submitted in accordance with paragraph (d)(3)(i) (*a*) and (*c*) of this section; $3.00 for the sample submitted in accordance with paragraph (d)(3)(i)(*b*) of this section; $4.00 for each immediate container in the samples submitted in accordance with paragraph (d)(3)(ii), (iii), (iv), (v), and (vi) of this section.

3. Section 146a.27(d)(1), (d)(2)(i), (d)(3)(i), and (e)(1) is amended to read as follows:

§ 146a.27 Penicillin tablets.

• • • • •

(d) *Requests for certification; samples.* (1) In addition to complying with the requirements of § 146.2 of this chapter, a person who requests certification of a batch shall submit with his request a statement showing the batch mark, the number of tablets in such batch, the number of tablets of the batch packaged into dispensing-size containers during each day's packaging operations, the number of units in each tablet, the date on which the latest assay of the drug comprising such batch was completed, the date (unless submitted previously) on which the latest assay of the penicillin used in making such batch was completed, the quantity of each ingredient used in making the batch, and a statement that such ingredient conforms to the requirements prescribed therefor, if any, by this section.

(2) • • •

(i) The batch:

(*a*) If the person who requests certification is the manufacturer of the batch: Average potency and average moisture of tablets collected during the time of tableting the batch, and, unless the tablets are packaged into dispensing-size containers immediately after they are compressed, average moisture of tablets collected during each day of packaging the batch.

(*b*) If the person who requests certification is not the manufacturer of the batch: Average potency and average moisture of tablets collected during each day the tablets are being packaged into dispensing-size containers.

• • • • •

(3) • • •

(i) The batch:

(*a*) If the person who requests certification is the manufacturer of the batch: One tablet for each 5,000 tablets in the batch, but in no case less than 30 tablets collected by taking single tablets at such intervals throughout the entire time of tableting the batch that the quantities tableted during the intervals are approximately equal;

(*b*) If, after tableting, such person packaged the batch into dispensing-size containers during each day's packaging operations): One capsule for each 5,000 capsules, but in no case less than 30 capsules collected by taking single capsules at such intervals throughout each day of packaging the capsules that the quantities packaged during the intervals are approximately equal.

• • • • •

(e) *Fees.* • • •

(1) $1.50 for each capsule in the samples submitted in accordance with paragraph (d)(3)(i) (*a*) and (*c*) of this section; $3.00 for the sample submitted in accordance with paragraph (d)(3)(i)(*b*) of this section; $4.00 for each immediate container in the samples submitted in accordance with paragraph (d)(3)(ii), (iii), (iv), (v), and (vi) of this section.

3. Section 146a.27(d)(1), (d)(2)(i), (d)(3)(i), and (e)(1) is amended to read as follows:

§ 146a.27 Penicillin tablets.

• • • • •

(d) *Requests for certification; samples.* (1) In addition to complying with the requirements of § 146.2 of this chapter, a person who requests certification of a batch shall submit with his request a statement showing the batch mark, the number of tablets in such batch, the number of tablets of the batch packaged into dispensing-size containers during each day's packaging operations, the number of units in each tablet, the date on which the latest assay of the drug comprising such batch was completed, the date (unless submitted previously) on which the latest assay of the penicillin used in making such batch was completed, the quantity of each ingredient used in making the batch, and a statement that such ingredient conforms to the requirements prescribed therefor, if any, by this section.

(2) • • •

(i) The batch:

(*a*) If the person who requests certification is the manufacturer of the batch: One tablet for each 5,000 tablets in the batch, but in no case less than 30 tablets collected by taking single tablets at such intervals throughout the entire time of tableting the batch that the quantities tableted during the intervals are approximately equal;

(*b*) If, after tableting, such person packages the batch into dispensing-size containers: 20 tablets collected at equal intervals during each day the tablets are being packaged, except that this sample is not required if the tablets are packaged immediately after they are compressed;

or

(*c*) If the person who requests certification is not the manufacturer of the batch (for the purposes of certification, a batch shall be that number of tablets filled by such person into dispensing-size containers during each day's packaging operations): One tablet for each 5,000 tablets in the batch, but in no case less than 30 tablets collected by taking single tablets at such intervals throughout each day of packaging the tablets that the quantities packaged during the intervals are approximately equal.

• • • • •

(e) *Fees.* • • •

(1) $0.75 for each tablet in the samples submitted in accordance with paragraph (d)(3)(i) (*a*) and (*c*) of this section; $3.00 for the sample submitted in accordance with paragraph (d)(3)(i)(*b*) of this section; $4.00 for each package submitted in accordance with paragraph (d)(3)(ii) and (iii) of this section.

4. Section 146a.30 (d)(1), (d)(2)(i), (d)(3)(i), and (e)(1) is amended in the following respects:

§ 146a.30 Penicillin troches.

• • • • •

(d) *Requests for certification; samples.* (1) In addition to complying with the requirements of § 146.2 of this chapter, a person who requests certification of a batch shall submit with his request a statement showing the batch mark, the number of troches in such batch, the number of troches of the batch packaged into dispensing-size containers during each day's packaging operations, the number of units in each troche, the date on which the latest assay of the drug comprising such batch was completed, the batch mark and date (unless submitted previously) on which the latest assay of the penicillin used in making such batch was completed, the quantity of each ingredient used in making the batch, and a statement that each such ingredient conforms to the requirements prescribed therefor, if any, by this section.

(2) • • •

(i) The batch:

(*a*) If the person who requests certification is the manufacturer of the batch: Average potency and average moisture of troches collected during time of making them, and, unless the troches are packaged into dispensing-size containers immediately after they are manufactured, average moisture of troches collected during each day of packaging the batch.

(*b*) If the person who requests certification is not the manufacturer of the batch: Average potency and average moisture of troches collected during each day the troches are being packaged into dispensing-size containers.

• • • • •

containers: 20 tablets collected at equal intervals during each day the tablets are being packaged, except that this sample is not required if the tablets are packaged immediately after they are compressed;

or

(*c*) If the person who requests certification is not the manufacturer of the batch (for the purposes of certification, a batch shall be that number of tablets filled by such person into dispensing-size containers during each day's packaging operations): One tablet for each 5,000 tablets in the batch, but in no case less than 30 tablets collected by taking single tablets at such intervals throughout each day of packaging the tablets that the quantities packaged during the intervals are approximately equal.

• • • • •

(e) *Fees.* • • •

(1) $0.75 for each tablet in the samples submitted in accordance with paragraph (d)(3)(i) (*a*) and (*c*) of this section; $3.00 for the sample submitted in accordance with paragraph (d)(3)(i)(*b*) of this section; $4.00 for each package submitted in accordance with paragraph (d)(3)(ii) and (iii) of this section;

4. Section 146a.30 (d)(1), (d)(2)(i), (d)(3)(i), and (e)(1) is amended in the following respects:

§ 146a.30 Penicillin troches.

• • • • •

(d) *Requests for certification; samples.* (1) In addition to complying with the requirements of § 146.2 of this chapter, a person who requests certification of a batch shall submit with his request a statement showing the batch mark, the number of troches in such batch, the number of troches of the batch packaged into dispensing-size containers during each day's packaging operations, the number of units in each troche, the date on which the latest assay of the drug comprising such batch was completed, the batch mark and date (unless submitted previously) on which the latest assay of the penicillin used in making such batch was completed, the quantity of each ingredient used in making the batch, and a statement that each such ingredient conforms to the requirements prescribed therefor, if any, by this section.

(2) • • •

(i) The batch:

(*a*) If the person who requests certification is the manufacturer of the batch: Average potency and average moisture of troches collected during time of making them, and, unless the troches are packaged into dispensing-size containers immediately after they are manufactured, average moisture of troches collected during each day of packaging the batch.

(*b*) If the person who requests certification is not the manufacturer of the batch: Average potency and average moisture of troches collected during each day the troches are being packaged into dispensing-size containers.

• • • • •

(3) • • •

(i) The batch:

(*a*) If the person who requests certification is the manufacturer of the batch: One troche for each 5,000 troches in the batch, but in no case less than 30 troches collected by taking single troches at intervals throughout the entire time of making them that the quantities made during the intervals are approximately equal;

(*b*) If, after manufacturing, such person packages the batch into dispensing-size containers: 20 troches collected at equal intervals during each day the troches are being packaged, except that this sample is not required if the troches are packaged immediately after they are manufactured;

or

(*c*) If the person who requests certification is not the manufacturer of the batch (for the purposes of certification, a batch shall be that number of troches filled by such person into dispensing-size containers during each day's packaging operations): One troche for each 5,000 troches, but in no case less than 30 troches collected by taking single troches at such intervals throughout each day of packaging the troches that the quantities packaged during the intervals are approximately equal.

• • • • •

(e) *Fees.* • • •

(1) $0.75 for each troche without masticatory substance in the samples submitted in accordance with paragraph (d)(3)(i) (*a*) and (*c*) of this section; $2.00 for each troche with masticatory substance in such sample; $3.00 for the sample submitted in accordance with paragraph (d)(3)(i)(*b*) of this section; $4.00 for each package submitted in accordance with paragraph (d)(3)(ii) and (iii) of this section.

5. Section 146a.34 (d)(1), (d)(2)(i), (d)(3)(i), and (e)(1) is amended in the following respects:

§ 146a.34 Tablets aluminum penicillin.

• • • • •

(d) *Request for certification; samples.* (1) In addition to complying with the requirements of § 146.2 of this chapter, a person who requests certification of a batch shall submit with his request a statement showing the batch mark, the number of tablets in such batch, the number of tablets of the batch packaged into dispensing-size containers during each day's packaging operations, the number of units in each tablet, the date on which the latest assay of the drug comprising such batch was completed, the batch mark and date (unless submitted previously) on which the latest assay of the penicillin used in making such batch was completed, the quantity of each ingredient used in making the batch, and a statement that each such ingredient conforms to the requirements prescribed therefor, if any, by this section.

(2) • • •

(i) The batch:

(*a*) If the person who requests certification is the manufacturer of the batch: Average potency and average moisture of tablets collected during the time of tableting the batch, and, unless the tablets are packaged into dispensing-size containers immediately after they are compressed, average moisture of tablets collected during each day of packaging the batch.

(*b*) If the person who requests certification is not the manufacturer of the batch: Average potency and average moisture of tablets collected during each day the tablets are being packaged into dispensing-size containers.

• • • • •

(3) • • •

(i) The batch:

(*a*) If the person who requests certification is the manufacturer of the batch: One tablet for each 5,000 tablets in the batch, but in no case less than 30 tablets collected by taking single tablets at such intervals throughout the entire time of tableting the batch that the quantities tableted during the intervals are approximately equal;

(*b*) If, after tableting, such person packages the batch into dispensing-size containers: 20 tablets collected at equal intervals during each day the tablets are being packaged, except that this sample is not required if the tablets are packaged immediately after they are compressed;

or

(*c*) If the person who requests certification is not the manufacturer of the batch (for the purposes of certification, a batch shall be that number of tablets filled by such person into dispensing-size containers during each day's packaging operations): One tablet for each 5,000 tablets in the batch, but in no case less than 30 tablets collected by taking single tablets at such intervals throughout each day of packaging the tablets that the quantities packaged during the intervals are approximately equal.

• • • • •

(e) *Fees.* • • •

(1) $0.75 for each tablet in the samples submitted in accordance with paragraph (d)(3)(i) (*a*) and (*c*) of this section; $3.00 for the sample submitted in accordance with paragraph (d)(3)(i)(*b*) of this section; $4.00 for each package in the samples submitted in accordance with paragraph (d)(3) (ii) and (iii) of this section.

6. Section 146a.38 (d)(1), (d)(2)(i), (d)(3)(i), and (e)(1) is amended to read as follows:

§ 146a.38 Capsules buffered penicillin with pectin hydrolysate (capsules buffered potassium penicillin with pectin hydrolysate).

• • • • •

(d) *Request for certification; samples.* (1) In addition to complying with the requirements of § 146.2 of this chapter, a person who requests certification of a batch shall submit with his request a statement showing the batch mark, the number of capsules in such batch, the number of capsules of the batch packaged into dispensing-size containers during each day's packaging operations, the number of units in each capsule, the

date on which the latest assay of the drug comprising such batch was completed, the batch mark and (unless submitted previously) the date on which the latest assay of the penicillin used in making such batch was completed, the quantity of each ingredient used in making the batch, and a statement that each such ingredient conforms to the requirements prescribed therefor, if any, by this section.

(2) • • •

(i) The batch:

(*a*) If the person who requests certification is the manufacturer of the batch: Average potency and average moisture of capsules collected during the time of capsuling the batch and, unless the capsules are packaged in dispensing-size containers immediately after they are capsuled, average moisture of capsules collected during each day of packaging the batch.

(*b*) If the person who requests certification is not the manufacturer of the batch: Average potency and average moisture of capsules collected during each day the capsules are being packaged into dispensing-size containers.

• • • • • •

(3) • • •

(i) The batch:

(*a*) If the person who requests certification is the manufacturer of the batch: One capsule for each 5,000 capsules in the batch, but in no case less than 30 capsules collected by taking single capsules at such intervals throughout the entire time of capsuling the batch that the quantities capsuled during the intervals are approximately equal;

(*b*) If, after capsuling, such person packages the batch into dispensing-size containers: 20 capsules, collected at equal intervals during each day the capsules are being packaged, except that this sample is not required if the capsules are packaged immediately after they are capsuled;

or

(c) If the person who requests certification is not the manufacturer of the batch (for the purpose of certification, a batch shall be that number of capsules filled by such person into dispensing-size containers during each day's packaging operations): One capsule for each 5,000 capsules in the batch, but in no case less than 30 capsules collected by taking single capsules at such intervals throughout each day of packaging the capsules that the quantities packaged during the intervals are approximately equal.

• • • • • •

(e) *Fees.* • • •

(1) $0.75 for each capsule in the samples submitted in accordance with paragraph (d)(3)(i) (*a*) and (c) of this section; $3.00 for the sample submitted in accordance with paragraph (d)(3)(i)(*b*) of this section; $4.00 for each package submitted in accordance with paragraph (d)(3) (ii) and (iii) of this section.

§ 146a.53 [Amendment]

7. In § 146a.53 *Capsules penicillin and novobiocin*, paragraph (b)(3) is amended by changing subdivision (i) to read as follows:

(i) $1.00 for each capsule submitted in accordance with the requirements of § 146a.27 (d)(3)(i) (*a*) and (c).

§ 146a.60 [Amendment]

8. In § 146a.60 *Penicillin-bacitracin troches* • • •, paragraph (b)(1) is amended to read as follows:

(1) $1.00 for each troche submitted in accordance with the requirements of § 146a.30 (d)(3)(i) (*a*) and (c).

§ 146a.88 [Amendment]

9. In § 146a.88 *Penicillin-streptomycin tablets* • • •, paragraph (b)(1) is amended to read as follows:

(1) $1.00 for each tablet submitted in accordance with the requirements of § 146a.27 (d)(3)(i) (*a*) and (c).

§ 146a.92 [Amendment]

10. In § 146a.92 *Tablets benzathine penicillin G and crystalline penicillin*, paragraph (d) is changed to read as follows:

(d) The fee for the services rendered shall be $1.00 for each tablet submitted in accordance with the requirements of § 146a.27 (d)(3)(i) (*a*) and (c).

§ 146a.106 [Amendment]

11. In § 146a.106 *Tablets benzathine penicillin G and penicillin V*, paragraph (d)(1) is amended to read as follows:

(1) $1.00 for each tablet submitted in accordance with the requirements of § 146a.27 (d)(3)(i) (*a*) and (c).

Any person who will be adversely affected by the foregoing order may at any time prior to the thirtieth day from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issue for the hearing, and such objections must be supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall become effective 30 days from the date of its publication in the FEDERAL REGISTER, except as to any provisions that may be stayed by the filing of proper objections. Notice of the filing of objections or lack thereof will be announced by publication in the FEDERAL REGISTER.

(Secs. 507, 701, 59 Stat. 463 as amended, 52 Stat. 1055 as amended; 21 U.S.C. 357, 371)

Dated: January 16, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 62-665; Filed, Jan. 19, 1962; 8:47 a.m.]

PART 146c—CERTIFICATION OF CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS

Chlortetracycline or Tetracycline Hydrochloride Powder Topical; Changes in Expiration Dates

Under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and delegated to the Commissioner of Food and Drugs by the Secretary (25 F.R. 8625), the regulations for certification of antibiotic and antibiotic-containing drugs (21 CFR 146c.230) are amended as follows:

Section 146c.230 is amended as set forth below:

1. Paragraph (c)(1)(iii) is amended to read as follows:

§ 146c.230 Chlortetracycline hydrochloride powder topical; tetracycline hydrochloride powder topical.

• • • • • •

(c) *Labeling* • • •

(1) • • •

(iii) The statement "Expiration date ----------" the blank being filled in with one of the following dates:

(*a*) If it is chlortetracycline hydrochloride powder topical, 48 months after the month during which the batch was certified.

(*b*) If it is tetracycline hydrochloride powder topical, 24 months after the month during which the batch was certified, except that the date that is 36 months, 48 months, or 60 months after the month during which the batch was certified may be used if the person who requests certification has submitted to the Commissioner results of tests and assays showing that after having been stored for such period of time such drug as prepared by him complies with the standards prescribed therefor by paragraph (a) of this section.

(c) If it is packaged with inert gases, 24 months.

2. In paragraph (f) *Exemption of chlortetracycline hydrochloride powder* • • •, subparagraph (2) is amended to read as follows:

(f) • • •

(2) The labels bear an expiration date that is 48 months, if it is chlortetracycline hydrochloride powder topical, or 24 months, if it is tetracycline hydrochloride powder topical, after the month in which the batch was last assayed and released by the manufacturer, except, if it is tetracycline hydrochloride powder topical, the date that is 36 months, 48 months, or 60 months may be used if the manufacturer has submitted to the Commissioner results of tests and assays showing that after having been stored for such period of time such drug as prepared by him complies with the standards prescribed therefor by paragraph (a) of this section.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since the changes are such that they cannot be applied to any specific product unless and until the manufacturer thereof has supplied adequate data as required by section 507 of the Federal Food, Drug, and Cosmetic Act.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357)

Dated: January 15, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 203—BRIDGE REGULATIONS

Lewes and Rehoboth Canal, Delaware, and Satilla River, Georgia

1. Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U.S.C. 499), § 203.237a is hereby prescribed to govern the operation of the Delaware State Highway Department bridges across the Lewes and Rehoboth Canal at Rehoboth, Delaware, effective 30 days after publication in the FEDERAL REGISTER, as follows:

§ 203.237a Lewes and Rehoboth Canal, Del.; Delaware State Highway Department bridges at Rehoboth.

(a) The owner of or agency controlling these bridges will not be required to keep draw tenders in attendance from 5:00 p.m. to 7:00 a.m.

(b) Whenever a vessel unable to pass under the closed bridges desires to pass through the draws from 5:00 p.m. to 7:00 a.m., at least 24 hours' advance notice of the time opening is required must be given to the authorized representative of the owner of or agency controlling the bridges to insure prompt opening thereof at the time required.

(c) On receipt of such advance notice the authorized representative, in compliance therewith, shall arrange for the prompt opening of the draws on signal at approximately the time specified in the notice.

(d) The owner of or agency controlling the bridges shall keep conspicuously posted on both the upstream and downstream sides thereof, in such manner that it can easily be read at any time, a copy of the regulations in this section together with a notice stating exactly how the representatives specified in paragraph (b) of this section may be reached.

(e) The operating machinery of the draws shall be maintained in a serviceable condition, and the draws shall be opened and closed at intervals frequent enough to make certain that the machinery is in proper order for satisfactory operation.

[Regs., Dec. 29, 1961, 285/91 (Lewes and Rehoboth Canal, Del.)-ENGCW-ON] (Sec. 5, 28 Stat. 362; 33 U.S.C. 499)

2. Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U.S.C. 499), § 203.245 is hereby amended revoking paragraph (h)(20) governing the operation of the State Highway Department of Georgia bridge across Satilla River near Burnt Fort, Georgia, effective on publication in the FEDERAL REGISTER since the bridge has been removed, as follows:

§ 203.245 Navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets; bridges where constant attendance of draw tenders is not required.

• • • • • •

(h) *Waterways discharging into Atlantic Ocean south of Charleston.* • • •

(20) Satilla River, Ga; State Highway Department of Georgia bridge near Burnt Fort. [Revoked]

[Regs., Dec. 29, 1961, 285/91 (Satilla River, Ga.)-ENGCW-ON] (Sec. 5, 28 Stat. 362; 33 U.S.C. 499)

J. C. LAMBERT,
Major General, U.S. Army,
The Adjutant General.

Title 41—PUBLIC CONTRACTS

Chapter 1—Federal Procurement Regulations

MISCELLANEOUS AMENDMENTS TO CHAPTER

Chapter 1 of Title 41 is amended as set forth below:

PART 1–1—GENERAL

Subpart 1–1.7—Small Business Concerns

1. Section 1–1.710 of the table of contents is revised as follows:

Sec.
1–1.710 Subcontracting with small business concerns.
1–1.710–1 General.
1–1.710–2 Small business subcontracting program.
1–1.710–3 Required clauses.
1–1.710–4 Review of subcontracting program.

2. Section 1–1.710 is revised to read as follows:

§ 1–1.710 Subcontracting with small business concerns.

§ 1–1.710–1 General.

(a) It is the policy of the Government to enable small business concerns to be considered fairly as subcontractors and suppliers to contractors performing work or rendering services as prime contractors or subcontractors under Government procurement contracts, and to assure that prime contractors and subcontractors having small business subcontracting programs will consult through the appropriate procuring agency with the Small Business Administration when requested by SBA. However, the Small Business Administration is not authorized to prescribe the extent to which any contractor or subcontractor shall subcontract or specify the concerns to which subcontracts shall be granted, and is not vested with authority respecting the administration of individual prime contracts or subcontracts. (See § 1–1.805 for subcontract-

ing policies with respect to labor surplus area concerns.)

(b) This § 1–1.710 sets forth the program for furtherance of this policy and, together with Subpart 1–3.9, prescribes the contract clauses and procedures for use in carrying out the small business subcontracting program.

(c) As used in this Subpart 1–1.7, the term subcontractor includes a supplier and applies at any level of performance of the contract; and the term subcontract includes a purchase order.

§ 1–1.710–2 Small business subcontracting program.

The Government's small business subcontracting program requires Government prime contractors to assume an affirmative obligation with respect to subcontracting with small business concerns. In contracts which range from $5,000 to $500,000, the contractor undertakes the obligation of accomplishing the maximum amount of small business subcontracting which is consistent with the efficient performance of the contract. This undertaking is set forth in the contract clause prescribed in § 1–1.710–3(a). In contracts which may exceed $500,000, the contractor is required, pursuant to the clause set forth in § 1–1.710–3(b), to undertake a number of specific responsibilities designed to assure that small business concerns are considered fairly in the subcontracting role and to impose similar responsibilities on major subcontractors. (The liaison officer required by the latter clause may also serve as liaison officer for labor surplus area matters.)

§ 1–1.710–3 Required clauses.

(a) The Utilization of Small Business Concerns clause, set forth below, shall be included in all contracts in amounts which may exceed $5,000 except (1) contracts which, including all subcontracts thereunder, are to be performed entirely outside the United States, its possessions, and Puerto Rico, and (2) contracts for services which are personal in nature:

UTILIZATION OF SMALL BUSINESS CONCERNS

(a) It is the policy of the Government as declared by the Congress that a fair proportion of the purchases and contracts for supplies and services for the Government be placed with small business concerns.

(b) The Contractor agrees to accomplish the maximum amount of subcontracting to small business concerns that the Contractor finds to be consistent with the efficient performance of this contract.

[End of Clause]

(b) The Small Business Subcontracting Program clause, set forth below, shall be included in all contracts which may exceed $500,000, which contain the clause required by § 1–1.710–3(a) and which, in the opinion of the procuring activity, offer substantial subcontracting possibilities. Furthermore, prime contractors who are to be awarded contracts which may not exceed $500,000, but which, in the opinion of the procuring activity, offer substantial subcontracting possibilities, shall be urged to accept this clause.

SMALL BUSINESS SUBCONTRACTING PROGRAM

(a) The Contractor agrees to establish and conduct a small business subcontracting program which will enable small business concerns to be considered fairly as subcontractors and suppliers under this contract. In this connection, the Contractor shall—

(1) Designate a liaison officer who will (i) maintain liaison with the Government on small business matters, (ii) supervise compliance with the Utilization of Small Business Concerns clause, and (iii) administer the Contractor's "Small Business Subcontracting Program."

(2) Provide adequate and timely consideration of the potentialities of small business concerns in all "make-or-buy" decisions.

(3) Assure that small business concerns will have an equitable opportunity to compete for subcontracts, particularly by arranging solicitations, time for the preparation of bids, quantities, specifications, and delivery schedules so as to facilitate the participation of small business concerns. Where the Contractor's lists of potential small business subcontractors are excessively long, reasonable effort shall be made to give all such small business concerns an opportunity to compete over a period of time.

(4) Maintain records showing (i) whether each prospective subcontractor is a small business concern, (ii) procedures which have been adopted to comply with the policies set forth in this clause, and (iii) with respect to the letting of any subcontract (including purchase orders) exceeding $10,000, information substantially as follows:

(A) Whether the award went to large or small business.

(B) Whether less than three or more than two small business concerns were solicited.

(C) The reason for non-solicitation of small business if such was the case.

(D) The reason for small business failure to receive the award if such was the case when small business was solicited.

The records maintained in accordance with (iii) above may be in such form as the Contractor may determine, and the information shall be summarized quarterly and submitted by the purchasing department of each individual plant or division to the Contractor's cognizant small business liaison officer. Such quarterly summaries will be considered to be management records only and need not be submitted routinely to the Government; however, records maintained pursuant to this clause will be kept available for review.

(5) Notify the Contracting Officer before soliciting bids or quotations on any subcontract (including purchase orders) in excess of $10,000 if (i) no small business concern is to be solicited, and (ii) the Contracting Officer's consent to the subcontract (or ratification) is required by a "Subcontracts" clause in this contract. Such notice will state the Contractor's reasons for non-solicitation of small business concerns, and will be given as early in the procurement cycle as possible so that the Contracting Officer may give SBA timely notice to permit SBA a reasonable period to suggest potentially qualified small business concerns through the Contracting Officer. In no case will the procurement action be held up when to do so would, in the Contractor's judgment, delay performance under the contract.

(6) Include the Utilization of Small Business Concerns clause in subcontracts which offer substantial small business subcontracting opportunities.

(7) Cooperate with the Contracting Officer in any studies and surveys of the Contractor's subcontracting procedures and practices that the Contracting Officer may from time to time conduct.

(8) Submit such information on subcontracting to small business concerns as is called for the Contracting Officer.

(b) A "small business concern" is a concern that meets the pertinent criteria established by the Small Business Administration and set forth in § 1–1.701 of the Federal Procurement Regulations.

(c) The Contractor agrees that, in the event he fails to comply with his contractual obligations concerning the small business subcontracting program, this contract may be terminated, in whole or in part, for default.

(d) The Contractor further agrees to insert, in any subcontract hereunder which may exceed $500,000 and which contains the Utilization of Small Business Concerns clause, provisions which shall conform substantially to the language of this clause, including this paragraph (d), and to notify the Contracting Officer of the names of such subcontractors.

[End of Clause]

§ 1–1.710–4 Review of subcontracting program.

(a) The adequacy of the contractor's "Small Business Subcontracting Program" shall be reviewed by the procuring agency concerned, and any deficiencies shall be brought to the attention of the contractor's liaison officer with a request for corrective action.

(b) Each procuring agency shall assist the Small Business Administration to obtain such reasonably obtainable information and records concerning the subcontracting of its prime contractors and its subcontractors, having contracts which contain the Small Business Subcontracting Program clause, as the Small Business Administration may deem necessary. Accordingly, the contracting officer may separately or together with a representative of SBA, periodically conduct studies and surveys of the contractor's subcontracting procedures and practices and those of his subcontractors. Such studies and surveys may originate with the procuring agency in order to have available the pertinent data concerning subcontracting by its primes, or, if such data is not currently available, the studies and surveys may originate upon the request of the Small Business Administration for such data. On the basis of the foregoing studies, surveys, and records, the Small Business Administration may make recommendations to the procuring agency regarding methods for increasing small business participation in the contractor's subcontract awards. SBA and the procuring agency will freely interchange, at the operating level, information resulting from these surveys.

(c) Subcontracting records maintained by Government offices shall be made available for review, as requested by SBA.

Subpart 1–1.8—Labor Surplus Area Concerns

3. Section 1–1.805 of the table of contents is revised as follows:

Sec.
1–1.805 Subcontracting with labor surplus area concerns.
1–1.805–1 General.

Sec.
1–1.805–2 Labor surplus area subcontracting program.
1–1.805–3 Required clauses.
1–1.805–4 Review of subcontracting program.

4. Section 1–1.805 is revised to read as follows:

§ 1–1.805 Subcontracting with labor surplus area concerns.

§ 1–1.805–1 General.

(a) In furtherance of the general policy stated in § 1–1.802, procuring agencies shall encourage certain prime contractors to place subcontracts with concerns which will perform a substantial proportion of the production in areas of labor surplus, where this can be done consistent with efficient performance of contracts and at prices no higher than are obtainable elsewhere. (See § 1–1.710 for subcontracting policies with respect to small business concerns.)

(b) As used in this Subpart 1–1.8, the term subcontractor includes a supplier and applies at any level of performance of the contract; and the term subcontract includes a purchase order.

§ 1–1.805–2 Labor surplus area subcontracting program.

The Government's labor surplus area subcontracting program requires Government prime contractors to assume an affirmative obligation with respect to subcontracting with labor surplus area concerns. In contracts which range from $5,000 to $500,000, the contractor undertakes the obligation of using his best efforts to place his subcontracts with concerns which will perform such subcontracts substantially in areas of labor surplus, where this can be done consistent with the efficient performance of the contract and at prices no higher than are obtainable elsewhere. This undertaking is set forth in the contract clause prescribed in § 1–1.805–3(a). In contracts which may exceed $500,000, the contractor is required, pursuant to the clause set forth in § 1–1.805–3(b), to undertake a number of specific responsibilities designed to assure achievement of the objectives referred to above and to impose similar responsibilities on major subcontractors. (The liaison officer required by the latter clause may also serve as liaison officer for small business matters.)

§ 1–1.805–3 Required clauses.

(a) The Utilization of Concerns in Labor Surplus Areas clause, set forth below, shall be inserted in all contracts in amounts which may exceed $5,000, except—

(1) Contracts with foreign contractors which, including all subcontracts thereunder, are to be performed entirely outside the United States, its possessions, and Puerto Rico;

(2) Contracts for services which are personal in nature; and

(3) Contracts for construction.

UTILIZATION OF CONCERNS IN LABOR SURPLUS AREAS

It is the policy of the Government to place contracts with concerns which will perform such contracts substantially in areas of persistent or substantial labor surplus, where this can be done consistent with the efficient performance of the contract and at prices no higher than are obtainable elsewhere. The Contractor agrees to use his best efforts to place his subcontracts in accordance with this policy. In complying with the foregoing and with paragraph (b) of the clause of this contract entitled "Utilization of Small Business Concerns," the Contractor in placing his subcontracts shall observe the following order of preference: (a) persistent labor surplus area concerns which are also small business concerns; (b) other persistent labor surplus area concerns; (c) substantial labor surplus area concerns which are also small business concerns; (d) other substantial labor surplus area concerns; and (e) small business concerns which are not labor surplus area concerns.

[End of Clause]

(b) The Labor Surplus Area Subcontracting Program clause, set forth below, shall be included in all contracts which may exceed $500,000, which contain the clause required by § 1–1.805–3(a) and which, in the opinion of the procuring activity, offer substantial subcontracting possibilities. Furthermore, prime contractors who are to be awarded contracts which may not exceed $500,000 but which, in the opinion of the procuring activity, offer substantial subcontracting possibilities, shall be urged to accept this clause.

LABOR SURPLUS AREA SUBCONTRACTING PROGRAM

(a) The Contractor agrees to establish and conduct a program which will encourage labor surplus area concerns to compete for subcontracts within their capabilities. In this connection, the Contractor shall—

(1) Designate a liaison officer who will (i) maintain liaison with duly authorized representatives of the Government on labor surplus area matters, (ii) supervise compliance with the Utilization of Concerns in Labor Surplus Areas clause, and (iii) administer the Contractor's "Labor Surplus Area Subcontracting Program";

(2) Provide adequate and timely consideration of the potentialities of labor surplus area concerns in all "make-or-buy" decisions;

(3) Assure that labor surplus area concerns will have an equitable opportunity to compete for subcontracts, particularly by arranging solicitations, time for the preparation of bids, quantities, specifications, and delivery schedules so as to facilitate the participation of labor surplus area concerns;

(4) Maintain records showing procedures which have been adopted to comply with the policies set forth in this clause; and

(5) Include the Utilization of Concerns in Labor Surplus Areas clause in subcontracts which offer substantial labor surplus area subcontracting opportunities.

(b) A "labor surplus area concern" is a concern which will perform, or cause to be performed, a substantial proportion of any contract awarded to it in "Areas of Substantial Labor Surplus" (also called "Areas of Substantial Unemployment"), as designated by the Department of Labor. A concern shall be deemed to perform a substantial proportion of a contract in a labor surplus area if the costs that the concern will incur on account of manufacturing or production performed in persistent or substantial labor surplus areas (by itself or its first-tier subcontractors) amount to more than 50 percent of the price of such contract.

(c) The Contractor further agrees to insert, in any subcontract hereunder which may exceed $500,000 and which contains the Utilization of Concerns in Labor Surplus Areas clause, provisions which shall conform substantially to the language of this clause, including this paragraph (c), and to notify the Contracting Officer of the names of such subcontractors.

[End of Clause]

§ 1–1.805–4 Review of subcontracting program.

The adequacy of the contractor's "Labor Surplus Area Subcontracting Program" shall be reviewed by the procuring agency concerned, and any deficiencies shall be brought to the attention of the contractor's liaison officer with a request for corrective action.

PART 1–2—PROCUREMENT BY FORMAL ADVERTISING

Subpart 1–2.4—Opening of Bids and Award of Contract

In § 1–2.407–6, paragraph (b) is amended to read as follows:

§ 1–2.407–6 Equal low bids.

* * * * *

(b) If the application of (a) of this § 1–2.407–6 results in two or more bidders being eligible for award, the award shall be made to the bidder who will make the most extensive use of small business subcontractors. If two or more bidders still remain eligible for award, award shall be made by a drawing by lot limited to such bidders. If time permits, the bidders involved shall be given an opportunity to be present at the drawing by lot. Such drawing shall be witnessed by at least three persons and the contract file shall contain the names and addresses of those witnesses.

PART 1–3—PROCUREMENT BY NEGOTIATION

1. In § 1–3.000, paragraph (b) is amended by deleting subparagraphs (6) through (8) and including a new subparagraph (6). As so amended, paragraph (b) reads as follows:

§ 1–3.000 Scope of part.

* * * * *

(b) This part sets forth the following policies and procedures:

(1) The basic requirements for the procurement of property and services by means of negotiation;

(2) The different circumstances under which negotiation is permitted;

(3) Determinations and findings that may be required before a contract is entered into by negotiation;

(4) Types of negotiated contracts and their use;

(5) Price negotiation policies and techniques; and

(6) Subcontracting policies and procedures.

Subpart 1–3.1—Use of Negotiation

2. In § 1–3.102, paragraph (n) is amended to read as follows:

§ 1–3.102 Factors to be considered in negotiated contracts.

* * * * *

(n) Consideration of subcontracting, with the extensive use of small business subcontractors being considered a favorable factor.

3. The table of contents is amended to include new Subpart 1–3.9 as follows:

Subpart 1–3.9—Subcontracting Policies and Procedures

Sec.
1–3.900 Scope of subpart.
1–3.901 General.
1–3.902 "Make-or-buy" programs.
1–3.902–1 Review of program.
1–3.902–2 Approval of programs.
1–3.902–3 Contract clause.
1–3.902–4 Administration of program.
1–3.903 Review and approval of contractor's purchasing system and subcontracts. [Reserved]

AUTHORITY: §§ 1–3.900 to 1–3.903 issued under sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c); sec. 8, 72 Stat. 389, 15 U.S.C. 637, sec. 7, Public Law 87–305.

4. Subpart 1–3.9 is added to read as follows:

Subpart 1–3.9—Subcontracting Policies and Procedures

§ 1–3.900 Scope of subpart.

This subpart sets forth policies and procedures for the evaluation, review, and approval of a contractor's "make-or-buy" program, purchasing system, and proposed subcontracts.

§ 1–3.901 General.

(a) Information as to the contractor's "make-or-buy" program, purchasing system, and proposed subcontracts may be important to (1) negotiation of reasonable contract prices (see § 1–3.808–5), (2) assurance of satisfactory contract performance, or (3) carrying out Government policies regarding small business (see § 1–1.710–1), labor surplus areas (see § 1–1.805–1), acquisition and use of Government facilities, maintenance of mobilization base, or other policies which may be appropriate to the particular procurement. Therefore, Government surveillance of a contractor's "make-or-buy" program, purchasing system, and proposed subcontracts is required as set forth in this Subpart 1–3.9. Where "make-or-buy" decisions and subcontracting will have a substantial impact on any of the above mentioned factors, the contractor's "make-or-buy" program and subcontracting should, to the extent practicable, be evaluated and agreed on during negotiations.

(b) The subcontracting policies and procedures in this Subpart 1–3.9 should generally be applied to procurement where (1) the item, system, or work is complex, the dollar value is substantial, or competition is restricted, and (2) either (i) cost-reimbursement, price redetermination, or incentive-type contracts are to be used, or (ii) make-or-buy decisions are expected to have a substantial impact on negotiations leading to a firm fixed-price contract.

§ 1–3.902 "Make-or-buy" programs.

§ 1–3.902–1 Review of program.

(a) A "make-or-buy" program is that part of a contractor's written plan for the development or production of an end item which outlines the major components, assemblies, subassemblies, and parts to be manufactured (including testing, treating, and assembling) in his own facilities, and those which will be obtained elsewhere by subcontract. A "make" item is any item produced, or work performed, by the contractor or his affiliate, subsidiary, or division.

(b) (1) Where the nature of the procurement is such that, in view of the factors referred to in § 1–3.901(b), review of the "make-or-buy" program is appropriate or is otherwise considered essential, the prospective contractor shall be required to submit his proposed "make-or-buy" program, together with sufficient related data, to the contracting officer for evaluation of such factors in (e) of this § 1–3.902–1 as are pertinent.

(2) At the time a request for proposals is issued, the procuring agency shall request potential suppliers to furnish a "make-or-buy" program on all negotiated procurements except as otherwise provided in (3), (4), or (5) of this § 1–3.902–1(b).

(3) A "make-or-buy" program will not be required when a proposed contract has a total estimated value of less than $1,000,000 unless the contracting officer specifically determines that a "make-or-buy" program is appropriate.

(4) Research and development contracts are exempt from the provisions of this § 1–3.902 unless it can reasonably be anticipated that follow-on quantities of the product will be procured.

(5) A "make-or-buy" program will not be required if the contracting officer determines that none of the factors in § 1–3.901(b) are applicable.

(c) The contractor will be informed that the program he submits should be confined to important items which, because of their complexity, quantity, cost or requirement for additional Government facilities, normally would require company management review of the make-or-buy decision. "Detail parts" or "off-the-shelf" items will not be incorporated in a "make-or-buy" program unless their potential impact on such program or production schedule makes their inclusion necessary. If the design status of the end item being procured is not sufficiently advanced to permit accurate precontract identification of all items that may be subject to "make-or-buy" decisions, the contractor shall be notified that such items must be submitted, when identifiable under the terms of the Changes to Make-or-Buy Program clause (see § 1–3.902–3).

(d) The contractor shall be required to submit, with his proposal, a "make-or-buy" program of important items including in addition to information required by § 1–3.902–1(b), (1) a description by which each such item can be readily identified, (2) a recommendation to make or buy the item or defer the decision, (3) when feasible, the names of proposed subcontractors, and (4) the important items to be made by the contractor, including a designation of the plant and division in which the contractor proposes to perform the work.

(e) "Make-or-buy" programs shall be evaluated and agreed upon by the contractor and the procuring activity at the earliest practicable time during negotiations. In reviewing the "make-or-buy" program during the negotiations, the effect of the following factors on the interests of the Government shall be considered:

(1) The effect of the contractor's plan to make-or-buy, as the case may be, on price, quality, delivery, and performance.

(2) Whether the contractor plans to broaden his base of subcontractors through competition.

(3) Whether the contractor has properly considered the competence, abilities, experience, and capacities available within other firms.

(4) Whether small business concerns can produce the item or perform the work in question and at what price.

(5) Whether the contractor or major subcontractors propose to do work in plant, the nature of which differs significantly from their normal in-plant operations or for which they are not historically suited.

(6) Whether production of the item or performance of the work will create a requirement, either directly or indirectly, for additional facilities to be furnished by the Government, or the continued use of Government-owned facilities, by the contractor or by subcontractors.

(7) Whether the contractor proposed to ask the Government to furnish additional facilities to do the work in plant for which there is capacity elsewhere which is competitive in quality, delivery, and overall cost, and is acceptable as a source to the contractor.

(8) Whether the item or work has been subcontracted on this or previous contracts.

(9) Other factors, such as the nature of the item, experience with similar items, future requirements, engineering, tooling, starting load costs, market conditions, and the availability of personnel and material.

(f) The procuring agency will review the "make-or-buy" program to determine if all appropriate items are included or if it contains items that should be deleted because of their relatively minor importance. In all considerations relative to a "make-or-buy" program, the procuring agency will obtain the advice and assistance of all appropriate personnel whose knowledge would contribute to the adequacy of the review.

(g) Before agreeing to a "make-or-buy" program (or consenting to any change therein which, in the opinion of the contracting officer, would reduce the anticipated participation of small business), the procuring activity shall invite the advice and counsel of the SBA by permitting SBA representatives (regularly assigned to the activity) to review all pertinent facts and make recommendations thereon. Such review by SBA should be concurrent with the review by the procuring activity (or, in the case of changes, the contracting officer). Where urgent circumstances do not permit such a concurrent review, or where SBA fails to respond on a timely basis, the contracting officer shall include an explanatory statement in the contract file and shall transmit a copy to the SBA representative.

(h) After agreement on the program is reached, the contracting officer shall notify the contractor as to the Government's approval of the program and shall inform the contractor as to any requirement for further review during performance of the contract. For example, if follow-on procurements occur, the procuring activity and the contractor will review the existing "make-or-buy" program to determine whether it should be revised.

§ 1–3.902–2 Approval of programs.

(a) Proposed "make" items shall not be agreed to when the products or services under consideration:

(1) Are not regularly manufactured or provided by the contractor, and are available—quality, quantity, delivery, and other essential factors considered—from other firms at prices no higher than if the contractor makes or provides the product or service; or

(2) Are regularly manufactured or provided by the contractor, and are available—quality, quantity, delivery, and other essential factors considered—from other firms at prices lower than if the contractor makes or provides the product or service;

Provided, That such items may be agreed to, notwithstanding (1) and (2), if in the opinion of the contracting officer the overall cost of the contract to the Government would be increased if the items were "bought".

(b) Approval of the contractor's purchasing system shall not constitute approval of the "make-or-buy" program.

§ 1–3.902–3 Contract clause.

The following clause shall be incorporated in all cost-reimbursement, price redetermination, or incentive type contracts as to which a "make-or-buy" program has been agreed upon:

CHANGES TO MAKE-OR-BUY PROGRAM

The Contractor agrees to perform this contract in accordance with the "make-or-buy" program attached to this contract, except as hereinafter provided. If the Contractor desires to change the "make-or-buy" program, he shall notify the Contracting Officer in writing of the proposed change reasonably in advance and shall submit justification in sufficient detail to permit evaluation of the proposed change. Changes in the place of performance of work on any "make" item in the "make-or-buy" program are subject to this requirement. With respect to items deferred at the time of negotiation of this contract for later addition to the "make-or-buy" program, the Contractor shall notify the Contracting Officer of each proposed addition at the earliest possible time, together with justification in sufficient detail to permit evaluation. The Contractor shall not, without the written consent of the Contracting Officer, make changes or additions to the program. However, in his discretion, the Contracting Officer may ratify in writing any changes or additions. The "make-or-buy" program attached to this contract shall be deemed to be modified in accordance with the written consent or ratification by the Contracting Officer.

[End of Clause]

§ 1–3.902–4 Administration of program.

(a) On applicable contracts, the cognizant contract administration office will establish a procedure with the contractor to assure timely compliance with the terms of the contract clause. This procedure will include provisions for processing changes to the established "make-or-buy" program and for obtaining "make-or-buy" decisions for items reserved for deferred decisions or unidentified at the time of contract negotiations.

(b) When a "make-or-buy" program is agreed upon with a contractor, or there are changes or additions to a "make-or-buy" program, the consideration given each item on such program will be documented in the contract file. If a contract (including supplemental agreements for new procurement) except one specifically exempted by § 1–3.902–1(b), does not include the Changes to Make-or-Buy Program clause, the contracting officer will document the contract file with a written statement of facts to sustain and make clear the appropriateness of the determination not to include the clause. Such determination will be based on one of the following: (1) the contract is on a firm fixed-price basis; (2) the contract is not exempt but there are no items which can be identified as requiring a "make-or-buy" program as defined in § 1–3.902–1(a); or (3) a deviation has been approved.

§ 1–3.903 Review and approval of contractor's purchasing system and subcontracts. [Reserved]

PART 1–7—CONTRACT CLAUSES

Subpart 1–7.1—Fixed-Price Supply Contracts

1. The table of contents is amended to revise the caption for § 1–7.101–26 and include a new § 1–7.101–27 as follows:

Sec.
1–7.101–26 Small business subcontracting program.
1–7.101–27 Labor surplus area subcontracting program.

2. Section 1–7.101 is amended by revising §§ 1–7.101–21, 1–7.101–25, and 1–7.101–26, and adding § 1–7.101–27, to read as follows:

§ 1–7.101 Clauses.

* * * * *

§ 1–7.101–21 Utilization of small business concerns.

Insert the clause set forth in § 1–1.710–3(a) under the conditions and in the manner prescribed therein.

* * * * *

§ 1–7.101–25 Utilization of concerns in labor surplus areas.

Insert the clause set forth in § 1–1.805–3(a) under the conditions and in the manner prescribed therein.

§ 1–7.101–26 Small business subcontracting program.

Insert the clause set forth in § 1–1.710–3(b) under the conditions and in the manner prescribed therein.

§ 1–7.101–27 Labor surplus area subcontracting program.

Insert the clause set forth in § 1–1.805–3(b) under the conditions and in the manner prescribed therein.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c); sec. 8, 72 Stat. 389, 15 U.S.C. 637, sec 7, P.L. 87–305)

Effective date. These regulations are effective immediately.

Dated: January 17, 1962.

BERNARD L. BOUTIN,
Administrator of General Services.

Approved: January 9, 1962.

JOHN E. HORNE,
Administrator, Small Business Administration.

Title 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 2587]

[1878190]

ALASKA

Partly Revoking Executive Order No. 8877 of August 29, 1941

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. Executive Order No. 8877 of August 29, 1941, as amended by Public Land Order No. 1404 of April 3, 1957, and which withdrew public lands and water areas below mean high tide, described by metes and bounds, for use of the War Department for military purposes, is hereby revoked so far as it affects the following areas:

VICINITY OF SEWARD

(1) Rocky Point Area, approximately 4,650 acres.
(2) Resurrection Peninsula Area, approximately 900 acres.
(5) Rugged Island Area, approximately 1,020 acres.

VICINITY OF KODIAK

(1) North Cape, Spruce Island Area, approximately 520 acres.
(2) South Point and East Cape, Spruce Island Area, approximately 1,980 acres.

The areas described total in the aggregate approximately 9,070 acres, of which approximately 3,200 acres are withdrawn for other purposes.

2. Until 10:00 a.m. on April 16, 1962, the State of Alaska shall have a preferred right to select the lands released from withdrawal by this order in accordance with and subject to the limitations and requirements of the act of July 28, 1956 (70 Stat. 709; 48 U.S.C. 46–3b), section 6(g) of the Alaska Statehood Act of July 7, 1958 (72 Stat. 339), and the regulations in 43 CFR Part 76.

3. Beginning at 10:00 a.m. on April 16, 1962, the lands shall be subject to operation of the public land laws generally, including the mining laws, subject to valid existing rights and equitable claims, the provisions of existing with-

drawals, and the requirements of applicable law, rules, and regulations.

Inquiries concerning the lands should be addressed to the Manager, Land Office, Bureau of Land Management, Anchorage, Alaska.

JOHN A. CARVER, Jr.,
Assistant Secretary of the Interior.

JANUARY 15, 1962.

[Idaho 08932]

IDAHO

Withdrawing Lands for Reclamation Purposes; Snake River Project

By virtue of the authority contained in section 3 of the act of June 17, 1902 (32 Stat. 388; 43 U.S.C. 416), it is ordered as follows:

1. The following described public lands are hereby withdrawn in the first form from all forms of appropriation under the public land laws, including the mining but not the mineral leasing laws, and reserved for use of the Bureau of Reclamation in connection with the Mountain Home Division, Snake River Project:

BOISE MERIDIAN

T. 4 S., R. 2 E.,
Sec. 25, NW¼SW¼.
T. 1 S., R. 3 E.,
Sec. 25, SE¼SW¼ and S½SE¼.

[Public Land Order 2589]

[Colorado 048805]

COLORADO

Withdrawing Lands for Use of Forest Service as Recreation Areas and Campgrounds

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. Subject to valid existing rights, the following-described lands in the Arapaho, Pike, and Routt National Forests, are hereby withdrawn from prospecting, location, entry, and purchase under the mining laws of the United States for use of the Forest Service, Department of Agriculture, as recreation areas and campgrounds as indicated:

SIXTH PRINCIPAL MERIDIAN

PIKE NATIONAL FOREST

Spruce Grove Campground

T. 10 S., R. 72 W.,
Sec. 32, E½NW¼SE¼, W½NE¼SE¼, S½SW¼SE¼NE¼, and S½SE¼SW¼NW¼.

Falls Hill Picnic Ground and Campground

T 6 S., R. 74 W.,
Sec. 19, SW¼NE¼SE¼, NE¼SW¼SE¼, and SE¼SE¼;
Sec. 29, NW¼NW¼NW¼, S½NW¼NW¼, and SW¼NW¼ less 12.85 acres lying in H.E.S. No. 51;
Sec. 30, NE¼NE¼NE¼.

SIXTH PRINCIPAL MERIDIAN

ARAPAHO NATIONAL FOREST

North Rock Creek Recreation Area

T 4 S., R. 78 W.,
Sec. 7, S½S½SE¼NE¼, SW¼NE¼, S½SE¼NW¼, N½NE¼SW¼, SE¼, and E½SE¼SW¼;
Sec. 8, S½S½S½NE¼, N½N½N½SE¼, S½S½S½NW¼, N½SW¼, and N½SE¼SW¼;
Sec. 18, Lots 2, 3, 4, NW¼NE¼, N½SW¼NE¼, E½NW¼, and NE¼SW¼.
T. 4 S., R. 79 W.,
Sec. 13, S½SE¼SE¼;
Sec. 24, N½N½.

SIXTH PRINCIPAL MERIDIAN

ROUTT NATIONAL FOREST

Lower Bear River Recreation Area

T. 1 N., R. 86 W.,
Sec. 1, S½SE¼NE¼, N½NE¼SE¼, SW¼NE¼SE¼, NE¼NW¼SE¼, S½NW¼SE¼, SW¼SW¼NE¼, W½NW¼SE¼, SE¼NW¼SE¼, and E½SE¼SW¼ (unsurveyed);
Sec. 14, E½NE¼, E½W½NE¼, NW¼NW¼NE¼, NE¼SE¼, and E½NW¼SE¼ (unsurveyed).

Smith Lake Recreation Area

T. 1 N., R. 87 W.,
Sec. 23, SE¼NE¼, E½SW¼NE¼, N½NE¼SE¼, and NE¼NW¼SE¼ (unsurveyed).

Upper Stillwater Recreation Area

T. 1 N., R. 87 W.,
Sec. 24, SE¼SE¼NE¼, N½NE¼SE¼, SW¼NE¼SE¼, S½NW¼SE¼, NW¼SW¼SE¼, SE¼NE¼SW¼, SE¼SW¼, and SE¼SW½SW¼;
Sec. 25, NW¼NW¼;
Sec. 26, E½NE¼NE¼, N½S½NE¼SW¼, SW¼NE¼, NW¼NW¼SE¼, S½SE¼NW¼, NE¼SE¼NW¼, N½SW¼, SW¼SW¼, N½SE¼SW¼, and SW¼SE¼SW¼;
Sec. 35, N½NW¼NW¼.

Causeway Recreation Area

T. 1 N., R. 87 W.,
Sec. 22, S½SW¼SE¼, SE¼SE¼SW¼ (unsurveyed);
Sec. 27, E½W½NE¼, W½NW¼NE¼, NW¼SW¼NE¼, NE¼NW¼SE¼, and NE¼NE¼NW¼.

Rainbow Lake Recreation Area

T. 1 N., R. 87 W.,
Sec. 27, S½NE¼SE¼, SE¼NW¼SE¼, S½SE¼, SE¼SW¼, and S½SW¼SW¼;
Sec. 28, E½SE¼ (unsurveyed);
Sec. 33, NE¼NE¼, SE¼NW¼NE¼, N½SE¼NE¼, SE¼SE¼NE¼, and NE¼SW¼NE¼ (unsurveyed);
Sec. 34, N½N½NE¼, SW¼NW¼NE¼, and NW¼ (partly unsurveyed).

Sec. 11, E½SE¼NE¼, SW¼SE¼NE¼, N½NE¼SE¼, SW¼NE¼SE¼, E½NW¼SE¼, SW¼NW¼SE¼, N½SW¼SE¼, SW¼SW¼SE¼, and S½SE¼SW¼;
Sec. 12, W½NE¼NW¼, E½NW¼NW¼, SW¼NW¼NW¼, N½SW¼NW¼, and SW¼SW¼NW¼;
Sec. 14, N½NE¼NE¼, SW¼NE¼NW¼, and NW¼SW¼.

Coal Creek Recreation Area

T. 1 N., R. 86 W.,
Sec. 4, SW¼SW½SW¼;
Sec. 9, N½NW¼NW¼.

Middle Bear River Recreation Area

T. 1 N., R. 86 W.,
Sec. 15, N½SE¼NW¼, SW¼SE¼NW¼, E½SW¼NW¼, and SW¼SW¼NW¼;
Sec. 16, S½S½NE¼, N½NW¼SE¼, W½SW¼SE¼, SE¼SW¼, E½SW¼SW¼, NW¼SW¼, N½NE¼SW¼, and S½S½NW¼;
Sec. 17, NE¼SE¼, S½NW¼SE¼, N½SE¼SE¼, SW¼SE¼SE¼, SW¼SE¼, SE¼SW¼, and SE¼SW¼SW¼;
Sec. 20, N½NW¼NE¼;
Sec. 21, NW¼NW¼NE¼, N½NE¼NW¼, SW¼NE¼NW¼, and E½NW¼NW¼.

Lower Stillwater Recreation Area

T. 1 N., R. 86 W.,
Sec. 18, lot 4, and SW¼SE¼SW¼;
Sec. 19, lots 5, 6, NE¼NE¼, S½NW¼NE¼, S½NE¼, N½NE¼NW¼, SE¼NE¼NW¼, and SE¼NW¼.

Upper Mandall Recreation Area

T. 1 N., R. 87 W. (unsurveyed),
Sec. 11, S½SE¼NE¼, E½SE¼, S½SW¼SE¼;
Sec. 12, SW¼SW¼NW¼, NW¼NW¼SW¼, S½NW¼SW¼, and SW¼SW¼.

Lower Mandall Recreation Area

T. 1 N., R. 87 W.,
Sec. 13, NW¼NW¼, SW¼NE¼NW¼, S½NW¼, N½SW¼, N½S½SW¼, SW¼SW¼NE¼, W½NW¼SE¼, SE¼NW¼SE¼, SW¼NE¼SE¼, NW¼SE¼SE¼, and E½SE¼SE¼ (unsurveyed);
Sec. 14, E½NE¼, E½W½NE¼, NW¼NW¼NE¼, NE¼SE¼, and E½NW¼SE¼ (unsurveyed).

Smith Lake Recreation Area

T. 1 N., R. 87 W.,
Sec. 23, SE¼NE¼, E½SW¼NE¼, N½NE¼SE¼, and NE¼NW¼SE¼ (unsurveyed).

Upper Stillwater Recreation Area

T. 1 N., R. 87 W.,
Sec. 24, SE¼SE¼NE¼, N½NE¼SE¼, SW¼NE¼SE¼, S½NW¼SE¼, NW¼SW¼SE¼, SE¼NE¼SW¼, SE¼SW¼, and SE¼SW½SW¼;
Sec. 25, NW¼NW¼;
Sec. 26, E½NE¼NE¼, N½S½NE¼SW¼, SW¼NE¼, NW¼NW¼SE¼, S½SE¼NW¼, NE¼SE¼NW¼, N½SW¼, SW¼SW¼, N½SE¼SW¼, and SW¼SE¼SW¼;
Sec. 35, N½NW¼NW¼.

Causeway Recreation Area

T. 1 N., R. 87 W.,
Sec. 22, S½SW¼SE¼, SE¼SE¼SW¼ (unsurveyed);
Sec. 27, E½W½NE¼, W½NW¼NE¼, NW¼SW¼NE¼, NE¼NW¼SE¼, and NE¼NE¼NW¼.

Rainbow Lake Recreation Area

T. 1 N., R. 87 W.,
Sec. 27, S½NE¼SE¼, SE¼NW¼SE¼, S½SE¼, SE¼SW¼, and S½SW¼SW¼;
Sec. 28, E½SE¼ (unsurveyed);
Sec. 33, NE¼NE¼, SE¼NW¼NE¼, N½SE¼NE¼, SE¼SE¼NE¼, and NE¼SW¼NE¼ (unsurveyed);
Sec. 34, N½N½NE¼, SW¼NW¼NE¼, and NW¼ (partly unsurveyed).

Mosquito Lake Recreation Area

T. 1 N., R. 87 W.,
Sec. 33, E½E½SE¼ (unsurveyed);
Sec. 34, N½NE¼SW¼, SW¼NE¼SW¼, and W½SW¼ (unsurveyed).
T. 1 S., R. 87 W. (unsurveyed),
Sec. 4, W½E½NE¼, E½SW¼NE¼, NW¼NE¼SE¼, and E½W½SE¼.

The areas described total in the aggregate 4,595.12 acres.

JOHN A. CARVER, Jr.,
Assistant Secretary of the Interior.

Title 46—SHIPPING

[CGFR 61-63]

Chapter I—Coast Guard, Department of the Treasury

MISCELLANEOUS AMENDMENTS TO CHAPTER

Chapter I of Title 46 is amended in the following respects:

SUBCHAPTER A—PROCEDURES APPLICABLE TO THE PUBLIC

PART 2—VESSEL INSPECTIONS

Assessment, Mitigation or Remission of Penalties; and Navigation and Vessel Inspection Waivers

The purpose for the amendments in this document is to revise the procedures for assessment, mitigation or remission of civil penalties as authorized by law. These amendments will (1) permit the Coast Guard District Commander to delegate to the Chief of Staff or Chief, Merchant Marine Safety Division, who serves under his command, the authority to take final actions on civil penalty cases; (2) shorten the length of time allowed from 30 days to 15 days for violators to petition for mitigation or to appeal to the Commandant which may be extended in the discretion of the District Commander when circumstances warrant such action; and (3) prohibit the remission or mitigation of civil penalties in those cases where it has been determined that violations have been established but the offenders deny they committed the violations. The basic procedures are unchanged; however, editorial changes to clarify existing regulations and to recognize existing practices have been made.

To accomplish these changes, this document separates the present requirements in 46 CFR Subpart 2.50, presently entitled "Navigation and Vessel Inspection Laws," into two subparts. The requirements for waivers of navigation and vessel inspection laws in 46 CFR 2.50–1 are transferred to a new subpart designated "Subpart 2.45—Waivers of Navigation and Vessel Inspection Laws," and the five paragraphs are redesignated as §§ 2.45–1 to 2.45–20, inclusive. The heading for Subpart 2.50 is amended to read "Subpart 2.50—Assessment, Mitigation or Remission of Penalties" and the regulations in 46 CFR 2.50–20 to 2.50–30, inclusive, have been revised and redesignated as §§ 2.50–1 to 2.50–40, inclusive. These revised procedures will be in effect on and after April 1, 1962.

The regulations in this document describe the Coast Guard's procedures applicable to the public and therefore are exempt from the rule making procedures required by the Administrative Procedure Act (5 U.S.C. 1003).

However, interested persons may submit written comments on the revised procedures regarding assessment, mitigation or remission of penalties. These comments should be submitted to the Commandant (CMC), U.S. Coast Guard, Washington 25, D.C. Each comment received prior to February 15, 1962, will be considered and evaluated, and if it is believed that a comment received clarifies or improves a regulation, it will be changed accordingly. After adoption by the Commandant, the amended regulation will be published prior to April 1, 1962, the date when these revised procedures shall become effective.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Orders 120, dated July 31, 1950 (15 F.R. 6521), CGFR 51–1, dated January 23, 1951 (16 F.R. 731), 167–14, dated November 26, 1954 (19 F.R. 8026), 167–20, dated June 18, 1956 (21 F.R. 4894), CGFR 56–28, dated July 24, 1956 (21 F.R. 5659), 167–32, dated September 23, 1958 (23 F.R. 7605), 167–33, dated September 23, 1958 (23 F.R. 7592), 167–38, dated September 26, 1959 (25 F.R. 10106), and 167–45, dated June 16, 1961 (26 F.R. 5585), to promulgate regulations in accordance with the statutes cited with the regulations below, the following amendments and new regulations are prescribed, which shall become effective on and after April 1, 1962:

Subpart 2.45—Waivers of Navigation and Vessel Inspection Laws

1. Part 2 is amended by inserting after Subpart 2.30 a new Subpart 2.45, entitled "Waivers of Navigation and Vessel Inspection Laws," and consisting of §§ 2.45–1 to 2.45–20, inclusive, reading as follows:

Sec.
2.45–1 Authority for and limitations on issuance.
2.45–5 Policy.
2.45–10 Waivers issued.
2.45–15 Specific individual waivers.
2.45–20 General waivers.

AUTHORITY: §§ 2.45–1 to 2.45–20 issued under secs. 1, 2, 64 Stat. 1120; 46 U.S.C., note preceding section 1.

§ 2.45–1 Authority for and limitations on issuance.

Compliance with certain of the navigation and vessel inspection laws may be waived by the Commandant under authority of the act of December 27, 1950 (Public Law 50–891, secs. 1, 2, 64 Stat. 1120; 46 U.S.C., note preceding section 1), and the delegation of waiver authority contained in Department of the Treasury Order CGFR 51–1, dated January 23, 1951 (16 F.R. 731), in any case where such waiver is deemed necessary in the interest of national defense.

§ 2.45–5 Policy.

(a) It is the policy of the Coast Guard, in the current administration of the

laws and regulations relating to navigation and vessel inspection, to further the interests of national defense by simplifying the procedure involved therein, eliminating all causes of delay in the sailing of vessels, and by bringing about a proper balance between the factors of safety at sea and the national defense. While it is not the policy of the Coast Guard to countenance willful violations of the laws and regulations or negligence in meeting the requirements thereof, neither is it contemplated that masters who exercise all reasonable efforts to comply with the requirements in effect be cited for violations on technical grounds.

§ 2.45–10 Waivers issued.

(a) The waivers having general applicability are published in Part 154 of this chapter, as well as in 33 CFR Part 19.

§ 2.45–15 Specific individual waivers.

(a) Applications for waivers affecting only one vessel in any one order under the provisions of § 154.01 of this chapter are made on Form CG–2633, Application for Waiver Order. The application shall state the name of the vessel, her employment, the requirements of law or regulations, waiver of which is requested, the reasons why waiver is necessary, and shall be signed by the master, owner, or agent of the vessel, or by the representative of any interested Government agency. The application shall be made to the Coast Guard District Commander or to his designated representative at the port or place where the vessel is located. In any port or place of the Canal Zone or in any foreign port or place the application shall be made to the designated representative of the Commandant at such port or place or if the Coast Guard has not established facilities in such port or place to the nearest designated representative of the Commandant at a port or place where such facilities have been established.

(b) If the request is granted, the waiver order will describe the vessel, the requirements of law or regulations waived, the conditions to which the waiver is subject, and the period of time for which the waiver is effective.

§ 2.45–20 General waivers.

(a) Applications for waivers having general applicability should be addressed to the Commandant (M), U.S. Coast Guard, Washington, D.C.

(b) Only the Commandant is authorized to issue general waivers which affect more than one vessel in one order.

Subpart 2.50—Assessment, Mitigation or Remission of Penalties

2. The title for Subpart 2.50 is amended to read as set forth above.

§ 2.50–1 [Canceled]

3. Section 2.50–1 *Waivers* is canceled. (The text is transferred to §§ 2.45–1 to 2.45–20, inclusive.)

§ 2.50–20 [Canceled]

4. Section 2.50–20 *Reports and assessments of penalties for violations of laws or regulations* is canceled. (The revised text is transferred to §§ 2.50–10 and 2.50–20.)

§ 2.50–25 [Canceled]

5. Section 2.50–25 *Payment of penalties for violations of law or regulations* is canceled. (The revised text is transferred to § 2.50–35.)

§ 2.50–30 [Canceled]

6. Section 2.50–30 *Motorboat act violations* is canceled. (The revised text is transferred to § 2.50–40.)

7. Part 2 is amended by inserting new §§ 2.50–1 to 2.50–40, inclusive, reading as follows:

Sec.
2.50–1 Delegation of authority.
2.50–5 Statutes providing for assessment, mitigation or remission of civil penalties.
2.50–10 Reports of violations of laws or regulations and instituting civil penalty proceedings generally.
2.50–15 Transfer of civil penalty cases from one District Commander to another.
2.50–20 Civil penalties.
2.50–25 Criminal penalties.
2.50–30 Civil and criminal penalties.
2.50–35 Procedure for payment of civil penalty for violation of law or regulation.
2.50–40 Specific types of violations reported.

AUTHORITY: §§ 2.50–1 to 2.50–40 issued under R.S. 4405, as amended, 4462, as amended; 46 U.S.C. 375, 416. Interpret or apply R.S. 5294, as amended, sec. 26, 23 Stat. 59, as amended; 46 U.S.C. 7, 8.

§ 2.50–1 Delegation of authority.

(a) By virtue of the authority vested in the Secretary of the Treasury by Reorganization Plan No. 26 of 1950 (15 F.R. 4935), and by 14 U.S.C. 631, the Secretary transferred to the Commandant, U.S. Coast Guard, the functions vested in him under the navigation and vessel inspection statutes and amendments thereto (see § 2.50–40), by Treasury Department Order 120, dated July 31, 1950 (15 F.R. 6521), and subsequent Orders 167–14, dated November 26, 1954 (19 F.R. 8026), 167–20, dated June 18, 1956 (21 F.R. 4894), CGFR 56–28, dated July 24, 1956 (21 F.R. 5659), 167–32, dated September 23, 1958 (23 F.R. 7605), 167–33, dated September 23, 1958 (23 F.R. 7592), 167–38, dated October 26, 1959 (24 F.R. 8857), 167–44, dated October 18, 1960 (25 F.R. 10106), and 167–45, dated June 16, 1961 (26 F.R. 5585).

(b) Pursuant to granted authority from the Secretary, the Commandant may make provision for the performance of assigned functions by subordinates in the Coast Guard. Accordingly, the Commandant hereby authorizes each District Commander in his assigned district to administer certain statutes in accordance with procedures set forth in this subpart. The District Commander may further delegate such authority as he deems proper, not inconsistent with the provisions of this subpart, to the Chief of Staff or to the Chief, Merchant Marine Safety Division, who serves under his command.

§ 2.50–5 Statutes providing for assessment, mitigation or remission of civil penalties.

(a) The general statutes authorizing the Coast Guard to assess, mitigate or remit civil penalties are sections 7 and 8 of Title 46, U.S. Code.

(b) Certain other specific statutes contain authority to assess, mitigate or remit civil penalties. (For examples, see sections 85g, 88g, 369, 457, 526p, and 527e of Title 46, U.S. Code.)

§ 2.50–10 Reports of violations of laws or regulations and instituting civil penalty proceedings generally.

(a)(1) Violations of the navigation and vessel inspection laws and regulations applicable thereto, more fully described in § 2.50–40, administered and enforced by the Coast Guard, are reported by Coast Guard personnel detecting them to the District Commander of the district in which the violations occurred. When practicable, the alleged offender shall be informed of the nature of the apparent violation at the time it is detected by any Coast Guard officer. In all other instances, he shall be so informed upon the completion of any proceeding or investigation which indicates that a violation has occurred. An appropriate form prescribed by the Commandant or a letter will be used to notify the alleged offender of the nature of the violation and to advise him relative to the administrative procedure employed in conducting civil penalty cases. The notification shall advise the alleged offender to reply within 15 days or such longer period as the District Commander may in his discretion allow in order that his statement may be considered by the District Commander. The District Commander is hereby authorized to determine whether there has been a violation of any of the pertinent laws or regulations. In the event of a violation for which a criminal sanction is not deemed to be appropriate, the District Commander shall determine whether to invoke the statutory civil penalty. He may thereafter mitigate or remit an assessed civil penalty upon receipt from the offender of a petition for relief therefrom. If after consideration of the petition for relief, the District Commander decides that no violation occurred, or that the person cited did not commit the violation, the penalty case shall be closed and that person notified of that action. Where no such petition is received, or where an offense has been established and the offender denies that he committed the violation, the District Commander shall take no mitigation or remission action but shall demand payment of the full penalty. Where demand for payment of the penalty is made and the penalty amount is not paid, the District Commander shall refer the case to the United States Attorney for collection. The civil penalty procedure is more fully described in § 2.50–20.

(2) If a report of boarding or an investigation report submitted by a Coast Guard officer or investigative body discloses evidence of violation of a Federal criminal statute, the District Commander in accordance with § 2.50–25 shall refer the findings to the United States Attorney for appropriate action.

(b)(1) The District Commander may by specific order in writing delegate to the Chief of Staff or the Chief, Merchant Marine Safety Division, under his command, the authority to determine whether to invoke the statutory civil penalty and, upon receipt from the offender of a petition for relief from a penalty so invoked, whether to mitigate, or to remit the penalty, as he may deem proper. The order shall prescribe the types of cases which the designated officer may initiate and process to the same extent permitted the District Commander by this subpart, and those types of cases which that officer may initiate and process to a lesser extent. With respect to the latter category of cases, the District Commander's order shall set forth in detail the limits of the authority delegated to the designated officer.

(2) The term "District Commander," as hereinafter used in this subpart to designate the officer authorized to assess, mitigate or remit penalties, shall also include the terms "Chief of Staff" or "Chief, Merchant Marine Safety Division," as appropriate, if such officer has been delegated authority to perform such functions.

§ 2.50–15 Transfer of civil penalty cases from one District Commander to another.

(a) Ordinarily the District Commander having jurisdiction over the situs of a violation of the navigation or vessel inspection laws will initiate civil penalty proceedings. Having assumed jurisdiction in a given case by initiating an investigation or other proceedings to determine fault, the District Commander may transfer that jurisdiction to another District Commander where convenience or necessity requires: *Provided*, That the rights of the alleged offender are not prejudiced thereby.

(b) The District Commander transferring jurisdiction will forward all records applicable to the case direct to the District Commander assuming jurisdiction.

§ 2.50–20 Civil penalties.

(a) Violations of 46 U.S.C. 526–526u (Act of April 25, 1940, as amended, Motorboat Act of 1940), or 46 U.S.C. 527–527h (Federal Boating Act of 1958) when observed by Coast Guard law enforcement officers will be brought to the attention of the alleged offender upon the issuance of Form CG–4100, "Report of Boarding and Notice of Violation." In a proper case, the alleged offender will be granted a period of two weeks to bring his vessel into compliance with the laws and regulations, and to advise the District Commander what steps were taken to comply therewith. Violations of other navigation and vessel inspection laws will be brought to the attention of the alleged offender by appropriate form prescribed by the Commandant or by letter. The District Commander will consider any statement made by the alleged offender in determining whether there has been a violation of law or regulations.

(b) If the District Commander determines a violation of a navigation or a vessel inspection law has occurred, he will then determine the appropriate action to be taken, and notice of his decision shall be given to the offender either by appropriate form prescribed by the Commandant or by letter. This action may include invocation of the statutory civil penalty which may then be mitigated or remitted in full, except as the latter action is limited by paragraph (f) of this section. When no penalty is invoked or the penalty is remitted, no further action by the offender will be necessary. When the penalty is mitigated, such mitigation will be made conditional upon payment within 15 days of the notice, or within such other longer period of time as the District Commander may, in his discretion, allow.

(c) If a statutory civil penalty, whether mitigated or not, for any violation of law or regulation is invoked by the District Commander, the offender will be informed of his right to apply for relief from the imposition of penalties within 15 days, or such longer period as the District Commander may in his discretion allow. He may, if he so desires, appear in person before the District Commander or his designated representative. The request for such an appearance is made to the District Commander or his designated representative, who shall, if practicable, establish a convenient meeting time and place.

(d) The offender will be given instructions for making an appeal to the Commandant from the actions of the District Commander. Any such appeal shall be submitted to the Commandant through the District Commander within 15 days of the date of notification by the District Commander, or such longer period of time as the District Commander may, in his discretion, allow. In the event that there is an appeal from the decision of the Chief of Staff or Chief, Merchant Marine Safety Division, acting under delegated authority, the District Commander shall review the case. Should the District Commander determine that the assessment of penalty was not warranted, the case shall be closed and notification thereof given to the appellant. Those cases which upon review by the District Commander are determined to be properly instituted and administered in accordance with the regulations in this subpart and for which remission of the penalty is not considered justified shall be forwarded to the Commandant with the District Commander's recommendation.

(e) Should the alleged offender require additional time to present matters favorable to his case at any stage of these penalty proceedings, a request for additional time shall be addressed to the District Commander who may grant a reasonable extension of time where proper justification is shown.

(f) Under the following circumstances the District Commander shall forward cases to the United States Attorney with the recommendation that action be taken to collect the full statutory penalty:

(1) When within the prescribed time the offender does not act to explain the violation or respond to letters or form inquiries from the District Commander concerning violations of the navigation and vessel inspection laws; or,

(2) Having responded to such inquiries the offender fails to pay or to appeal to the Commandant, within the prescribed time the assessed statutory penalty or mitigated penalty; or,

(3) When the offender fails to pay within the prescribed time the penalty as determined by the Commandant after consideration of the offender's appeal from the action of the District Commander.

§ 2.50–25 Criminal penalties.

(a) Prosecution in the Federal courts for violations of those laws or regulations enforced by the Coast Guard which provide, upon conviction, for punishment by fine or imprisonment is a matter finally determined by the Department of Justice. This final determination consists of deciding whether and under what conditions to prosecute or to abandon prosecution.

(b) Except in those cases where the approval of the Commandant is required, the District Commander is hereby authorized to determine whether or not a violation of a statute carrying a criminal penalty is one which would justify referral of the case to the United States Attorney. The Commandant's approval is required in the following cases where evidence of a criminal offense is disclosed:

(1) Marine casualties or motorboat accidents resulting in death.

(2) Marine Boards (Part 136 of this chapter).

(3) Marine investigations held jointly with a proceeding under the Uniform Code of Military Justice.

(4) Violations of port security regulations (33 CFR Parts 6, 121 to 126, inclusive).

(c) The District Commander will identify the laws or regulations which were violated and make specific recommendations concerning the proceedings to be instituted by the United States Attorney in every case.

(d) Referral of a case to the United States Attorney for prosecution terminates the Coast Guard's authority with respect to the criminal aspects of a violation.

§ 2.50–30 Civil and criminal penalties.

(a) If a violation of law or regulation carries both a civil and a criminal penalty, the District Commander is hereby authorized to determine whether to initiate civil penalty proceedings, in which case the procedure outlined in § 2.50–20 will be followed, or whether to refer the case to the United States Attorney for prosecution in accordance with § 2.50–25, which outlines the appropriate procedure for handling criminal cases.

(b) When the United States Attorney declines to institute criminal proceed-

ings, the District Commander shall decide whether to initiate civil penalty proceedings or to close the case, whereupon the alleged violator shall be notified regarding that decision.

§ 2.50–35 Procedure for payment of civil penalty for violation of law or regulation.

(a) The payment must be by postal money order or check payable to the order of the U.S. Coast Guard when mailed to the District Commander, attention of the Collection Clerk. If the payment is made in person at the Office of the District Commander, the payment may be in cash or by postal money order or check payable to the order of the U.S. Coast Guard.

(b) The payment of any penalty is acknowledged on Coast Guard Form CG–2688 (Collection Receipt).

(c) If the penalty paid is determined by the Commandant to have been improperly or excessively imposed, and the money has already been covered into the United States Treasury, the payor will be notified and requested to submit an application for a refund on Form CG–1086, "Claim for Navigation Fine Exacted in Excess or in Error," which should be mailed to the appropriate District Commander for transmission to the Commandant. Such application must be made by the payor within one year of the date of payment of the penalty. If the penalty paid is determined by the Commandant to have been improperly or excessively imposed and the money has not been covered into the United States Treasury, the Coast Guard will notify the payor and upon application will refund the penalty or that portion considered to be in excess of the proper amount.

§ 2.50–40 Specific types of violations reported.

(a) *General.* The procedures in this subpart apply to detected violations of navigation and vessel inspection statutes and the regulations issued pursuant thereto which provide for the imposition of civil penalties. These procedures do not apply to penalties set forth in Title 14, U.S. Code.

(b) *Inspection laws.* The vessel inspection laws in Title 46, U.S. Code, and implementing regulations in this chapter (unless otherwise provided in specific statutes) which invoke civil penalties for violations of those laws and regulations are set forth in sections 497 and 498 of Title 46, U.S. Code.

(c) *Numbering of undocumented vessels.* The penalty for violations of the Federal Boating Act and implementing regulations in Parts 170–173 of this chapter is in section 527e of Title 46, U.S. Code.

(d) *Motorboats.* The penalties for violations of the Act of April 25, 1940, as amended (46 U.S.C. 526–526u) and the implementing regulations in subchapter C of this chapter are in section 526o of Title 46, U.S. Code.

(e) *Marine regattas or parades.* The penalty for violating the act of April 28, 1908, as amended, and applicable regulations in 33 CFR Part 100 is in section 457 of Title 46, U.S. Code.

(f) *Reckless or negligent operation.* The civil penalty for violating the reckless and negligent operation provisions of the act of April 25, 1940 (46 U.S.C. 526*l*(a)) and the regulations in this chapter (Part 26) is applicable to the operation of all vessels and is in section 526o of Title 46, U.S. Code.

(g) *Rules of the road.* The penalties for violating applicable rules of the road and implementing regulations in 33 CFR Parts 80 to 96, inclusive, are in sections 158, 159, 244, 354, and 355 of Title 33, U.S. Code.

(h) *Load lines.* The penalties for violations of the Load Line Acts and the implementing regulations in parts 43 to 46 of this chapter are in sections 85g and 88g of Title 46, U.S. Code.

(i) *Great Lakes pilotage.* The civil penalty for violations of the Great Lakes Pilotage Act of 1960 is in section 216e of Title 46, U.S. Code.

(j) *Manning or employment of seamen.* The laws governing shipping of seamen or manning of certain vessels in Title 46, U.S. Code, and implementing regulations in this chapter in specific statutes invoke civil penalties for certain violations of those laws and regulations. (For example, see sections 562, 567, 568, 571, 575, 623, 641, 642, 643, and 672 of Title 46, U.S. Code.)

SUBCHAPTER C—UNINSPECTED VESSELS

PART 26—OPERATIONS

Subpart 26.10—Assessment, Collection, Mitigation, Remission of Fines or Penalties

Section 26.10–5(b) is amended by correcting the section references from "§§ 2.50–20 to 2.50–30" to "§§ 2.50–1 to 2.50–40" so that it reads as follows:

§ 26.10–5 Procedures.

* * * * *

(b) The procedures for the assessment, collection, remission, or mitigation are set forth in §§ 2.50–1 to 2.50–40 of Subchapter A (Procedures Applicable to the Public) of this chapter.

(R.S. 4405, as amended, 4462, as amended, sec. 17, 54 Stat. 166, as amended; 46 U.S.C. 375, 416, 526p)

SUBCHAPTER S—NUMBERING OF UNDOCUMENTED VESSELS, STATISTICS ON NUMBERING, AND "BOATING ACCIDENT REPORTS" AND ACCIDENT STATISTICS

PART 170—GENERAL PROVISIONS

Subpart 170.15—Appeals and Judicial Review

Section 170.15–25 is amended by correcting the section references from "§§ 2.50–20 to 2.50–30, inclusive" to "§§ 2.50–1 to 2.50–40" so that it reads as follows:

§ 170.15–25 Reports and assessments of penalties for violations.

The reports of violations, assessments, collection, mitigation or remission of civil penalties shall be in accordance with §§ 2.50–1 to 2.50–40 of Subchapter A (Procedures Applicable to the Public) of this chapter.

(Secs. 13, 17, 54 Stat. 166, as amended, sec. 7, 72 Stat. 1757; 46 U.S.C. 526l, 526p, 527d)

Dated: January 17, 1962.

A. C. RICHMOND,
Admiral, U.S. Coast Guard,
Commandant.

Title 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

PART 120—ANNUAL, SPECIAL OR PERIODICAL REPORTS

Annual Report Form C Prescribed for Class II Railroads

At a session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D.C., on the 2d day of January A.D. 1962.

The matter of annual reports of line-haul and switching and terminal railroad companies of Class II being under further consideration, and the changes to be made by this order being minor changes in the data to be furnished, rule-making procedures under section 4 (a) of the Administrative Procedure Act, 5 U.S.C. 1003, being deemed unnecessary:

It is ordered, That § 120.12 of the order of November 30, 1960, in the matter of Railroad Annual Report Form C, be, and it is hereby, modified and amended, with respect to annual reports for the year ended December 31, 1961, and subsequent years, to read as shown below.

It is further ordered, That 49 CFR 120.12, be, and it is hereby, modified and amended to read as follows:

§ 120.12 Form prescribed for Class II railroads.

Commencing with reports for the year ended December 31, 1961, and thereafter, until further order, all line-haul and switching and terminal railroad companies of Class II, as described in § 126.1, viz., of this chapter, all carriers with average annual operating revenues of less than $3,000,000, subject to the provisions of section 20, Part I of the Interstate Commerce Act, are required to file annual reports in accordance with Railroad Annual Report Form C, which is attached to and made a part of this section.[1] Such annual report shall be filed in duplicate in the Bureau of Transport Economics and Statistics, Interstate Commerce Commission, Washington 25, D.C., on or before March 31 of the year following the year to which it relates.

(Sec. 12, 24 Stat. 383, as amended; 49 U.S.C. 12. Interpret or apply sec. 20, 24 Stat. 386, as amended; 49 U.S.C. 20)

And it is further ordered, That copies of this order and of Annual Report Form C shall be served on all line-haul and switching and terminal railroad companies of Class II, subject to the provisions of section 20, Part I, of the Interstate Commerce Act, and upon every receiver, trustee, executor, administrator or assignee of any such railroad company, and that notice of this order shall be given to the general public by depositing a copy in the office of the Secertary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Division 2.

[SEAL] HAROLD D. MCCOY,
Secretary.

[F.R. Doc. 62–669; Filed, Jan. 19, 1962; 8:48 a.m.]

Food and Drug Administration

[21 CFR Part 121]

FOOD ADDITIVES

Notice of Filing of Petition

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786; 21 U.S.C. 348(b)(5)), notice is given that a petition (FAP 625) has been filed by Nalco Chemical Company, 6216 West Sixty-sixth Place, Chicago 38, Illinois, proposing the issuance of a regulation to provide for the safe use of poly-1,4,7,10,13-pentaaza-15-hydroxyhexadecane as a retention aid employed prior to the sheet-forming operation in the manufacture of paper and paperboard intended for use in contact with food.

Dated: January 12, 1962.

J. K. KIRK,
Assistant Commissioner of Food and Drugs.

FEDERAL AVIATION AGENCY

[14 CFR Parts 600, 601, 608]

[Airspace Docket No. 61-LA-3]

FEDERAL AIRWAYS, CONTROLLED AIRSPACE AND SPECIAL USE AIRSPACE

Proposed Designation of Transition Area, Alteration of Continental Control Area, Federal Airways and Control Zones, Alteration and Designation of Restricted Areas

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering amendments to Part 601 and §§ 600.6023, 600.6109, 600.6113, 601.1983, 601.7101, 600.1559, and 608.25 of the Regulations of the Administrator, the substance of which is stated below.

The Vernalis, Calif., Restricted Area R-2525 contains 512 square miles and is assigned to the Commander, Naval Air Bases, 12th Naval District, Alameda, Calif., for simulated low altitude bombing, rocketry and gunnery activities. It is designated from the surface to an unlimited altitude from 0500 to 2400 PST, Monday through Friday.

The Federal Aviation Agency has under consideration a proposal to redesignate R-2525 as two smaller restricted areas, hereinafter identified as R-2525 and R-2528. These areas would be designated to 17,000 feet MSL daily, from one hour before sunrise to one hour after sunset. R-2528 would have a floor of 2,000 feet MSL.

Although this alteration would result in an overall reduction of approximately 310 square miles of special use airspace in the Vernalis, Calif., area, it would entail the inclusion of approximately 35 square miles of airspace not previously designated.

In order to provide for the most efficient utilization of the airspace, the Oakland, Calif., ARTC Center would be designated as the controlling agency of R-2525 and R-2528.

Further, the Crows Landing, Calif., Navy Auxiliary Landing Field control zone would be enlarged to provide protection for aircraft executing prescribed instrument approach procedures at Crows Landing. That portion of the control zone within R-2528 would be excluded.

A transition area extending upward from 1,200 feet above the surface would be designated to supplement the Crows Landing control zone. This transition area would encompass approach procedures for Crows Landing ALF and would provide additional controlled airspace for radar vectoring of air traffic by the Oakland Center. The portions of this transition area within R-2525 and R-2528 would be used only after obtaining prior approval from appropriate authority.

As described herein R-2528 would impinge upon low altitude VOR Federal airways Nos. 23 west alternate, 109 and 113. Therefore the description of these airways would be altered to exclude the portions within R-2528. Further, intermediate altitude VOR Federal airway No. 1559 extends in part as a 10-mile wide airway from the Los Banos, Calif., VOR to the Stockton, Calif., VOR. A portion of this airway would coincide with R-2528. Therefore, it is proposed to redesignate Victor 1559 by reducing its width from 10 to 8 miles in the vicinity of R-2528.

Restricted Areas R-2525 and R-2528 would be included as part of the continental control area for air traffic control purposes.

Therefore the following actions are proposed:

1. R-2525 would be redesignated as follows:

R-2525 Vernalis, Calif.:

Boundaries. A 5-nautical mile radius circle centered at latitude 37°24'00" N., longitude 121°20'00" W.

Designated altitudes. Surface to 17,000 feet MSL.

Time of designation. One hour before sunrise to one hour after sunset.

Controlling agency. Federal Aviation Agency, Oakland ARTC Center.

Using agency. Commander, Naval Air Bases, 12th Naval District, Alameda, Calif.

2. A new restricted area would be designated as follows:

R-2528 Newman, Calif.:

Boundaries. Beginning at latitude 37°19'-50" N., longitude 121°04'05" W.; to latitude 37°16'25" N., longitude 121°02'55" W.; thence clockwise along the arc of a 3-nautical mile radius circle centered at latitude 37°17'30" N., longitude 121°06'30" W.; to latitude 37°15'30" N., longitude 121°03'30" W.; to latitude 37°05'50" N., longitude 121°01'45" W.; to latitude 37°05'15" N., longitude 121°08'00" W.; to latitude 37°17'00" N., longitude 121°10'12" W.; thence along the arc of a 3-nautical mile radius circle centered at latitude 37°17'30" N., longitude 121°06'30" W.; to the point of beginning.

Designated altitudes. 2,000 feet MSL to 17,000 feet MSL.

Time of designation. One hour before sunrise to one hour after sunset.

Controlling agency. Federal Aviation Agency, Oakland ARTC Center.

Using agency. Commander, Naval Air Bases, 12th Naval District, Alameda, Calif.

3. The Crows Landing control zone would be designated within 5 miles of the Crows Landing Navy Auxiliary Landing Field (latitude 37°24'35" N., longitude 121°06'40" W.), including an extension 2 miles either side of the Crows Landing Navy ALF TACAN 327° True radial extending from the 5-mile radius zone to 2 miles northwest, excluding the airspace within R-2528.

4. The Crows Landing transition area would be designated as that airspace extending upward from 1,200 feet above the surface, bounded on the southwest by low altitude VOR Federal airway No. 107, on the north by low altitude VOR Federal airway No. 244 south alternate and on the east by low altitude VOR Federal airway No. 109. The portion of this transition area that would be within R-2525 and R-2528 would be used only after obtaining prior approval from appropriate authority.

5. Restricted Areas R-2525 and R-2528 would be designated as part of the continental control area.

6. Low altitude VOR Federal airways Nos. 23 west alternate, 109 and 113 would be altered to exclude the airspace that would be within R-2528.

7. The segment of intermediate altitude VOR Federal airway No. 1559 extending as a 10-mile wide airway from the Los Banos VOR to the Stockton VOR would be redesignated from the Los Banos VOR as a 10-mile wide airway to the intersection of the Los Banos VOR 344° and the Salinas, Calif., VOR 042° True radials, thence as an 8-mile wide airway to the intersection of the Los Banos VOR 344° and the Salinas VOR 032° True radials, thence as a 10-mile wide airway to the Stockton VOR.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Assistant Administrator, Western Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, 5651 West Manchester Avenue, P.O. Box 90007, Airport Station, Los Angeles 45, Calif. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on January 16, 1962.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 270]

RECORDS TO BE MAINTAINED AND PRESERVED BY REGISTERED INVESTMENT COMPANIES AND OTHERS

Extension of Time for Comments

The Securities and Exchange Commission has extended to January 26, 1962, the date for the filing by interested persons of views and comments on its "Notice of Proposal to Amend Rules 31a-1 and 31a-2 (§§ 270.31a-1 and 270.31a-2) and to Adopt Rule 31a-3 (§ 270.31a-3) under the Investment Company Act of 1940" (Investment Company Act Release No. 3368). This announcement was published also in the FEDERAL REGISTER of December 7, 1961 (26 F.R. 11738). The previous date fixed for such filings was January 12, 1962.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

JANUARY 11, 1962.

Notices

DEPARTMENT OF AGRICULTURE

Office of the Secretary

TEXAS

Designation of Areas for Emergency Loans

For the purpose of making emergency loans pursuant to section 321(a) of Public Law 87-128 (7 U.S.C. 1961) it has been determined that in Fannin County, Texas, natural disasters have caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

Pursuant to the authority set forth above, emergency loans will not be made in the above-named county after June 30, 1962, except to applicants who previously received emergency or special livestock loan assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 17th day of January 1962.

ORVILLE L. FREEMAN,
Secretary.

DEPARTMENT OF COMMERCE

Maritime Administration

[Trade Route No. 15-A]

U.S. ATLANTIC/SOUTH AND EAST AFRICA

Notice of Conclusions and Determinations Regarding the Essentiality and United States Flag Service Requirements

Notice is hereby given that on January 15, 1962, the Maritime Administrator, acting pursuant to Section 211 of the Merchant Marine Act, 1936, as amended, found and determined the essentiality and United States flag service requirements of United States foreign Trade Route No. 15-A and ordered that the following conclusions and determinations reached by the Maritime Administrator with respect to said Trade Route be published in the FEDERAL REGISTER.

Trade Route No. 15-A as described below is affirmed as an essential foreign trade route of the United States: Between United States Atlantic ports (Maine-Atlantic Coast Florida to but not including Key West) and ports in South and East Africa from the southern border of Angola to Cape Guardafui in Somalia, including the islands of Ascension and St. Helena in the South Atlantic and Madagascar and adjacent islands in the Indian Ocean not east of 60° East Longitude.

The following United States flag services and ship requirements are found and determined to be essential for operation on Trade Route No. 15-A:

1. United States flag sailing requirements for freight service on Trade Route No. 15-A are approximately five freighter sailings per month. For interim operation pending replacement thereof C-2 and C-3 type freight ships are suitable for operation on the route. Replacement freighters should be superior in speed and have approximately the same carrying capacity as the present C-3 type ships.

2. United States flag sailing requirements for combination passenger cargo service on Trade Route No. 15-A are not less than one and not more than two voyages during each calendar year with the "SS Argentina" and/or the "SS Brasil," such voyages offering outbound service on Trade Route No. 1 prior to calling at Trade Route No. 15-A ports. The "SS Argentina" and "SS Brasil" are suitable for long range operation on this service.

Dated: January 16, 1962.

By order of the Maritime Administrator.

JAMES S. DAWSON, Jr.,
Secretary.

CIVIL AERONAUTICS BOARD

[Docket Nos. 12130, 13335; Order E-17931]

EASTERN MOHAWK TRANSFER CASE AND SERVICE TO OGDENSBURG, N.Y. CASE

Order of Investigation and Consolidation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 16th day of January 1962.

In the matter of the Eastern Mohawk Transfer Case, Docket 12130; in the matter of the Service to Ogdensburg, N.Y. Case, Docket 13335.

Mohawk Airlines, Inc. (Mohawk), is certificated to provide service to Ogdensburg, New York, on segments 2, 8, and 9 of its route 94. On segment 2, Ogdensburg is designated as a coterminal point with Watertown, New York (Order E-14740, December 15, 1959). Service on segments 8 (Order E-17617, October 20, 1961) and 9 (Order E-16412, February 21, 1961) is authorized to the hyphenated point Ogdensburg-Massena. By Order E-17617, October 20, 1961, the Board amended Mohawk's certificate to redesignate the coterminal point Ogdensburg on segment 2 as the hyphenated terminal point Ogdensburg-Massena, and thereafter permitted to become effective an airport notice filed by Mohawk proposing service to Ogdensburg-Massena through the use of Richards Field at Massena. On October 30, 1961, Ogdensburg filed in the United States Court of Appeals for the District of Columbia Circuit a petition for review of the Board's orders of August 31 and October 20 and its related airport action, City of Ogdensburg et al., v. Civil Aeronautics Board, No. 16,699. By Order E-17659, October 31, 1961, the Board stayed, until further order of the Board, the redesignation of Ogdensburg on segment 2 and the related airport action, insofar as it would allow service to Ogdensburg on segment 2 through the use of Richards Field.

On November 20, 1961, the City of Ogdensburg, New York, the Ogdensburg Chamber of Commerce, and the Odgensburg Bridge and Port Authority petitioned the Board for amendment of the Certificate of Public Convenience and Necessity of Mohawk Airlines, Inc., for route 94 (Docket 13197). In essence, Ogdensburg requests a public hearing to determine the future of air service to Ogdensburg.

The Board has determined that a certificate renewal proceeding investigating the requirements of air transportation to Ogdensburg over segment 2 of Mohawk's route 94 is warranted at this time. The question of whether or not the service on segment 8 should be to the hyphenated point Ogdensburg-Massena, or to Ogdensburg as an intermediate, coterminal, or terminal point will also be in issue. The Board also finds that service to Ogdensburg on segment 9 need not be an issue in the investigation, inasmuch as the requirement for this service was fully heard and determined in the recent Pittsburgh-Syracuse Case, Order E-16412, February 21, 1961.

Under the present set of circumstances, it appears that Ogdensburg is faced with a problem that can only be resolved upon the Board's investigation of the air transportation requirements indicated above. Mohawk, though manifesting a willingness to serve Ogdensburg, contends that the Ogdensburg airport, in its present condition, cannot accommodate the aircraft now predominant in Mohawk's fleet. Ogdensburg, on the other hand, alleges that upon the issuance of the Board's decision in the Eastern-Mohawk Transfer Case (E-17382, 17383, August 14, 1961), in which Ogdensburg and Massena were hyphenated on segments 2 and 8, the Federal Aviation Agency has withheld funds earmarked for Ogdensburg's airport expansion.

Though Mohawk's authority to serve Ogdensburg on segment 2 of route 94 does not expire until February 23, 1963, and the extended segment 8 authority has just been granted for an indefinite period, the Board finds that the unique problem presently facing Ogdensburg plus the importance of problems dealing with the concept of regional airports require the prompt investigation into the matter of air service to Ogdensburg on Mohawk's segments 2 and 8 of route 94.

The investigation contemplated herein shall encompass the following issues: (1) Whether Mohawk's certificate, as it pertains to segment 2 of route 94, should be altered, amended, modified, suspended, terminated, or renewed with respect to air service to Ogdensburg; (2) whether, in the event that service is continued to Ogdensburg on segment 2, the service should be to the hyphenated terminal point Ogdensburg-Massena, or to Ogdensburg as an intermediate, coterminal, or sole terminal point, and if so for what period; (3) whether service to Ogdensburg via segment 8 of route 94 should be to the hyphenated terminal point Ogdensburg-Massena, or to Ogdensburg as an intermediate, coterminal, or sole terminal point; (4) whether on segments 2 and/or 8, if it is determined that service is to be solely to the hyphenated point Ogdensburg-Massena, the Board should indicate the nature of the service or leave to the discretion of Mohawk's management the selection of the airport through which to serve the Ogdensburg-Massena area.

The Board's action instituting this investigation will be subject to any necessary approval by the Court of Appeals for the District of Columbia Circuit: *Accordingly, it is ordered:*

1. That, subject to any necessary approval by the United States Court of Appeals for the District of Columbia Circuit, an investigation be, and it hereby is instituted, pursuant to section 401(g) of the Federal Aviation Act of 1958, to consider:

(a) Whether the certificate of Mohawk Airlines, Inc., as it pertains to segment 2 of route 94, should be altered, amended, modified, suspended, terminated, or renewed with respect to Ogdensburg, New York;

(b) Whether, in the event that service is continued to Ogdensburg on segment 2, the service should be to the hyphenated terminal point Ogdensburg-Massena, or to Ogdensburg as an intermediate, coterminal, or sole terminal point, and if so, for what period;

(c) Whether service to Ogdensburg via segment 8 of route 94 should be to the hyphenated terminal point Ogdensburg-Massena, or to Ogdensburg as an intermediate, coterminal, or sole terminal point; and

(d) Whether, on segments 2 and/or 8, if it is determined that service is to be solely to the hyphenated point Ogdensburg-Massena, the Board should indicate the nature of the service or leave to the discretion of Mohawk's management the selection of the airport through which to serve the Ogdensburg-Massena area;

2. That the proceeding instituted herein shall be known as the Service to Ogdensburg, N.Y. Case, Docket 13335, and shall be set down for prompt hearing before an Examiner of the Board at a time and place to be hereafter determined;

3. That a copy of this order shall be served upon the city of Ogdensburg, New York, the Ogdensburg Chamber of Commerce, the Ogdensburg-Bridge and Port Authority, the city of Massena, New York, the New York State Department of Commerce, and Mohawk Airlines, Inc., who are hereby made parties to the proceeding;

4. That the stays set forth in Order E-17659 of October 31, 1961, shall continue in effect pending a final order in this proceeding;

5. That, subject to the limitations set forth in this order, Docket 13197 be, and it hereby is, consolidated with this proceeding; and

6. That this order be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
Secretary.

[Docket No. 13267]

SWISSAIR, SWISS AIR TRANSPORT CO., LTD.

Notice of Hearing

In the matter of the application of Swissair, Swiss Air Transport Company Limited for amendment of its foreign air carrier permit so as to include Frankfurt, Germany, as an intermediate point and Chicago, Illinois, as a coterminal point with New York, New York.

Notice is hereby given pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that hearing in the above-entitled matter is assigned to be held on January 29, 1962, at 10 a.m., e.s.t., in Room 701, Universal Building, Connecticut and Florida Avenues NW., Washington, D.C., before Chief Examiner Francis W. Brown.

Dated at Washington, D.C., January 17, 1962.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

[Docket No. 12895; Order E-17932]

UNITED STATES-SOUTH AMERICA ROUTE CASE

Order on Motions for Modification and Motions for Consolidation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 16th day of January 1962.

On August 8, 1961, in Order E-17289, the Board instituted an investigation calling for a comprehensive review of the United States flag carrier route pattern between the domestic United States and South America. It was our intention at that time that this proceeding be conducted in two separate stages, the first dealing with the route pattern required by the public convenience and necessity, and the second dealing with the selection of an air carrier or air carriers to provide the required services. This intention is reaffirmed here.

In Order E-17289, we provided an opportunity for interested parties to file motions to modify the issues as set forth therein and motions to consolidate applications. Numerous motions and answers have been filed by air carriers and civic bodies. These will be discussed and considered herein to the extent that they bear on the scope of the first stage of this proceeding—the route pattern required by the public convenience and necessity.

We have reconsidered Order E-17289 in the light of the incoming documents, and it will stand except insofar as specifically modified herein.

The primary modification of our previous order which we feel is warranted relates to the definition and separation of the Caribbean Area issues as contrasted with United States-South America route problems. Our previous order and supporting staff report included the issues of the possible deletion of Maracaibo and Caracas from Delta Air Lines' route 114. In addition, Barranquilla and Guatemala were identified as points on route A. Considering the pleadings now before us, the Latin American Air Service Case, 6 CAB 857, 889 (1946), and our determination to go forward with a United States-South America Case, as distinct from a Caribbean Area Investigation,[1] we will exclude the issue as to the possible deletion of Delta's authorizations at Maracaibo and Caracas, and we will also exclude issues concerning new service to Barranquilla and Guatemala as well as Maracaibo and Caracas.[2] Following this course, there will no longer be any necessity for Delta to be a party to this proceeding.

In addition, there will be no issue in this proceeding as to the possibility of altering, amending or modifying Pan American's existing authority, as described in its certificate for route 136, for points north of the route junction Port of Spain, Trinidad. However, we will consider the issue as to whether Balboa-Miami authority should be deleted from proposed route A, as distinct from such authority in relation to services wholly within the Caribbean Area, which will be considered in the contemplated Caribbean Area Investigation. Also, there will be in issue the question of modification of the coterminal status of the cities in the northeastern part of the United States as named in Pan American's certificate.

A number of other requests for relief are governed by our separation of Caribbean Area issues from United States-South America route problems. In particular, National seeks the imposition of long-haul restrictions on all U.S.-South America services which would require flights to originate and/or terminate at points beyond the Caribbean Area. Since the overall Caribbean route pattern will be considered in the forthcoming proceeding directed specifically to the Caribean Area, we find no need, and no sound reason, for considering in the present case the possible imposition of restrictions on any existing certificate

[1] The Board will institute a separate Caribbean Area Investigation at a subsequent date.

[2] In the Latin American Air Service Case, *supra*, at page 889, the Board defined the Caribbean Area in part as "• • • embracing the Lesser and Greater Antilles, Venezuela and Colombia on the north coast of South America and the countries of Central America, including the Canal Zone • • •". This is consonant with our action herein.

authority to prohibit turnaround service between points in the United States and Caribbean points, such as Balboa. With respect to any new or expanded U.S.-South America authority that may come out of the present case, the issues as now framed are sufficiently broad to encompass the question of the imposition of long-haul restrictions on such authority.[1]

Miami, Washington, and New York will be considered as possible coterminals on route B, and Washington and New York will be considered as possible coterminals on route A. In addition, Miami will be considered as a separate terminal on route A. However, no traffic rights between the east coast United States points will be considered.

The city and chamber of commerce of Houston filed an application and motion seeking the inclusion of Houston on new and modified routes between Houston, on the one hand, and points in the Caribbean on the other. This proposal is without regard to whether or not such authority is part of a United States-South America route. Braniff and Pan American, in reply to such motions, have stated that the scope of the proceeding in this area should be clarified by the Board. Further the carriers urge that if applications, such as Houston's are to be included, carrier parties should be permitted to litigate applications for new services between Balboa-Panama City/Canal Zone and points in the United States. In our previous order (E–17289) we determined that there would be no issue in the instant proceeding as to new or additional route authority in the Caribbean Area. We would emphasize that this proceeding is aimed at the reduction and/or elimination of uneconomic competition. In short, the issues as to this area relate to the possible deletion of service rather than the addition of new service.

Rio de Janeiro and Sao Paulo are presently served by two United States flag carriers. Therefore, the parties to this proceeding will be given the opportunity to submit evidence as to whether this type of certification should be continued in the Board's proposed new route pattern.

Braniff and Panagra have requested, by motions for expansion and consolidation, that San Francisco and Los Angeles be named as coterminals on proposed route B either in addition to or in lieu of route A as shown in the staff study attached to the original order of investigation. Both carriers have alleged that a strong community of interest exists between the California points and the west coast of South America (points on route B). At this time there is little probative information before us to support or contradict this allegation. Nevertheless, we will include this request as an issue to be litigated in this proceeding. However, as a result of this action we will have competing carriers seeking a route which, on the basis of any information now before us, will not support more than one carrier. Despite our determination that this proceeding be directed toward the reduction or elimination of uneconomic competition, we will not deprive the parties of the opportunity to demonstrate that the California cities can strengthen either route A or B, or conceivably both.

Applications have been advanced for consolidation, which include many coterminal points within the interior of the United States, for which no specific support has been submitted. As set forth in the staff study appended to our previous order, it is our intention to limit consideration of United States terminals to the presently certificated gateways. Since there has been no showing that consideration of additional United States terminals is necessary to a sound disposition of the proceeding, or required to afford fairness to any person, no consideration will be given to new United States terminals for South America routes, and applications directed toward additional United States terminals will not be considered.

Applications for exclusive all cargo routes are beyond the scope of this proceeding and will be excluded. Similarly, the petition for intervention filed by Riddle will be denied since Riddle has no independent interest in a South America case.

Pan American seeks consolidation of the Panagra Management Agreement Proceeding, Docket 5140, which concerns the alleged control relationships between W. R. Grace and Company and Panagra. We see no necessity for such consolidation and the Panagra Management matter can be considered separately while we proceed with the first stage of the instant proceeding.

Dallas, Houston, San Antonio, New Orleans, Chicago, Oklahoma City, the Commonwealth of Puerto Rico, Aerovias Sud, Eastern, National, Mackey, Caribair and, as mentioned above, Riddle, all seek intervention. In view of the limitations which we will impose on the scope of this proceeding as discussed above, we will grant intervention to Houston, Puerto Rico, Aerovias Sud, Eastern, National and Mackey and deny intervention to Dallas, San Antonio, New Orleans, Chicago, Oklahoma City, Caribair and Riddle.

In accordance with the foregoing, we find that Trans Caribbean Airways' request for consolidation of Docket 12993 should be granted only insofar as it conforms to the designation of route B as modified herein.

As to Braniff, we will grant its request to consolidate Docket 12988 and Docket 3482, as amended, except as to the designation of Dallas and Houston as coterminal points. This issue is beyond the scope of the instant proceeding. Braniff also seeks consolidation of Docket 12987 which duplicates Docket 12988 for points south of Balboa with the addition of a proposed segment between routes A and B to Brasilia.

With respect to service to Brasilia, it is now served by Pan American[2] and will be considered as a possible point on either route A or route B. We have no historic traffic data as to this point, and, in view of our objective herein to reduce or eliminate uneconomic competition, consideration will not be given to possible United States flag competitive service to Brasilia at this early stage in its development.

Docket 12987 also includes a request that Seattle be named as a coterminal with San Francisco and Los Angeles, and that Guatemala City be named as an intermediate. Additionally, Braniff seeks Denver, Kansas City, San Antonio, Houston, Dallas, New Orleans as coterminals, Mexico City and Guatemala as intermediates in Part II of its application. Such requests are beyond the scope of this proceeding and we will deny consolidation of Docket 12987, as well as Braniff's contingent request to consolidate Dockets 3700 and 4380, which for the most part duplicate the application in Docket 12987, but also include numerous Caribbean Area points.

Caribair's motion to consolidate Docket 11078 raises matters which are entirely within the contemplated Caribbean Area Investigation. This motion will be denied.

Pan American's numerous requests and contingent requests for consolidation and modification will be denied except to the limited extent that they conform with our discussion above. Thus, consolidation is warranted of Pan American's application in Docket 11609 and its restated applications in Dockets 2720, 4833, and 8597, but only to the extent that they conform to the points named on proposed route B. Consolidation need not be granted as to Dockets 3862, 4958, 5417, 5453, 5629, 5874, 6603, 10054, 10619, and 12862. Each of these involves either services within the Caribbean Area or proposed services for points beyond the scope of the instant proceeding.

Panagra's motion to consolidate its applications in Dockets 4159 and 12688 will be granted. These applications request that the carrier's authority to serve Bogota, Colombia, be made permanent and that the carrier be granted authority to engage in air transportation between points on its present route 146 and New York, Washington, and Miami. As previously stated, local traffic rights between the three United States cities will not be considered.

National's request for consolidation of of its applications in Dockets 5032 and 12700 will be denied. Those applications relate to services within the Caribbean Area and should therefore be heard in the forthcoming proceeding directed to consideration of the route pattern in that area. We will not link our denial of consolidation with a limitation on the issues in the present proceeding that would preclude U.S.-Balboa turnaround service under any new U.S.-South America route authority that may be granted. To do so would prevent consideration of such a service on even a temporary basis pending disposition of the Caribbean proceeding. National, or any other carrier, will have a full opportunity to attempt to establish that the Board as a matter of law must, or as a matter of discretion should, impose a long-haul condition on any new authority that may come out of the case.

The United States-South America Route Case can now proceed to prehearing and hearing before an Examiner of the Board. The issues in the first stage will conform to those raised in Order E–17289, as modified herein. In accordance with Order E–17289, no further motions for modification, expansion, or consolidation will be considered in the first stage of this proceeding, nor will we entertain any motions for reconsideration of the actions taken herein. After decision as to the route pattern to be operated, interested parties will have an opportunity to submit proposals, through applications, for the particular routes: *Accordingly, it is ordered:*

1. That the issues as to the possible deletion of Delta's authorizations at Maracaibo and Caracas be excluded from this proceeding and that Delta be excluded as a party;

2. That issues as to new or amended authority related to Barranquilla and Guatemala be excluded from this proceeding;

3. That any issue as to the alteration, amendment or modification of Pan American's existing authority as described in its certificate for route 136 be excluded from this proceeding except to the extent its certificate authorizes Balboa-Miami service as a part of a United States-South America authorization, and the modification of the certificate designation as to the coterminal status of the northeastern United States cities named therein;

4. That Miami, Florida, Washington, D.C., and New York, New York, be considered as possible coterminals on route B, and Washington and New York be considered as possible coterminals on route A, and that Miami be considered as a separate terminal on route A;

5. That no traffic rights between the east coast United States points named in ordering paragraph 4 be considered;

6. That the possible deletion of Braniff's existing route authority between Houston, on the one hand, and Havana and Balboa on the other, and between Miami, on the one hand, and Havana and Balboa on the other be considered as it relates to United States-South America service;

7. That Rio de Janeiro and Sao Paulo be considered as possible points on both routes A and B;

8. That Brasilia be considered as a possible point on either route A or B but not both;

9. That exclusive all cargo route authorizations and issues are beyond the scope of this proceeding;

10. That Pan American's request to consolidate Docket 5140 be and hereby is denied;

11. That Houston, Texas, the Commonwealth of Puerto Rico, Aerovias Sud, Eastern, National and Mackey be and they hereby are granted leave to intervene;

12. That Trans Caribbean Airways be made a party to this proceeding and that the portion of its application in Docket 12993 which conforms to the designation of route B be consolidated and that the remainder of Docket 12993 be dismissed;

13. That Braniff's motion for consolidation of Dockets 12988 and 3482, as amended, be granted except as to the designation of Dallas as a coterminal point with Houston, and that the unconsolidated portions be dismissed, and that its application in Docket 12987 be dismissed;

14. That Pan American's restated applications in Dockets 2720, 4833, and 8597 be consolidated to the extent that they conform to the designated route B, and that its application in Docket 11609 be consolidated;

15. That Panagra's applications in Dockets 4159 and 12688 be consolidated;

16. That long-haul restrictions will not be included on either proposed routes A and B, but any interested party can support the necessity for the imposition of such a restriction to preclude any new United States-Caribbean Area turnaround service on a United States-South America route awarded as a result of this proceeding;

17. That the scope of the proceeding be expanded to include the issue as to the possible certification of San Francisco and Los Angeles, California, as coterminals on proposed route B, either in addition to, or in lieu of route A;

18. That, except to the extent granted herein, all motions, petitions and requests for relief be and they hereby are denied;

19. That this proceeding as instituted by Order E–17289, and as modified herein, be set for prompt hearing before an Examiner of the Board, and that no further motions for modification, expansion, consolidation, or reconsideration will be considered;

20. That this order be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
Secretary.

[F.R. Doc. 62–683; Filed, Jan. 19, 1962; 8:50 a.m.]

[1] See infra.

[2] By temporary exemption (Order E–14872, January 28, 1960), Pan American and Braniff were authorized to serve Brasilia. Braniff has not initiated service.

FEDERAL POWER COMMISSION

[Docket No. CP62–110]

SOUTHWEST GAS CORP.

Order Defining Issues

JANUARY 12, 1962.

By notice issued on December 29, 1961, the application of Southwest Gas Corporation (Southwest), for a certificate of public convenience and necessity, authorizing the acquisition and operation of the facilities of Nevada Natural Gas Pipe Line Co. (Nevada Natural), by the Applicant, was set for an abridged hearing commencing on January 29, 1962, concerning the matters involved in and the issues presented by such application.

In addition to the questions generally considered in connection with an application for a certificate of public convenience and necessity, it appears to be in the public interest that the Commission also consider, more specifically, whether the application, which involves a proposed merger of the Applicant with an interstate pipeline, should be granted in light of the policies and provisions of the antitrust laws of the United States. For this reason the Commission is of the opinion that a formal, rather than an abridged, hearing should be held in this proceeding.

The Commission finds:

(1) Southwest has filed an application under section 7 of the Natural Gas Act for permission, inter alia, to acquire the jurisdictional facilities of Nevada Natural, which acquisition will result from the merger of Nevada Natural with Southwest through the exchange of stock between the two companies.

(2) Southwest proposes to continue all the sales and services presently rendered by Nevada Natural and the latter company will cease to exist, if the Commission approves the proposed merger.

(3) It is necessary and appropriate in the public interest that the Commission, in considering whether to approve the acquisition of the facilities of Nevada Natural by Southwest take into account the policies and provisions of the antitrust laws.

The Commission orders:

(A) The Applicant, Southwest, shall submit evidence inter alia indicating whether its proposed acquisition of the facilities of Nevada Natural would be consistent with the policies of the antitrust laws.

(B) The hearing on the application of Southwest, filed in Docket No. CP62–110, shall convene for formal hearing at the same time and date provided for in the original notice of application, issued December 29, 1961.

By the Commission.

GORDON M. GRANT,
Acting Secretary.

[F.R. Doc. 62–647; Filed, Jan. 19, 1962; 8:45 a.m.]

[Docket No. G–9262 etc.]

HOUSTON TEXAS GAS AND OIL CORP. AND COASTAL TRANSMISSION CORP.

Order Granting Application for Issuance of Subpoena Duces Tecum

JANUARY 17, 1962.

Houston Texas Gas and Oil Corp., Docket Nos. G–9262, RP61–3, and RP62–4; Coastal Transmission Corp., Docket Nos. G–9960 and RP61–4.

These proceedings involve requests to modify certificate conditions and proposed increased rates under sections 4, 7, and 15 of the Natural Gas Act. Direct cases have been submitted by the Respondents, Sun Oil Company (Sun), an intervener herein, and the Commission staff. These proceedings are presently in recess until January 29, 1962, at which time the Commission staff is to file its direct case on original cost studies made on the original construction costs of the subject project and a revised direct case reflecting these original cost studies.

On January 5, 1962, Sun filed an application for a subpoena duces tecum,

wherein it requested that a subpoena be issued to the President of the Respondent companies requiring him to produce certain memoranda, letters, schedules, reports and financial and other statements and to testify thereon on January 22, 1962. The documents requested to be produced are described in said application under paragraphs (A), (B), (C), (D), and (E).

In support of its application, Sun states that the documents identified in Items 1 through 6 under paragraph (A) of its application contain forecasts of operating results for the year 1960 through 1964 on the basis of operating the originally certificated facilities; that these estimates are necessary to assess the reasonableness of the proposed rates herein; and that the operating results of the parent company, Houston Corporation, are pertinent to these proceedings in that they relate directly to the amount of income taxes includable in the Respondents' costs of service. In support of its request for the report identified in paragraph (B) of its application, Sun states that the operating results anticipated under the newly certificated expansion program of the Respondents, which are contained in this report, are necessary to test the reasonableness of Respondents' rates and would update the information on this aspect of the case, which information is contained in Exhibit Nos. 44, 50, and 51 admitted to evidence in these proceedings. In support of its request for the financial statements identified in paragraphs (C) and (D) of its application, Sun states that similar financial statements were admitted into evidence, Exhibit Nos. 26, 27, 48, and 49, and that the subject financial statements are necessary to update this information especially in light of the recent development of the accrual of Federal income taxes on the books of Coastal Transmission Corporation. In support of its request for the statement identified in paragraph (E) of its application, Sun states that the estimates contained in the subject statement should be reviewed in testing the reasonableness of the proposed rates. Sun, further, states that the "requested information containing, among other matters, projections of sales and revenues beyond the first three years of operations, goes directly to the subject of anticipated revenues", which bears on the issue of whether the additional and improved loads beyond the development period would be the solution to the problem of improving the Respondents' rate of return. In addition, Sun states that production of these documents would not place a burden on Respondents.

The Respondents filed a joint answer to Sun's application for a subpoena duces tecum, wherein they agree to furnish copies of the documents described in paragraphs (C) and (D) of Sun's application. However, with respect to the documents described in paragraphs (A), (B), and (E) of Sun's application, the Respondents, while conceding that these documents contain future sales forecasts, contend that they are not relevant or material to the issues involved in these proceedings inasmuch as the forecasts go beyond the test period of these proceedings. However, in its application, Sun states that the Commission, in setting prospective rates, must look at the operating results anticipated under the expanded operations. In view of the statements of both the Respondents and Sun, it would appear that one of the issues involved in these proceedings is the proper test period for determining the reasonableness of Respondents' rates and, inasmuch as financing of the expanded facilities were not completed until December 22, 1961, it appears that the forecasts contained in the requested documents will not extend beyond the third year of operations of the expanded facilities.

Section 6(c) of the Administrative Procedure Act, 5 U.S.C. 1005(c), reads, in part, as follows:

> • • • Agency subpoenas authorized by law shall be issued to any party upon request and, as may be required by rules of procedure, upon a statement or showing of general relevance and reasonable scope of the evidence sought. • • •.

The Commission is empowered to issue subpoenas (section 14(c) of the Natural Gas Act) and has promulgated rules of procedure for issuance thereof (§ 1.23(a) of the rules of practice and procedure).

The documents requested by Sun in its application for a subpoena appear to be generally relevant and material to the issues involved in these proceedings and meet the requirements of our regulation for issuance of a subpoena duces tecum.

As stated hereinbefore, these proceedings are presently in recess until January 29, 1962. Sun, in its application, states that it intends to offer revised exhibits to reflect therein the pertinent data in the documents specified in its application and the results of the staff's original cost studies. In order to avoid further delay of these proceedings, Sun requests that the subpoena be returnable on January 22, 1962, one week prior to the scheduled reconvening of these proceedings. In view of the foregoing, it is determined that the subpoena ordered herein should be made returnable on the date requested by Sun.

The Commission orders: That an appropriate subpoena duces tecum, in the usual form, be issued to W. J. Bowen, President of Houston Texas Gas and Oil Corporation and Coastal Transmission Corporation, to compel him to appear and produce the documents described in paragraphs (A), (B), (C), (D), and (E) of Sun's application for issuance of a subpoena duces tecum filed herein on January 5, 1962, at a hearing to convene on January 22, 1962, at 10:00 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C.

By the Commission.

JOSEPH H. GUTRIDE,
Secretary.

GENERAL SERVICES ADMINISTRATION

[Delegation of Authority 406]

SECRETARY OF DEFENSE

Authority to Represent Interests of the Federal Government in the Matter of American Telephone & Telegraph Company

1. Pursuant to the provisions of sections 201(a)(4) and 205 (d) and (e) of the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, authority to represent the interest of the executive agencies of the Federal Government in the matter of American Telephone & Telegraph Company, Tariff F.C.C. No. 134 (SCAN), before the Federal Communications Commission, is hereby delegated to the Secretary of Defense.

2. The Secretary of Defense is hereby authorized to redelegate any of the authority contained herein to any officer, official or employee of the Department of Defense.

3. The authority conferred herein shall be exercised in accordance with the policies, procedures and controls prescribed by the General Services Administration, and shall further be exercised in cooperation with the responsible officers, officials and employees of General Services Administration.

4. This delegation of authority shall be effective December 18, 1961.

BERNARD L. BOUTIN,
Administrator.

JANUARY 16, 1962.

SECURITIES AND EXCHANGE COMMISSION

[File No. 54-223 etc.]

ARKANSAS FUEL OIL CORP. AND CITIES SERVICE CO.

Order Approving and Releasing Jurisdiction in Respect of Certain Fees and Expenses

JANUARY 15, 1962.

In the matter of Arkansas Fuel Oil Corp. (Shreveport, La.), and Cities Service Co. (New York, N.Y.); File Nos. 54-223; 54-226; 54-227; 31-622; 54-186; 59-93; 70-1804.

In the above consolidated proceedings the Commission, pursuant to Section 11(d) of the Public Utility Holding Company Act of 1935 ("Act"), among other things, approved a plan, as modified (Holding Company Act Release No. 14260, July 14, 1960, approved and enforced by the United States District Court for District of Delaware, No. 2223, September 2, 1960), to effectuate compliance with the order issued September 20, 1957 (Holding Company Act Release No. 13549) under section 11(b)(2) of the Act. Under the plan, as modified, the 48.5 percent publicly-held minority stock interest in Arkansas Fuel Oil Corporation ("Arkansas"), a subsidiary company of Cities Service Company ("Cities"), a registered holding company, was eliminated by the payment to the public stockholders of Arkansas, of $41 in cash per share, or a total of $75,577,186. In the order approving the section 11(d) plan, the Commission reserved jurisdiction in respect of the allowance and allocation of fees and expenses, incurred in connection with the consolidated proceedings, which are to be paid by Cities.

Pursuant to notice given by the Commission, applications for the allowance of the fees and expenses or the approval of sums paid therefor, have been filed by the various parties to and participants in the consolidated proceedings.

Subsequently, as a first step in the procedure for determining whether the fees requested are for compensable services rendered and whether the amounts of fees and expenses requested are reasonable, the Commission in order to expedite the proceeding in respect thereof, and to assist it in making such determinations, requested Cities in writing (with a copy to each of the applicants) to advise the Commission, on or before July 25, 1961 (later extended to September 11, 1961), as to the amounts of fees and expenses which the company is willing to pay and which each of the applicants, after negotiations with the company, has indicated a willingness to accept as settlement in full of his request for allowance of fees and expenses in connection with the consolidated proceeding.

Cities and Joseph S. Gruss having agreed that he is to be paid $6,000, and Cities having agreed to pay fee claimant Paul F. Moore the full amount requested, i.e., fee $100 and expenses $250; and

The Commission having considered the applications filed by such persons and the amounts agreed upon; and being of the opinion that such amounts are for and in connection with necessary services and reasonable in amounts, and that the applications of such persons should be severed for disposition from the remaining applications and an order entered approving such fees and expenses, directing Cities to pay them, and releasing jurisdiction in respect thereof;

It is ordered, That the applications of Joseph S. Gruss and Paul F. Moore for allowance of fees and expenses be, and they are hereby, severed for disposition, that allowances in the amounts above stated be, and they are hereby, approved, and Cities is hereby directed to pay such amounts; and that the jurisdiction heretofore reserved in respect thereof is hereby released.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

KINGSPORT UTILITIES, INC., AND AMERICAN ELECTRIC POWER CO., INC.

Notice of Proposed Issuance and Sale of Common Stock by Subsidiary and Acquisition Thereof by Holding Company

JANUARY 15, 1962.

Notice is hereby given that American Electric Power Company, Inc. ("American"), 2 Broadway, New York 8, N.Y., a registered holding company, and Kingsport Utilities, Incorporated ("Kingsport"), Roanoke, Virginia, an electric utility subsidiary company of American, have filed a joint application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6 and 10 of the Act as applicable to the proposed transactions.

All interested persons are referred to the joint application-declaration, on file at the office of the Commission, for a statement of the transactions therein proposed which are summarized as follows:

Kingsport proposes to issue and sell to American, from time to time prior to December 31, 1962, an aggregate amount of 55,600 shares of its no par value common stock, and American proposes to acquire said shares for a cash consideration of $10 per share or a total consideration of $556,000. Kingsport's presently outstanding common stock, all of which is owned by American, is carried in its common stock account at $10 a share. The stock will be issued to provide funds for Kingsport's 1961-1962 construction program as needed.

The joint application-declaration states that expenses incident to the proposed transactions are estimated not to exceed $856, including a Federal original issue tax of $556. It is also stated that the issuance and sale of the common stock will be authorized by the Tennessee Public Service Commission and that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than February 1, 1962, request in writing that a hearing be held on such matters, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said joint application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant-declarants, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed contemporaneously with the request. At any time after said date, the joint application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70-4004]

NEW JERSEY POWER & LIGHT CO. AND JERSEY CENTRAL POWER & LIGHT CO.

Notice of Proposed Intrasystem Sales And Acquisition of Utility Assets

JANUARY 15, 1962.

Notice is hereby given that New Jersey Power & Light Company ("NJP & L") and Jersey Central Power & Light Company ("JCP & L"), both of Morristown, N.J., both public-utility subsidiary companies of General Public Utilities Corporation, a registered holding company, have filed a joint application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("Act") designating sections 9(a)(1), 10, 12(d), and 12(f) of the Act and Rules 43 and 44 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the joint application-declaration on file in the office of the Commission for a statement of the proposed transactions which are summarized as follows:

NJP & L proposes to sell and JCP & L proposes to acquire all of NJP & L's right, title, and interest in and to all property used or useful in connection with certain projects designated (1) the Longwood Valley pumped storage project, (2) the Portland-Greystone-Whippany 230 Kv transmission line right-of-way, (3) the Portland-Franklin 115 Kv transmission line right-of-way, (4) the Franklin-Montville 115 Kv transmission line right-of-way, and (5) one-third of the West Wharton-Roseland right-of-way for the aggregate consideration of $2,763,799 being the book cost, which is also the original cost to NJP & L of the projects, plus the assumption of certain contractual obligations of NJP & L in connection with the projects and the amount of interest during construction on the book cost of all of the projects (except one project which has been completed) in an amount equal to ½ percent per month from June 1, 1961, to the date of settlement.

Applicants-declarants state that the proposed transactions are in implementation of a general program whereby, so far as is reasonably feasible, JCP & L, rather than NJP & L, is undertaking the construction of major generating and transmission additions to the systems of both companies. Applicants-declarants further state that the above described projects are substantial in size and that the larger company, JCP & L, is more readily able to finance the projects and that NJP & L and JCP & L may ultimately merge.

In the application-declaration the total fees and expenses in connection with the proposed transactions (including legal fees aggregating $2,550) are estimated at $5,000 all of which will be paid by JCP & L. It is stated that the proposed sales by NJP & L are subject to the approval of the Board of Public Utility Commissioners of the State of New Jersey, that the Federal Power Commission does not have jurisdiction over the proposed transactions by virtue of the provisions of section 318 of the Federal Power Act, and that no other State commission or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than January 29, 1962, request the Commission in writing that a hearing be held on such matter stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the joint application-declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request shall be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. A copy of such request should be served personally or by mail (air mail if any person served is located more than 500 miles from the point of mailing) upon each applicant-declarant, and proof of service (by affidavit, or as in the case of an attorney-at-law, by certificate) filed contemporaneously with the request. At any time after said date, the joint application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from its rules as provided in Rules 20(a) and 100, or take such other action as it may deem appropriate.

By the Commission.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Area 360]

FLORIDA

Declaration of Disaster Area

Whereas, it has been reported that during the month of January 1962, because of the effects of certain disasters, damage resulted to residences and business property located in Okaloosa County in the State of Florida;

Whereas, the Small Business Administration has investigated and has received other reports of investigations of conditions in the area affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such area constitute a catastrophe within the purview of the Small Business Act.

Now, therefore, as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7(b)(1) of the Small Business Act may be received and considered by the Offices below indicated from persons or firms whose property, situated in the aforesaid County and areas adjacent thereto, suffered damage or destruction resulting from tornado and accompanying conditions occurring on or about January 5, 1962.

Offices—

Small Business Administration Regional Office, 90 Fairlie Street NW., Atlanta 3, Ga.

Small Business Administration Branch Office, Third Floor, New First Federal Savings and Loan Building, 2030 First Avenue, North, Birmingham 3, Ala.

2. Applications for disaster loans under the authority of this Declaration will not be accepted subsequent to July 31, 1962.

Dated: January 8, 1962.

DEPARTMENT OF LABOR

Wage and Hour Division

CERTIFICATES AUTHORIZING EMPLOYMENT OF LEARNERS AT SPECIAL MINIMUM RATES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.), the regulations on employment of learners (29 CFR Part 522), and Administrative Order No. 524 (24 F.R. 9274) the firms listed in this notice have been issued special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates otherwise applicable under section 6 of the Act. The effective and expiration dates, occupations, wage rates, number or proportion of learners, learning periods, and the principal product manufactured by the employer for certificates issued under general learner regulations (§§ 522.1 to 522.11) are as indicated below. Conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.20 to 522.25, as amended).

The following learner certificates were issued authorizing the employment of ten percent of the total number of factory production workers for normal labor turnover purposes. The effective and expiration dates are indicated.

B. Bennett Co., Inc., 123 Magazine Street, New Orleans, La.; effective 12-27-61 to 12-26-62 (work pants, work shirts).

Blue Bell, Inc., Prentiss County, Booneville, Miss.; effective 12-17-61 to 12-16-62 (men's shirts, women's and girls' blouses).

Blue Buckle Overall Co., 1415 Kemper Street, Lynchburg, Va.; effective 12-14-61 to 12-13-62 (women's dungarees, men's and boys' work clothes).

Chase City Manufacturing Co., Inc., Walker Street, Chase City, Va.; effective 12-19-61 to 12-18-62 (men's and boys' dungarees, single pants).

H. W. Gossard Co., Sullivan, Ind.; effective 12-28-61 to 12-27-62 (women's foundation garments).

Hickerson & Co., Brainerd, Minn.; effective 12-14-61 to 12-13-62 (men's wool utility coats and jackets).

Edward Hyman Co., Lake Street, Haselhurst, Miss.; effective 12-20-61 to 12-19-62 (men's cotton twill work pants and shirts).

Metro Pants Co., Harrisonburg, Va.; effective 12-15-61 to 12-14-62 (boys' and men's dress pants).

Princess Peggy, Inc., Items Division, Belleville, Ill.; effective 12-15-61 to 12-14-62 (women's dresses).

The following learner certificate was issued for normal labor turnover purposes. The effective and expiration dates and the number of learners authorized are indicated.

Florence Fashions, Youngsville, N.C.; effective 12-13-61 to 12-12-62; 10 learners (ladies' dresses).

The following learner certificates were issued for plant expansion purposes. The effective and expiration dates and the number of learners authorized are indicated.

Canton Manufacturing Corp., 307 South Second Avenue, Canton, Ill.; effective 12-14-61 to 6-13-62; 15 learners (men's and boys' cotton work pants).

Ridgely Manufacturing Co., Ridgely, Tenn.; effective 12-14-61 to 6-13-62; 20 learners (otherwear jackets for boys, men, women, etc.).

Knitted Wear Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.30 to 522.35, as amended).

Brookfield Mills, Inc., 206 North Elm Street, Sanford, Fla.; effective 12-15-61 to 12-14-62; 5 learners for normal labor turnover purposes (ladies' swim wear).

Ellwood Knitting Mills, Inc., 1110 Mecklen Lane, 911 Lawrence Avenue, Ellwood City, Pa.; effective 12-15-61 to 12-14-62; 5 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' knitted outerwear).

Each learner certificate has been issued upon the representations of the employers which, among other things, were that employment of learners at special minimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be annulled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 522.9.

Signed at Washington, D.C., this 12th day of January 1962.

ROBERT G. GRONEWALD, *Authorized Representative of the Administrator.*

[F.R. Doc. 62-652; Filed, Jan. 19, 1962; 8:46 a.m.]

CERTIFICATES AUTHORIZING EMPLOYMENT OF LEARNERS AT SPECIAL MINIMUM RATES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.), the regulations on employment of learners (29 CFR Part 522), and Administrative Order No. 524 (24 F.R. 9274), the firms listed in this notice have been issued special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates otherwise applicable under section 6 of the Act. Conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.20 to 522.25, as amended).

The following learner certificates were issued authorizing the employment of 10 percent of the total number of factory production workers for normal labor turnover purposes. The effective and expiration dates are indicated.

Blue Bell, Inc., Lenoir, N.C.; effective 12-1-61 to 11-30-62 (men's and boys' trousers).

Blue Bell, Inc., Luray, Va.; effective 12-1-61 to 11-30-62 (boys' and men's dungarees).

Cleardon Manufacturing Co., 216 West Fourth Avenue, Clearfield, Pa.; effective 11-30-61 to 11-29-62 (men's and boys' outerwear jackets).

Corman & Wasserman, Inc., 1220 Curtain Avenue, Baltimore 18, Md.; effective 12-3-61 to 12-2-62 (men's trousers).

Dublin Garment Co., Inc., Dublin, Ga.; effective 12-10-61 to 12-9-62 (men's sport shirts).

Duti-Duds, Inc., 1117 Clay Street, Lynchburg, Va.; effective 12-2-61 to 12-1-62 (women's service garments, women's cotton, nylon and dacron uniforms for maids and nurses).

Heath Springs Manufacturing Co., Heath Springs, S.C.; effective 11-27-61 to 11-26-62 (children's wear).

The Hercules Trouser Co., Hillsboro, Ohio; effective 12-1-61 to 11-30-62 (men's and boys' single pants).

The Hercules Trouser Co., Manchester, Ohio; effective 12-1-61 to 11-30-62 (men's and boys' single pants).

Hickman Garment Corp., Hickman, Ky.; effective 12-2-61 to 12-1-62 (men's, boys', kiddies', girls' and ladies' jackets and raincoats).

Hollywood Vassarette, Arkadelphia, Ark.; effective 12-4-61 to 12-3-62 (brassieres).

Hollywood Vassarette, Paris, Tex.; effective 12-4-61 to 12-3-62 (brassieres).

The Jay Garment Co., Portland, Ind.; effective 12-1-61 to 11-30-62 (men's cotton work clothing).

Lady Ester Lingerie Corp., 10th and Walnut Streets, Berwick, Pa.; effective 12-1-61 to 11-30-62 (ladies' slips).

Lowenstein Dress Corp., 425 Pleasant Street, Fall River, Mass.; effective 12-4-61 to 12-3-62 (ladies' dresses).

Manhattan Shirt Co., Poplar Hill Avenue and Calvert Street, 416 East Main Street, Salisbury, Md.; effective 12-1-61 to 11-30-62 (men's and ladies' shirts).

Manhattan Shirt Co., 717 Capouse Avenue, Scranton, Pa.; effective 12-1-61 to 11-30-62 (men's sport shirts).

Manhattan Shirt Co., U.S. By Pass No. 29 and No. 70, Lexington, N.C.; effective 12-1-61 to 11-30-62 (ladies' blouses).

Manhattan Shirt Co., Leeds Avenue, Charleston Heights, S.C.; effective 12-1-61 to 11-30-62 (men's dress and sport shirts).

Oxford Manufacturing Co., Inc., 244 West Seneca Street, Oswego, N.Y.; effective 11-29-61 to 11-28-62 (dresses).

Primo Pants Co., Versailles, Mo.; effective 12-1-61 to 11-30-62 (men's pants).

Publix Tennessee Corp., Huntingdon, Tenn.; effective 12-1-61 to 11-30-62 (men's and boys' sport shirts).

Renovo Shirt Co., Inc., Mena, Ark.; effective 12-1-61 to 11-30-62 (men's and ladies' shirts).

Ridgely Manufacturing Corp., Ridgely, Tenn.; effective 12-2-61 to 12-1-62 (outdoor jackets for men, boys, women, girls and kiddies).

Schneierson Lingerie Co., 460 Globe Street, Fall River, Mass.; effective 12-1-61 to 11-30-62; 10 percent of the total number of factory production workers engaged in the production of women's and children's woven nightwear and underwear (women's and children's underwear and sleepwear).

Sun Garment Co., 2401 Hyde Parkway, St. Joseph, Mo.; effective 12-1-61 to 11-30-62 (shirts).

The following learner certificates were issued for normal labor turnover purposes. The effective and expiration dates and the number of learners authorized are indicated.

Armored Garments, Inc., 223 Cabin Road, Spruce Pine, N.C.; effective 12-1-61 to 11-30-62; 10 learners (men's and boys' dungarees).

Bridgton Dress Co., Bridgton, Maine; effective 11-27-61 to 11-26-62; 10 learners (women's dresses).

Gloucester Pants Co., 377 Main Street, Gloucester, Mass.; effective 12-1-61 to 11-30-62; 10 learners (men's and boys' trousers).

Martin-Jay Dress Corp., 65 Guy Park Avenue, Amsterdam, N.Y.; effective 11-27-61 to 8-27-62; 5 learners (ladies' and misses' dresses).

Onalow Garment Industries, Piney Green Road, Jacksonville, N.C.; effective 11-28-61 to 11-27-62; 10 learners (raincoats, children's car coats).

Rock Hall Manufacturing Co., Rock Hall, Md.; effective 12-4-61 to 12-3-62; 10 learners (men's and boys' knit sport shirts).

Sorbeau Juvenile Manufacturing Co., 821 Central Avenue, Dubuque, Iowa; effective 12-1-61 to 11-30-62; 10 learners (infants' layette garments).

The following learner certificates were issued for plant expansion purposes. The effective and expiration dates and the number of learners authorized are indicated.

Ely and Walker, Dover, Tenn.; effective 11-28-61 to 5-27-62; 70 learners (work pants).

Heath Springs Manufacturing Co., Heath Springs, S.C.; effective 11-27-61 to 5-26-62; 25 learners (children's wear).

Onalow Garment Industries, Piney Green Road, Jacksonville, N.C.; effective 11-28-61 to 5-27-62; 10 learners (raincoats, children's car coats).

Pembroke Manufacturing Co., Inc., Highway 711, Pembroke, N.C.; effective 11-27-61 to 5-26-62; 10 learners (women's slacks, shorts, and pedal pushers).

Shawnut Manufacturing Co., New Bedford, Mass.; effective 11-30-61 to 5-29-62; 50 learners (women's dresses).

Hosiery Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.40 to 522.43, as amended).

Magnet Mills, Inc., Cullom Street, Clinton, Tenn.; effective 11-29-61 to 11-28-62; 5 percent of the total number of factory production workers for normal labor turnover purposes (seamless and full-fashioned).

Selma Hosiery Co., Dillon, S.C.; effective 12-2-61 to 6-1-62; 40 learners for plant expansion purposes (seamless).

Knitted Wear Industry Learner Regulations (29 CFR 522.1 to 522.11, as

amended, and 29 CFR 522.30 to 522.35, as amended).

Dothan Manufacturing Co., Dothan, Ala.; effective 12-1-61 to 11-30-62; 5 percent of the total number of factory production workers for normal labor turnover purposes (men's pajamas and shorts).

National Knitting Co., 50 First Avenue, Royersford, Pa.; effective 11-27-61 to 11-26-62; 5 percent of the total number of factory production workers for normal labor turn-

Schneierson Lingerie Co., 460 Glove Street, Fall River, Mass.; effective 12-1-61 to 11-30-62; 5 percent of the total number of factory production workers engaged in the production of women's and children's knitted underwear for normal labor turnover purposes (women's and children's knit underwear).

Each learner certificate has been issued upon the representations of the employers which, among other things, were that employment of learners at special minimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be annulled or withdrawn as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 522.9.

Signed at Washington, D.C., this 12th day of January 1962.

ROBERT G. GRONEWALD,
Authorized Representative of the Administrator.

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

JANUARY 17, 1962.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 37518: *Paper and paper articles from official territory.* Filed by Traffic Executive Association—Eastern Railroads, agent (E.R. No. 2598, for interested rail carriers. Rates on paper and paper articles, also returned empty skids or platforms, wooden, and printing paper winding cores, in carloads, from points in official territory, to points in Illinois territory, also official—southern territory border points.

Grounds for relief: Market competition, short-line distance formula and grouping.

By the Commission.

[SEAL] HAROLD D. MCCOY,
Secretary.

[F.R. Doc. 62-667; Filed, Jan. 19, 1962; 8:48 a.m.]

[Notice 587]

MOTOR CARRIER TRANSFER PROCEEDINGS

JANUARY 17, 1962.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 64650. By order of January 12, 1962, the Transfer Board approved the transfer to Dale McLeod, doing business as McLeod Trucking Service, Reno, Nev., of Certificate in No. MC 52498, issued April 15, 1944, to Claude Cecil Rife, doing business as Rife Trucking Co., Yerington, Nev., authorizing the transportation of: General commodities, including household goods, excluding commodities in bulk, and other specified commodities, between Sacramento, Calif., and Yerington, Nev., and return to Sacramento; and between Minden, Nev., and Bridgeport, Calif. Service is authorized to and from the intermediate point of Wellington, Nev. Phil Jacobson, 510 West Sixth Street, Los Angeles 14, Calif., attorney for applicants.

No. MC-FC 64654. By order of January 12, 1962, the Transfer Board approved the transfer to Grocery Express, Inc., New York, N.Y., of Certificate in No. MC 80637, issued March 3, 1955, to Howard I. Sakin, New York, N.Y., authorizing the transportation of: Such commodities as are dealt in by wholesale grocery houses, between New York, N.Y., on the one hand, and, on the other, points in Bergen, Passaic, Hudson, Union, Essex, and Middlesex Counties, N.J., and Fairfield County, Conn. Charles H. Trayford, 220 East 42d Street, New York, N.Y., attorney for applicants.

No. MC-FC 64683. By order of January 15, 1962, the Transfer Board approved the transfer to John D. Holmes, Jr., doing business as Vanguard Transportation Company, Avenel, N.J., of a portion of Certificate No. MC 113041 Sub 4 issued June 29, 1960, to AC Transportation, Inc., Woodbridge, N.J., authorizing the transportation, over irregular routes, of petroleum products (except asphalt and tar of any kind), alcohol, commercial solvents, paint, lacquer, cleaning solvents, and acetates, in bulk, in tank trucks, from points in Bergen, Essex, Hudson, Middlesex, and Union Counties, N.J., to points in the New York, N.Y., Commercial Zone as defined by the Commission in 1 M.C.C. 665 and 2 M.C.C. 191, those in Dutchess, Rockland, Ulster, Sullivan, Orange, Nassau, Westchester, and Saratoga Counties, N.Y., and those in that part of Connecticut on and west of the Connecticut River; from New York, N.Y., to points in New Jersey; petroleum products (except medicinal oils, paraffin wax, hot asphalt, and hot tar), alcohol and inflammable solvents, inflammable lacquer and inflammable acetates, in bulk, in tank vehicles, from Bayonne, Bayway, and Jersey City, N.J., to points in Connecticut east of the Connecticut River; and lubricating oil, in bulk, in tank vehicles, from Douglasville, Pa., to Newark, N.J. Bowes & Miller, 1060 Broad Street, Newark, N.J., attorney for transferee. William D. Traub, 350 Fifth Avenue, New York 1, N.Y., representative for transferor.

No. MC-FC 64690. By order of January 12, 1962, the Transfer Board approved the transfer to V. C. Trucking Service, Inc., Maspeth, N.Y., of a portion of Certificate No. MC 114256, issued February 3, 1958, to Don-Dee Trucking Corporation, Ridgefield, N.J., authorizing the transportation of general commodities, excluding household goods and commodities in bulk, over irregular routes, between New York, N.Y., and points in Bergen County, N.J. William D. Traub, 350 Fifth Avenue, New York 1, N.Y., attorney for applicants.

[SEAL] HAROLD D. MCCOY,
Secretary.

FEDERAL REGISTER

Telephone WOrth 3-3261

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Office of the Federal Register, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D.C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

Title 7—AGRICULTURE

Chapter VII—Agricultural Stabilization and Conservation Service (Agricultural Adjustment), Department of Agriculture

PART 725—BURLEY, FLUE-CURED, FIRE-CURED, DARK AIR-CURED AND VIRGINIA SUN-CURED TOBACCO

Proclamation of Results of Flue-Cured Tobacco Marketing Quota Referendum

§ 725.1309 Basis and purpose.

The purpose of this proclamation is to announce the results of the flue-cured tobacco marketing quota referendum for the three marketing years beginning July 1, 1962. Under the provisions of the Agricultural Adjustment Act of 1938, as amended, the Secretary proclaimed national marketing quotas for flue-cured tobacco for the 1962–63, 1963–64 and 1964–65 marketing years and announced the amount of the national marketing quota for the 1962–63 marketing year (26 F.R. 10927). The Secretary announced (26 F.R. 10933) that a referendum would be held on December 12, 1961, to determine whether flue-cured tobacco farmers were in favor of or opposed to marketing quotas for the three marketing years beginning July 1, 1962. Since the only purpose of this proclamation is to announce the results of the referendum, it is hereby found and determined that, with respect to this proclamation, application of the notice and public procedure requirements of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003) is unnecessary.

§ 725.1310 Proclamation of results of flue-cured tobacco marketing quota referendum beginning July 1, 1962.

In a referendum held on December 12, 1961, of farmers engaged in the production of the 1961 crop of flue-cured tobacco, 194,121 farmers voted. Of those voting, 190,515 or 98.1 percent, favored national marketing quotas for the three marketing years, 1962–63, 1963–64 and 1964–65, and 3,606 or 1.9 percent were opposed to quotas. Therefore, the national marketing quota of 1,166,900,000 pounds proclaimed by the Secretary on November 22, 1961 (26 F.R. 10927) for flue-cured tobacco for the 1962–63 marketing year will be in effect for such year and marketing quotas on flue-cured tobacco will be in effect for the three marketing years beginning July 1, 1962.

(Secs. 725.1309 and 1310 are issued under secs. 312, 375, 52 Stat. 46, as amended; 66, as amended; 7 U.S.C. 1312, 1375)

Effective date: Date of filing with the Director, Office of the Federal Register.

Signed at Washington, D.C., on January 17, 1962.

E. A. JAENKE,
Acting Administrator, Agricultural Stabilization and Conservation Service.

[F.R. Doc. 62-709; Filed, Jan. 22, 1962; 8:47 a.m.]

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Lemon Reg. 2, Amdt. 1]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

Order, as amended. The provisions in paragraph (b)(1)(i) and (ii) of § 910.302 (Lemon Regulation 2, 27 F.R. 392) are hereby amended to read as follows:

(i) District 1: 20,460 cartons;
(ii) District 2: 170,190 cartons.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 17, 1962.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 62-708; Filed, Jan. 22, 1962; 8:47 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Agency

[Reg. Docket No. 152; Amdt. 40-34; Supp. 36]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

Carriage of Cargo in Passenger Compartments

Section 40.153 of Part 40 was revised by Civil Air Regulations Amendment 40-32 (26 F.R. 11354) issued November 27, 1961, to become effective January 2, 1962. This section provides a means by which cargo may be safely carried in the passenger compartment of an air carrier airplane.

Subsequent to the issuance of Amendment 40-32, certain air carriers requested reconsideration of § 40.153(a)(3) of that amendment which specified that approved cargo bins installed aft of passengers shall not be higher than the height of the passenger seats on the airplane. In addition, comments were received with regard to paragraphs (a)(1) and (4) which indicated a need for a clarification of the strength requirements which a cargo bin and its attachments must meet for approval.

The effective date of Amendment 40-32 was postponed from January 2, 1962, to January 20, 1962, by Amendment 40-33 (26 F.R. 12762). This postponement of the effective date was necessary to provide sufficient time for a complete reevaluation of the provisions of § 40.153(a)(3) and to make other clarifying changes.

As a result of this reevaluation it has been concluded that, regardless of its height, a properly loaded cargo bin which has been constructed and installed in the airplane to meet specific strength requirements will not adversely affect safety if it does not obscure any passenger's view of the "seat belt" or "no smoking" sign. Therefore, this amendment eliminates the height restriction for cargo bins and in lieu thereof adds provisions which (1) require proper distribution of the weight of the cargo within the bin, (2) prohibit use of bins which exceed the structural load limitation on components of the airplane, and (3) prohibit installing the bin in a location which will obscure any passenger's view of the "seat belt" or "no smoking" sign, unless an auxiliary sign, or some other approved means for notification of the passenger is provided.

The provisions of paragraphs (a) (1) and (4) of this amendment specify the strength which a cargo bin and its attachments must meet for approval. It was intended, in Amendment 40–32, that this strength be such that in the event the airplane was involved in a survivable crash involving high deceleration forces, the cargo bin would not shift forward or be dislodged and injure the passengers. To provide this safeguard, the strength of the bin and its attachments must be able to withstand at least the load factors and emergency landing conditions applicable to the passenger seats installed on the airplane. The combined weight of the cargo bin and its contents must be used to determine this strength. However, in view of the comments received, it appears that the wording of paragraphs (a) (1) and (4) of Amendment 40–32 did not make this strength requirement completely clear. Accordingly, this amendment rewords these paragraphs to specify more clearly the strength requirements which a cargo bin and its attachments must meet for approval.

In addition to the aforementioned changes, other editorial changes were made in this amendment for the purpose of clarification.

Since this amendment relaxes the height requirement of a previous rule which becomes effective January 20, 1962, and imposes no additional burden on any person, I find that notice and public procedure hereon are impractical and unnecessary, and good cause exists for making this amendment effective on less than 30 days' notice.

In consideration of the foregoing, effective January 20, 1962, Amendment 40–32 and Supplement No. 34 (26 F.R. 11354) are hereby rescinded and Part 40 (14 CFR Part 40) is amended as follows:

§ 40.153–1 [Deletion]

1. By deleting § 40.153–1.

2. By amending § 40.153 to read as follows:

§ 40.153 Carriage of cargo in passenger compartments.

Cargo shall not be carried in the passenger compartment of an airplane except as provided in either paragraph (a) or (b) of this section.

(a) Cargo carried aft of the foremost seated passengers shall be carried in an approved cargo bin. Approved cargo bins shall meet the requirements of subparagraphs (1) through (8) of this paragraph.

(1) The bin shall be capable of withstanding the load factors and emergency landing conditions applicable to the passenger seats of the airplane in which the bin is installed multiplied by a factor of 1.15. The combined weight of the bin and the maximum weight of cargo which may be carried in the bin shall be used to determine this strength.

(2) The maximum weight of cargo which the bin is approved to carry and any instructions necessary to insure proper weight distribution within the bin shall be conspicuously marked on the bin.

(3) The bin shall not impose any load on the floor or other structure of the airplane which exceeds the structural load limitations of such components.

(4) The bin shall be attached to the seat tracks or to the floor structure of the airplane, and its attachments shall withstand the load factors and emergency landing conditions applicable to the passenger seats of the airplane in which the bin is installed multiplied by either the factor 1.15 or the seat attachment factor specified for the airplane, whichever is greater. The combined weight of the bin and the maximum weight of cargo which may be carried in the bin shall be used to determine this strength.

(5) The bin shall not be installed in a position which restricts access to or use of any required emergency exit, or the use of the aisle in the passenger compartment.

(6) The bin shall be fully enclosed and constructed of material which is at least flame resistant.

(7) Suitable safeguards shall be provided within the bin to prevent the cargo from shifting under emergency landing conditions.

(8) The bin shall not be installed in a position which obscures any passenger's view of the "seat belt" or "no smoking" sign, nor shall any required exit sign be blocked from view, unless an auxiliary sign or other approved means for proper notification of such passenger is provided.

(b) Cargo carried forward of the foremost seated passengers shall be carried either in approved cargo bins as specified in paragraph (a) of this section, or in accordance with the following requirements:

(1) It shall be properly secured by means of safety belts or other tiedowns having sufficient strength to eliminate the possibility of shifting under all normally anticipated flight and ground conditions;

(2) It shall be packaged or covered in a manner to avoid possible injury to passengers;

(3) It shall not impose any load on seats or the floor structure which exceeds the structural load limitation for those components;

(4) It shall not be located in a position which restricts the access to or use of any required emergency or regular exit, or the use of the aisle in the passenger compartment; and

(5) It shall not be located in a position which obscures any passenger's view of the "seat belt" or "no smoking" sign, nor shall any required exit sign be blocked from view, unless an auxiliary sign or other approved means for proper notification of such passenger is provided.

(Secs. 313(a), 601, 604, 605; 72 Stat. 752, 775, 778; 49 U.S.C. 1354(a), 1421, 1424, 1425)

Issued in Washington, D.C., on January 19, 1962.

ALAN L. DEAN,
Acting Administrator.

[F.R. Doc. 62–792; Filed, Jan. 22, 1962; 8:58 a.m.]

[Reg. Docket No. 152; Amdt. 41–42]

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

Carriage of Cargo in Passenger Compartments

Section 41.136 of Part 41 was promulgated by Civil Air Regulations Amendment 41–40 (26 F.R. 11355) issued November 27, 1961, to become effective January 2, 1962. This section provides a means by which cargo may be safely carried in the passenger compartment of an air carrier airplane.

Subsequent to the issuance of Amendment 41–40, certain air carriers requested reconsideration of § 41.136(a)(3) of that amendment which specified that approved cargo bins installed aft of passengers shall not be higher than the height of the passenger seats on the airplane. In addition, comments were received with regard to paragraphs (a)(1) and (4) which indicated a need for a clarification of the strength requirements which a cargo bin and its attachments must meet for approval.

The effective date of Amendment 41–40 was postponed from January 2, 1962, to January 20, 1962, by Amendment 41–41 (26 F.R. 12762). This postponement of the effective date was necessary to provide sufficient time for a complete reevaluation of the provisions of § 41.136 (a)(3) and to make other clarifying changes.

As a result of this reevaluation it has been concluded that, regardless of its height, a properly loaded cargo bin which has been constructed and installed in the airplane to meet specific strength requirements will not adversely affect safety if it does not obscure any passenger's view of the "seat belt" or "no smoking" sign, unless an auxiliary sign, or some other approved means for notification of the passenger is provided.

The provisions of paragraphs (a) (1) and (4) of this amendment specify the strength which a cargo bin and its attachments must meet for approval. It was intended, in Amendment 41–40, that this strength be such that in the event the airplane was involved in a survivable crash involving high deceleration forces, the cargo bin would not shift forward or be dislodged and injure the passengers. To provide this safeguard, the strength of the bin and its attachments must be able to withstand at least the load factors and emergency landing conditions applicable to the passenger seats installed on the airplane. The combined weight of the cargo bin and its contents must be used to determine this strength. However, in view of the comments received, it appears that the wording of paragraphs (a) (1) and (4) of Amendment 41–40 did not make this strength requirement completely clear. Accordingly, this amendment rewords these paragraphs to specify more clearly the strength requirements which a cargo bin and its attachments must meet for approval.

In addition to the aforementioned changes, other editorial changes were made in this amendment for the purpose of clarification.

Since this amendment relaxes the height requirement of a previous rule which becomes effective January 20, 1962, and imposes no additional burden on any person, I find that notice and public procedure hereon are impractical and unnecessary, and good cause exists for making this amendment effective on less than 30 days' notice.

In consideration of the foregoing, effective January 20, 1962, Amendment 41–40 (26 F.R. 11355) is hereby rescinded and Part 41 of the Civil Air Regulations (14 CFR Part 41, as amended) is amended by adding a new § 41.136 to read as follows:

§ 41.136 Carriage of cargo in passenger compartments.

Cargo shall not be carried in the passenger compartment of an airplane except as provided in either paragraph (a) or (b) of this section.

(a) Cargo carried aft of the foremost seated passengers shall be carried in an approved cargo bin. Approved cargo bins shall meet the requirements of subparagraphs (1) through (8) of this paragraph.

(1) The bin shall be capable of withstanding the load factors and emergency landing conditions applicable to the passenger seats of the airplane in which the bin is installed multiplied by a factor of 1.15. The combined weight of the bin and the maximum weight of cargo which may be carried in the bin shall be used to determine this strength.

(2) The maximum weight of cargo which the bin is approved to carry and any instructions necessary to insure proper weight distribution within the bin shall be conspicuously marked on the bin.

(3) The bin shall not impose any load on the floor or other structure of the airplane which exceeds the structural load limitations of such components.

(4) The bin shall be attached to the seat tracks or to the floor structure of the airplane, and its attachments shall withstand the load factors and emergency landing conditions applicable to the passenger seats of the airplane in which the bin is installed multiplied by either the factor 1.15 or the seat attachment factor specified for the airplane, whichever is greater. The combined weight of the bin and the maximum weight of cargo which may be carried in the bin shall be used to determine this strength.

(5) The bin shall not be installed in a position which restricts access to or use of any required emergency exit, or the use of the aisle in the passenger compartment.

(6) The bin shall be fully enclosed and constructed of material which is at least flame resistant.

(7) Suitable safeguards shall be provided within the bin to prevent the cargo from shifting under emergency landing conditions.

(8) The bin shall not be installed in a position which obscures any passenger's view of the "seat belt" or "no smoking" sign, nor shall any required exit sign be blocked from view, unless an auxiliary sign or other approved means for proper notification of such passenger is provided.

(b) Cargo carried forward of the foremost seated passengers shall be carried either in approved cargo bins as specified in paragraph (a) of this section, or in accordance with the following requirements:

(1) It shall be properly secured by means of safety belts or other tiedowns having sufficient strength to eliminate the possibility of shifting under all normally anticipated flight and ground conditions;

(2) It shall be packaged or covered in a manner to avoid possible injury to passengers;

(3) It shall not impose any load on seats or the floor structure which exceeds the structural load limitation for these components;

(4) It shall not be located in a position which restricts the access to or use of any required emergency or regular exit, or the use of the aisle in the passenger compartment; and

(5) It shall not be located in a position which obscures any passenger's view of the "seat belt" or "no smoking" sign, nor shall any required exit sign be blocked from view, unless an auxiliary sign or other approved means for proper notification of such passenger is provided.

(Secs. 313(a), 601, 604, 605; 72 Stat. 752, 775, 778; 49 U.S.C. 1354(a), 1421, 1424, 1425)

Issued in Washington, D.C., on January 19, 1962.

ALAN L. DEAN,
Acting Administrator.

[F.R. Doc. 62–793; Filed, Jan. 22, 1962; 8:59 a.m.]

[Reg. Docket No. 152; Amdt. 42–37]

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

Carriage of Cargo in Passenger Compartments

Section 42.66 of Part 42 was promulgated by Civil Air Regulations Amendment 42–35 (26 F.R. 11356) issued November 27, 1961, to become effective January 2, 1962. This section provides a means by which cargo may be safely carried in the passenger compartment of an air carrier airplane.

Subsequent to the issuance of Amendment 42–35, certain air carriers requested reconsideration of § 42.66(a)(3) of that amendment which specified that approved cargo bins installed aft of passengers shall not be higher than the height of the passenger seats on the airplane. In addition, comments were received with regard to paragraphs (a)(1) and (4) which indicated a need for a clarification of the strength requirements which a cargo bin and its attachments must meet for approval.

The effective date of Amendment 42–35 was postponed from January 2, 1962, to January 20, 1962, by Amendment 42–36 (26 F.R. 12762). This postponement of the effective date was necessary to provide sufficient time for a complete reevaluation of the provisions of § 42.66 (a)(3) and to make other clarifying changes.

As a result of this reevaluation it has been concluded that, regardless of its height, a properly loaded cargo bin which has been constructed and installed in the airplane to meet specific strength requirements will not adversely affect safety if it does not obscure any passenger's view of the "seat belt" or "no smoking" sign. Therefore, this amendment eliminates the height restriction for cargo bins and in lieu thereof adds provisions which (1) require proper distribution of the weight of the cargo within the bin, (2) prohibit use of bins which exceed the structural load limitation on components of the airplane, and (3) prohibit installing the bin in a location which will obscure any passenger's view of the "seat belt" or "no smoking" sign, unless an auxiliary sign, or some other approved means for notification of the passenger is provided.

The provisions of paragraphs (a) (1) and (4) of this amendment specify the strength which a cargo bin and its attachments must meet for approval. It was intended, in Amendment 42–35, that this strength be such that in the event the airplane was involved in a survivable crash involving high deceleration forces, the cargo bin would not shift forward or be dislodged and injure the passengers. To provide this safeguard, the strength of the bin and its attachments must be able to withstand at least the load factors and emergency landing conditions applicable to the passenger seats installed on the airplane. The combined weight of the cargo bin and its contents must be used to determine this strength. However, in view of the comments received, it

appears that the wording of paragraphs (a) (1) and (4) of Amendment 42-35 did not make this strength requirement completely clear. Accordingly, this amendment rewords these paragraphs to specify more clearly the strength requirements which a cargo bin and its attachments must meet for approval.

In addition to the aforementioned changes, other editorial changes were made in this amendment for the purpose of clarification.

Since this amendment relaxes the height requirement of a previous rule which becomes effective January 20, 1962, and imposes no additional burden on any person, I find that notice and public procedure hereon are impractical and unnecessary, and good cause exists for making this amendment effective on less than 30 days' notice.

In consideration of the foregoing, effective January 20, 1962, Amendment 42-35 (26 F.R. 11356) is hereby rescinded and Part 42 of the Civil Air Regulations (14 CFR Part 42, as amended) is amended by adding a new § 42.66 to read as follows:

§ 42.66 Carriage of cargo in passenger compartments.

Cargo shall not be carried in the passenger compartment of an airplane except as provided in either paragraph (a) or (b) of this section.

(a) Cargo carried aft of the foremost seated passengers shall be carried in an approved cargo bin. Approved cargo bins shall meet the requirements of subparagraphs (1) through (8) of this paragraph.

(1) The bin shall be capable of withstanding the load factors and emergency landing conditions applicable to the passenger seats of the airplane in which the bin is installed multiplied by a factor of 1.15. The combined weight of the bin and the maximum weight of cargo which may be carried in the bin shall be used to determine this strength.

(2) The maximum weight of cargo which the bin is approved to carry and any instructions necessary to insure proper weight distribution within the bin shall be conspicuously marked on the bin.

(3) The bin shall not impose any load on the floor or other structure of the airplane which exceeds the structural load limitations of such components.

(4) The bin shall be attached to the seat tracks or to the floor structure of the airplane, and its attachments shall withstand the load factors and emergency landing conditions applicable to the passenger seats of the airplane in which the bin is installed multiplied by either the factor 1.15 or the seat attachment factor specified for the airplane, whichever is greater. The combined weight of the bin and the maximum weight of cargo which may be carried in the bin shall be used to determine this strength.

(5) The bin shall not be installed in a position which restricts access to or use of any required emergency exit, or the use of the aisle in the passenger compartment.

(6) The bin shall be fully enclosed and constructed of material which is at least flame resistant.

(7) Suitable safeguards shall be provided within the bin to prevent the cargo from shifting under emergency landing conditions.

(8) The bin shall not be installed in a position which obscures any passenger's view of the "seat belt" or "no smoking" sign, nor shall any required exit sign be blocked from view, unless an auxiliary sign or other approved means for proper notification of such passenger is provided.

(b) Cargo carried forward of the foremost seated passengers shall be carried either in approved cargo bins as specified in paragraph (a) of this section, or in accordance with the following requirements:

(1) It shall be properly secured by means of safety belts or other tiedowns having sufficient strength to eliminate the possibility of shifting under all normally anticipated flight and ground conditions;

(2) It shall be packaged or covered in a manner to avoid possible injury to passengers;

(3) It shall not impose any load on seats or the floor structure which exceeds the structural load limitation for those components;

(4) It shall not be located in a position which restricts the access to or use of any required emergency or regular exit, or the use of the aisle in the passenger compartment; and

(5) It shall not be located in a position which obscures any passenger's view of the "seat belt" or "no smoking" sign, nor shall any required exit sign be blocked from view, unless an auxiliary sign or other approved means for proper notification of such passenger is provided.

(Sec. 313(a), 601, 604, 605; 72 Stat. 752, 775, 778; 49 U.S.C. 1354(a), 1421, 1424, 1425)

Issued in Washington, D.C., on January 19, 1962.

ALAN L. DEAN,
Acting Administrator.

[F.R. Doc. 62-791; Filed, Jan. 22, 1962; 8:58 a.m.]

Chapter III—Federal Aviation Agency

SUBCHAPTER C—AIRCRAFT REGULATIONS

[Reg. Docket No. 1038; Amdt. 391]

PART 507—AIRWORTHINESS DIRECTIVES

Vickers Viscount 745D and 810 Series Aircraft

Review of the results of the inspections of Vickers Viscount 745D and 810 Series aircraft shows that an increase in the inspection interval for certain flap motors required by Amendment 60, 24 F.R. 10714 (AD 59-26-3) will not adversely affect the current level of safety. Accordingly, the inspection interval in paragraph (a) (2) is being extended from 2,000 flights to 4,000 flights. Also, reference is being made to later issues of the manufacturer's service documents.

Since this amendment relaxes a requirement and imposes no additional burden on any person, notice and public procedure hereon are unnecessary, and the amendment may be made effective upon publication in the FEDERAL REGISTER.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 507.10(a) of Part 507 (14 CFR Part 507), is hereby amended as follows:

Amendment 69, 24 F.R. 10714, Vickers Viscount 745D and 810 Series aircraft, is amended by:

1. Changing paragraph (a)(2) to read:

(2) Flap Motors, P/N C.9601/1 (i.e. those embodying clutch drive shaft, P/N N145421), at periods not exceeding 4,000 flights.

2. Changing the parenthetical reference statement to read:

(Vickers-Armstrongs PTL 183, Issue 5, Modification D.2766 (700 Series), PTL 61, Issue 5, Modification FG.1294 (800/810 Series) and Rotax Modification No. 3017C cover this subject.)

This amendment shall become effective January 23, 1962.

(Secs. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on January 17, 1962.

G. S. MOORE,
Acting Director,
Flight Standards Service.

[F.R. Doc. 62-685; Filed, Jan. 22, 1962; 8:45 a.m.]

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 61-KC-52]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Revocation of Control Zone

The purpose of this amendment to Part 601 of the regulations of the Administrator is to revoke the Goshen, Ind., control zone (§ 601.2101).

There is no control tower at Goshen Airport and the Flight Service Station has been decommissioned. Weather observations, previously reported by the Flight Service Station, are no longer available. Therefore, action is taken herein to revoke the Goshen control zone.

Since the change effected by this amendment reduces a burden on the public, notice and public procedure hereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective more than thirty days after publication.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), Part 601 (14 CFR Part 601) is amended by revoking the following section: § 601.2101 *Goshen, Ind., control zone.*

This amendment shall become effective 0001 e.s.t., April 5, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 16, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-686; Filed, Jan. 22, 1962; 8:45 a.m.]

[Airspace Docket No. 61-SW-115]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Revocation of Control Zone

The purpose of this amendment to § 601.1983 of the regulations of the Administrator is to revoke the Columbus, N. Mex., control zone.

Weather and communications are no longer provided at Columbus, therefore, the Federal Aviation Agency has determined that the Columbus control zone is no longer justified as an assignment of controlled airspace and action is taken herein to revoke the Columbus control zone.

Since the change effected by this amendment reduces a burden on the public, notice and public procedure hereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective more than thirty days after publication.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) the following action is taken:

In § 601.1983 (14 CFR 601.1983) "Columbus, N. Mex.: FAA intermediate field excluding the portion which lies outside the continental United States" is deleted.

This amendment shall become effective 0001 e.s.t., April 5, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 16, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-687; Filed, Jan. 22, 1962; 8:45 a.m.]

[Airspace Docket No. 61-WA-207]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration of Control Zone

The purpose of this amendment to § 601.2143 of the regulations of the Administrator is to alter the Fort Myers, Fla., control zone.

The Fort Myers VOR will be relocated to a new site on Page Airport on or about March 8, 1962. Therefore, action is taken herein to alter the Fort Myers control zone so that it will be compatible with the relocated navigational aid. In addition, the alteration will exclude the area within a 1-mile radius of the Cape Coral, Fla., Airstrip. Such action is taken herein. This will result in a reduction of the amount of controlled airspace presently designated in the control zone.

Since the changes effected by this amendment are minor in nature and will impose no additional burden on the public, notice and public procedure hereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective more than thirty days after publication.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), § 601.2143 (14 CFR 601.2143) is amended to read:

§ 601.2143 Fort Myers, Fla., control zone.

Within a 5-mile radius of Page Field (latitude 26°35'19" N., longitude 81°52'-01" W.), Fort Myers, Fla., excluding the portion within a 1-mile radius of the Cape Coral Airstrip (latitude 26° 33'56" N., longitude 81°57'07" W.); within 2 miles either side of the Fort Myers VOR 215° radial extending from the 5-mile radius zone to 8 miles SW of the VOR; and within 2 miles either side of a line bearing 040° and 220° from the Fort Myers RBN extending from the 5-mile radius zone to 8 miles SW of the RBN.

This amendment shall become effective 0001 e.s.t. April 5, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 16, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-688; Filed, Jan. 22, 1962; 8:45 a.m.]

[Airspace Docket No. 61-FW-22]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Description of Transition Area; Correction

The purpose of this amendment to § 601.10805 of the regulations of the Administrator is to correct the description of the Salt Flat, Texas, transition area. In the description of the Salt Flat transition area published in the FEDERAL REGISTER on December 6, 1961, effective January 11, 1962 (Airspace Docket No. 61-FW-22, 26 F.R. 11674) the "INT of the Carlsbad, N. Mex., VOR 256°" should have read "INT of the Carlsbad, N. Mex., VOR 236°". Therefore, action is taken to correct this transition area description.

Since this amendment is editorial in nature and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and it may be made effective immediately.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) the following action is taken:

In the text of § 601.10805 (26 F.R. 11675) "INT of the Carlsbad, N. Mex., VOR 256°" is deleted and "INT of the Carlsbad, N. Mex., VOR 236°" is substituted therefor.

This amendment shall become effective upon date of publication in the FEDERAL REGISTER.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 16, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-689; Filed, Jan. 22, 1962; 8:45 a.m.]

[Airspace Docket No. 61-HO-8]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Designation of Transition Area; Modification

On December 6, 1961, there was published in the FEDERAL REGISTER (26 F.R. 11675) an amendment to Part 601 of the regulations of the Administrator which designated the Kailua, Kona, Hawaii, transition area.

Upon publication of the amendment, a geographical coordinate was inadvertently omitted from the description of the transition area as presented in the notice. Therefore, action is taken herein to add this coordinate.

Since this amendment corrects an ommission and imposes no additional burden on any person, the effective date of the final rule as initially adopted may be retained.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), effective immediately Airspace Docket No. 61-HO-8 (26 F.R. 11675) is hereby modified as follows:

In the description of the Kailua, Kona, Hawaii, transition area, "thence to point of beginning." is deleted and "to latitude 19°38'15" N., longitude 156°17'40" W.; thence to point of beginning." is substituted therefor.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on January 16, 1962.

D. D. THOMAS,
Director, Air Traffic Service.

[F.R. Doc. 62-690; Filed, Jan 22, 1962; 8:45 a.m.]

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 8397 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

Phoenix Pharmaceutical Co. et al.

Subpart—Advertising falsely or misleadingly: § 13.85 *Government approval, action, connection or standards;* § 13.85–60 *Standards, specifications, or source;* § 13.170 *Qualities or properties of product or service;* § 13.170–52 *Medicinal, therapeutic, healthful, etc.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Phoenix Pharmaceutical Company et al., Hartford, Conn., Docket 8397, Oct. 5, 1961]

In the Matter of Phoenix Pharmaceutical Company, a Corporation, The Vitamin Center, Inc., a Corporation, and Aaron Honiberg and Julian Gross, Individually and as Officers of Both of Said Corporations

Consent order requiring two associated concerns in Hartford, Conn.—one the retail outlet for the other—to cease representing falsely in advertising in newspapers, circulars, magazines, etc., that their various vitamin preparations were U.S. Government standard formulations, and that they would be beneficial in the treatment of such conditions as excessive fatigue, nervous irritability, low resistance, etc., as in the order below in detail set out.

The order to cease and desist is as follows:

It is ordered, That Phoenix Pharmaceutical Company, a corporation, and its officers, and Aaron Honiberg and Julian Gross, individually and as officers of this said corporation, and The Vitamin Center, Inc., a corporation, and its officers, and Aaron Honiberg and Julian Gross, individually and as officers of this said corporation, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of the preparations designated "Vitagran—Formulation No. 115," "Phoenix No. 215 Vitagran-Forte," "Phoenix No. 116 Multi-Thera," "#110 Vegerol," "#114 Stressvite," "Phoenix #117 B-Plexol," "#119 Super-Plex," "#310 Vegerol Plus B-Plexol," "#50 Gerichol," and "Geri-Aids—Formulation No. 108," or any other preparations of substantially similar composition or possessing substantially similar properties, under whatever name or names sold, do forthwith cease and desist, directly or indirectly:

1. Disseminating, or causing to be disseminated, by means of the United States mails, or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement which represents, directly or by implication:

(a) That their preparations, or any of them are United States Government standard formulations;

(b) That "Vitagran—Formulation No. 115," "Phoenix No. 215 Vitagran-Forte" or "Phoenix No. 116 Multi-Thera" will be of benefit in the treatment of excessive fatigue, nervous irritability, restless sleep, low resistance or loss of appetite, unless such advertisement expressly limits the effectiveness of the preparations to those persons whose symptoms have been caused by an established deficiency of one or more of the nutrients provided by the preparations and, further, unless the advertisement clearly and conspicuously reveals the fact that in the great majority of persons these symptoms are caused by conditions other than those which may respond to treatment by the use of the preparations, and that in such persons the preparations will not be of benefit.

(c) That "#114 Stressvite", "Phoenix #117 B-Plexol" or "#119 Super-Plex" will be of benefit in the treatment of lack of pep, weakness, tiredness, nervousness or digestive difficulty, unless such advertisement expressly limits the effectiveness of the preparations to those persons whose symptoms have been caused by an established deficiency of one or more of the nutrients provided by the preparations, and, further, unless the advertisement clearly and conspicuously reveals the fact that in the great majority of persons these symptoms are caused by conditions other than those which may respond to treatment by the use of the preparations, and that in such persons the preparations will not be of benefit.

(d) That "#310 Vegerol Plus B-Plexol" will be of benefit in the treatment of underweight, exhaustion, premature aging or loss of youthful vitality or appearance unless such advertisement expressly limits the effectiveness of the preparation to those persons whose symptoms have been caused by an established deficiency of one or more of the nutrients provided by the preparation, and, further, unless the advertisement clearly and conspicuously reveals the fact that in the great majority of persons these symptoms are caused by conditions other than those which may respond to treatment by the use of the preparation and that in such persons the preparation will not be of benefit.

(e) That "#110 Vegerol":

(1) Will be of benefit in the treatment of premature aging, restless sleep, nervous irritability, loss of strength or poor digestion, unless such advertisement expressly limits the effectiveness of the preparation to those persons whose symptoms have been caused by an established deficiency of one or more of the nutrients provided by the preparation, and, further, unless the advertisement clearly and conspicuously reveals the fact that in the great majority of persons these symptoms are caused by conditions other than those which may respond to treatment by the use of the preparation, and that in such persons the preparation will not be of benefit.

(2) Will improve liver function or fat metabolism.

(f) That "#50 Gerichol" will be of benefit in the treatment of cardiac conditions, or will lower the blood cholesterol level.

(g) That "Geri-Aids—Formulation No. 108" will improve liver function or fat metabolism.

2. Disseminating or causing the dissemination of any advertisement by any means for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of said preparations, which advertisement contains any of the representations prohibited in paragraph 1 hereof.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: September 25, 1961.

By the Commission.

[SEAL] JOSEPH W. SHEA, *Secretary.*

[F.R. Doc. 62–696; Filed, Jan. 22, 1962; 8:46 a.m.]

PART 13—PROHIBITED TRADE PRACTICES

Rodless Decorations, Inc., et al.

Subpart—Furnishing false guaranties: § 13.1053 *Furnishing false guaranties;* § 13.1053–80 *Textile Fiber Products Identification Act.* Subpart—Misbranding or mislabeling: § 13.1185 *Composition;* § 13.1185–80 *Textile Fiber Products Identification Act.* Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1845 *Composition;* § 13.1845–70 *Textile Fiber Products Identification Act;* § 13.1852 *Formal regulatory and statutory requirements;* § 13.1852–70 *Textile Fiber Products Identification Act.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 72 Stat. 1717; 15 U.S.C. 45, 70) [Cease and desist order, Rodless Decorations, Inc. et al., New York, N.Y., Docket 8429, Oct. 3, 1961]

In the Matter of Rodless Decorations, Inc., a Corporation, and Charles Druck, Individually and as an Officer of Said Corporation

Consent order requiring New York City manufacturers to cease violating the Textile Fiber Products Identification Act by labeling as "100% 'Dacron' polyester, trim consists of all cotton", curtains which contained no "Dacron" polyester; by failing to label curtains with the true generic names of constituent fibers and "other fibers" present, and the percentage of each by weight; by failing to keep proper records showing the fiber content of their products; and by furnishing false guaranties that their products were not misbranded or falsely invoiced.

The order to cease and desist is as follows:

It is ordered, That respondents Rodless Decorations, Inc., a corporation and its officers, and Charles Druck individually, and as an officer of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction, delivery for introduction, manufacture for introduction, sale, advertising, or offering for sale, in commerce, or the transportation or causing to be transported, in commerce, or the importation into the United States of textile fiber products; or in connection with the sale, offering for sale, advertising, delivery, transportation, or causing to be transported, of textile fiber products which have been advertised or offered for sale in commerce; or in connection with the sale, offering for sale, advertising, delivery, transportation, or causing to be transported, after shipment in commerce, of textile fiber products, whether in their original state or contained in other textile fiber products, as the terms "commerce" and "textile fiber products" are defined in the Textile Fiber Products Identification Act, do forthwith cease and desist from:

A. Misbranding textile fiber products by:

1. Falsely or deceptively stamping, tagging, labeling, invoicing, advertising, or otherwise identifying such products as to the name or amount of constituent fibers contained therein;

2. Failing to affix labels to such products showing each element of information required to be disclosed by section 4(b) of the Textile Fiber Products Identification Act.

B. Failing to maintain records of fiber content of textile fiber products manufactured by them, as required by section 6(a) of the Textile Fiber Products Identification Act and Rule 39 of the Regulations thereunder.

C. Furnishing false guaranties that textile fiber products are not misbranded or falsely invoiced, under the provisions of the Textile Fiber Products Identification Act.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with the order contained in the aforesaid initial decision, as modified.

Issued: September 25, 1961.

By the Commission.

Correction

In F.R. Doc. 62–459 appearing at page 344 of the issue for Friday, January 12, 1962, the file line at the end of the document is corrected to read "[F.R. Doc. 62–459; Filed, Jan. 11, 1962; 12:30 p.m.]".

Title 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 3—ADJUDICATION

Subpart A—Pension, Compensation, and Dependency and Indemnity Compensation

MISCELLANEOUS AMENDMENTS

1. Section 3.253 is revoked.

§ 3.253 Notice of material increase in income or change in status. [Revoked]

2. The cross references immediately following § 3.253 are deleted.

3. Section 3.256 is revised to read as follows:

§ 3.256 Annual income and net worth questionnaires.

A questionnaire will be sent once each calendar year to each payee who is receiving pension or dependency and indemnity compensation, whose entitlement is subject to an annual income (and net worth where applicable) limitation (38 U.S.C. 415(e) and 506(b)).

4. In § 3.500, paragraph (h) is amended to read as follows:

§ 3.500 General.

* * * * * *

(h) Dependency of parent (§§ 3.4 (a), (b)(2), 3.250 and 3.660). End of month in which evidence shows dependency ceased.

5. Section 3.660 is revised to read as follows:

§ 3.660 Material change in income, net worth or change in status.

(a) *Requiring reduction or discontinuance*—(1) *Dependency and indemnity compensation.* If, after approval of an award of dependency and indemnity compensation or the submission of an annual income questionnaire, the payee begins to receive additional income at a rate which if continued will cause his income to exceed the income limitation applicable to the rate of dependency and indemnity compensation being paid or by reason of a change in marital status he would not be eligible to receive the rate of dependency and indemnity compensation which was awarded, he must notify the Veterans Administration of such fact. The award to each payee will be adjusted as of the last day of the month (1962 and thereafter) in which such additional income was received or the change in marital status occurred. Where parents are living together, an overpayment will be established for each parent who was in receipt of dependency and indemnity compensation. Any overpayment created under this paragraph will be subject to recovery if not waived. (38 U.S.C. 415(f)).

(2) *Compensation to dependent parent.* If, after approval of an award of compensation to a dependent parent, the payee's status changes either as to income, property, dependents, or any other factor so that dependency no longer exists he must notify the Veterans Administration of such fact. The award of compensation will be discontinued as of the last day of the month (1962 and thereafter) in which the dependency ceased to exist.

(3) *Pension.* If, after approval of an award or the submission of an annual income (and net worth where applicable) questionnaire, the payee begins to receive additional income at a rate which if continued will cause his income to exceed the income limitation applicable to the rate of pension being paid, or if by reason of a change in marital or dependency status or increase in net worth he is not eligible to receive the rate of pension which was awarded he must notify the Veterans Administration of such fact. The award to the payee will be adjusted as of the last day of the month (1962 and thereafter) in which such additional income was received, net worth increased or the change in marital or dependency status occurred. Any overpayment created under this paragraph will be subject to recovery if not waived.

(b) *Requiring award or increase*—(1) *Dependency and indemnity compensation*—(i) *Income*—(a) *Anticipated income.* Dependency and indemnity compensation or increased dependency and indemnity compensation may be awarded on the basis of anticipated income. Where a claim was disallowed, discontinued, or reduced for the prior year because the actual income exceeded the statutory limitation or was in an amount as to require payment at a reduced rate, an award or increased award may be effective January 1 of the next calendar year if evidence is received not later than that calendar year that the income will not exceed the statutory limitation or will fall within a lower income increment. Where there is doubt as to the extent of anticipated income, payment of dependency and indemnity compensation may be withheld or paid at the lowest level consistent with the report of income. The withheld amount may be awarded when actual income is ascertained.

(*b*) *Actual income.* Where a claim was disallowed, award deferred or made at a lower rate based on anticipated income, an award or increased award may

be made from the first of that calendar year if evidence is received within the same or the next calendar year showing the income was less than the statutory limitation or was within a lower income increment.

(ii) *Change in marital status.* Where a change in marital status occurs which would permit payment at a higher rate, the increased rate will be effective the date of receipt of the evidence showing the change in status. Income will be computed in accordance with § 3.251(g).

(2) *Pension*—(i) *Income*—(a) *Anticipated income.* Pension or increased pension may be awarded on the basis of anticipated income. Where a claim was disallowed, discontinued, or reduced for the prior year because the actual income exceeded the statutory limitation or was in an amount as to require payment at a reduced rate, an award or increased award may be effective January 1 of the next calendar year if evidence is received not later than that calendar year that the income will not exceed the statutory limitation or will fall within a lower income increment. Where there is doubt as to the extent of anticipated income, payment of pension may be withheld or paid at the lowest level consistent with the report of income. The withheld amount may be awarded when actual income is ascertained.

(b) *Actual income.* Where payment was deferred or award was made at a lower rate based on anticipated income, an award or increased award may be made from the first of that calendar year if evidence is received within the same or next calendar year showing the income was less than the statutory limitation or was within a lower income increment.

(ii) *Change in marital status or status of dependents.* Where a change in marital status or status of dependents occurs which would permit payment at a higher rate, the increased rate will be effective from the date of receipt of the evidence showing the change in status. In such cases income will be computed in accordance with § 3.252(e).

(iii) *Reduction in net worth or change in circumstances.* Where a claim has been disallowed because of the net worth provisions of 38 U.S.C. 522 or 543, and evidence is received of a reduction in net worth or a change in circumstances such as health, acquisition of a dependent, increase in rate of depletion of "corpus of estate", benefits will be paid from the date of receipt of the evidence.

6. The cross reference immediately following § 3.660 is deleted.

7. Section 3.661 is revised to read as follows:

§ 3.661 Income and net worth questionnaires.

(a) *Determination and entitlement.* (1) Where the questionnaire shows a change in income, net worth, marital status, status of dependents or change in circumstances affecting the application of the net worth provisions, the award will be adjusted in accordance with § 3.660.

(2) Where there is doubt as to the extent of anticipated income payment of dependency and indemnity compensation or pension will be in accordance with § 3.660(b)(1)(i)(*a*) or (b)(2)(i)(*a*).

(b) *Failure to return questionnaire.* Discontinuance will be effective the first of the year for which the income or net worth was to be reported or the effective date of the award, whichever is the later date.

(1) *Adjustment of overpayment.* If evidence of entitlement is thereafter received adjustment in the retroactive discontinuance of benefits will be made for all periods of entitlement from the date of discontinuance of payments.

(2) *Resumption of benefits.* Payment may be made, if otherwise in order, from the date of last payment if evidence of entitlement is received within one year from the date the claimant is notified of the termination of pension; otherwise benefits may not be paid for any period prior to date of receipt of evidence establishing entitlement.

8. A new cross reference is added immediately following § 3.661.

CROSS-REFERENCE: Material change in income, net worth or change in status. See § 3.660.

(72 Stat. 1114; 38 U.S.C. 210)

These regulations are effective January 23, 1962.

[SEAL] W. J. DRIVER,
Deputy Administrator.

[F.R. Doc. 62-721; Filed, Jan. 22, 1962; 8:48 a.m.]

PART 7—SOLDIERS' AND SAILORS' CIVIL RELIEF

Miscellaneous Amendments

1. In § 7.26, paragraph (d) is amended to read as follows:

§ 7.26 Application.

* * * * *

(d) Upon receipt of a report from the insurer on VA Form 9-381, the Chief Actuary, will determine if the policy is entitled to the protection of the act, and the insurer and the insured will be notified of the decision.

2. In § 7.29, paragraph (e) is amended to read as follows:

§ 7.29 Maturity.

* * * * *

(e) The statement of account will show the amount of indebtedness by reason of the premiums with interest and the credits, if any, then available and will be subject to audit and approval by the Chief Actuary. The statement of account will include the rate of interest charged on all indebtedness, the dates of debit and credit entries, and such other information as may be deemed necessary in making an audit of the account. If there is a balance due by the United States to the insurer, payment in favor of the insurer will be certified.

(72 Stat. 1114; 38 U.S.C. 210)

These regulations are effective January 23, 1962.

[SEAL] W. J. DRIVER,
Deputy Administrator.

[F.R. Doc. 62-722; Filed, Jan. 22, 1962; 8:48 a.m.]

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket Nos. 13928, 12404 (RM-116, 139)]

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

Second Memorandum Opinion and Order; Correction

In the matter of amendment of Part 2, Frequency Allocations and Radio Treaty Matters; General Rules and Regulations to align that part with the Geneva (1959) Radio Regulations to the extent practicable, Docket No. 13928; allocation of frequencies, amendment of Part 2 of the Commission's rules and regulations, Docket No. 12404; petition filed by Lorac Service Corporation, Tulsa, Oklahoma, May 1, 1959, RM-116; petition filed by Hastings-Raydist, Inc., Hampton, Virginia, September 22, 1959, RM-139.

The Second Memorandum Opinion and Order (FCC 61-1235) in the above-entitled matter, adopted by the Commission on October 18, 1961, is hereby corrected as follows:

Under Geneva footnotes to the table in § 2.106, enter the definition of Geneva footnote 182 in its proper numerical sequence.

(182) The frequency 410 kc/s is designated for the maritime radionavigation service (radio direction-finding). Other allocated services in the band 405–415 kc/s shall not cause harmful interference to radio direction-finding. In the band 405–415 kc/s no frequency shall be assigned to coast stations.

Released: January 17, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 62-742; Filed, Jan. 22, 1962; 8:51 a.m.]

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Coast Guard

[33 CFR Parts 126, 143]

[46 CFR Parts 2, 24, 25, 30, 31, 32, 33, 35, 38, 39, 43, 45, 51, 52, 54, 55, 56, 61, 70, 71, 72, 75, 76, 78, 90, 91, 92, 93, 95, 97, 98, 110, 111, 136, 146, 147, 160, 162, 167, 176, 181]

[CGFR 61-59]

NAVIGATION AND VESSEL INSPECTION REGULATIONS

Public Hearing on Proposed Changes

1. The Merchant Marine Council will hold a Public Hearing on Monday, March 12, 1962, commencing at 9:30 a.m., in the Departmental Auditorium, between 12th and 14th Streets on Constitution Avenue NW., Washington, D.C., for the purpose of receiving comments, views, and data on the proposed changes to the vessel inspection rules and regulations as set forth in Items I to IX, inclusive, of the Merchant Marine Council Public Hearing Agenda, CG-249, dated March 12, 1962. This agenda contains the changes proposed, and for certain items the present and proposed regulations are set forth in comparison form, together with the reasons for the changes where necessary.

2. This document contains a general description of the proposed changes in the navigation and vessel inspection regulations, together with the statutory authorities for making such changes. The complete description of the proposed changes are set forth in a separate pamphlet entitled "Merchant Marine Council Public Hearing Agenda" (CG-249), dated March 12, 1962. Copies of this pamphlet agenda are mailed to persons and organizations who have expressed a continued interest in the subjects under consideration and have requested that copies be furnished to them. Copies of the agenda will be furnished, upon request to the Commandant (CMC), United States Coast Guard Headquarters, Washington 25, D.C., so long as they are available. After the supply of extra copies is exhausted, copies will be available for reading purposes only in Room 4104, Coast Guard Headquarters, or at the offices of the various Coast Guard District Commanders.

3. Comments on the proposed regulations are invited. If it is believed a comment, view, or suggestion clarifies or improves a proposed regulation or amendment, it is changed accordingly, and, after adoption by the Commandant, the revised regulation is published in the FEDERAL REGISTER. Each person who desires to submit written comments, views or suggestions in connection with the proposed regulations as set forth in the agenda should submit them so that they will be received prior to March 9, 1962, by the Commandant (CMC), United States Coast Guard Headquarters, Washington 25, D.C. Comments, views or suggestions may be presented orally or in writing at the hearing before the Merchant Marine Council on March 12, 1962. In order to insure consideration of comments and facilitate checking and recording, it is essential that each comment be submitted on a separate Form CG-3287, showing the section number, the proposed change, the reason or basis, and the name, business firm or organization (if any), and the address of the submitter. A small quantity of Form CG-3287 is attached to each copy of the pamphlet agenda. Additional copies of this form may be obtained upon request from the Commandant (CMC) or from any Coast Guard District Commander, or it may be reproduced by typewriter or otherwise.

4. Each item in the agenda has been given a general title, intended to encompass the specific proposals presented. It is urged that each item be read completely because the application of proposals to specific employment or types of vessels may be found in more than one item. For example, Item V contains proposals applicable only to tank vessels, but Items III, IV, and VI also contain proposals affecting tank vessels.

ITEM I—RULES AND REGULATIONS FOR MILITARY EXPLOSIVES AND HAZARDOUS MUNITIONS

5. The regulations in 46 CFR 146.29-1 to 146.29-100 are applicable to the shipment of military explosives and hazardous munitions by, for or to the various agencies of the Department of Defense. These regulations apply when such shipments are made on commercial vessels which are subject to the Dangerous Cargo Statute in R.S. 4472, as amended (46 U.S.C. 170). The last revision of these regulations was published in 1958. In order to take care of all changes which have occurred since then, it is proposed to revise the regulations in 46 CFR 146.29-1 to 146.29-100, inclusive, and numerous editorial changes are proposed to make the language parallel to that used currently by the Interstate Commerce Commission and the Department of Defense. For example, words have been changed from "shell" to "cartridge" or "projectile" and "smokeless powder" to "propellant explosive."

6. It is proposed to change 46 CFR 146.29-11 (definitions and abbreviations) to differentiate between hazardous munitions which are fuels and oxidizers for missile propulsive systems when shipped with military explosives, and such fuels and oxidizers which may be shipped on a vessel not carrying military explosives. In the latter case, these different materials would be shipped under regulations in this part which are applicable to similar materials when moving in commercial shipments. The definitions falling under related terms have been put in alphabetical order and a new definition has been added to define a "van."

7. It is proposed to amend 46 CFR 146.29-29 (smoking), to permit smoking aboard a ship in a special room designated for use by ship's personnel as a "smoking room" provided miscellaneous firefighting equipment is present, the portholes, vents, and doors are effectively screened, and an electric cigarette lighter is installed.

8. It is proposed to amend 46 CFR 146.29-41 (weight per draft), to specify the cargo handling gear requirements when lifting portable magazines and vans.

9. It is proposed to amend 46 CFR 146.29-57 ("on deck stowage") by adding new requirements to provide for the stowage "on deck" of military explosives in deck boxes, portable magazines, or vans.

10. It is proposed to amend 46 CFR 146.29-73 (preparation of magazines, decks, hatches and holds for handling military explosives) to require that overhead deck beams, as well as bilges, shall be examined and cleaned of any residue of previous cargo.

11. It is proposed to amend 46 CFR 146.29-75 (location of magazines and ammunition stowage) to permit stowage of chemical ammunition except Class II-J in refrigerator spaces under certain conditions.

12. It is proposed to amend 46 CFR 146.29-81 (magazine stowage A) to provide for uprights spaced on 24-inch centers in lieu of 18-inch centers when ¾-inch plywood is used for the magazine bulkhead.

13. It is proposed to amend 46 CFR 146.29-89 (portable magazine stowage) to specify the stowage location for the portable magazine for compatibility purposes; to delete the requirement that wooden portable magazines be constructed watertight; to require that the magazines when stowed "on deck" be protected from the direct rays of the sun and the elements; and to require that the portable magazines be marked with the names of the military explosives stowed therein.

14. It is proposed to amend 46 CFR 146.29-93 (stowage of blasting caps, detonators, primer detonators, etc.) to except blasting caps stowed in portable magazines "on deck" from the requirement that Class VIII ammunition shall be stowed at least 8 feet from the vessel's side.

15. It is proposed to amend 46 CFR 146.29-99 (explosives admixture chart) to permit stowage of Class IV-A military explosives with other classes having a fire hazard only; and by deleting Class X-E compatability.

16. It is proposed to amend 46 CFR 146.29-100 (classification handling and stowage chart) by changing the various classes to include new explosives; deleting items which are no longer in the De-

partment of Defense stock; providing for the use of portable magazines for those classes of military explosives requiring ammunition stowage; inserting a new Class IV–C to cover missiles shipped with liquid fuel and oxidizer; and deleting Class X–E because these items are no longer in service in the Department of Defense.

17. The authority for the dangerous cargo regulations is in R.S. 4405, as amended, 4462, as amended, and 4472, as amended (46 U.S.C. 375, 416, 170). These regulations also interpret or apply sec. 3, 68 Stat. 675 (50 U.S.C. 198); E.O. 10402, 17 F.R. 9917; 3 CFR, 1952 Supp.

ITEM II—DANGEROUS CARGOES

18. Various amendments to the Dangerous Cargo Regulations in 46 CFR Part 146 have been necessitated by corresponding changes made in the regulations of the Interstate Commerce Commission governing land transportation of the same commodities. R.S. 4472, as amended (46 U.S.C. 170), requires that the Coast Guard accept and adopt such definitions, descriptions, descriptive names, classifications, specifications of containers, packing, marking, labeling and certification of explosives or other dangerous articles or substances to the extent as are or may be established from time to time by the Interstate Commerce Commission insofar as they apply to shippers by carriers engaged in interstate and foreign commerce by water. 46 CFR 146.02–19 makes these Dangerous Cargo Regulations applicable to all types of carriers. Therefore, amendments applying only to shippers' requirements upon which the Interstate Commerce Commission has already complied with the Administrative Procedure Act are not included in this Agenda for the 1962 Merchant Marine Council Public Hearing, but will be published as a separate document in the FEDERAL REGISTER.

19. Miscellaneous changes to the Dangerous Cargo Regulations are proposed to clarify certain requirements. The amendment to 46 CFR 146.02–22 (preservation of records) will specify that the Commandant's authorized representative may also procure records for examination. The new regulation designated 146.03–1 will define the abbreviation "MIN" as used in these regulations. The amendment to 46 CFR 146.03–19 (inside containers) will provide that inside containers and packing must meet the requirements of the ICC. The amendment to 46 CFR 146.04–5 (list of explosives and other dangerous articles and combustible liquids) will add new items to the commodity list. The amendments to 46 CFR 146.06–8 (handling on board vessels) are revised to make the requirements compatible with the regulations in 46 CFR 146.07 which apply to handling of dangerous cargo in vans and portable containers. The amendment to 46 CFR 146.08–10 (tank containers) will clarify the requirements and provide that railroad and highway vehicles equipped with tanks containing explosives or other dangerous articles or substances must be specifically permitted by the tables in this part in order to be transported on board passenger ferry vessels. The amendment to 46 CFR 146.10–50 (stowage of explosives or other dangerous articles or substances on board barges) is amended to provide for the carriage of radioactive materials by barges.

20. In order to clarify requirements regarding explosives, various changes are proposed. The amendment to 46 CFR 146.20–17 (stowage of explosives in holds containing coal) will specify that the authorization must be granted by the Commandant. The amendment to 46 CFR 146.20–35 (handling explosives) will cancel requirements regarding the use of power-operated equipment since this subject is now in a new section.

21. It is proposed to amend 46 CFR 146.22–25 (exemptions for inflammable solids and oxidizing materials) by adding a new item to the list of nonexempted materials. The amendment to 46 CFR 146.22–30 (authorization to load or discharge ammonium nitrate and ammonium nitrate fertilizers) will permit certain ammonium nitrate products to be shipped in multiwall paper bags and ICC approved plastic bags enclosed in metal barrels or drums under the same conditions which apply to drums containing loose material. The changes in 46 CFR 146.22–100 (table E) will provide shipping requirements for new items contained in ICC Change Order No. 51 and permit the use of new containers now authorized by the ICC.

22. The proposed changes in requirements covering compressed gases are intended to clarify shipping requirements. The amendment to 46 CFR 146.–24–100 (table G) provides for the transportation of liquified petroleum gas without designating the vapor pressures. The categories determined by the designated vapor pressures have been eliminated and one entry will be used. The container and filling requirements will be as determined by the ICC.

23. It is proposed to change the exemptions and stowage and handling requirements for radioactive materials in order that these requirements will be in line with the recommendations of the Federal Radiation Council. The changes in 46 CFR 146.25–25 (exemptions for radioactive materials) and 146.25–35 (stowage and handling of radioactive materials on board vessels) will establish limitations regarding exposures and will specify stowage requirements in terms of distance rather than by radiation intensities. The maximum permissible dose for a 7-day period is revised downward from 300 milliroentgens to 100 milliroentgens of gamma radiation or equivalent. This reduction is in line with the current Atomic Energy Commission limitation.

24. It is proposed to amend 46 CFR 146.26–5 (application of regulations governing combustible liquids) to make a specific reference to proposed new regulations in 46 CFR Part 98 (Cargo and Miscellaneous Vessels) which apply to the transportation of combustible liquids in portable cargo tanks.

25. It is proposed to amend 46 CFR 146.27–100 (table K) to require that the shipping papers for empty cylinders shall bear a statement of identification of the most recent lading to permit ready identification of the residue in the event of a cylinder failure.

26. It is proposed to amend 46 CFR 147.05–100 (table S) to require that only slow burning cellulose acetate film be used as ships' stores and supplies.

27. The authority for dangerous cargo regulations is in R.S. 4405, as amended, 4462, as amended, and 4472, as amended (46 U.S.C. 375, 416, 170). These regulations also interpret or apply sec. 3, 68 Stat. 675 (50 U.S.C. 198); E.O. 10402, 17 F.R. 9917; 3 CFR, 1952 Supp.

ITEM III—VESSEL OPERATIONS AND INSPECTIONS

IMMEDIATE REPORTING OF SPILLAGES, ETC., OF DANGEROUS MATERIALS OR LIQUIDS

28. The Coast Guard is assigned responsibility concerning the promotion of safety of life and property, including the protection of naval vessels, harbors, piers, and waters of the United States (see 14 U.S.C. 2, 88, 91; 50 U.S.C. 191; and Executive Order 10173, as amended). One responsibility arises in the inadvertent or accidental spillage of hazardous or dangerous materials, including combustible or inflammable liquids, which may create conditions endangering the vessel from which the spillage occurred, other vessels, or port facilities. The "SS Amoco Virginia" casualty, which occurred at Houston, Tex., on November 8, 1959, pointed up the need for the earliest possible notification of accidental spillage of any commodity which might create a hazard to safety. In this case, an early notification might have permitted measures, such as closing the channel, that would have prevented the ignition of the inflammable and combustible liquid on the water and the subsequent spreading of the fire to the "Amoco Virginia," two barges and dock facilities. This casualty resulted in the loss of 8 lives, injuries to 18 persons, and damage in excess of $2,000,000.

29. It is proposed to add new regulations designated 46 CFR 35.15–7, 38.15–7, 39.15–7, 78.07–17, 97.07–17, 98.01–3, 136.04–1, and 146.02–35 as well as a similar requirement in 33 CFR 126.34 which are designed to provide immediate reporting of spillage, leakage, or discharge into the navigable waters of the United States of hazardous or dangerous material, including inflammable or combustible liquids, in any amount. Immediate reporting to the Coast Guard by the most expeditious means will permit early action to prevent or minimize damage or injury to vessels, harbors, or waters of the United States. The regulations in 46 CFR Chapter I, will apply to inspected vessels or vessels carrying regulated cargoes while the regulations in 33 CFR 126.34 will apply to all vessels (including foreign vessels and uninspected vessels), as well as to all piers, wharves, or waterfront facilities.

30. The authority to prescribe regulations requiring the immediate reporting of spillages, leakage, or discharge into the navigable waters of the United States of hazardous or dangerous materials, including inflammable or combustible liquids, is in R.S. 4405, as amended, and 4462, as amended, sec. 633, 63 Stat. 545; 46 U.S.C. 375, 416, 14 U.S.C. 633. Interpret or apply R.S. 4417a, as amended, 4450, as amended, 4472, as amended, sec. 1, 40 Stat. 220, as amended; 46 U.S.C. 391a, 239, 170, 50 U.S.C. 191; E.O. 10173, 15 F.R. 7005, 3 CFR, 1950 Supp., E.O. 10277, 16 F.R. 7537, 3 CFR, 1951 Supp. E.O. 10352, 17 F.R. 4607, 3 CFR, 1952 Supp.

MARINE CASUALTY INVESTIGATIONS

31. It is proposed to delete 46 CFR 136.07–40 and 136.07–42 which will remove from the regulations the present requirements for casualty investigations to be conducted jointly under the Marine Investigation Regulations in 46 CFR Part 136 and the Coast Guard Supplement, Uniform Code of Military Justice, whenever a Coast Guard vessel is involved in collision with a private vessel or whenever a marine casualty occurs within the scope of Coast Guard rescue operations and involves loss of life. The requirements of the regulations under the two procedures are not compatible and the deletion of 46 CFR 136.07–40 and 136.07–42 will serve merely to separate those functions. One of the principal purposes of an investigation under the Coast Guard Supplement, Uniform Code of Military Justice, is to inquire into and evaluate the effectiveness of existing operations, administrative and training procedures, and recommend ways and means for improvement. Frequently this necessitates collateral inquiries not bearing on the casualty itself, Coast Guard witnesses will continue to be made available in all investigations of marine casualties involving Coast Guard and private vessels as heretofore. This change will in no way modify the determinations required to be made by the investigative body as set forth in 46 CFR 136.07–1.

32. The authority to prescribe regulations for marine investigations is under R.S. 4405, as amended, 4462, as amended; 46 U.S.C. 375, 416. These regulations also interpret or apply R.S. 4450, as amended, secs. 1 and 2, 49 Stat. 1544, 1545, as amended, sec. 3, 70 Stat. 142, sec. 3, 68 Stat. 675; 46 U.S.C. 239, 367, 390b, 50 U.S.C. 198.

PREVENTION OF OIL POLLUTION

33. After the approval on August 30, 1961, of the Oil Pollution Act (Public Law 87–167) the United States Government deposited its ratification of the International Convention for the Prevention of the Pollution of the Sea by Oil, 1954. The proposed amendments to the Tank Vessel Regulations (CG–123), Marine Engineering Regulations (CG–115), Cargo and Miscellaneous Vessel Regulations (CG–257), and Nautical School Ships (CG–269), are intended to revise current requirements or add new requirements so that all vessels regardless of tonnage will be provided with means to prevent oil from being pumped overboard within prohibited zones in order to limit possibility for unintentional violations of the Oil Pollution Act of 1961 and the 1954 Convention, as well as the Oil Pollution Act of 1924. The change made to Subchapter D (tank vessels) by the addition of a regulation designated 46 CFR 32.50–17 will provide for the collection of tank washings in tanks of adequate capacity on tank ships. The changes made to Subchapter F (marine engineering) by the addition of new regulations designated 46 CFR 55.07–25 and 55.10–35 and the changes made to 46 CFR 55.10–25 and 55.10–40 provide for the prevention of oil draining to the bilge in ships subject to these regulations. The change made in Subchapter I (cargo and miscellaneous vessels) by the addition of new regulations designated 46 CFR 93.13–1 to 93.13–10 will provide for the disposition of oily water ballast from ships of this type. The change made to Subchapter R (nautical schools) by the addition of a new regulation designated 46 CFR 167.20–35 will provide for the disposition of oily water ballast from nautical school ships.

34. The authority to prescribe regulations with respect to prevention of oil pollution is in R.S. 4405, as amended, and 4462, as amended; 46 U.S.C. 375, 416. These regulations also interpret or apply R.S. 4417, as amended, 4417a, as amended, 4418, as amended, 4426, as amended, 4433, as amended, 4488, as amended, 41 Stat. 305, as amended, secs. 1 and 2, 49 Stat. 1544, 1545, as amended, sec. 3, 68 Stat. 675, sec. 8, 75 Stat. 404; 46 U.S.C. 391, 391a, 392, 404, 411, 481, 363, 367, 50 U.S.C. 198, P.L. 87–167; E.O. 10402, 17 F.R. 9917; 3 CFR, 1952 Supp.

PORTABLE CONTAINERS FOR COMBUSTIBLE LIQUID CARGOES

35. Requests have been received from various shippers and carriers for the use of large portable containers for combustible liquid cargoes to be transported on dry cargo vessels. The combustible liquids may be loaded either from shore hose connections after the portable tanks are secured in place or the cargo tanks may be filled ashore and lifted on and off the cargo vessels in a loaded condition. Under the provisions in 46 CFR 30.01–5 (tank vessels), dry cargo vessels may be granted a permit to carry liquid quantities of Grade D or E combustible liquid cargoes in bulk. Accordingly, the bulk movement of these grades of liquids has been authorized on certain cargo vessels subject to the provision that the portion of the vessel used for the carriage of combustible liquid cargo meets the requirement of Subchapter D (tank vessels) in addition to the requirements of Subchapter I (cargo vessels). However, the applicable regulations in Subchapters D and I are general in nature and do not prescribe specific requirements for tank design, testing and installations. Additionally, the requirements of the Tank Vessel Regulations for a fixed fire extinguishing system for cargo tanks do not appear to be practicable for the portable tank installations. The problem created by the shipment of combustible liquids on cargo vessels cannot be resolved by the application of the Dangerous Cargo Regulations since combustible liquids are not considered as regulated commodities on dry cargo vessels and therefore do not fall under the purview of such regulations.

36. As a guideline in establishing standards for portable containers, it was necessary to interpret the meaning of the phrase "drums, barrels, or other packages" as used in the Tanker Act and the Dangerous Cargo Act, as well as the phrase "combustible liquid cargo in bulk" as used in these acts. These interpretative rulings were published in the FEDERAL REGISTER of October 25, 1961 (26 F.R. 9997 and 9998), and designated 46 CFR 30.–01–20, 90.05–30 and 146.02–30. These interpretations read as follows:

a. The phrase "drums, barrels, or other packages" as used in the Tanker Act (R.S. 4417a, as amended, 46 U.S.C. 391a), and the Dangerous Cargo Act (R.S. 4472, as amended, 46 U.S.C. 170), is interpreted to include portable containers having a maximum capacity of 110 U.S. gallons, which are actually loaded and discharged from vessels with their contents intact.

b. The phrase "combustible liquid cargo in bulk" as used in the Tanker Act (R.S. 4417a, as amended, 46 U.S.C. 391a), and the Dangerous Cargo Act (R.S. 4472, as amended, 46 U.S.C. 170), is interpreted to include portable containers of a capacity of more than 110 U.S. gallons, whether or not such containers are actually loaded and discharged from vessels with their contents intact.

37. As there appeared to be a need for regulations to prescribe requirements for the design, construction, handling and stowage of large portable tanks to be used to transport combustible liquids on cargo vessels, the Coast Guard requested the American Merchant Marine Institute to help formulate such regulations. As a result, a Portable Cargo Tank Committee, formed under the sponsorship of the American Merchant Marine Institute, developed standards for such portable cargo tanks. The proposed amendments designated 46 CFR 98.30–1 to 98.30–45, inclusive, have been developed on the basis of the standards proposed by the American Merchant Marine Institute Portable Cargo Tank Committee. Cross-reference to the new regulations will be added to Subchapter D (tank vessels) and Subchapter N (dangerous cargo), which are designated 46 CFR 30.01–5 and 146.26–5 (see Item II).

38. The authority for regulations regarding portable containers for combustible liquid cargoes is in R.S. 4405, as amended, and 4462, as amended; 46 U.S.C. 375, 416. These regulations also interpret or apply R.S. 4417a, as amended, 4472, as amended; 46 U.S.C. 391a, 170.

INSPECTION OF FOREIGN VESSELS OF UNUSUAL DESIGN OR CONSTRUCTION

39. Because of the continued rapid advance in engineering techniques and applications, it has been evident, for the past several years, that new developments involving hazards not envisaged by international regulations or by existing shipbuilding design or construction standards, need to be given special consideration. In order to do this it is proposed to require the inspection of foreign vessels of unusual design or construction and involving potential unusual operating risks. The degree of inspection will be such as to provide that the risks of U.S. life and property when such vessels are in U.S. ports is not

greater than that which exists with vessels of more usual type. The potential need for the application of this principle is recognized by the provision of the 1960 Safety of Life at Sea Convention relative to nuclear ships which leave to each country the authority for accepting or rejecting the entry of such ships into their home waters. The proposed amendments or regulations designated 46 CFR 2.01–10, 2.01–13, 30.01–5, 70.05–3, 90.05–1, and 146.02–2(i) are considered necessary to provide for necessary inspection of foreign vessels of unusual design or construction and involving potential unusual operating risks.

40. The authority for the regulations regarding inspection of foreign vessels of unusual design or construction is in R.S. 4405, as amended, and 4462, as amended; 46 U.S.C. 375, 416. These regulations also interpret or apply R.S. 4417a, as amended, 4472, as amended, sec. 1, 40 Stat. 220, as amended; 46 U.S.C. 391a, 170, 50 U.S.C. 191; E.O. 10173, 15 F.R. 7005, 3 CFR, 1950 Supp., E.O. 10277, 16 F.R. 7537, 3 CFR, 1951 Supp., E.O. 10352, 17 F.R. 4607, 3 CFR, 1952 Supp.

VESSEL PLAN APPROVAL; VENTILATION AND HULL OPENING CLOSURES

41. The proposed revisions to 46 CFR Part 72 (construction and arrangement) are needed to clarify the requirements for ventilation and hull opening closures. The location of the means of operating the closures is required to be outside the space served by the system. This is a clarification of presently accepted practice. An editorial change for 46 CFR 72.10–5 includes passenger vessels carrying more than 150 passengers, a change made necessary by a recently published change to this Subchapter H (passenger vessels). These proposals are also in agreement with the action taken by the 1960 International Conference on Safety of Life at Sea. 46 CFR Part 71 (inspection and certification) is amended to include the field offices of Merchant Marine Technical Division, Coast Guard Headquarters, as authorized plan approval offices of the Commandant (MMT). This merely confirms present practice. 46 CFR Part 78 (operations) is amended to require that the location of ventilation fan shutdowns be shown on vessel's fire safety drawings. Since the shutdowns are part of the fire protection installation it is felt that their location on this drawing is needed for completeness. This change would also agree with the action taken in the 1960 International Conference on Safety of Life at Sea.

42. With respect to plan approval it is proposed to revise 46 CFR 71.65–15 and 71.65–20 to clarify requirements. Four copies of plans will be required. It is proposed to cancel 46 CFR 72.03–20 regarding segregation of spaces containing the emergency source of electrical power in order that requirements will be compatible with 46 CFR 72.05–5 and 72.05–10. The proposed amendment to 46 CFR 72.05–50 deals with ventilation systems and means for shutting them off. The proposed amendments to 46 CFR 72.10–5 and 72.10–25 are to clarify requirements regarding means of escape. It is proposed to amend 46 CFR 72.15–15, regarding ventilation, for closed spaces to provide for control of ventilating systems. The proposed amendment to 46 CFR 78.45–1, regarding display of plans, will require that plans required to be displayed on vessels shall show the locations of the remote means provided for stopping the fans.

43. It is proposed to add a new paragraph to 46 CFR 91.55–5 which will require submittal of general arrangement plans showing the arrangement or locations of the firefighting and fire-protection features of the vessel. This is standard practice on many new vessels and is considered necessary for ready reference to new crew members. The proposed change will agree with action taken by the 1960 International Conference on Safety of Life at Sea. A change to 46 CFR Part 97 (operations) would require posting of these plans. 46 CFR Part 91 (inspection and certification) is amended to include the field offices of Merchant Marine Technical Division, Coast Guard Headquarters, as authorized plan approval offices of the Commandant (MMT). This merely confirms present practice. A requirement for submitting four copies of each plan has been included as an amendment to 46 CFR 91.55–20. Four copies will be required when plan action is handled by a field office. It is proposed to amend 46 CFR Part 92 to require that means be provided for stopping ventilation fans and closing off all openings into the interior of the vessel. This is a clarification of presently accepted practice and agrees with the action taken by the 1960 International Conference on Safety of Life at Sea.

44. The proposed amendment to 46 CFR 91.55–5 deals with plan approval for structural fire protection required for cargo vessels of 4,000 gross tons and upward. The proposed amendment to 46 CFR 91.55–15 and 91.55–20 clarify requirements for submittal of plans to field technical offices. The proposed amendment to 46 CFR 92.15–10 deals with control of ventilation systems for closed spaces. The proposed regulation designated 46 CFR 97.36–1 will require posting of fire control plans on all self-propelled vessels and all barges with sleeping accommodations for more than 6 persons.

45. The authority for these regulations is in R.S. 4405, as amended, and 4462, as amended; 46 U.S.C. 375, 416. These regulations also interpret or apply R.S. 4417, as amended, 4418, as amended, 4426, as amended, 4488, as amended, 4491, as amended, sec. 3, 24 Stat. 129, as amended, 41 Stat. 305, as amended, sec. 2, 45 Stat. 1493, as amended, sec. 2, 49 Stat. 888, as amended, sec. 5, 49 Stat. 1384, as amended, secs. 1 and 2, 49 Stat. 1544, 1545, as amended, sec. 3, 54 Stat. 347, as amended, sec. 3, 70 Stat. 152, and sec. 3, 68 Stat. 675; 46 U.S.C. 391, 392, 404, 481, 489, 363, 85a, 369, 367, 1333, 390b, 50 U.S.C. 198; E.O. 10402, 17 F.R. 9917, 3 CFR, 1952 Supp.

DRYDOCKING OR HAULING OUT VESSELS; AUTHORIZING ADMINISTRATIVE EXTENSIONS OF TIME

46. It is proposed to provide authority for the Commandant to permit extension of drydocking intervals under certain conditions by amendments to 46 CFR 31.10–20, 71.50–1, 91.40–1 and 176.15–1.

47. The authority to prescribe regulations regarding drydocking of vessels is in R.S. 4405, as amended, 4462, as amended, 4488, as amended; 46 U.S.C. 375, 416, 481. These regulations also interpret or apply R.S. 4417, as amended, 4417a, as amended, 4418, as amended, 4426, as amended, secs. 1 and 2, 49 Stat. 1544, 1545, as amended, sec. 3, 54 Stat. 347, as amended, sec. 3, 70 Stat. 152, and sec. 3, 68 Stat. 675; 46 U.S.C. 391, 391a, 392, 367, 1333, 390b, 50 U.S.C. 198; E.O. 10402, 17 F.R. 9917, 3 CFR, 1952 Supp.

GAS FREEING, INSPECTION AND TESTING REQUIRED WHEN MAKING ALTERATIONS, REPAIRS, ETC., INVOLVING HOT WORK

48. The regulation changes and additions proposed under this item will revise 46 CFR 35.01–1, 71.60–1 and 91.50–1. These changes are the result of study into casualties resulting in loss of life and involving inadequate or improper practices and procedures of gas freeing and related tests and inspections, including the maintenance of a safe condition throughout the operation, and other casualties where preservative coatings were applied to surfaces. These proposals are believed to be sufficiently broad to permit compliance with the existing organization and operating procedure of practically all shipyards and repair facilities. They are considered to be timely because of the increasing use of preservative coatings. These proposals were on the agenda of the Public Hearing of the Merchant Marine Council which was held on March 24, 1961. At that time requests were received for further time to study these proposals and this was granted. Notice was published in the FEDERAL REGISTER of September 30, 1961 (26 F.R. 9254), that these proposals were being studied further and that the revised proposals would be placed on the 1962 Merchant Marine Council Public Hearing Agenda.

49. The authority to prescribe regulations regarding gas freeing, inspection and testing of holds, etc., in which hot work will be performed, is in R.S. 4405, as amended, 4462, as amended, and 4488, as amended; 46 U.S.C. 375, 416, 481. These regulations also interpret or apply R.S. 4417, as amended, 4417a, as amended, 4418, as amended, secs. 1 and 2, 49 Stat. 1544, 1545, as amended, sec. 3, 54 Stat. 347, as amended, sec. 3, 68 Stat. 675; 46 U.S.C. 391, 391a, 392, 367, 1333, 50 U.S.C. 198; E.O. 10402, 17 F.R. 9917, 3 CFR, 1952 Supp.

INSPECTION AND CERTIFICATION OF SEAGOING BARGES

50. The regulations in 46 CFR 90.05–25 (cargo and miscellaneous vessels) by its present wording which defines a "seagoing barge of 100 gross tons or over," makes the design or construction of such barge a governing factor in determining whether it is subject to inspection and certification as a seagoing barge. This resulted in barges that do in fact navigate the high seas, although not designed to do so, being exempt from inspection insofar as the regulations have been concerned, as long as they returned to the port of departure from the high seas and did not touch at any other port. This situation applies particularly to scows and barges which carry debris, etc., beyond inland waters to the high seas for dumping and then return to port. Accordingly, it is proposed to amend 46 CFR 90.05–25 to do away with present inconsistencies regarding inspection of seagoing barges and more accurately reflect the intent of Congress as expressed in the Act of May 28, 1908, as amended by the Act of June 4, 1956 (46 U.S.C. 395(b)) and to place in 46 CFR 90.10–36 a definition of "seagoing barge." It is recommended that the proposed 46 CFR 90.10–36 will become effective on publication in the FEDERAL REGISTER and that the other proposed changes will become effective January 1, 1964. The effect of this amendment will be that all non-self-propelled vessels of 100 gross tons and over that in fact navigate the high seas or ocean will now be subject to inspection and certification, regardless of whether or not designed for service on the high seas and whether or not another port is visited. In addition, an amendment to 46 CFR 91.01–10 (certificate of inspection) is proposed in order to provide in these regulations for a limited certificate of inspection for certain non-self-propelled vessels of 100 gross tons and over proceeding on the high seas or ocean for the sole purpose of changing place of employment or making rare or infrequent voyages on the high seas or ocean and returning to the port of departure.

51. The authority to prescribe regulations regarding inspection and certification of seagoing barges is in R.S. 4405, as amended, and 4462, as amended; 46 U.S.C. 375, 416. These regulations also interpret or apply sec. 10, 38 Stat. 428, as amended; 46 U.S.C. 395.

INSPECTION AND CERTIFICATION OF MANNED SEAGOING BARGES

52. At the 1961 Coast Guard Western Area Conference on COTPMMS matters the subject of seagoing barges, which in fact are over 100 gross tons in size in terms of Custom measurement standards when considered without ballast exemption, was discussed. It was recommended to the Commandant that a regulation be promulgated so that an administrative determination could be made by the Commandant that such barges be made subject to all the various inspection regulations applicable to "seagoing barges of more than 100 gross tons." Therefore, it is proposed to amend 46 CFR 90.05–25 to enable the Commandant to make a determination that a seagoing barge which is manned is 100 gross tons or over, and therefore subject to inspection, when the gross register tonnage is not a valid criterion of the size of the seagoing barge.

53. The authority to prescribe regulations regarding inspection and certification of manned seagoing barges is in R.S. 4405, as amended, 4462, as amended; 46 U.S.C. 375, 416. These regulations also interpret or apply sec. 10, 38 Stat. 428, as amended; 46 U.S.C. 395.

OXYGEN-TYPE BREATHING APPARATUS

54. Present regulations require one unit of self-contained breathing apparatus to be stowed at each end of a liquid chlorine barge. Should a casualty occur or a leak develop, it may not be possible to reach either. The likelihood of such an incident is greater during the critical period of filling or discharging. To assure ready availability of a breathing apparatus during this critical period, the proposed amendment to 46 CFR 98.20–70 will permit self-contained air-type as well as self-contained oxygen-type breathing apparatus to be carried. It will also require equipment that can be started and operated in the temperatures encountered, and to require at least one member of the operating party to have a self-contained breathing apparatus on his person during filling or discharge operations.

55. Present regulations in 46 CFR Part 98 require one ammonia gas mask to be stowed at each end of an anhydrous ammonia barge. Should a casualty occur or a leak develop, it may not be possible to reach either gas mask. The likelihood of such an incident is greatest during the critical period of filling or discharging. To assure ready availability of an ammonia gas mask during this critical period, the proposed amendment to 46 CFR 98.25–90 will require at least one member of the operating party to have an ammonia gas mask on his person during filling.

56. The authority to prescribe regulations regarding breathing apparatus on liquid chlorine and anhydrous ammonia barges is in R.S. 4405, as amended, 4462, as amended, 4472, as amended; 46 U.S.C. 375, 416, 170. These regulations also interpret or apply sec. 3, 68 Stat. 675, 50 U.S.C. 198; E.O. 10402, 17 F.R. 9917, 3 CFR, 1952 Supp.

AUTOMATIC LIFT TOILET SEATS

57. It is no longer considered necessary to require that toilet seats shall be so constructed as to remain in an upright position when not in use. Therefore, it is proposed to delete this requirement from 46 CFR 32.40–1(d), 72.20–25(e), 72.20–90(d), 92.20–25(e), and 92.20–90(d).

58. The authority to prescribe regulations regarding accommodations is in R.S. 4405, as amended, 4417a, as amended, and 4462, as amended; 46 U.S.C. 375, 391a, 416.

ITEM IV—LIFESAVING AND FIRE PROTECTION

PAINTING OF LIFEBOAT INTERIORS

59. Effective January 1, 1961, the regulations required that the interiors of certain lifeboats be painted or colored international orange while the control handles for mechanical disengaging apparatus when used are required to be painted or colored red. This color scheme of international orange for lifeboat interiors and red for the mechanical disengaging gear control lever does not provide a satisfactory color contrast. Therefore, it is proposed to amend 46 CFR 33.25–5 (tank vessels), 78.47–60 (passenger vessels), 97.37–37 (cargo and miscellaneous vessels), 160.035–2 (lifeboat specification), and 167.37–25 (nautical school ships), when a mechanical disengaging apparatus is installed in a lifeboat, that a small area of the lifeboat interior, in way of the red mechanical disengaging gear control lever, shall be painted or otherwise colored white in lieu of the international orange, so as to provide a contrasting background for the red control handle. In addition, it is proposed to amend 46 CFR 33.25–5 (tank vessels) and 167.35–25 (nautical school ships), to require that an appropriate danger sign be on the control handles for mechanical disengaging apparatus when used. These proposals will be applicable to both existing lifeboat installations using mechanical disengaging apparatus and new installations, and when adopted will be in effect on and after 90 days after these regulations are published in the FEDERAL REGISTER.

60. The authority to prescribe regulations regarding lifeboats is in R.S. 4405, as amended, 4462, as amended; 46 U.S.C. 375, 416. These regulations also interpret or apply R.S. 4417a, as amended, 4426, as amended, 4488, as amended, 4491, as amended, secs. 1, 2, 49 Stat. 1544, 1545, as amended, sec. 3, 54 Stat. 347, as amended, sec. 3, 68 Stat. 675; 46 U.S.C. 391a, 404, 481, 489, 367, 1333, 50 U.S.C. 198; E.O. 10402, 17 F.R. 9917, 3 CFR, 1952 Supp.

DISTRESS SIGNALS ON PASSENGER VESSELS UNDER 100 GROSS TONS

61. Passenger vessels not exceeding 65 feet in length, operating in coastwise service, are required to provide 6 hand-held red flare distress and 6 hand-held orange smoke distress signals or 12 hand combination flare and smoke distress signals (46 CFR 180.35–5). Those passenger vessels over 65 feet in length and under 100 gross tons, operating in coastwise service, are required to provide 12 hand-held, rocket-propelled, parachute red flare distress signals (46 CFR 75.90–5). This proposal will amend 46 CFR 75.90–5 to permit the use of the same pyrotechnic signals on passenger vessels over 65 feet in length and under 100 gross tons, operating in coastwise service, as permitted on passenger vessels not exceeding 65 feet in length and subject to 46 CFR 180.35–5. At present these vessels have a temporary authorization permitting this substitution. While this proposal is a relaxation so far as expense is concerned, it is not considered a relaxation in safety standards. The hand-held red flare distress and hand-held orange smoke distress signals are considered sufficient and satisfactory for these passenger vessels when operating in the coastwise service.

62. The authority to prescribe regulations for distress signals on passenger vessels under 100 gross tons and over 65 feet in length is in R.S. 4405, as amended, 4462, as amended, 4488, as amended; 46 U.S.C. 375, 416, 481. These regulations also interpret or apply R.S. 4426, as amended, 4491, as amended, sec. 3, 54

Stat. 347, as amended, sec. 3, 68 Stat. 675; 46 U.S.C. 404, 489, 1333, 50 U.S.C. 198; E.O. 10402, 17 F.R. 9917, 3 CFR, 1952 Supp.

SPECIFICATION FOR UNICELLULAR PLASTIC RING LIFE BUOY

63. It is proposed to revise the specification subpart 46 CFR 160.050 for the unicellular plastic ring life buoy in its entirety and to bring it up to date. The proposed amendments to 46 CFR 160.050–1 to 160.050–5, inclusive, will delete the use of nonsynthetic rigging materials (due to poor performance in the field) and permit the substitution of synthetic materials for rigging, will amplify the existing regulations as to production sampling and testing procedures, and will make editorial or other minor changes to bring the specification requirements up to date.

64. The authority to prescribe regulations regarding life buoys is in R.S. 4405, as amended, 4462, as amended, 4488, as amended; 46 U.S.C. 375, 416, 481. These regulations also interpret or apply R.S. 4417a, as amended, 4426, as amended, 4491, as amended, secs. 1, 2, 49 Stat. 1544, 1545, as amended, secs. 6, 17, 54 Stat. 164, as amended, 166, as amended, sec. 3, 54 Stat. 347, as amended, sec. 3, 70 Stat. 152, sec. 3, 68 Stat. 675; 46 U.S.C. 391a, 404, 489, 367, 526e, 526p, 1333, 390b, 50 U.S.C. 198; E.O. 10402, 17 F.R. 9917, 3 CFR, 1952 Supp.

SPECIFICATIONS FOR DISTRESS SIGNALS

65. With respect to the distress signal specifications which manufacturers of such approved equipment must follow, it is proposed to require the manufacturers of such signals to pay the costs of preapproval testing of distress signals. To accomplish this it is proposed to amend 46 CFR 160.021–7, 160.022–6, 160.023–7, 160.024–7, 160.036–7, and 160.037–7, which describe procedures for approval, to include a requirement for the manufacturer to pay the costs of preapproval testing distress signals submitted. It has been found that certain signal pistols and cartridges containing parachute red flare distress signals have not operated satisfactorily when the pistols and cartridges were manufactured by different companies. If replacement cartridges containing parachute red flare distress signals must be from the manufacturer of the signal pistol carried on board the vessel in order to assure satisfactory operation of such signal equipment, it is felt that this condition defeats the purpose for requiring such equipment and places an undue burden on the vessel operators and inspectors to have to check for such details. On reviewing the specification requirements for such equipment it was found that existing regulations do not provide construction limits which will assure interchangeability of pistols and cartridges. Therefore, it is proposed to amend 46 CFR 160.024–3 and 160.028–3 by appropriately defining construction limits. With respect to the equipment for the shoulder gun-type line-throwing appliance, it is proposed to amend the specification requirements in 46 CFR 160.031–4 to require that the service lines shall be of woven or braided nylon in lieu of linen or cotton, and each line shall be 600 feet long with a breaking strength of not less than 140 pounds.

66. The authority to prescribe regulations regarding distress signals is in R.S. 4405, as amended, 4462, as amended, 4488, as amended; 46 U.S.C. 375, 416, 481. These regulations also interpret or apply R.S. 4417a, as amended, 4426, as amended, 4491, as amended, secs. 1, 2, 49 Stat. 1544, 1545, as amended, sec. 3, 54 Stat. 347, as amended, sec. 3, 70 Stat. 152, sec. 3, 68 Stat. 675; 46 U.S.C. 391a, 404, 489, 367, 1333, 390b, 50 U.S.C. 198; E.O. 10402, 17 F.R. 9917, 3 CFR, 1952 Supp.

FIRE PROTECTION EQUIPMENT

67. It is proposed to add requirements to 46 CFR 25.30–10 (uninspected vessels), 75.50–10 (passenger vessels), 95.50–10 (cargo and miscellaneous vessels), and 181.30–10 (small passenger vessels) making it mandatory that nonfreezing type extinguishers be used in locations where freezing temperatures are expected. It is proposed to amend 46 CFR 76.15–5 (passenger vessels), 95.15–5 (cargo and miscellaneous vessels), and 181.20–20 (small passenger vessels) to increase the maximum quantity of carbon dioxide required from "200 pounds" to "225 pounds" where the system has a minimum nominal pipe size of 3¼ inch. This proposal regarding carbon dioxide will bring Coast Guard requirements into agreement with the recommendations of the National Fire Protection Association as set forth in their pamphlet No. 12.

68. The authority to prescribe regulations regarding fire protection equipment is in R.S. 4405, as amended, 4462, as amended, 4488, as amended; 46 U.S.C. 375, 416, 481. These regulations also interpret or apply R.S. 4426, as amended, 4491, as amended, secs. 1, 2, 49 Stat. 1544, 1545, as amended, sec. 17, 54 Stat. 166, as amended, sec. 3, 54 Stat. 347 as amended, sec. 3, 70 Stat. 152, sec. 3, 68 Stat. 675; 46 U.S.C. 404, 489, 367, 526p, 1333, 390b, 50 U.S.C. 198; E.O. 10402, 17 F.R. 9917, 3 CFR, 1952 Supp.

PORTABLE FIRE EXTINGUISHERS

69. It is proposed to revise the regulations governing portable fire extinguishers to clarify and bring up to date the requirements for their inspection, marking, materials, and design features. The proposals also provide for new models of extinguishers found to be satisfactory for marine use.

70. For extinguishers which utilize a disposable nonrefillable container to store both the extinguishing agent and expellant pressure and not fitted with a pressure gage, the proposals include requirements regarding markings, maintenance, descriptions of checks which may be used to determine if the extinguishers needs to be reweighed or if disposable container needs to be replaced, and inspections. For such extinguishers it is proposed to also require the manufacturers to state where their reweighing to the manufacturer's standards once in each six months can be done. To accomplish this it is proposed to amend 46 CFR 71.25–20 (passenger vessels), 91.25–20 (cargo and miscellaneous vessels), and 176.25–25 (small passenger vessels) to provide inspection procedures for portable extinguishers of the dry chemical disposable container type and not fitted with a pressure gage. The amendments proposed to 46 CFR 162.028–3 (material specifications for extinguishers) will require the additional information and instruction markings required on stored pressure chemical extinguishers having disposable nonrefillable containers without pressure gages, as well as the nameplate markings required on replacement containers.

71. It is proposed to discontinue the permissibility of thinly applied platings of corrosion-resistant materials, such as cadmium, nickel, or chrome, for the protection of exposed ferrous parts of extinguishers by deleting this permission from 46 CFR 160.028–3 (material specifications for portable fire extinguishers). This proposal is based on 1 year exposure tests which showed that such thinly applied coatings do not provide suitable protection from corrosion.

72. It is proposed to cancel and remove from 46 CFR 162.028–3 the requirement that carbon dioxide-type extinguishers have a list of authorized recharge agents attached. This proposal is made because such lists are no longer considered to be necessary. Suitable recharging services for carbon dioxide extinguishers are now widely available, and may be easily located by consulting the yellow pages of a telephone directory of a large town or city.

73. It is proposed to cancel and remove from 46 CFR 162.028–3 the requirement that foam type extinguishers be fitted with a safety relief device. This proposal is based on the fact that currently the foam recharges available on the commercial market are sufficiently standardized so that excessive pressures will not occur if the wrong recharge should be placed and used in a foam-type extinguisher. This requirement for a safety relief device was originally based on the problem that there were rather wide differences in foam extinguisher design and construction which resulted in wide differences in the formulation and composition of the charges used.

74. The authority to prescribe regulations regarding portable fire extinguishers is in R.S. 4405, as amended, 4462, as amended, 4488, as amended; 46 U.S.C. 375, 416, 481. These regulations also interpret or apply R.S. 4417a, as amended, 4426, as amended, 4491, as amended, secs. 1, 2, 49 Stat. 1544, 1545, as amended, secs. 8, 17, 54 Stat. 165, as amended, 166, as amended, sec. 3, 54 Stat. 347, as amended, sec. 3, 70 Stat. 152, sec. 3, 68 Stat. 675; 46 U.S.C. 391a, 404, 489, 367, 526g, 526p, 390b, 50 U.S.C. 198; E.O. 10402, 17 F.R. 9917, 3 CFR, 1952 Supp.

ITEM V—TANK VESSELS

VENTING OF COFFERDAMS

75. It is proposed to clarify 46 CFR 32.55–45 by specifically providing that voids adjacent to cargo tanks shall be fitted with vents. This section is a source of controversy between the Coast Guard and the tank barge design agents. The designers contend that rake compartments and voids are not cofferdams, neither as defined by 46 CFR 30.10–13, nor in nautical dictionaries. Under their interpretation, flame screens are not required on rake or void vents. The Coast Guard follows the policy that while rake compartments and voids are not literally defined as cofferdams, they serve the same purpose and for all practical application are cofferdams and their vents will require flame screens. While this proposal appears to be retroactive in effect, it is felt that in fact it will not be because it expresses in words the present practice followed by the Coast Guard.

FIRE RETARDANT CONSTRUCTION

76. It is proposed to clarify the intent of the present regulations and to set forth a minimum standard of structural fire protection for new tank vessels in new regulations designated 46 CFR 32.57–1 to 32.57–10, inclusive, and by amendments to 46 CFR 32.60–1 and 32.60–25. For the greater part, these requirements are in general agreement with present practice, being an amplification of the information contained in Navigation and Vessel Inspection Circular No. 9–56. In addition, as one of the most important features of fire control is the elimination of drafts and flue effects, it is proposed to require means for closing off stairway openings. The regulations are to be further amended to prohibit the use of nitrocellulose-type motion picture film by a new proposal designated 46 CFR 35.30–40. Inasmuch as many of these proposals are also in general agreement with the 1960 Safety of Life at Sea Convention, little additional modification to these regulations will be required when the convention is ratified.

PUMP ROOM VENTILATION

77. The Committee on Tank Vessels of the American Petroleum Institute recommended a proposal regarding pump room ventilation. This proposal designated 46 CFR 32.60–20 revises minimum requirements for pump room ventilation on tank vessels, the construction or conversion of which is started on or after January 1, 1963. This proposal is the result of a lengthy study by an API Tanker Committee Group on Pump Room Ventilation. Certain other changes in 46 CFR 32.60–20 are proposed and they are primarily editorial in order to incorporate the proposal into the regulations.

EMERGENCY LIGHTING AND POWER SYSTEMS

78. The proposed changes designated 46 CFR 35.07–10(b)(8) and 35.10–15 will add new requirements pertaining to the testing of emergency lighting and power systems. This proposal will impose an additional operating requirement on the marine industry. The actual operation of the emergency installation and the recording of the facts pertaining to such operation will be required. Tank vessels are now required to have emergency lighting and power systems, but there are no requirements for testing of these systems. Periodic operation and inspection of machinery and equipment that is usually idle is considered to be good engineering practice. The master will be responsible for the operating and inspection of the emergency system and will be responsible for the logging of the facts pertaining to the test. This test and inspection may be done by the ship's crew or by shore personnel. In Chapter II, Reg. 26(a)(v) and 26(b)(iii), 1960 Safety of Life at Sea Convention, it is required that provision be made for the periodic testing of the complete emergency installation.

FREEBOARD FOR TANKERS ABOVE 600 FEET IN LENGTH

79. It is proposed to amend 46 CFR 43.30–70 (load lines) to revise the basic minimum freeboard for tank vessels above 600 feet in length to permit the maximum drafts consistent with the Load Line Convention obligations and with safety requirements. Rule CVI of Annex I to the International Load Line Convention, 1930, gives the basic freeboards for tankers up to and including 600 feet in length and provides that "* * * ships above 600 feet are to be dealt with by the Administration." It thus leaves to each contracting government discretion to adopt a consistent and suitable extension of values for vessels above 600 feet in length. The lesser freeboards now proposed are considered to be substantiated by recent experience with large tankers, as well as by the wartime experience with ordinary size tankers operating at freeboard less than those permitted by Rule CVI. While they do not represent as great a reduction as that advocated by the U.S. Committee on Load Lines, they are considered to represent the maximum reductions in freeboard which are possible prior to modification of the present Load Line Convention. These proposed freeboards fair between the present value for a length of 600 feet to a curve agreed upon by the classification societies, at their 1959 meeting, at a length of about 800 feet, and are thence upwards in agreement with the values recommended by the classification societies. They are essentially in agreement with revised values which have already been adopted by the Japanese Ministry of Transportation, and possibly, by other foreign governments.

The authority for prescribing regulations governing tank vessels is in R.S. 4405, as amended, 4417a, as amended, and 4462, as amended; 46 U.S.C. 375, 391a, 416. These regulations also interpret or apply sec. 3, 68 Stat. 675; 50 U.S.C. 198; and E.O. 10402, 17 F.R. 9917, 3 CFR, 1952 Supp. The authority for prescribing regulations governing load line regulations for tank vessels is in sec. 2, 45 Stat. 1493, as amended, and sec. 2, 49 Stat. 888, as amended; 46 U.S.C. 85a, 88a.

ITEM VI—MARINE ENGINEERING

MATERIALS—MAXIMUM ALLOWABLE STRESSES, UNFIRED PRESSURE VESSELS, VALVES, FITTINGS, WELDING, AND STRESS RELIEVING

81. It is proposed to amend or add requirements to 46 CFR 51.01–10, 51.01–30, 51.04–1, 51.13–1, 51.22–1, 51.23–1, 51.24–1, 51.25–1, 51.34–1, 51.46–1, 51.49–1, 51.58–1 and 51.90–1, together with associated changes amending 46 CFR 52.05–10, 54.03–1, 55.07–10, 55.07–15, 56.01–70, and 56.05–5, so that Marine Engineering Regulations will be in substantial agreement with the latest editions of the American Society of Mechanical Engineers' (ASME) Boiler and Unfired Pressure Codes for ferrous materials and plastic pipe, and the American Society of Testing Materials' (ASTM) material standards. The proposed revisions to 46 CFR Part 1 (materials), and the associated changes to 46 CFR Parts 52 (construction), 54 (unfired pressure vessels), 55 (piping systems and appurtenances), and 56 (arc welding, gas welding, and brazing), which make reference to material requirements, include the currently accepted material specifications approved by ASTM and ASME. These specifications have been added to permit wider usage of these approved standards for merchant marine application in the fabrication of boilers, unfired pressure vessels and piping. New material standards include plate, forgings, castings, and pipe of carbon and alloy steel grades and of corrosion resistant properties, as well as materials for low temperature application. Additional allowable stresses meeting ASME Code requirements have been incorporated in 46 CFR Part 52 (construction) to cover the new material. In general, these proposals are considered to be relaxations as they permit the marine industry to use a greater variety of acceptable industrial material standards for merchant ships.

82. It is proposed to amend 46 CFR 52.05–15 (seamless pipe shells) in order to remove the limitation on unfired pressure vessels for seamless shells. The proposal amending 46 CFR 52.20–15 (detail requirements for dished heads) will make allowances in the design of hemispherical heads for their greater strength, when compared to dished heads of other forms. The proposed amendment to 46 CFR 55.07–1 (material) will permit the use of cast iron in liquid and gas services for use at 150 pounds as desired by industry. This constitutes a relaxation and is permitted in ASA B16. 1–60 noted in 46 CFR 55.07–15(e). It is also proposed to revise 46 CFR 55.–07–1 in order to provide for the preservation of watertight integrity of subdivision bulkheads when using plastic pipe. The proposed change to 46 CFR 55.07–10 (valves and fittings) will make these requirements applicable to butterfly and/or wafer type valves by providing a minimum design pressure leak tightness criteria. It is proposed to revise 46 CFR 55.10–25 (bilge and ballast piping) so that these requirements will be more reasonable and practical for vessels

above but near 65 feet in length and not over 150 gross tons in size. It is proposed to amend 46 CFR 55.10–30 (bilge pumps) so that the bilge pump capacity requirements for dry cargo and tank vessels less than 65 feet in length will be less severe than required under present regulations but equal to that now required for small passenger vessels operating over the same routes. It is proposed to amend 46 CFR 61.20–25 (boilers of foreign-built vessels) to clarify requirements by stating that Coast Guard approved safety valves will be required on boilers of foreign-built vessels when admitted to American registry. These valves are to be approved in accordance with 46 CFR Subpart 162.001 of Subchapter Q (Specifications).

USE OF FLEXIBLE HOSE

83. It is proposed to amend 46 CFR 55.07–1 (materials) and 55.17–25 (hydraulic hose and fittings) to carry out proposals recommended by industry. The proposed revisions to Part 55 (piping systems and appurtenances) will permit the use of flexible hose in cooling water systems to machinery fitted with duplicate piping systems, and will permit flexible hose to penetrate watertight bulkheads provided a metallic spool piece and remotely controlled valve are fitted at the bulkhead. Also, these proposed revisions would permit short lengths of flexible hose to be installed in fuel and lubricating lines at or near all machinery units where flexibility is required. In certain circumstances it will permit the use of larger lengths of flexible hose where required for proper operation of the system.

VENT OPENING CLOSURES

84. It is proposed to amend 46 CFR 55.10–60, 43.10–80, and 45.10–77 regarding vent closures. This proposal will clarify the phrase regarding "satisfactory means" to be provided for vent closures in both the Marine Engineering Regulations and the Load Line Regulations. This term "satisfactory means" as used in these regulations has been interpreted to require both a ball check valve and a cover. The intent of the regulation is to require only one device which will assure effective closure. The proposals to revise 46 CFR 55.10–60 in the Marine Engineering Regulations and 46 CFR 43.10–80 and 45.10–77 in the Load Line Regulations will bring into substantial agreement requirements regarding vent opening closures.

UNFIRED PRESSURE VESSELS; SHOP INSPECTIONS AND INSPECTIONS ON VESSELS

85. It is proposed to amend 46 CFR 54.01–1 and 61.25–20 to change the scope of application of Marine Engineering Regulations so as to include inspection of unfired pressure vessels when the Coast Guard conducts annual or biennial inspections. The unfired pressure vessels will be still exempt from shop inspections.

BOILER MOUNTINGS AND ATTACHMENTS

86. It is proposed to amend 46 CFR 61.20–20, regarding boiler mountings and attachments, to permit the Officer in Charge, Marine Inspection, to dispose with the required periodic removal of boiler mountings in those cases wherein a satisfactory examination of the mountings and their means of attachment can be made without removal. The wording of the present regulation requires that all boiler mountings be removed from the boiler after each 8 years of service for examination of the studs or bolts connecting them to the boiler and to permit examination of those parts of the valves, boiler mountings, and attachments which are not susceptible to examination by simply opening up the valves. There is no provision for any latitude on the part of the Officer in Charge, Marine Inspection, in those cases where periodic removal of boiler mountings may be unnecessary. In the case of older type boilers (scotch, fire tube, etc.) where boiler mountings are attached either directly to the boiler plates by studs and nuts, or bolts which are screwed directly into the boiler plate or into a reinforced pad attached directly to the boiler, the periodic removal of boiler mountings is considered essential. However, in the case of the more modern boilers, mountings are usually bolted to flanged nozzles which are welded directly to the boiler plates or headers. Where this method of attachment is used, the bolts or studs can usually be satisfactorily examined without removing the mountings from the boiler and an effective internal examination can usually be made by simply opening up the mountings.

87. The regulations with respect to marine engineering and material specifications are issued under R.S. 4405, as amended, and 4462, as amended; 46 U.S.C. 375, 416. These regulations also interpret or apply R.S. 4399, as amended, 4400, as amended, 4417, 4417a, as amended, 4418, as amended, 4421, as amended, 4426–4431, as amended, 4433, as amended, 4434, as amended, 4453, as amended, 4472, as amended, 4488, as amended, 4491, as amended, sec. 14, 29 Stat. 690, as amended, 41 Stat. 305, as amended, secs. 1, 2, 49 Stat. 1544, 1545, as amended, sec. 17, 54 Stat. 1544, as amended, sec. 3, 54 Stat. 347, as amended, sec. 3, 68 Stat. 675; 46 U.S.C. 361, 362, 391, 391a, 392, 404–409, 411, 412, 435, 170, 481, 489, 366, 363, 367, 526p, 1333, 50 U.S.C. 198; E.O. 10402, 17 F.R. 9917, 3 CFR, 1952 Supp. The authority to prescribe load line regulations is in sec. 2, 45 Stat. 1493, as amended, and sec. 2, 49 Stat. 888, as amended; 46 U.S.C. 85a, 88a.

ITEM VII—ELECTRICAL ENGINEERING

88. The proposed changes to 46 CFR 110.10–1, 111.50–20, 111.60–10, and 111.65–45 are intended to bring these requirements up to date and into agreement with reference standards. In general, the proposed changes do not impose additional requirements on industry. In some cases the proposed changes will permit wider latitude by reducing the requirements governing particular installations.

89. The regulations with respect to electrical engineering are issued under R.S. 4405, as amended, and 4462, as amended; 46 U.S.C. 375, 416. These regulations interpret or apply R.S. 4399, as amended, 4400, as amended, 4417, as amended, 4417a, as amended, 4418, as amended, 4421, as amended, 4426, as amended, 4433, as amended, 4453, as amended, 4488, as amended, 4491, as amended, sec. 14, 29 Stat. 690, as amended, sec. 10, 35 Stat. 428, as amended, 41 Stat. 305, as amended, sec. 5, 49 Stat. 1384, as amended, secs. 1 and 2, 49 Stat. 1544, 1545, as amended, sec. 3, 54 Stat. 347, as amended, sec. 3, 70 Stat. 152, sec. 3, 68 Stat. 675; 46 U.S.C. 361, 362, 391, 391a, 392, 399, 404, 405, 411, 435, 481, 489, 366, 395, 363, 369, 367, 1333, 390b, 50 U.S.C. 198; E.O. 10402, 17 F.R. 9917; 3 CFR, 1952 Supp.

ITEM VIII—UNINSPECTED VESSELS

MEASURING LENGTH OF MOTORBOATS

90. It is proposed to revise 46 CFR 24.10–17 by adding an interpretive ruling concerning the measurement of the length of motorboats. The present requirements state that the length of a motorboat "shall be measured from end to end over the deck excluding sheer." This regulation is subject to varying and sometimes conflicting interpretations in the case of motorboats of open construction, or which are partially decked over, or have more than one deck. The proposed interpretation will standardize the method of measurement, without regard to decks. It will provide for a straight line measurement from the foremost part of the vessel to the aftermost part of the vessel, measured parallel to the centerline.

PORTABLE FIRE EXTINGUISHERS FOR ALL MOTORBOATS

91. It is proposed to amend 46 CFR 25.30–20 to require fire extinguishers on all motorboats, regardless of type of propulsion or construction. The basic change in the regulations will be to cancel the exemption regarding portable extinguishers for outboard motorboats of less than 26 feet in length, of open construction, and not carrying passengers for hire. If adopted, this means that for the 1962 boating season and in the future, all motorboats (regardless of construction or propulsion) will be required to carry portable fire extinguishers.

92. It is proposed to amend 46 CFR 25.40–1, regarding ventilation of fuel tank compartments, to require ventilation of bilges in outboard motorboats which have fuel tanks or containers in closed compartments in the hull. This proposal will require adequate ventilation of bilges and closed compartments within the hulls in outboard motorboats when fuel tanks and fuel containers are stowed or carried on board. Coast Guard statistical reports on boating accidents for the period from March 1959 to June 1961 show that 42 outboard motorboats experienced "fire or explosion of fuel" type casualties. A study of the individual reports indicates that the introduction of the "portable" tanks, pressure feed, plastic fuel lines, batteries and generators, has materially increased the hazards from fire and explosion in outboard motorboats. These potentially hazardous items were normally not carried in outboard motorboats prior to the introduction and accepted use of the detached fuel tank. Therefore, until recently there was no need for any ventilation requirements for fuel tank compartments in outboard motorboats as fuel tanks were integral with the motors and carried outside the hulls of the vessels.

93. The authority to prescribe regulations regarding uninspected vessels (motorboats) is in R.S. 4405, as amended, 4462, as amended, and secs. 8, 17, 54 Stat. 165, as amended, 166, as amended; 46 U.S.C. 375, 416, 526g, 526p.

ITEM IX—ARTIFICIAL ISLANDS AND FIXED STRUCTURES ON THE OUTER CONTINENTAL SHELF

94. It is proposed to amend 33 CFR 143.05–1, 143.05–5, and 143.05–10 regarding emergency means of escape from artificial islands and fixed structures. These proposals were initiated as a result of the recommendations by the Marine Board of Investigation which investigated an explosion and fire on the "Offshore Platform Timbalier Block 134–01," Gulf of Mexico, July 26, 1959, with loss of life. It was the opinion of the Board as a result of the casualty that present regulations regarding means of escape required clarification. The Board determined that in this casualty there was only one means of escape from the quarters level to the rig floor but that there were two fixed stairways from the rig floor to the surface of the water. Since the terminology of the oil industry describes the platform as the structure on which the drilling rig and equipment are placed, this platform had two means of escape. Therefore, the purpose of this proposal is to amend regulations so that two means of escape are required from each level to the surface of the water. These proposals were considered and endorsed by the National Offshore Operations Panel at its meeting on February 7, 1961, at Washington, D.C.

95. The authority to prescribe regulations regarding artificial islands and fixed structures is in sec. 633, 63 Stat. 545; 14 U.S.C. 633. These regulations interpret or apply sec. 4, 67 Stat. 462; 43 U.S.C. 1333.

Dated: January 12, 1962.

[SEAL] J. A. HIRSHFIELD,
Vice Admiral, U.S. Coast Guard,
Acting Commandant.

GRAIN SORGHUM

Official Grain Standards of the United States; Notice of Proposed Rule Making

Correction

In F.R. Doc. 62–368 appearing at page 409 of the issue for Saturday, January 13, 1962, the table in § 26.553 is corrected by changing the second entry under the Percent column headed "Heat-damaged kernels" to read ".5".

[9 CFR Part 201]

REGULATIONS UNDER PACKERS AND STOCKYARDS ACT

Notice That Amendments to Registration and Bonding Regulations and Related Regulations Are Under Consideration

On September 28, 1961, there was published in the FEDERAL REGISTER (26 F.R. 9136), a notice that consideration was being given as to whether certain regulations under the Packers and Stockyards Act (9 CFR Part 201) should be amended or revised in view of the changes in current marketing conditions and the 1958 amendment to the Act which extended the scope of the Act in certain respects. The notification invited any interested persons who wished to do so to submit proposals with respect to changes in §§ 201.10 to 201.13, inclusive, concerning registrations, and §§ 201.29 to 201.34 inclusive, concerning market agency and dealer bonds (9 CFR 201.10–201.13, 201.29–201.34).

Recommendations which have been received from interested persons, if adopted, may require changes or revisions in regulations other than those specified in the notice of September 28, 1961. Specifically those regulations which may require changes are §§ 201.59, 201.60, 201.61, 201.66, 201.67, 201.68, 201.79, and 201.81, concerning certain trade practices and services of persons subject to the Act (9 CFR 201.59, 201.60, 201.61, 201.66, 201.67, 201.68, 201.79, and 201.81).

Any interested person who wishes to submit proposals and the reasons therefor, or comments with respect to these regulations may do so by filing them with the Director, Packers and Stockyards Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D.C., not later than 30 days after publication hereof in the FEDERAL REGISTER. The time for filing proposals with respect to §§ 201.10–201.13 and 201.29–201.34 is hereby extended for the same period. Copies of the present regulations may be obtained on request from the Director. If it is decided after consideration of all proposals and comments received pursuant to this notice and consideration of all other relevant matters that the regulations should be amended a notice of proposed rule-making will be published in the FEDERAL REGISTER setting forth any specific proposed amendments. At that time all interested persons will have an opportunity to submit their views on such proposed amendments.

Done at Washington, D.C., this 17th day of January 1962.

CLARENCE H. GIRARD,
Director,
Packers and Stockyards Division.

In F.R. Doc. 61–12366, appearing at page 12710 of the issue for Friday, December 29, 1961, the following words should be inserted immediately preceding the signature of James T. Ralph: "Signed at Washington, D.C., December 22, 1961.".

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR Part 541]

EXECUTIVE, ADMINISTRATIVE AND PROFESSIONAL EXEMPTIONS

Notice of Proposed Rule Making

Section 13(a)(1) of the Fair Labor Standards Act of 1938 (29 U.S.C. 213(a)(1)), provides an exemption from the minimum wage and overtime requirements of the Act for any employee employed in a bona fide executive, administrative, or professional capacity. The Administrator of the Wage and Hour and Public Contracts Divisions of the Department of Labor is authorized to define and delimit these terms. The regulations established pursuant to this authority are contained in 29 CFR Part 541. These regulations provide, among other things, that no person shall be considered a bona fide executive if he is paid less than $80 a week on a salary basis ($55 a week if employed in Puerto Rico or the Virgin Islands), and that no person shall be considered a bona fide administrative or professional employee if he is paid less than $95 a week on a salary or fee basis ($70 a week if employed in Puerto Rico or the Virgin Islands). These regulations also contain special provisions for such employees who are paid $125 a week or more. The widespread increases in wage and payroll levels which have taken place since these salary tests were established in February, 1959, indicates that consideration should be given to further changes of these rates.

Accordingly, notice is hereby given of proceedings to be held on Monday, March 26, 1962, at 10 o'clock a.m., in Conference Room B, Departmental Auditorium, Constitution Avenue, between 12th and 14th Streets NW., Washington, D.C., before Hearing Examiner, Clifford P. Grant, at which time interested persons may submit oral data, views, or arguments on the following question: What, if any, changes should be made in 29 CFR 541.1(f), 541.2(e), and 541.3(e) with respect to the level

[1] Formerly Part 913.

of the salaries or fees prerequisite to the exemption from the minimum wage and overtime requirements of the Act for executive, administrative, and professional employees who are engaged in commerce or in the production of goods for commerce? Similar proceedings on this question as it pertains to employees in Puerto Rico and the Virgin Islands will be held beginning April 9, 1962, at 10 o'clock a.m., on the seventh floor of the Condominio San Alberto Building, Santurce, Puerto Rico.

All persons wishing to be heard on the above question shall file with the Administrator of the Wage and Hour and Public Contracts Divisions, United States Department of Labor, 14th Street and Constitution Avenue NW., Washington 25, D.C., not later than February 28, 1962, notice of intention to appear which shall contain the following information:

1. Name and address of the person appearing.

2. If such person is appearing in a representative capacity, the name and address of the persons or organization he is representing.

3. Whether he is appearing in support of a change in the salary or fee levels and, if so, the nature of the change suggested.

4. The approximate length of time he will need for his presentation.

Written data, views, or arguments may be filed at the above address in lieu of personal appearances at any time prior to or at the oral proceedings.

In connection with the question presented above, interested persons are requested to submit prior to or at the oral proceedings the following kinds of data:

1. Salaries or fees currently paid to executive, administrative, and professional employees, including entrance and minimum salaries and fees and ranges of salary and fee rates.

2. Entrance salaries and fees paid to trainees and junior executive, administrative, and professional employees.

3. Wages, salaries and fees of other white collar workers, such as typists, stenographers, secretaries, clerks, accounting clerks, payroll clerks, bookkeepers, and accountants of various grades.

4. Changes in executive, administrative and professional salary and fee levels since 1958 and 1955.

5. Identification of the localities, type of communities, and industries for which data is presented.

The oral proceedings shall be stenographically reported. Transcripts will be made available to interested persons on such terms as the hearing examiner shall prescribe. The hearing examiner shall regulate the proceedings, dispose of procedural requests, objections, and related matters and confine the proceedings to matters pertinent to those hereinabove stated. He shall have discretion to keep the record open after the close of the hearing to permit any person who participated in the oral presentation to submit additional data, views, and arguments responsive to the oral presentations made by other persons. After the record has been closed, the hearing examiner shall certify it to me after which I will make any appropriate changes in 29 CFR Part 541.

Signed at Washington, D.C., this 17th day of January 1962.

CLARENCE T. LUNDQUIST,
Administrator.

[F.R. Doc. 62-698; Filed, Jan. 22, 1962; 8:46 a.m.]

[29 CFR Parts 602, 603, 657]

[Administrative Order No. 560]

REVIEW COMMITTEES FOR VARIOUS INDUSTRIES IN PUERTO RICO

Appointment; Convention; Notice of Hearings

Pursuant to section 5 of the Fair Labor Standards Act of 1938 (29 U.S.C. 205), Reorganization Plan No. 6 of 1950 (3 CFR 1949–53 Comp., p. 1004), and paragraph (C) of proviso (1) of subsection 6(c) of the aforementioned Act, as amended by the Fair Labor Standards Amendments of 1961 (sec. 5(c), 75 Stat. 67), I hereby appoint Review Committee 3–A for the Fabric and Leather Glove Industry in Puerto Rico; Review Committee 3–B for the Leather, Leather Goods, and Related Products Industry in Puerto Rico; and Review Committee 4 for the Tobacco Industry in Puerto Rico to recommend the minimum rate or rates to be paid under paragraph (C) of proviso (1) of subsection 6(c) of the aforementioned Act in lieu of those provided under paragraph (A) of proviso (1) to employees in the designated industries.

The definitions of the industries for which review committees are appointed by this order are set forth below.

The Fabric and Leather Glove Industry in Puerto Rico (29 CFR Part 603) is defined as follows:

The manufacture of dress, semidress, and work gloves and mittens from woven or knit fabric, leather, or fabric or leather in combination with any other material: *Provided, however,* That the industry shall not include the manufacture of knit or crocheted gloves and mittens, sport and athletic gloves and mittens, or rubber gloves and mittens.

The Leather, Leather Goods, and Related Products Industry in Puerto Rico (29 CFR Part 602) is defined as follows:

The curing, tanning, or other processing of hides, skins, leather, or furs, and the manufacture of products therefrom; the manufacture from artificial leather, fabric, plastics, paper or paperboard, or similar materials of trunks, suitcases, brief cases, wallets, billfolds, coin purses, card cases, key cases, cigarette cases, watch straps, pouches, tie cases, toilet kits, checkbook covers, sport and athletic gloves and mittens, belts (except fabric belts), and like articles; and the manufacture of baseballs, softballs, footballs, and basketballs covered with leather, artificial leather, fabric, plastics, or similar materials: *Provided, however,* That the industry shall not include any product or activity included in the button, jewelry, and lapidary work industry in Puerto Rico (29 CFR Part 616), the chemical, petroleum, rubber, and related products industry in Puerto Rico (29 CFR Part 670), the needlework and fabricated textile products industry in Puerto Rico (29 CFR Part 612), the fabric and leather glove industry (29 CFR Part 603), or the shoe and related products industry (29 CFR Part 601).

The Tobacco Industry in Puerto Rico (29 CFR Part 657) is defined as follows:

The processing of leaf tobacco, including, but without limitation, the grading, fermenting, stemming, chopping, packing, storing, drying, and handling of tobacco; and the manufacture of cigarettes, cigars, cheroots, little cigars, snuff, chewing tobacco, and smoking tobacco.

Pursuant to section 8 of the Fair Labor Standards Act of 1938 (29 U.S.C. 208), Reorganization Plan No. 6 of 1950 (3 CFR 1949–53 Comp., p. 1004), and the Fair Labor Standards Amendments of 1961 (sec. 5(c)(3), 75 Stat. 69), I hereby:

(1) Convene each of the above-appointed review committees;

(2) Refer to each of these review committees the question of the minimum rate or rates of wages to be fixed for the industry with which it is concerned;

(3) Give notice of the hearing to be held by each of them at the times and places indicated below. Each review committee shall investigate conditions in its industry, and each review committee, or any authorized subcommittee thereof, shall hear such witness and receive such evidence as may be necessary or appropriate to enable the committee to perform its duties and functions under the aforementioned Act. Each review committee shall recommend to the Administrator the highest minimum wage rates which it determines, having due regard to economic and competitive conditions, will not substantially curtail employment in its industry, and will not give any industry in Puerto Rico a competitive advantage over any industry in the United States outside of Puerto Rico, the Virgin Islands, and American Samoa.

Review Committee 3–A shall meet in executive session to commence its investigation at 10:00 a.m. on March 5, 1962, in the office of the Wage and Hour and Public Contracts Divisions, United States Department of Labor, seventh floor, Condominio San Alberto Building, 1200 Ponce de Leon Avenue, Santurce, Puerto Rico, and shall commence its hearing at 2:00 p.m., on the same date at the same place. Following the hearing of Review Committee 3–A, Review Committee 3–B shall meet at the aforementioned office of the Wage and Hour and Public Contracts Divisions at an hour designated by its chairman to conduct its investigation and hold its hearing. Review Committee 4 shall meet in executive session to commence its investigation at 10:00 a.m., on March 21, 1962, in the aforementioned office of the Wage and Hour and Public Contracts Divisions, and shall commence its hearing at 2:00 on the same date at the same place.

Whenever any review committee finds that a higher minimum wage may be determined for employees engaged in certain activities or in the manufacture of certain products in an industry than may be determined for other employees in that industry, the committee shall recommend such reasonable classifications within that industry as it determines to be necessary for the purpose of fixing for each classification the highest minimum wage rate that can be determined for it under the principles set forth herein which will not give a competitive advantage to any group in the industry. No classification shall be made, however, and no minimum wage rate shall be fixed solely on a regional basis or on the basis of age or sex. In determining whether there should be classifications within an industry, in making such classifications, and in determining the minimum wage rates for such classifications, each review committee shall consider, among other relevant factors, the following: (1) Competitive conditions as affected by transportation, living, and production costs; (2) wages established for work of like or comparable character by collective labor agreements negotiated between employers and employees by representatives of their own choosing; and (3) wages paid for work of like or comparable character by employers who voluntarily maintain minimum wage standards in the industry.

The Administrator shall prepare an economic report containing such data as he is able to assemble pertinent to the matters referred to the committees. Copies of the report may be obtained at the National and Puerto Rican Offices of the United States Department of Labor as soon as they are completed and prior to the hearing. Each committee will take official notice of the facts stated in the economic report to the extent they are not refuted by evidence received at the hearing.

The procedure of each review committee shall be governed by Part 512 of Title 29, Code of Federal Regulations (26 F.R. 4636, 5421).

As a prerequisite to participation in the hearings of Review Committees 3–A and 3–B, interested persons shall file prehearing statements containing the data specified in 29 CFR 512.11, 511.8 (26 F.R. 4636, 6513) not later than February 23, 1962, and as a prerequisite to participation in the hearing of Review Committee 4, interested persons shall file such prehearing statements not later than March 12, 1962.

Signed at Washington, D.C., this 17th day of January 1962.

ARTHUR J. GOLDBERG,
Secretary of Labor

[F.R. Doc. 62-734; Filed, Jan. 22, 1962; 8:50 a.m.]

FEDERAL AVIATION AGENCY

[14 CFR Part 602]

[Airspace Docket No. 61-WA-191]

JET ADVISORY AREAS

Proposed Alteration of Jet Routes and Jet Advisory Area

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering amendments to §§ 602.100 and 602.200 of the regulations of the Administrator, the substance of which is stated below.

Jet Route No. 6 extends in part from Prescott, Ariz., to Albuquerque, N. Mex., via Grants, N. Mex. Jet Route No. 78 extends in part from Prescott to Albuquerque. The FAA has under consideration the alteration of J–6 by designating the route direct from the Prescott VORTAC to the Albuquerque VORTAC, thus eliminating the Grants VOR from the description of J–6. This alteration of J–6 would then coincide with J–78 between Prescott and Albuquerque.

Jet Route No. 24 extends in part from Gila Bend, Ariz., to Las Vegas, N. Mex., via Phoenix, Ariz., Grants, N. Mex., and Albuquerque. Radar jet advisory area is presently designated within 16 miles either side of J–24 from flight level 240 to flight level 390 from Phoenix to Albuquerque and from Indianapolis, Ind., to Charleston, W. Va. The Agency has under consideration the alteration of the segment of J–24 between Grants and Las Vegas by designating this route direct from the Grants VOR to the Las Vegas VORTAC. This would eliminate the Albuquerque VORTAC from the description of J–24 and provide a bypass route north of the Albuquerque terminal area. In addition, the Agency has under consideration the designation of radar jet advisory area from the Gila Bend VORTAC to the Phoenix VORTAC and from the Grants VOR to the Indianapolis VORTAC 16 miles either side of J–24 from flight level 240 to flight level 390. The radar jet advisory area proposed herein would provide a defined area along J–24 wherein jet advisory service would be provided to civil turbojet aircraft.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Chief, Airspace Utilization Division. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C–226, 1711 New York Avenue NW., Washington 25, D.C.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on January 16, 1962.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

[F.R. Doc. 62-684; Filed, Jan. 22, 1962; 8:45 a.m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 14495 (RM-295); FCC 62-92]

TELEVISION BROADCAST STATIONS (ELMIRA, NEW YORK)

Table of Assignments; Notice of Proposed Rule Making

1. Notice is hereby given of rule making in the above-entitled matter.

2. The Commission has before it a petition for rule making, filed November 16, 1961, by the National Educational Television and Radio Center (NET), proposing that television Channel 30, now assigned to Elmira, New York, be reassigned to Elmira and Corning, New York, jointly for non-commercial educational use. The proposal would amend the television Table of Assignments as follows:

City	Channel No.	
	Present	Proposed
Elmira, N.Y.	18+, 24–, 30	18+, 24–, *30
Corning-Elmira, N.Y.		

3. Station WSYE–TV operates on Channel 18 at Elmira, a city with a 1960 population of 46,517 in southcentral New York. There are no outstanding authorizations for the other Elmira television channel assignments, and no applications are on file for their use. In the outstanding Binghamton, New York, deintermixture proceeding in Docket No. 14243, the Commission is considering a proposal to make Binghamton all UHF and to make an additional UHF assignment available to Binghamton by shifting Channel 24 from Elmira to Binghamton. A replacement for Channel 24 at Elmira was not proposed, for, unless an active interest is manifested, we find it desirable in the public interest to defer action on making available substitute UHF channels until decisions are reached in Docket No. 14229 concerning the future methods of assigning stations on UHF channels.

4. Corning, with a 1960 population of 17,085, is situated less than 15 miles to the west of Elmira. Although it has been assigned no television channels in the Table of Assignments, Elmira's channel assignments are also available, upon application, for use at Corning pursuant to § 3.607(b) of the rules.

5. NET's subject proposal would provide the Corning-Elmira area with its first non-commercial educational assignment. It appears from NET's petition that the proposal also holds promise of bringing a needed and valuable first educational television service to the area in the near future. NET states that, upon its adoption, a non-profit educational organization will be formed to own and operate an educational station on Channel 30 and to take immediate and effective steps toward the realization of that objective. It claims that there is a strong desire in the Corning-Elmira area for an educational television station to serve in-school and community educa-

tional and cultural needs; that the Corning City School District plans to take an active role in the development of educational television in the area; and that the plans for a UHF educational television station are supported by other local educational and civic organizations, including public and private schools, colleges, administrators, and teachers. It also notes that the New York State Education Department is desirous of having a regional educational television station in the area.

6. We are of the view that rule making should be instituted on NET's proposal, and interested parties are invited to submit their views and relevant data.

7. Authority for the adoption of the amendments proposed herein is contained in sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended.

8. Pursuant to applicable procedures set out in § 1.213 of the Commission's rules, interested persons may file comments on or before February 19, 1962, and reply comments on or before March 5, 1962. In reaching its decision herein, the Commission will not be limited to consideration of comments of record, but will take into account all relevant information obtained in any manner from informed sources.

9. In accordance with the provisions of § 1.54 of the rules, an original and 14 copies of all written comments and statements shall be furnished to the Commission.

Adopted: January 17, 1962.

Released: January 18, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 62-741; Filed, Jan. 22, 1962; 8:51 a.m.]

FEDERAL TRADE COMMISSION

[16 CFR Part 62]

[File No. 21-543]

TRADE PRACTICE RULES FOR USED AUTOMOTIVE PARTS INDUSTRY

Notice of Hearing and of Opportunity To Present Views, Suggestions or Objections

Opportunity is hereby extended by the Federal Trade Commission to any and all persons, firms, corporations, organizations and other parties, affected by or having an interest in the proposed trade practice rules for the Used Automotive Parts Industry to present to the Commission their views concerning said rules, including such pertinent information, suggestions, or objections as they may desire to submit, and to be heard in the premises.

For this purpose copies of the proposed rules may be obtained upon request to the Commission. Such views, information, suggestions, or objections may be submitted by letter, memorandum, brief, or other communication, to be filed with the Commission not later than February 9, 1962. Opportunity to be heard orally will be afforded at the hearing beginning at 10:30 a.m., c.s.t., on Friday, February 9, 1962, in the Old Chicago Room, Sherman Hotel, North Clark and West Randolph Streets, Chicago, Illinois, to any such persons, firms, corporations, organizations, or other parties, who desire to appear and be heard. After due consideration of all matters presented in writing or orally, the Commission will proceed to final action on the proposed rules.

The industry is composed of the persons, firms, corporations and organizations engaged in the sale or distribution of automotive parts which have been used, or which contain used parts. The term "automotive parts" as herein used means any part designed for an automobile, truck, motorcycle, tractor or similar self-propelled vehicle, including, but not limited to, armatures, generators, starters, carburetors, clutches, distributors, connecting rods, crankshafts, cylinder blocks, engine assemblies, fuel pumps, brakes, master and wheel brake cylinders, power brakes, shock absorbers, starter drives, solenoids, automatic transmissions, regulators, spark plugs, springs, windshield wiper motors and water pumps. Automobile tires are not products of the industry.

The proceedings are directed to the elimination and prevention of certain acts and practices deemed violative of statutes administered by the Federal Trade Commission.

Issued: January 22, 1962.

By the Commission.

[SEAL] JOSEPH W. SHEA,
Secretary.

DEPARTMENT OF THE TREASURY

Office of the Secretary

[AA 643.3-C]

PORTLAND CEMENT FROM THE DOMINICAN REPUBLIC

Determination of Sales at Less Than Fair Value

JANUARY 8, 1962.

A complaint was received that portland cement, other than white, nonstaining portland cement, from the Dominican Republic was being sold in the United States at less than fair value within the meaning of the Antidumping Act of 1921.

I hereby determine that portland cement, other than white, nonstaining portland cement, from the Dominican Republic is being, or is likely to be, sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)).

The United States Tariff Commission is being advised of this determination.

Statement of reasons. Sufficient volume was sold for home consumption in the Dominican Republic to make home market price the basis of fair value comparison with purchase price. No relationship other than buyer-seller existed between the United States purchaser and the seller.

The purchase price for cement in bulk, sold to importers in New York City and in Puerto Rico, was the net sales price, f.o.b. factory pier; no deductions or additions were required to find purchase price. Calculation of purchase price for cement in bags, sold only in Puerto Rico, involved deductions for trucking, storage on pier, and selling commission.

Calculation of home market price involved deductions for a cash discount, commission, loading costs, and the assumption of customers' advertising costs by the seller.

Purchase price was found, in all cases, to be lower than home market price, until late July, 1961, at which time the prices in each market were changed. After July 28, 1961, purchase price was found to be not less than home market price.

The sole importer offered evidence that with respect to all shipments made prior to July 28, 1961, it renegotiated the purchase price which it had paid to the seller notwithstanding that these shipments had already been exported to it. The importer also offered evidence that on the basis of the renegotiation it had paid additional sums to the seller with respect to these shipments and that if these sums were considered to be a part of the purchase price, the sales of this merchandise could not be considered as having been made at less than fair value. While no conclusion was reached whether evidence of this type should be considered in determining the existence of sales at less than foreign market value in the event that a determination of dumping is made, it was concluded that under the circumstances of this case evidence of this type should not be considered in determining the existence of likelihood of sales at less than fair value. The importer was informed that this conclusion was without prejudice to its right to offer evidence on these matters to the Tariff Commission in an effort to prove that importations of the subject commodity from the Dominican Republic are not injuring or are not likely to injure an industry in the United States.

This determination and the statement of reasons therefor are published pursuant to section 201(c) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(c)).

[SEAL] JAMES A. REED,
Assistant Secretary of the Treasury.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

IOWA

Designation of Areas for Emergency Loans

For the purpose of making emergency loans pursuant to section 321(a) of Public Law 87-128 (7 U.S.C. 1961) it has been determined that in the following counties in the State of Iowa natural disasters have caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources:

IOWA

Adams.	Jefferson.
Allamakee.	Johnson.
Appanoose.	Jones.
Benton.	Keokuk.
Black Hawk.	Lee.
Bremer.	Linn.
Buchanan.	Louisa.
Cedar.	Lucas
Chickasaw.	Madison.
Clarke.	Mahaska.
Clayton.	Monroe.
Clinton.	Muscatine.
Davis.	Ringgold.
Decatur.	Scott.
Delaware.	Tama.
Des Moines.	Taylor.
Dubuque.	Union.
Fayette.	Van Buren.
Henry.	Wapello.
Howard.	Washington.
Iowa.	Wayne.
Jackson.	Winneshiek.

Pursuant to the authority set forth above, emergency loans will not be made in the above-named counties after June 30, 1962, except to applicants who previously received emergency or special livestock loan assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 17th day of January 1962.

ORVILLE L. FREEMAN,
Secretary.

[F.R. Doc. 62-710; Filed, Jan. 22, 1962; 8:47 a.m.]

TEXAS

Designation of Areas for Emergency Loans

For the purpose of making emergency loans pursuant to section 321(a) of Public Law 87-128 (7 U.S.C. 1961) it has been determined that in the following counties in the State of Texas natural disasters have caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources:

TEXAS

Hunt.	Rockwall.

Pursuant to the authority set forth above, emergency loans will not be made in the above-named counties after June 30, 1962, except to applicants who previously received emergency or special livestock loan assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 17th day of January 1962.

ORVILLE L. FREEMAN,
Secretary.

Rural Electrification Administration

VARIOUS OFFICIALS

Delegations of Authority

Pursuant to the authority delegated by the Secretary of Agriculture to the Administrator, Rural Electrification Administration, by sections 116 and 1500 of the Delegations of Authority and Assignment of Functions dated December 24, 1953, effective January 2, 1954 (19 F.R. 74), as amended made pursuant to Reorganization Plan No. 2 of 1953 and other authorizations, the following delegations of authority have been made:

A. Authority has been delegated to the officials listed below to exercise, in the absence of the Administrator, and in the following order of precedence, any powers of the Administrator:

1. Deputy Administrator.
2. Assistant Administrator—Operations.
3. Assistant Administrator—Electric, designated to direct the electric program.
4. Assistant Administrator—Telephone, designated to direct the telephone program.
5. Such other official as shall be designated by the Administrator.

B. Authority has been delegated to the Deputy Administrator to approve or execute:

1. REA bulletins and staff instructions involving more than one program except those establishing policy.

2. Agreements or contracts covering management or operations services between telephone and electric borrowers.

3. Agreements between REA electric and telephone borrowers for the general joint use of facilities.

4. In addition, independently, all matters and documents as to which authority to approve or execute is conferred upon others in paragraphs C through Z hereof..

C. Authority has been delegated to the Assistant Administrator—Electric, to approve or execute for electric borrowers:

1. REA bulletins and staff instructions for the electric program except those establishing policy.

2. Action concerning disapproval of the selection of a manager or an attorney by a borrower.

3. Electric wholesale, wheeling, and interchange power contracts.

4. Cash sales of property in place or sales of real estate by borrowers involving transactions of more than $50,000 or more than 10 percent of a borrower's total assets, but not in excess of $100,000, and releases of lien and all other documents relating to such sales.

5. Contracts for acquisition by electric borrowers of existing facilities in place.

6. The use and reimbursement of general funds for construction purposes exceeding $50,000 or 10 percent of a borrower's total assets when approval is required.

7. Authorization for advance of loan funds under "conditional agreements" or where waiver of loan contract provisions is involved; the placement and release of "stop orders" on loan funds.

8. Loan budget adjustments of more than 10 percent in the total amount budgeted for any primary loan purpose.

9. In addition, independently, all matters and documents as to which authority to approve or execute is conferred upon others in paragraphs D, H, L, and U hereof.

D. Authority has been delegated to the Deputy Assistant Administrator—Electric, to approve or execute for electric borrowers:

1. Basis date agreements on approved forms providing for modification of existing mortgage notes.

2. Changes in borrowers' corporate status.

3. Action concerning payment of dividends or other cash distribution.

4. In addition, independently, all matters and documents as to which authority to approve or execute is conferred upon others in paragraphs H, L, and U hereof.

E. Authority has been delegated to the Assistant Administrator—Telephone, to approve or execute for telephone borrowers:

1. REA bulletins and staff instructions for the telephone program except those establishing policy.

2. Action concerning disapproval of the selection of a manager or an attorney by a borrower.

3. Cash sales of property in place or sales of real estate by telephone borrowers involving transactions of more than $50,000 or more than 10 percent of a borrower's total assets, but not in excess of $100,000, and releases of lien and all other documents relating to such sales.

4. Contracts for acquisition by telephone borrowers of existing facilities in place.

5. Interim financing proposals subject to subsequent approval of a loan or first advance of funds.

6. Authorization for advance of loan funds under "conditional agreements" or where waiver of loan contract provisions is involved; the placement and release of "stop orders" on loan funds.

7. Engineering fee schedules.

8. Loan budget adjustments of more than 10 percent in the total amount budgeted for any primary loan purpose.

9. The use of general funds for reimbursable items exceeding $50,000 or 10 percent of a borrower's total assets except where such reimbursement is dependent on approval of a subsequent loan.

10. In addition, independently, all matters and documents as to which authority to approve or execute is conferred upon others in paragraphs F, P, and V hereof.

F. Authority has been delegated to the Deputy Assistant Administrator—Telephone, to approve or execute for telephone borrowers:

1. Basis date agreements on approved forms providing for modification of existing mortgage notes.

2. Changes in borrowers' corporate status.

3. First advance of loan funds where waiver of loan contract conditions is not involved.

4. Cash sales and removals of borrower's property in place or sales of real estate involving transactions not exceeding $50,000 or 10 percent of a borrower's total assets, whichever is the lesser, and releases of lien and all other documents relating to such sales.

5. The purchase price of properties to be acquired by telephone borrowers where the purchase price exceeds REA appraisal value.

6. In addition, independently, all matters and documents as to which authority to approve or execute is conferred upon others in paragraphs P and V hereof.

G. Authority has been delegated to the Assistant Administrator—Operations, to approve or execute:

1. REA bulletins and staff instructions, except those establishing policy, concerning activities included in the following divisions: Controller's, Information Services, Personnel Management, and Program Services.

2. In addition, independently, all matters and documents as to which authority to approve or execute is conferred upon others in paragraphs Y and Z hereof.

H. Authority has been delegated to the Area Directors—Electric, to approve or execute for electric distribution borrowers:

1. The award of contracts for construction and purchase of equipment.

2. Agreements for the joint use of electric borrowers' facilities except for general joint use agreements between electric and telephone borrowers.

3. Revisions of retail rate schedules.

4. Loan budget adjustments excluding adjustments of more than 10 percent in the total amount budgeted for any primary loan purpose.

5. Agreements between electric borrowers for operation of a borrower's facilities.

6. Waiver of defects in title and rights-of-way obtained by borrowers.

7. Cash sales of electric borrowers' property in place or sales of real estate involving transactions not exceeding $50,000 or 10 percent of a borrower's total assets, whichever is the lesser; and releases of lien and all other documents relating to such sales.

8. The use or reimbursement of general funds for construction purposes not exceeding $50,000 or 10 percent of a borrower's total assets, whichever is the lesser, when approval is required.

9. Use of non-standard drawings, materials, and equipment.

10. In addition, independently, all matters and documents as to which authority to approve or execute is conferred upon others in paragraphs I, J, and K hereof.

I. Authority has been delegated to Chiefs, Engineering Branches—Electric, to approve or execute for electric distribution borrowers:

1. Right-of-way clearing contracts.

2. The selection by borrower of an engineer or architect and contracts for engineering and architectural services.

3. Contracts for construction and for the purchase of equipment.

4. Final inventory documents and payments to contractors and engineers.

5. Financial Requirement and Expenditure Statements and work order inventories.

6. Plans and specifications and work orders for construction of generation facilities and for headquarters, garage, and warehouse facilities.

7. Technical engineering studies of distribution and transmission facilities requiring REA approval.

8. Borrowers' selection of force account method of construction.

9. Proposals for off-peak load control equipment.

10. In addition, independently, all matters and documents as to which authority to approve or execute is conferred upon others in paragraph J hereof.

J. Authority has been delegated to Field Engineers—Electric, to approve or execute for electric distribution borrowers:

1. Plans and specifications for construction of distribution and transmission facilities and for preliminary design data and plans and profile sheets for transmission facilities.

2. Estimate work orders for construction of distribution and transmission facilities.

3. Engineering approval of large power applications.

4. Final statements of engineering fees.

5. Annual work plans.

6. Certificates of completion for distribution and transmission contract construction.

7. Voltage drop, sectionalizing and power factor studies.

K. Authority has been delegated to Chiefs, Operations Branches—Electric, to approve or execute for electric distribution borrowers:

1. Retail rate contracts between borrowers and others relating to large power installations.

2. Borrowers' cash sales of material and equipment excluding property in place, when approval is required; and releases of lien and all other documents relating to such sales.

3. Insurance and fidelity coverage of borrowers.

4. Special legal fees to be paid by borrowers from loan funds.

5. Borrowers' requests for approval to loan in excess of $2,500 of section 5 loan funds other than to commercial or industrial enterprises.

6. Purchase of real estate by borrowers.

7. Certificates regarding a borrower's incorporation and changes in a borrower's corporate status or name.

8. Affidavits and certificates with respect to the recording and filing of mortgages and deeds of trust, including mortgages to be recorded as financing statements, pursuant to the Uniform Commercial Code.

9. Municipal and county franchise obtained by borrowers from the standpoint of acceptability for REA loans.

10. Selection of Certified Public Accountants by electric distribution borrowers.

L. Authority has been delegated to the Director, Power Supply Division—Electric, to approve or execute for electric power-type borrowers:

1. The award of contracts for construction and for the purchase and installation of generating equipment.

2. Agreements for the joint use of electric borrowers' facilities, except for general joint use agreements between electric and telephone borrowers.

3. Revisions of retail rate schedules.

4. Loan budget adjustments excluding adjustments of more than 10 percent in the total amount budgeted for any primary loan purpose.

5. Agreements between power-type borrowers for operation of a borrower's facilities.

6. Waiver of defects in title and rights-of-way obtained by borrowers.

7. Cash sales of borrowers' property in place or sales of real estate involving transactions not exceeding $50,000 or 10 percent of a borrower's total assets, whichever is the lesser; and releases of lien and all other documents relating to such sales.

8. The use or reimbursement of general funds for construction purposes not exceeding $50,000 or 10 percent of a borrower's total assets, whichever is the lesser, when approval is required.

9. Use of non-standard drawings, materials, and equipment.

10. In addition, independently, all matters and documents as to which authority to approve or execute is conferred upon others in paragraphs M, N, and O hereof.

M. Authority has been delegated to the Chief, Power Plants Branch—Electric, to approve or execute for power-type borrowers:

1. The selection by borrower of an engineer or architect and contracts for engineering and architectural services.

2. Plans and specifications and work orders for construction of generation facilities.

3. Borrowers' selection of force account method of construction.

4. Final statements of engineering fees.

5. Purchase by power-type borrowers of generating plant sites.

6. Contracts for the construction and the purchase and installation of generating facilities.

N. Authority has been delegated to the Chief, Transmission Branch—Electric, to approve or execute for power-type borrowers:

1. Right-of-way clearing contracts.

2. The selection by borrower of an engineer and contracts for engineering services.

3. Technical engineering studies of transmission and distribution facilities requiring REA approval.

4. Borrowers' selection of force account method of construction.

5. Plans and specifications for construction of transmission and distribution facilities and for preliminary design data and plans and profile sheets for transmission facilities.

6. Estimate work orders for construction of transmission and distribution facilities.

7. Engineering approval of large power applications.

8. Final statements of engineering fees.

9. Certificates of completion for transmission and distribution contract construction.

10. Voltage drop, sectionalizing and power factor studies.

11. Contracts for the construction of transmission facilities.

12. Purchase of substation sites by power borrowers.

O. Authority has been delegated to the Chief, Management Branch—Electric, to approve or execute for power-type borrowers:

1. Final inventory documents and payments to contractors and engineers.

2. Financial Requirement and Expenditure Statements and work order inventories.

3. Retail rate contracts between power-type borrowers and others relating to large power installations.

4. Borrowers' cash sales of material and equipment excluding property in place, when approval is required, and releases of lien and all other documents relating to such sales.

5. Insurance and fidelity coverage of borrowers.

6. Special legal fees to be paid by borrowers from loan funds.

7. Certificates regarding a borrower's incorporation and changes in a borrower's corporate status or name.

8. Affidavits and certificates with respect to the recording and filing of mortgages and deeds of trust, including mortgages to be recorded as financing statements, pursuant to the Uniform Commercial Code.

9. Municipal and county franchise obtained by borrowers from the standpoint of acceptability for REA loans.

10. The selection by a borrower of a Certified Public Accountant to perform audits.

11. Contracts for construction of headquarters, garage, and warehouse facilities.

12. Plans and specifications and work orders for headquarters, garage, and warehouse facilities.

13. The selection by a borrower of an architect and contracts for architectural services.

14. Purchase of real estate other than substation and generating plant sites.

P. Authority has been delegated to the Area Directors—Telephone, to approve or execute for telephone borrowers:

1. Borrowers' lease agreements and contracts covering management or operations services except those involving electric borrowers.

2. The use of general funds for reimbursable items, not exceeding $50,000 or 10 percent of a borrower's total assets, whichever is the lesser, where such reimbursement is not dependent on approval of a subsequent loan.

3. Borrowers' use of non-standard operating reports.

4. Designation of borrowers required to obtain CPA audits.

5. The use of equity funds by borrowers prior to the first release of loan funds.

6. Forms of stock and equity certificates.

7. Area coverage design report and Form 780.

8. Borrowers' requests to waive competitive bidding for central office equipment where the borrower has existing equipment to be retained.

9. Award of contracts for construction and for central office equipment.

10. Borrowers' proposals in amounts of $15,000 or more, for the purchase of (i) special equipment such as carrier, radio, repeaters, etc., and (ii) additions and modifications of central office equipment.

11. Loan budget adjustments excluding adjustments of more than 10 percent in the total amount budgeted for any primary loan purpose.

12. Selection by telephone borrowers of the force account method of construction.

13. Use of non-standard drawings, materials and equipment.

14. Waiver of defects in title and rights-of-way.

15. Letters to loan applicants setting forth loan requirements proposed for inclusion in a pending loan recommendation.

16. In addition, independently, all matters and documents to which authority to approve or execute its conferred upon others in paragraphs Q, R, and S hereof.

Q. Authority has been delegated to the Chiefs, Engineering Branches—Telephone, to approve or execute for telephone borrowers:

1. Contracts including amendments thereto for construction and central office equipment.

2. Plans and specifications for central office equipment, commercial office, garage, and warehouse buildings and for non-standard central office equipment buildings.

3. Joint use agreements between telephone borrowers and parties other than REA borrowers.

4. The selection by a borrower of an engineer or an architect and contracts for engineering and architectural services.

5. Statement of final engineering fees.

6. Borrowers' proposals and cost estimates for force account engineering and construction.

7. Borrowers' proposals in amounts less than $15,000 for the purchase of (i) special equipment such as carrier, radio, repeaters, etc., and (ii) additions and modifications of central office equipment.

8. Contracts and amendments thereto, for the purchase of special equipment such as carrier, radio, repeaters, etc.

9. Financial requirement statements.

10. Final inventory documents and payments to contractors and engineers.

11. Purchase of real estate by borrowers.

12. Line extension contracts.

13. In addition, independently, all matters and documents as to which authority to approve or execute is conferred upon others in paragraph R hereof.

R. Authority has been delegated to Field Engineers—Telephone, to approve or execute for telephone borrowers:

1. Plans and specifications for outside plant and standard central office buildings.

2. Borrowers' proposals for and completed construction of system improvements and extensions, when required.

S. Authority has been delegated to the Chiefs, Operations Branches—Telephone, to approve or execute for telephone borrowers:

1. Affidavits and certificates with respect to the recording and filing of mortgages and deeds of trust including mortgages to be recorded as financing statements, pursuant to the Uniform Commercial Code.

2. Municipal and county franchises obtained by borrowers from the standpoint of acceptability for REA loans.

3. Special legal fees to be paid by borrowers from loan funds.

4. Certificates regarding a borrower's incorporation and articles of incorporation and bylaws and changes in a borrower's corporate name.

5. State regulatory body orders and approvals from the standpoint of acceptability for REA loans.

6. Borrowers' cash sales of material and equipment, excluding property in place, when approval is required; and releases of lien and all other documents relating to such sales.

7. Borrowers' insurance and fidelity coverage.

8. Selection of Certified Public Accountants to perform audits.

T. Authority has been delegated to the Director, Rural Areas Development Staff to approve loans by borrowers of between $2,500 and $25,000 of section 5 loan funds to commercial or industrial enterprises.

U. Authority has been delegated to the Director, Electric Standards Division to approve or accept reports and invoices submitted under contracts covering research and services performed for REA in connection with the electric program.

V. Authority has been delegated to the Director, Telephone Standards Division to approve or accept reports and invoices submitted under contracts covering research and services performed for REA in connection with the telephone program.

W. Authority has been delegated to the Technical Standards Committee "A" (Electric and Telephone), to accept or reject all proposals of standards, standard specifications, drawings, materials and equipment submitted for acceptance for use on REA financed electric and/or telephone systems.

X. Authority has been delegated to the Technical Standards Committee "B" (Electric and Telephone) to review and make final decision on cases referred to it by Committee "A" or by appeal from a sponsor from an adverse decision of Committee "A".

Y. Authority has been delegated to the Controller and to the Chief, Administrative and Loan Accounting Branch, Controller's Division to:

1. Execute endorsements or assignments of promissory notes or other collateral pledged by borrowers as security for Rural Electrification Administration loans, as may be necessary in connection with the return of such documents to borrowers because of the payment of the obligations in full or in order that the borrowers may institute legal action thereon or in connection therewith.

2. Cancel or endorse the fact of payment on borrowers' notes which have been paid in full or which are to be returned to borrowers by reason of the cancellation of such notes resulting from the receipt by REA of refunding, renewal, or substituted notes.

Z. Authority has been delegated to the Director, Program Services Division, the Chief, General Services Branch, Program Services Division and to the Head, Supply and Space Management Unit, General Services Branch, Program Services Division, to approve the procurement of equipment, materials and services for REA.

In the event that any of the incumbents of positions to whom delegations are made herein are absent or are unable to act, the person designated to act for such incumbent shall have authority to exercise the authority conferred by such delegation. Incumbents of positions delegated authority herein are authorized to designate persons to act for them in their absence. Such designation shall be in accordance with any instructions issued by the incumbent's supervisors.

There is reserved in the Administrator authority for all matters not delegated hereby, or by other existing written delegations, including without limitations:

A. The making or recission of loans.

B. Extension of loan periods pursuant to section 12 of the Rural Electrification Act, as amended.

C. Execution of instruments relating to inter-borrower transfers involving the assumption of indebtedness.

These delegations supersede all prior delegations with reference to these matters.

Issued this sixteenth day of January 1962.

NORMAN M. CLAPP,
Administrator.

ATOMIC ENERGY COMMISSION

[Docket No. 50-54]

UNION CARBIDE CORP.

Notice of Proposed Issuance of Facility License Amendment

Please take notice that, unless within fifteen days after the publication of this notice in the FEDERAL REGISTER a request for a formal hearing is filed with the United States Atomic Energy Commission by the licensee or an intervener as provided by the Commission's rules of practice (Title 10, CFR, Chapter I, Part 2), the Commission proposes to issue Amendment No. 2, set forth below, to Facility License No. R-81, as amended. The license authorizes Union Carbide Corporation to operate its pool-type nuclear reactor located in Sterling Forest, New York. The amendment would authorize the licensee to conduct certain additional experiments in the reactor. Petitions for leave to intervene and requests for a formal hearing shall be filed in accordance with the provisions of § 2.700 of the Commission's rules of practice.

For further details see (a) the applications for license amendment submitted by Union Carbide Corporation and (b) a related hazards analysis prepared by the Research and Power Reactor Safety Branch of the Division of Licensing and Regulation, both available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. A copy of item (b) above may be obtained at the Commission's Public Document Room, or upon request addressed to the Atomic Energy Commission, Washington 25, D.C., Attention: Director, Division of Licensing and Regulation.

Dated at Germantown, Md., this 16th day of January 1962.

For the Atomic Energy Commission.

ROBERT H. BRYAN,
Chief, Research and Power Reactor Safety Branch Division of Licensing and Regulation.

[License No. R-81; Amdt. 2]

License No. R-81 issued to Union Carbide Corporation is hereby amended in the following respects:

A. Paragraph 1 is amended to read as follows:

1. This license applies to the pool-type nuclear reactor (hereinafter referred to as "the reactor") which is owned by Union Carbide Corporation (hereinafter referred to as "the licensee") and located on the licensee's site in Sterling Forest, Orange County, New York, and described in the licensee's application for license dated February 11, 1957, and amendments thereto dated July 3, 1957, July 23, 1957, August 9, 1957, December 28, 1960, April 28, 1961, June 7, 1961, October 27, 1961, November 1, 1961, and November 27, 1961 (hereinafter collectively referred to as "the application").

B. Paragraph 4.E. is deleted and a new paragraph 4.E. substituted therefor reading as follows:

4.E. The licensee is authorized to conduct the experiments described in the "Final Hazards Summary Report UCNC Reactor" dated November, 1960, as modified by the licensee's amendments to the application dated October 27, 1961, and November 27, 1961.

This amendment is effective as of the date of issuance.

For the Atomic Energy Commission.

ROBERT H. BRYAN,
Chief, Research and Power Reactor Safety Branch, Division of Licensing and Regulation.

[F.R. Doc. 62-723; Filed, Jan. 22, 1962; 8:48 a.m.]

[Docket No. 50-194]

PETROLITE CORP.

Notice of Application for Construction Permit and Utilization Facility License

Please take notice that Petrolite Corporation, 369 Marshall Avenue, Webster Groves 19, Missouri, under section 104c of the Atomic Energy Act of 1954, as amended, has submitted an application for a license to construct and operate a 10 kilowatt (thermal) pool-type nuclear research reactor at Webster Groves, Missouri.

A copy of the application is available for public inspection in the AEC Public Document Room, 1717 H Street NW., Washington, D.C.

Dated at Germantown, Md., this 16th day of January 1962.

For the Atomic Energy Commission.

ROBERT H. BRYAN,
Chief, Research and Power Reactor Safety Branch, Division of Licensing and Regulation.

[F.R. Doc. 62-724; Filed, Jan. 22, 1962; 8:49 a.m.]

[Docket No. 50-114]

WILLIAM MARSH RICE UNIVERSITY

Notice of Issuance of Facility License Amendment

Please take notice that the Atomic Energy Commission has issued Amendment No. 5, set forth below, to Facility License No. R-54. The license authorizes William Marsh Rice University to operate its nuclear reactor Model AGN-211, Serial No. 101, located on its campus in Houston, Texas. The amendment adds conditions to the license regarding the functioning of equipment to detect any fission product leakage and certain steps to be undertaken should fission products be detected.

The Commission has found that operation of the reactor in accordance with the license, as amended, will not present undue hazard to the health and safety of the public and will not be inimical to the common defense and security.

The Commission has further found that prior public notice of proposed issuance of this amendment is not necessary in the public interest since operation of the reactor in accordance with the license, as amended, would not present any substantial change in the hazards to the health and safety of the public from those previously considered and evaluated in connection with the previously approved operations.

In accordance with § 2.102(a) of the Commission's rules of practice (10 CFR Part 2) the Commission will direct the holding of a formal hearing on the matter of issuance of the license amendment upon receipt of a request therefor from the licensee or a petition to intervene pursuant to § 2.705 of the rules of practice within 30 days after the issuance of the license amendment. Petitions for leave to intervene and requests for a formal hearing shall be filed in accordance with the provisions of § 2.700 of the Commission's rules of practice (10 CFR Part 2).

The licensee's letter dated December 29, 1961, consenting to the addition of the conditions to the license may be inspected at the Commission's Public Document Room, 1717 H Street NW., Washington 25, D.C.

Dated at Germantown, Md., this 16th day of January 1962.

For the Atomic Energy Commission.

ROBERT H. BRYAN,
Chief, Research and Power Reactor Safety Branch, Division of Licensing and Regulation.

[License No. R-54; Amdt. 5]

License No. R-54, which authorizes William Marsh Rice University to operate its nuclear reactor Model AGN-211, Serial No. 101, located on the University's campus in Houston, Texas, is hereby amended by adding the following additional conditions thereto:

1. Instrumentation capable of prompt detection of any fission product leakage to the pool water and to the air above the pool shall be functioning at all times when the reactor is operating.

2. In the event any fission products are detected in the pool water or in the air above the pool the reactor shall not thereafter be operated at a power level higher than one-half of the lowest power level at which it was being operated when fission products were detected without prior written authorization from the Commission.

3. A written report shall be submitted to the Commission on each occasion on which fission products are detected in the pool or in the air above the pool.

This amendment is effective thirty days after the date of issuance.

Date of issuance: January 16, 1962.

For the Atomic Energy Commission.

ROBERT H. BRYAN,
Chief, Research and Power Reactor Safety Branch, Division of Licensing and Regulation.

[F.R. Doc. 62-725; Filed, Jan. 22, 1962; 8:49 a.m.]

CIVIL AERONAUTICS BOARD

[Docket 11022]

CALIFORNIA FLORAL TRAFFIC CONFERENCE, ET AL.; TARIFF LIABILITY RULE COMPLAINT

Notice of Hearing

In the matter of the complaint of the California Floral Traffic Conference, et al., against certain tariff liability rules.

Notice is hereby given, pursuant to the Federal Aviation Act of 1958, as amended, particularly sections 204(a), 403, 404, and 1002 thereof, that the above-entitled proceeding is hereby assigned for hearing on January 29, 1962, at 10 a.m., in Courtroom 203-205, U.S. Post Office and Courthouse, San Francisco, Calif., before Examiner Ralph L. Wiser.

Without limiting the scope of the issues raised by the pleadings in this proceeding, particular attention will be directed to the following: Whether the tariff rules or any of them, as enumerated in the appendix hereto, together with revisions and reissues thereof, and the practices in interstate and overseas air transportation of the air carriers under such rule or rules, are, or will be, unjust or unreasonable, or unjustly discriminatory, or unduly preferential, or unduly prejudicial and, if found to be so, what lawful rule, rules, and practices should be determined and prescribed.

For further details with respect to the issues involved in this proceeding, interested persons are referred to the orders and notices herein, the documents filed by the parties, and the examiner's report of prehearing conference served August 4, 1961, all of which are on file with the Docket Section of the Civil Aeronautics Board.

Notice is further given that any person other than parties of record desiring to be heard in this proceeding shall file with the Board on or before January 26, 1962, a statement setting forth the issues of fact or law raised by this proceeding which he desires to controvert.

Dated at Washington, D.C., January 17, 1962.

[SEAL] RALPH L. WISER,
Hearing Examiner.

[Docket 13203 etc.; Order No. E-17936]

FLYING TIGER LINE, INC.

Petition for Reconsideration; Order Dismissing Investigation and Vacating Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 18th day of January 1962.

In the matter of petition for reconsideration submitted by The Flying Tiger Line, Inc., Dockets 13203, 13205, et al., and 13218.

By petition dated December 28, 1961, The Flying Tiger Line, Inc. (Tiger), requests simultaneous reconsideration of Orders E-17752, E-17806, and E-17812, adopted November 22, December 5, and December 8, 1961, respectively. In the first two of these orders the Board set for investigation and suspended certain freight rates proposed by Tiger, and in the third order it dismissed Tiger's complaint against certain proposals of American Airlines, Inc. (American), and Trans World Airlines, Inc. (TWA). The petition claims, inter alia, that the Board erred in that it suspended proposed rates in selected markets by Tiger on florist stock (Group 3001) and decorative cut evergreens (Group 3002) that were no lower than those which the Board subsequently permitted to become effective for American and TWA; that the proposed reductions covered traffic carefully chosen to increase eastbound load factors; and that the suspended rates were of the promotional type with which the Board had urged the industry to experiment. Comparisons are presented purporting to show that certain proposals suspended on florist stock (Group 3001) and decorative cut evergreens (Group 3002) are equal to or higher than rates permitted by the Board to go into effect for other carriers. In addition, the petition requests reconsideration of the Board's order of suspension with respect to rates which had been proposed on florist stock (as well as on decorative evergreens, Group 3010, and nursery stock, Group 5001) in other markets. It is requested that the Board reconsider its orders either by dismissing the investigations instituted of Tiger's proposals and vacating the suspensions ordered or, in the alternative, by instituting an investigation of the rates that the Board permitted American and TWA to put into effect on December 9, 1961, as a result of Order E-17812.

The Board has carefully considered Tiger's petition and, based upon all relevant matters, has concluded to dismiss the investigation instituted on rates proposed by the carrier on florist stock, Group 3001, for effectiveness November 23 and 26, 1961, to the extent that they apply to acacia, evergreen, ferns, galax leaves, gypsophila, heather, holly, huckleberry, laurel, moss, and decorative greens, and vacate the suspension thereof.

In Orders E-17752 and E-17806, the Board permitted Tiger to put into effect numerous rate reductions which, we stated, satisfied one or more of the following criteria: (1) the rates proposed were not lower than those in effect for other carriers; (2) the proposed rates were not below competition at 100 pounds and the volume spreads did not exceed those already in effect for Tiger, even if the proposed rates at higher weight breaks were below competitive rates; (3) the proposals were not below those which had previously been in effect; or (4) the rates filed were not unduly low. The Board intended to set for investigation and suspend rate proposals which did not fulfill at least one of the foregoing criteria. The foregoing rates on florist stock, to the extent that they apply to the specific items enumerated above, are alleged in the petition to be transported in nine markets by competitive carriers as Nursery Stock, at rates equal to or lower than proposed by Tiger and suspended by the Board. The difficulty apparently lies in the overlapping of the commodity descriptions in effect for the several carriers. Tiger's Group 3001, Florist Stock, N.O.S. (Not Otherwise Specified), by its terms applies to growing plants in pots or tubs, or rooted cuttings moss wrapped, whereas its Group 5001, Nursery Stock, N.O.S., applies to trees, shrubs, or vines, grown in the field, but specifically does not apply to potted or tubbed plants. The tariffs of American, TWA, and United define Florist Stock to comprise bulbs, tubers, growing plants and rooted cuttings, and Nursery Stock in Groups 379 or 380 is listed as, namely, acacia, evergreen, ferns, galax leaves, gypsophila, heather, holly, huckleberry, laurel, moss, and decorative greens, without any limitation as to form in which shipped. It thus appears that these items, if shipped as growing plants in pots or tubs, would be considered as Florist Stock by Tiger but are listed as Nursery Stock by these other carriers.

The Board will further dismiss the investigation on the entirety of Group 3001 rates proposed from Los Angeles to Boston and to Philadelphia for effectiveness November 23, 1961, at the 5,000 pound weight break, and on rates on Group 3002, decorative cut evergreens, from Oakland and San Francisco to Detroit proposed for effectiveness November 26, 1961, and to vacate the suspension thereof, since the foregoing rates are equal to or above competitive rates. Tiger also requests the Board to reconsider its action suspending certain rates on florist stock, nursery stock, and decorative evergreens in markets other than those wherein it showed a competitive disadvantage. To the extent that such rates are equal to or above competitive rates, they are included in the order dismissing the investigation and vacating the suspension. By vacating the suspension order, and dismissing the investigation to the extent described herein, we will be according Tiger the opportunity to meet the rates of its competitors.

The Board has carefully considered the relief requested in the petition in all other respects. The remaining points raised therein involve issues that were fully taken into account by the Board in its orders, and, therefore, will be denied.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 1002 thereof: *It is ordered*, That:

1. The investigation instituted in Ordering Paragraph 1 of Order E-17752, dated November 22, 1961, is hereby dismissed insofar as it encompasses specific commodity rates applying on Commodity Group No. 3001 as set forth in Appendix A thereto in numbered paragraph 12 to the extent that it applies to rates subject to the minimum weight of 5,000 pounds from Los Angeles, Calif., to Boston, Mass., and from Los Angeles, Calif., to Philadelphia, Pa., and in numbered paragraphs 12, 13, 14, 15, 17, and 18, to the extent that it applies to rates on acacia, evergreen, ferns, galax leaves, gypsophila, heather, holly, huckleberry, laurel, moss, and decorative greens; and insofar as it encompasses specific commodity rates applying on Commodity Group No. 3002 as set forth in Appendix A thereto in numbered paragraph 19.

2. The suspension directed in Ordering Paragraph 2 of Order E-17752, dated November 22, 1961, is hereby vacated insofar as it encompasses specific commodity rates applying on Commodity Group No. 3001 as set forth in Appendix A thereto in numbered paragraph 12 to the extent that it applies to rates subject to the minimum weight of 5,000 pounds from Los Angeles, Calif., to Boston, Mass., and from Los Angeles, Calif., to Philadelphia, Pa., and in numbered paragraphs 12, 13, 14, 15, 17, and 18, to the extent that it applies to rates on acacia, evergreen, ferns, galax leaves, gypsophila, heather, holly, huckleberry, laurel, moss, and decorative greens; and insofar as it encompasses specific commodity rates applying on Commodity Group No. 3002 as set forth in Appendix A thereto in numbered paragraph 19.

3. In all other respects the provisions of Order E-17752 remain in full force and effect.

4. The petition of The Flying Tiger Line Inc. in Dockets 13205 et al., 13203, and 13218 is denied except to the extent granted herein.

5. Copies of this order shall be served upon Airborne Freight Corporation, American Airlines, Inc., Continental Air Lines, Inc., The Flying Tiger Line Inc., Trans World Airlines, Inc., and United Air Lines, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

Order Continuing Hearing Conference

In re applications of James D. Higson and Peter Frank d/b as Higson-Frank Radio Enterprises, Houston, Tex., Docket No. 14357, File No. BP-13809; S B B Corp., Houston, Tex., Docket No. 14358, File No. BP-14632; for construction permits.

The Hearing Examiner having under consideration a joint "Motion for Continuance of Prehearing Conference" filed on January 11, 1962, by counsel for the above-named applicants, requesting that the prehearing conference now scheduled for January 17, 1962, be further continued until February 21, 1962, pending the consummation of arrangements for a merger;

It appearing that applicants' negotiations to effect a merger have progressed to the stage of forming a new corporation and drafting the merger agreement, and that a postponement of the prehearing conference for the additional period requested will enable the applicants to complete their merger arrangements, thereby obviating a hearing on comparative issues; and

It further appearing that all parties to this proceeding have consented to a grant of this motion and to waiver of the "4-day rule" (Section 1.43), and that good cause has been shown by movants for a grant of their instant request;

Accordingly, it is ordered, This 12th day of January 1962, that the joint "Motion for Continuance of Prehearing Conference" filed by the applicants on January 11, 1962, is granted, and that the prehearing conference is further continued from January 17 to February 21, 1962, at 9:00 a.m., in the offices of the Commission at Washington, D.C.[1]

Released: January 16, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE, *Acting Secretary.*

[Docket No. 14380; FCC 62M-77]

KSAY BROADCASTING CO.

Order Continuing Hearing

In re application of Grant R. Wrathall and Taft R. Wrathall as trustee for Grant R. Wrathall, Jr., Charlotte Wrathall, Lawrence Wrathall and Loretta Wrathall, d/b as KSAY Broadcasting Company, San Francisco, California, Docket No. 14380, File No. BR-3528; for renewal of license of standard broadcast station KSAY.

As a result of agreements reached upon the record of a specially held prehearing conference on this date in the above-entitled matter: *It is ordered*, This 16th day of January 1962:

1. That exhibits will be exchanged on or before March 20, 1962;

2. That the hearing now scheduled for February 5, 1962, be postponed to April 3, 1962; and

3. That the prehearing conference now scheduled for January 26, 1962, be cancelled.

Released: January 16, 1962.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE, *Acting Secretary.*

FEDERAL MARITIME COMMISSION

MISSISSIPPI SHIPPING CO., INC., ET AL.

Agreements Filed for Approval

Notice is hereby given that the following described agreements have been

[1] By order of the Examiner (FCC 61M-1940) released Dec. 11, 1961, the hearing has been continued from Jan. 17, 1962, to a date to be specified at the prehearing conference.

filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916 (39 Stat. 733, 75 Stat. 763; 46 U.S.C. 814):

Agreement 8426–1, between Mississippi Shipping Co., Inc., as the "ocean service" trading between U.S. Gulf ports and Monrovia, and Farrell Lines, Inc., as the "feeder service", operating between Monrovia and Harbel, Grand Bassa, Sinoe, and Cape Palmas, Liberia, modifies the original approved agreement to provide for specific dollar apportionment of revenues derived from the carriage of bulk latex, packaged rubber and bagged rice when transshipped between the "ocean service" and the "feeder service."

Agreement 8462–1, between Compagnie Maritime des Chargeurs Reunis, as the "ocean service", trading between U.S. Atlantic ports and Monrovia, and Farrell Lines, Inc., as the "feeder service", operating between Monrovia and Harbel, Grand Bassa, Sinoe, and Cape Palmas, Liberia, modifies the original approved agreement to provide for the specific dollar apportionment of revenues derived from the carriage of bulk latex, packaged rubber, and bagged rice when transshipped between the "ocean service" and the "feeder service".

Interested parties may inspect these agreements and obtain copies thereof at the Bureau of Foreign Regulation, Federal Maritime Commission, Washington, D.C., and may submit within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to either of these agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: January 18, 1962.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

[F.R. Doc. 62-718; Filed, Jan. 22, 1962; 8:48 a.m.]

RIVER PLATE AND BRAZIL CONFERENCE ET AL.

Agreements Filed for Approval

Notice is hereby given that the following described agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916 (39 Stat. 733, 75 Stat. 763; 46 U.S.C. 814):

Agreement 59–37, between the member lines of the River Plate and Brazil Conference modifies the basic agreement of that Conference (Numbered 59, as amended), covering the trade from ports of the United States of America and Canada (except Pacific Coast ports of the United States and Canada and except Newfoundland) to ports in Uruguay, Argentina, Paraguay and Brazil. The purpose of this modification is to provide that the expenses of maintaining each of the various conferences shall be paid pro rata by all the members, except as may otherwise be unanimously agreed.

Agreement 5458–29, between the member lines of the Brazil/United States-Canada Freight Conference, modifies the basic agreement of that Conference (Numbered 5450, as amended), covering the trade from Victoria and ports south thereof in Brazil to U.S. Atlantic and Gulf ports and to ports in Eastern Canada including ports on the St. Lawrence River and tributaries thereto including but not west of Montreal but not including Newfoundland. The purpose of this modification is to provide that the expenses of maintaining the conference shall be paid pro rata by all the members except as may otherwise be unanimously agreed.

Agreement 6900–9, between the member lines of the River Plate/United States-Canada Freight Conference, modifies the basic agreement of that Conference (Numbered 6900, as amended), covering the trade from ports in Argentina, Paraguay and Uruguay to U.S. Atlantic and Gulf ports and to ports in Eastern Canada including but not west of Montreal but not including Newfoundland. The purpose of this modification is to provide that the expenses of maintaining the conference shall be paid pro rata by all members except as may otherwise be unanimously agreed.

Agreement 8751, between Lykes Bros. Steamship Co., Inc. and the carriers comprising the Blue Funnel Line joint service (operating under approved joint service Agreement 7568, as amended), covers a through billing arrangement for the transportation of asbestos in bags from Western Australia to U.S. Gulf ports, with transhipment at Singapore.

Interested parties may inspect these agreements and obtain copies thereof at the Bureau of Foreign Regulation, Federal Maritime Commission, Washington, D.C., and may submit within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to any of these agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: January 18, 1962.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

[F.R. Doc. 62-719; Filed, Jan. 22, 1962; 8:48 a.m.]

[Docket No. 966]

OLIVER J. OLSON & CO.

Reduction in Rates, Pacific Coast-Hawaii; Notice of Investigation and of Hearing

On December 27, 1961, the Federal Maritime Commission entered the following order:

It appearing, that there have been filed with the Federal Maritime Commission by Oliver J. Olson & Co., C. R. Nickerson, agent, revised pages to its Local Freight Tariff No. 5, FMC–F No. 32, naming reductions in freight rates from, to, and between Pacific coast ports and ports in the Hawaiian Islands, to become effective December 28, 1961, designated as follows:

Tariff Page and Item Number

2d revised page 18; 33, 40, 125, 130, 135.
2d revised page 19; 150.
2d revised page 20; 400.
2d revised page 21; 410, 415, 430, 460, 490, 492.
2d revised page 22; 505, 510, 545, 560, 565, 570, 575, 580, 590, 592, 595, 600, 585.
2d revised page 23; 605, 610, 700, 705, 710.

It further appearing, that a protest has been received petitioning the Commission to suspend said reductions; and

It further appearing, that the Commission is of the opinion that the new rates, charges, classifications, regulations, tariffs, and practices should be made the subject of a public investigation and hearing to determine whether they are just, reasonable, and otherwise lawful under the Shipping Act, 1916, or the Intercoastal Shipping Act, 1933, as amended; and

It further appearing, that the Commission is of the opinion that the effective date of Item No. 460 (lumber) should be suspended, pending such investigation:

Now therefore it is ordered, That an investigation be, and it is hereby, instituted into and concerning the lawfulness of the rates, fares, charges, rules, classifications, regulations, and practices contained in the said tariff schedules, with a view to making such findings and orders in the premises as the facts and circumstances shall warrant; and

It is further ordered, That said Item No. 460 (lumber) be, and it is hereby, suspended, and that the use thereof be, and it is hereby, deferred to and including April 27, 1962, unless otherwise authorized by the Commission, and that the rates, fares, charges, classifications, rules, regulations, and practices heretofore in effect, and which were to be changed by the suspended item, shall remain in effect during the period of suspension; and

It is further ordered, That no change shall be made in the matter hereby suspended nor the matter which is continued in effect as a result of such suspension until the period of suspension or any extension thereof has expired, or until this investigation and suspension proceeding has been disposed of, whichever first occurs, unless otherwise authorized by the Commission; and

It is further ordered, That the investigation in this proceeding shall not be confined to the matters and issues hereinbefore stated as the reason for instituting this investigation, but shall include all matters and issues with respect to the lawfulness of the said schedules and of all other freight schedules of the carrier named herein from, to, and between Pacific coast ports of the United States and ports in the Hawaiian Islands under the Shipping Act, 1916, as amended, and the Intercoastal Shipping Act, 1933, as amended; and

It is further ordered, That there shall be filed immediately with the Commission by the Oliver J. Olson & Co., C. R. Nickerson, agent, a consecutively numbered supplement to the aforesaid tariff schedule which supplement shall bear no effective date, shall reproduce the portion of this order wherein the suspended matter is described, and shall state that the aforesaid Item 460 is suspended and

may not be used until 28th day of April 1962, unless otherwise authorized by the Commission; and that the rates heretofore in effect, and which were to be changed by the suspended rates, shall remain in effect during the period of suspension, and neither the matter suspended, nor the matter which is continued in effect as a result of such suspension may be changed until the period of suspension or any extension thereof has expired, or until this investigation and suspension proceeding has been disposed of, whichever first occurs, unless otherwise authorized by the Commission; and

It is further ordered, That all subsequent revisions of the said rates subsequently filed by the respondent in this proceeding, shall be, and they are hereby, placed under investigation in this proceeding; and

It is further ordered, That copies of this order shall be filed with the said tariff schedule in the Bureau of Domestic Regulation of the Federal Maritime Commission; and

It is further ordered, That (I) the investigation herein ordered be assigned for public hearing before an examiner of the Commission's Office of Hearing Examiners, at a date and place to be determined and announced by the Chief Examiner, to receive evidence in this proceeding, which will provide an adequate record for proper disposition of the issues and that an initial decision be issued; (II) Oliver J. Olson & Co., C. R. Nickerson, agent, be and it is hereby made respondent in this proceeding; (III) a copy of this order shall forthwith be served upon protestant and respondent herein; (IV) the said respondent and protestant be duly notified of the time and place of the hearing ordered; and (V) this order and notice of the said hearing be published in the FEDERAL REGISTER.

Notice is hereby given that the hearing in this proceeding will be held before an examiner of the Commission's Office of Hearing Examiners at a date and place hereafter to be announced. The hearing will be conducted in accordance with the Commission's rules of practice and procedure, and an initial decision will be issued by the examiner.

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies) having an interest in this proceeding and desiring to intervene therein, should notify the Secretary of the Commission promptly and file petitions for leave to intervene in accordance with rule 5(n) (46 CFR 201.74) of said rules.

Dated: January 18, 1962.

By order of the Federal Maritime Commission.

THOMAS LISI,
Secretary.

[F.R. Doc. 62-720; Filed, Jan. 22, 1962; 8:48 a.m.]

[Commission Order 1 (Amended)]

ORGANIZATION AND FUNCTIONS

SECTION 1. *Purpose.* 1.01. The purpose of this order is to describe the organization and functions of the Federal Maritime Commission.

SEC. 2. *Organization of the Federal Maritime Commission—2.01. Establishment and composition of the Commission.* The Federal Maritime Commission was established as an independent agency by Reorganization Plan No. 7 of 1961, effective August 12, 1961. The Federal Maritime Commission is composed of five members, appointed by the President, by and with the consent of the Senate. The President designates one of such members to be the Chairman.

2.02. *Quorum.* Any three members in office constitute a quorum for the transaction of the business of the Federal Maritime Commission. The affirmative vote of any three Commissioners shall be sufficient for the disposition of any matters which may come before the Commission.

2.03. *Organizational components.* The Federal Maritime Commission has the following major organizational components:

(a) Office of the Chairman of the Federal Maritime Commission,
(b) Offices of the Members of the Federal Maritime Commission,
(c) Office of the Secretary,
(d) Office of the General Counsel,
(e) Office of Hearing Examiners, and
(f) Executive Director:
(1) Office of Administrative Management,
(2) Office of Information Services,
(3) Bureau of Foreign Regulation,
(4) Bureau of Domestic Regulation,
(5) Bureau of Administrative Proceedings,
(6) Bureau of Investigation,
(7) Bureau of Financial Analysis, and
(8) Offices of District Managers.

SEC. 3. *Lines of responsibility.* 3.01. The Office of the Secretary, Office of the General Counsel and Office of Hearing Examiners and the Executive Director shall be responsible to, and report to, the Chairman, Federal Maritime Commission.

3.02. The Office of Administrative Management, Office of Information Services and the Bureau of Foreign Regulation, Bureau of Domestic Regulation, Bureau of Administrative Proceedings, Bureau of Investigation, Bureau of Financial Analysis and the Offices of the District Managers shall be responsible to, and report to, the Chairman, Federal Maritime Commission through the Executive Director.

SEC. 4. *General functions.* 4.01. The Federal Maritime Commission is responsible for administering the statutory functions and programs for the regulation of common carriers by water in the foreign and domestic off-shore commerce of the United States and of other persons, under provisions of the Shipping Act, 1916, as amended, Merchant Marine Act, 1920, as amended, the Intercoastal Shipping Act, 1933, as amended, and other applicable statutes.

SEC. 5. *Specific functions of the organizational components of the Federal Maritime Commission.* 5.01. The Office of the Chairman of the Federal Maritime Commission executes and administers the activities of the Federal Maritime Commission; serves as the executive head of the Commission, presides at meetings of the Commission; and administers the policies of the Commission to its responsible officials, and through conferences with and reports from such officials assures the efficient discharge of their responsibilities.

5.02. The Offices of the Members of the Federal Maritime Commission are responsible, with the Chairman, for establishing the policies of the Commission; making decisions and determinations in the disposition of docketed cases and other matters within the jurisdiction of the Commission; and performing other duties as may be assigned under the provisions of Reorganization Plan No. 7 of 1961.

5.03. The Office of the Secretary is responsible for preparing agenda and dockets of matters subject to action by the Federal Maritime Commission and the preparation of minutes with respect to such actions; issuing orders and notices of actions of the Commission; receiving formal communications, petitions, notices, documents and other instruments directed to the Chairman and/or the Commission and maintaining official files and records with respect thereto; authenticating instruments or documents of the Commission; administering oaths, and issuing subpoenas at the direction of the Commission.

5.04. The Office of the General Counsel serves as the law office of the Commission and provides legal counsel to the Commission and its staff; reviews and approves as to legality and/or prepares proposed Commission rules, regulations and orders; prepares drafts of proposed legislation and reports to congressional committees; represents the Commission in all matters before the courts.

5.05. The Office of Hearing Examiners holds hearings and renders decisions therein in formal rule-making and adjudicatory proceedings as provided in the Shipping Act, 1916, as amended, and other applicable laws, in accordance with the Administrative Procedures Act and the Commission's Rules of Practice and Procedure.

5.06. The Executive Director directs and administers the organizations and activities as enumerated in subsections 5.061 through 5.068 below; assists, advises, and consults with the Chairman and/or the Federal Maritime Commission in the performance of major executive functions; directs general administrative activities.

1. The Office of Administrative Management formulates recommendations and interprets budgetary policies and programs; collaborates with staff and operating officials in the development of fiscal plans; develops and presents budget requests and justifications; maintains control of funds; conducts studies of management practices, organizations, functions, authorities, and procedures for the improvement of operations; plans and administers personnel management activities; and provides administrative and office services.

2. The Office of Information Services issues information concerning the activities of the Federal Maritime Commis-

sion; prepares and edits press releases; and performs related informational services.

3. The Bureau of Foreign Regulation reviews the rates and practices of common carriers by water engaged in the foreign commerce of the United States and conferences of such carriers in accordance with the requirements of law and the rules, orders and regulations of the Commission; examines, processes, and as appropriate prepares recommendations to the Commission with respect to activities and practices of common carriers by water in the foreign commerce and conferences of such carriers and with respect to agreements and tariffs filed by such common carriers and conferences; reviews annual and special reports filed by common carriers by water and conferences in the foreign commerce of the United States, including minutes of conference meetings; initiates action involving the granting of special permissions to waive advance tariff filing requirements, or to depart from rules and regulations governing publication of tariffs; recommends the institution of rule-making proceedings, and where appropriate prepares drafts of rules and otherwise assists in the promulgation of rules; reviews informal complaints and protests against the practices, methods and operation of common carriers or conferences or against existing or proposed tariffs of such carriers or conferences and (1) requests the Bureau of Investigation to develop additional information and data through field investigations; (2) concludes complaints and protests by voluntary agreement between the parties or by administrative determination that the complaint or protest fails to represent a violation of the shipping statutes or the rules, or orders of the Commission; (3) prepares recommendations, collaborating with the Bureau of Administrative Proceedings, for formal action and proceedings by the Commission; and/or (4) refers, as appropriate, complaints and protests to the Bureau of Investigation for action by that bureau.

4. The Bureau of Domestic Regulation reviews the rates and practices of common carriers by water engaged in the domestic off-shore commerce of the United States and conferences of such carriers in accordance with the requirements of law and the rules, orders and regulations of the Commission; examines, processes, and as appropriate prepares recommendations to the Commission with respect to activities and practices of common carriers by water in the domestic off-shore commerce of the United States and conferences of such carriers, and with respect to agreements and tariffs filed by such common carriers, conferences, terminal operators, and freight forwarders; takes and/or initiates action involving the rejection of improper or incorrectly filed tariffs, granting of special permissions to waive the advance filing or publication requirements of tariffs, suspension of rates, and as appropriate the prescription of reasonable maximum and minimum rates; reviews annual and special reports filed by domestic off-shore carriers, conferences, terminal operators, and freight forwarders, including minutes of conference meetings; receives and processes applications for licensing of freight forwarders; recommends the institution of rule-making proceedings and, where appropriate drafts of rules and otherwise assists in the promulgation of rules; reviews informal complaints and protests against the practices, methods and operations of common carriers, terminal operators, freight forwarders or conferences or against existing or proposed tariffs of such common carriers, terminal operators, freight forwarders or conferences and (1) requests the Bureau of Investigation to develop additional information and data through field investigations; (2) concludes complaints and protests by voluntary agreement between the parties or by administrative determination that the complaint or protest fails to represent a violation of the shipping statutes or the rules or orders of the Commission; (3) prepares recommendations, collaborating with the Bureau of Administrative Proceedings, for formal action and proceedings by the Commission; and/or (4) refers, as appropriate, complaints and protests to the Bureau of Investigation for action by that bureau.

5. The Bureau of Administrative Proceedings acts as Hearing Counsel in all formal investigations, nonadjudicatory investigations, rule-making proceedings and any other proceedings initiated by the Federal Maritime Commission under the Shipping Act, 1916, and other applicable shipping acts; examines and cross-examines witnesses, prepares and files briefs, motions, exceptions, and other legal documents and participates in oral argument before the hearing examiners and the Federal Maritime Commission; acts as Hearing Counsel, where intervention is permitted, in formal complaint proceedings initiated under section 22 of the Shipping Act; reviews and concurs in all recommendations of other bureaus recommending the institution of formal proceedings; prepares all orders, notices, and other documents which institute formal or informal Commission proceedings; furnishes consultative and advisory services and otherwise assists other bureaus in formulating procedures to be followed in connection with investigations and/or formal Commission proceedings; serves, with the concurrence of the Executive Director, as requested by the General Counsel and under his direction in matters of court litigation by or against the Commission rising out of violations previously adjudicated by the Commission.

6. The Bureau of Investigation conducts investigations of the activities and practices of common carriers by water in the foreign and domestic off-shore commerce of the United States, conferences of such carriers, freight forwarders and terminal operators and other persons subject to the regulatory jurisdiction of the Federal Maritime Commission; conducts periodic field examinations of the activities, transactions and records of persons subjected to the shipping statutes; directs the field investigation staffs and plans and administers the field programs furnishing all technical direction to such staffs; prepares recommendations to the Commission, collaborating with appropriate other bureaus, for the referral of violations to the Department of Justice for its action, where field investigations have developed the existence of criminal violations of the shipping statues (these cases are restricted to those where the cases are to be disposed of by the Department of Justice, rather than by the Commission through formal action and/or proceedings); develops methods and purposes of investigations referred to other investigative bodies of the executive, legislative or judicial branches of the government; coordinates, where appropriate, with appropriate officers of the State Department those investigations concerning common carriers by water under foreign-flag operation engaged in the foreign commerce of the United States.

7. The Bureau of Financial Analysis is responsible for and makes recommendations with respect to annual and special financial reports to be submitted by common carriers and other persons subject to the act, including accounting and reporting instructions; reviews annual and special reports, including reports of field audits performed by the Commission's staff; determines the justification of increased or lower rates of common carriers and other persons subject to the act; directs field audit staffs and develops and administers a continuing program for the audit of the financial accounts and records of common carriers and other persons subject to the Federal Maritime Commission's regulatory authorities; develops and revises the accounting regulations of the Commission prescribing uniform systems of accounts for persons subject to the shipping statutes; develops cost formulas for application to the movement of water borne commerce in the domestic and foreign commerce of the United States; prepares reports and appears in rate proceedings and/or proceedings where rates and/or cost are a paramount issue; conducts studies, as appropriate, for the purpose of determining classes of depreciable property, depreciation percentages, replacement costs, reasonable overhead, etc.; prepares analytical reports for the consideration of the Commission and the staff in the processing and approval of tariffs and the approval of rates including studies of reasonable return on and current cost of capital both borrowed and invested; and conducts economic studies and prepares reports reflecting for trade areas under consideration the extent and nature of competition, commodities carried, the extent and effect of regularity of services, future commodity trends, etc.

8. The Offices of the Atlantic, Gulf, Pacific, and Great Lakes District Managers are responsible for the administrative coordination of all field programs and activities of the Federal Maritime Commission within their respective areas, subject to national policies and program determinations, standard procedures, and supervision and technical direction of the appropriate office or bureau director in Washington, D.C.; in addition the District Managers shall be responsible for maintaining contact with persons within their areas who are subject to the shipping statutes and rules and regulations of the Commission; further the District Managers shall be available for consultation and advisory services requested by common carriers by water in the foreign and domestic off-shore commerce of the United States, terminal operators, freight forwarders, conferences and shippers; finally the District Managers shall be responsible for performing other functions and duties as assigned by the Chairman, Executive Director and/or the Commission.

SEC. 6. *Delegation of authorities.* 6.01. Pursuant to section 105 of Reorganization Plan No. 7 of 1961, effective August 12, 1961, the Federal Maritime Commission hereby delegates the authorities set forth in Sections 7, 8, and 9 of this order to the officials designated therein, subject to the limitations prescribed in Sections 6.02, 6.03, 6.04, and 6.05 of this order.

6.02. The delegatees shall exercise the authorities delegated herein in a manner consistent with the established policy of the Federal Maritime Commission.

6.03. The authorities delegated herein, except those delegated to the Chief Examiner, may not be exercised unless resolution of all legal questions and the approval of the form of all legal documents have been obtained, either concurrently or previously, from the General Counsel, or his designee.

6.04. The delegatees may in their discretion redelegate their authorities, unless otherwise restricted herein, to subordinate personnel under their direction; provided that such redelegation does not grant the recipient the authority to subsequent redelegation. The delegatees retain full responsibility for actions taken by their subordinates under any authority redelegated by them.

6.05. Notwithstanding the delegations contained herein, the Commission retains its discretionary right of review as provided in section 105(b) of Reorganization Plan No. 7 of 1961.

SEC. 7. *Specific authorities delegated to the Executive Director.* 7.01. Authority to accept or reject tariff filings of domestic off-shore carriers or common carriers in the foreign commerce of the United States, or conferences of such carriers for failure to meet the requirements of statute or the Commission's requirements, or for lack of completeness and clarity of the rules and regulations governing the tariff, or noncompliance with special permission or other order of the Commission.

7.02. Authority to approve special permission applications submitted by domestic off-shore carriers or carriers in the foreign commerce of the United States, or conferences of such carriers for relief from a statutory and/or Commission tariff requirement, provided the relief sought is limited to one or more of the following (a) permission to deviate from prescribed tariff format; (b) permission to correct a clerical or typographical error; (c) permission to postpone the effective date of a previously submitted filing; or (d) permission to cancel or withdraw protested matter.

7.03. Authority to review and determine the validity of alleged or suspected violations, exclusive of formal complaints, of the shipping statutes and rules and regulations of the Commission by common carriers by water in the domestic off-shore or the foreign commerce of the United States, terminal operators, freight forwarders, and other persons subject to the provisions of the shipping statutes; authority to determine corrective action necessary with respect to violations and conduct negotiations and obtain compliance by the violating parties, except where violations involve major questions of policy or major interpretations of statutes, or orders, rules and regulations of the Commission, or acts having material effect upon the commerce of the United States.

7.04. Authority to approve, within the framework of prescribed Commission policy and criteria, applications for licenses, and issue licenses to all persons, partnerships, corporations, or associations desiring to engage in ocean freight forwarding activities and to recommend denial to the Commission of those that appear to warrant denial of licenses.

7.05. Authority to develop, prescribe and administer programs to assure compliance with the provisions of the shipping statutes of all persons subject thereto, including without limitation those programs for: (a) The submission of regular and special reports, information and data; (b) the conduct of a plan for the field audit of activities and practices of common carriers by water in the domestic off-shore trade and the foreign commerce of the United States, conferences of such carriers, terminal operators, freight forwarders, and other persons subject to the shipping statutes; and (c) the conduct of rate studies.

SEC. 8. *Specific authorities delegated to the Special Permission Committee (Secretary, Executive Director, Director, Bureau of Foreign Regulation, and Director, Bureau of Domestic Regulation).* 8.01. Authority, acting as the Special Permission Committee, to approve special permission applications for relief from a statutory and/or Commission tariff requirement for any relief sought beyond that delegated to the Executive Director in section 7.02 of this order; in the exercise of this authority the Director, Bureau of Foreign Regulation or the Director, Bureau of Domestic Regulation shall serve only as a member of the committee when the committee is acting on applications involving subject matter within his regular area of responsibility.

8.02. In the absence of the officials to whom this authority is delegated their Deputies or Assistants are authorized to act for them.

SEC. 9. *General authority delegated to the Secretary, General Counsel, Chief Examiner, and the Executive Director.* 9.01. Authority to exercise all functions and take all actions necessary, to direct and carry out the duties and responsibilities assigned to the Office of the Secretary, Office of the General Counsel, Office of Hearing Examiners, and the Executive Director in accordance with their functional assignments as heretofore prescribed in this order.

Dated: January 16, 1962.

THOS. E. STAKEM,
Chairman.

[F.R. Doc. 62-759; Filed, Jan. 22, 1962; 8:51 a.m.]

[Commission Order 201.1]

REDELEGATION OF AUTHORITIES BY THE EXECUTIVE DIRECTOR

SECTION 1. *Purpose.* 1.01. The purpose of this order is to redelegate certain authorities delegated to the Executive Director, pursuant to Federal Maritime Commission Manual of Orders, Commission Order No. 1 (amended), effective January 16, 1962.

SEC. 2. *Redelegations of authorities.* 2.01. The authorities set forth in sections 4 through 7 of this order are hereby redelegated to the respective officials having jurisdiction of the particular functional areas.

2.02. These officials shall exercise the authorities redelegated herein in a manner consistent with the established policy of the Federal Maritime Commission.

2.03. The authorities redelegated may not be exercised unless resolution of all legal questions and the approval of the form of all legal documents have been obtained, either concurrently or previously, from the General Counsel, or his designee.

2.04. These officials may not redelegate their authorities to subordinate personnel, except by prior approval of the Federal Maritime Commission and the Executive Director.

SEC. 3. *Limitation on the exercise of redelegated authorities.* 3.01. The officials to whom are redelegated the authorities specified herein shall, notwithstanding the provisions of this order, consult with the Executive Director on any matter or question involving:

1. Deviation from established policy or procedure.

2. An important decision or interpretation thereof.

3. Matters on which differences of opinion exist between bureaus under the direction of the Executive Director or with other offices of the Federal Maritime Commission.

SEC. 4. *Specific authorities redelegated to the Deputy Executive Director.* 4.01. Authority, in the absence or preoccupation of the Executive Director, to exercise all authorities of the Executive Director consistent with programs, policies and precedents established by previous action of the Commission or the Executive Director.

SEC. 5. *Specific authorities redelegated to the Director, Bureau of Foreign Regulation.* 5.01. Authority to accept or reject tariff filings submitted by common carriers by water engaged in the foreign commerce of the United States.

5.02. Authority to approve special permission applications submitted by common carriers by water in the foreign commerce or conferences of such carriers for relief from a statutory and/or Commission tariff requirement, provided the relief sought is limited to one or more of the following: (a) permission to deviate from prescribed tariff format; (b) permission to correct a clerical or typographical error; (c) permission to postpone the effective date of a previously submitted filing; or (d) permission to cancel or withdraw protested matter.

5.03. Authority to review and determine the validity of alleged or suspected violations, exclusive of formal complaints, of the shipping statutes and rules, regulations and orders of the Commission by common carriers by water or the foreign commerce of the United States, conference of such carriers, and other persons subject to the provisions of the shipping statutes; authority to determine corrective action necessary with respect to violations and conduct negotiations and obtain compliance by the violating parties, except where violations involve major questions of policy or major interpretations of statutes, or orders, rules and regulations of the Commission, or acts having material effect upon the commerce of the United States.

5.04. Authority to develop, prescribe and administer programs to assure compliance with the provisions of the shipping statutes of common carriers by water in the foreign commerce of the United States and steamship conferences, including but not limited to those programs for: (a) The submission of regular and special reports, information and data; (b) the conduct of field audit of the activities and practices of such common carriers and conferences; and (c) in collaboration with the Director, Bureau of Financial Analysis, the conduct of rate studies.

SEC. 6. *Specific authorities redelegated to the Director, Bureau of Domestic Regulation.* 6.01 Authority to accept or reject tariff filings of domestic off-shore carriers or conferences of such carriers for failure to meet the requirements of statute or the Commission's requirements, or for lack of completeness and clarity of the rules and regulations governing the tariff, or noncompliance with special permission or other order of the Commission.

6.02. Authority to approve special permission applications submitted by domestic off-shore carriers for relief from a statutory and/or Commission tariff requirement, provided the relief sought is limited to one or more of the following:

(a) Permission to deviate from prescribed tariff format;

(b) Permission to correct a clerical or typographical error;

(c) Permission to postpone the effective date of a previously submitted filing; or (d) permission to cancel or withdraw protested matter.

6.03. Authority to process, within the framework of prescribed Commission policy and criteria, applications for licenses, and issue licenses approved by the Executive Director or the Commission to persons, partnerships, corporations, or associations desiring to engage in ocean freight forwarding activities and to prepare recommendations to the Executive Director and the Commission for the denial of licenses.

6.04. Authority to review and determine the validity of alleged or suspected violations, exclusive of formal complaints, of the shipping statutes and rules, regulations and orders of the Commission by common carriers by water in the domestic off-shore commerce of the United States, conferences of such carriers, terminal operators, freight forwarders, and other persons subject to the provisions of the shipping statutes; authority to determine corrective action necessary with respect to violations and conduct negotiations and obtain compliance by the violating parties, except where violations involve major questions of policy or major interpretations of statutes, or orders, rules and regulations of the Commission, or acts having material effect upon the commerce of the United States.

6.05. Authority to develop, prescribe and administer programs to assure compliance with the provisions of the shipping statutes of common carriers by water in the domestic off-shore trade terminal operators, freight forwarders and other persons subject thereto, including but not limited to those programs for: (a) The submission of regular and special reports, information and data; (b) the conduct of field audit of the activities and practices of such common carriers by water in the domestic off-shore trade, terminal operators, freight forwarders, and other persons; and (c) in collaboration with the Director, Bureau of Financial Analysis, the conduct of rate studies.

SEC. 7. *General authority redelegated to all of the Bureau Directors.* 7.01. Authority to exercise all functions and take all actions necessary, to direct and carry out the duties and responsibilities assigned to their respective bureaus, in collaboration with and subject to the concurrence of other appropriate offices or bureaus, as may be required, in accordance with their functional assignments as prescribed in Manual of Orders, Commission Order No. 1 (amended).

Dated: January 16, 1962.

ELMER E. METZ,
Executive Director.

TARIFF COMMISSION

[AA1921-23]

PORTLAND CEMENT FROM DOMINICAN REPUBLIC

Notice of Investigation

Having received advice from the Treasury Department on January 18, 1962, that Portland Cement, other than white, nonstaining portland cement, from the Dominican Republic, is being, or is likely to be, sold in the United States at less than fair value, the United States Tariff Commission has instituted an investigation under section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

Hearing: A public hearing in connection with this investigation will be held in the Tariff Commission's Hearing Room, Tariff Commission Building, Eighth and E Streets NW., Washington, D.C., beginning at 10 a.m., e.s.t., on March 1, 1962. All parties will be given opportunity to be present, to produce evidence, and to be heard at such hearing. Interested parties desiring to appear at the public hearing should notify the Secretary of the Tariff Commission, in writing, at its offices in Washington, D.C., at least 5 days in advance of the date set for the hearing.

Issued: January 18, 1962.

By order of the Commission:

DONN N. BENT,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 24SF-2922]

GEORGE HARMON COMPANY, INC.

Order Temporarily Suspending Exemption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

JANUARY 16, 1962.

I. George Harmon Company, Inc. (issuer), 18141 Napa Street, Northridge, California, a Nevada corporation, filed with the Commission on July 21, 1961, a notification on Form 1-A and offering circular relating to a proposed public offering of 62,500 shares of common stock, 10 cents par value, at $4 per share on behalf of issuer, and 10,000 warrants for common stock at 10 cents per share, and the 10,000 shares of common stock underlying such warrants, for the benefit of Hamilton Waters & Co., Inc., 250 Fulton Avenue, Hempstead, New York, the underwriter, and certain finders, J. Homer Overholser, 9171 Wilshire Boulevard, Beverley Hills, California, and Milton Weinberg, address not known, all for an aggregate offering price of not to exceed $300,000, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) thereof and Regulation A promulgated thereunder. The shares were to be offered by the named underwriter on a best-efforts basis.

II. The Commission has reasonable cause to believe that:

A. The offering circular contains untrue statements of material facts and omits to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, particularly with respect to:

1. The representation in the offering circular that the issuer has a backlog of orders totalling $4,314,349;

2. The representation in the offering circular that the issuer has an order totalling $4,130,000 for telephone answering devices from Phonomatic, Inc., 1067 South Fairfax, Los Angeles, California;

3. The representation in the offering circular that the issuer has an order totalling $59,415 for Talk-A-Way Transceivers from AVTA Corporation, 3440 Wilshire Boulevard, Los Angeles, California;

4. The representation in the offering circular that the issuer has an order totalling $1,540,000 for inertia switches from a prime west coast missile contractor upon an adequate showing of working capital;

5. The representation in the offering circular that in management's opinion, adequate working capital would be available to the issuer for the anticipated interia switches contract upon completion of this offering;

6. The representation in the offering circular that bank financing would be available to the issuer to handle all of the foregoing orders if delivery schedules required bank financing.

B. The offering would be made in violation of section 17 of the Securities Act of 1933, as amended.

III. *It is ordered*, Pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing within 30 days after the entry of this order; that within 20 days after receipt of such request the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; that if no hearing is requested and none is ordered by the Commission, this order shall become permanent on the 30th day after its entry and shall remain in effect unless or until it is modified or vacated by the Commission; and that notice of the time and place for any hearing will be promptly given by the Commission.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

FEDERAL POWER COMMISSION

[Docket Nos. RI62-293—RI62-299]

J. M. HUBER CORP. ET AL.

Order Providing for Hearings on and Suspension of Proposed Changes in Rates [1]

JANUARY 16, 1962.

J. M. Huber Corporation, Docket No. RI62-293; Texaco Inc., Docket No. RI62-294; Union Oil Company of California, Docket No. RI62-295; Humble Oil & Refining Company, Docket No. RI62-296; Jackie Grubb Ankenman, et vir, Docket No. RI62-297; Estate of Naomi S. Grubb, Docket No. RI62-298; Kerr-McGee Oil Industries, Inc., Docket No. RI62-299.

The above-named respondents have tendered for filing proposed changes in presently effective rate schedules for sales of natural gas subject to the jurisdiction of the Commission. The proposed changes are designated as follows:

Docket No.	Respondent	Rate schedule No.	Supplement No.	Purchaser and producing area	Amount of annual increase	Date filing tendered	Effective date [1] unless suspended	Date suspended until—	Cents per Mcf: Rate in effect	Cents per Mcf: Proposed increased rate [2]	Rate in effect subject to refund in Docket Nos.
RI62-293	J. M. Huber Corp., 2401 East Second Avenue, Denver 6, Colo.	34	6	Natural Gas Pipeline Co. of America (Chunn Field, Hansford County, Tex.) (R.R. District No. 10).	$159	12-20-61	1-23-62	6-23-62	[3] 17.1632	17.3651	RI61-319
RI62-294	Texaco Inc., P.O. Box 2332, Houston, Tex.	216	3	Natural Gas Pipeline Co. of America (Hansford Field, Hansford County, Tex.) (R.R. District No. 10).	78	12-20-61	1-23-62	6-23-62	[3] 17.0	17.2	RI61-337
RI62-295	Union Oil Co. of California, P.O. Box 7600, Los Angeles 54, Calif.	13	7	Texas Gas Transmission Corp. (East Lake Pelsenda Field, Assumption and St. Martin Parishes, La.) (Southern Louisiana).	480,600	12-20-61	1-20-62	6-20-62	[4] 21.875	23.875	G-17705
RI62-296	Humble Oil & Refining Co., P.O. Box 2180, Houston 1, Tex.	21	6	Mississippi River Fuel Corp. (Woodlawn Field, Harrison County, Tex.) (R.R. District No. 6).	182	12-21-61	1-27-62	6-27-62	[3] 14.1344	14.6392	----------
RI62-297	Jackie Grubb Ankenman, et vir, 646 Bank of Commerce Building, Houston 2, Tex.	1	6	Iroquois Gas Corp. (Sheridan Field, Colorado County, Tex.) (R.R. District No. 3).	618	12-21-61	1-21-62	6-21-62	[3] 17.668	18.6776	G-17064
RI62-298	Estate of Naomi S. Grubb, c/o Mr. Charles W. Hamilton, 2101 Bank of Commerce Building, Houston 2, Tex.	1	6	Iroquois Gas Corp. (Sheridan Field, Colorado County, Tex.) (R.R. District No. 3).	1,236	12-21-61	1-21-62	6-21-62	[3] 17.668	18.6776	G-17063
RI62-299	Kerr-McGee Oil Industries, Inc., Kerr-McGee Building, Oklahoma City 2, Okla.	53	6	Natural Gas Pipeline Co. of America (Camrick Southeastern Field, Texas County, Okla.).	42	12-22-61	1-23-62	6-23-62	[3] 17.0	17.2	RI61-327

[1] The stated effective date is the first day after expiration of the required statutory notice or, if later, the date requested by respondent.
[2] Periodic increases by contract.
[3] Pressure base is 14.65 psia.
[4] Pressure base is 15.025 psia.

The proposed increased rates exceed the applicable area price levels.

The increased rates and charges so proposed may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearings concerning the lawfulness of the several proposed changes and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), public hearings shall be held upon dates to be fixed by notices from the Secretary concerning the lawfulness of the several proposed increased rates and charges contained in the above-designated supplements.

(B) Pending hearings and decisions thereon, the above-designated rate supplements are hereby suspended and the use thereof deferred until the date indi-

[1] This order does not provide for the consolidation for hearing or disposition of the several matters covered herein, nor should it be so construed.

cated in the above "Date Suspended Until" column, and thereafter until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until these proceedings have been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37) on or before March 6, 1962.

By the Commission.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 62-691; Filed, Jan. 22, 1962; 8:45 a.m.]

[Docket Nos. G-17296, G-19087, G-20109]

NEW YORK STATE NATURAL GAS CORP.

Notice of Extension of Time and Postponement of Hearing

JANUARY 15, 1962.

Upon consideration of the motion filed January 9, 1962, by counsel for New York State Natural Gas Corporation (New York Natural) for an extension of time within which New York Natural shall serve its prepared testimony and exhibits for its case-in-chief upon all parties as required by the Commission's order issued November 21, 1961, and postponement of the hearing now scheduled for February 19, 1961, in the above-designated matter;

An extension is hereby granted to and including February 19, 1962, within which New York Natural shall serve its prepared testimony and exhibits for its case-in-chief upon all parties and the hearing now scheduled to commence on February 19, 1962, is hereby postponed to March 19, 1962, at 10:00 a.m., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C. Paragraphs (C) and (D) of said order issued November 21, 1961, are amended accordingly.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 62-693; Filed, Jan. 22, 1962; 8:46 a.m.]

[Docket No. CP61-312]

KENTUCKY GAS TRANSMISSION CORP. AND THE UNION LIGHT, HEAT AND POWER CO.

Notice of Application and Date of Hearing

JANUARY 16, 1962.

Take notice that on June 7, 1961, as supplemented on September 21, 1961, Kentucky Gas Transmission Corporation (Kentucky Gas), 1700 MacCorkle Avenue SE., Charleston, West Virginia, and The Union Light, Heat and Power Company (Union), Seventh and Scott Streets, Covington, Kentucky (sometimes hereinafter referred to jointly as Applicants) filed a joint application in Docket No. CP61-312, for: (a) Permission and approval for Kentucky Gas to abandon by sale to Union and The Cincinnati Gas & Electric Company (Cincinnati) a segment of Kentucky Gas' 24-inch transmission pipeline AM-7 located in Kentucky and Ohio, including a multiple 20-inch O.D. crossing of the Ohio River; and (b) a certificate of public convenience and necessity authorizing Union to acquire and operate that portion of the subject 24-inch pipeline and subject river crossing located in Kentucky and authorizing Union to transport and deliver for the account of Kentucky Gas, through the facilities to be acquired, volumes of natural gas deliverable to Cincinnati by Kentucky Gas, all as more fully set forth in the application, as supplemented, on file with the Commission and open to public inspection.

The facilities to be sold by Kentucky Gas to Union and Cincinnati are:

	Original cost	Depreciated cost as of Dec. 31, 1960
To Union		
25,349 feet of 24-inch gas pipeline AM-7 including 4,915 feet of 20-inch river crossing and related facilities extending from Erlanger, Ky., to the Kentucky-Ohio State line	$683,169.93	$623,736.77
To Cincinnati		
1,572 feet of 20-inch river crossing and related facilities extending from the Kentucky-Ohio State line to an existing point of connection with Cincinnati near Anderson Ferry, Ohio	93,171.25	84,547.81

Applicants state that the proposed transfer of facilities is designed to eliminate the necessity of constructing duplicate pipeline facilities for the distribution of peak-shaving propane-air gas following the development by Union of propane storage facilities in the Commonwealth of Kentucky.

Union and Cincinnati have agreed to purchase the subject facilities at a price which would be the original cost less accrued depreciation as of the date of closing.

The proposed transportation service by Union is for the purpose of maintaining existing service rendered by Kentucky Gas to Cincinnati through the facilities herein proposed to be acquired.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on February 19, 1962, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such joint application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10 on or before February 9, 1962. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 62-692; Filed, Jan. 22, 1962; 8:46 a.m.]

[Docket No. CP61-169]

TEXAS EASTERN TRANSMISSION CORP.

Notice of Petition to Amend Order Issuing Certificate of Public Convenience and Necessity

JANUARY 16, 1962.

Take notice that on October 30, 1961, Texas Eastern Transmission Corporation (Petitioner), P.O. Box 1189, Houston, Texas, filed in Docket No. CP61-169 a petition to amend an order issuing certificate of public convenience and necessity to include therein sales of natural gas from certain additional acreage in the Flora Vista area, San Juan County, New Mexico, all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

On April 21, 1961, in Docket No. CP61-169 (Docket Nos. G-3196, et al.). Petitioner was granted a certificate of public convenience and necessity authorizing the field sale of natural gas to El Paso Natural Gas Company (El Paso) from acreage in the Flora Vista area, San Juan County, New Mexico. The petition states that Petitioner and El Paso have entered into a Supplemental Gas Purchase Agreement dated October 4, 1961, by the terms of which such additional acreage is added to the Gas Purchase Agreement between said parties dated March 18, 1957, upon which said certificate was issued, as aforesaid. Petitioner requests that said certificate be amended to include sales from the additional acreage.

Protests, petitions to intervene, or requests for hearing may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before February 9, 1962.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 62-694; Filed, Jan. 22, 1962; 8:46 a.m.]

[Docket No. RI62-300]

McALESTER FUEL CO.

Order Providing for Hearing on and Suspension of Proposed Change in Rate

JANUARY 17, 1962.

On December 18, 1961, McAlester Fuel Company (McAlester) [1] tendered for filing a proposed change in its presently effective rate schedule for jurisdictional sales of natural gas to Texas Eastern Transmission Corporation from the Fort Lynn Field, Miller County, Arkansas. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of change, dated December 14, 1961.
Rate schedule designation: Supplement No. 6 to McAlester's FPC Gas Rate Schedule No. 3.
Effective date: January 18, 1962 (effective date is the first day after expiration of the required 30 days' notice).
Rate in effect: 14.3¢ per Mcf at 14.65 psia.
Proposed increased rate: 14.475¢ per Mcf at 14.65 psia.
Annual increase: $607.00.

The proposed increase consists of reimbursement of a portion of the increase in the Arkansas gas severance tax plus a portion of the newly enacted Arkansas gas conservation assessment, under the terms of McAlester's gas purchase contract.

The proposed increased rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the proposed change, and that Supplement No. 6 to McAlester's FPC Gas Rate Schedule No. 3 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 6 to McAlester's FPC Gas Rate Schedule No. 3.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until June 18, 1962, and thereafter until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended, nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before March 5, 1962.

By the Commission.

JOSEPH H. GUTRIDE,
Secretary.

FEDERAL RESERVE SYSTEM

HACKENSACK TRUST CO.

Order Approving Merger of Banks

In the matter of the application of The Hackensack Trust Company for approval of merger with The Bank of Saddle Brook & Lodi.

There has come before the Board of Governors, pursuant to Section 18(c) of the Federal Deposit Insurance Act (12 U.S.C. 1828(c)), an application by The Hackensack Trust Company, Hackensack, New Jersey, for the Board's prior approval of the merger of The Bank of Saddle Brook & Lodi, Saddle Brook, New Jersey, with and into The Hackensack Trust Company, under the charter and title of the latter.

Pursuant to said section 18(c), notice of the proposed merger, in form approved by the Board of Governors, has been published, and reports on the competitive factors involved in the proposed transaction have been furnished by the Comptroller of the Currency, the Federal Deposit Insurance Corporation, and the Department of Justice and have been considered by the Board.

It is ordered, For the reasons set forth in the Board's statement [1] of this date, that said merger be, and hereby is, approved, provided that said merger shall not be consummated (a) sooner than 7 calendar days after the date of this order or (b) later than 3 months after said date.

Dated at Washington, D.C., this 17th day of January 1962.

By order of the Board of Governors.

[SEAL] MERRITT SHERMAN,
Secretary.

DEPARTMENT OF LABOR

Wage and Hour Division

CERTIFICATES AUTHORIZING EMPLOYMENT OF LEARNERS AT SPECIAL MINIMUM RATES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.), the regulations on employment of learners (29 CFR Part 522), and Administrative Order No. 524 (24 F.R. 9274) the firms listed in this notice have been issued special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates otherwise applicable under section 6 of the Act. The effective and expiration dates, occupations, wage rates, number or proportion of learners, learning periods, and the principal product manufactured by the employer for certificates issued under general learner regulations (§§ 522.1 to 522.11) are as indicated below. Conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.20 to 522.25, as amended).

The following learner certificates were issued authorizing the employment of ten percent of the total number of factory production workers for normal labor turnover purposes. The effective and expiration dates are indicated.

Bali Bra Manufacturing Co., 2445 Bedford Street, Johnstown, Pa.; effective 1-11-62 to 1-10-63 (brassieres).

Martin Manufacturing Co., Inc., 202 North Broadway, Martin, Tenn.; effective 1-11-62 to 1-10-63 (men's shirts and jumpers for armed services).

Salant & Salant, Inc., First Street, Lawrenceburg, Tenn.; effective 1-20-62 to 1-19-63 (men's cotton work shirts).

Waverly Garment Co., Waverly, Tenn.; effective 1-4-62 to 1-3-63 (men's and boys' cotton work pants).

The following learner certificate was issued for normal labor turnover purposes. The effective and expiration date and the number of learners authorized is indicated.

Nat Nast, Inc., Highway K-32, Bonner Springs, Kans., effective 1-5-62 to 1-4-63; 10 learners (men's bowling shirts, women's bowling shirts).

The following learner certificates were issued for plant expansion purposes. The effective and expiration dates and the number of learners authorized are indicated.

Atwood, Inc., Mooresville, N.C.; effective 1-3-62 to 7-2-62; 25 learners (pants, work shirts).

Metro Pants Co., Bridgewater, Va.; effective 1-4-62 to 7-3-62; 20 learners (boys' trousers).

Reidbord Brothers Co., Livingston Street, Elkins, W. Va.; effective 1-5-62 to 7-4-62; 30 learners (men's trousers and work shirts).

Knitted Wear Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.30 to 522.35, as amended).

Cherrybell Manufacturing Corp., 1720 South Cherrybell Stravenue, Tucson, Ariz.; effective 1-5-62 to 7-4-62; 15 learners for plant expansion purposes (ladies undergarments).

Lady Jane Manufacturing Co., Inc., 125 South Spruce Street, Mt. Carmel, Pa.; effective 1-9-62 to 1-8-63; 5 percent of the total number of factory production workers for normal labor turnover purposes (ladies' underwear).

Shadowline, Inc., Morganton, N.C.; effective 1-15-62 to 1-14-63; 5 percent of the total number of factory production workers for normal labor turnover purposes (ladies' woven and knit lingerie).

Each learner certificate has been issued upon the representations of the employer which, among other things, were that employment of learners at special minimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be annulled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 522.9.

Signed at Washington, D.C., this 16th day of January 1962.

ROBERT G. GRONEWALD,
Authorized Representative of the Administrator.

INTERSTATE COMMERCE COMMISSION

[No. 33933]

NORTHERN PACIFIC RAILWAY CO. AND KNAUF & TESCH CO.

Rates on Shipments of Millet Seed From North Dakota Points to Points in New York

At a session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D.C., on the 12th day of January A.D. 1962.

It appearing, that by petition filed November 6, 1961, the Northern Pacific Railway Company seeks a declaratory order under section 5(d) of the Administrative Procedure Act, determining the applicable rates on certain shipments of millet seed from Oakes, Wyndmere and Lisbon, North Dakota, to Brooklyn and New York, New York on and between October 30, 1956 and March 14, 1958, or, in the alternative, for such other action as is deemed proper in the premises, to which petition a reply was filed on November 21, 1961, by the shipper, the Knauf & Tesch Company, hereinafter called respondent; and, that court actions have been filed in the circuit court for Douglas County, State of Wisconsin, for the collection of undercharges, which suits have been stayed pending consideration by the Commission of the applicable rates and charges:

It is ordered, That the said petition be, and it is hereby, docketed with the number and title set forth above;

It is further ordered, That this proceeding be handled under modified procedure; that petitioner and any interested person subsequently permitted to intervene herein comply with §§ 1.45 to 1.54, inclusive, of the Commission's general rules of practice, the filing and service of pleadings to be as follows: (a) not later than February 21, 1962, opening statement of facts and argument by the petitioner and any party supporting the position of the petitioner; (b) 30 days thereafter statement of facts and argument by the respondent and any party supporting the position of the respondent, or taking a neutral position with respect thereto; and (c) 10 days thereafter reply by the petitioner or other person described in (a);

It is further ordered, That any pleadings filed responsive to this order shall be served upon all parties subsequently permitted to intervene herein, and also upon:

Mr. H. B. Krengel, Attorney,
Northern Pacific Railway Co.,
1018 Northern Pacific Building,
St. Paul 1, Minn.

from whom a copy of the said petition may be obtained.

And it is further ordered, That a copy of this order be filed with the Director, Division of the Federal Register.

By the Commission, Division 2.

[SEAL] HAROLD D. McCOY,
Secretary.

[F.R. Doc. 62-713; Filed, Jan. 22, 1962; 8:47 a.m.]

MR. KEITH LYRLA

Statement of Changes in Financial Interests

Pursuant to subsection 302(c), Part III, Executive Order 10647 (20 F.R. 8769) "Providing for the Appointment of Certain Persons Under the Defense Production Act of 1950, as amended," I hereby furnish for filing with the Division of the Federal Register for publication in the FEDERAL REGISTER the following information showing any changes in my financial interests and business connections as heretofore reported and published (20 F.R. 10086; 21 F.R. 3475; 21 F.R. 9198; 22 F.R. 3777; 22 F.R. 9450; 23 F.R. 3798; 23 F.R. 9501; 24 F.R. 4187; 24 F.R. 9502; 25 F.R. 102; 26 F.R. 1692, and 26 F.R. 6284) during the period from July 1, 1961 through December 31, 1961.

Increase in holding of Illinois Central Railroad Co. stock to 500 shares in August 1961.

Dated: January 5, 1962.

KEITH H. LYRLA.

[F.R. Doc. 62-714; Filed, Jan. 22, 1962; 8:47 a.m.]

FLOYD A. MECHLING

Statement of Changes in Financial Interests

Pursuant to subsection 302(c), Part II, Executive Order 10647 (20 F.R. 8769) "Providing for the Appointment of Certain Persons Under the Defense Production Act of 1950, as amended," I hereby furnish for filing with the Division of the Federal Register for publication in the FEDERAL REGISTER the following information showing any changes in my financial interests and business connections as heretofore reported and published (22 F.R. 996; 22 F.R. 6584; 23 F.R. 1062; 23 F.R. 6730; 24 F.R. 552; 24 F.R. 6251; 24 F.R. 9689; 24 F.R. 109; 26 F.R. 1693; and 26 F.R. 6463), for the period July 26, 1961, through January 25, 1962.

Additions:
(1) Barge Painting & Coating, Inc.

Dated: January 25, 1962.

F. A. MECHLING.

Order from Superintendent of Documents, Government Printing Office, Washington 25, D.C.

FEDERAL REGISTER

Telephone WOrth 3-3261

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Office of the Federal Register, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D.C.
